Executive Summary

The Problem Content Launch Solves

Content marketing is the new way that companies market their products and services today; the ROI on custom content outperforms traditional advertising by a wide margin.

But creating and managing an effective content marketing program can be very difficult; most companies use multiple tools including Excel, Word, Basecamp, Dropbox, Hootsuite, etc. And then they have to separately manage many distribution channels (Vimeo, Slideshare, Wordpress, etc). Plus, they need to find content writers that can produce the quality content they need and that can be challenging as well.

Progressive companies that have embraced content marketing have turned to Kapost, DivvyHQ, Percolate, Skyword, Newscred and others, but they can be complicated to use and expensive. (\$2-10K+/month)

Currently, many large enterprises are using a content marketing platform. But many of them are seeking a simpler to use, more affordable solution.

And now, small and medium sized businesses are getting on board too. And they cannot afford \$2-10K+/month. Plus, they need content strategy and content consultation. The existing providers do not offer this. If they do, they call it “training” and charge another \$2-8K to the user.

In addition, digital marketing agencies are seeking a comprehensive content marketing solution to manage their clients content programs. They require a tool to help automate processes and leverage their time and staff. They aren’t willing to pay Kapost, Newscred or Percolate \$3-10K+/mo for a subscription fee and deal with the steep learning curve of these other applications. They also want a content tool to white label and upsell.

How Content Launch Solves the Problem

Content Launch offers a feature rich, affordable content marketing solution to help companies conceptualize, create, distribute, track and measure all of their online content in one place. We designed it to have all of the important workflow and content connection features that competitive products offer, with a more affordable subscription fee.

In addition, we added “Plan” and “Collaborate” modules to assist SMB’s that are just getting started with their content marketing program. These modules will also assist digital agencies in onboarding their new clients. Content Launch provides complimentary content tools and technologies, like Outbrain, built in, so users can enhance their promotion efforts. Our dedicated team of content marketing experts assist with strategy, challenges and education as it relates to our users content marketing programs.

Finally, we offer an intuitive and user friendly interface that utilizes icons, color coding and logical

workflow to make the experience simple.

How We Make Money

We have two primary revenue streams: subscription revenue and content writing revenue. Our platform is a cloud based, SaaS application and we charge a monthly subscription fee of \$99/user/month for most plans. We also offer content writing services, for a fee.

We will offer advanced training and platform management to our users for an additional fee.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

- (1) *Our business prospects are difficult to evaluate because we are a development stage company and dependent upon profitable future investments.*

Although Content Launch (and its previous incarnation, Custom Copywriting) has been an active company in the content writing and content strategy services industry for 13 years, it should be considered by investors to be an early stage company due to it entering the SaaS side of the industry for the first time. As an early stage company, Content Launch is subject to all of the risks that are attendant to any recently formed business and should be considered as a startup business with significant risk. Because of Content Launch' short operating history, it is more difficult to accurately assess growth rate and earnings potential. It is possible that Content Launch will face many difficulties typical for development stage companies. These may include, among others: relatively limited financial resources; developing new investment opportunities; delays in reaching its goals; unanticipated start-up costs; potential competition from larger, more established companies; and difficulty recruiting and retaining qualified employees for management and other positions. The Company may face these and other difficulties in the future, some of which may be beyond its control. If Content Launch is unable to successfully address these difficulties as they arise, the Company's future growth and earnings will be negatively affected. The Company cannot give assurance to prospective investors that Content Launch' business model and plans will be successful or that Content Launch will successfully address any problems that may arise. There is substantial doubt about the ability of development stage companies such as Content Launch to continue as a going concern. The factors considered in this assessment include our lack of operating history and lack of current revenues, and our need to attract significant working capital and investment funding in order to meet our business objectives. These substantial risks could impair our reputation, damage the brand, and negatively impact operating revenues.

