Officers and Directors

Name: JOSEF WOJTKOW

JOSEF WOJTKOW's current primary role is with the Issuer.

Positions and offices currently held with the issuer:

- **Position:** CEO, President, Director and Founder
Dates of Service: May 27, 2007 - Present
Responsibilities: Operations, HR, Bookkeeping, Payroll, Business Development

Risk Factors

The SEC requires the company to identify risks that are specific to its business and its financial condition. The company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking).

Additionally, early-stage companies are inherently more risky than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest.

These are the risks that relate to the Company:

Uncertain Risk

An investment in the Company also referred to as “we”, “us”, “our”, or “Company” involves a high degree of risk and should only be considered by those who can afford the loss of their entire investment. Furthermore, the purchase of any of the Convertible Note should only be undertaken by persons whose financial resources are sufficient to enable them to indefinitely retain an illiquid investment. Each investor in the Company should consider all of the information provided to such potential investor regarding the Company as well as the following risk factors, in addition to the other information listed in the Company’s Form C. The following risk factors are not intended, and shall not be deemed to be, a complete description of the commercial and other risks inherent in the investment in the Company.

Our business projections are only projections

There can be no assurance that the Company will meet our projections. There can be no assurance that the Company will be able to find sufficient demand for our product, that people think it’s a better option than a competing product, or that we will be able to provide the service at a level that allows the Company to make a profit and still attract business.

The transferability of the Securities you are buying is limited

Any security purchased through this crowdfunding campaign is subject to SEC limitations of transfer. This means that the note that you purchase cannot be resold for a period of one year. The exception to this rule is if you are transferring the stock back to the Company, to an “accredited investor,” as part of an offering registered with the Commission, to a member of your family, trust created for the benefit of your family, or in connection with your death or divorce.

Your investment could be illiquid for a long time

You should be prepared to hold this investment for several years or longer. For the 12 months following your investment there will be restrictions on how you can resell the securities you receive. More importantly, there is no established market for these securities and there may never be one. As a result, if you decide to sell these securities in the future, you may not be able to find a buyer. The Company may be acquired by an existing player in the educational software development industry. However, that may never happen or it may happen at a price that results in you losing money on this investment.

If the Company cannot raise sufficient funds it will not succeed

The Company, is offering Convertible Notes in the amount of up to \$1,070,000 in this offering, and may close on any investments that are made. Even if the maximum amount is raised, the Company is likely to need additional funds in the future in order to grow, and if it cannot raise those funds for whatever reason, including reasons

relating to the Company itself or the broader economy, it may not survive. If the Company manages to raise only the minimum amount of funds, sought, it will have to find other sources of funding for some of the plans outlined in "Use of Proceeds."

We may not have enough capital as needed and may be required to raise more capital.

We anticipate needing access to credit in order to support our working capital requirements as we grow. Although interest rates are low, it is still a difficult environment for obtaining credit on favorable terms. If we cannot obtain credit when we need it, we could be forced to raise additional equity capital, modify our growth plans, or take some other action. If we are unable to find additional investors willing to provide capital, then it is possible that we will choose to cease our business activity. In that case, the only asset remaining to generate a return on your investment could be our intellectual property. Even if we are not forced to cease our business activity, the unavailability of credit could result in the Company performing below expectations, which could adversely impact the value of your investment.

Management Discretion as to Use of Proceeds

Our success will be substantially dependent upon the discretion and judgment of our management team with respect to the application and allocation of the proceeds of this Offering. The use of proceeds described below is an estimate based on our current business plan. We, however, may find it necessary or advisable to re-allocate portions of the net proceeds reserved for one category to another, and we will have broad discretion in doing so.

Projections: Forward Looking Information

Any projections or forward looking statements regarding our anticipated financial or operational performance are hypothetical and are based on management's best estimate of the probable results of our operations and will not have been reviewed by our independent accountants. These projections will be based on assumptions which management believes are reasonable. Some assumptions invariably will not materialize due to unanticipated events and circumstances beyond management's control. Therefore, actual results of operations will vary from such projections, and such variances may be material. Any projected results cannot be guaranteed.

Minority Holder; Securities with No Voting Rights

The Convertible Notes that an investor is buying has no voting rights attached to them. This means that you will have no rights in dictating on how the Company will be run. You are trusting in management discretion in making good business decisions that will grow your investments.

Insufficient Funds

The company might not sell enough securities in this offering to meet its operating needs and fulfill its plans, in which case it may cease operating and you will get nothing. Even if we sell all the Convertible Notes we are offering now, the Company will (possibly) need to raise more funds in the future, and if it can't get them, we will fail. Even if we do make a successful offering in the future, the terms of that offering might result in your investment in the company being worth less, because later

investors might get better terms.

Our new product could fail to achieve the sales projections we expected

Our growth projections are based on an assumption that with an increased advertising and marketing budget our products will be able to gain traction in the marketplace at a faster rate than our current services have. It is possible that our services will fail to gain market acceptance for any number of reasons. If our services fail to achieve significant sales and acceptance in the marketplace, this could materially and adversely impact the value of your investment.

We face significant market competition

We will compete with larger, established companies who currently have services on the market and/or various respective product development programs. They may have much better financial means and marketing/sales and human resources than us. They may succeed in developing and marketing competing equivalent services earlier than us, or superior services than those developed by us. There can be no assurance that competitors will render our technology or services obsolete. It should further be assumed that competition will intensify.

The loss of one or more of our key personnel, or our failure to attract and retain other highly qualified personnel in the future, could harm our business

To be successful, the Company requires capable people to run its day to day operations. As the Company grows, it will need to attract and hire additional employees in sales, marketing, design, development, operations, finance, legal, human resources and other areas. Depending on the economic environment and the Company's performance, we may not be able to locate or attract qualified individuals for such positions when we need them. We may also make hiring mistakes, which can be costly in terms of resources spent in recruiting, hiring and investing in the incorrect individual and in the time delay in locating the right employee fit. If we are unable to attract, hire and retain the right talent or make too many hiring mistakes, it is likely our business will suffer from not having the right employees in the right positions at the right time. This would likely adversely impact the value of your investment.

Conversion; Repayment Premium Upon Sale of the Company.

(a) In the event that the Company issues and sells shares of its stock to investors (the "Equity Investors") on or before the date of the repayment in full of this Note in a transaction or series of transactions pursuant to which the Company issues and sells its stock resulting in gross proceeds to the Company of at least \$1,070,000 (excluding the conversion of the Notes and any other debt) (a "Qualified Financing"), then it

converts into Common Stock at conversion price equal to the lesser of (i) 80% of the per share price paid by the Investors or (ii) the price equal to the quotient of \$10,000,000 divided by the aggregate number of outstanding Common Stock of the Company as of immediately prior to the initial closing of the Qualified Financing (assuming full conversion or exercise of all convertible and exercisable securities then outstanding other than the Notes.)

