OFFERING SUMMARY

This Offering Summary highlights information contained in other parts of this Offering Circular and is not a complete detailed description of the terms of the investment. Because it is a summary, it does not contain all of the information that you should consider before investing in the Offering. For a more complete understanding of this Offering Circular, you should read this entire document carefully, including information concerning the Company, the securities being offered through this Offering, and the information set forth under the heading “Risk Factors” starting on page 9.

The Company: Medivie USA Inc. is a Nevada corporation (the “Company”, “Medivie”, “we”, “us”, or “our”) focused on developing innovative oral devices that provide solutions in the fields of birth, migraines, chronic pains, Alzheimer, Fibromyalgia and ADHD. The Company’s business activities are directed, controlled and coordinated from its principal office in Los Alamitos, CA.

Offering: There is no minimum required for this offering, the offering could remain open until the earlier of the Maximum is raised but not longer than 12 months from Qualification, or anytime earlier at the Company’s discretion. The total Maximum for this Offering is 2,000,000 Shares (the “Maximum Offering”), at \$5 per share for an aggregate capital raise of up to \$10,000,000 which is including the resale shareholders identified in this Offering. A total of 600,000 shares are being resold by existing shareholders for an aggregate of \$3,000,000 which is not allocated to the Company but directly to those resale shareholders. Therefore, the Company can only obtain before any fee are paid to potential placement agent an aggregate of \$6,500,000 (after deduction of estimated offering expenses of approximately \$500,000), in addition, if a placement agent is to raise any portion of the capital a fee of 8% of the total capital raising is to be allocated not to exceed \$800,000. Such potential fee could reduce the gross capital proceeds allocated to the Company by an additional \$800,000 if the maximum offering is reached by a potential nonexclusive placement agent.

The Company intends to sell the Shares itself in its capacity as issuer. However, the Company reserves the right to offer non-exclusive finder’s fees to placement agents for a fee of up to 8% in cash and/or securities for the subscriptions identified as being provide by such placement agent. If the Maximum Offering is sold through such services, and the fee is paid entirely in securities, 160,000 Shares could be issued as payment to such placement agent, resulting in further dilution by such amount of Shares.

The issuance and sale of the Shares is being made in reliance upon Section 3(b) of the Securities Act, and in reliance on applicable registration, or exemptions from registration, provisions under certain state securities laws.

Ownership of the Company: Assuming the sale of all of the Shares in the Offering, the purchasers in the Offering will beneficially own an aggregate of 10.24% of the Company’s outstanding common stock on a fully diluted basis, following the Offering.

In the event the Company relies on a placement agent for this Offering, any portion or all of the Offering could be diluted by up to an additional 8% granted to such placement agent, for the identifiable capital raised by the FINRA registered representative. If the Maximum Offering is sold through such services, and the fee is paid entirely in securities, the purchasers in the Offering will beneficially own an aggregate of 10.16% of the Company’s outstanding common stock on a fully diluted basis, following the Offering. Such placement agent if any could not exceed \$800,000 in commission if the maximum amount were to be placed through such a registered representative or various registered representatives.

Board Composition: The Company’s Board of Directors is composed of Joshua Rurka and Benjamin Rael-Brook our Chairman of the Board.

Closing:	<u>It is anticipated that the initial closing will occur after the Offering Circular is declared Qualified by the Securities and Exchange Commission (the “SEC” or “Commission”). Thereafter, the Company may hold additional “rolling closings” at such time and place, and on such date or dates, as the Company may determine at its own discretion (each such date being sometimes referred to herein as a “Closing Date”). The Company has sole discretion over the escrow disbursement with the exception of terms of a certain note with Thunder Crowd Capital.</u>
Use of Proceeds:	The Company anticipates net proceeds of the Offering, after payment of estimated costs and expenses associated with the Offering, of approximately \$6,500,000 if the Maximum Offering is sold. The Company plans to use the proceeds of the Offering to distribute and market, and may manufacture in the future, its Laboraide product and other products and for general corporate and working capital purposes. However, in the event the Company uses the services of a placement agent, the fee for such services will be up to 8% in cash and/or securities of the subscriptions provided by such placement agent. If the Maximum Offering is sold through such services, and the fee is paid entirely in cash, net proceeds to the Company would be \$5,700,000.
Subscription Documents:	<u>To subscribe for Shares, any individual qualified in the state of this Offering is provided for subscriber must complete, execute, and return to the Company the Subscription Agreement, which contain certain representations, covenants, warranties, and undertakings, all of which should be carefully considered by the subscriber before execution. A qualified subscriber should also send payment by a wire transfer ACH or certified check payable to “Medivie USA Inc.,” to the Company’s escrow account established for the Offering and held by VStock Transfer as its escrow agent in an amount equal to the purchase price for the Shares subscribed. All commitments shall be signed, but no wire needs to be transferred until a binding notice of closing is emailed to the investor. Investors may purchase as little as 1 share of common stock.</u>
Investor Suitability:	The Company reserves the right, in its sole discretion, for any reason or for no reason, to reject any potential subscriber and/or to limit the amount of Shares sold to any subscriber in this Offering.
Acceptance of Rejection of Subscriptions:	Subscription Agreements are not binding on the Company until accepted by the Company. RISK FACTORS

The investment opportunity offered in this document may not be suitable for all recipients of this document. Prior to investing, investors are advised to consult professional advisers who specialize in advising on investments of this nature.

This section “Risk Factors” contains what the Company believes to be the principal risk factors associated with an investment in the Company. In addition to the other information contained in this document, these risk factors should be considered carefully in evaluating whether to make an investment in the Company. If any of the following risks, which are not exhaustive, were to materialize, the Company’s business, financial condition, results or future operations could be materially adversely affected. Additional risks and uncertainties not presently known to the Company, or which the Company currently deem immaterial, may also have an adverse effect on the Company. Prospective investors should carefully consider the other information in this document. The risks listed below do not necessarily comprise all the risks associated with an investment in the Company and are not set out in any order of priority.

Risks Related to the Company

The Company operates in a competitive environment.

The Company may have competitors in the future. Potential competitors may have longer operating histories, greater name recognition, more employees, and significantly greater financial, technical, marketing, public relations and distribution resources than the Company. The competitive environment may require the Company to make changes in the Company’s products, pricing, licensing, services or marketing to maintain and extend the Company’s current brand and technology. Price concessions or the emergence of other pricing or distribution strategies of competitors may diminish the Company’s revenues, impact the Company’s margins, or lead to a reduction in the Company’s market share, any of which will harm the Company’s business.

The Company needs to address the primary factors in the industry to be successful.

The Company believes that the primary factors in the oral devices industry markets include:

- the quality and reliability of such distribution channels;
- access to distribution channels necessary to achieve broad distribution and use of products;
- the availability for the sales through Internet;
- access to and protection of the necessary intellectual property rights;
- the difficulty in forecasting customer preferences or demand accurately;
- the inability to expand production capacity to meet demand for new products;
- the inability to successfully manage the interoperability and transition from older products;
- the impact of customers’ demand for new products on the products being replaced, thereby causing a decline in sales of existing products and an excessive, obsolete supply of inventory;
- delays in initial shipments of new products;
- delays in sales caused by the desire of customers to evaluate new products for extended periods of time; and
- access to capital to develop its new products.

The Company’s failure to adequately address any of the above factors could harm the Company’s business strategy and operating results.

We are an early stage development company, have limited operating history and face many of the risks and difficulties frequently encountered by development stage companies.

We have no operating history, and to date, our efforts have been focused primarily on the development and marketing of our business model. We have limited operating history for investors to evaluate the potential of our business development in the U.S. We have not extensively built our customer base or our brand name. In addition, we also face many of the risks and difficulties inherent in gaining market share as a new company, including:

- increasing awareness of our brand name;
- meeting customer demand and standards;
- attaining customer loyalty;
- developing and upgrading our product offerings;
- implementing our advertising and marketing plan;
- maintaining our current strategic relationships and developing new strategic relationships;
- responding effectively to competitive pressures; and
- attracting, retaining and motivating qualified personnel.

Our future will depend on our continued ability to bring our products to the marketplace, which requires careful planning to provide a product that meets customer standards without incurring unnecessary cost and expense.

The Company has no operating history and expects to incur operating losses. The Company has no sales and has generated zero revenue as of the date of this Offering Circular.

The Company has no operating history upon which an evaluation of the Company’s business can be based. Further, the Company expects to incur substantial operating losses. The Company’s continued existence is dependent upon the Company’s ability to generate profitable operations and to secure the necessary financing to fund the Company’s future operations. The likelihood of the Company’s future success must be considered in light of the Company’s lack of operating history and the Company’s expectation of continued operating losses, as well as the problems, expenses, difficulties, risks and complications frequently encountered in connection with similarly situated companies. There can be no assurance that the Company’s future revenues, if any, will ever be significant or that the Company’s operations will ever be profitable.

The Company’s quarterly financial results may fluctuate significantly. The Company expects its quarterly revenues, expenses and operating results to fluctuate significantly in the future as a result of a variety of factors, some of which are outside of the Company’s control. These factors include:

- the number of customers;
- the Company’s ability to establish and strengthen brand awareness;
- the Company’s success, and the success of its strategic partners, in marketing the Company’s products and services;
- the amount and timing of the costs relating to marketing efforts or other initiatives;
- the timing of contracts with strategic partners and other parties;

- fees the Company may pay for distribution, service agreements and promotional arrangements or other costs the Company incurs as it expands operations;
- ability to sell the products over the Internet;
- the Company’s ability to compete in a highly competitive market, and the introduction of new sites and services by the Company or its competitors; and
- economic conditions specific to the oral devices industry and general economic conditions.

In addition, in an attempt to enhance its long-term competitive position, the Company may from time to time, make decisions regarding pricing, marketing, services and technology that could have a near-term material adverse effect on its business, financial condition and operating results. Due to the foregoing factors, the Company believes that quarter-to-quarter comparisons of its operating results are not a good indication of its future performance.

The implementation of the Company’s business strategy will require significant expenditure of capital and may require additional financing.

The implementation of the Company’s business strategy will require significant expenditures of capital, and the Company may require additional financing. Additional funds may be sought through equity or debt financings. The Company cannot offer any assurances that commitments for such financings will be obtained on favorable terms, if at all. As of the date of this Offering Circular, the Company has limited funds. Equity financings could result in dilution to stockholders and debt financing could result in the imposition of significant financial and operational restrictions on the Company. The Company’s inability to access adequate capital on acceptable terms could have a material adverse effect on the Company’s business, results of operations and financial condition.

The Company could default on its Note with Thunder Crowd Capital, LLC (“TCC”) and lose its Licensing Agreement and therefore its purpose.

In the event of a failure to repay its debt pursuant to a certain Note Agreement entered into on November 20, 2016, see Exhibit 3.2, in which the Company could in the event of a default lose its exclusive licensing agreement and its assets. Which would be detrimental for the shareholders and the Company resulting in a loss of business and could have a material adverse effect on the Company’s goal.

If we fail to attract and retain highly skilled management and other personnel, our business, financial condition and results of operations may be harmed.

Our success has depended, and will continue to depend, in large part on our ability to attract and retain senior executives, key officer and other employees who possess extensive knowledge, experience and skill applicable to our business. While we strive to mitigate the negative impact associated with the loss of a key executive employee, officer and other employee an unsuccessful transition or loss could significantly disrupt our operations and have a material adverse effect on our business, financial condition or results of operations.

We are also dependent on training, motivating and managing our sales team that interact with our customers on a daily basis. Competition for these types of qualified employees is intense and the failure to attract, retain and property train qualified and motivated employees could result in decreased customer satisfaction, loss of customers, and lower sales.

Our future success is dependent, on the performance and continued service of Joshua Rurka and Benjamin Rael-Brook.

The Company depends on key personnel who may leave at any time. The Company’s success depends on Benjamin Rael-Brook the Chief Executive Officer, Secretary and Chairman of the board of Directors of the Company and Mr. Joshua Rurka, the President, Treasurer and Director of the Company.

The Company does not maintain “key-man” life insurance policies.

Although the Company does not presently maintain “key-man” life insurance policies for any executive officer, the Company hopes to obtain a life insurance policy on the above-mentioned individuals as soon as practicable. No assurances can be made however that the Company will be able to obtain life insurance policies for such individuals on reasonable terms, or at all.