- (2) *The Company has limited working capital and requires significant additional financing, which may or may not be available at all or on a timely basis.*

The Company has limited working capital and there may not be sufficient financial resources available to carry out planned Content Launch operations. We depend upon timely availability of adequate working and investment capital in order to meet the objectives of our business strategy and business plans. There can be no assurance that positive cash flow will ever occur. There can be no assurance that the Company will sell the maximum number of Shares offered in this private

placement, or that our capital needs and operations will not require additional capital greater than or sooner than currently anticipated. If Content Launch is unable to obtain additional capital if needed, in the amount and at the time needed, this may restrict planned or future investments, development or rate of growth; limit Content Launch' ability to take advantage of future opportunities; negatively affect its ability to implement its business and investment strategies and meet its goals; and possibly limit its ability to continue operations. The Company's working capital requirements may significantly vary from those currently anticipated.

(3) *Content Launch may incur significant losses and there can be no assurance that Content Launch will ever become a profitable business.*

It is anticipated that Content Launch will initially sustain operating losses. Its ability to become profitable depends on success in marketing our content marketing platform and making profits and generating cash flow from operations. There can be no assurance that this will occur. Unanticipated problems and expenses often encountered in the investment of capital and resources may impact whether the Company is successful. Furthermore, Content Launch may encounter substantial delays and unexpected expenses related to development, technological changes, marketing, regulatory requirements and changes to such requirements or other unforeseen difficulties. There can be no assurance that Content Launch will ever become profitable. If Content Launch sustains losses over an extended period of time, it may be unable to continue in business

- (4) Our future revenue and operating results are unpredictable and may fluctuate significantly.

It is difficult to accurately forecast Content Launch revenues and operating results and they could fluctuate in the future due to a number of factors. These factors may include: Content Launch' ability to develop and make profitable products; generate cash flow from consulting services; the amount and timing of operating costs; competition from other market participants that may reduce market share and create pricing pressure; and adverse changes in general economic and industry conditions and requirements. Content Launch' operating results may fluctuate from year to year due to the factors listed above and others not listed. At times, these fluctuations may be significant.

- (5) The Company may encounter great difficulty or even a complete inability to develop and make suitable products.

An investor must rely upon the ability of management to make future decisions consistent with the Company's investment objectives and policies. Although the principals have had some success in the past, they may be unable to invest the Company's committed capital in a profitable manner or meet its business objectives. Shareholders will not have the opportunity to evaluate personally the relevant economic, financial, and other information that will be utilized by management in the deployment of capital.

- (6) Content Launch may not be able to create and maintain a competitive advantage.

The potential markets for technical products are characterized by rapidly changing technology, evolving industry standards, frequent enhancements to existing products, the introduction of new services and products, and changing customer demands. The Company's success could depend on the ability of management to respond to changing situations, standards and technologies on a timely and cost-effective basis. In addition, any failure by such management to anticipate or respond adequately to changes in technology and customer preferences and demand could have a material adverse effect on Content Launch' financial condition, operating results and cash flow.

- (7) Our aggressive growth strategy may not be achievable.

For the foreseeable future, we intend to pursue an aggressive growth strategy for the expansion of our business, and our future operating results will depend largely upon our ability to adequately capitalize our company and further develop our content marketing platform, find suitable investments and acquisitions, develop our business, build key relationships and successfully develop and manage our business. Our ability to grow will depend upon many factors, including our ability to identify and invest in businesses that have products and services that are in demand, to identify and enter new markets, and to obtain adequate capital resources on acceptable terms. Any limitations on our ability to accomplish any of these and other goals will have a material adverse effect on our business, results of operations, and financial objectives. There is no assurance that our operations will be successful or achieve anticipated or any operating results.

(8) Content Launch may be unable to attract and retain qualified employees or key personnel.

Content Launch' future success depends on the continued services and performances of key management, consultants and advisors, and it currently does not carry key person life insurance. However, Content Launch plans to secure key person life insurance when such coverage is deemed financially prudent. Also, Content Launch' future success may further depend on Content Launch' ability to attract and retain additional key personnel and third party contractual relationships. If Content Launch is unable to attract and retain key personnel and third party contractors, this could adversely affect our business, financial condition, and operating results.

