

# Form C

Every company that conducts a Regulation Crowdfunding offering must first submit a Form C to the Securities and Exchange Commission. Wefunder has helped you generate this draft of a Form C based on information you have provided, which we've done solely as a convenience.

Because this is an official regulatory filing and you will have liability under the Securities Act of 1933 with respect to any misstatements or omissions, we strongly recommend that you have your lawyer review your Form C before having us file it on your behalf.

## Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

### THE COMPANY

1. Name of issuer:

Do., LLC

### COMPANY ELIGIBILITY

2.  Check this box to certify that all of the following statements are true for the issuer.

- Organized under, and subject to, the laws of a State or territory of the United States

or the District of Columbia.

- Not subject to the requirement to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.
- Not an investment company registered or required to be registered under the Investment Company Act of 1940.
- Not ineligible to rely on this exemption under Section 4(a)(6) of the Securities Act as a result of a disqualification specified in Rule 503(a) of Regulation Crowdfunding.
- Has filed with the Commission and provided to investors, to the extent required, the ongoing annual reports required by Regulation Crowdfunding during the two years immediately preceding the filing of this offering statement (or for such shorter period that the issuer was required to file such reports).
- Not a development stage company that (a) has no specific business plan or (b) has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

**INSTRUCTION TO QUESTION 2: If any of these statements are not true, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.**

3. Has the issuer or any of its predecessors previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding?  Yes  No

## DIRECTORS OF THE COMPANY

4. Provide the following information about each director (and any persons occupying a similar status or performing a similar function) of the issuer.

Director	Principal Occupation	Main Employer	Year Joined as Director
John McDougall	Assistant Manager	BogoBrush	2012
Heather McDougall	Chief Manager	BogoBrush	2012

For three years of business experience, refer to [Appendix D: Director & Officer Work History](#).

## OFFICERS OF THE COMPANY

5. Provide the following information about each officer (and any persons occupying a similar status or performing a similar function) of the issuer.

Officer	Positions Held	Year Joined
John McDougall	Assistant Manager	2012
John McDougall	Treasurer	2012
Heather McDougall	Chief Manager	2012
Heather McDougall	Secretary	2012

For three years of business experience, refer to [Appendix D: Director & Officer Work History](#).

*INSTRUCTION TO QUESTION 5: For purposes of this Question 5, the term officer means a president, vice president, secretary, treasurer or principal financial officer, comptroller or principal accounting officer, and Anyperson routinely performing similar functions.*

## **PRINCIPAL SECURITY HOLDERS**

6. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power.

<b>Name of Holder</b>	<b>No. and Class of Securities Now Held</b>	<b>% of Voting Power Prior to Offering</b>
Heather McDougall	185,356 Class A Units	49.4
John McDougall	185,356 Class A units	49.4

*INSTRUCTION TO QUESTION 6: The above information must be provided as of a date that is no more than 120 days prior to the date of filing of this offering statement.*

*To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control – as, for example, a co-trustee) they should be included as being “beneficially owned.” You should include an explanation of these circumstances in a footnote to the “Number of and Class of Securities Now Held.” To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.*

## **BUSINESS AND ANTICIPATED BUSINESS PLAN**

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

**For a description of our business and our business plan, please refer to the attached [Appendix A, Business Description & Plan](#)**

*INSTRUCTION TO QUESTION 7: Wefunder will provide your company's Wefunder profile as an appendix (Appendix A) to the Form C in PDF format. The submission will include all Q&A items and “read more” links in an un-collapsed format. All videos will be transcribed.*

*This means that any information provided in your Wefunder profile will be provided to the SEC in response to this question. As a result, your company will be potentially liable for misstatements and omissions in your profile under the Securities Act of 1933, which requires you to provide material information related to your business and anticipated business plan. **Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.***

## RISK FACTORS

**A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.**

**In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.**

**The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.**

**These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.**

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Was denied design patent protection in the United States. In October 2013, a design patent filed, and after several amendment, it was denied in 2015 because it the design was “too obvious.” This means anyone can produce a toothbrush with our shape, but not with our name, logo, or brand. Patent protection was approved in Canada and the European Union.

Currently the company only produces brushes in one production facility. If anything were to happen with that facility, Bogobrush would have to move the tool and production processes which would be costly in money and time. It could create delays in product delivery expectations.