(b) If the conversion of the Note would result in the issuance of a fractional share, the Company shall, in lieu of issuance of any fractional share, pay the Investor otherwise entitled to such fraction a sum in cash equal to the product resulting from multiplying the then current fair market value of one share of the class and series of common stocks into which this Note has converted by such fraction.

(c) Notwithstanding any provision of this Note to the contrary, if the Company consummates a Sale of the Company (as defined below) prior to the conversion or repayment in full of this Note, then (i) the Company will give the Investor at least 15 days prior written notice of the anticipated closing date of such Sale of the Company and (ii) at the closing of such Sale of the Company, in full satisfaction of the Company's obligations under this Note, the Company will pay to the Investor an aggregate amount equal to the greater of (a) the aggregate amount of the principal and all unaccrued and unpaid interest under this Note or (b) the amount the Investor would have been entitled to receive in connection with such Sale of the Company if the aggregate amount of principal and interest then outstanding under this Note had been converted into shares of Common Stock of the Company pursuant to Section 3(a) immediately prior to the closing of such Sale of the Company.

(d) For the purposes of this Note: "Sale of the Company" shall mean (i) any consolidation or merger of the Company with or into any other corporation or other entity or person, or any other corporate reorganization, other than any such consolidation, merger or reorganization in which the members of the Company immediately prior to such consolidation, merger or reorganization, continue to hold at least a majority of the voting power of the surviving entity in substantially the same proportions (or, if the surviving entity is a wholly owned subsidiary, its parent) immediately after such consolidation, merger or reorganization; (ii) any transaction or series of related transactions to which the Company is a party in which in excess of 50% of the Company's voting power is transferred; provided, however, that a Sale of the Company shall not include any transaction or series of transactions principally for bona fide equity financing purposes in which cash is received by the Company or any successor or indebtedness of the Company is cancelled or converted or a combination thereof; or (iii) a sale, lease, exclusive license or other disposition of all or substantially all of the assets of the Company.

Maturity.

Unless the Note has been previously converted in accordance with the terms of the Note prior to the Maturity Date, the entire outstanding principal balance and all unpaid accrued interest shall automatically be converted into Common Stock at a

price per security equal to the quotient of \$10,000,000 divided by the aggregate number of outstanding common shares of the Company as of immediately prior to the conversion of these Notes (assuming full conversion or exercise of all convertible and exercisable securities then outstanding other than the Notes.) as soon as a reasonably practicable following the Maturity Date.

Common Stock

The amount of security authorized is 100,000 with a total of 1,000 outstanding.

Voting Rights

The holders of Common Stocks are entitled to one vote per share.

Material Rights

Liquidation Rights. In the event of our liquidation, dissolution, or winding up, holders of Common Stock are entitled to share ratably in all of our assets remaining after payment of liabilities and the liquidation preference of any then outstanding preferred stock. The rights, preferences and privileges of the holders of the company's Common Stocks are subject to and may be adversely affected by, the rights of the holders of shares of any series of any additional classes of preferred stock that we may designate in the future. No other preferences, qualifications, limitations, restrictions, or special rights, other than those provided by law shall exist with respect to any of the shares of the corporation or any of the holders of such shares. The corporation is authorized to provide under purification of agents (as defined in Section 317 of the California Corporations Codes) for breach of duty to the corporation and its stockholders through provisions in the Bylaws or through prior agreements with the agents, or both, or by majority vote of shareholders, or by a majority vote of directors, in excess of the indemnification otherwise permitted by Section 317 of the California Corporations Codes, subject to the limits on such excess indemnification set forth in Section 204 (a) (10) (11) of the California Corporations Codes.

What it means to be a minority holder

If the Convertible Notes are converted to equity, as a minority holder of Your Car Our Driver, you will have limited rights in regards to the corporate actions of the company, including additional issuance's of securities, company repurchases of securities, a sale of the company or its significant assets, or company transactions with related parties. Further, investors in this offering may have rights less than those of other investors, and will have limited influence on the corporate actions of the company.

Dilution

Investors should understand the potential for dilution. If the Convertible Notes are converted to equity, the investor's stake in the company could be diluted due to the company issuing common stock. In other words, when the company issues more

shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g. convertible bonds, preferred shares or warrants) into stock.

If the Convertible Notes are converted to equity and the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early stage companies are unlikely to offer dividends, preferring to invest any earnings into the company).

Transferability of securities

For a year, the securities can only be resold:

- In an IPO;
- To the company;
- To an accredited investor; and
- To a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

We have made the following issuances of securities within the last three years:

The Company has not had any recent offering of securities in the last three years.

Financial Condition and Results of Operations

Financial Condition

You should read the following discussion and analysis of our financial condition and results of our operations together with our financial statements and related notes appearing at the end of this Offering Memorandum. This discussion contains forward-looking statements reflecting our current expectations that involve risks and uncertainties. Actual results and the timing of events may differ materially from those contained in these forward-looking statements due to a number of factors, including those discussed in the section entitled "Risk Factors" and elsewhere in this Offering

Memorandum.

Results of Operations

Circumstances which led to the performance of financial statements:

The business went from a \$146,387 loss in 2015 (which loss was largely due to a large expense in research and development, an extensive advertising campaign, branding, etc.) to a \$7,395 net profit in 2016 because I reduced my salary by 27%, I cut general and administrative expenses by 36%, and I made a big cut in advertising expense by 71%. In 2017, although revenues were up by 4% over 2016, the increased demand required me to hire more employees to meet that demand, causing an increase in cost of goods by 7%. (Even though increased sales brings an increase in gross revenue, there are (non-immediate expenses involved in payroll costs). Also, to accommodate the growth and meet business needs, I had to use more money from my Wells Fargo Business Credit line, which caused an increase in interest expense of 4%. Thus those expenses increased a little above the revenue growth, causing a net loss of \$1,107 in 2017.

Historical results and cash flows:

We expect to increase our net income in the near future because of the trend already evident in this year's results. In spite of a recent advertising campaign expense, and the continuation of high interest rates, we are on track to break even in 2018. It can readily be seen that relief from the high rates of interest I've been forced to pay, plus the ability to advertise in a steady and effective manner, and a higher gross revenue and a lower general and administrative cost will reap positive net income results. I anticipate a substantial increase in net profit in 2020. In 2019, there will be a continuation of increased revenue on the scale now shown, but there will also be the outlay for technology development, a steady advertising campaign, etc. which will equal the increased business income. By 2020, we should see the results of the new technology, the advertising campaign, and the increase of new business due to the ability to provide "on demand" driver service as well as our ongoing current service. This is an 11 year old proven business, which should continue to reap profits based on its' current business model. The increase of business accomplished by the technology we intend to develop and the other types of service we shall be able to provide through that technology, will greatly enhance both the attractiveness of this investment and its' profitability. This proven 11 year old company needs to expand, and to be all that it can be for service to the public. Proper and reasonably priced financing can be an enormous impetus toward meeting its' goals. I have the experience, the many hours of planning, the drive, and the vision to turn this company into a highly profitable one, and to steer it through the stages required to meet its' goals.

