Notes to Interim Condensed Financial Statements

3.1 Licensing and collaboration agreements, page 13

1. We acknowledge the information provided in your response to comment 1. Please revise your disclosure to include the significant judgments underlying your conclusion that the license granted to Lilly was distinct and represented a right-to-use, as addressed in IFRS

15.123 and 125. In this regard, consider providing certain information on pages 2-5 of your response, as follows:

- The nature of the license granted to Lilly with regard to its ongoing development and future commercialization activities,
- The degree to which the Pre-clinical and Phase 1 development activities conducted by you “do not represent integrated services with the licensed IP” to Lilly and the absence of any impact of your R&D activities on the "form or functionality of the underlying IP" licensed to Lilly,
- The purpose of Pre-clinical and Phase 1 development activities conducted by Lilly and the absence of any linkage between these activities and your development activities, other than through the joint steering committee and
- The nature and frequency of the information-sharing process through the joint steering committee and how this process is expected to impact the future development activities to be independently conducted by you and Lilly.

You may contact Ibolya Ignat at (202) 551-3636 or Franklin Wyman at (202) 551-3660 with any questions.

Sincerely,