While no current lawsuits are filed against the Company, the possibility exists that a claim of some kind may be made in the future.

While no current lawsuits are filed against us, the possibility exists that a claim of some kind may be made in the future. While we will work to insure high product quality and accuracy in all marketing and labeling, no assurance can be given that some claims for damages will not arise.

The Company has arbitrarily determined the offering price for the Shares of our common stock.

The Company has arbitrarily determined the offering price for the Shares of its common stock, and it is discounted from a valuation obtained from an independent third party. There is currently no market for our Shares. The offering price for such Shares of common stock should not be considered an indication of the actual value of such Shares of common stock and is not based on the Company’s net worth or prior earnings. The Company cannot assure you that such Shares of common stock could be resold by you at the price you have paid or at any other price.

Establishing a new brand requires effective marketing and product placement which may take a long period of time and may not be successful.

Our principal business strategy is to develop our products as a respected brand within the industry in which they are sold. The marketing of consumer goods is highly dependent on creating favorable consumer perception. The Company has limited experience advertising and marketing its products. We have spent approximately \$200,000 to date with regard to preparing for the marketing the Offering, and we intend to hire an advertising and public relations firm to represent us in the future and spend an additional \$300,000 toward marketing. However, the Company may be unable to find the appropriate employees or consultants to assist with the commercialization of its products, build a suitable sales force, or enter into satisfactory marketing arrangements with third parties, and its sales and marketing efforts may be unsuccessful.

Competitors may have significantly greater advertising resources and experience and enjoy well-established brand names. There can be no assurance that our initial advertising and promotional activities will be successful in creating the desired consumer perception.

The Company may not successfully develop new products.

The Company’s growth depends on Medivie UK’s ability to develop leading edge oral devices at affordable price ranges. The Company’s business and operating results would be harmed if the Company fails to develop products that achieve widespread market acceptance or that fail to generate significant revenues to offset development costs. The Company may not timely and successfully identify, develop and market new product opportunities and could fail to obtain operating licenses. If the Company introduces new products, they may not attain broad market acceptance or contribute meaningfully to its revenues or profitability.

The Company has experienced development delays and cost overruns in its development efforts in the past and the Company may encounter such problems in the future. Delays and cost overruns could affect its ability to respond to technological changes. The Company’s products also may contain undetected errors that could cause increased development costs, loss of revenues, adverse publicity, and reduced market acceptance of the products or lawsuits by customers.

The Company may not successfully manage its growth.

The Company cannot successfully implement its business model if the Company fails to manage its growth. The Company must rapidly and significantly expand its operations domestically and internationally and anticipate the need for further expansion to take advantage of market opportunities. Managing this substantial expansion will place a significant strain on the Company’s management, operational, and financial resources. If the Company’s growth accelerates, the Company will need to continue to improve its financial and managerial control and reporting systems and procedures.

The Company will have to implement new management information software systems.

The Company will have to implement new management information software systems. This will affect many aspects of its business, including its accounting, operations, electronic commerce, customer service, purchasing, and sales and marketing functions. The purchase, implementation and testing of these systems will result in significant capital expenditures and could disrupt its day-to-day operations. If these systems are not implemented as expected, its ability to provide products and services to its customers on a timely basis will suffer and delays in the recording and reporting of its operating results could occur.

The Company relies on third-party providers.

The Company will be dependent upon third-party service providers to develop, deliver and maintain certain aspects of its product and operations. The Company has limited control over these third parties. Any discontinuation of these third party services, or any reduction in performance that requires the Company to replace such services, would disrupt its business. In the event that these service providers are unable to operate to the Company’s satisfaction, it would be forced to seek other firms to provide these services. There can be no assurance that substitute providers would be available on reasonable terms, if at all. Such an occurrence would involve significant delay and expense and would have a material adverse effect on the Company’s business, prospects, results of operations and financial condition.

The Company could lose strategic relationships that are essential to its business.

The loss of certain current strategic relationships (referring to Exhibit 6.3 “Toys “R” Us Purchase Agreement”) and the inability to find other strategic partners or the failure of the Company’s existing relationships to achieve meaningful positive results could harm the Company’s business. The Company intends to rely in part on strategic relationships to help it:

- maximize adoption of the Company’s products through distribution arrangements;
- increase the amount and type of data that can be processed to help boost the demand for the Company’s products and services;
- enhance the Company’s brand;
- expand the range of commercial activities based on the Company’s technology; and
- increase the performance and utility of the Company’s products and services.

Many of these goals are beyond the Company’s expertise. The Company anticipates that the efforts of the Company’s strategic partners will become more important as the oral devices business matures. In addition, the efforts of the Company’s strategic partners may be unsuccessful. Furthermore, these strategic relationships may be terminated before the Company realizes any benefit.

Reliance on the Company’s strategic relationships, such as the Company’s right to market and distribute its products in the United States and Canada through the Toys “R” Us retail chain, is subject to speculation and should not be the basis of any decision to invest under the terms of this Offering. The terms of the Agreement with Toys “R” Us is attached hereto as Exhibit 6.3.

The occurrence of natural disasters or acts of violence or terrorism could adversely affect our operations and financial performance.

The occurrence of natural disasters or acts of violence or terrorism could result in physical damage to our properties, the temporary closure of stores or distribution centers, the temporary lack of an adequate work force, the temporary or long-term disruption in the supply of products (or a substantial increase in the cost of those products) from domestic or foreign suppliers, the temporary disruption in the delivery of goods to our distribution centers (or a substantial increase in the cost of those deliveries), the temporary reduction in the availability of products in our stores, and/or the temporary reduction in visits to stores by customers. If one or more natural disasters or acts of violence or terrorism were to impact our business, we could, among other things, incur significantly higher costs and longer lead times associated with distributing products. Furthermore, insurance costs associated with our business may rise significantly in the event of a large scale natural disaster or act of violence or terrorism.

The Company’s products are new and its industry is evolving.

The Company’s products are new and its industry is evolving. You should consider the Company’s prospects in light of the risks, uncertainties and difficulties frequently encountered by companies in their early stage of development. To be successful in this market, the Company must, among other things:

- develop and introduce functional and attractive product offerings;
- establish and maintain strategic relationships with distribution partners;
- establish and maintain relationships with sponsors and with advertisers;
- build an operations structure to support the Company business; and
- attract, retain and motivate qualified personnel.

The Company cannot guarantee that it will succeed in achieving these goals, and its failure to do so would have a material adverse effect on its business, prospects, financial condition and operating results. The Company’s products may need to be improved. The Company is not certain that these products and services will be competitive enough to please consumers as anticipated or be desirable to its intended market and customer base.

Investor Suitability. To subscribe to purchase the Shares, a prospective investor must complete, execute, and return to the Company a subscription agreement (attached hereto as Exhibit 4.1), which contain certain representations, covenants, warranties, and undertakings, all of which should be carefully considered by the subscriber before execution. A qualified subscriber should arrange for payment in an amount equal to the purchase price for the Shares subscribed, pursuant to the terms of the subscription agreement.

The subscription agreement requires investors to answer certain questions to determine compliance with the investment limitations set forth in Regulation A Rule 251(d)(2)(i)(C) under the Securities Act of 1933, as amended, which states that in offerings such as this one, where the securities will not be listed on a registered national securities exchange upon qualification, the aggregate purchase price to be paid by the investor for the securities cannot exceed 10% if the greater of the investor’s annual income or net worth, in the case of an investor who is not natural person, revenues or net assets for the investor’s most recently completed fiscal year are used instead.

The investment limitation does not apply to accredited investors, as that term is defined in Regulation D of Rule 501 under the Securities Act of 1933, as amended. An individual is an accredited investor if he/she meets one of the following criteria:

- a natural person whose individual net worth, or joint net worth with the such individual’s spouse, excluding the “net value” of his or her primary residence, at the time of this purchase exceeds \$1,000,000 and having no reason to believe that net worth will not remain in excess of \$1,000,000 for the foreseeable future, with “net value” for such purposes being the fair value of the residence less any mortgage indebtedness or other obligation secured by the residence, but subtracting such indebtedness or obligation only if it is a liability already considered in calculating net worth; or
- a natural person who has individual annual income in excess of \$200,000 in each of the two most recent years or joint annual income with that person’s spouse in excess of \$300,000 in each of those years and who reasonably expects an income in excess of those levels in the current year.

An entity other than a natural person is an accredited investor if it falls within one of the following categories:

- an employee benefit plan within the meaning of Title I of the Employee Retirement Income Security Act of 1974, as amended, (i) if the decision to invest is made by a plan fiduciary which is either a bank, savings and loan association, insurance company, or registered investment advisor; (ii) if such employee benefit plan has total assets in excess of \$5,000,000; or (iii) if it is self-directed plan whose investment decisions are made solely by accredited investors;
- a tax-exempt organization described in Section 501(c)(3) of the Internal Revenue Code, a corporation, a Massachusetts or similar business trust or a partnership, which was not formed for the specific purpose of acquiring the securities offered and which has total assets in excess of \$5,000,000;
- a trust, with total assets in excess of \$5,000,000, which was not formed for the specific purpose of acquiring the securities offered, whose decision to purchase such securities is directed by a “sophisticated person” as described in Rule 506(b)(2)(ii) under Regulation D; or

- certain financial institutions such as banks and savings and loan associations, registered broker-dealers, insurance companies and registered investment companies.

USE OF PROCEEDS

- **Birth - Currently in the marketing stage:** Laboraide is an oral device in the form of a pleasant cushion and, when placed between the woman's lower and upper jaw during birth, keeps the airways open, increases oxygen flow and relieves tension in the jaws, which decreases the risk of urgent operative intervention and eases pain.
- **Migraines - Future development:** Medivie Group is working on the development of a unique oral device based on the existing company’s IP which allows the relaxation of the head muscles prevents the contraction of jaw muscles and increases the flow of blood to the brain for preventing and easing migraines.

USA and Canada Market Size

- The number of registered births in the United States for 2014 was 3,988,076 (<https://www.cdc.gov/nchs/fastats/births.htm>).
- The number of registered births in Canada for 2014 was 387,120 (<http://www.statcan.gc.ca/tables-tableaux/sum-som/l01/cst01/demo04a-eng.htm>)
- Laboraide device’s potential market size is approximately 4 million births per annum.

Product Description

- Laboraide is an oral device in the form of a cushion, which is placed between the woman's lower and upper jaw during birth, allowing the relaxation of the jaw, neck and head muscles through the flow of oxygen to the muscles, decreasing the risk of urgent C-section and vacuum intervention and relief pain during labor.

High stress leads women in labor to clench their jaw, causing contraction of the neck and back muscles

Laboraide creates a gap between jaw, relieving tension in the jaw, keeps the airway open and thus increases the level of oxygen in the body

Relieving the tension in the muscles and Increasing oxygen flow, reduces the woman's level of the stress and by that stimulates physiological and hormonal responses which assist to:

Reduce Pain

Reduces stress during labor which increases beta endorphins to help cope with pain.

Reduce Operative intervention

Abdominal muscles receive greater isometric strength.

This allows the woman to push more strongly and reduces the need for intervention in order to help the baby exit the birth canal safely.

Product features:

- ✓ Relieves tension in the jaws;
- ✓ Increases the strength of the abdominal muscles;
- ✓ Enables effective pushing;
- ✓ Lowers stress, reduces pain.

HOW IT WORKS

Clinical Study

- In 2014-2015, Belinson Hospital, one of Israel’s largest hospitals, conducted a clinical study, examining the impact of using Laboraide during the second stage of labor (known as the pushing stage).
- The maximal length of the second stage is 3 hours, after which the necessity of obstetrical intervention arises.
- The study demonstrated a major decrease in the need for obstetrical intervention in the second stage of labor.

Mount Sinai Medical Center - Clinical Trial

As of December 2016, _ a clinical trial is currently offered to women in labor admitted to the Mount Sinai Medical Center ("Mount Sinai") The study is designated toward nulliparous women at > 37 weeks of pregnancy. Women will be randomized to an intervention group or to a control group (approximately 150 patients in each arm). Patients randomized to the intervention group will use a dental support device in the second stage of labor. It is during this time that a patient actively pushes with contractions. The control group will push without the device. The objective of the trial is to determine if the use of a dental support device in the second stage of labor decreases the time to vaginal delivery. Secondary outcomes will include a decrease in Caesarean delivery and operative delivery rates. On December 12, 2016, Mount Sinai IRB department has approved the use of the Laboraide in its private clinical studies and clinical trial. Mount Sinai already started to recruit patients; final data analysis and publication is anticipated in the fall of 2017.

