RISK FACTORS

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C/A. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

COVID-19 has had an effect on our business operations and revenue projections.

With shelter-in-place orders and non-essential business closings potentially happening throughout 2020 and into the future due to COVID-19, the Company's growth has been adversely affected. Company's usage numbers and revenues have stagnated during the lockdowns.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenues from sales, as well as the inherent business risks associated with our Company and present and future market conditions. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

We rely on other companies to provide components and services for our products.

We depend on suppliers and contractors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if suppliers or contractors do not provide the agreed-upon supplies or perform the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our products may be adversely impacted if companies to whom we delegate manufacture of major components or subsystems for our products, or from whom we acquire such items, do not provide components which meet required specifications and perform to our and our customers' expectations. Our suppliers may be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two contractors or suppliers for a particular component. Our products may utilize custom components available from only one source. Continued availability of those components at acceptable prices, or at all, may be affected for any number of reasons, including if those suppliers decide to concentrate on the production of common components instead of components customized to meet our requirements. The supply of components for a new or existing product could be delayed or constrained, or a key manufacturing vendor could delay shipments of completed products to us adversely affecting our business and results of operations.

We rely on various intellectual property rights, including trademarks, in order to operate our business.

The Company relies on certain intellectual property rights to operate its business. The Company's intellectual property rights may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our patent rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. The law relating to the scope and validity of claims in the technology field in which we operate is still evolving and, consequently, intellectual property positions in our industry are generally uncertain. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, we are dependent on Payam Safa, our CEO, Daniel Gohari, our Director, Norman Rose, our Director, and Ji Young Choi, our COO. The loss of any of the aforementioned people could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people.

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations.

We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets, and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

We continue to face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including “bugs” and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers’ or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer

capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company of such compliance could be substantial and could have a material adverse effect on the Company's results of operations.

We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

We are also subject to a wide range of federal, state, and local laws and regulations, such as local licensing requirements, and retail financing, debt collection, consumer protection, environmental, health and safety, creditor, wage-hour, anti-discrimination, whistleblower and other employment practices laws and regulations and we expect these costs to increase going forward. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease and desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we have incurred and will continue to incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

The Company is in the process of rebranding under the name Obi

The Company is currently rebranding and operating under the name "Obi." As of the date of the Offering, the Company has not changed its business name with any State or applied for a "fictitious" or "doing business as" name in any State. However, the Company has obtained a trademark for the name "Obi"(see "Intellectual Property" section below). While the Company believes it will be able to operate under the name "Obi," there are other companies that may now be using the name and who may prevent the Company from using the name on a long-term basis. Failure by the Company to obtain a "fictitious" or "doing business as" name could result in penalties and fines to the Company.

Risks Related to the Offering

State and federal securities laws are complex, and the Company could potentially be found to have not complied with all relevant state and federal securities law in prior offerings of securities.

The Company has conducted previous offerings of securities and may not have complied with all relevant state and federal securities laws. If a court or regulatory body with the required jurisdiction ever concluded that the Company may have violated state or federal securities laws, any such violation could result in the Company being required to offer rescission rights to investors in such offering. If such investors exercised their rescission rights, the Company would have to pay to such investors an amount of funds equal to the purchase price paid by such investors plus interest from the date of any such purchase. No assurances can be given the Company will, if it is required to offer such investors a rescission right, have sufficient funds to pay the prior investors the amounts required or that proceeds from this Offering would not be used to pay such amounts.

In addition, if the Company violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Company which, among other things, could result in the Company having to pay substantial fines and be prohibited from selling securities in the future.

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C/A is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C/A, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C/A and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For

example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney. Additionally, investors will only have a beneficial interest in the securities, not legal ownership, which may make their resale more difficult.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof. Additionally, investors will only have a beneficial interest in the securities, not legal ownership, which may make their resale more difficult as it will require coordination with the Custodian.

Investors will not have a beneficial interest in equity of the Company until the Company decides to convert the Securities into “CF Shadow Securities” (the type of equity securities issuable upon conversion of the Securities) or until there is a change of control or sale of substantially all of the Company’s assets.

Investors will not have a direct or indirect ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Company. Investors will not have a beneficial interest in the equity of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities into CF Shadow Securities, in which case the Custodian will become the legal owner and holder of record. The Company is under no obligation to convert the Securities into CF Shadow Securities. In certain instances, such as a sale of the Company or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than a beneficial interest in equity in the Company.

Investors will not have voting rights, even upon conversion of the Securities into CF Shadow Securities. Upon the conversion of the Securities into CF Shadow Securities (which cannot be guaranteed), the holder of the CF Shadow Securities (the Custodian) will vote in tandem with the majority holders of whichever series of securities the CF Shadow Securities follow.

Investors will not have the right to vote upon matters of the Company even if and when their Securities are converted into CF Shadow Securities (the occurrence of which cannot be guaranteed). Upon such conversion, the CF Shadow Securities will have no voting rights and, in circumstances where a statutory right to vote is provided by state law, the Custodian will vote CF Shadow Securities with the majority of the holder(s) of the securities issued in the round of equity financing that triggered the conversion right. For example, if the Securities are converted in connection with an offering of Series B Preferred Stock, Investors would receive a beneficial interest in CF Shadow Securities in the form of a beneficial interest in shares of Series B-CF Shadow Preferred Stock and the Custodian would be bound by their terms to vote their shares of Series B-CF Shadow Preferred Stock consistent with the majority of the Series B Preferred Stockholders. Thus, Investors will essentially never be able to vote upon any matters of the Company.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information.

Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which Investors will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never conduct a future equity financing or elect to convert the Securities if such future equity financing does occur. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an initial public offering. If neither the conversion of the Securities nor a liquidity event occurs, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company’s assets or profits and have no voting rights or ability to direct the Company or its actions.

Equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company’s equity securities will be subject to dilution. The Company intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor’s control and economic interests in the Company.

The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company’s needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

In addition, the Company has certain equity grants and convertible securities outstanding. Should the Company enter into a financing that would trigger any conversion rights, the converting securities would further dilute the equity securities receivable by the holders of the Securities upon a qualifying financing.

Equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued by the Company at the time of conversion.

In the event the Company decides to exercise the conversion right, the Company will convert the Securities into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the First Equity Financing Price (as defined in the Omnibus Crowd SAFE agreement) shall have only such preferences, rights, and protections in proportion to the First Equity Financing Price and not in proportion to the price per share paid by new investors receiving the equity securities. Upon conversion of the Securities, the Company may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

The forgoing paragraph is only a summary of a portion of the conversion feature of the Securities; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the Omnibus Crowd SAFE agreement, which is attached as Exhibit C.

There is no present market for the Securities and we have arbitrarily set the price.

The Offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our asset value, net worth, revenues or other established criteria of value. We cannot guarantee that the Securities can be resold at the Offering price or at any other price.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities that have not been converted will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred stock, have been paid in full. Neither holders of the Securities nor holders of CF Shadow Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their purchase amount upon the occurrence of certain events, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Securities, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Securities, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C/A and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C/A, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

BUSINESS

Description of the Business

Our Company provides an app to streamline the on-demand transportation experience by aggregating ride shares, bike and scooter shares, car shares, and public transit into single interface. Our customers have the option to decide which ride or bike service they would prefer, which saves them time and money. We utilize the same pricing and availability data provided by the ride sharing and bike/scooter sharing companies, and consumers pay the same price as if they were transacting on the original ride sharing and bike sharing apps. Depending on the ride or bike option chosen, we make money based on negotiated commissions for traffic sent to the supplier transportation provider.

Business Plan

The Company's business model relies on the continued growth and success of new and existing ride-hailing, bike sharing, car sharing and other on-demand transportation apps. As a "Kayak for transportation services," the Company's intention is to continue our growth into multiple transportation verticals, such as car sharing, bike sharing, and public transit services. Therefore, growth in these additional categories is also dependent on the continued growth and success of these respective apps. The problem in today's world is that the volume of apps has grown so exponentially in the past few years that consumers don't know how to take advantage of all the capabilities that apps provide. For example, some consumers switch between the various ride hailing apps to decide which ride option is best based on price, number of stops, or pickup time. The problem is exacerbated for travelers since they don't always know which apps are even available in a foreign destination. The Company's vision is to bring together the best apps across transportation (taxis, ride sharing, car sharing, bike and scooter sharing, and public transit) into a single app, with rides bookable on-demand globally. This creates a seamless experience so consumers no longer need to figure out and search for what's best and available whether at home or on the road. Consumers will be able to book rides directly through the Bellhop app without needing any other app on his/her phone—paying the same price as they normally would pay on our suppliers' apps. The Company is working towards having merchant of record capability so consumers don't have to have accounts with every transportation provider. Direct B2C digital marketing campaigns (social media, email marketing, testing limited ads on FB, Twitter, Instagram, Google), optimization in organic search results, and app store optimization are the primary user acquisition channels. The Company targets specific consumer segments we believe have a strong likelihood of being active users of the app, e.g. college females who don't like taking public transport late at nights, lawyers going between meetings all day in the city, and consultants traveling every week. The market opportunity in the U.S. alone for ride sharing is roughly \$50B. The Company utilizes its marketing and online presence to win with consumers when they could be considering various ride-hailing alternatives. The Company works collaboratively with its customers to improve the app experience and incorporate features that will keep them loyal. We believe we must continue to provide new, innovative capabilities and branding to the consumer in order to grow our business. Research and product development activities, designed to enable sustained organic growth, carry a high priority. While many of the benefits from these efforts might not be realized until future years, we believe these activities demonstrate our commitment to future growth.