(9) Content Launch does not plan to pay dividends to its shareholders in the near future and there is no guarantee it will ever receive any profit from its operations so as to be able to declare and pay dividends to its shareholders.

The principal investment objective of the Company is to make business profits that present opportunities for significant appreciation to the Company. It is anticipated that certain product research and development will be leveraged and will not provide the Company with any significant cash distributions until new products are sold. Accordingly, the Company may not be able to pay dividends. There can be no assurance with respect to the amount and timing of dividends to the Company's shareholders, or that they will ever be made. The Company initially intends to retain cash from its operations to fund the development and growth of its business.

(10) We will have broad discretion on how the net proceeds of this private placement are utilized.

The Company has broad discretion on how to allocate the proceeds received as a result of this private placement and may use the proceeds in ways that differ from the proposed uses discussed in this Offering Statement. If the Company fails to spend the proceeds effectively, our business and financial condition could be harmed and there may be the need to seek additional financing sooner than expected.

(11) We anticipate substantial competition.

We are aware of twenty companies that are well established within our industry. The largest of these companies is "NewsCred." Four other identified competitors are Percolate, Kapost, Marketing.ai and ClearVoice. These entities are larger and have greater financial, managerial and other resources than we do. We believe that we will eventually be able to compete with these entities primarily on the basis of our product, our small team, hands-on approach, the experience and contacts of our management and our responsive and efficient decision-making processes.

(12) We will present only unaudited financial statements, which may not be reliable.

In addition to the unaudited financial statement presented with this Offering Statement, we expect to prepare financial statements on a periodic basis. The financial data presented with this Offering

Statement has not been audited, certified, or reviewed.

(13) Our pro forma financial statements rely on assumptions that may not prove accurate.

Certain pro forma financial information may be provided to prospective investors for illustrative and informational purposes only. In preparing the pro forma financial statements, we have made certain assumptions concerning our business and the market, which may not be accurate.

(14) Investors may suffer potential loss on dissolution and termination.

In the event of a dissolution or termination of the Company, the proceeds realized from the liquidation of assets, if any, will be distributed in the priority established by applicable law, but only after the satisfaction of claims of creditors. Accordingly, the ability of an investor to recover all or any portion of its investment under such circumstances will depend on the amount of funds realized and claims to be satisfied therefrom.

(15) Actual results may vary from any projection we present.

We may provide certain projected results of operations to prospective investors in connection with this offering. Projections are hypothetical and based upon present factors thought by management to influence our operations. Projections do not, and cannot, take into account such factors as market fluctuations, unforeseeable events such as natural disasters, the terms and conditions of any possible financing, and other possible occurrences that are beyond our ability to control or even to predict. While management believes that the projections reflect the possible outcome of our operation and performance, results depicted in the projections cannot be guaranteed.

(16) Our operating costs are unpredictable.

In addition to general economic conditions and market fluctuations, significant operating cost increases could adversely affect us due to numerous factors, many of which are beyond our control. Increases in operating costs for Content Launch or any of our products would likely negatively impact our operating income, and could result in substantially decreased earnings or a loss from operations.

(17) We may not be able to protect our intellectual property.

We intend to explore options for protection of certain intellectual property, primarily in the form of trademarks and trade secrets but have not made any filings to date. We anticipate developing certain trade secrets and may handle trade secrets that are the property of others. We regard the legal protection of our intellectual property (and the intellectual property of others) as important to future success and will rely on a combination of trade secret laws, copyright, and trademark laws, confidentiality procedures and contractual restrictions to establish and protect our proprietary rights in products and services. There can be no assurance that the steps we take to protect our proprietary rights will prove sufficient to prevent misappropriation of such proprietary rights.

(18) Incidents of hacking, identity theft or cyberterrorism may adversely impact our operations.

