Adam Bierschenk

VP of Additive at 3DX Industries
Bellingham, Washington, United States

Summary

Mr. Bierschenk currently serves as 3DX's VP of Additive. His career has been shaped through 20+ years of hands-on experience in manufacturing and design with diverse teams. He is a Machinist, Shipwright, and Product Designer excelling in collaborative design. Adam has recently served as Engineering Director for Geoship SPC, Lead Designer for Swell Watercraft, and R&D technician at Johnson Outdoors. He first joined 3DX in 2018 as Quality Control Manager.