The Company's Products and/or Services

Product / Service	Description	Current Market
An app that is an aggregator of on-demand transportation services.	We are constantly researching new service categories which we think might appeal to our customers, such as bikes, car shares, bikes and scooter shares, and public transit services. We currently offer the ride-hailing and bike sharing capability and are hoping to expand our offerings into car sharing and public transit by next year.	We offer our mobile app for download through the Apple App and Google Play stores, and users are made aware of the application primarily through digital media (e.g. social media), search engines, and email marketing campaigns.

Competition

The markets in which our products are sold are highly competitive. Our products compete against similar products of many large and small companies, including well-known global competitors. In many of the markets and industry segments in which we sell our products, we compete against other branded products as well as retailers' private-label brands. Product quality, performance, value and packaging are also important differentiating factors.

The Company’s primary competitors are Migo, Google Maps, and Transit. Google Maps has added on-demand ride transportation as an additional mode of transport when a user inputs a destination. They have an advertising business model, and the user experience isn’t optimized to be a ride hailing app. Migo is a multi-modal ground transportation app that combines ride sharing and bike sharing in addition to the ride hailing capability. As a result, their experience for booking rides is also sub-optimal when compared to the Company. Transit is a public transit app that shows bus and subway routes and timetables. They have recently integrated Uber and Lyft into the app, giving their users the ability to book some ride options as well. The Company’s advantages are being first to market as an extremely scalable aggregator of transportation apps and securing relationships with many of the top apps.

Customer Base

City-based individuals ages 18- 65 who use at least one ride- hailing app.

Supply Chain

Although many ride-hailing apps, which are essential to the Company’s business, exist throughout the US and around the world, the Company needs access to the APIs of each supplier and subsequently needs to build an integration using the API. The Company has no exclusivity arrangements, so although we have a first mover advantage and a leader in the market, other competitors can continue to enter the market with similar product offerings. Therefore, the Company’s ability to deliver transportation services is dependent on supplier apps’ abilities to offer their services without significant shortage or downtime. Such outages or downtime could materially adversely affect the Company’s operating results.

Method of Calculation

The following is a brief discussion on the method used to calculate percentage ownership of the company by each of the above types of securities.

Common and Preferred Stock

Each class of common and preferred stock listed above has the outstanding number of shares listed in the tables above. These numbers are accurate as of the date of this Offering. A full description of all the rights and preferences of each class of stock authorized or outstanding is not included herein.

SAFE

The SAFEs have a \$7,000,000 valuation cap and a 20% discount, and, for purposes of calculating the percentage ownership, we have assumed: that the next equity financing of the company will be of the type that would cause the SAFE to convert at the valuation cap; that no additional shares of any class will be issued; that all warrants will have been exercised; and that no other SAFEs or convertible instruments will have been issued. The above percentages are likely to be different based on any of the assumptions above not actually being true at the time of conversion, and the issuance of the Securities could impact the rights of the current SAFE holders. Additionally, the SAFEs have a discount rate, and if the valuation of the Company is less than our assumptions, the SAFE holders will likely receive a higher percentage.

Options

The Company has an employee stock plan in place and has issued the number of options listed in the granted options table above. The Company has remaining options in its option pool, and, for purposes of calculating percentages in this section, we have assumed that all options will be granted.

Percentage Ownership and Voting Power

The Company has authorized and issued Class F shares of Common Stock, which have the same rights as Class A Common Stock except that each share of Class F has 3,500 votes per share. Our calculations of the percentage ownership based on voting power takes into account the voting power of each class.

Outstanding Debt

The Company has the following debt outstanding:

Type	Personal Loan
Amount Outstanding	\$60,575
Interest Rate and Amortization Schedule	0%
Description of Collateral	Unsecured Loan from Payam Safa
Other Material Terms	N/A
Maturity Date	N/A

Ownership

The table below lists the beneficial owners of twenty percent (20%) or more of the Company’s outstanding voting equity securities, calculated on the basis of voting power, are listed along with the amount they own.

Name	Amount and Type or Class Held	Percentage Ownership
Payam Safa	8,500,000/Common Stock 1,000 / Class F Common Stock 689,280/ Series A	69%

FINANCIAL INFORMATION

Please see the financial information listed on the cover page of this Form C/A and attached hereto in addition to the following information. Financial statements are attached hereto as Exhibit A. The financial statements attached hereto as Exhibit A have been certified by our principal executive and have not been reviewed by an independent public accountant.

Operations

The Company was incorporated in Delaware on April 14, 2014 under the name Techotel Inc. The name was changed on January 3, 2018. The Company is headquartered at 137 West 25th Street, New York, NY 10001, United States. Our Company provides an app to streamline the on-demand transportation experience by aggregating ride shares, bike and scooter shares, car shares, and public transit into single interface. Our customers have the option to decide which ride or bike service they would prefer, which saves them time and money. We utilize the same pricing and availability data provided by the ride sharing and bike/scooter sharing companies, and consumers pay the same price as if they were transacting on the original ride sharing and bike sharing apps. Depending on the ride or bike option chosen, we make money based on negotiated commissions for traffic sent to the supplier transportation provider.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of 90 days or less to be cash equivalents.

As of June 15, 2021, the Company had an aggregate of \$76,962 in cash and cash equivalents, leaving the Company with approximately 5 months of runway.

Liquidity and Capital Resources

The proceeds from the Offering are essential to our operations. We plan to use the proceeds as set forth above under the section titled “*Use of Proceeds*”, which is an indispensable element of our business strategy.

Capital Expenditures and Other Obligations

The Company does not intend to make any material capital expenditures in the near future.

Valuation

The Company has ascribed no pre-Offering valuation to the Company; the securities are priced arbitrarily.

Material Changes and Other Information

Trends and Uncertainties

After reviewing the above discussion of the steps the Company intends to take, potential Investors should consider whether achievement of each step within the estimated time frame will be realistic in their judgment. Potential Investors should also assess the consequences to the Company of any delays in taking these steps and whether the Company will need additional financing to accomplish them.

Please see the financial statements attached as Exhibit A for subsequent events and applicable disclosures.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering a minimum amount of the Target Offering Amount and up to a maximum amount of the Maximum Offering Amount of the Securities on a best efforts basis as described in this Form C/A. We must raise an amount equal to or greater than the Target Offering Amount by the Offering Deadline. Unless we raise at least the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be cancelled, and all committed funds will be returned. Potential purchasers of the Securities are referred to herein as “Investors” or “you”.

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities. The minimum amount that an Investor may invest in the Offering is \$100, and the maximum amount that an Investor may invest in the Offering is \$25,000, each of which is subject to adjustment in the Company’s sole discretion.

In order to purchase the Securities, you must make a commitment to purchase by completing the subscription process hosted by OpenDeal Portal LLC dba Republic (the “Intermediary”), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Company are required to correct any errors or omissions made by the Investor.**

Investor funds will be placed into escrow with Prime Trust, LLC until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment until up to 48 hours prior to the Offering Deadline, or such earlier time as such earlier time the Company designates pursuant to Regulation CF using the cancellation mechanism provided by the Intermediary. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds.**

The Company will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Company reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Company continues to meet or exceed the Target Offering amount on the date of the expedited Offering Deadline.

Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Company will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor’s investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If an Investor does not cancel an investment commitment before the Target Offering Amount is reached, the funds will be released to the Company upon the closing of the Offering and the Investor will receive the Securities in exchange for their investment.

Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Company designates pursuant to Rule 304(b) of Regulation CF, the Company may conduct the first of multiple closings of the Offering early, *provided* (i) the new Offering Deadline must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of the new offering deadline at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment

commitments). Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before the new offering deadline.

If the Company conducts an initial closing (the “**Initial Closing**”), the Company agrees to only withdraw half of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Company may only conduct another close (a “**Subsequent Closing**”) before the Offering Deadline if the amount of investment commitments made as of the date of such Subsequent Closing exceeds two times the amount committed on the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline on the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Company upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Company conducted an Initial Closing on May 17th, closing on \$101,935 in investment commitments.

The Company has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Company until they are accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Company rejects all or a portion of any investment commitment, the applicable prospective Investor’s funds will be returned without interest or deduction.

If the Company elects to convert the Securities upon an Equity Financing other than the first Equity Financing following the issuance of the Securities, the Custodian (on behalf of the Investors) will receive the number of CF Shadow Securities equal to the quotient obtained by dividing (a) the SAFE Amount by (b) the First Equity Financing Price.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of a Change of Control (as defined below) of the Company prior to any Equity Financing, the Custodian will automatically be entitled to receive (and the Investor will generally be entitled to receive a pro rata beneficial interest in) a portion of the proceeds from the Change of Control in an amount equal to the greater of (i) a cash payment equal to the SAFE Amount subject to the following paragraph or (ii) the deemed value of that number of shares of Common Stock of the Company equal to the SAFE Amount divided by the quotient of (a) \$19,500,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Company’s capital stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (x) shares of capital stock reserved for future issuance under any equity incentive or similar plan; (y) any Safes; and (z) convertible promissory notes.

In the case of an IPO (as defined below) of the Company prior to any Equity Financing, the Custodian will automatically receive (and the Investor will generally be entitled to receive a pro rata beneficial interest in), that number of shares of Common Stock of the Company equal to the SAFE Amount divided by the quotient of (a) \$19,500,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Company’s capital stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (w) shares of capital stock reserved for future issuance under any equity incentive or similar plan; (x) any Safes; (y) convertible promissory notes; and (z) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or SAFEs.

In connection with any cash payment as the result of a Liquidity Event described above, the SAFE Amount (or a lesser amount as described below) will be due and payable by the Company to the Custodian for the benefit of the Investors immediately prior to, or concurrent with, the consummation of the applicable Liquidity Event. If there are insufficient funds to pay the Custodian and the holders of other Safes (collectively, the “Cash-Out Investors”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors.

