## Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

#### RISK FACTORS

**A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.**

**In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.**

**The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.**

**These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.**

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Product spoilage requirement destroying the product. (insurance policy would cover raw material cost but time would be lost)
Need to expand to further markets due to lack of market traction which would bring about additional shipping costs and potential lack of traction in new markets
Lack of market traction
Fire or other weather extreme that could destroy the property and equipment (again, insurance would cover costs but lost time could result in product never gaining traction)
Inability to retain management staff, cost of hiring and training new employees
Construction cost beyond expectation/budget requiring additional fundraising or debt
Terminated employees stealing trade secrets (all staff is required to sign non-disclosure and non-compete but cost of attorney fees could be substantial)
Unexpected permitting time. If permits are held up then additional costs could be incurred
Death or terminal illness of manager
Construction theft (i.e. copper or other building materials)
Customer complaint or possibly lawsuit due to accidental injury
Customers leaving intoxicated and getting pulled over, potentially causing additional oversight by regulatory agencies.
The CEO currently has a full-time job and is not able to devote 100% of his time to running the business which could result in multiple issues.

*INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.*

## The Offering

### USE OF FUNDS

9. What is the purpose of this offering?

The purpose of this offering is to raise funds for our general business operations, as described in the "use of proceeds" section below.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of Proceeds: With the minimum target, we have budgeted \$40,000 for construction and finish out of the space, and \$10,000 for marketing expenses during the first 2 years.

If we raise: **\$100,000**

Use of Proceeds: With 100,000, we would add additional fermentation capacity and a few other pieces of equipment.

If we raise: **\$250,000**

Use of Proceeds: Finish the entire build out of the Brew House to accommodate the new equipment.

If we raise: **\$500,000**

Use of Proceeds: Purchase fermentation tanks and all other equipment required for fermenting and packaging the beer.

If we raise: **\$750,000**

Use of Proceeds: build out our lab for testing and quality assurance/control of beer, and purchase of a centrifuge to enhance shelf life and stability of the beer.

If we raise: **\$1,000,000**

Use of Proceeds: Final interior design of the tasting room. Cold storage for the tap room kegs, patio construction etc.

*INSTRUCTION TO QUESTION 10: An Issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.*

### DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

The following describes the process to invest in the Company, including how the Company will complete an investor's transaction and deliver securities to the investor.

- Investor Commitment.** The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the Investor's electronic signature.
- Acceptance of the Investment.** If the Investor Agreement is complete, the Investor will typically be automatically accepted for an investment in the Company within a few minutes. At this point, the Investor will be emailed a pdf version of the Investment Agreement signed by the Investor and the Company, as well as a confirmation of the commitment. This information will also be available on the Investor's "My Investments" screen on the wefunder.com website.
- Investor Transfer of Funds.** Upon receiving confirmation that an investment has been accepted, the Investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.
- Progress of the Offering.** The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the "My Investments" screen when the target offering amount is met.
- Closing: Original Deadline.** Unless we meet the target offering amount early, Investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.
- Early Closings.** If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.
- Book Entry.** All investments will be in book entry form. This means that the Investor will not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each Investors' "My Investments" screen. The Investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen.

12. How can an investor cancel an investment commitment?

**NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.**

**The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline**

identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

**An Investor's right to cancel.** An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the investor about the offering and/or the Company, the investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

**The Company's right to cancel.** The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 480 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 480 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by investors were received, or other criteria at the discretion of the Company, before the offering deadline.

## Ownership and Capital Structure

### THE OFFERING

13. Describe the terms of the securities being offered.

The company is issuing promissory notes to investors. The principal amount of each note is the amount invested by the investor. The company will use 10% of its gross revenues to pay back principle on the notes. Each note will be paid back based on its pro rata share of all notes issued in this offering. The company will make payments to the investor annually, starting one year after [the closing date of the offering]. The company will continue payments until investors have received 2x their principle investment (the repayment amount). The first 50k of notes issued in this offering will be entitled to 3x of their principle amount. The company may prepay principal plus the repayment amount at anytime.

The notes are secured by the company's personal property, including all accounts, inventory, equipment, general intangibles, financial assets, investment property, securities, deposit accounts, and the proceeds thereof.

Upon the occurrence of an event of default (as defined in each note), all unpaid principal, and other amounts owing will automatically be immediately due, payable and collectible by the company pursuant to applicable law.

The notes do not provide investors with any voting rights in the company.

The form of the notes is provided in Appendix B, Investor Contracts. The form of the notes is [Appendix B, Investor Contracts](#).

14. Do the securities offered have voting rights?

- ☐ Yes  
☒ No

15. Are there any limitations on any voting or other rights identified above?

- ☒ Yes: No Voting Rights  
☐ No

16. How may the terms of the securities being offered be modified?

The terms of the notes cannot be amended.

### RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

#### DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Units	500,000	0	No

#### Securities Reserved for Issuance upon Exercise or Conversion

Class of Security

Warrants:

Options:

Describe any other rights:

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights in the company, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering). These types of changes could limit the Investor's economic rights by causing the Company to pay off the notes the Investor has purchased before their maturity, thereby reducing the aggregate interest paid on the notes to the Investor.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the principal unitholder(s) may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of the principal unitholder(s), and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the principal unitholder(s) may change the terms of the operating agreement for the Company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The principal unitholder(s) also may force the Company to prepay the promissory notes before their maturity date. The principal unitholder(s) may make changes that affect the tax treatment of the Company in ways that are unfavorable to the Investor but favorable to them. The principal unitholder(s) may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. The principal unitholder(s) may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The principal unitholder(s) have the right to redeem their securities at any time. The principal unitholder(s) could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. The exit of the principal unitholder(s) may affect the value of the Company and/or its viability.

Based on the factors described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The value of the promissory notes will be determined by the Company's senior management in accordance with U.S. generally accepted accounting principles. For example, the notes may be valued based on principal plus the anticipated Repayment Amount.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the promissory notes will likely hold a minority position in the Company and will have no voting rights in the Company, and thus will be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its management, and the Investor will have no independent right to name or remove an officer or member of the management of the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the

Company, the Company may sell interests to additional investors. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company.

**Issuer Repurchase of Securities/Prepayment of Notes.** The Company has the right to repay principal and interest on the promissory notes at any time prior to the maturity date. If the Company repays principal and interest on the notes early, Investor will receive fewer interest payments than expected at purchase.

**A sale of the issuer or of assets of the issuer.** As a noteholder with no voting rights, the Investor will have no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the management of the Company to manage the Company so as to maximize value for unitholders and ensure full payment of noteholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the management of the Company. If the management of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the amount received will be sufficient to repay investor and other noteholders.

**Transactions with related parties.** The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and management of the Company will be guided by their good faith judgment as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

<b>Loan</b>	
<b>Lender</b>	Wefunder Investors
<b>Issue date</b>	08/12/16
<b>Amount</b>	\$1,000,000.00
<b>Current with payments</b>	Yes

*10% of gross revenues is used to pay back principle on the notes. Each note will be paid back based on its pro rata share of all notes issued in the offering. The company will make payments to the investors annually, starting September 12, 2017.*

*The company will continue payments until investors have received 2x their principle investment (the repayment amount). The first \$50K of the notes issued are entitled to 3x their principal investment amount.*

*The company may prepay principal plus the repayment amount at anytime.*

**INSTRUCTION TO QUESTION 24:** name the creditor, amount owed, interest rate, maturity date, and any other material terms.

25. What other exempt offerings has the issuer conducted within the past three years?

Offering Date	Exemption	Security Type	Amount Sold	Use of Proceeds
No exempt offerings.				

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12- month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

1. any director or officer of the issuer;
2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer;
4. or (4) any immediate family member of any of the foregoing persons.

*Beneficial ownership for purposes of paragraph (2) shall be determined as of a date that is no more than 120 days prior to the date of filing of this offering statement and using the same calculation described in Question 6 of this Question and Answer format.*

*The term "member of the family" includes any child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the person, and includes adoptive relationships. #### Overview

Hops & Grain is a local Texas brewery. We brew and package all of our beers on-site and sell them throughout Austin and the surrounding areas. After 7 years of expansion in our current facility, we have been operating at max capacity and are now looking to double our capacity with a new brewery. The investment was in a new LLC to develop the new tap room and brewery in San Marcos, TX.

Since Day 1 our goal has been to craft high quality beers that tell a compelling story and go beyond our customers' expectations. We operate a full time on-site laboratory and craft some of the most exciting and innovative beers in Texas in pursuit of this goal - efforts we plan to double in San Marcos. And our customers love us: we've had double digit year over year growth in our first location since 2011. Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

#### Milestones

Hops and Grain Production, LLC was incorporated in the State of Texas in May 2016.

Since then, we have:

- 2018 Revenue of first tap house: \$2,600,000.
- Investment: New tap room / brewery right next to Texas State Univ. (30,000 students).
- Capacity of new facility: 20,000 barrels.
- Powered 100% by wind energy.

#### Historical Results of Operations

Our company was organized in May 2016 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended December 31, 2018, the Company had revenues of \$0 compared to the year ended December 31, 2017, when the Company had revenues of \$0. Our gross margin was % in fiscal year 2018, compared to % in 2017.
- *Assets.* As of December 31, 2018, the Company had total assets of \$1,150,000, including \$65,000 in cash. As of December 31, 2017, the Company had \$0 in total assets, including \$0 in cash.
- *Net Income.* The Company has had net income of \$0 and net income of \$0 for the fiscal years ended December 31, 2018 and December 31, 2017, respectively.
- *Liabilities.* The Company's liabilities totaled \$1,808,000 for the fiscal year ended December 31, 2018 and \$0 for the fiscal year ended December 31, 2017.

#### Liquidity & Capital Resources

To-date, the company has been financed with \$1,000,000 in debt.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

#### Runway & Short/Mid Term Expenses

Hops and Grain Production, LLC cash in hand is \$65,000, as of March 2019. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$35,000/month, for an average burn rate of \$35,000 per month. Our intent is to be profitable in 3 months.

We have not begun operations at the new brewery in San Marcos so only expenses have been shown to date

We are opening for business on March 18th, 2019 and will begin to see revenue's of \$250K/month increasing to \$300K/month

*INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders.