Valuation

Valuation Cap: \$10,000,000.00

Valuation Cap Details: The Company included a valuation cap on the valuation at which the Convertible Notes would convert in connection with a Qualified Financing in order to limit the valuation at which the investors would convert their Convertible Notes. The valuation cap of 10 million was picked by our legal counsel, using the valuation at which the Convertible Notes would convert in connection with a Qualified Financing in order to limit the valuation at which the investors would convert their Convertible Notes. The company has had revenues of over 300 thousand in the past years and there is potential of continue growth in our industry. The valuation cap, however, was not based on any valuation methodology applied by the Company and is not intended to represent a calculation of the valuation of the Company as of today or as of the date of the Qualified Financing.

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

We have reviewed the accompanying financial statements of Your Car, Our Driver, Inc (the "Company,"), which comprise the balance sheets as of December 31, 2017 and 2016, and the related statement of operations, statement of shareholders' equity (deficit), and cash flows for the years ending December 31, 2017 and December 31, 2016, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the combined financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Combined Financial Statements

NOTES TO THE FINANCIAL STATEMENT
FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016
(unaudited)

NOTES

1 – NATURE OF OPERATIONS

Your Car, Our Driver, Inc was formed on April 27, 2007 ("Inception") in the State of California. The financial statements of Your Car, Our Driver Inc (which may be referred to as the "Company", "we," "us," or "our") are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company's headquarters are located in Newport Beach, California.

Your Car, Our Driver, Inc provides chauffeuring services to clients using clients' privately-owned cars on as needed basis. The employee drives his own car to the clients' house or business and he/she parks their car there and gets in the client's car with them and drives the client to their preferred venue, the employee waits there for them and they drive them back to their original pickup location.

Going Concern and Management's Plans

The Company lacks significant working capital and has only recently commenced operations. We will incur significant additional costs before significant revenue is achieved. These matters raise substantial doubt about the Company's ability to continue as a going concern. During the next 12 months, the Company intends to fund its operations with funding from our proposed Regulation Crowdfunding campaign, and additional debt and/or equity financing as determined to be necessary. There are no assurances that management will be able to raise capital on terms acceptable to the Company. If we are unable to obtain sufficient amounts of additional capital, we may be required to reduce the scope of our planned development, which could harm our business, financial condition and operating results. The balance sheet and related financial statements do not include any adjustments that might result from these uncertainties.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported amount of expenses during the reporting periods. Actual results could materially differ from these estimates. It is reasonably possible that changes in estimates will occur in the near term.

Fair Value of Financial Instruments

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability

and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the factors that market participants would use in valuing the asset or liability. There are three levels of inputs that may be used to measure fair value:

- Level 1 - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 - Include other inputs that are directly or indirectly observable in the marketplace.
- Level 3 - Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Fair-value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of December 31, 2017 and 2016. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values.

Cash and Cash Equivalents

For purpose of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Revenue Recognition

The Company charges clients on an hourly basis and will recognize revenues when (a) persuasive evidence that an agreement exists; (b) the service has been performed; (c) the prices are fixed and determinable and not subject to refund or adjustment; and (d) collection of the amounts due is reasonably assured.

Income Taxes

The Company applies ASC 740 Income Taxes ("ASC 740"). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities.

ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is "more likely than not" that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to tax in the United States ("U.S.") and files tax returns in the U.S. Federal jurisdiction and California state jurisdiction. The Company is subject to U.S. Federal, state and local income tax examinations by tax authorities for all periods since Inception. The Company currently is not under examination by any tax authority.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America

which it believes to be creditworthy. Balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

What Can You Do With An On-Demand Chauffeur?

Driving is great, but we believe an on-demand chauffeur opens up more possibilities. With Your Car, Our Driver, everyday events become opportunities to use your car to its fullest, instead of as an expensive space filler.

- Your Car, Our Driver is ideal for celebrations of all kinds, ensuring you get to revel to your heart's content and never have to worry about a DUI.
- You have to multi-task. If you've got errands and work to handle simultaneously, let Your Car, Our Driver help you do more with your day.

With Your Car, Our Driver, all you need is a car, a credit card, and the ability to coordinate schedules. **Once you're inside your vehicle, we take care of the rest.**

How Does It Work?

Computer generated image - final product may vary

Very easily.

Your Car, Our Driver uses a state-of-the-art reservation portal to make contact, scheduling, and logistics as simple as possible. Time and date of arrival and duration of reservation are logged automatically and reservations can be made however our clients are most comfortable. Your Car, Our Driver is available over the internet directly through the portal on our website, or through call and text. We have customer service staff ready to handle our clients' needs.

After customers contact us and schedule their drivers, we send one of our chauffeurs wherever they've been requested. Home, office, or anywhere, as long as our clients and the cars are there, our drivers will take over and handle the rest. Our Chauffeurs show up on time and act with poise and confidentiality, ensuring our customers come away satisfied.

And they must - **the majority of our clients come to us through recommendation.**

App Development Stage

We currently have a functioning website for our customers and drivers to use. The app is in the prototype stage and we will build out the full backend technology next. This exciting step will allow us to provide customers and drivers a truly On Demand experience via our mobile app. We are on pace to launch Your Car, Our Driver iOS and Android App by Q3 of 2019.

How Do We Pick Our Drivers?

Our drivers are our greatest asset, so we make sure they're not only prepared for anything, they're also treated well.

To begin, our chauffeurs need to go through a rigorous screening process. Prospective chauffeurs need a **minimum of two years of driving at the highest levels** to even make it to the first step: an interview with the founder of the company. After a preliminary call, we:

- Contact all references

- Contact all references
- Screen driver's licenses with Lloyd's of London
- Perform multiple background checks
- Talk with previous employers

Because **our clients are often high-net-worth individuals**, we need to make sure our drivers are capable of handling complex duties while acting polite and professional at all times. That also means that we expect the best from our drivers at all times. Attire is important for a strong first impression, both in the interview process and on the job.