“Change of Control” as used above, means (i) a transaction or series of related transactions in which any person or group becomes the beneficial owner of more than fifty percent (50%) of the outstanding voting securities entitled to elect the Company’s board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the

outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

“**IPO**” as used above means: means: (A) the completion of an underwritten initial public offering of Capital Stock by the Company pursuant to: (I) a final prospectus for which a receipt is issued by a securities commission of the United States or of a province of Canada, or (II) a registration statement which has been filed with the United States Securities and Exchange Commission and is declared effective to enable the sale of Capital Stock by the Company to the public, which in each case results in such equity securities being listed and posted for trading or quoted on a recognized exchange; (B) the Company’s initial listing of its Capital Stock (other than shares of Capital Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Company with the SEC that registers shares of existing capital stock of the Company for resale, as approved by the Company’s board of directors, where such listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services; or (C) the completion of a reverse merger or take-over whereby an entity (I) whose securities are listed and posted for trading or quoted on a recognized exchange, or (II) is a reporting issuer in the United States or the equivalent in any foreign jurisdiction, acquires all of the issued and outstanding Capital Stock of the Company.

“**Liquidity Event**” as used above, means either a Change of Control or an IPO.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Change of Control following any Equity Financing, the Custodian will automatically receive (and the Investor will generally be entitled to receive a pro rata beneficial interest in) a portion of the proceeds from the Change of Control in an amount equal to the greater of (i) a cash payment equal to the SAFE Amount (as described in the foregoing paragraph) or (ii) the deemed value of that number of shares of the most recently issued capital stock (whether Preferred Stock or another class issued by the Company) equal to the SAFE Amount divided by the First Equity Financing Price

In the case of an IPO following any Equity Financing, the Custodian will generally be entitled to receive (and the Investor will automatically be entitled to receive a pro rata beneficial interest in) that number of shares of capital stock equal to the SAFE Amount divided by the First Equity Financing Price. Shares of capital stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of capital stock issued in connection with the Company’s most recent Equity Financing.

If the Company’s board of directors (or other applicable governing body if the Company is a limited liability company) determines in good faith that delivery of equity securities to the Custodian pursuant to Liquidity Event paragraphs above would violate applicable law, rule or regulation, or be prohibited by the underwriter in any applicable IPO then the Company shall deliver to Custodian in lieu thereof, a cash payment equal to the fair market value of such capital stock, as determined in good faith by the Company’s board of directors (or other applicable governing body if the Company is a limited liability company).

Each Investor will have a beneficial interest in the Omnibus Crowd SAFE, based on the amount of their investment. An Investor receives equity or cash, in each case as described above, based on their Purchase Amount relative to the SAFE Amount.

Dissolution

If there is a Dissolution Event (as defined below) before the Securities terminate, subject to the preferences applicable to any series of preferred stock then outstanding, the Company will distribute all proceeds legally available for distribution with equal priority among the (i) the Custodian for the benefit of the Investors (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company’s board of directors at the time of the Dissolution Event), (ii) all other holders of instruments sharing in the distribution of proceeds of the Company at the same priority as holders of Common Stock upon a Dissolution Event and (iii) all holders of Common Stock.

A “**Dissolution Event**” means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company’s creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate upon (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur of: (i) the issuance of shares in the CF Shadow Securities to the Investor pursuant to the conversion provisions of the Omnibus Crowd SAFE agreement or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

Neither the Securities nor the securities issuable upon the conversion of the Securities have voting rights.

The Company does not have any voting agreements in place.

The Company does not have any shareholder or equity holder agreements in place.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity issuances and other events will dilute the ownership percentage that the Investor may eventually have in the Company.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (1) to the Company; (2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act; (3) as part of an IPO; or (4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Each Investor should be aware that although the Securities may legally be able to be transferred, there is no guarantee that another party will be willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any capital stock into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel reasonably satisfactory to the Company stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any capital stock into which they are convertible to any of the Company's competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

Other Material Terms

- The Company does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Company cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

COMMISSION AND FEES

At the conclusion of the Offering, the issuer shall pay a fee of six percent (6%) of the amount raised in the Offering to the Intermediary.

Stock, Warrants and Other Compensation

The Intermediary will also receive compensation in the form of securities equal to two percent (2%) of the total number of the Securities sold in the offering.

A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Going Concern

As discussed in Note 10, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

BELLHOP TECHNOLOGIES INC.
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2020 and 2019
(Unaudited)

NOTE 1 – NATURE OF OPERATIONS

Bellhop Technologies Inc. (which may be referred to as the “Company”, “we,” “us,” or “our”) was incorporated in Delaware on April 14, 2014 under the name Techotel Inc. The name was changed on January 3, 2018. The Company has developed an application that combines food, entertainment, and transportation service-based apps into one app based on a user’s location. The Company’s headquarters are in New York, New York. The company began operations in 2014.

Since Inception, the Company has relied on the issuance of convertible notes, Simple Agreements for Future Equity (“SAFEs”), and the issuance of preferred shares to fund its operations. From inception the Company has generated operating losses of \$1,949,166 and will likely incur additional losses prior to generating positive working capital. These matters raise substantial concern about the Company’s ability to continue as a going concern (see Note 9). During the next twelve months, the Company intends to fund its operations with funding from a crowdfunding campaign (see Note 10) and funds from revenue producing activities, if and when such can be realized. If the Company cannot secure additional short-term capital, it may cease operations. These financial statements and related notes thereto do not include any adjustments that might result from these uncertainties.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("US GAAP"). The accompanying unaudited financial statements do not include all the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for the fair presentation of the unaudited financial statements for the years presented have been included.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and footnotes thereto. Actual results could materially differ from these estimates. It is reasonably possible that changes in estimates will occur in the near term.

Significant estimates inherent in the preparation of the accompanying financial statements include valuation of provision for refunds and chargebacks, equity transactions and contingencies.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America, which it believes to be credit worthy. The Federal Deposit Insurance Corporation insures balances up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

Cash and Cash Equivalents

The Company considers short-term, highly liquid investment with original maturities of three months or less at the time of purchase to be cash equivalents. Cash consists of funds held in the Company's checking account. As of December 31, 2020 and 2019, the Company had \$801,629 and \$164,165 of cash on hand, respectively.

Development of Software Application

In compliance with ASC 730-10, Research and Development expenditures, the Company capitalized and carries forward as assets, the costs to develop the RIDEOBI.COM.com Platform App. Research is the planned efforts of a company to discover new information that will help create a new product or service. Development takes the findings generated by research and formulates a plan to create the desired Platform App. The Company applies the GAAP capitalization requirements of the "waterfall" approach which includes a specific sequential order of Plan, Design, Coding/development, Testing and Software release.

The Company monetizes and forecasts the revenues from the RIDEOBI.COM Platform App software and amortize the aggregate costs of the developmental software asset over the forecasted revenue stream; a matching of the revenue and costs, using the straight-line method, based on estimated useful lives of the asset. Maintenance of the platform will be expensed. The estimated useful life is estimated at 5 years.

The Company reviews the carrying value of intangible personal property for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment for December 31, 2020 and December 31, 2019.

The following is the break out of the software development costs as of December 31, 2020 and December 31, 2019:

As of the Year Ended December 31,	2020	2019
Development of Software Application	\$ 2,546,862	\$ 1,971,965
Accumulated Amortization	\$ (1,073,473)	\$ (632,092)
Net Software Development Costs	\$ 1,473,389	\$ 1,339,873

The following is the break out of the future amortization expense as of December 31, 2020:

Fixed Assets

Property and equipment is recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are charged to expense. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the accounts and the resultant gain or loss is reflected in income. In accordance with Financial Accounting

Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 350-40, Accounting for Costs of Computer Software Developed or Obtained for Internal Use, the Company has capitalized external direct costs of material and services developed or obtained for software development projects. Amortization for each software project begins when the computer software is ready for its intended use.

Depreciation is provided using the straight-line method, based on useful lives of the assets. Fixed Assets consist of computers. Depreciation is calculated using the straight-line method over a period of 3 years for the computers. The depreciation expense was \$23,264 and \$23,264 for fiscal years ended December 31, 2020 and December 31, 2019.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment for December 31, 2020 and December 31, 2019.

Fair Value Measurements

Generally accepted accounting principles define fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and such principles also establish a fair value hierarchy that prioritizes the inputs used to measure fair value using the following definitions (from highest to lowest priority):

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 – Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.
- Level 3 – Prices or valuation techniques requiring inputs that are both significant to the fair value measurement and unobservable.

Income Taxes

Income taxes are provided for the tax effects of transactions reporting in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of receivables, property and equipment, intangible assets, and accrued expenses for financial and income tax reporting. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

There is no income tax provision for the Company for the years ending December 31, 2020 and December 31, 2019 as it incurred a taxable loss. In addition, there is a 100% valuation allowance against the net operating losses generated by the Company at December 31, 2020 and December 31, 2019. The Company is taxed as a “C” Corporation.

The Company evaluates its tax positions that have been taken or are expected to be taken on income tax returns to determine if an accrual is necessary for uncertain tax positions. As of December 31, 2020 and December 31, 2019, the unrecognized tax benefits accrual was zero. The Company will recognize future accrued interest and penalties related to unrecognized tax benefits in income tax expense if incurred.

Revenue Recognition

Effective January 1, 2019, the Company adopted Accounting Standards Codification 606, Revenue from Contracts with Customers ("ASC 606"). Revenue is recognized when performance obligations under the terms of the contracts with our customers are satisfied. Prior to the adoption of ASC 606, we recognized revenue when persuasive evidence of an arrangement existed, delivery of products had occurred, the sales price was fixed or determinable and collectability was reasonably assured.