Single supply of materials makes the business less flexible to material shortages or changes in supply chain.

Personal injury claims are a possibility that the company must be insured for when selling toothbrushes. Bogobrush is not concerned with its quality and has the necessary insurance, but is still aware of this risk and the cost to a personal injury claim.

The terms “biodegradable” and “compostable” are somewhat debated legal terms and the standards for marketing terms are still taking shape. Bogobrush is within the current legal framework, and into any foreseeable future, but it’s a slight risk that terms could change and change our approach to marketing.

Bogobrush does not consistently meet all expenses with revenue; owners have contributed/invested in the business to help meet certain monthly expenses.

Bogobrush had a failed product line in its first two years of business and has

those legacy expenses to overcome with it's new and current line.

Bogobrush does not have significant data on its customers to date. Until it generates better data, the company may not be marketing to the right audience.

Give partner may decline arrangement at any time for whatever reason - potentials reputation risk for Bogobrush or lack of outlet to give give brushes.

Give Partners are vetted to the best of our degree however we have no say over their operations and actions. If the give partner does something illegal or in a bad light it could have a halo effect to Bogobrush simply by Bogobrush giving brushes through them

Bogobrush does not fully own the production tool. Bogobrush has a contract agreement for legal rights to the tool, and ownership will transfer officially once the tool depreciates from grantor's books.

*INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.*

# The Offering

## USE OF FUNDS

9. What is the purpose of this offering?

The purpose of this offering is to raise funds for our general business operations, as described in the "use of proceeds" section below.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of Proceeds: Pushing Bogobrush into the Marketplace:

- Hire a public relations agency for a year to refine messaging, gather customer research and increase brand name and market reputation

- 500 retail sales and press kits (including postage) comprised of \$25 per kit + \$7 shipping.

- Grow the online presence of Bogobrush via investments into Adwords, social media ads (i.e. Facebook, Instagram, amongst others) and the related data mining or analytics on the public responsiveness to these initiatives.

- Facilitate 2 give events with local dental providers. This multifold

initiative spreads awareness of both the give partners' mission and efforts in the community as well as Bogobrush's. Furthermore, it enhances to experience of the distribution of the give brushes to the recipients.

- Finalize the website build of subscription functionality. By completing this, Bogobrush would have a source of reoccurring revenue and customers would have a hassle free way of refreshing their toothbrush as frequently as dentist recommend (every 3 months).

---

If we raise: **\$100,000**

Use of Proceeds: Put a down payment on a larger tool. The target led tool would increase production capacity by 4 times while also increasing contribution margins; for online sales roughly a 20% increase, for retail sales near doubling increase.

*INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.*

## **DELIVERY & CANCELLATIONS**

11. How will the issuer complete the transaction and deliver securities to the investors?

The following describes how process to invest in the Company, including how the Company will complete an Investor's transaction and deliver securities to the investor.

1. Investor Commitment. The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the Investor's electronic signature.
2. Acceptance of the Investment. If the Investor Agreement is complete, the Investor will typically be automatically accepted for an investment in the Company within a few minutes. At this point, the Investor will be emailed a pdf version of the Investment Agreement signed by the Investor and the Company, as well as a confirmation of the commitment. This information will also be available on the Investor's "My Investments" screen on the wefunder.com website.
3. Investor Transfer of Funds. Upon receiving confirmation that an investment has

3. Investor Transfer of Funds. Upon receiving confirmation that an investment has been accepted, the Investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.
4. Progress of the Offering. The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the “My Investments” screen when the target offering amount is met.
5. Closing: Original Deadline. Unless we meet the target offering amount early, Investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company’s Wefunder Portal Profile.
6. Early Closings. If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the “My Investments” screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.
7. Book Entry. All investments will be in book entry form. This means that the Investor will not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each Investors’ “My Investments” screen. The Investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the “My Investments” screen.

12. How can an investor cancel an investment commitment?

**NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.**

**The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).**

**If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.**

**If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor’s investment commitment will be cancelled and the committed funds will be returned.**

**An Investor’s right to cancel. An Investor may cancel his or her investment**

commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 480 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 480 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by Investors were received, or other criteria at the discretion of the Company, before the offering deadline.