The final step is an intense 3-hour interview and exercise. Because of the nature of the industry and our model, our drivers often enter our clients' homes and garages. Therefore, our drivers have to be able to conduct themselves in stressful or candid situations and deal with clients with care. To that end, **we run any prospective driver through a series of scenarios to weed out drivers unable to cope with the demands of the job.**

Once hired, our drivers are trained, licensed, insured, bonded, and trained again. Throughout this process and while on the job, we also monitor our driver's licenses to make sure their records are clear throughout their employment. **Our drivers must possess impeccable driving records on, or off, the job before we let them behind the wheel of your car.**

Our clients deserve the best, so we train our drivers to be the best. Once our drivers have achieved that, we treat them the best. To our knowledge, unlike our competition, our drivers are all Your Car, Our Driver employees. **After all, our success is due to their success.**

Why the World Needs Your Car, Our Driver

Your Car, Our Driver is needed right now. California has large, mobile and affluent populations that we believe crave the service we're offering, but who lack access to it. **The landscape is perfect for our expansion.**

Beyond serving Southern California, Your Car, Our Driver has greater plans to serve the world, and one of the major ways is through technology. **Your Car, Our Driver plans to invest in software to automate the logistical side of the business and streamline expansion into further**

markets. With that, we'll be able to expand our services to a far greater area, and we'll be able to accomplish something greater: an on-demand chauffeur service capable of covering anyone.

About Your Car, Our Driver

The seeds for Your Car, Our Driver were planted in the early 80s after seeing the movie *Arthur*. Your Car, Our Driver's founder, Josef Wojtkow, enamored with the titular Arthur's charismatic chauffeur, found his calling enshrined on the silver screen. It left an imprint on his life. As soon as he could, Josef started his own limousine service and began managing dozens of limousines and chauffeurs.

After getting as far as he could on his own, Josef began working for the largest private chauffeur service in Los Angeles. **He distinguished himself, learning the trade thoroughly and tackling some of the most important and difficult jobs.** He handled celebrities after the Oscars, foreign dignitaries, and officials of the highest office. Through hard work and diligence, he learned the ins-and-outs of the chauffeur trade at its highest level and that there was an opportunity in the industry, waiting to be seized.

He decided to do things a little differently.

Computer generated image - final product may vary

After taking a break from the chauffeur business to travel and think, Josef turned again to the chauffeur industry in 2007 with **a revolutionary idea: a limo service without the business' greatest overhead – the limos.**

So with his own credit card in hand, Josef started Your Car, Our Driver to do just that. Though it started with just him, he managed to work and grow the business over the years. Even though the company started right before the Great Recession, through grit and perseverance, he managed to grow the company significantly. He advertised in every high-society and c-suite facing magazine he could find and hustled his heart out.

The end result is a thriving company with hundreds of clients, dozens of drivers with real, good paying jobs, millions of dollars in real revenue over the last 10 years, and a market that is itching for expansion.

This is a real company bootstrapped for growth and the first time Your Car, Our Driver has ever sought investment. It's an opportunity unlike any other.

The Your Car, Our Driver Vision

The Your Car, Our Driver vision for growth involves multiple key steps, all focused on expanding our services as far as possible.

Our next step is a coordinated, targeted advertising campaign. Before we can grow steadily, we need to get the word out to as many people as possible to expand our client base.

After the advertising, we'll be using the rest of the funding to acquire an exclusive industry leading platform that we will modify for our driver-on-demand program. The funding will go directly to acquiring this technology and integrating it into existing services.

These two actions - marketing and tech acquisition - will enable Your Car, Our Driver to expand at what we believe will be an exponential rate across Southern California and other regions. With the integrated tech and marketing push, we believe we'll be able to drive customer acquisition, reach new audiences, and better serve our existing clientele.

Our final steps will go toward creating a driver-on-demand app service. Our first test market for the new app will be in Newport Beach, CA, and from there we plan to roll out to more markets. This service, though limited at first, will act as proof of concept for further expansion and investment. Through acquisition and aggressive positioning, we hope to use this funding as a springboard to bring Your Car, Our Driver to an international audience.

