Form 20-F for the Fiscal Year Ended December 31, 2016

Item 5. Operating and Financial Review and Prospects.

Comparison of the Years Ended December 31, 2015 and 2016, page 45

1. We have considered your response to comment 2 with regard to the non-GAAP financial measure adjustment that excludes the impact of issuing warrants to Amazon. We do not believe this adjustment is appropriate as it represents a material element of your customer arrangement (i.e., a sales incentive) and could lead investors to improperly infer that you would have generated the same revenue levels without granting this incentive. Comply with this comment in all future filings.