Clinical Results

- **Reduction in the surpassing of the maximal 3 hours’ limit:** reduction in the rate of women surpassing the limit of 3 hours pushing stage from 24.5% to 8.6%, which leads to less likelihood of maternal and neonatal morbidities.
- **Reduction of Cesarean Section:** reduction in the rate of emergency cesarean sections from 6.4% to 1.2% as a result of the baby getting stuck in the birth canal.
- **Reduction of Vacuum Deliveries:** reduction in the rate of operative vaginal delivery (Vacuum) from 28.2% to 12.3%.

Medivie USA Inc., a Nevada corporation, is an early stage development company. We (Medivie USA Inc.), through an exclusive, perpetual licensing agreement, are involved in marketing and distributing in the United States and Canada the Laboraide product, a drug-free oral device that is used for the reduction of emergency vacuum and emergency C-sections (Caesarean section) and the reduction of pain sensation during childbirth labor. We entered into a licensing agreement for exclusive patent and trademark rights of Laboraide and all other products created or owned by Medivie UK Limited (“Medivie UK”). The Company specializes in the development and marketing of oral support devices in several fields, mainly for the childbirth field with the development of “Laboraide” throughout the United States and Canada.

Operating results

Medivie USA Inc., a Nevada corporation that was incorporated on February 24, 2016, is an early stage development company. We have no prior operations as of February 23, 2017. Accordingly, we have only a limited history upon which an evaluation of our prospects and future performance can be assessed.

Liquidity and capital resources

Liquidity

We are in the very earliest stages of development and our cash balance is \$109,000 as of February 23, 2017. We will likely have liquidity problems if we cannot raise a significant amount from this Offering or if we need additional funds for our strategic plans. The Company entered into a Note agreement attached hereto as Exhibit 3.2., and such creditor has a UCC lien against all present and future assets of the Company, including but not limited to its Exclusive Perpetual Licensing Agreement.

Sources of Liquidity

We believe that based on our current business plan, the net proceeds from this Offering will be sufficient to fund our currently anticipated cash requirements through 2018, at which point we estimate Company sales will be sufficient to be profitable by the second quarter of 2018 and, thereafter, we believe sales proceeds will finance the Company’s activities.

Plan of Operations

On March 28, 2016, we entered into an exclusive perpetual (see Exhibit 6.1 B-1) licensing agreement with Medivie UK and such agreement grants the Company the right to market and distribute Laboraide and Medivie UK’s current and ancillary products in the United States and Canada. By the second quarter of 2017 we believe that we will start selling the Laboraide product in the U.S. market. The U.S. market is approximately 4 million births per annum, and we believe we might secure a small portion of that market share. The selling price is set at \$20 for pharmacy chains & Babies “R” Us, and \$55 for retail and through our e-commerce online site and other sales.

We anticipate and believe that we should be able to sale units within 12 months, which will result in revenues as we are a legally marketed medical device in the USA and Canada and In addition we have a material inventory of about 2,592 unirs located in Mansfield, MA, USA, ready to be supplied. . We plan to spend approximately \$24,200,000 on marketing from 2017 through 2021, with about \$700,000 of the marketing budget to be allocated to the following 12 months if we successfully close on our offering. We also expect to incur approximately \$447,500 in general and administrative expenses in the following 12 months. As a result, we will not be profitable in 2017. Management believe that in the second half of 2018 we may originate profits if we successfully close on our maximum offering under the terms of this Offering Statement.

Voting. Each share of common stock shall have one vote per share for all purposes. Our common stock holders are not entitled to cumulative voting for election of the Company’s Board of Directors.

Dividends. Subject to preferences that may be granted to any then outstanding preferred stock, the holders of our common stock are entitled to dividends out of funds legally available when and as declared by our Board of Directors. Our Board of Directors has never declared a dividend and does not anticipate declaring a dividend in the next two years.

Liquidation Rights. In the event of our liquidation, dissolution or winding up, holders of our common stock are entitled to share ratably in all of our assets remaining after payment of liabilities and the liquidation preference of any then outstanding preferred stock.

Preferred Stock

The Company’s Board of Directors is authorized by its articles of incorporation to prescribe a class or series of preferred stock and establish the voting powers, designations, preferences, limitations, restrictions and relative rights of each such series without any further vote or action by our stockholders. Any shares of preferred stock so issued would have priority over the common stock with respect to dividend or liquidation rights. At present we have no plans to issue any additional shares of preferred stock or to adopt any new series, preferences or other classification of preferred stock.

The issuance of shares of preferred stock, or the issuance of rights to purchase such shares, could be used to discourage an unsolicited acquisition proposal. For instance, the issuance of a series of preferred stock might impede a business combination by including class voting rights that would enable a holder to block such a transaction. In addition, under certain circumstances, the issuance of preferred stock could adversely affect the voting power of holders of our common stock. Although the Company’s Board of Directors is required to make any determination to issue preferred stock based on its judgment as to the best interests of our stockholders, the Board could act in a manner that would discourage an acquisition attempt or other transaction that some, or a majority, of our stockholders might believe to be in their best interests or in which such stockholders might receive a premium for their stock over the market price of such stock at such time. The Board presently does not intend to seek stockholder approval prior to the issuance of currently authorized stock, unless otherwise required by applicable rules, regulations or laws.

We have audited the accompanying balance sheet of **MEDIVIE USA INC.** (the “Company”) as of September 30, 2016, and the related statements of operations and comprehensive loss, changes in stockholders equity and cash flows for the period from February 24, 2016 (inception of the Company) through September 30, 2016. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company’s internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Medivie USA, Inc as of September 30, 2016, and the results of its operations and its cash flows for the period from February 24, 2016 (inception of the Company) through September 30, 2016, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1B to the financial statements, the Company have not yet generated any revenues from operations, and therefore is dependent upon external sources for financing its operations. These matters as set forth in Note 1B, raise substantial doubt about the Company’s ability to continue as a going concern. Management’s plans in regards to these matters are also described in Note 1B. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

MEDIVIE USA INC.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 – GENERAL

- A. MEDIVIE USA INC. (the "Company"), a Nevada corporation incorporated on February 24, 2016, is an early stage development company. The Company is involved in marketing and distributing of Laboraide ("Licensed Product") products in the U.S. through a licensing agreement for exclusive patent and trademark rights with Medivie UK Limited ("Medivie UK") the parent company. Medivie UK, is a wholly owned subsidiary of Medivie Therapeutic LTD, an Israeli public company ("Medivie Israel").

The Company has been granted with an exclusive, perpetual license to use, copy or display the Trademarks to commercialize the Licensed Product in Canada and the United States ("Territories") by Medivie UK.

In addition, Medivie UK granted an exclusive, perpetual sublicense to the Company, to use the Patents to commercialize the Licensed Product in the aforementioned Territories. In the event that Medivie UK losses Control of the Patents, the sublicense shall automatically expire and be terminated.

Royalties equal to 2% of the net revenues from the sales of the Licensed Product, shall be paid on a quarterly basis by the Company to Medivie UK

B. Going concern uncertainty

Since its incorporation, the Company did not conduct any material operations and have not yet generated any revenues from operations, and therefore is dependent upon external sources for financing their operations. Until such time as the Company generates sufficient revenue to fund its operations (if ever), the Company plans to finance its operations through the sale of equity or equity-linked securities and/or debt securities and, to the extent available, short term and long term loans. There can be no assurance that the Company will succeed in obtaining the necessary financing to continue its operations as a going concern.

C. Risk factors

The Company has no operating history upon which an evaluation of the Company's business can be based. Further, the Company expects to incur substantial operating losses. The Company's continued existence is dependent upon the Company's ability to generate profitable operations and to secure the necessary financing to fund the Company's future operations. The likelihood of the Company's future success must be considered in light of the Company's lack of operating history and the Company's expectation of continued operating losses, as well as the problems, expenses, difficulties, risks and complications frequently encountered in connection with similarly situated companies. There can be no assurance that the Company's future revenues, if any, will ever be significant or that the Company's operations will ever be profitable.

D. The Company has evaluated subsequent events for recognition and disclosure through February 23, 2017, which is the date the financial statements were available to be issued (see Note 5).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements were prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP).

A. Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the dates of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. As applicable to these financial statements, the most significant estimates and assumptions relate to the going concern assumptions.

NOTES TO FINANCIAL STATEMENTS (cont.)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. Functional currency

The functional currency of the Company is the US dollar, which is the currency of the primary economic environment in which it intends to operate. In accordance with ASC 830, “Foreign Currency Matters” (ASC 830), balances denominated in or linked to foreign currency are stated on the basis of the exchange rates prevailing at the applicable balance sheet date. For foreign currency transactions included in the statement of operations, the exchange rates applicable on the relevant transaction dates are used. Gains or losses arising from changes in the exchange rates used in the translation of such transactions are carried as financing income or expenses.

C. Cash and cash equivalents

The Company considers all short-term investments, which are highly liquid investments with original maturities of three months or less at the date of purchase, to be cash equivalents.

D. Deferred issuance costs

Incremental costs directly attributable to a proposed or actual offering of securities are deferred and presented in the balance sheet as "Deferred issuance costs". Such costs are charged against the gross proceeds of the offering upon its completion.

Such costs will be expensed, in the event of a non-execution of the offering or when the offering will no longer be considered as "probable" to be completed.

E. Stock-based compensation

Stock based compensation to employees is recognized in the statement of operations as an operating expense, based on the fair value of the award on the date of grant. The fair value of stock-based compensation is estimated using the Black Scholes option-pricing model.

The Company applies ASC 505-50, "Equity-Based Payments to Non-Employees" ("ASC 505-50") with respect to stock based compensation issued to non-employees which requires to measure the fair value of the shares, options or warrants granted (as applicable to the relevant grant), at the measurement date, based on the fair value of the consideration received (goods or services) or the fair value of the equity instruments issued, whichever is more reliably measurable (See Note 3B).

F. Fair value of financial instruments

ASC Topic 825-10, "Financial Instruments" defines financial instruments and requires disclosure of the fair value of financial instruments held by the Company. The Company considers the carrying amount of the other current assets to approximate their fair values due to the short term maturities of such financial instruments. ASC Topic 825-10, establishes the following fair value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1 - Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2 - Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3 - Unobservable inputs are used when little or no market data is available. Level 3 inputs are considered as the lowest priority under the fair value hierarchy.

G. Recently issued accounting pronouncements

1. Accounting Standard Update 2014-09, “Revenue from Contracts with Customers”

In May 2014, the FASB issued Accounting Standard Update 2014-09, Revenue from Contracts with Customers (Topic 606) ("ASU 2014-09").

ASU 2014-09 outlines a single comprehensive model to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. ASU 2014-09 also requires entities to disclose sufficient information, both quantitative and qualitative, to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

An entity should apply the amendments in this ASU using one of the following two methods: 1. Retrospectively to each prior reporting period presented with a possibility to elect certain practical expedients, or, 2. Retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application. If an entity elects the latter transition method, it also should provide certain additional disclosures.

For a nonpublic entity, the amendments in ASU 2014-09 are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019 (2019 annual financial statements for the Company). Early application is not permitted.

The Company is in the process of assessing the impact, if any, of ASU 2014-09 on its consolidated financial statements.

2. Accounting Standards Update 2014-15, “Presentation of Financial Statements—Going Concern”

In August 2014, the FASB issued Accounting Standards Update 2014-15, Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern ("ASU 2014-15").

ASU 2014-15 provide guidance on management’s responsibility in evaluating whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity’s ability to continue as a going concern within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued when applicable).

ASU 2014-15 also provide guidance related to the required disclosures as a result of management evaluation.

The amendments in ASU 2014-15 are effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted.

The Company is in the process of assessing the impact, if any, of ASU 2014-15 on its financial statements or related disclosures.