Investing in Your Car, Our Driver

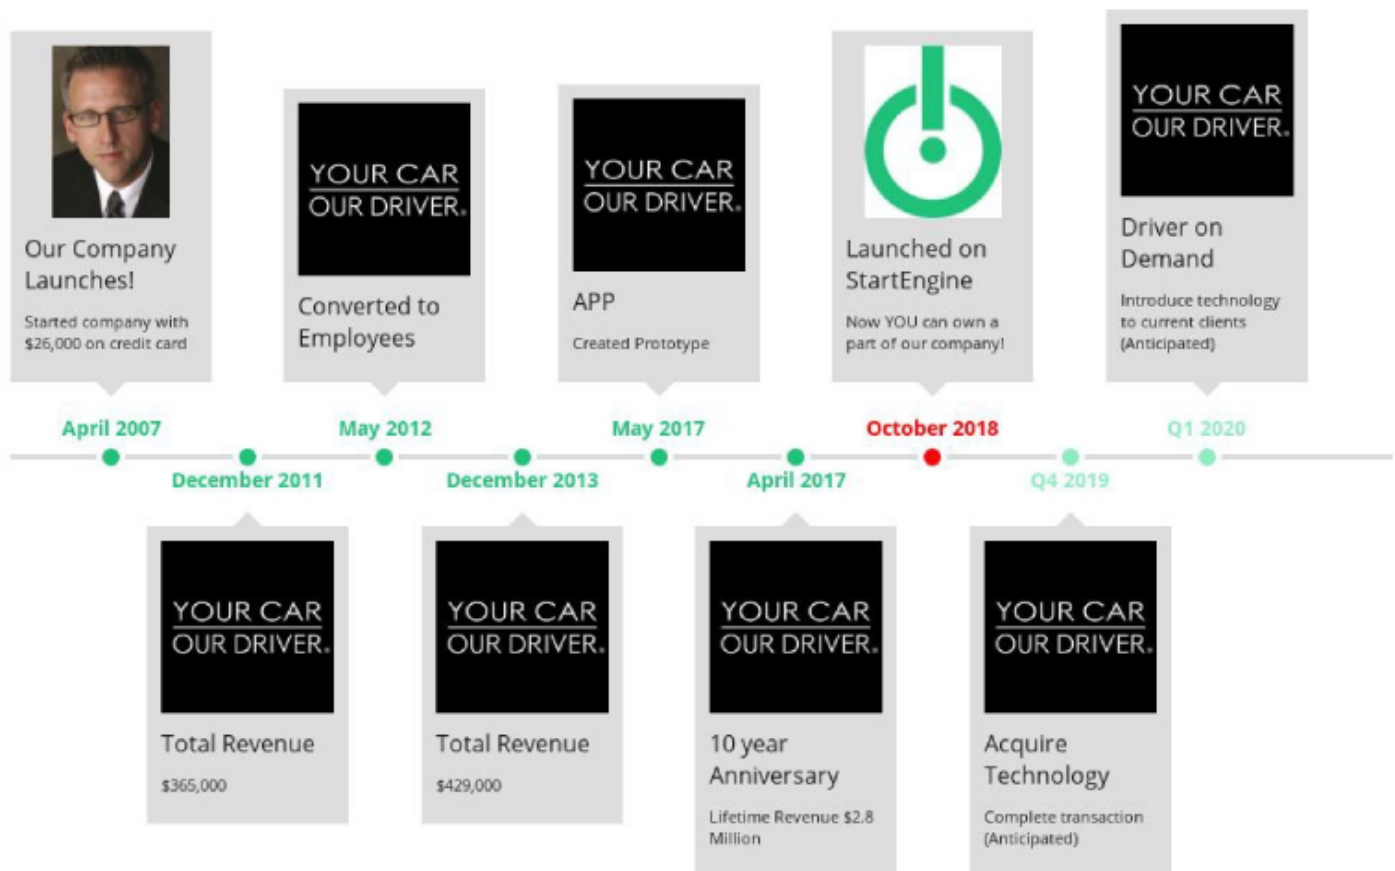

Your Car, Our Driver is full of advantages that make it more attractive than other private chauffeur service in the region, or nation.

- An eager market of thousands of potential individuals craving this basic service

■ Seal Beach-based Industry Jump Inc. is seeking \$500,000 in the form of a convertible note, founder and Chief Executive JJ Englert told the Business Journal.

The funding values it at \$2.5 million. The note comes at a 25% discount to the valuation and carries a 9% interest rate.

The company, launched last year, develops career and project-management platforms for freelance filmmakers and producers.

The filmmaking industry has changed, driven by a "digital revolution" that's resulted in a new type of video making, such as YouTube video, Englert told the audience at Landmark Angels and Tech Coast Angels Venture Forum in October at the Resort at Pelican Hill.

He said video production must also be modernized, from hiring to project management.

Its platform allows users to leverage its advanced search engine to find filmmakers that fit search parameters; select from vetted, peer-reviewed candidates; book film crews; and receive employment information.

A freelance director, Englert said the process is more complex than most people would imagine.

He said a typical production of his includes nearly 30 people and lasts about a month. The rapid cycle of starting and

shutting down projects speaks to the need of a platform like Industry Jump, he added. It takes a 5% commission from every transaction.

■ Newport Beach-based Your Car Our Driver, in business for 11 years, is looking to ramp up.

The on-demand chauffeur network company announced an international crowdfunding campaign last month to raise nearly \$1.1 million.

Founder and Chief Executive Josef Wojtkow said he founded the company in 2007, self-funding the venture with \$26,000. It's raised \$3.5 million.

He said the company provides drivers, not cars. "Why pay for an expensive limousine?" he pointed out, when clients can

stay in the familiarity and comfort of their own vehicles, traveling with their personal drivers.

He said the company, which is licensed, bonded and insured, differentiates itself as a provider of luxury service at an affordable rate. It directly employs a group of professional chauffeurs, who arrive in a uniform of a black suit, white, gray or black shirt and a tie.

Wojtkow, who pointed out that he didn't have crowdfunding as an option when he

started the company, said he believes the fresh capital can better help the company with scheduling and deploying drivers.

It plans to use the crowdfunding round to acquire an exclusive technology platform to better provide drive-on-demand, expand its footprint in Southern California and beyond, and create a mobile app.

He said additional technology would allow clients to book 30 minutes to an hour in advance; bookings currently must be made three to five hours ahead.

Rates are \$40 per hour, with a required three-hour minimum.

■ Sports protective technology developer Vici Inc. announced last month the close of a \$28.5 million Series B, a funding round that includes an undisclosed investment from All-Pro NFL quarterback Aaron Rodgers through Newport Beach-based Rx3 Ventures.

The Green Bay Packers superstar is one of three partners at Rx3. The others are Bryon Roth, chairman and chief executive at Newport Beach-based Roth Capital Partners, and Nate Raabe, who previously managed the private capital group at Roth Capital.

Seattle-based Vici makes football helmets designed to lessen the likelihood of concussion. The company has a new product geared for younger players. It launched its first product last year.

sition.

Vinci "will execute Cloudvira's technical vision, oversee initiatives to strengthen developer talent and collaborate across departments to scale technical initiatives to the company's explosive growth," the company said in a statement.

Vinci has 25 years of experience overseeing technology strategy, product development and service provider partnerships at leading mortgage technology companies, including Equator, an affiliate of real estate and mortgage technology firm, a.k.a.

marketing teams to help mortgage lenders use Cloudvira's point-of-sale products.

Cloudvira's flagship "intelligent mortgage platform" product supported about \$17 billion in loan transactions last year from its growing list of customers, which used the service to originate more than \$100 billion in loans.

Its latest offering is a mobile and broker point-of-sale product geared for lenders and bankers that's slated to launch next year.

The round included participation from Santa Monica-based Upfront Ventures.

The fast-growing company is getting more office space to accommodate the recent hires.

The Business Journal reported in October of the company's plans to move headquarters from the Jamboree Business Center office complex near The Market Place shopping center to a new 24,000-square-foot office at UCI Research Park near the University of California-Irvine.

The company had about 100 employees

and two initial public offerings.

He's not the only new addition to Cloudvira's team.

Last month, it announced bringing on James Vinci to the firm's newly created executive vice president of technology po-

rate and mortgage technology firm Art-source Portfolio Solutions S.A. (Nasdaq: ASPS).

Last month, Cloudvira brought on Jesse Decker as chief customer success officer to work with the product development and

the company posted an estimated 200 million-plus in revenue this year.

Cloudvira has raised more than \$77 million, including a \$50 million Series C in May led by private equity firm Riverwood Capital Management LP in Menlo Park.

The company has about 100 employees in Irvine as of October.

Thats a fair point @ Josef how much of your business would u estimate is from who are to impaired to drive there car!

Josef Wojtkow [Your Car Our Driver - Issuer](#) 4 months ago

@ Nicholas 95 % of our business is from clients that choose to indulge in adult beverages, not in the beginning but as the night moves along, they become impaired and would legally be over the limit to safely drive their vehicle anywhere, but as you may know there are people out there that still think it's still okay to drink and drive, but our goal is to help provide a solution to them, so to prevent this behavior.