Our business operations are and will continue to be dependent upon digital technologies, including information systems, infrastructure and cloud applications. The maintenance of our financial and other records is also dependent upon such technologies. The U.S. government has issued public warnings that indicate that such business information technology might be specific products of cyber security threats, including hacking, identity theft and acts of cyberterrorism. Our critical systems or the systems of our products may be vulnerable to damage or interruption from earthquakes, storms, terrorist attacks, floods, fires, power loss, telecommunications failures, computer viruses, computer denial of service attacks, or other attempts to harm the systems. Many of these systems will not be fully redundant, and disaster recovery planning cannot account for all

eventualities. Deliberate attacks on, or unintentional events affecting, our systems or infrastructure, the systems or infrastructure of third parties or the cloud could lead to corruption or loss of our proprietary data and potentially sensitive data, delays in our operations, difficulty in completing and settling transactions, challenges in maintaining our books and records, environmental damage, communication interruptions, other operational disruptions and third party liability. Further, as cyber incidents continue to evolve, we may be required to expend additional resources to continue to modify or enhance our protective measures or to investigate and remediate any vulnerability to cyber incidents or natural disasters.

(19) *We may not have adequate insurance.*

Adequate insurance to cover product liability claims and other risks related to our business may not be available, or available only at an unacceptable cost. There can be no assurance that we will be able to obtain adequate insurance coverage or that it can be obtained at reasonable cost. As protection against such risks, we plan to secure and maintain insurance coverage against some, but not all, potential losses. Even if our insurance is adequate and customary for our industry, losses could occur for uninsurable or uninsured risks or in amounts in excess of existing insurance coverage.

(20) *We have indebtedness to various banks in the form of unpaid credit card debt and credit lines.*

The Company has a debt obligation of \$300,000 to various banks and financial institutions. The Company intends to use a portion of the net proceeds of this offering to pay a portion of the obligation. The proceeds used to repay this obligation will not be available to the Company for other purposes, including making new or additional investments. The company has retained a debt negotiation attorney who will make all attempts to settle this debt for 50-60% of the owed amount. This is not guaranteed. Note: Content Launch and its CEO, Jon Wuebben has been sued by three banks for non-payment of credit card debt, including American Express, CitiBank and Discover Card. The company has retained a debt negotiation attorney to handle and settle these cases.

- (21) The purchase price of the Shares has been arbitrarily determined and may not reflect their actual value.

The purchase price of the Shares has been arbitrarily determined and is not the result of arm's-length negotiations. It has been determined primarily by our perceived working and investment capital needs and bears no relationship to any established criteria of value such as book value or earnings per share, or any combination thereof. Further, the price is not based on past earnings of the Company, nor does the price necessarily reflect the current market value of the Company. No valuation or appraisal of the Company's potential business has been prepared.

- (22) The persons acquiring shares in this offering may experience substantial and immediate dilution.

After giving effect to the sale of the Shares included in this Offering of Shares, the Company's existing shareholders may experience an immediate increase in net tangible book value per share, and purchasers of the Shares may experience immediate substantial dilution in net tangible book value per share.

- (23) This private placement of Shares is being made in reliance on an exemption from registration requirements and there is no guarantee that we will comply with the regulatory requirements for such exemption.

This offering has not been registered under applicable Federal or state securities law in reliance on certain exemptions from registration requirements that we believe are available to us for this offering. The Shares are being offered in reliance on an exemption from the registration provisions of the Securities Act and state securities laws applicable to offers and sales to investors meeting the investor suitability requirements set forth in this Offering Statement. However, there is no assurance that this offering will qualify for any such exemptions due to, among other things, the adequacy of disclosure and the manner of distribution, or the existence of similar offerings we have conducted in the past or may conduct in the future. If the availability of these exemptions is challenged, our capital could be adversely affected. If the Company should fail to comply with the requirements of any such exemption, investors may have the right to rescind their purchases of Shares. This might also occur under the applicable state securities or "Blue Sky" laws and regulations in states where the Shares will be offered without registration or qualification pursuant to a private offering or other exemption. If a sufficient number of investors were successful in seeking rescission, the Company would face severe financial demands that would adversely affect the Company as a whole and also the investment in the Shares by the remaining investors.