- A. On March 1, 2016, the Company signed a lease agreement for 250 sqm. office space with a related party for an "Initial Term" beginning March 1, 2016 and ending February 28, 2017. The Company shall pay a monthly rent of US\$ 1,800 to the landlord. It was agreed that the lease payments shall be paid in cash retroactively after the REG A + capital raising is concluded.
- B. On July 1, 2016 the Company entered into an agreement with Benjamin Rael-Brook, the CEO of the Company. Pursuant to the agreement, the Company shall pay the CEO a salary of \$1,500 per month. Also, the Company shall grant the CEO a 1% equity interest in the Company, provided however, that such shares of the Company’s common stock shall be restricted and shall be issued from Medivie UK’s equity ownership in the Company. The compensation described above, is contingent to, and shall not be paid unless and until the Company successfully raises and closes on or before March 1, 2017, a minimum of \$1,000,000 in capital.
- C. On September 14, 2016 the company entered into a service agreement with a presenter in the US. Pursuant to the agreement the company shall pay the presenter 500\$ per month for 12 consecutive months after the agreement date. NOTE 6 – STOCKHOLDERS’ EQUITY

- A. On February 24, 2016 (inception of the Company), the Company issued 16,200,000 of its ordinary shares for a total consideration of US\$ 230,000 (90% of the shares).
- B. Upon its inception, the Company granted 10% of its common shares (1,800,000 shares) to a third party service provider as a compensation for future services to be received by the company, in connection with a planned equity offering. In accordance with the provisions of ASC Topic 550-50, Equity-Based Payments to Non-Employees, the Company measured the shares granted based on an estimate of the fair value of the services to be received, as such fair value was determined as more reliably measurable than the fair value of the equity instruments issued. The fair value estimate of the shares that was measured of US\$ 30,000, was recorded as part of the deferred issuance costs with corresponding amount in equity. As such compensation was granted in connection with a planned offering of ordinary shares, the transaction did not affect profit or loss. The shares allocated to the third party were also subsequently turned to and transferred to Thunder Crowd Capital, LLC (“TCC”) as part of a private transaction between the third party and TCC. The third-party founder is a co-founder in TCC.

The execution, delivery and performance of this Agreement, the Note and other Transaction Documents by the Company and the consummation by the Company of the transactions contemplated hereby and thereby will not (i) result in a violation of the Articles of Incorporation, certificate of designations of any outstanding series of preferred stock of the Company or (ii) conflict with or constitute a default (or an event which with notice or passage of time or both would become a default) under, or give to others any rights of termination, amendment, acceleration or cancellation of, any agreement, indenture or instrument to which the Company is a party, or result in a violation of any law, rule, regulation, order, judgment or decree (including Regulation A+) applicable to the Company or by which any material property or asset of the Company is bound or affected and which would cause a Material Adverse Effect. The Company is not in violation of any term of or in default under its Articles of Incorporation, bylaws or organizational charter or by-laws, respectively, or any material contract, agreement, mortgage, indebtedness, indenture, instrument, judgment, decree or order or any statute, rule or regulation applicable to the Company. The business of the Company is not being conducted in violation of any material law, ordinance, regulation of any governmental entity. Except as specifically contemplated by this Agreement and as required under the Securities Act and any applicable state securities laws, the Company is not required to obtain any consent, authorization or order to make any filing or registration with, any court or governmental agency in order for it to execute, deliver or perform any of its obligations under or contemplated by this Agreement in accordance with the terms hereof or thereof except as such consent, authorization or order has been obtained prior to the date hereof. In connection with the Offering, the Company has filed with the SEC the Prospectus and all reports, schedules, forms, statements and other documents (the "SEC Documents") required to be filed by it with the SEC to comply with the Securities Act of 1933, as amended, including, without limitation, the rules and regulations applicable to the Offering. The SEC Documents were true and correct in all material respects when filed with the SEC and as of the date hereof, and none of the SEC Documents contained or contain any untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading. The financial statements of the Company included in the SEC Documents complied in all material respects with applicable accounting requirements and the published rules and regulations of the SEC with respect thereto. Such financial statements have been prepared in accordance with generally accepted accounting principles, consistently applied, during the periods involved and fairly present in all material respects the financial position of the Company as of the dates thereof and the results of its operations and cash flows for the periods then ended (subject, in the case of unaudited statements, to normal year-end audit adjustments). No other information provided by or on behalf of the Company to the Lender which is not included in the SEC Documents contains any untrue statement of a material fact or omits to state any material fact necessary in order to make the statements therein, in the light of the circumstance under which they were made, not misleading. The Company acknowledges and agrees that it is solely responsible for the accuracy and completeness of the Prospectus and other materials submitted to the SEC and all other materials and information (including, without limitation, all marketing materials) to be used in the Offering. The Company has selected and accepts full responsibility for each person or entity being used or to be used in connection with the Offering, and acknowledges and agrees that the Lender has not required the Company to use any such person or entity. The Company acknowledges and agrees that the repayment of the Note is not contingent on the success of the Offering, and that the face value of the Note is due on or before the Maturity Date even if the amounts to be received in the Escrow account are insufficient to repay the face value of the Note.

- (e) No Default. The Company is not in default in the performance or observance of any material obligation, agreement, covenant or condition contained in any indenture, debenture, mortgage, deed of trust or other material instrument or agreement to which it is a party or by which it or its property is bound and neither the execution, nor the delivery by the Company, nor the performance by the Company of its obligations under the Transaction Documents or any exhibits or attachments hereto will conflict with or result in the breach or violation of any of the terms or provisions of, or constitute a default or result in the creation or imposition of any lien or charge on any assets or properties of the Company under any material indenture, mortgage, deed of trust or other material instrument applicable to the Company or instrument to which the Company is a party or by which it is bound, or any statute, or any decree, judgment, order, rule or regulation of any court or governmental agency or body having jurisdiction over the Company or their respective properties, in each case which default, lien or charge would likely to cause a Material Adverse Effect.
- (f) Absence of Litigation. There are no unpaid taxes in any material amount claimed to be due by the taxing authority of any jurisdiction, and the officers of the Company know of no basis for any such claim.

If any action shall be brought against any Purchaser Party in respect of which indemnity may be sought pursuant to this Agreement, such Purchaser Party shall promptly notify the Company in writing, and the Company shall have the right to assume the defense thereof with counsel of its own choosing reasonably acceptable to the Purchaser Party. The Company will not be liable to any Purchaser Party under this Agreement (y) for any settlement by a Purchaser Party effected without the Company’s prior written consent, which shall not be unreasonably withheld or delayed; or (z) to the extent, but only to the extent that a loss, claim, damage or liability is attributable to any Purchaser Party’s breach of any of the representations, warranties, covenants or agreements made by such Purchaser Party in this Agreement or any other Transaction Document. The indemnification required by this Section 6 shall be made by periodic payments of the amount thereof during the course of the investigation or defense, as and when bills are received or are incurred. The indemnity agreements contained herein shall be in addition to any cause of action or similar right of any Purchaser Party against the Company or others and any liabilities the Company may be subject to pursuant to law.

9. GOVERNING LAW. All rights and obligations hereunder and thereunder, including matters of construction, validity, and performance, shall be governed by and construed in accordance with the law of the State of New York. 11. MISCELLANEOUS.

(a) Counterparts. This Agreement may be executed in two or more identical counterparts, all of which shall be considered one and the same agreement and shall become effective when counterparts have been signed by each party and delivered to the other party.

(b) This Agreement shall be binding upon and inure to the benefit of the parties and their successors and permitted assigns. The Company may not assign this Agreement or any rights or obligations hereunder without the prior written consent of the Lender. The Lender may assign any or all of its rights under this Agreement to any person to whom such Lender assigns or transfers the Note, or a portion thereof, provided that such transferee agrees in writing to be bound, with respect to the Note, by the provisions of the this Agreement that apply to the Lender.

(c) Usury. To the extent it may lawfully do so, the Company hereby agrees not to insist upon or plead or in any manner whatsoever to avoid, and will resist any and all efforts to be compelled to take the benefit or advantage of, usury laws wherever enacted, now or at any time hereafter in force, in connection with any claim, action or proceeding that may be brought by the Lender in order to enforce any right or remedy under any Transaction Document. Notwithstanding any provision to the contrary contained in any Transaction Document, it is expressly agreed and provided that the total liability of the Company under the Transaction Documents for payments in the nature of interest shall not exceed the maximum lawful rate authorized under applicable law (the “Maximum Rate”), and, without limiting the foregoing, in no event shall any rate of interest or default interest, or both of them, when aggregated with any other sums in the nature of interest that the Company may be obligated to pay under the Transaction Documents exceed such Maximum Rate. It is agreed that if the maximum contract rate of interest allowed by law and applicable to the Transaction Documents is increased or decreased by statute or any official governmental action subsequent to the date of the Transaction Documents, the new maximum contract rate of interest allowed by law will be the Maximum Rate applicable to the Transaction Documents from the effective date thereof, unless such application is precluded by applicable law. If under any circumstances whatsoever, interest in excess of the Maximum Rate is paid by the Company to the Lender with respect to indebtedness evidenced by the Transaction Documents, such excess shall be applied by the Lender to the unpaid principal amount of any such indebtedness or be refunded to the Company, the manner of handling such excess to be at the Lender’s election.

(d) Entire Agreement; Amendments. This Agreement supersedes all other prior oral or written agreements among the Lender, the Company with respect to the matters discussed herein, and this Agreement, and the instruments referenced herein, contain the entire understanding of the parties with respect to the matters covered herein and therein and, except as specifically set forth herein or therein, none of the Company or the Lender makes any representation, warranty, covenant or undertaking with respect to such matters. No provision of this Agreement may be waived or amended other than by an instrument in writing signed by the party to be charged with enforcement.

(e) Attorneys' Fees. Upon any default by the Company under this Agreement, the Note or any other Transaction Documents, then the Company shall reimburse the Lender promptly for all out-of-pocket fees, costs and expenses, including, without limitation, reasonable attorneys' fees and expenses incurred by the Lender in any action in connection herewith or therewith, including, without limitation, those incurred: (i) during any workout, attempted workout, or in connection with the rendering of legal advice as to the Lender's rights, remedies and obligations, (ii) collecting any sums which become due to the Lender in accordance with the terms of this Note, (iii) defending or prosecuting any proceeding or any counterclaim to any proceeding or appeal; or (iv) the protection, preservation or enforcement of any rights or remedies of the Lender.

or at such other address and/or electronic mail address and/or to the attention of such other person as the recipient party has specified by written notice given to each other party three Business Days prior to the effectiveness of such change. Written confirmation of receipt (i) given by the recipient of such notice, consent, waiver or other communication, or (ii) provided by a nationally recognized overnight delivery service, shall be rebuttable evidence of personal service, or receipt from a nationally recognized overnight delivery service in accordance with clause (i), or (iii) above, respectively.

- 15) **Remedies, Other Obligations, Breaches and Injunctive Relief.** The Lender’s remedies provided in this Note shall be cumulative and in addition to all other remedies available to the Lender under this Note, at law or in equity (including a decree of specific performance and/or other injunctive relief), no remedy of the Lender contained herein shall be deemed a waiver of compliance with the provisions giving rise to such remedy and nothing herein shall limit the Lender’s right to pursue actual damages for any failure by the Company to comply with the terms of this Note. No remedy conferred under this Note upon the Lender is intended to be exclusive of any other remedy available to the Lender, pursuant to the terms of this Note or otherwise. No single or partial exercise by the Lender of any right, power or remedy hereunder shall preclude any other or further exercise thereof. The failure of the Lender to exercise any right or remedy under this Note or otherwise, or delay in exercising such right or remedy, shall not operate as a waiver thereof. Every right and remedy of the Lender under any document executed in connection with this transaction may be exercised from time to time and as often as may be deemed expedient by the Lender. Each of the Company acknowledges that a breach by it of its obligations hereunder will cause irreparable harm to the Lender and that the remedy at law for any such breach may be inadequate. Each of the Company therefore agrees that, in the event of any such breach or threatened breach, the Lender shall be entitled, in addition to all other available remedies, to an injunction restraining any breach, and specific performance without the necessity of showing economic loss and without any bond or other security being required.
- 16) **Governing Law; Jurisdiction.** All questions concerning the construction, validity, enforcement and interpretation of this Agreement shall be governed by the internal laws of the State of New York, without giving effect to any choice of law or conflict of law provision or rule (whether of the State of New York or any other jurisdictions) that would cause the application of the laws of any jurisdictions other than the State of New York. Each party hereby irrevocably submits to the exclusive jurisdiction of the state and federal courts in New York, for the adjudication of any dispute hereunder or in connection herewith or therewith, or with any transaction contemplated hereby or discussed herein, and hereby irrevocably waives, and agrees not to assert in any suit, action or proceeding, any claim that it is not personally subject to the jurisdiction of any such court, that such suit, action or proceeding is brought in an inconvenient forum or that the venue of such suit, action or proceeding is improper. Each party hereby irrevocably waives personal service of process and consents to process being served in any such suit, action or proceeding by mailing a copy thereof to such party at the address for such notices to it under this Agreement and agrees that such service shall constitute good and sufficient service of process and notice thereof. Nothing contained herein shall be deemed to limit in any way any right to serve process in any manner permitted by law.
- 17) **No Inconsistent Agreements.** None of the parties hereto will hereafter enter into any agreement, which is inconsistent with the rights granted to the parties in this Note.
- 18) **Third Parties.** Nothing herein expressed or implied is intended or shall be construed to confer upon or give to any person or entity, other than the parties to this Note and their respective permitted successor and assigns, any rights or remedies under or by reason of this Note.

