Report of Independent Registered Public Accounting Firm

To the Shareholder of Guotai Junan Securities USA, Inc. and
Board of Directors of Guotai Junan Securities Co., Ltd.

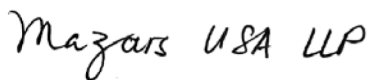

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Guotai Junan Securities USA, Inc., (the "Company"), as of December 31, 2021, and the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company, as of December 31, 2021, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

We have served as the Company's auditor since 2016.

New York, NY

GUOTAI JUNAN SECURITIES USA, INC.

Notes to the Financial Statement December 31, 2020

1. Organization and Business Description

Organization

Guotai Junan Securities USA, Inc. (the “Company”) was formed as a corporation in the State of Delaware on January 19, 2016 as a wholly-owned subsidiary of Guotai Securities USA, Holdings Inc. (the “Parent”). The Parent is wholly-owned by Guotai Junan Global Limited, a company organized in the British Virgin Islands (the “Indirect Owner”), which is wholly-owned by Guotai Junan Financial Holdings Limited, organized in Hong Kong. Effective December 23, 2016, the Company commenced operations as a registered broker-dealer under the Securities Exchange Act of 1934 subject to certain regulations of the Securities and Exchange Commission (“SEC”) and the Financial Industry Regulatory Authority, Inc. (“FINRA”).

Business Description

The Company was formed to act as financial advisor in connection with mergers, acquisitions, sales of businesses or assets, corporate divestitures or other corporate restructuring and providing corporate finance advice, including advising issuers in connection with capital raising activities, private placement of securities, acting as finder, including qualifying or soliciting potential institutional investors or transaction participants for M&A or capital raising transactions and serving as the U.S. intermediating broker for its foreign broker-dealer affiliates pursuant to SEC Rule 15a-6.

2. Accounting Policies

Basis of Presentation

The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates in the Preparation of Financial Statements

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures of assets and liabilities, the disclosure of contingencies at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from the estimates included in the financial statements.

Income Taxes

In accordance with Accounting Standard Codification (ASC) 740, *Accounting for Income Taxes*, the asset and liability method requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined on the basis of the differences between the financial statements and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date.

Net deferred tax assets are recognized to the extent the Company believes these assets are more likely than not to be realized. In making such a determination, all available positive and negative evidence are considered, including future reversals of existing taxable temporary differences, projected future taxable income, tax planning strategies, and results of recent operations. If it is determined, the Company would be able to realize its deferred tax assets in the future in excess of its net recorded amount, an adjustment would be made to the deferred tax asset valuation allowance, which would reduce the provision for income taxes.

GUOTAI JUNAN SECURITIES USA, INC.

Statement of Financial Condition December 31, 2021

Uncertain tax positions are recorded in accordance with ASC 740, *Accounting for Income Taxes*, on the basis of a two-step process, whereby (1) the Company determines whether it is more likely than not the tax positions would be sustained on the basis of the technical merits of the position taken and (2) for those tax positions that meet the more-likely-than-not recognition threshold, the Company would recognize the largest amount of tax benefit that is more than 50% likely to be realized upon the ultimate settlement with the related tax authority.

Cash

Cash consists of cash deposits held in an account at a major financial institution and therefore are subject to credit risk at the financial institution. As of December 31, 2021, the amount on deposit at this institution exceeds the maximum balance insured by the Federal Deposit Insurance Corporation ("FDIC") by approximately \$1.8 million. However, the Company has not experienced any losses in such account and does not believe there to be any significant credit risk with respect to these deposits.

Restricted Cash

Restricted cash represents cash held at a major financial institution securing an irrevocable standby letter of credit for the benefit of the landlord. Cash and restricted cash reported within the Statement of Financial Condition amounted to \$1,956,276 and \$87,756, respectively, with a total of \$2,044,032 presented in the Statement of Cash Flows.

Leases

FASB ASC 842, *Leases* requires a lessee to record a lease liability and a right of use (ROU) asset at the commencement date of the lease. The lease liability is initially and subsequently recognized based on the present value of its future lease payments. The discount rate is the implicit rate if it is readily determinable or otherwise the Company uses its incremental borrowing rate. The ROU asset is subsequently measured throughout the lease term at the amount of the remeasured lease liability (i.e., present value of the remaining lease payments), plus unamortized initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received, and any impairment recognized. Lease cost for lease payments is recognized on a straight-line basis over the lease term.

The Company has elected, to not recognize ROU assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement, and do not include an option to purchase the underlying asset that the Company is reasonably certain to exercise. The Company recognizes in earnings the lease cost associated with its short-term leases on a straight-line basis over the lease term. The Company has no leases as at December 31st, 2021.

Revenue

The Company's fee income is derived from corporate advisory activities. In accordance with ASC 606 *Revenue from Contracts with Customers* such fees are generally recognized at the point in time that performance obligations under the agreement are completed (the closing date of the transaction) or the contract is terminated. However, for certain contracts, revenue could be recognized over time for advisory arrangements in which the performance obligations are simultaneously provided to the Company and consumed by the customer. In some circumstances, significant judgment is needed to determine the timing and measure of progress appropriate for revenue recognition under a specific contract.

