**ARKADIOS CAPITAL LLC**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

**NOTE A — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Organization and Description of Business: Arkadios Capital LLC (the “Company”), a Georgia Limited Liability Company organized in November 2018, is a securities broker-dealer registered with the Securities and Exchange Commission (“SEC”) and the Financial Industry Regulatory Authority (“FINRA”) approved on October 17, 2016.

The Company was previously known as MSY Securities, LLC, a Georgia limited liability company. The Company adopted the new name of Arkadios Capital LLC effective November 21, 2016.

The Company is wholly-owned by Arkadios Holdings, Inc. (the “Parent”).

The Company operates as a “general securities” broker-dealer executing trades for institutional and retail customers. The Company does not carry customer accounts or perform custodial functions relating to customer securities. Customers of the Company are introduced to a carrying broker-dealer (the “clearing broker”) on a fully disclosed basis. The Company’s customer are located throughout the United States.

A summary of the Company’s significant accounting policies are as follows:

Accounting policies: The Company follows generally accepted accounting principles (GAAP), as established by the Financial Accounting Standards Board (the FASB) to ensure consistent reporting of financial condition, results of operations, and cash flows.

Cash and Cash Equivalents: The Company considers all cash and money market instruments with a maturity of ninety days or less to be cash and cash equivalents.

The Company maintains its demand deposits in a high credit quality financial institution. Balances at times may exceed federally insured limits.

Property and Equipment: Property and equipment are recorded at cost. Depreciation is provided by use of straight-line methods over the estimated useful lives of the respective assets. Maintenance and repairs are charged to expense as incurred; major renewals and betterments are capitalized. When items of property or equipment are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is included in the results of operations. Depreciation expense for 2021 was \$55,484.

Income Taxes: The Company is taxed as a sole proprietorship. Therefore the income or losses of the Company flow through to its member and no income taxes are recorded in the accompanying financial statements.

**ARKADIOS CAPITAL LLC**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

**NOTE A — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Income Taxes (Continued): The Company has adopted the provisions of FASB Accounting Standards Codification 740-10, Accounting for Uncertainty in Income Taxes. Under ASC 740-10, the Company is required to evaluate each of its tax positions to determine if they are more likely than not to be sustained if the taxing authority examines the respective position. A tax position includes an entity's status, including its status as a pass-through entity, and the decision not to file a tax return. The Company has evaluated each of its tax positions and has determined that no provision or liability for income taxes is necessary.

Estimates: Management uses estimates and assumptions in preparing financial statements in accordance with GAAP. Those estimates and assumptions affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. Actual results could vary from the estimates that were assumed in preparing the financial statements.

Revenue Recognition: The Company earns Investment Advisory Fees from its contracts with brokerage customers to manage assets for investment, and/or to transact on their accounts. The Investment Advisory Fees are primarily earned over time as the Company provides the contracted monthly services and are generally assessed based on a tiered scale of the market value of assets under management (AUM) at month-end.

The Company earns brokerage fees from its contracts with brokerage customers to transact on their account. Fees are transaction based, including trade execution services, are recognized at the point in time that the transaction is executed, i.e., the trade date. This includes riskless principal (government and corporate bonds) transactions in which the company receives a buy order from a customer and the Company purchases the security from another person or entity to offset the sale to the customer. Company buys the bond at a lower price than it sells it. The riskless principal revenue is earned at the time the transaction is executed.

Other related services provided include financial planning services and the fees the Company earns, which are based on a fixed fee schedule, are recognized when the services are rendered.

The Company elected the modified retrospective approach of adoption.

Mutual Funds: Mutual Funds or pooled investment vehicles (collectively, "funds") have entered into agreements with the Company to distribute/sell its shares to investors. Fees are paid up front and over time (12b-1 fees) on the basis of a contractual rate applied to the monthly or quarterly market value of the fund (that is, net asset value, the fund may also pay, upon investor exit from the fund (that is, a contingent deferred sales charge), or as a combination thereof. Revenue is recognized monthly as services are provided.

**ARKADIOS CAPITAL LLC**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

**NOTE A — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Principal Trading Revenue: Principal transactions include revenues from customers' purchases and sales of financial instruments, including fixed income and municipal securities, in which we transact on a principal basis. To facilitate such transactions, we carry inventories of financial instruments. The gains and losses on such inventories, both realized and unrealized, are reported as principal trading revenues.

Securities Transactions: Principal transactions and related revenues and expenses are recorded at fair value on a trade-date basis (as if they had settled). Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded in trading revenue in the statement of operations. Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net as receivable from clearing broker on the statement of financial condition.

Date of Management's Review: Subsequent events were evaluated through March 30, 2022, the date which the financial statements were available to be issued.

Accounting Standards: The Company is evaluating new accounting standards and will implement as required.