- 19) Waiver of Jury Trial. AS A MATERIAL INDUCEMENT TO THE LENDER, EACH OF THE COMPANY HEREBY KNOWINGLY, VOLUNTARILY AND WILLINGLY WAIVES ANY RIGHT TO TRIAL BY JURY IN ANY LEGAL PROCEEDING RELATED IN ANY WAY TO THIS AGREEMENT AND/OR ANY AND ALL OF THE OTHER DOCUMENTS ASSOCIATED WITH THIS TRANSACTION.
- 20) Entire Agreement. This Note (including any recitals hereto) set forth the entire understanding of the parties with respect to the subject matter hereof, and shall not be modified or affected by any offer, proposal, statement or representation, oral or written, made by or for any party in connection with the negotiation of the terms hereof, and may be modified only by instruments signed by all of the parties hereto.

ARTICLE 2.

SECURITY INTEREST

2.1 Grant of Security Interest.

(a) As security for the payment or performance in full of the Obligations, Grantor hereby pledges to the Secured Party, its successors and assigns, and hereby grants to the Secured Party, its successors and assigns, a security interest in and to all assets and personal property of Grantor, wherever located and whether now or hereinafter existing and whether now owned or hereafter acquired, of every kind and description, tangible or intangible, including without limitation, all Goods, Inventory, Equipment, Fixtures, Instruments, Documents, Accounts, Contracts and Contract Rights, Chattel Paper, Deposit Accounts, Money, Letters of Credit and Letter-of-Credit Rights, Commercial Tort Claims, Securities and all other Investment Property, General Intangibles, Farm Products, all books and records and information relating to any of the foregoing, all Supporting obligations, and any and all Proceeds and products of any and all of the foregoing, and as more particularly described on Exhibit A attached hereto (collectively, the “**Collateral**”)

(b) Simultaneously with the execution and delivery of this Agreement, Grantor shall make, execute, acknowledge, file, record and deliver to the Secured Party such documents, instruments, and agreements, including, without limitation, financing statements, mortgages, certificates, affidavits and forms as may, in the Secured Party’s reasonable judgment, be necessary to effectuate, complete or perfect, or to continue and preserve, the security interest of the Secured Party in the Collateral.

(c) In the event that any Grantor obtains title to any Real Estate, such Grantor shall promptly execute and deliver an original mortgage, deed of trust, or other instrument in a form and substance acceptable to the Secured Party in all respects sufficient to provide the Secured party with a perfected first priority lien on such Real Estate.

2.2 No Assumption of Liability.

The security interest in the Collateral is granted as security only and shall not subject the Secured Party to, or in any way alter or modify any obligation or liability of any Grantor with respect to or arising out of the Collateral.

ARTICLE 3.

ATTORNEY-IN-FACT; PERFORMANCE

3.1 Secured Party Appointed Attorney-In-Fact.

Grantor hereby appoints the Secured Party as its attorney-in-fact, with full authority in the place and stead of such Grantor and in the name of Grantor or otherwise, from time to time in the Secured Party’s discretion to take any action and to execute any instrument which the Secured Party may reasonably deem necessary to accomplish the purposes of this Agreement or for the purpose of perfecting, confirming, continuing, enforcing or protecting the security interest in the Collateral, including, without limitation, to (a) file one or more financing statements, continuation statements, filings with the United States Patent and Trademark Office or United States Copyright Office (or any successor office) or other documents; (b) receive and collect all instruments made payable to a Grantor representing any payments in respect of the Collateral or any part thereof and to give full discharge for the same; (c) demand, collect, receipt for, settle, compromise, adjust, sue for, foreclose, or realize on the Collateral as and when the Secured Party may determine, and (d) to execute and complete in the name of one or more Grantor such documents and forms as may be necessary to transfer any domain names and related content to the Secured Party or its designee, including without limitation, completing and submitting online forms in the name of a Grantor and taking all actions necessary in connection therewith. To facilitate collection, the Secured Party may notify account debtors and obligors on any Collateral to make payments directly to the Secured Party. The foregoing power of attorney is a power coupled with an interest and shall be irrevocable until all Obligations are paid and performed in full. The Grantor agrees that the powers conferred on the Secured Party hereunder are solely to protect the Secured Party’s interests in the Collateral and shall not impose any duty upon the Secured Party to exercise any such powers.

3.2 Secured Party May Perform.

If a Grantor fails to perform any agreement contained herein, the Secured Party, at its option, may itself perform, or cause performance of, such agreement, and the expenses of the Secured Party incurred in connection therewith shall be included in the Obligations secured hereby and payable by the Grantor under Section 8.4.

ARTICLE 4.

REPRESENTATIONS AND WARRANTIES

4.1 Authorization: Enforceability.

Grantor represents and warrants that it has taken all action necessary to authorize the execution, delivery and performance of this Agreement and the transactions contemplated hereby; and upon execution and delivery, this Agreement shall constitute a valid and binding obligation of the respective party, subject to applicable bankruptcy, insolvency, reorganization, moratorium and similar laws affecting creditors’ rights or by the principles governing the availability of equitable remedies.

4.2 Ownership of Collateral; Priority of Security Interest.

Grantor represents and warrants that it is the legal and beneficial owner of the Collateral free and clear of any lien, security interest, option or other charge or encumbrance (each, a “**Lien**”) except for the Permitted Liens. Except for the Permitted Liens, (i) the security interest granted to the Secured Party hereunder shall be a first priority security interest subject to no other Liens, and (ii) no financing statement covering any of the Collateral or any proceeds thereof is on file in any public office.

4.3 Location of Collateral.

The Collateral is or will be kept at the address(es) of Grantor set forth on Schedule 4.3 attached hereto. Unless otherwise provided herein, the Grantor will not remove any Collateral from such locations without the prior written consent of the Secured Party.

4.4 Location, State of Incorporation and Name of Grantor.

Grantor’s principal place of business; state of incorporation, organization or formation; organization id; and exact legal name is set forth on Schedule 4.4 attached hereto.

4.5 Solvency.

Grantor is able to pay its debts as they mature, has capital sufficient to carry on its business, and the fair present saleable value of its assets, calculated on a going concern basis, is in excess of the amount of its liabilities.

ARTICLE 5.

DEFAULT; REMEDIES; SUBSTITUTE COLLATERAL

5.1 Method of Realizing Upon the Collateral: Other Remedies.

If any Event of Default shall have occurred and be continuing:

(a) The Secured Party may exercise in respect of the Collateral, in addition to any other rights and remedies provided for herein or otherwise available to it, all of the rights and remedies of a secured party upon default under the UCC (whether or not the UCC applies to the affected Collateral), and also may (i) take absolute control of the Collateral, including, without limitation, transfer into the Secured Party’s name or into the name of its nominee or nominees (to the extent the Secured Party has not theretofore done so) and thereafter receive, for the benefit of the Secured Party, all payments made thereon, give all consents, waivers and ratifications in respect thereof and otherwise act with respect thereto as though it were the outright owner thereof, (ii) require Grantor to assemble all or part of the Collateral as directed by the Secured Party and make it available to the Secured Party at a place or places to be designated by the Secured Party that is reasonably convenient to both parties, and the Secured Party may enter into and occupy any premises owned or leased by a Grantor where the Collateral or any part thereof is located or assembled for a reasonable period in order to effectuate the Secured Party’s rights and remedies hereunder or under law, without obligation to such Grantor in respect of such occupation, and (iii) without notice except as specified below and without any obligation to prepare or process the Collateral for sale, (A) sell the Collateral or any part thereof in one or more parcels at public or private sale, at any of the Secured Party’s offices or elsewhere, for cash, on credit or for future delivery, and at such price or prices and upon such other terms as the Secured Party may deem commercially reasonable and/or (B) lease, license or dispose of the Collateral or any part thereof upon such terms as the Secured Party may deem commercially reasonable. Grantor agrees that, to the extent notice of sale or any other disposition of the Collateral shall be required by law, at least ten (10) days’ notice to such Grantor of the time and place of any public sale or the time after which any private sale or other disposition of the Collateral is to be made shall constitute reasonable notification. The Secured Party shall not be obligated to make any sale or other disposition of any Collateral regardless of notice of sale having been given. The Secured Party may adjourn any public or private sale from time to time by announcement at the time and place fixed therefor, and such sale may, without further notice, be made at the time and place to which it was so adjourned. Grantor hereby waives any claims against the Secured Party arising by reason of the fact that the price at which the Collateral may have been sold at a private sale was less than the price which might have been obtained at a public sale or was less than the aggregate amount of the Obligations, even if the Secured Party accepts the first offer received and does not offer such Collateral to more than one offeree, and waives all rights that such Grantor may have to require that all or any part of such Collateral be marshaled upon any sale (public or private) thereof. Grantor hereby acknowledges that (i) any such sale of the Collateral by the Secured Party may be made without warranty, (ii) the Secured Party may specifically disclaim any warranties of title, possession, quiet enjoyment or the like, and (iii) such actions set forth in clauses (i) and (ii) above shall not adversely affect the commercial reasonableness of any such sale of Collateral. In connection with such exercise of rights, the Secured Party shall have an irrevocable non-exclusive, royalty free license to use the Intellectual Property, which shall include a right for the Secured Party to grant one or more non-exclusive sublicenses to use the Intellectual Property.

(b) Any cash held by the Secured Party as Collateral and all cash proceeds received by the Secured Party in respect of any sale of or collection from, or other realization upon, all or any part of the Collateral may be applied (after payment of any amounts payable to the Secured Party pursuant to Section 8.4 hereof) by the Secured Party against, all or any part of the Obligations in such order as the Secured Party shall elect, consistent with the provisions of the UPA. Any surplus of such cash or cash proceeds held by the Secured Party and remaining after the indefeasible payment in full in cash of all of the Obligations shall be paid over to whomsoever shall be lawfully entitled to receive the same or as a court of competent jurisdiction shall direct.

(c) In the event that the proceeds of any such sale, collection or realization are insufficient to pay all amounts to which the Secured Party is legally entitled, the Grantor shall be liable for the deficiency, together with interest thereon at the rate specified in the Note for interest on overdue principal thereof or such other rate as shall be fixed by applicable law, together with the costs of collection and the reasonable fees, costs, expenses and other client charges of any attorneys employed by the Secured Party to collect such deficiency.

(d) Grantor hereby acknowledges that if the Secured Party complies with any applicable state, provincial, or federal law requirements in connection with a disposition of the Collateral, such compliance will not adversely affect the commercial reasonableness of any sale or other disposition of the Collateral.

(e) The Secured Party shall not be required to marshal any present or future collateral security (including, but not limited to, this Agreement and the Collateral) for, or other assurances of payment of, the Obligations or any of them or to resort to such collateral security or other assurances of payment in any particular order, and all of the Secured Party’s rights hereunder and in respect of such collateral security and other assurances of payment shall be cumulative and in addition to all other rights, however existing or arising. To the extent permitted by applicable law, Grantor hereby agrees that it will not invoke any law relating to the marshaling of collateral which might cause delay in or impede the enforcement of the Secured Party’s rights under this Agreement or under any other instrument creating or evidencing any of the Obligations or under which any of the Obligations is outstanding or by which any of the Obligations is secured or payment thereof is otherwise assured, and, to the extent permitted by applicable law, Grantor hereby irrevocably waives the benefits of all such laws.

