File No. 333-218093**

Dear Mr. Shukla:

We have reviewed your June 2, 2017 response to our comment letter and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter by amending your registration statement and providing the requested information. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your registration statement and the information you provide in response to these comments, we may have additional comments.

Dilution, page 62

1. We note your response to prior comment 2; however, given that the issuance of the rights is contingent upon your initial business combination and not the IPO, we do not believe your calculation of hypothetical IPO price per share of \$9.09 by including the contingent 1,250,000 ordinary shares issued for outstanding rights upon the initial business combination is appropriate. Please revise to start your dilution calculation with the IPO price of \$10 per share.