**NOTE B — LEASES**

The Company leases its office facilities under a related party expense sharing agreement. Rent expense for the year ended December 31, 2021 was approximately \$389,915. The Company had no lease commitments extending beyond one year.

**NOTE C — NET CAPITAL**

The Company, as a registered broker dealer is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2021, the Company had net capital of \$2,200,435, which was \$1,935,137 in excess of its required net capital of \$265,298 and its ratio of aggregate indebtedness to net capital was 0.10 to 1.0.

**NOTE D – OFF BALANCE SHEET RISK**

In the normal course of business, the Company's customers execute securities transactions through the Company. These activities may expose the Company to off balance sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

**ARKADIOS CAPITAL LLC**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

NOTE E – FAIR VALUE

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market.

Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2021.

	Fair Value Measurements 2021	Level 1 Valuation	Level 2 Valuation	Level 3 Valuation
Securities owned, municipal bonds	<u>\$ 0</u>	<u>\$ - 0 -</u>	<u>\$0</u>	<u>\$ - 0 -</u>
Total	<u><u>\$ 0</u></u>	<u><u>\$ - 0 -</u></u>	<u><u>\$0</u></u>	<u><u>\$ - 0 -</u></u>

**ARKADIOS CAPITAL LLC**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

**NOTE E – FAIR VALUE (CONTINUED)**

The fair value of these Level 2 securities is based on a market approach with prices obtained from third party pricing services. Observable inputs used to value these securities can include, but are not limited to, reported trades, benchmark yields, issuer spreads and non-binding broker quotes.

There were no transfers between Level 1 and Level 2 during the year.

The availability of observable inputs can vary from instrument to instrument and is affected by a wide variety of factors, including, for example, the type of instrument, whether the instrument is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the instrument. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the instrument.

Fair value of investments securities available for sale are determined by obtaining quoted prices on nationally recognized securities exchanges when available. If quoted prices are not available, fair value is determined using matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities.

State and municipal government obligations which include U.S. Government securities and Government-sponsored enterprises are stated at fair value based on third-party dealer quotes. These financial instruments are classified in Level 2 of the fair value hierarchy.

**NOTE F – CLEARING BROKER AND CLEARANCE AGREEMENT**

The Company has an agreement with a clearing broker to execute and clear, on a fully disclosed basis, customer accounts of the Company. In accordance with this agreement, the Company is required to maintain a deposit in cash or securities. The deposit with its clearing broker is refundable but, subject to offsets, if and when the Company ceases doing business with the clearing broker.

**ARKADIOS CAPITAL LLC**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

**NOTE F – CLEARING BROKER AND CLEARANCE AGREEMENT (CONTINUED)**

The Company's clearing agreement requires that a minimum balance of \$100,000 be maintained on deposit with the clearing broker and that minimum net capital of \$250,000 be maintained. The Company was in compliance with respect to this agreement as of December 31, 2021.

**NOTE G – RELATED PARTY TRANSACTIONS**

The Company has an expense sharing agreement with the Parent. Under the agreement the Company pays the Parent monthly fees for use of office facilities. The amount expensed in the financial statements for 2021 is approximately \$389,915.

The Company receives reimbursed expenses from a related party. The amount recorded as income in the financial statements for 2021 is approximately \$66,000.

**NOTE H – PROPERTY AND EQUIPMENT**

**ARKADIOS CAPITAL LLC**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

**NOTE K – NEW ACCOUNTING PRONOUNCEMENT**

In February 2016, FASB issued ASU 2016-02, Leases (Topic 842). FASB issued ASU 2016-02 to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. Certain qualitative and quantitative disclosures are required, as well as retrospective recognition and measurement of impacted leases. The new guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2021, with early adoption permitted. Management is currently evaluating this standard.

**NOTE L – ACCOUNTS RECEIVABLE**

Accounts receivable consist of commission receivable from clearing broker and other trade receivables. The Company regularly reviews its accounts receivable for any bad debts. The review for bad debts is based on an analysis of the Company's collection experience, customer worthiness, and current economic trends. The Company believes all receivables are collectible and no allowance is needed.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Directors and Shareholders  
of Arkadios Capital

We have reviewed management's statements, included in the accompanying Exemption Report, in which (1) Arkadios Capital identified the following provisions of 17 C.F.R. §15c3-3(k) under which Arkadios Capital claimed an exemption from 17 C.F.R. §240.15c3-3: (k)(2)(ii) (the Customer Protection Rule) and (2) Arkadios Capital stated that Arkadios Capital met the identified exemption provisions throughout the most recent fiscal year without exception. Arkadios Capital's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Arkadios Capital's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.

We were engaged by the Company to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the AICPA and in accordance with the standards of the Public Company Accounting Oversight Board (United States). We were not engaged to and did not conduct an examination or a review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the Company's Form SIPC-7 and for its compliance with the applicable instructions on Form SIPC-7 for the year ended December 31, 2021. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.
