Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures to respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Matthews South, LLC

Notes to Financial Statements

For the Year Ended September 30, 2022

NOTE 1. BUSINESS OF THE COMPANY

Matthews South, LLC (the Company) is registered as a broker-dealer with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). It is a wholly owned subsidiary of Matthews South Inc. (the Parent). The Company was formed in the state of Delaware on February 18, 2016 and became a registered broker-dealer and member of FINRA on March 16, 2017.

The Company engages in private placements of securities and advises U.S. public reporting companies on capital markets transactions including registered debt and equity offerings and Rule 144A debt offerings.

The Company periodically distributes the majority of its earnings to the Parent.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Cash and Cash Equivalents

The Company considers all liquid investments with a maturity of three months or less to be cash equivalents. The Company maintains its deposits in a commercial checking account in a high credit quality financial institution. Balances at year end and at various times during the year have exceeded federally insured limits of \$250,000.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Receivables

The Company follows the guidance in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 326, *Financial Instruments – Credit Losses*, which requires an organization to measure all expected credit losses for financial assets, including receivables related to revenue from contracts with customers, held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. The standard requires an entity to estimate its lifetime credit loss and record an allowance that, when deducted from the

Matthews South, LLC

Notes to Financial Statements

For the Year Ended September 30, 2022

amortized cost basis of the financial asset, presents the net amount expected to be collected on the financial asset.

The Company takes into consideration the composition of the receivables, current economic conditions, the estimated net realizable value of the underlying collateral, historical loss experience, delinquency, and bankrupt accounts when determining management's estimate of probable credit losses and the adequacy of the allowance for credit losses. Any receivables deemed uncollectible are written off against the allowance. The Company did not have receivables related to contracts with customers or financial assets for which an allowance for credit losses was necessary at September 30, 2022.

Revenue Recognition

The Company follows the guidance in FASB ASC 606, *Revenue from Contracts with Customers*, which requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five-step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved.

The Company earns revenue from financial advisory services including fees generated in connection with mergers, acquisitions, and restructuring transactions. Such revenue and fees are primarily recorded at a point in time when services for the transactions are completed and income is reasonably determinable, generally as set forth under the terms of the engagement. Payment for advisory services is generally due upon completion of the transaction. Retainer fees and fees earned from certain advisory services are recognized ratably over the service period as the customer receives the benefit of the services throughout the term of each contract, and such fees are collected based on the terms of each contract. All revenues for the year ended September 30, 2022 were fully earned upon completion of each related transaction. The Company had no receivables and no contractual obligations as of September 30, 2022 or September 30, 2021.

The economic factors that affect the nature, amount, timing, and uncertainty of revenue and cash flows are primarily general demand for debt and equity offerings in the United States.

Matthews South, LLC

Notes to Financial Statements

For the Year Ended September 30, 2022

Operating Expenses

Transaction expenses are borne by the Parent and are billed to the Company by the Parent when transactions close. The Company has no liability for payment until the date that cash from related transactions is received. Direct expenses such as software licensing fees, professional service fees and broker-dealer fidelity bond insurance premiums are related to operating activities of the Company and are expensed in the period to which they relate.

Income Taxes

The Company is considered a “pass-through” entity under the Internal Revenue Code and therefore is not liable for federal income taxes on its taxable income. Liability for federal income tax expense is the responsibility of the Company’s Member. The Company is subject to an annual LLC tax and a revenue-based LLC fee from the state of California and franchise tax from the state of Delaware. The Company’s tax liability as of September 30, 2022 is \$900.

NOTE 3. RELATED PARTY MATTERS

The Company has an Expense Sharing Agreement (ESA) in place with its Parent. Under the terms of the ESA, the Parent charges the Company a monthly Incremental Allocation Services Fee for incremental overhead expenses incurred by the Parent on behalf of the Company. Fees paid to the Parent for the reporting period total \$67,500 and include allocated salaries and benefits (\$52,250), rent (\$7,080), information and technology subscriptions (\$7,050) and various other office support services (\$1,120). The allocation methodology is based on estimated expense allocations between the Company and the Parent. This schedule is subject to review and revision at the end of each calendar year. The Incremental Allocation Services Fee appears as an expense on the Statement of Operations.

In addition, under the terms of the ESA, the Parent charges the Company for expenses related to the Company’s revenue-generating engagements. These expenses may include, but are not limited to, personnel time, travel, entertainment, legal and professional fees. Generally, the invoice from the Parent is rendered to the Company at the conclusion of an engagement and becomes payable upon receipt of corresponding fee income. Transaction-Based Expenses appear as a line item on the Statement of Operations and are made up of \$477,000 in invoiced personnel time and travel, meal and entertainment expenses.

NOTE 4. COMMITMENTS AND CONTINGENCIES

In March 2020 the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a pandemic. Since that time, the disease has continued to spread globally. While the disruption of the global economy is currently expected to be temporary, there is uncertainty around the duration of the pandemic. Therefore, the effects of the pandemic upon the Company’s business, financial position, results of operations and cash flows cannot be reasonably estimated

Matthews South, LLC

Notes to Financial Statements

For the Year Ended September 30, 2022

at this time. The Company had no significant commitments or contingencies at September 30, 2022.

NOTE 5. NET CAPITAL REQUIREMENTS

The Company, as a registered broker-dealer, is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1) which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At September 30, 2022 the Company had net capital of \$4,977,270 which was \$4,941,552 in excess of its required net capital of \$35,718 and its ratio of aggregate indebtedness to net capital was .1076 to 1.

NOTE 6. SUBSEQUENT EVENTS

The Company has performed an evaluation of events that have occurred subsequent to September 30, 2022, and through December 12, 2022, the date the financial statements were available to be issued. The Company made a distribution of \$4,475,000 to the Parent on November 23, 2022.