Accounts Receivable

Trade receivables due from customers are uncollateralized customer obligations due under normal trade terms requiring payment within 30 days from the invoice date. Trade receivables are stated at the amount billed to the customer. Payments of trade receivables are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoices. As of December 31, 2020 and 2019 the company had no accounts receivable.

The Company estimates an allowance for doubtful accounts based upon an evaluation of the current status of receivables, historical experience, and other factors as necessary. It is reasonably possible that the Company's estimate of the allowance for doubtful accounts will change.

Advertising

The Company expenses advertising costs as they are incurred. During the years ended December 31, 2020 and 2019 advertising and marketing expenses were \$66,104 and \$72,096, respectively.

Recent Accounting Pronouncements

In February 2019, FASB issued ASU No. 2016-02, Leases, that requires organizations that lease assets, referred to as "lessees", to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than 12 months. ASU 2019-02 will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases and will include qualitative and quantitative requirements. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

In June 2018, FASB amended ASU No. 2018-07, Compensation – Stock Compensation, to expand the scope of Topic 718, Compensation – Stock Compensation, to include share-based payment transactions for acquiring goods and services from nonemployees. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

In August 2018, amendments to existing accounting guidance were issued through Accounting Standards Update 2018-15 to clarify the accounting for implementation costs for cloud computing arrangements. The amendments specify that existing guidance for capitalizing implementation costs incurred to develop or obtain internal-use software also applies to implementation costs incurred in a hosting arrangement that is a service contract. The guidance is effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact our financial statements.

The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the Company, its performance, and its financial results.

Problem

There's no easy way to compare ridehail options

No one wants to open a dozen different apps on their phone to compare pricing every time they want to grab a ride. There are **thousands of different individual ridehail apps globally**, but most consumers aren't aware of them. Price discrepancies between options can vary 25% at any given moment (and even more with surges and longer rides), meaning that riders are always losing valuable time and money. **Quite simply, we all overpay for rides.**

Solution

One app, every ride

With Obi, riders can easily compare prices across all ridehail apps and save when they book. Our app gives riders all the information they need to get the best ride at the best price.

Our mission is to maximize convenience and accessibility for our users. Think of us as the best personal assistant—handling the logistical heavy lifting of searching all ride providers and sorting them to help riders choose the best ride.

Product

Compare prices and book through the Obi app

Obi enables riders to compare pricing in real-time across multiple providers on one easy-to-read screen. Riders can also personalize to view certain ride types and categories (wheelchair accessible, car seat, luxury, etc.), as well as the quickest pickup time.

Until Obi came along, there was no way to easily compare different ride providers at once, especially as prices can change by the minute. Once riders choose their desired ride option, Obi effortlessly guides them through the booking process (either within the Obi app or with the selected ridehail provider).

Customers

There are 1.5 billion riders worldwide who can benefit from Obi

With over 130,000 downloads to date, Obi has received over 770 reviews with a lifetime average of 4.7 stars on iOS and 4 stars on Android. Our app appeals to a wide range of users - students looking to save money, essential workers commuting to their workplaces, both business and leisure travelers, as well as everyday users. With ridehailing now an integral part of so many daily routines (whether going to work, the gym, restaurants, sporting events, concerts, etc.), the Obi app will become synonymous with ridehailing.

Obi has done extensive test marketing across the U.S. and other key global sectors to prove both the need and business case for the platform. Below are just a couple of recent review excerpts from our customers:

Love the app!

"I tend to use the same ridehail each day (I'm a little lazy) and never looked at others to be honest. Since I started using Bellhop [to be Obi] I'm paying less every day."

Great for travel

"I'm a keen traveler and have used the app in Paris, Sydney and London as well as NYC. It really does work. I can't keep up with the latest rideshares but this app does, tells me the best option and I book. It's super simple."

If you haven't yet, don't forget to check out our app ([click here](#)) and leave us a review!

Business Model

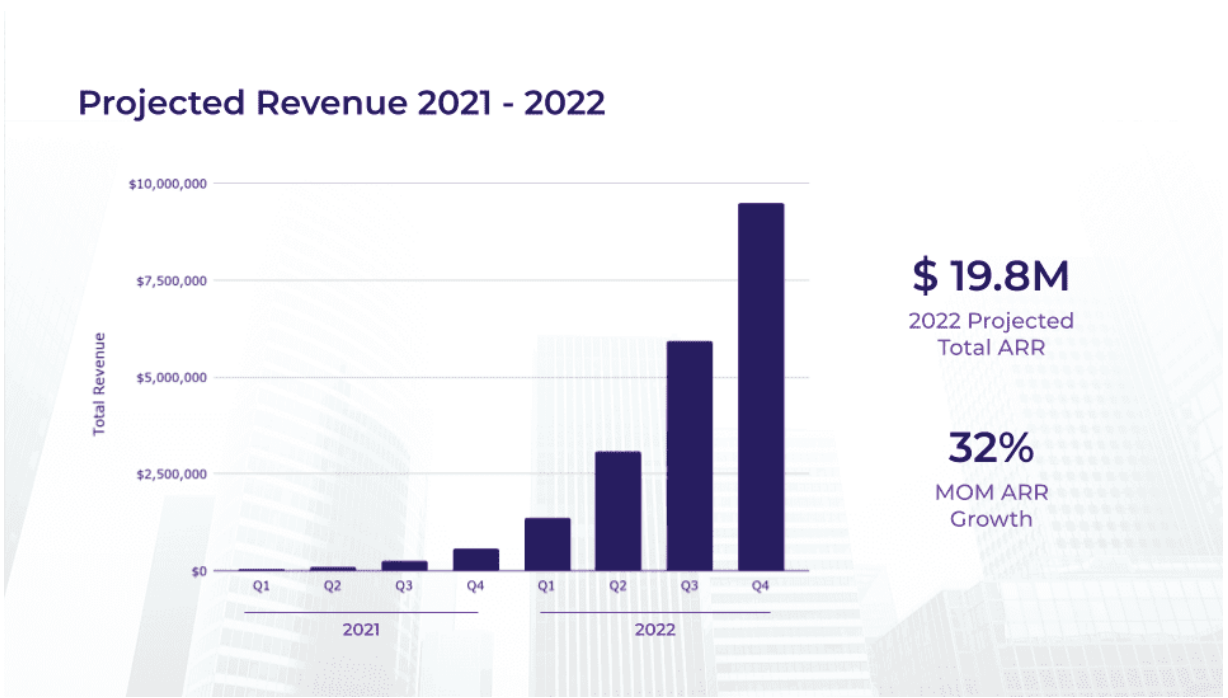

Obi has multiple revenue streams

For each ride booking, Obi currently collects a service fee of up to 10% from ridehail providers.

Additional revenue streams will also include targeted advertising, data sales, subscription products, and technology licensing.

Market

\$260 billion total addressable market

The global ridehail marketplace is projected to grow from **\$260 billion** in 2021 to **\$386 billion** in 2025.

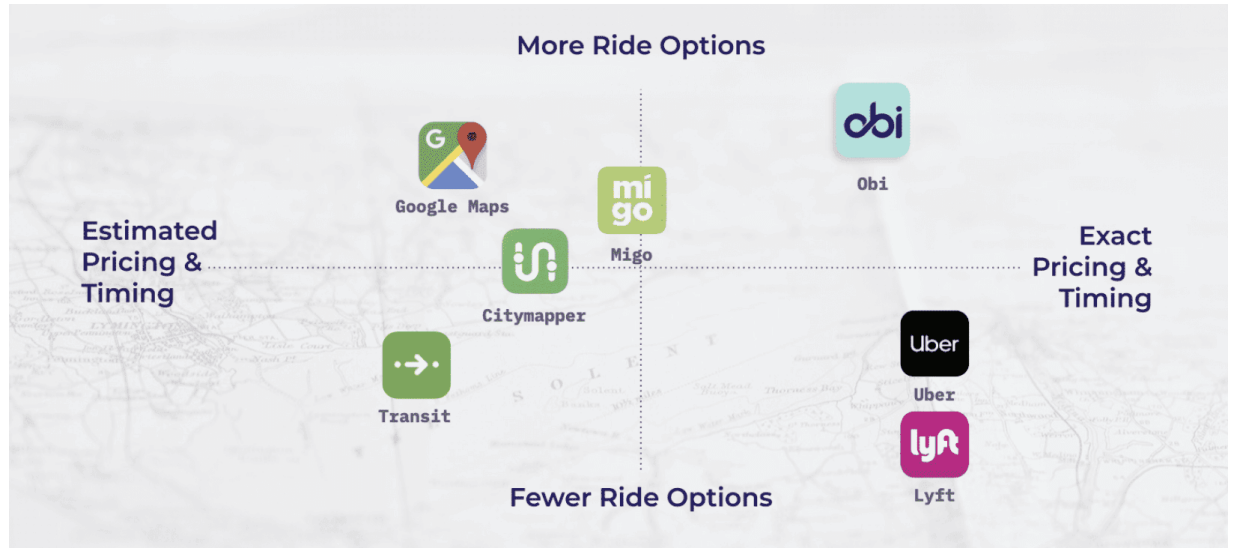

Competition

Bringing together exact price and time comparisons with the most options

Mapping and transit apps such as Google Maps, Transit, and Citymapper have introduced very basic (and often inaccurate) ridehail information with limited functionality for a very small number of companies, and most importantly these apps do not have real-time or personalized pricing.