Nicholas Peterson 5 months ago

@josef if they still want to drive why would they want your service maybe im wrong josef this is nice but i see this growing and then when automated cars come out i see it failing like blockbuster did with Netflix on the contrary planes are almost full automated with auto pilot with pilots only taking the wheel like 3mins or so i do think you are very capable as you have proved in your history but the longterm is to uncertain for me and for that reason im out

Josef Wojtkow [Your Car Our Driver - Issuer](#) 5 months ago

Nicholas, the reason most people use our service is because they plan on going to a restaurant, charity event, concert, ball game, night on the town, to enjoy adult beverages, we wait for them and we drive them home. even in this scenario I don't think the law would allow an impaired person to be in a vehicle alone without some supervision. even with all the options available, limousine, car, Uber, Lyft, taxi, people still drink and drive, our service would prevent them from doing that. I do appreciate your feedback.

Nicholas Peterson 5 months ago

How is this service going to compete in the future when the majority of cars have autonomous driving?

Josef Wojtkow [Your Car Our Driver - Issuer](#) 5 months ago

We don't believe our clients would be purchasing or participating anything autonomous. Plus people in general will always still want to drive, I don't see people giving that up anytime soon.

Ronald Wallen [Your Car Our Driver - Potential Investor](#) 5 months ago

I can't count the number of times I have driven home after a party or a restaurant dinner, having had probably more than the legal limit of alcohol. After all, a cocktail or two, and wine with dinner does not make one a drunk. But, it does severely impair driving reactions, and even when I am convinced I am in a position to drive, the law says a very different thing.

So, when I heard about this great service, I gingerly joined the people who count safety and convenience as priority number 1. My hesitation turned to great enthusiasm, after having enjoyed the ease and comfort and peace of mind of having a chauffeured night out, and have had many of those since. At Your Car, Our Driver's rates, it's a no brainer to me!

So, aside from being a huge fan of this service, I am delighted to be able to invest and become a part of this great service organization.

STARTENGINE SUBSCRIPTION PROCESS (Exhibit E)

Platform Compensation

- As compensation for the services provided by StartEngine Capital, the issuer is required to pay to StartEngine Capital a fee consisting of a 6-8% (six to eight percent) commission based on the dollar amount of securities sold in the Offering and paid upon disbursement of funds from escrow at the time of a closing. The commission is paid in cash and in securities of the Issuer identical to those offered to the public in the Offering at the sole discretion of StartEngine Capital. Additionally, the issuer must reimburse certain expenses related to the Offering. The securities issued to StartEngine Capital, if any, will be of the same class and have the same terms, conditions and rights as the securities being offered and sold by the issuer on StartEngine Capital's website.

Information Regarding Length of Time of Offering

- Investment Cancellations: Investors will have up to 48 hours prior to the end of the offering period to change their minds and cancel their investment commitments for any reason. Once within 48 hours of ending, investors will not be able to cancel for any reason, even if they make a commitment during this period.
- Material Changes: Material changes to an offering include but are not limited to: A change in minimum offering amount, change in security price, change in management, material change to financial information, etc. If an issuer makes a material change to the offering terms or other information disclosed, including a change to the offering deadline, investors will be given five business days to reconfirm their investment commitment. If investors do not reconfirm, their investment will be cancelled and the funds will be returned.

Hitting The Target Goal Early & Oversubscriptions

- StartEngine Capital will notify investors by email when the target offering amount has hit 25%, 50% and 100% of the funding goal. If the issuer hits its goal early, and the minimum offering period of 21 days has been met, the issuer can create a new target deadline at least 5 business days out. Investors will be notified of the new target deadline via email and will then have the opportunity to cancel up to 48 hours before new deadline.
- Oversubscriptions: We require all issuers to accept oversubscriptions. This may not be possible if: 1) it vaults an issuer into a different category for financial statement requirements (and they do not have the requisite financial statements); or 2) they reach \$1.07M in investments. In the event of an oversubscription, shares will be allocated at the discretion of the issuer.
- If the sum of the investment commitments does not equal or exceed the target offering amount at the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.
- If a StartEngine issuer reaches its target offering amount prior to the deadline, it may conduct an initial closing of the offering early if they provide notice of the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). StartEngine will notify investors when the issuer meets its

target offering amount. Thereafter, the issuer may conduct additional closings until the offering deadline.

Minimum and Maximum Investment Amounts

- In order to invest, to commit to an investment or to communicate on our platform, users must open an account on StartEngine Capital and provide certain personal and non-personal information including information related to income, net worth, and other investments.
- Investor Limitations: Investors are limited in how much they can invest on all crowdfunding offerings during any 12-month period. The limitation on how much they can invest depends on their net worth (excluding the value of their primary residence) and annual income. If either their annual income or net worth is less than \$107,000, then during any 12-month period, they can invest up to the greater of either \$2,200 or 5% of the lesser of their annual income or net worth. If both their annual income and net worth are equal to or more than \$107,000, then during any 12-month period, they can invest up to 10% of annual income or net worth, whichever is less, but their investments cannot exceed \$107,000.

There is no pending action, suit, proceeding, arbitration, mediation, complaint, claim, charge or investigation before any court, arbitrator, mediator or governmental body, or to the Company's knowledge, currently threatened in writing (a) against the Company or (b) against any consultant, officer, manager, director or key employee of the Company arising out of his or her consulting, employment or board relationship with the Company or that could otherwise materially impact the Company.

4. Representations and Warranties of Subscriber. By executing this Subscription Agreement, Subscriber (and, if Subscriber is purchasing the Securities subscribed for hereby in a fiduciary capacity, the person or persons for whom Subscriber is so purchasing) represents and warrants, which

representations and warranties are true and complete in all material respects as of the date of the Subscriber's Closing Date(s):

(a) Requisite Power and Authority. Such Subscriber has all necessary power and authority under all applicable provisions of law to execute and deliver this Subscription Agreement, the Operating Agreement and other agreements required hereunder and to carry out their provisions. All action on Subscriber's part required for the lawful execution and delivery of this Subscription Agreement and other agreements required hereunder have been or will be effectively taken prior to the Closing. Upon their execution and delivery, this Subscription Agreement and other agreements required hereunder will be valid and binding obligations of Subscriber, enforceable in accordance with their terms, except (a) as limited by applicable bankruptcy, insolvency, reorganization, moratorium or other laws of general application affecting enforcement of creditors' rights and (b) as limited by general principles of equity that restrict the availability of equitable remedies.

(b) Investment Representations. Subscriber understands that the Securities have not been registered under the Securities Act. Subscriber also understands that the Securities are being offered and sold pursuant to an exemption from registration contained in the Act based in part upon Subscriber's representations contained in this Subscription Agreement.

(c) Illiquidity and Continued Economic Risk. Subscriber acknowledges and agrees that there is no ready public market for the Securities and that there is no guarantee that a market for their resale will ever exist. Subscriber must bear the economic risk of this investment indefinitely and the Company has no obligation to list the Securities on any market or take any steps (including registration under the Securities Act or the Securities Exchange Act of 1934, as amended) with respect to facilitating trading or resale of the Securities. Subscriber acknowledges that Subscriber is able to bear the economic risk of losing Subscriber's entire investment in the Securities. Subscriber also understands that an investment in the Company involves significant risks and has taken full cognizance of and understands all of the risk factors relating to the purchase of Securities.