5.2 Duties Regarding Collateral.

The Secured Party shall have no duty as to the collection or protection of the Collateral or any income thereon or as to the preservation of any rights pertaining thereto, beyond the safe custody and reasonable care of any of the Collateral actually in the Secured Party’s possession.

ARTICLE 6.

(b) within fifteen (15) days after the making of each submission or filing, a copy of any report, financial statement, notice or other document, whether periodic or otherwise, submitted to the shareholders of the Grantor, or submitted to or filed by the Grantor with any governmental authority involving or affecting (i) the Grantor that could reasonably be expected to have a Material Adverse Effect; (ii) the Obligations; (iii) any part of the Collateral; or (iv) any of the transactions contemplated in this Agreement or the other Transaction Documents.

6.7 Defense of Collateral, Etc.

Grantor shall defend and enforce (a) its right, title and interest in and to any part of the Collateral; and (b) if not included within the Collateral, those assets and properties whose loss would reasonably be expected to have a Material Adverse Effect, each against all manner of claims and demands on a timely basis to the full extent permitted by applicable law (other than any such claims and demands by holders of Permitted Liens).

6.8 Taxes and Assessments.

Grantor shall (a) file all material tax returns and appropriate schedules thereto that are required to be filed under applicable law, prior to the date of delinquency (taking into account any extensions of the original due date), (b) pay and discharge all material taxes, assessments and governmental charges or levies imposed upon a Grantor, upon its income and profits or upon any properties belonging to it, prior to the date on which penalties attach thereto, and (c) pay all material taxes, assessments and governmental charges or levies that, if unpaid, might become a lien or charge upon any of its properties; provided, however, that the Grantor in good faith may contest any such tax, assessment, governmental charge or levy described in the foregoing clauses (b) and (c) so long as appropriate reserves are maintained with respect thereto if and to the extent required by GAAP.

(a) Financing Statements. The Grantor hereby irrevocably authorize the Secured Party, at the sole cost and expense of the Grantor, at any time and from time to time to file in any filing office in any jurisdiction any initial financing statements and amendments thereto that (a) indicate the Collateral (i) as all assets of the Grantor or words of similar effect, regardless of whether any particular asset comprised in the Collateral falls within the scope of Article 9 of the UCC of such jurisdiction, or (ii) as being of an equal or lesser scope or with greater detail, and (b) contain any other information required by Part 5 of Article 9 of the UCC for the sufficiency or filing office acceptance of any financing statement or amendment, including (i) whether such Grantor is an organization, the type of organization and any organization identification number issued to such Grantor, and (ii) in the case of a financing statement filed as a fixture filing, a sufficient description of real property to which the Collateral relates. The Grantor agrees to furnish any such information to the Secured Party promptly upon request. The Grantor also ratifies its authorization for the Secured Party to have filed in any jurisdiction any initial financing statements or amendments thereto if filed prior to the date hereof. The Grantor acknowledges that it is not authorized to file any financing statement or amendment or termination statement with respect to any financing statement without the prior written consent of the Secured Party and agree that they will not do so without the prior written consent of the Secured Party. The Grantor acknowledges and agrees that this Agreement constitutes an authenticated record.

(b) Possession. The Grantor (i) shall have possession of the Collateral, except where expressly otherwise provided in this Agreement or where the Secured Party chooses to perfect its security interest by possession in addition to the filing of a financing statement; and (ii) will, where the Collateral is in the possession of a third party, join with the Secured Party in notifying the third party of the Secured Party's security interest and obtaining an acknowledgment from the third party that it is holding the Collateral for the benefit of the Secured Party.

(c) Control. The Grantor will cooperate with the Secured Party in obtaining control with respect to the Collateral consisting of (i) Investment Property, (ii) Letters of Credit and Letter-of-Credit Rights and (iii) electronic Chattel Paper.

(d) Marking of Chattel Paper. The Grantor will not create any Chattel Paper without placing a legend on the Chattel Paper acceptable to the Secured Party indicating that the Secured Party has a security interest in the Chattel Paper.

6.15 Notice of Commercial Tort Claims. Attached as Schedule 6.15 is a list of all Commercial Tort Claims of the Grantor (as such Schedule may be amended, modified or supplemented from time to time). If any Grantor shall at any time acquire a Commercial Tort Claim, such Grantor shall immediately notify the Secured Party in a writing signed by such Grantor which shall (a) provide brief details of said claim and (b) grant to the Secured Party a security interest in said claim and in the proceeds thereof, all upon the terms of this Agreement, in such form and substance satisfactory to the Secured Party.

6.16 Licenses.

(a) Grantor shall (i) promptly and faithfully observe and perform all of the material terms, covenants, conditions and provisions of the material License Agreements to be observed and performed by it, at the times set forth therein, if any, (ii) not do, permit, suffer or refrain from doing anything that could reasonably be expected to result in a default under or breach of any of the terms of any material License Agreement, (iii) not cancel, surrender, modify, amend, waive or release any material License Agreement in any material respect or any term, provision or right of the licensee thereunder in any material respect, or consent to or permit to occur any of the foregoing; except, that Grantor may cancel, surrender or release any material License Agreement in the ordinary course of the respective businesses of Grantor; provided, that, Grantor shall give Secured Party not less than thirty (30) days prior written notice of their intention to so cancel, surrender and release any such material License Agreement, (iv) give Secured Party prompt written notice of any material License Agreement entered into by any Grantor after the date hereof, together with a true, correct and complete copy thereof and such other information with respect thereto as Secured Party may request, (v) give Secured Party prompt written notice of any material breach of any obligation, or any default, by any party under any material License Agreement, and deliver to Secured Party (promptly upon the receipt thereof by any Grantor in the case of a notice to a Grantor, and concurrently with the sending thereof in the case of a notice from a Grantor) a copy of each notice of default and every other notice and other communication received or delivered by a Grantor in connection with any material License Agreement which relates to the right of any Grantor to continue to use the property subject to such License Agreement, and (vi) furnish to Secured Party, promptly upon the request of Secured Party, such information and evidence as Secured Party may require from time to time concerning the observance, performance and compliance by Grantor or the other party or parties thereto with the terms, covenants or provisions of any material License Agreement.

(b) Grantor will either exercise any option to renew or extend the term of each material License Agreement in such manner as will cause the term of such material License Agreement to be effectively renewed or extended for the period provided by such option and give prompt written notice thereof to Secured Party or give Secured Party prior written notice that a Grantor does not intend to renew or extend the term of any such material License Agreement or that the term thereof shall otherwise be expiring, not less than sixty (60) days prior to the date of any such non-renewal or expiration. In the event of the failure of any Grantor to extend or renew any material License Agreement, Secured Party shall have, and is hereby granted, the irrevocable right and authority, at its option, to renew or extend the term of such material License Agreement, whether in its own name and behalf, or in the name and behalf of a designee or nominee of Secured Party or in the name and behalf of Grantor, as Secured Party shall determine at any time that an Event of Default shall exist or have occurred and be continuing. Secured Party may, but shall not be required to, perform any or all of such obligations of any Grantor under any of the License Agreements, including, but not limited to, the payment of any or all sums due from any Grantor thereunder. Any sums so paid by Secured Party shall constitute part of the Obligations.

ARTICLE 7.

NEGATIVE COVENANTS

So long as any of the Obligations shall remain outstanding, unless the Secured Party shall otherwise consent in writing, Grantor covenants and agrees that it shall not:

7.1 Transfers; Liens and Encumbrances.

(a) Sell, assign (by operation of law or otherwise), lease, license, exchange or otherwise transfer or dispose of any of the Collateral, except the Grantor may (i) sell or dispose of Inventory in the ordinary course of business, and (ii) sell or dispose of assets the Grantor has determined, in good faith, not to be useful in the conduct of its business, and (iii) sell or dispose of accounts in the course of collection in the ordinary course of business consistent with past practice.

(b) Directly or indirectly make, create, incur, assume or permit to exist any Lien in, to or against any part of the Collateral other than Permitted Liens.

(c) The Grantor covenants and agrees that it will not, without the express written consent of the Secured Party, grant any license (whether exclusive or non-exclusive) to use the Intellectual Property to any party other than the Grantor, except that prior to the occurrence of an Event of Default, the Grantor may, in the ordinary course of business, grant non-exclusive licenses to use the Intellectual Property to unrelated third parties which are customers of a Grantor in connection with arms-length transactions, provided that such non-exclusive licenses do not impair the value of the Intellectual Property. To the extent that the Grantor wishes to seek the Secured Party’s consent to the granting of a license to use Intellectual Property other than as expressly permitted above, then the Grantor shall provide the Secured Party with a written request for such consent, which request shall be accompanied by a copy of the proposed license and any documents, instruments, and agreements related thereto or to be entered into in connection with such license, and such other information regarding the proposed license as the Secured Party may require. The Secured Party shall endeavor to respond to such request within ten (10) days of its receipt of such request, provided, however, that if the Secured Party does not reply within such ten (10) day period, then such request shall be deemed to have been denied by the Secured Party. Further, the Secured Party shall not have been deemed to have consented to any proposed license unless the Secured Party has provided such consent in a writing executed by a duly authorized representative of the Secured Party and delivered to the Grantor. The decision by the Secured Party on whether to grant or withhold its consent to a proposed license shall be made by the Secured Party in its sole and exclusive discretion, and the Secured Party shall have no obligation whatsoever to consent to any proposed license.

7.4 Places of Business.

Change its state of organization without the written consent of the Secured Party, which consent shall not be unreasonably withheld so long as such change will not result in the loss of the Secured Party’s security interest granted hereby or the perfection and priority of the security interest so granted.

8.2 Security Interest Absolute. All rights of the Secured Party hereunder, the security interest in the Collateral and all obligations of the Grantor hereunder shall be absolute and unconditional irrespective of (a) any lack of validity or enforceability of any of the Transaction Documents, any agreement with respect to any of the Obligations or any other agreement or instrument relating to any of the foregoing, (b) any change in the time, manner or place of payment of, or in any other term of, all or any of the Obligations, or any other amendment or waiver of or any consent to any departure from the Transaction Documents or any other agreement or instrument, (c) any exchange, release or non-perfection of any Lien on other collateral, or any release or amendment or waiver of or consent under or departure from any guarantee, securing or guaranteeing all or any of the Obligations, (d) the existence of any claim, set-off or other right which any Grantor may have at any time against any other Grantor or the Secured Party, whether in connection herewith or any unrelated transaction.

8.3 Severability.

If any provision of this Agreement shall be held invalid or unenforceable, such invalidity or unenforceability shall attach only to such provision and shall not in any manner affect or render invalid or unenforceable any other severable provision of this Agreement, and this Agreement shall be carried out as if any such invalid or unenforceable provision were not contained herein.

8.4 Expenses.

Upon any default by the Company under this Agreement, the Note or any other Transaction Documents, then the Company shall

reimburse the Secured Party promptly for all out-of-pocket fees, costs and expenses, including, without limitation, reasonable attorneys' fees and expenses incurred by the Secured Party in any action in connection herewith or therewith, including, without limitation, those incurred: (i) during any workout, attempted workout, and/or in connection with the rendering of legal advice as to the Secured Party's rights, remedies and obligations, (ii) collecting any sums which become due to the Secured Party in accordance with the terms of this Note, (iii) defending or prosecuting any proceeding or any counterclaim to any proceeding or appeal; or (iv) the protection, preservation or enforcement of any rights or remedies of the Secured Party.

8.5 Waivers, Amendments, Etc.

The Secured Party's delay or failure at any time or times hereafter to require strict performance by a Grantor of any undertakings, agreements or covenants shall not waive, affect, or diminish any right of the Secured Party under this Agreement to demand strict compliance and performance herewith. Any waiver by the Secured Party of any Event of Default shall not waive or affect any other Event of Default, whether such Event of Default is prior or subsequent thereto and whether of the same or a different type. None of the undertakings, agreements and covenants of a Grantor contained in this Agreement, and no Event of Default, shall be deemed to have been waived by the Secured Party, nor may this Agreement be amended, changed or modified, unless such waiver, amendment, change or modification is evidenced by an instrument in writing specifying such waiver, amendment, change or modification and signed by the Secured Party in the case of any such waiver, and signed by the Secured Party and the Grantor in the case of any such amendment, change or modification.