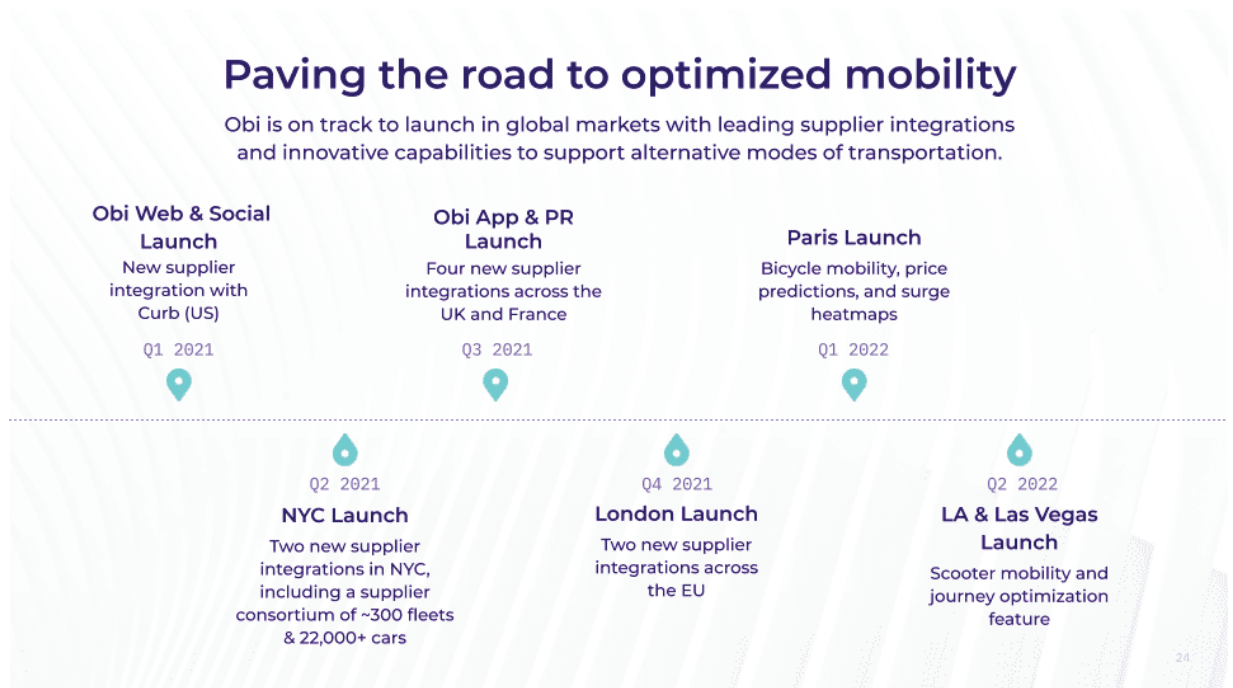

Our closest competitor, Migo, has a limited number of ridehail integrations, and does not include major providers such as Lyft and Uber in the US. Migo has also largely been focused on multimodal options (similar to Transit and Citymapper). Obi's goal is to dominate the ridehailing space first, and then expand into other mobility services as we grow.

Vision

Multi-channel, multi-model opportunities

We have an aggressive roadmap for launching new markets, integrating direct suppliers, and building innovative, market-leading product features. We are planning to launch other modes of transportation such as bikeshares and scootershares in 2022.

Excited about what we're building and want to join the team? We're hiring! Reach out to hire@rideobi.com if you feel passionate about what we're doing and want to contribute with your rockstar skills in Product Management, Digital Marketing, Engineering, or Data Science.

FAQ

Why did you rebrand from Bellhop to Obi?	Bellhops are traditionally associated with an older generation and hotels. Based on extensive user feedback and research, we decided a shorter and more vibrant name would better suit our vision and brand.
Does Obi employ drivers?	No. Obi is a real-time price and data aggregation platform and does not employ any drivers. We work with ridehail and taxi companies who are responsible for all actions of their drivers.
Does Obi work for corporate clients?	Yes! Obi is designed for both consumers and businesses alike. By comparing prices, businesses and their employees can make significant savings with quicker pick-up times. Obi is free to use and any company can simply recommend it to its employees to start using. No contracts, no fees. Obi will be working on additional functionality and features for corporate clients as we expand.
Does Obi have a contract with Uber?	Obi does not currently have a contract with Uber. While Uber is a ride option on the Obi app and our business development teams have been having ongoing discussions, we have yet to reach a commercial agreement. Our goal is to work with all companies, big and small, and we expect to develop strong relationships with all providers.

Does Obi work outside of the US?	Yes! Obi is truly international. We have agreements with companies such as Curb (largest taxi provider in the US), Ola (leader in India, Australia, and the UK), LeCab (one of the market leaders in France), and many more. Globally, we have over 11 million drivers represented on our platform.
Are the prices on apps like Uber and Lyft the same as those displayed on Obi?	Yes! Once riders link their accounts on Obi, we display the same pricing information, including discounts and personalized promos, as the ones displayed on individual ride provider apps such as Uber and Lyft.
Does Obi work in my city?	Obi works across 65+ countries including in all major US cities. We are working hard to expand even further!
How are payments handled?	For some providers, Obi is the merchant of record and the trip is booked and charged through Obi. For others, Obi redirects the user to complete booking and payment via the selected ride provider app.
How do you plan to utilize the funds raised?	The majority of the funds will go towards marketing to accelerate our user acquisition strategy in NYC (our go-to-market launch city). We have paying contracts with major NYC ride providers and this is where we expect to gain significant market share. Pre-COVID, there were close to one million daily taxi and ridehail trips in NYC, so it's the largest market in the US and an important one for us to grow in.
What exactly is Obi? Please summarize it for me. I have a short attention span.	No problem! Quite simply, the free Obi app gathers up all the major ridehailing apps under one roof. So you get more choice and the power to save time and money by making smarter decisions. Need the quickest ride? You got it. Need the cheapest? Obi's got you covered. Your favorite ridehailing app shows no cars? Obi gives you more choices to get you where you're going. We've designed the app to make your life easier.

Why would I choose your app over my regular Uber or Lyft app?

It's totally understandable - many of us don't like change. But then companies like Kayak and Expedia came along and we got used to comparing flights and hotels, and that's exactly what we expect to happen in ridehailing too. The simple fact is **we all overpay for rides**. Until you see options, you'd be surprised how much time and money can be wasted when you just use one ride provider.

Remember those times when you had crazy surge pricing, or worse still, could not get a car at all and you had to figure out which other apps to download? That's all in the past with Obi. You can still use your favorite ridehailing service at the same price. But we give you more options. By using Obi, you have nothing to lose apart from a happier and easier life.

Do users need to download multiple ridehailing apps before they can use Obi?

Obi has been specifically designed to make your life easier. Our goal is to be the only app you will ever need to book ridehails, but that will take time in this rapidly expanding sector. For some ride providers, they're 100% integrated with Obi and you can book your ride directly, without the need for any other apps. For others, once you've chosen a provider within our app, we redirect you to complete your booking with the selected ride provider. It doesn't take any longer and you know you are always getting the best price.

When will the Obi brand officially launch?

We are doing a soft launch of Obi in late Q1 2021, and our current plan is to launch the Obi brand officially by Q3 this year.

How did COVID-19 affect Obi?

Like all ridehail platforms, we saw an initial dip in usage as cities entered lockdown. We then focused our efforts and energy on product development and closing commercial contracts, while also working to get Obi into the hands of as many essential workers as possible.

Crowd SAFE
(Crowdfunding Simple Agreement for Future Equity)

Series 2021

This Subscription Agreement (this “**Agreement**”) is entered into by and between the undersigned (the “**Subscriber**”) and Bellhop Technologies Inc., a Delaware corporation (the “**Company**”), effective as of [Date of Subscription Agreement]. Capitalized terms used but not defined herein shall have the respective meanings ascribed thereto in the Form of Omnibus Crowd SAFE attached hereto as Exhibit A (the “**Omnibus Crowd SAFE**”). In consideration of the mutual covenants set forth in this Agreement and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Subscriber and the Company hereby agree as follows:

1. **Subscription.** Subject to the terms and conditions of this Agreement, the Subscriber hereby subscribes \$ [] (the “**Subscription Amount**”) for the right to an indirect economic interest in the Company’s Crowd SAFEs and, for the avoidance of doubt, the underlying securities, cash or other consideration into which the Crowd SAFEs convert, (the “**Subscription**”), to be represented by a pro rata beneficial interest (based on the Subscription Amount) in an Omnibus Crowd SAFE issued by the Company to the custodian designated in the Omnibus Crowd SAFE, being Prime Trust, LLC (the “**Custodian**”), with the Custodian as legal record owner of the Crowd SAFE, and, for the avoidance of doubt, the underlying securities, cash or other consideration into which the Crowd SAFEs convert, (the “**Beneficial Interest**”, as defined and calculated in the Omnibus Crowd SAFE).
2. **General Terms and Conditions.**
 - (a) *Acceptance and Conditions.* The Company reserves the right, in its sole and absolute discretion, to accept or reject the Subscription in whole or in part. The valid execution of this Agreement

shall be conditioned upon the following terms being met: (i) Subscriber's completion of the investment commitment process on the Intermediary hosting the Company's offering; (ii) Subscriber's delivery of the Subscription Amount to an escrow account held for the benefit of the Company's offering, in the manner and method directed by the Company; (iii) Subscriber's execution of the Omnibus Crowd SAFE; (iv) Subscriber's execution of a separate custody account agreement by the Subscriber directly with the Custodian in the form Omnibus Crowd SAFE attached hereto as Exhibit B; and (v) the Company counter-signing this Agreement and the Omnibus Crowd SAFE.

