# Industry Problems

## Outdated Rental Platforms

Global practices still include listings in the form of simple online classified ads which provide limited rental experience and essentially no value in terms of application process and day-to-day rental management.

## \$500bn Frozen in Rental Deposits

Tenants freeze billions of dollars on rental deposits every time they rent. There is no internationally recognized insurance or savings that could be applied to quality renters.

# Our Solution

Rentberry streamlines the entire long-term rental process using patented technology and eliminates the need for a middleman making it possible for tenants and landlords to complete all rental tasks in one place.

## Full Rental Experience