The accompanying notes are an integral part of these financial statements.

GUOTAI JUNAN SECURITIES USA, INC.

Statement of Financial Condition December 31, 2021

The Company recognizes investment bank fees in accordance with the terms of the related agreements. These agreements are generally recognized at the point in time that performance under the agreement is completed (the closing date of the transaction) or the contract is cancelled. Retainers received from customers prior to recognizing are reflected as “Deferred Revenue”.

The following table reflects the changes in the Company's contract assets which the Company classifies as “Fees Receivable and the Company's contract liabilities, which the Company classifies as “Deferred Revenue” for the year ended December 31, 2021:

	12/31/2021	12/31/2020
Fees receivable	-	300,000
Deferred revenue	215,660	-

Foreign Exchange Transactions

Certain transactions of the Company are denominated in foreign currency and recorded at the applicable exchange rate. Gains or losses are recorded based on the difference between invoicing date and receipt date and included in the Statement of Operations.

Fixed Assets

Furniture and equipment is stated at cost less accumulated depreciation. Depreciation is calculated over the estimated useful lives of the underlying assets using the straight-line method of depreciation. The useful lives for furniture and equipment are four years and three years, respectively.

Fair Value of Financial Assets and Liabilities

The majority of the Company's financial assets and liabilities are recorded at amounts that approximate fair value. Such assets and liabilities include cash, fees receivable, and accrued expenses.

3. Related Party Transactions

The Company has entered into a Fees Allocation Agreement relating to non-US advisory engagements (the “Agreement”) with an affiliate, Guotai Junan Securities Co., Ltd (“GTJA Co.”) whereby the parties agree to share the fees earned on advisory services. The Company's part of the fee will be attributed and linked solely to the services rendered or to be rendered by the Company in the United States. GTJA Co.'s part of the fee will be attributed and linked to the work rendered or to be rendered by GTJA Co. outside the United States under the engagement. The parties have agreed the allocation of the overall advisory fees on each transaction based on the actual advisory services provided by each party.

4. Income Taxes

The Company is subject to taxation in the United States and various state jurisdictions.

At December 31, 2021, the Company had federal and state net operating loss carryforwards (“NOL”) of approximately \$3,110,000 and \$637,000, respectively, available to offset future taxable income. These losses begin to expire in 2037 with net operating losses generated in 2018 to 2021 carrying forward indefinitely. The net operating losses generated in 2021 amounted to \$891,878.

The accompanying notes are an integral part of these financial statements.

GUOTAI JUNAN SECURITIES USA, INC.

Statement of Financial Condition December 31, 2021

The Company's net deferred tax asset before valuation allowance was \$732,641, primarily as a result of NOLs. As of December 31, 2021, the Company recorded a full valuation allowance against its deferred tax asset since it is more likely than not that the deferred tax asset will not be realized. During 2021, the valuation allowance increased by \$187,294 from \$545,347 at December 31, 2020 to \$732,641 at December 31, 2021 due to net operating losses for the year.

At December 31, 2021, management believes the Company did not have any uncertain tax positions. At December 31, 2021, the Company's income tax return for the years 2018 to 2020 inclusive are subject to examination by the tax authorities.

5. Regulatory Requirements

As a registered broker-dealer, the Company is subject to the Uniform Net Capital Rule (Rule 15c3-1) under the Securities Exchange Act of 1934, which requires the maintenance of minimum net capital, as defined, equal to the greater of \$250,000 or 6 2/3% of aggregate indebtedness, as defined. At December 31, 2021, the Company had net capital of \$1,693,829 that was \$1,443,829 in excess of its required net capital of \$250,000. The Company's ratio of aggregate indebtedness to net capital was 0.1546 to 1 at December 31, 2021.

6. Accounting Developments

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*. The amendments in this ASU require the measurement of all expected credit losses for financial assets held at the reporting date to be based on historical experience, current conditions, and reasonable and supportable forecasts. Financial institutions and other organizations will now use forward-looking information to better inform their credit loss estimates. Many of the loss estimation techniques applied today will still be permitted, although the inputs to those techniques will change to reflect the full amount of expected credit losses. In addition, the ASU amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. This standard did not have an impact on the Company's financial statements as of December 31, 2021.

7. Risks and Uncertainties

Covid-19

The Covid-19 pandemic has continued to disrupt economic markets and the economic impact, duration and spread of the COVID-19 virus is uncertain at this time. The impact of financial markets and the overall economy, all of which are highly uncertain, cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period the Company's results may be materially affected. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Litigation

The Company may be named as defendant in legal actions, such as lawsuits and arbitrations seeking compensatory and other damages. Reserves for legal actions are established as appropriate for potential losses that are both probable and reasonably estimable. As of December 31, 2021, management is aware of no such actions that would be reasonably expected to have a material effect on the Company's financial statements.

The accompanying notes are an integral part of these financial statements.

GUOTAI JUNAN SECURITIES USA, INC.

Statement of Financial Condition December 31, 2021

8. Subsequent Events

No other events or transactions subsequent to December 31, 2021 through the date this financial statement was issued that would require recognition or disclosure in this financial statements.

The accompanying notes are an integral part of these financial statements.