- (b) *Nature of Interest in Omnibus Crowd SAFE.* The Company has entered into, or expects to enter into, separate subscription agreements substantially similar in all material respects to this Agreement with other subscribers, and such subscribers shall also hold pro rata beneficial interests (based on their respective subscription amounts) in the Omnibus Crowd SAFE. Nothing in this Agreement shall be construed to provide the Subscriber, or any other subscribers, as a holder of a Beneficial Interest (i) with any voting, information or inspection, or dividend rights not explicitly provided by the Omnibus Crowd SAFE (or the Subscriber's Beneficial Interest therein), and such rights shall be limited exclusively to those provided for in the Omnibus Crowd SAFE, or (ii) any right to be deemed the legal record owner of the Crowd SAFE for any purpose, nor will anything in this Agreement be construed to confer on the Subscriber any of the rights of a stockholder of the Company or any right to vote for the election of directors or upon any matter submitted to stockholders at any meeting thereof, or to give or withhold consent to any corporate action or to receive notice of meetings, or to receive subscription rights or otherwise unless provided explicitly herein or in the Crowd SAFE. To the extent the holder of the Omnibus Crowd SAFE or any securities into which it may convert is deemed to have any right to vote or otherwise act on behalf of its interest, whether under applicable law, the governing documents of the Company or otherwise, Subscriber hereby confirms that the Custodian is the record holder of the Omnibus Crowd SAFE or any securities into which it may convert and that the Custodian shall have the sole right to vote and act with respect to the Omnibus Crowd SAFE or any securities into which it may convert all in accordance with, and subject to the limitations set forth in, the Omnibus Crowd SAFE to which the Subscriber has a beneficial interest. Notwithstanding the foregoing, unless otherwise required by the Crowd SAFE or any security into which it may convert, Custodian shall not have any obligation to vote in any corporate action or take any action on behalf of the Omnibus Crowd SAFE beneficial holders.

3. **Subscriber Representations.** By executing this Agreement and the Omnibus Crowd SAFE, the Subscriber hereby represents and warrants to the Company and to the Custodian as follows:

- (a) The Subscriber has full legal capacity, power and authority to execute and deliver this Agreement and the Omnibus Crowd SAFE to perform its obligations hereunder and thereunder. - (b) The Subscriber has been advised that the Omnibus Crowd SAFE (and the Subscriber's Beneficial Interest therein) and the underlying securities have not been registered under the Securities Act or any state securities laws and are offered and sold hereby pursuant to Section 4(a)(6) of the Securities Act ("**Regulation CF**"). The Subscriber understands that neither the Omnibus Crowd SAFE (nor the Subscriber's Beneficial Interest therein), nor the underlying

Beneficial Interest therein may be resold or otherwise transferred unless they are registered or exempt from registration under the Securities Act and applicable state securities laws or pursuant to Rule 501 of Regulation CF, in which case certain state transfer restrictions may apply. Subscriber further understands and agrees that its Beneficial Interest and the securities to be acquired by the Subscriber thereunder shall be subject to further the terms and conditions set forth in the Omnibus Crowd SAFE, including without limitation the transfer restrictions set forth in Section 5 of the Omnibus Crowd SAFE.

- (c) The Subscriber is purchasing its Beneficial Interest in the securities represented thereby for its own account for investment, not as a nominee or agent, and not with a view to, or for resale in connection with, the distribution thereof, and the Subscriber has no present intention of selling, granting any participation in, or otherwise distributing the same. The Subscriber understands that the Omnibus Crowd SAFE (and the Subscriber's Beneficial Interest therein) and the underlying securities have not been, and will not be, registered under the Securities Act or any state securities laws, by reason of specific exemptions under the provisions thereof which depend upon, among other things, the bona fide nature of the investment intent and the accuracy of the Subscriber's representations as expressed herein.
- (d) The Subscriber has, and at all times under this Agreement will maintain, a custody account in good standing with the Custodian pursuant to a valid and binding custody account agreement.
- (e) The Subscriber acknowledges, and is making the Subscription and purchasing its Beneficial Interest in compliance with, the investment limitations set forth in Rule 100(a)(2) of Regulation CF.

In deciding to make the Subscription and purchase its Beneficial Interest, the Subscriber is not relying on the advice or recommendations of the Company, the Intermediary or any other third-party, and the Subscriber has made its own independent decision that an investment in the Omnibus Crowd SAFE and the underlying securities is suitable and appropriate for the Subscriber. The Subscriber understands that no federal, state or other agency has passed upon the merits or risks of an investment in the Omnibus Crowd SAFE and the underlying securities or made any finding or determination concerning the fairness or advisability of such investment.
- (h) The Subscriber understands and acknowledges that as the holder of a Beneficial Interest, the Subscriber shall have no voting, information or inspection rights with respect to the Company, aside from any disclosure requirements the Company is required to make under relevant securities regulations, or as expressly provided in the Omnibus Crowd SAFE.
- (i) The Subscriber understands and acknowledges that the Company has entered into, or expects to enter into, separate subscription agreements substantially similar in all material respects to this Agreement with other subscribers, and that such subscribers shall also hold pro rata

Beneficial Interests (based on their respective subscription amounts) in the Omnibus Crowd SAFE.

- (j) The Subscriber understands that no public market now exists for any of the securities issued by the Company, and that the Company has made no assurances that a public market will ever exist for the Omnibus Crowd SAFE, the underlying securities or any other class of the Company's securities.
- (k) Subscriber is not (i) a citizen or resident of a geographic area in which the purchase or holding of the Omnibus Crowd SAFE and the underlying securities is prohibited by applicable law, decree, regulation, treaty, or administrative act, (ii) a citizen or resident of, or located in, a geographic area that is subject to U.S. or other applicable sanctions or embargoes, or (iii) an individual, or an individual employed by or associated with an entity, identified on the U.S. Department of Commerce's Denied Persons or Entity List, the U.S. Department of Treasury's Specially Designated Nationals List, the U.S. Department of State's Debarred Parties List or other applicable sanctions lists. Subscriber hereby represents and agrees that if Subscriber's country of residence or other circumstances change such that the above representations are no longer accurate, Subscriber will immediately notify Company. Subscriber further represents and warrants that it will not knowingly sell or otherwise transfer any interest in the Omnibus Crowd SAFE or the underlying securities to a party subject to U.S. or other applicable sanctions.
- (l) The Subscriber further acknowledges that it has read, understood, and had ample opportunity to ask Company questions about its business plans, "Risk Factors," and all other information presented in the Company's Form C and the offering documentation filed with the SEC.
- (m) The Subscriber understands the substantial likelihood that the Subscriber will suffer a **TOTAL LOSS** of all capital invested, and that Subscriber is prepared to bear the risk of such total loss.
- (n) The Subscriber understands and agrees that its Beneficial Interest does not entitle the Subscriber, as a holder of such interest, to vote, execute consents, or to otherwise represent the interests thereunder. The Subscriber acknowledges and agrees that the Custodian shall vote, execute consents, and otherwise make elections pursuant to the terms of the Omnibus Crowd SAFE.
- (o) The Subscriber understands and agrees that, except as otherwise agreed by the Company in its sole discretion, the Subscriber will not be entitled to exchange its Beneficial Interest for a Crowd SAFE in registered form or other form of security instrument not otherwise contemplated by this Agreement.
- (p) If the Subscriber is not a United States person (as defined by Section 7701(a)(30) of the Internal Revenue Code of 1986, as amended), the Subscriber hereby represents that it has satisfied itself as to the full observance of the laws of its jurisdiction in connection with any invitation, subscription and payment for, and continued ownership of, its Beneficial Interest and the underlying securities will not violate any applicable securities or other laws of the Subscriber's jurisdiction, including (i) the legal requirements within its jurisdiction for the Subscription and the purchase of its Beneficial Interest; (ii) any foreign exchange restrictions applicable to such Subscription and purchase; (iii) any governmental or other consents that may need to be obtained; and (iv) the income tax and other tax consequences, if any, that may be relevant to the purchase, holding, conversion, redemption, sale, or transfer of its Beneficial Interest and the underlying securities. The Subscriber acknowledges that the Company has taken no action

in foreign jurisdictions with respect to the Omnibus Crowd SAFE (and the Subscriber's Beneficial Interest therein) and the underlying securities.

- (q) If the Subscriber is an entity: (i) such entity is duly formed, validly existing and in good standing under the laws of the state of its formation, and has the power and authority to enter into this Agreement; (ii) the execution, delivery and performance by the Subscriber of the Agreement is within the power of the Subscriber and has been duly authorized by all necessary actions on the part of the Subscriber; (iii) to the knowledge of the Subscriber, it is not in violation of its current organizational documents, any material statute, rule or regulation applicable to the Subscriber; and (iv) the performance the Agreement does not and will not violate any material judgment, statute, rule or regulation applicable to the Subscriber; result in the acceleration of any material indenture or contract to which the Subscriber is a party or by which it is bound, or otherwise result in the creation or imposition of any lien upon the Subscription Amount.

- 4. Conversion of Omnibus Crowd SAFE.** Upon the conversion of the Omnibus Crowd SAFE into Equity Securities (as defined in the Omnibus Crowd SAFE) of the Company in accordance with the terms of the Omnibus Crowd SAFE, Custodian will execute and deliver all transaction documents related to the Equity Financing or other corporate event causing the conversion of the Omnibus Crowd SAFE in accordance therewith; *provided*, that such transaction documents are the same documents to be entered into by all holders of other SAFEs issued by the Company that will convert in connection with the Equity Financing or corporate event and being the same as the purchasers in the Equity Financing (as defined in the form of Omnibus Crowd SAFE) with appropriate variations to give effect to the CF Shadow Series. Subscriber hereby authorizes and consents to the execution by Custodian of all documents necessary to give effect to this Section 4, and agrees that no fiduciary or advisory relationship between Subscriber and Custodian is intended to be or has been created in respect of any of the transactions contemplated by this Agreement, and Subscriber waives, to the fullest extent permitted by law, any claims of any kind that it may have against Custodian for executing any documents on behalf of, or for the benefit of Subscriber pursuant to this Agreement and agrees that Custodian shall have no liability (whether direct or indirect) to the Subscriber in respect any claim or to any person asserting a claim on behalf of or in right of the Subscriber.

