**Re: The Global Currency Gold Trust
Amendment No. 2 to Registration Statement on Form S-1
Filed May 27, 2016
File No. 333-206640**

Dear Mr. Collett:

We have reviewed your amended registration statement and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter by amending your registration statement and providing the requested information. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your registration statement and the information you provide in response to these comments, we may have additional comments. Unless we note otherwise, our references to prior comments are to comments in our December 15, 2015 letter.

General

1. We note your response to comment 1 in your letters dated May 27, 2016 and November 20, 2015. We understand your position that only a small percentage of the Fund's assets are exposed to counterparty risk each day based on daily settlement and historical changes in the value of the Reference Currencies comprising the FX Basket. As we continue to evaluate your response, please tell us what would happen in the event of a default by Merrill Lynch International. For example, it appears as though the Fund may be exposed to counterparty risk for greater than a T+3 time period to the extent the Fund is unable to find an alternative swap counterparty.

2. Your revised disclosure references the financial statements filed by Bank of America Corporation. Please tell us whether Bank of America Corporation will guarantee the payment obligation of Merrill Lynch International under the Gold Delivery Agreement.

3. Please explain to us, with a view towards disclosure, whether the pre-determined weightings attributed to the currencies comprising the FX Baskets may be changed, and if so, the frequency with which such change can occur. Please also explain, with a view towards disclosure, how the initial weightings were determined and what factors would be used to change the weightings in the future.
4. Please add disclosure explaining why the reference currencies comprising the FX Basket will need to be reset to the pre-determined weightings at the close of each Index Business Day.

5. We note your revised disclosure on page 41 that a pre-defined spread set for each currency at each fix will be applied to the Trade Rate to calculate the opposite bid or offer. Please revise to clarify that the pre-defined standard spread is set to reflect liquidity at different times of day.