## Ownership and Capital Structure

### THE OFFERING

13. Describe the terms of the securities being offered.

-

-

investors in the SAFEs receiving **Units**, investors will receive, at their option, either

- (i) cash in the amount of their investment or
- (ii) **units** equal to the amount invested by the Investor in the SAFEs divided by the quotient of (a) the Valuation Cap (**\$4 million**) divided by (b) the number of outstanding **Units**, but excluding any **units** reserved and available for future grant under any equity incentive or grant, SAFEs, and/or convertible promissory notes.

If there is not enough cash available to pay other holders of Units and SAFE Investors who choose option (i), funds will be distributed first to other holders of **Units** and then holders of the SAFEs on a pro-rata basis. Any remaining amounts will be paid in **units**. In this scenario, the amounts payable to SAFE Investors may be reduced under certain circumstances, such that Investors may not recoup part or all of their investment from the Company.

*Termination of the Company.* If the Company ceases operations, liquidates, dissolves, winds up or has its assets assigned to creditors prior to an issuance of securities involving **Units**, the Company will pay first the other holders of existing **Units**, based on the terms of the Company's certificate of incorporation, and then holders of the SAFEs. If there are not sufficient Company assets to pay holders of the SAFEs the amount of their investments, as determined by the Company's management, payments will be made on a pro-rata basis. In this case, Investors may not recoup part or all of their investment from the Company.

*Repurchases.* The SAFEs may be repurchased for their fair market value at any time. Fair value will be determined by an independent appraiser chosen by the Company. If, within three months after a repurchase, the Company offers equity that includes **Units**, and the value received by Investors was less than the value of the units they would have received in the equity offering, the Company will pay Investors the difference.

14. Do the securities offered have voting rights?

- Yes
- No

15. Are there any limitations on any voting or other rights identified above?

- Yes: No Voting Rights
- No

16. How may the terms of the securities being offered be modified?

interest. However, the variation cap may not be amended by the Designated Lead Investor, and may only be amended upon the written consent of the Company and the holders of a majority of interest.

### RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the oneyear period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

**NOTE: The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.**

**The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.**

### DESCRIPTION OF ISSUER’S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

-------------------	--------------------------------------

Warrants:

Options:

Other Rights:

Describe any other rights:

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the unitholders** may make decisions with which the Investor disagrees, or that

**unitholders** may make decisions with which the investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the unitholders** may change the terms of the operating agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The unitholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

**The unitholders** have the right to redeem their securities at any time. **Unitholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional units, an Investor's interest will typically also be diluted.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The initial amount invested in a SAFE is determined by the investor, and we do not guarantee that the SAFE will be converted into any particular number of **units**. As discussed in Question 13, when we engage in an offering of equity interests involving **Units**, Investors may receive a number of **Units** calculated as either (i) the total value of the Investor's investment, divided by the price of the **Unit** being issued to new Investors, or (ii) if the valuation for the company is more than **\$4 million**, the amount invested divided by the quotient of (a) the Valuation Cap (**\$4 million**) divided by (b) the total amount of the Company's capitalization at that time.

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the **Units** that Investors will receive, and/or the total value of the Company's capitalization, will be determined by our **management**. Among the factors we may consider in determining the price of **Units** are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates

of our business potential, the present state of our development and other factors deemed relevant.

In the future, we will perform valuations of our **units** that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those securities;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be

upon many factors outside the control of the investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Management, and the Investor will have no independent right to name or remove an officer or member of the Management of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company to manage the Company so as to maximize value for unitholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company. If the Management of the Company authorizes a sale of all or a part of the Company, or a disposition of a

substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

**Debt A**

Loan, Michigan Woman Foundation: \$17,705.04 remaining, due September 2017. Note payable, Foundation in monthly installments of \$1239.05, including interest at 8%. The note is secured by two members of the Company. The note matures September 1, 2017.

**Debt B**

Line of Credit, Unison Bank: \$14,000 advanced as of 2015. \$40,000 advanced to-date 2016. The Company has a \$50,150 revolving line of credit with a bank. The line of credit bears interest at 2.87% over the LIBOR index rate (currently 3.38%) and matures November 17, 2016. The line of credit is secured by all business property and assets of the Company and is guaranteed by the owners and a related party. The line of credit is subject to certain restrictive loan covenants. The balance outstanding on the line of credit was \$14,150 and \$14,150 as of December 31, 2015 and 2014, respectively.