(d) Resales. Subscriber agrees that during the one-year period beginning on the date on which it acquired Securities pursuant to this Subscription Agreement, it shall not transfer such Securities except:

(i) To the Company;

(ii) To an "accredited investor" within the meaning of Rule 501 of Regulation D under the Securities Act;

(iii) As part of an offering registered under the Securities Act with the SEC; or

(iv) To a member of the Subscriber's family or the equivalent, to a trust controlled by the Subscriber, to a trust created for the benefit of a member of the family of the Subscriber or equivalent, or in connection with the death or divorce of the Subscriber or other similar circumstance.

(e) Investment Limits. Subscriber represents that either:

(i) Either of Subscriber's net worth or annual income is less than \$107,000, and that the

amount it is investing pursuant to this Subscription Agreement, together with all other amounts invested in offerings under Section 4(a)(6) of the Securities Act within the previous 12 months, is either less than (A) 5% of the lower of its annual income or net worth, or (B) \$2,200; or

(ii) Both of Subscriber's net worth and annual income are more than \$107,000, and that the amount it is investing pursuant to this Subscription Agreement, together with all other amounts invested in offerings under Section 4(a)(6) of the Securities Act within the previous 12 months, is less than 10% of the lower of its annual income or net worth, and does not exceed \$107,000.

(f) Subscriber information. Within five days after receipt of a request from the Company, the Subscriber hereby agrees to provide such information with respect to its status as a shareholder (or potential shareholder) and to execute and deliver such documents as may reasonably be necessary to comply with any and all laws and regulations to which the Company is or may become subject. **Subscriber further agrees that in the event it transfers any Securities, it will require the transferee of such Securities to agree to provide such information to the Company as a condition of such transfer.**

(g) Company Information. Subscriber has read the Offering Statement. Subscriber understands that the Company is subject to all the risks that apply to early-stage companies, whether or not those risks are explicitly set out in the Offering Materials. Subscriber has had an opportunity to discuss the Company's business, management and financial affairs with managers, officers and management of the Company and has had the opportunity to review the Company's operations and facilities. Subscriber has also had the opportunity to ask questions of and receive answers from the Company and its management regarding the terms and conditions of this investment. Subscriber acknowledges that except as set forth herein, no representations or warranties have been made to Subscriber, or to Subscriber's advisors or representative, by the Company or others with respect to the business or prospects of the Company or its financial condition.

(h) Valuation. The Subscriber acknowledges that the price of the Securities was set by the Company on the basis of the Company's internal valuation and no warranties are made as to value. The Subscriber further acknowledges that future offerings of Securities may be made at lower valuations, with the result that the Subscriber's investment will bear a lower valuation.

(i) Domicile. Subscriber maintains Subscriber's domicile (and is not a transient or temporary resident) at the address shown on the signature page.

(j) Foreign Investors. If Subscriber is not a United States person (as defined by Section 7701(a)(30) of the Internal Revenue Code of 1986, as amended), Subscriber hereby represents that it has satisfied itself as to the full observance of the laws of its jurisdiction in connection with any invitation to subscribe for the Securities or any use of this Subscription Agreement, including (i) the legal requirements within its jurisdiction for the purchase of the Securities, (ii) any foreign exchange restrictions applicable to such purchase, (iii) any governmental or other consents that may need to be obtained, and (iv) the income tax and other tax consequences, if any, that may be relevant to the purchase, holding, redemption, sale, or transfer of the Securities.

Subscriber's subscription and payment for and continued beneficial ownership of the Securities will not violate any applicable securities or other laws of the Subscriber's jurisdiction.

5. Revisions to Manner of Holding.

In the event that statutory or regulatory changes are adopted such that it becomes possible for companies whose purpose is limited to acquiring, holding and disposing of securities issued by a single company ("Crowdfunding SPVs") to make offerings under Section 4(a)(6) of the Securities Act, Subscriber agrees to exchange the Securities for securities issued by a Crowdfunding SPV in a transaction complying with the requirements of Section 3(a)(9) of the Securities Act. Subscriber agrees that in the event the Subscriber does not provide information sufficient to effect such exchange in a timely manner, the Company may repurchase the Securities at a price to be determined by the Board of Directors. Subscriber further agrees to transfer its holdings of securities issued under Section 4(a)(6) of the Securities Act into "street name" in a brokerage account in Subscriber's name, provided that the Company pay all costs of such transfer. Subscriber agrees that in the event the Subscriber does not provide information sufficient to effect such transfer in a timely manner, the Company may repurchase the Securities at a price to be determined by the Board of Directors.

6. Indemnity.

The representations, warranties and covenants made by the Subscriber herein shall survive the closing of this Agreement. The Subscriber agrees to indemnify and hold harmless the Company and its respective officers, directors and affiliates, and each other person, if any, who controls the Company within the meaning of Section 15 of the Securities Act against any and all loss, liability, claim, damage and expense whatsoever (including, but not limited to, any and all reasonable attorneys' fees, including attorneys' fees on appeal) and expenses reasonably incurred in investigating, preparing or defending against any false representation or warranty or breach of failure by the Subscriber to comply with any covenant or agreement made by the Subscriber herein or in any other document furnished by the Subscriber to any of the foregoing in connection with this transaction.

**CONVERTIBLE PROMISSORY NOTE
SERIES %YEAR% - CF**

\$VESTING_AMOUNT %TODAY%

For value received %NAME_OF_ISSUER%, a %STATE_INCORPORATED% corporation (the "Company"), promises to pay to %VESTING_AS%, the investor party hereto ("Investor") who is recorded in the books and records of the Company as having subscribed to this convertible promissory note (the "Note") the principal amount set forth above and on the signature page of his/her subscription agreement (the "Subscription Agreement"), together with accrued and unpaid interest thereon, each due and payable on the date and in the manner set forth below. This Note is issued as part of a series of similar convertible promissory notes issued by the Company pursuant to Regulation Crowdfunding (collectively, the "Crowdfunding Notes") to qualified purchasers on the funding portal StartEngine Capital LLC (collectively, the "Investors").

1. Repayment. All payments of interest and principal shall be in lawful money of the United States of America and shall be made pro rata among all Investors. All payments shall be applied first to accrued interest, and thereafter to principal. The outstanding principal amount of the Note shall be due and payable on October 31, 2020 (the "Maturity Date").