8.6 Continuing Security Interest. This Agreement shall create a continuing security interest in the Collateral and shall: (i) remain in full force and effect so long as any of the Obligations shall remain outstanding; (ii) be binding upon Grantor and its successors and assigns; and (iii) inure to the benefit of the Secured Party and its successors and assigns. Upon the payment or satisfaction in full of the Obligations, this Agreement and the security interest created hereby shall terminate, and, in connection therewith, Grantor shall be entitled to the return, at its expense, of such of the Collateral as shall not have been sold in accordance with this Agreement or otherwise applied pursuant to the terms hereof and the Secured Party shall deliver to the Grantor such documents as the Grantor shall reasonably request to evidence such termination.

8.7 Independent Representation.

Grantor acknowledges and agrees that it has received or has had the opportunity to receive independent legal counsel of its own choice and that it has been sufficiently apprised of its rights and responsibilities with regard to the substance of this Agreement.

8.8 Indemnification.

In addition to the indemnification provisions under the other Transaction Documents, Grantor hereby covenants and agrees to indemnify, defend and hold harmless the Secured Party and its directors, officers, shareholders, members, partners, employees and agents (and any other persons with a functionally equivalent role of a person holding such titles notwithstanding a lack of such title or any other title), each person who controls the Lender, and the directors, officers, shareholders, agents, members, partners or employees (and any other persons with a functionally equivalent role of a person holding such titles notwithstanding a lack of such title or any other title) of such controlling persons (each an “**Indemnified Person**”) of, to, and from any loss, judgment, liability, claim, cause of action, or demand, and all costs and expenses (including reasonable attorneys’ fees) which may be incurred, suffered, made, brought, threatened, or instituted by or against any person indemnified hereby for any reason whatsoever on account of, arising out of, or in any way relating to the actions or inactions of one or more of the Grantor, including without limitation (i) any matter, fact, event, or act or omission relating to the Collateral, and/or the Grantor’s maintenance and management of the Collateral, including any damage to the Collateral or claims threatened or brought against the Secured Party with respect to the Collateral and/or any of the Grantor’s acts and/or omissions in connection with the same, (ii) claims threatened or brought by one or more third parties against the Grantor, or any of its affiliates, (iii) claims threatened or brought by any party against the Secured Party, or any of its affiliates concerning or arising from the actions or inactions of any of the Grantor, the Collateral, and the Transaction Documents, this Agreement, or otherwise; and/or (iv) this Agreement. The Secured Party may defend any such claim, cause of action, or demand at the sole cost and expense of the Grantor, with counsel designated by the Secured Party and to the exclusion of the Grantor, or the Secured Party may call upon the Grantor to defend such action at the Grantor’s sole cost and expense. The Secured Party may, in the Secured Party’s sole and exclusive discretion, adjust, settle, or compromise any such claim, cause of action, or demand made upon the Secured Party, and the Grantor shall indemnify the Secured Party for any such amount so adjusted, settled, or compromised, as well as all costs and expenses (including attorneys’ fees) incurred in connection therewith.

8.9 Applicable Law: Jurisdiction.

All rights and obligations hereunder and thereunder, including matters of construction, validity, and performance, shall be governed by and construed in accordance with the law of the State of New York and are intended to take effect as sealed instruments. The Company hereby irrevocably submits to the exclusive jurisdiction of any federal or state court located within the State of New York., provided, however, that nothing herein shall prevent the Secured Party from enforcing its rights and remedies (including, without limitation, by filing a civil action) with respect to the Collateral and/or the Grantor in any other jurisdiction in which the Collateral and/or the Grantor may be located.

8.10 Non-Interference.

From and after the occurrence of an Event of Default, the Grantor agrees:

- (a) Not to interfere with the exercise by the Secured Party of any of its rights and remedies under this Agreement, the other Transaction Documents, and/or applicable law;
- (b) They shall not seek to distraint or otherwise hinder, delay, or impair the Secured Party's efforts to realize upon any Collateral or otherwise to enforce its rights and remedies pursuant to this Agreement, the Transaction Documents, and/or applicable law, and shall at all times cooperate with the Secured Party's exercise of its rights and remedies under this Agreement, the Transaction Documents, and/or applicable law; and
- (c) The provisions of this Section shall be specifically enforceable by the Secured Party.

8.11 Automatic Stay.

The Grantor agrees that upon the filing of any Petition for Relief by or against any of the Grantor under the United States Bankruptcy Code, the Secured Party shall be entitled to immediate and complete relief from the automatic stay with respect to such Grantor, and Secured Party shall be permitted to proceed to protect and enforce its rights and remedies under applicable law. The Grantor hereby expressly assents to, and covenants and agrees not to oppose, any motion filed by the Secured Party seeking relief from the automatic stay. The Grantor further hereby expressly **WAIVES** the protections afforded under Section 362 of the United States Bankruptcy Code with respect to the Secured Party.

8.12 Credit Bidding.

The Grantor hereby expressly acknowledges and agrees, in further consideration for the Secured Party entering into this Agreement, that the Secured Party shall be permitted to credit bid the Obligations at any auction and/or sale, including without limitation, at any auction and/or other sale conducted under or in connection with any of the sections or chapters of the United States Bankruptcy Code. The Grantor hereby further acknowledges and agrees that this provision is a material inducement to the Secured Party entering into this Agreement, and the Grantor has been represented by experienced counsel in connection with entering into this Agreement. The Secured Party, in turn, acknowledges that this paragraph shall not be construed as a restriction or prohibition on Grantor's respective rights to file any voluntary petition or make application for or seek relief or protection under the United States Bankruptcy Code.

8.13 Waiver of Jury Trial.

As a further inducement for the secured party to make financial accommodations to the companies or any grantor, grantor hereby waives, to the fullest permitted by applicable law, any right it may have to trial by jury in any legal proceeding related in any way to this agreement and/or any and all other documents related to this transaction.

The Grantor hereby grants to the Secured Party, a lien, security interest and right of setoff as security for all liabilities and obligations to the Secured Party, whether now existing or hereafter arising, upon and against all deposits, credits, collateral and property, now or hereafter in the possession, custody, safekeeping or control of the Secured Party or any of its affiliates, or any entity under the control of the Secured Party, or in transit to any of them. At any time, without demand or notice, the Secured Party may set off the same or any part thereof and apply the same to any liability or obligation of the Grantor even though unmatured and regardless of the adequacy of any other collateral securing the Obligations. Any and all rights to require the secured party to exercise its rights or remedies with respect to any other collateral which secures the obligations, prior to exercising its right of setoff with respect to such deposits, credits or other property of the grantor, is hereby knowingly, voluntarily and irrevocably waived.

8.15 Liability of Grantor.

Notwithstanding any provision herein or in any other Transaction Document, the Grantor, , is and shall be liable for any and all Obligations (whether any such Obligation is specified as an obligation of the Grantor or of any of them).

DISTRIBUTION AGENT AGREEMENT

This **DISTRIBUTION AGENT AGREEMENT**, dated as of November 20, 2016 (the “Effective Date”), by and among **MEDIVIE USA INC.** (“Medivie”), **THUNDER CROWD CAPITAL, LLC** (“TCC”) and **SONAGERI & FALLON, L.L.C.** (the “Distribution Agent”).

WITNESSETH:

WHEREAS, concurrently herewith, Medivie and TCC are entering into a Unit Purchase Agreement (the “UPA”) and other Transaction Documents pursuant to which TCC is purchasing a Unit from Medivie for a purchase price of U.S. \$250,000; and

WHEREAS, this Agreement is a condition to the UPA Agreement. Medivie and TCC desire to appoint Distribution Agent as agent for the purpose of holding and disbursing a total of U.S. \$200,000 of the purchase price on the terms set forth herewith.

NOW THEREFORE, in consideration of the premises and of the mutual covenants and agreements hereinafter set forth, and for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Medivie and TCC hereby agree as follows:

1.

Medivie and TCC hereby appoint and designate Sonageri & Fallon, L.L.C. as the Distribution Agent, and the Distribution Agent accepts such appointment and designation, upon the terms and conditions and for the purposes set forth in this Agreement. This Agreement sets forth exclusively the duties of the Distribution Agent with respect to all matters and no implied duties or obligations shall be read into this Agreement against the Distribution Agent.
2.

TCC will pay U.S. \$200,000.00 to the Distribution Agent. The Distribution Agent shall hold such funds in a non-interest bearing attorney trust account.
3.

(a)

Each of Medivie and TCC hereby authorizes the Distribution Agent to disburse funds from its attorney trust account in compliance with *Exhibit “A”* hereto.

(b) If a written objection is delivered to the Distribution Agent, Medivie and TCC hereby expressly agree and consent that the Distribution Agent has the right to deposit the money at issue with the New Jersey Superior Court, Chancery Division, Bergen County. Medivie and TCC acknowledge and agree that the Distribution Agent’s acting as Distribution Agent hereunder, and/or the institution of any action regarding the escrow money, shall not be deemed to create a conflict situation and that the Distribution Agent may represent TCC in any future dispute or matter including any dispute arising out of this Agreement.

4. The Distribution Agent shall act as a depository only, for the convenience of and at the request of Medivie and TCC, and is not a party to or bound by any other agreement, document or understanding to which Medivie and TCC are parties, and is not responsible or liable in any manner in its capacity as Distribution Agent for the sufficiency, correctness, genuineness or validity of any of the agreements or documents existing between Medivie and TCC. The Distribution Agent undertakes no responsibility or liability for the form and execution of such agreements and documents or the identity, authority, title or rights of any person executing any of such agreements and documents.

5. The Distribution Agent shall not be liable for any error in judgment or action which it may in good faith take or refrain from taking in connection herewith, believed by it to be authorized or within the rights and powers conferred upon it by this Agreement, except for its gross negligence or willful misconduct. The Distribution Agent may consult with counsel of its choice (including, without limitation, attorneys employed by it), and shall have full and complete authorization and protection for any action taken by it hereunder in accordance with the opinion of such counsel.

6. (a) The Distribution Agent shall be paid a one-time fee of \$2,000 for its services hereunder, which amount shall be deducted by the Distribution Agent from the escrowed funds. In addition, the Distribution Agent shall be entitled to recover all reasonable out-of-pocket expenses, disbursements and advances incurred or made by the Distribution Agent in performance of its duties (collectively, “Expenses”); provided, however, that such reimbursement shall be only such Expenses incurred in the Distribution Agent’s capacity as Distribution Agent and not as counsel to TCC and the Distribution Agent shall obtain the prior written consent (email included) of Medivie prior to incurring any Expenses in the aggregate of \$500. Subject to the foregoing, Medivie and TCC shall be equally, jointly and severally responsible for payment of all Expenses.

(b) Medivie and TCC agree, jointly and severally, to hold the Distribution Agent harmless from and against all expenses (including, without limitation, reasonable attorneys’ fees and expenses), losses, claims, damages or liabilities to which the Distribution Agent may become subject as such expenses, losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon any act taken or not taken by the Distribution Agent pursuant to this Agreement, except if such expenses, losses, claims, damages or liabilities result from gross negligence or willful misconduct by the Distribution Agent.

7. The Distribution Agent shall have the right to resign at any time upon five (5) days written notice to Medivie and TCC, and shall deliver the remaining money to such new escrow agent as shall be named by Medivie and TCC, or in the absence of the naming of a new escrow agent by Medivie and TCC, to the Court referred to in Section 3(b) hereof. Upon such delivery, the Distribution Agent shall be fully released and discharged from all obligations imposed on it under this Agreement, and Medivie and TCC shall remain fully liable to the Distribution Agent in accordance with the terms hereof.

8. (a) Notice to the Distribution Agent as required or provided for shall be made in writing and delivered as follows: (i) to the Distribution Agent at 411 Hackensack Avenue, Hackensack, New Jersey 07601, Attention: James L. Sonageri, Esq.; and (ii) to Medivie at 11319 Maple Street, Los Alamitos, California 90720, Attention: Joshua Rurka, President; and (iii) to TCC at 19183 SE Jupiter River Drive, Jupiter, Florida 33458, Attention: Troy J. Rillo, Esq.

(b) Notices shall be sent by personal delivery, in which case delivery shall be deemed to have been made on the date thereof; facsimile or overnight express courier, in each case with confirmed receipt, in which case delivery shall be deemed to have been made one day after the date thereof; or certified mail, return receipt requested, in which case delivery shall be deemed to have been made three days after the date thereof.

