The partnership also provides advice to fund managers regarding ways to improve their methods of raising capital.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United State of America (“GAAP”).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

The following is a summary of the significant accounting policies followed by the Partnership.

Placement fees

The Partnership records success fees in accordance with the related party agreements (see related party transaction note). These agreements are generally recognized at the point in time that performance under the arrangement is completed (the closing date of the transaction) or the contract is cancelled. The Company believes that the transaction date is the appropriate point in time to recognize revenue for Success fees as there are no significant actions which the Partnership needs to take subsequent to this date.

Service fees

The Partnership records Service fees in accordance with the related party agreements (see related party transaction note). The Partnership earns a monthly Service fees from the Parent for its roll in introducing leading institutional investors to fund and other non-traditional investments.
