Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
