**Re: Adient Ltd
Amendment No. 1 to Form 10-12B
Filed June 27, 2016
File No. 001-37757**

Dear Mr. McDonald:

We have reviewed your amended filing and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to these comments within ten business days by providing the requested information or advise us as soon as possible when you will respond. If you do not believe our comments apply to your facts and circumstances, please tell us why in your response.

After reviewing your response and any amendment you may file in response to these comments, we may have additional comments. Unless we note otherwise, our references to prior comment are to our comments in our May 24, 2016 letter.

Form 10-12B

Exhibit 99.1

Risk Factors, page 20

Risks Related to Adient Ordinary Shares, page 34

The IRS may not agree that Adient is a foreign corporation for U.S. federal tax purposes, page 38

1. We note your response to our prior comment 6 and reissue. Please provide quantitative information in this risk factor regarding the tax rate should the IRS treat Adient as a U.S. corporation as compared to the tax rate should the IRS treat Adient as a foreign corporation for U.S. federal tax purposes.

Summary Historical and Unaudited Pro Forma Condensed Combined Financial Data, page 19
Selected Historical Combined Financial Data of Adient, page 54

2. Reference is made to certain sections of your document including, the Summary Historical and Unaudited Pro Forma Condensed Combined Financial Data on page 19 and Selected Historical Combined Financial Data of Adient on page 54 where you present total segment income outside the context of the segment footnote. Please be advised the presentation of a total segment profit and loss measure in any context other than as part of the reconciliation required by ASC 280 is considered to be non-GAAP; thus, you are required to provide the disclosures outlined in Item 10(e)(1)(i) of Regulation S-K where you present total segment income outside of the segment footnote. Please confirm your understanding and revise your filing accordingly. For further guidance, you may refer to Question 104.04 of the C&DIs on Non-GAAP Measures which can be found at <https://www.sec.gov/divisions/corpfin/guidance/nongAAPinterp.htm>.

Dividend Policy, page 52

3. We note your response to our prior comment 7 that you expect to pay a regular cash dividend in line with other automotive suppliers. Please briefly describe what you consider to be the current industry practice for other automotive suppliers.

Notes to the Unaudited Pro Forma Condensed Combined Financial Statements, page 60

4. Reference is made to footnote (E). Your disclosure indicates that of the total debt proceeds of \$3.5 billion, a portion will be used in part to pay down short term debt of \$132 million. In this regard, it appears the adjustment to cash of \$510 million should be reduced by the amount that will be used to pay down short term debt. Please advise or revise accordingly.
5. We note that you net adjustments (E) and (G) against APIC on the face of the unaudited pro forma combined balance sheet. Please present separately the pro forma adjustments on a gross basis. Further, please explain how you arrive at the net adjustment of \$2.4 billion based solely upon adjustments (E) and (G).
6. Please explain, and revise your disclosure to clarify, how the \$26 million of employee-related liabilities described in footnote (J) on page 61 reconciles to the \$21 million shown in the pro forma adjustments column on the balance sheet on page 59.
7. Reference is made to footnote (K). Your disclosure indicates that \$211 million of noncurrent tax balances for expected uncertain tax positions will be transferred to Adient in connection with the separation and further, \$6 million of deferred taxes were established for pro forma employee-related liability adjustments. In this regard, please explain why the adjustment of \$217 million represents a reduction in rather than an increase to Other noncurrent liabilities.

Management's Discussion and Analysis

Income Tax Provision, page 84

8. We note your disclosure that a significant portion of your income tax provision is related to a change in assertion over permanently reinvested earnings as a result of the spin-off. In light of the significant increase in your income tax provision, please expand your disclosure to explain whether or not you believe this will be a one-time charge as a result of the spin-off or if you expect the current income tax provision to be indicative of your income tax provision in the future because of the new business structure or some other change due to the spin-off.

You may contact Kristin Shifflett at (202) 551-3381 or Jean Yu at (202) 551-3305 if you have questions regarding comments on the financial statements and related matters. Please contact Sonia Bednarowski at (202) 551-3666 or me at (202) 551-3611 with any other questions.

Sincerely,

/s/ A.N. Parker

Anne Nguyen Parker
