Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

Hops & Grain is a local Texas brewery. We brew and package all of our beers on-site and sell them throughout Austin and the surrounding areas. After 7 years of expansion in our current facility, we have been operating at max capacity and are now looking to double our capacity with a new brewery. The investment was in a new LLC to develop the new tap room and brewery in San Marcos, TX.

Since Day 1 our goal has been to craft high quality beers that tell a compelling story and go beyond our customers' expectations. We operate a full time on-site laboratory and craft some of the most exciting and innovative beers in Texas in pursuit of this goal - efforts we plan to double in San Marcos. And our customers love us: we've had double digit year over year growth in our first location since 2011.

Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

Milestones

Hops and Grain Production, LLC was incorporated in the State of Texas in May 2016.

Since then, we have:

- 2018 Revenue of first tap house: \$2,600,000.
- Investment: New tap room / brewery right next to Texas State Univ. (30,000 students).
- Capacity of new facility: 20,000 barrels.
- Powered 100% by wind energy.

Historical Results of Operations

Our company was organized in May 2016 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended December 31, 2018, the Company had revenues of \$0 compared to the year ended December 31, 2017, when the Company had revenues of \$0. Our gross margin was % in fiscal year 2018, compared to % in 2017.
- *Assets.* As of December 31, 2018, the Company had total assets of \$1,150,000, including \$65,000 in cash. As of December 31, 2017, the Company had \$0 in total assets, including \$0 in cash.
- *Net Income.* The Company has had net income of \$0 and net income of \$0 for the fiscal years ended December 31, 2018 and December 31, 2017, respectively.
- *Liabilities.* The Company's liabilities totaled \$1,808,000 for the fiscal year ended December 31, 2018 and \$0 for the fiscal year ended December 31, 2017.

Liquidity & Capital Resources

To-date, the company has been financed with \$1,000,000 in debt.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Hops and Grain Production, LLC cash in hand is \$65,000, as of March 2019. Over

the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$35,000/month, for an average burn rate of \$35,000 per month. Our intent is to be profitable in 3 months.

We have not begun operations at the new brewery in San Marcos so only expenses have been shown to date

We are opening for business on March 18th, 2019 and will begin to see revenue's of \$250K/month increasing to \$300K/month

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.
