Best's *Understanding Best's Credit Ratings*, available at <http://www.ambest.com/ratings/ubcr.pdf>.

A.M. BEST RATING SERVICES, INC.

Definition of Default

A.M. Best defines a default as when either of the following conditions apply: 1) an obligor failed to timely pay principal or interest due according to the terms of an obligation or the issuer of the security or money market instrument failed to timely pay principal or interest due according to the terms of the security or money market instrument; or 2) an obligor has been designated as a Financially Impaired Company or FIC.

A.M. Best designates an insurer as an FIC as of the first public action taken by an insurance department or regulatory body, whereby the insurer's a) ability to conduct normal insurance operations is adversely affected, b) capital and surplus have been deemed inadequate to meet regulatory requirements, or c) general financial condition has triggered regulatory concern. The actions include supervision, rehabilitation, liquidation, receivership, conservatorship, cease-and-desist orders, suspension, license revocation and certain administrative orders. Companies that enter voluntary dissolution and are not under financial duress at that time are not counted as financially impaired.

Please note that financial impairment often occurs even if an insurance company has not formally been declared insolvent. For instance, an FIC's capital and surplus could have been deemed inadequate to meet risk-based capital requirements, or there might have been regulatory concern regarding its general financial condition. Thus, at any given rating level, more insurers would be impaired, according to the A.M. Best definition, than actually would default on insurance policy and contract obligations. Nevertheless, A.M. Best includes financial impairment in its default definition.