2. Interest Rate. The Company promises to pay simple interest on the outstanding principal amount hereof from the date hereof until payment in full, which interest shall be payable at the rate of %INTEREST_RATE% % per annum or the maximum rate permissible by law, whichever is less. Interest shall be due and payable on the Maturity Date and shall be calculated on the basis of a 365-day year for the actual number of days elapsed.

3. Conversion; Repayment Premium Upon Sale of the Company.

(a) In the event that the Company issues and sells shares of its stock to investors (the "**Equity Investors**") on or before the date of the repayment in full of this Note in a transaction or series of transactions pursuant to which the Company issues and sells shares of its stock resulting in gross proceeds to the Company of at least \$1,000,000 (excluding the conversion of the Notes and any other debt) (a "**Qualified Financing**"), then it converts into Common Stock at conversion price equal to the lesser of (i) 80% of the per share price paid by the Investors or (ii) the price equal to the quotient of \$10,000,000 divided by the aggregate number of outstanding common shares of the Company as of immediately prior to the initial closing of the Qualified Financing (assuming full conversion or exercise of all convertible and exercisable securities then outstanding other than the Notes.)

(b) If the conversion of the Note would result in the issuance of a fractional share, the Company shall, in lieu of issuance of any fractional share, pay the Investor otherwise entitled to such fraction a sum in cash equal to the product resulting from multiplying the then current fair market value of one share of the class and series of capital stock into which this Note has converted by such fraction.

(c) Notwithstanding any provision of this Note to the contrary, if the Company consummates a Sale of the Company (as defined below) prior to the conversion or repayment in full of this Note, then (i) the Company will give the Investor at least 15 days prior written notice of the anticipated closing date of such Sale of the Company and (ii) at the closing of such Sale of the Company, in full satisfaction of the Company's obligations under this Note, the Company will pay to the Investor an aggregate amount equal to the greater of (a) the aggregate amount of the principal and all unaccrued and unpaid interest under this Note or (b) the amount the Investor would have been entitled to receive in connection with such Sale of the Company if the aggregate amount of principal and interest then outstanding under this Note had been converted into shares of Common stock of the Company pursuant to Section 3(a) immediately prior to the closing of such Sale of the Company.

(d) For the purposes of this Note: "**Sale of the Company**" shall mean (i) any consolidation or merger of the Company with or into any other corporation or other entity or person, or any other corporate reorganization, other than any such consolidation, merger or reorganization in which the stockholders of the Company immediately prior to such consolidation, merger or reorganization, continue to hold at least a majority of the voting power of the surviving entity in substantially the same proportions (or, if the surviving entity is a wholly owned subsidiary, its parent) immediately after such consolidation, merger or reorganization; (ii) any transaction or series of related transactions to which the Company is a party in which in excess of 50% of the Company's voting power is transferred; *provided, however*, that a Sale of the Company shall not include any transaction or series of transactions principally for bona fide equity financing purposes in which cash is received by the Company or any successor or indebtedness of the Company is cancelled or converted or a combination thereof; or (iii) a sale, lease, exclusive license or other disposition of all or substantially all of the assets of the Company.

4. Maturity. Unless this Note has been previously converted in accordance with the terms of this Note, the entire outstanding principal balance and all unpaid accrued interest shall automatically be converted into Common Stock at a price per security equal to the quotient of \$10,000,000 divided by the aggregate number of outstanding common shares of the Company as of immediately prior to the conversion of these Notes (assuming full conversion or exercise of all convertible and exercisable securities then outstanding other than the Notes.) as soon as reasonably practicable following the Maturity Date.

5. Expenses. In the event of any default hereunder, the Company shall pay all reasonable attorneys' fees and court costs incurred by Investor in enforcing and collecting this Note.

6. Prepayment. The Company may not prepay this Note prior to the Maturity Date without the written consent of 51% in interest of the Investors.

7. Default. In the event of any "**Event of Default**" hereunder, the Convertible Notes shall accelerate and all principal and unpaid accrued interest shall become due and payable. Each of the following shall constitute an "**Event of Default**", provided, however that the 51% of the interest of Investors may waive any Event of Default as set forth:

- a) The Company's failure to pay when due any amount payable by it hereunder and such failure continues uncured for 10 business days.
- b) The Company's failure to comply with any of its reporting obligations under Regulation Crowdfunding and such failure continues uncured for 10 business days.
- c) Voluntary commencement by the Company of any proceedings to have itself adjudicated as bankrupt.
- d) The entry of an order or decree under any bankruptcy law that adjudicates the Company as bankrupt, where the order or decree remains unstayed and in effect for 90 days after such entry.
- e) The entry of any final judgment against the Company for an amount in excess of \$100,000, if undischarged, unbonded, undismissed or not appealed within 30 days after such entry.
- f) The issuance or entry of any attachment or the receipt of actual notice of any lien against any of the property of the Company, each for an amount in excess of \$100,000, if undischarged, unbonded, undismissed or not being diligently contested in good faith in appropriate proceedings within 30 days after such issuance, entry or receipt.
- g) Any representation or warranty made by the Company under the Convertible Note Subscription Agreement shall prove to have been false or misleading in any material respect when made or deemed to have been made; provided that no Event of Default will occur under this clause if the underlying issue is capable of being remedied and is remedied within 30 days of the earlier of the Company becoming aware of the issue.

8. Waiver. The Company hereby waives demand, notice, presentment, protest and notice of dishonor.

9. Governing Law. This Note shall be governed by and construed under the laws of the state of %%STATE_INCORPORATED%%, as applied to agreements among %%STATE_INCORPORATED%% residents, made and to be performed entirely within the state of %%STATE_INCORPORATED%%, without giving effect to conflicts of laws principles.

10. Parity with Other Notes. The Company's repayment obligation to the Investor under this Note shall be on parity with the Company's obligation to repay all Notes issued pursuant to the Agreement. In the event that the Company is obligated to repay the Notes and does not have sufficient funds to repay the Notes in full, payment shall be made to Investors of the Notes on a pro rata basis. The preceding sentence shall not, however, relieve the Company of its obligations to the Investor hereunder.

11. Modification; Waiver. Any term of this Note may be amended or waived with the written consent of the Company and 51% in interest of investors.

12. Assignment. Subject to compliance with applicable federal and state securities laws (including the

restrictions described in the legends to this Note), this Note and all rights hereunder are transferable in whole or in part by the Investor to any person or entity upon written notice to the Company. Thereupon, this Note shall be registered in the Company's books and records in the name of, the transferee. Interest and principal shall be paid solely to the registered holder of this Note. Such payment shall constitute full discharge of the Company's obligation to pay such interest and principal.

13. Electronic Signature. The Company has signed this Note electronically and agrees that its electronic signature is the legal equivalent of its manual signature on this Note.