**Debt C**

Contributions by John and Heather McDougall, received by the Company as a loan totaling \$71,141.68 at end of 2015. There are not immediate payback terms.

The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.*

*Compute the amount of a related party's interest in any transaction without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, disclose the approximate amount involved in the transaction.*

## FINANCIAL CONDITION OF THE ISSUER

27. Does the issuer have an operating history?

Yes

No

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

#### Financial Narrative

The 2014 and 2015 financials tell a story about the legacy of a successful pre-order campaign, realized failed production, and journey to develop and launch a brand new product line. The journey includes legacy orders to fulfill, legacy expenses to overcome, the support of business partners, and the positive reception of a re-launch.

#### 2014

At the beginning of 2014, the Company had 2,000 pre-order to fulfill as a result of a Pre-Order Campaign the Company created and ran through 2013 in effort to raise money for production. The 2013 campaign was successful and the Company placed the order for their product with a supplier in China. Until that point, pilot runs were producing 90% or better success with production quality. When production ramped to full scale, the quality rates plummeted to 50%. Production was complete in February 2014 and the Company was able to fulfill two-thirds of all pre-orders from 2013. The fulfillment of those orders was recognized in the 2014 tax year as deferred revenue.

At this point (Feb. 2014), the Company had \$40,000 of contributions made from founders, John and Heather. Those contributions were from the development of the initial pre-order marketing launch and product development. And, the company still needed to fulfill 800 remaining pre-orders.

In March 2014, the Company decided to change directions with production and proceeded to develop relationships with material suppliers and manufacturers in the USA. Michigan Women's Foundation awarded the Company a \$30,000 to help build a new website and marketing launch and to purchase the first 3,000 units of product. The Company opened a \$50,000 line of credit with Unison Bank, and took an advance of \$14,000 to help pay for legacy expenses that would have been paid if the product wouldn't have failed and could have generated revenue. The Company's material supplier included the Company in a grant from the State of ND to pay for tooling and materials for the new product line. That granted benefit to the Company was equal to \$25,000. To cover additional expenses, member Contributions from John and Heather were received and again attributed as debt to the Company.

#### 2015

At the start of 2015, the Company was spending money to build the marketing of the new collection. That work included professional product photography, website design and development, and video editing. Money was also spent ordering the new product line: materials, production time, and packaging. In June of 2015, the new product line was complete and the Company fulfilled the remaining 800 legacy orders from their pre-order campaign. In 2015, this was recognized as the remaining deferred revenue.

The Company's website and new product line went live in August of 2015. The launch was successful due to pent up demand from legacy PR from the pre-order campaign. In October, the Company launched a new PR campaign and saw its success through the 2015 holiday season and even attracted more than a dozen boutique retailers to purchase the product. 2015 ended with positive momentum, but with the legacy expenses the Company had virtually no money for marketing

but with the legacy expenses the company had virtually no money for marketing and generating sales.

#### Use of Funds for Viability

Funds raised through Wefunder will provide the Company with money to research and target customers to bring them to the website. The Company reasonably believes this targeted approach will allow the Company to quite immediately increase conversion rates from 1-2% to 2.5-3.5% and easily reach sales numbers similar to those in August and September of 2015 (roughly \$3,000 website alone) and beyond. The company will implement a subscription model which will increase the re-order rate and therefore the recurring revenue stream. The Company will pay for targeted PR campaigns. The PR will increase website traffic further and will also help with attracting more large retail. The market research will allow the Company to have direct and numbers-based conversations with the large retailers. The Company will overcome its current debt with a modest 12,000-15,000 units sold. The marketing will allow those numbers to be realized.

Additional funds raised will be used to purchase a larger tool that would increase the contribution margin by more than 20% for website sales and will double for retail sales. This cost savings will also allow the Company to sell to distributors. Currently, the Company has unmet demand interest for at least 40,000 units to distributors in Europe and South America.

Funds raised on Wefunder will be used immediately and the initial results will be obvious within a matter of months. The funds raised will allow the business to be viable, to overcome debt, and to build on a business model for success.

*INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.*
