Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Key Performance Metrics, page 35

1. We note that your non-GAAP financial measure of Adjusted Net Earnings eliminates the net incremental depreciation and amortization associated with the application of purchase accounting. Please provide us with a detailed description of the nature and origin of the underlying assets associated with this incremental depreciation and amortization. In addition, explain how adjusting net earnings for this item provides useful information to investors and does not represent the use of an individually tailored recognition and measurement method that may violate Rule 100(b) of Regulation G and the Commission's Non-GAAP Compliance & Disclosure Interpretation 100.04.