- (24) *There is no public market for the Shares and you will have to hold your Shares indefinitely, subject only to a private sale to a qualified counterparty that is exempt from registration, or a registration of your common shares, or a sale of the business.*

Currently, there is no public or other trading market for the Shares, and there can be no assurance that Content Launch will be able to facilitate a private sale of your Shares or that any other market will develop. Thus, there can be no assurance that you will be able to liquidate your investment in case of an emergency or if you otherwise desire to do so. Investment in the Shares is of a long-term nature. Accordingly, purchasers of Shares will bear the economic risk of investment for an indefinite period of time.

- (25) *Our Shareholders' Agreement imposes significant restrictions on transfer of Shares.*

Investors that purchase Shares in this Offering will be required to become bound by our Shareholders' Agreement. A copy of the Shareholders' Agreement is available upon request from the Company. The Shares may be transferred only if certain legal requirements as well as requirements imposed by our Shareholders' Agreement are satisfied and only with our consent. The Shareholders' Agreement imposes certain requirements and restrictions on the ability of a shareholder to sell or transfer the Shares. Among other requirements, in most circumstances, the shareholder must first offer the Shares to the Company and then the other shareholders before the shareholder may transfer the Shares to a third party. Certificates representing the Shares will also bear a legend indicating that the Shares are subject to the restrictions on transfer imposed by the Shareholders' Agreement.

- (26) *Shares are subordinate equity interests.*

The Shares purchased in this offering will constitute equity interests, which will be subordinate to all of our current and future indebtedness with respect to claims on our assets. In any liquidation, all of our debts and liabilities must be paid before any payment is made to the holders of our Shares.

- (27) *The shares are unlikely to be able to be pledged as collateral.*

The Shares will not usually be acceptable as collateral for loans. The Shareholders may not receive cash or other liquid consideration sufficient to pay taxes resulting from such a disposition. Furthermore, absent a public market, Shares generally cannot be sold for an amount based on their economic value as determined by the fair market value of the underlying property. The Shares have not been registered under federal or state securities laws, and we do not plan on, and are under no obligation to provide for, a registration of the Shares in the future. In addition, any transfer of the Shares or an interest therein must satisfy the requirements set forth in various Company agreements

with shareholders that restrict the ability to transfer Shares.

- (28) You will not have the benefit of review of this Offering Statement by the SEC or any other agency.

Since this offering is an exempt offering of securities and, as such, is not registered under federal or state securities laws, you will not have the benefit of review of this Offering Statement by the SEC or any state securities commission. The terms and conditions of this Offering may not comply with the guidelines and regulations established for offerings that are registered and qualified with those agencies.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified. Add additional lines and number as appropriate.

Cancellation instructions can be found in the FlashFunders investor dashboard. Investors may cancel their investment commitment by sending an email to cancel@flashfunders.com stating their intent to cancel the investment commitment. The investment commitment will be considered cancelled at that time, and the investor will be contacted directly by FlashFunders with further information.

If Investor's investment commitment is cancelled, the corresponding investment shall be refunded to Investor without deduction for any fee, commission or expense, and without accrued interest with respect to any money received.

Early Closing

If any Investor fails to reconfirm their investment commitment within the reconfirmation period, the investment commitment will be cancelled automatically and FlashFunders will send to each investor, within five business days after initial notice of the material change, a notification that the investment commitment was cancelled and a direct the refund of the investment.

No Closings

If the company fails to reach the target offering amount by the offering deadline, each investor's investment commitment will be cancelled automatically and FlashFunders will direct refund of each cancelled investment to the investor within five business days.

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met.

If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the

investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An issuer will not be in compliance with the requirement to provide reviewed financial statement if the issuer received a review report that includes modifications. Issuers electing such extension of time accommodation must disclose it at the time the issuer files its offering statement and apply the election to all standards. Issuers electing not to use this accommodation must forgo this accommodation for all financial accounting standards and may not elect to rely on this accommodation in any future filings.