5. Dispute Resolution; Arbitration.

- (a) THE SUBSCRIBER AND THE COMPANY (I) WAIVE THE SUBSCRIBER'S AND THE COMPANY'S RESPECTIVE RIGHTS TO HAVE ANY AND ALL DISPUTES, CONTROVERSIES OR CLAIMS ARISING OUT OF, RELATING TO OR IN CONNECTION WITH THIS AGREEMENT RESOLVED IN A COURT, AND (II) WAIVE THE SUBSCRIBER'S AND THE COMPANY'S RESPECTIVE RIGHTS TO A JURY TRIAL. Instead, any dispute, controversy or claim arising out of, relating to or in connection with this Agreement, including the breach or validity thereof, shall be determined by final and binding arbitration administered by the American Arbitration Association (the "AAA") under its Commercial Rules. The award rendered by the arbitrator shall be final, non-appealable and binding on the parties and may be entered and enforced in any court having jurisdiction. - (c) Neither this Agreement nor the rights contained herein may be assigned, by operation of law or otherwise, by either party without the prior written consent of the other; *provided, however*, that this Agreement and/or the rights contained herein may be assigned without the Company's consent by the Subscriber to (i) to a member of the family of the Subscriber or the equivalent, to a trust controlled by the Subscriber, to a trust created for the benefit of a member of the family of the Subscriber or the equivalent, or in connection with the death or divorce of the Subscriber or other similar circumstance, (ii) any other entity who directly or indirectly, controls, is controlled by or is under common control with the Subscriber, including, without limitation, any general partner, managing member, officer or director of the Subscriber, or any venture capital fund now or hereafter existing which is controlled by one or more general partners or managing members of, or shares the same management company with, the Subscriber and that any such assignment shall require such transferee to assume the rights and obligations of the Subscriber's custody account agreement with the Custodian in accordance with the assignment provision thereof, or otherwise execute a custody account agreement with the designated Custodian ; and *provided, further*, that the Company may assign this Agreement in whole, without the consent of the Subscriber, in connection with a reincorporation to change the Company's domicile.

- (e) This Agreement does not create any form of partnership, joint venture or any other similar relationship between the Subscriber and the Company.
- (f) All rights and obligations hereunder will be governed by the laws of the State of Delaware, without regard to the conflicts of law provisions of such jurisdiction.
- (g) This Agreement and the Omnibus Crowd SAFE constitute the entire agreement between the Subscriber and the Company relating to the Omnibus Crowd SAFE (and the Subscriber's Beneficial Interest therein) and the underlying securities; provided further, that Subscriber agrees to be bound by the terms of the Omnibus Crowd SAFE applicable to Holders.

Bellhop Technologies Inc.

**Omnibus Crowd SAFE
(Crowdfunding Simple Agreement for Future Equity)**

Series 2021

THIS CERTIFIES THAT in exchange for the payment by the subscribers for beneficial interests herein (the “**Subscribers**”) of an aggregate subscription amount of \$[] (the “**SAFE Amount**”), Bellhop Technologies Inc., a Delaware Corporation (the “**Company**”), hereby issues to Prime Trust, LLC, as custodian (“**Prime Trust**”), the right to certain shares of the Company’s Capital Stock (defined below), subject to the terms set forth below.

This Omnibus Crowd SAFE initially shall entitle each Subscriber to a beneficial ownership interest herein, including the securities or cash into which this Omnibus Crowd SAFE converts equal to (i) the quotient of such Subscriber’s Subscription Amount *divided by* the SAFE Amount; *times* (ii) the number of shares of Capital Stock (or amount of cash, if applicable) that this Omnibus Crowd SAFE converts into pursuant to the provisions herein (the “**Beneficial Interest**”). The number of shares under this instrument shall be subject to adjustment by the Company in the event of any share subdivision, split, dividend, reclassification, combination, consolidation or similar transaction affecting the Capital Stock or the Company.

The “**Valuation Cap**” is \$19,500,000.

See Section 2 for certain additional defined terms.

1. *Events*

(a) Equity Financing.

(i) If an Equity Financing occurs before this instrument terminates in accordance with Sections 1(b)-(d) (“**First Equity Financing**”), the Company shall notify Prime Trust of the closing of the First Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the SAFE Amount to Capital Stock; or (2) issue to Prime Trust a number of shares of the CF Shadow Series of Capital Stock (whether Preferred Stock or another class issued by the Company) sold in the First Equity Financing. The number of shares of the CF Shadow Series of such Capital Stock shall equal the quotient obtained by dividing (x) the SAFE Amount by (y) the First Equity Financing Price.

(ii) If the Company elects to continue the term of this Crowd SAFE past the First Equity Financing and another Equity Financing occurs before the termination of this Crowd SAFE in accordance with Sections 1(b)-(d) (each, a “**Subsequent Equity Financing**”), the Company shall promptly notify Prime Trust of the closing of the Subsequent Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the SAFE Amount to Capital Stock; or (2) issue to Prime Trust a number of shares of the CF Shadow Series of the Capital Stock (whether Preferred Stock or another class issued by the Company) sold in the Subsequent Equity Financing. The number of shares of the CF Shadow Series of such Capital Stock shall equal to the quotient obtained by dividing (x) the SAFE Amount by (y) the First Equity Financing Price.

(b) Liquidity Event.

(i) If there is a Liquidity Event (other than an IPO) before the termination of this instrument and before any Equity Financing, Prime Trust will automatically be entitled to receive a portion of the proceeds from the Liquidity Event an amount equal to the greater of (i) a cash payment equal to the SAFE Amount (subject to the following paragraph) or (ii) the deemed value of that that number of shares of Common Stock equal to the SAFE Amount divided by the Liquidity Price. If there is an IPO before the termination of this instrument and before any Equity Financing, Prime Trust will automatically be entitled to receive that number of shares of Common Stock equal to the SAFE Amount divided by the Liquidity Price. In connection with this Section 1(b), the SAFE Amount will be due and payable by the Company to Prime Trust immediately prior to, or concurrent with, the consummation of the applicable Liquidity Event. If there are insufficient funds to pay Prime Trust in cash (on behalf of the Subscribers collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Beneficial Interests.

(ii) If there is a Liquidity Event (other than an IPO) after one or more Equity Financings have occurred, but before the termination of this instrument, Prime Trust will automatically receive the greater of (i) a cash payment equal to the SAFE Amount (as described in the foregoing paragraph) or (ii) the deemed value of that number of shares of the most recently issued Capital Stock (whether Preferred Stock or another class issued by the Company) equal to the SAFE Amount divided by the First Equity Financing Price. Shares of Capital Stock delivered in connection therewith shall have the same liquidation rights and preferences as the shares of Capital Stock issued in connection with the Company’s most recent Equity Financing. If there is an IPO before the termination of this instrument and after an Equity Financing, Prime Trust will automatically be entitled to receive that number of Capital Stock equal to the SAFE Amount divided by the First Equity Financing Price.

If the Company's board of directors determines in good faith (and with the advice of legal counsel) that delivery of Common Stock or Capital Stock to Prime Trust pursuant to Section 1(b)(i) or Section 1(b)(ii) would violate applicable law, rule or regulation, or be prohibited by an underwriter in the IPO, then the Company shall deliver to Prime Trust in lieu thereof, a cash payment equal to the fair market value of such the Common Stock or Capital Stock deliverable pursuant to this Section 1(b), as determined in good faith by the Company's board of directors.

(c) **Dissolution Event**. If there is a Dissolution Event before this instrument terminates in accordance with Sections 1(a) or 1(b), subject to the preferences applicable to any series of Preferred Stock, the Company will distribute its entire assets legally available for distribution with equal priority among (i) Prime Trust (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company's board of directors at the time of Dissolution Event), (ii) all other holders of instruments sharing in the assets of the Company at the same priority as holders of Common Stock upon a Dissolution Event, and (iii) and all holders of Common Stock.

(d) **Termination**. This instrument will terminate (without relieving the Company or Prime Trust of any obligations arising from a prior breach of or non-compliance with this instrument) upon the earlier to occur: (i) the issuance of shares, whether in Capital Stock or in the CF Shadow Series to Prime Trust pursuant to Section 1(a) or Section 1(b); or (ii) the payment, or setting aside for payment, of amounts due to Prime Trust pursuant to Sections 1(b) or 1(c).

2. Definitions

“**Capital Stock**” means the capital stock of the Company, including, without limitation, Common Stock and Preferred Stock.

“**CF Shadow Series**” shall mean a non-voting series of Capital Stock that otherwise is identical in all respects to the shares of Capital Stock (whether Preferred Stock or another class issued by the Company) issued in the relevant Equity Financing (e.g., if the Company sells Series A Preferred Stock in an Equity Financing, the Shadow Series would be Series A-CF Preferred Stock), except that:

(i) CF Shadow Series shareholders (including Holders of Beneficial Interests) shall have no voting rights and shall not be entitled to vote on any matter that is submitted to a vote or for the consent of the stockholders of the Company;

(ii) Upon receipt of notice of any meeting at which the CF Shadow Series shareholders are entitled to vote, Prime Trust shall, as soon as reasonably practicable thereafter, mail or provide electronically to the Holders of Beneficial Interests a notice, which shall be provided by the Company and which shall contain such information as is contained in such notice of meeting. Holder acknowledges that notwithstanding its receipt of such materials, all voting rights with respect to the shares of CF Shadow Series shares shall be exercised by Prime Trust, and that Prime Trust intends to exercise such voting rights by voting the shares held by it in accordance with the vote of the majority of the shares (whether Preferred Stock or another class issued by the Company) the CF Shadow Series shares correspond to held by persons other than Prime Trust that are voted on any matter, and Prime Trust will not exercise any discretion in voting any the shares of CF Shadow Series shares represented by the Beneficial Interests; and

PRIME TRUST NEW ACCOUNT AGREEMENT

_____ (“Account Holder”, “Customer”, “you”, “your”) hereby requests and directs that Prime Trust, LLC (“Prime Trust”, “Custodian”, “we”, “our”, “us”), a Nevada chartered trust company, establish a Prime Asset Custody Account (“Account”) for and in the name of Account Holder, and to hold as custodian all assets deposited to, or collected with respect to such Account, upon the following terms and conditions:

1. APPOINTMENT OF CUSTODIAN:

Account Holder hereby appoints Prime Trust to be custodian of and to hold or process as directed all securities, currency, cryptocurrency, and other assets of Account Holder (hereinafter referred to as “Custodial Property”) that are delivered to Custodian by Account Holder or Account Holder’s Agent(s) (as defined below) to the Account in accordance with the terms of this Agreement.

2. SELF-DIRECTED INVESTMENTS:

- a. This Account is a self-directed Account that is managed by Account Holder and/or Account Holder’s Agents. Prime Trust will act solely as custodian of the Custodial Property and will not exercise any investment or tax planning discretion regarding your Account, as this is solely your responsibility and/or the responsibility of advisors, brokers and others you designate and appoint as your agent for your Account (“Agents”), if any. Prime Trust undertakes to perform only such duties as are expressly set forth herein, all of which are ministerial in nature.
- b. As a self-directed Account, you acknowledge and agree that:
 - i. The value of your Account will be solely dependent upon the performance of any asset(s) chosen by you and/or your Agents.
 - ii. Prime Trust shall have no duty or responsibility to review or perform due diligence on any investments or other Custodial Property and will make absolutely no recommendation of investments, nor to supervise any such investments. You will perform your own due diligence on all investments and take sole responsibility for all decisions made for your Account.
 - iii. Prime Trust does not provide any valuation or appraisals of Custodial Property, nor does it hire or seek valuations or appraisals on any Custodial Property, provided, however, it may, at its option and with no obligation or liability, to the extent available for any particular asset, include recent price quotes or value estimates from various third-party sources, including but not limited to SEC-registered exchanges and alternative trading systems, digital asset exchanges, and real estate websites on your statement for any such Custodial Property. Prime Trust will not be expected or obligated to attempt to verify the validity, accuracy or reliability of any such third-party valuation, valuation estimates or prices and you agree that Prime Trust shall in no way be held liable for any such valuation estimates or price quotations. Prime Trust shall simply act in a passive, pass-through capacity in providing such information (if any) on your Account statements and that such valuation estimates or price quotations are neither verified, substantiated nor to be relied upon in any way, for any purpose, including, without limitation, tax reporting purposes. You agree to engage a professional, independent advisor for any valuation opinion(s) you want on any Custodial Property.
- c. Account Holder will not direct or permit its Agents to direct the purchase, sale or transfer of any Custodial Property which is not permissible under the laws of Account Holder’s place of residence or illegal under US federal, state or local law. Account Holder hereby warrants that neither you nor your Agents will enter into a transaction or series of transactions, or cause a transaction to be entered into,

which is prohibited under Section 4975 of the Internal Revenue Code. Pursuant to the directions of the Account Holder or Agent(s), Prime Trust shall process the investment and reinvestment of Custodial Property as directed by Account Holder or its Agents only so long as, in the sole judgment of Prime Trust, such requested investments will not impose an unreasonable administrative burden on Prime Trust (which such determination by Prime Trust shall not be construed in any respect as a judgment concerning the prudence or advisability of such investment). Custodian may rely upon any notice, instruction, request or other instrument believed by it to have been delivered from the Account Holder or its Agents, not only as to its due execution, validity and effectiveness, but also as to the truth and accuracy of any information contained therein.

- d. Buy and sell orders may, at Custodians discretion, be accepted verbally, including via telephone, or electronically, including email and internet-enabled devices and systems, provided, however, that Custodian may, but is not required to, require Account Holder or its Agents to promptly provide email, text or other confirmation to verify such instructions and any such instructions will not be deemed as received until verified in accordance with the Custodians then-in-effect policies and procedures. Account Holder acknowledges that any request to waive or change any policies or procedures for asset disbursements is done so at Account Holders risk. Prime Trust may decline to accept verbal asset transfer or trade instructions in its sole discretion and require written instructions, or instructions triggered from Account Holder or its Agents using tools while logged onto your account (either directly at www.primetrust.com or on any website or application that integrates into Prime Trust systems via API's ("Application Programming Interfaces"), which may or may not bear the Prime Trust brand. Account Holder bears complete and absolute responsibility for all buy, sell, transfer, and disbursement instructions for this Account and will immediately notify Prime Trust of any unauthorized transactions.
- e. Account Holder acknowledges and agrees that the custody of digital assets is generally subject to a high degree of risk, including without limitation, the risk of loss due to the blockchain or smart contract defects as well as forks and other events outside of the Custodian's control. Such Custodial Property is not insured by the Federal Deposit Insurance Corporation or by any Prime Trust insurance policies and so you are advised to directly obtain, at your sole cost and expense, any separate insurance policies you desire for such Custodial Property. Account Holder agrees that transfer requests, as well as sale and purchase orders, for digital assets may be delayed due to security protocols, time-zone differences, communication technology delays or fails, and/or enhanced internal compliance reviews. Accordingly, Prime Trust shall not be liable for any losses or damages, including without limitation direct, indirect, consequential, special, exemplary or otherwise, resulting from delays in processing such transactions.
- f. All instructions for the purchase and sale of securities and/or digital assets shall be executed through one or more broker-dealers or exchanges selected by either you or your Agents, or by Prime Trust, as an accommodation (and not in any capacity as a broker-dealer) and Prime Trust is hereby authorized to debit your account for any fees associated with such transaction(s) and remit those to the executing party.

3. SCHEDULE OF FEES:

The Custodian shall receive reasonable compensation in accordance with its usual Schedule of Fees then in effect at the time of service. The fees and charges initially connected with this Account may include:

- Account Fees: As detailed on Prime Trust's current fee schedule, which may change from time to time and is published on www.primetrust.com. Changes to the fee schedule shall not affect any charges for prior periods and will only be effective as of the date the changes were published.

Unpaid fees are subject to interest at a rate of 1.50% per month on the outstanding balance and may be applied as a first lien on any Custodial Property. Prime Trust reserves the right to make changes to its fees for custodial services in its sole and absolute discretion.

Hi, I'm Payam, founder and CEO of Obi, the world's leading ride hail aggregator.

Imagine if you put all the major ride hail and taxi companies around the world into a box, add in our proprietary technology, and shake up the market. The result is Obi, real time price comparisons, pick up times, and other filters, all in one easy to use app.

With 130,000 downloads and growing every day, Obi is transforming the way we ride.

Ride hailing has taken the world by storm, with over 10 billion rides annually. But with thousands of ride hail and taxi companies around the world, it's impossible for you to know what's available.

That's why we built Obi. We all overpay for rides. We don't compare services, and with new providers launching all the time, we don't stay up to date with what's available, so the consumer always loses.

Obi solves these problems in a free and super easy to use platform. Simply enter your pickup and destination, an Obi gives you all the available ride options.

Our team has also engineered market-leading features using machine learning technology that help you make smarter ride decisions. Obi has over 300 integrations already built in, giving you access to 11 million drivers. The largest network of drivers in the world.

We have contracts with the world's leading companies, including Curb, Heetch, Ola and many others. That means that Obi give you access to more cars than Uber, Lyft, or any other ride provider. So you always get to choose what's best for you.

I know 2020 has been especially hard on so many people. When the outbreak hit, we focused on getting Obi in the hands of as many essential workers as we could, because so many just couldn't get a ride anymore, using their regular app.

Ride hailing, like so many industries, has taken a hit. But it's already starting to bounce back, and we're expecting dramatic growth this year as the global economy and travel and tourism bounce back. And now more than ever, people are watching their wallets.

We have millions of data points that show that Obi saves 20% on average on every ride. And with ride hailing now replacing car ownership in many areas, you're talking saving thousands of dollars annually, just by using our free app. That's why we truly believe Obi will become a household name and part of the everyday routine of millions of riders.

We also have an incredible executive team and advisory board, made up of industry veterans, including Harry Campbell, the Rideshare Guy.

[Harry speaking]

Hey guys, Harry here with the Rideshare Guy. Now I've been taking Uber and Lyft for many years now, and I've also been covering it from the driver's side. But one thing I've always been surprised by is the pricing difference between Uber and Lyft and the exact same time and often on the exact same route. You can really save a lot of money by comparing prices, and when I found out about the Obi app a few years ago, it was a game changer for me. Every single time I call for a ride share now, I'm opening up the Obi app to compare prices between Uber and Lyft and it just is such an easy way to save money. I think right now especially in times like these I think a lot of us don't really care how we get from A to B but often times we care about the cheapest way or care about getting there the fastest and that's why I'm really excited about the prospects of Obi and I think you should be too.

So join Obi and ride smarter. One app for every ride.