Scope of Project

Medivie Therapeutic Ltd (“**Medivie-IL**”) has engaged Fahn Kanne & Co. Grant Thornton Israel (“**Grant Thornton**”) to provide guidance for the inter-company transactions between Medivie-IL and its subsidiary Medivie (UK) Ltd (“**Medivie-UK**” located in the UK for fiscal year (“**FY**”) ended December 31, 2015.

Both Medivie-IL and Medivie-UK are referred to throughout this report as “**Medivie**” or the “**Company**” or the “**Group**.”

This guidance provided for the arm’s length standard has been completed using transfer pricing methods described in section 85A of the **Israeli Income Tax Ordinance - 1961** (the “**Ordinance**”) and the **Income Tax Regulations (Determining Market Conditions) - 2006** (the “**Regulations**”).

The opinions expressed in this report reflect information furnished to Grant Thornton by the management of Medivie. Although the data used in this report has not been independently verified in all cases, Grant Thornton considers the information used in the analyses herein to be reliable. However, no warranty is therefore given as to the accuracy of such information.

If there were any changes in the business practice of the Group, this report would necessarily need to be updated. In any event, Grant Thornton assumes no obligation to revise this report to reflect such changes or any other events or conditions that occur subsequent to the issue date of this report.

Finally, neither this report nor any portions thereof shall be disseminated to third parties by any means, except as required by law, without prior written consent and approval of Grant Thornton. Neither Grant Thornton nor any individuals associated with this report shall be required by reason of this report to provide testimony or to appear in court or at other legal proceedings, unless specific arrangements to do so have been made.

Executive Summary

Grant Thornton has been engaged to provide guidance for the inter-company pricing with regard to certain transactions between Medivie-IL and its subsidiary Medivie-UK, for FY December 31, 2015, and to provide guidance to determine the arm’s length range for these inter-company transactions.

To complete this analysis, Grant Thornton (i) undertook a functional, risk and asset analysis of the related parties that participate in the inter-company transactions and (ii) applied the transfer pricing rules as promulgated under section 85A of the Ordinance and the Regulations.

Medivie was established in England in 2012 as a private company, part of the global OPRO Group. On April 2014 it was merged into a publicly listed Israeli company and changed its name to Medivie Therapeutic Ltd (TASE: MDVI.TA)

Medivie relies on a broad research base, developing, manufacturing and marketing oral accessories based on innovative technologies, for treatment of pain during labor, treatment of migraines and improving concentration and cognitive abilities.

Related Party Transactions

This report considered the following inter-company transactions between the related parties:

- Medivie-UK’s license of technology to Medivie-IL for the purpose of production, ongoing development and worldwide sales (“**Transaction A**”);
- Medivie-UK’s provision of administrative sales support services (“**Transaction B**”); and
- Medivie-IL’s provision of an interest bearing line of credit to Medivie-UK (“**Transaction C**”)

Summary of Results

The information presented in this report relies on data received from Medivie management, and is based on Grant Thornton’s understanding of the inter-company transactions between Medivie-IL and Medivie-UK.

Transaction A

The Comparable Uncontrolled Price (“CUP”) method was applied as the selected method to evaluate the arm’s-length nature of royalty payments for Medivie-UK’s grant of a license to Medivie-IL for the use of IP to produce, further develop and sell and market Products worldwide.

Grant Thornton performed a search for comparable transactions between unrelated entities that have entered into similar IP licensing agreements to Medivie-UK and Medivie-IL. The arm’s length range of royalties as a percent of net sales is between 3.50% and 6.00% with a median of 5%. Grant Thornton recommends that for FY 2015, Medivie-IL should pay Medivie-UK a royalty rate that falls within this range based on net sales generated by Medivie-IL for the Laboraide Products, thus reflecting a reasonable application of the arm’s length standard.

Regarding future development and production of products, Grant Thornton located two agreements that refer to use of existing technology in newly developed Products and the royalties as a percent of net sales is between 1.5% - 3.00% with a median of 2.25%. Grant Thornton recommends that for FY 2015, Medivie-IL should pay Medivie-UK a royalty rate that falls within this range based on net sales generated by Medivie-IL for future developed Products, thus reflecting a reasonable application of the arm’s length standard.

Transaction B

The Comparable Profits Method (“CPM”) was applied as the selected method to evaluate the arm’s-length nature of the future provision of administrative services by Medivie-UK to Medivie-IL. Medivie-UK was analyzed as the tested party with regard to the inter-company transaction, since it is the tested party with the least complex functions.

A Profit Level Indicator (“PLI”) of Mark up on Total Costs (“MTC”) was selected as the most reliable method to evaluate the arm’s length nature of the provision of administrative services from Medivie-UK to Medivie-IL.

The three-year (FY11-13) weighted average unadjusted inter-quartile range of MTC’s is between 2.2% and 6.1% with a median of 4.3%. Grant Thornton recommends that for FY 2015 Medivie-UK achieve a MTC that falls within the inter-quartile range, reflecting a reasonable application of the arm’s length standard.

Transaction C

The Comparable Uncontrolled Price Method (CUP) method was applied as the selected method to evaluate the arm’s-length nature of interest payments for Medivie-IL’s grant of a line of Credit to Medivie-UK.

Grant Thornton used an internal CUP that existed between NatWest Bank and Medivie-UK that was in place during the time of the grant of a line of credit.

After making an adjustment using the SWAP function in Bloomberg which converted the floating GBP interest to the fixed NIS equivalent, the result was a range of interest rates between 3.53% and 8.11%. Grant Thornton recommends that Medivie-IL should charge Medivie-UK an interest rate that is close to the mean rate of 5.82% fixed interest per annum, reflecting a reasonable application of the arm’s length standard.

Grant Thornton recommends testing current operations at least every year to monitor inter-company charges and adjust them, as necessary. In addition, Medivie-UK and Medivie-IL should review the factual materials presented in this report to ensure that it fairly represents the true nature of inter-company functions and transfers, due to the importance of the functional and risk analysis to select an appropriate pricing method and select comparable companies.

Business Overview

Medivie

Medivie was established in England in 2012 under the name of Opro Mother and Baby (later name was changed to Medivie (UK) Ltd) by Anthony Lovat, the founder of the OPRO Group, together with Capital International. During the past 20 years OPRO Group has become a world leader in developing and manufacturing dental protectors adapted for sports. Capital International is a financial services Company with vast experience in the global capital market, structured investments through partnering with leading global banks and is active in global real estate projects.

In April 2014 Opro Mother and Baby, merged into the shell company of Glycominds Ltd a publicly traded Company located in Israel. Glycominds Ltd is a medical device company that developed and commercialized autoimmune and chronic inflammatory disease management tools and services. Glycominds Ltd changed its name to Medivie Therapeutic Ltd (Medivie-IL) and is listed on the TASE (Tel Aviv Stock Exchange) as MDVI.

The OPRO Group has initially developed Laboraide, a Dental Support Device (DSD) using unique technology to help cope with the pain of childbirth and reduce the time of labor. As part of the founder agreement, all developments, pending patents and IP related to Laboraide or any other field excluding sports, were fully assigned to Medivie UK and, therefore, Medivie-UK owns all the intellectual property relating to this Product and the underlying technology. Medivie-IL is responsible for future registration of Patents and/or trademarks. Medivie-IL will pay for all future maintenance of these patents as part of its license agreement. During 2013, Medivie-UK started marketing and distributing Laboraide for use during childbirth.

Medivie-IL is entering into a royalty bearing licensing agreement with Medivie-UK that will grant Medivie-IL the right to produce, sell and use the technology to further develop Products. Medivie-IL will continue development of DSDs in the following fields:

1.

Childbirth
Laboraide is a DSD developed by Medivie-UK designed to help cope with the pain of childbirth and reduce the time of labor. This is currently marketed and sold worldwide and Medivie-IL will be responsible for all future sales.
2.

Migrainaide
This is in a development stage that will facilitate the relaxation of the head muscles, prevent the contraction of the jaw muscles and increase blood flow to the brain for the prevention and relief of migraines to help cope with the pain of childbirth and reduce the time of labor.
3.

Concentration & Cognitive Abilities (ADHD)
This is in a development stage to develop a Product that will allow the exertion of the appropriate pressure in the jaws in order to improve concentration and cognitive activity.
4.

Development of Mouth & Gums
This is in a development stage to develop modular pacifiers that assist with the correct growth of the child’s mouth structure and prevent future damage to the gums and teeth of the child.

Medivie-IL

Medivie-IL (previously Glycominds Ltd) was founded in 1998 and is an Israeli Company that is listed on the TASE. Medivie-IL is entering into a royalty bearing agreement with Medivie-UK to license the technology that has been developed by Medivie-UK to use the technology to produce, further develop and market and sell Products worldwide. The arm’s length royalty rate will be determined during the course of this report.

Medivie-IL will sell the current product Laboraide worldwide and is currently developing further the Migrainaide product and plans to market and sell it in 2015. These will undergo clinical trials and regulatory approvals such as CE and FDA will be obtained all financed by Medivie-IL. The latter Products are based on the underlying technology developed by Medivie-UK. Since Medivie-IL will finance all future R&D activities, Medivie-IL will become the owner of all related future IP (“future IP”).

All production, design and future development is being outsourced to Aran Research and Development Ltd, located in Israel and Medivie-IL is the entity that has contracted with them for their services. Production for Laboraide was previously carried out in the UK by an unrelated party.

Existing local unrelated distributors for the Laboraide Products distribute products to pharmacy & nursery chains, hospitals & clinics, pre-natal centres, and websites of local distributors. Sales will also be conducted through direct online marketing. Medivie-IL plans to expand its current network of distributors.

There is an interest bearing line of credit that was granted from Medivie-IL to Medivie-UK in May 2014 to finance production and other ongoing expenses. This will be in place for three years. This is analyzed further to determine the arm’s length rate of interest.

Medivie-IL as well as employees of the Company contracts with doctors and various service providers such as business consultants and accountants.

Medivie-UK

Medivie-UK (previously Opro Mother and Child) was founded in 2012 and is located in the UK. Medivie-UK was responsible for the development and production of Laboraide, a Dental Support Device (DSD) using unique technology designed by Medivie-UK to help cope with the pain of childbirth and reduce the time of labor. Medivie-UK owns all the intellectual property relating to this Product and the underlying technology. During 2013, Medivie-UK started marketing and distributing Laboraide for use during childbirth.

Medivie-UK and Medivie-IL are entering into an agreement whereby Medivie-UK will license its technology to Medivie-IL for the right to produce, further develop and market and sell Products worldwide as discussed throughout the report.

Medivie-IL will be responsible for worldwide sales of both Laboraide and future Products. However in circumstances where countries do not wish to transact with Israel for political reasons, sales will be conducted through Medivie-UK for certain non Israeli markets. Medivie-UK will issue invoices and sign sales agreements on behalf of Medivie-IL in its own name with clients. All risks will remain with Medivie-IL in these transactions. These revenues will be recorded in Israel. In issuing invoices on behalf of Medivie-IL, Medivie-UK will be providing administrative sales support services to Medivie-IL and will be reimbursed on an arm’s length cost plus basis to be determined in this report. It is unknown at this stage how material these sales will be or the exact nature of this activity and Grant Thornton advises that the transfer pricing policy is reviewed periodically and updated accordingly.

There are currently no employees in Medivie-UK.

Medivie Products

Medivie started marketing its first product ‘Laboraide’ in 2013. The product reduces pain & time of labor. Laboraide is a natural, non invasive oral device. The product received positive reviews from both women and the surrounding medical community (doctors, nurses, midwives).

In recent years there has been a massive increase in public awareness of alternative medicine, natural therapies and, more specifically, natural childbirth; principally avoiding caesarean surgery and the use of painkilling medication due to the side effects associated with it.

Laboraide is an innovative Dental Support Device (DSD) that limits the contraction of the jaws during labor, a fact that has been scientifically proven to be linked with the ability to reduce the feeling of pain, as well as shortening childbirth time.

Laboraide was tested by hundreds of women in studies and surveys, and was found to be helpful for women during the advanced stages of pregnancy and childbirth in two areas:

Pain

Reduces stress during labor and helps deal with the pain .

Time

Allows relaxation of the jaw, neck, and back muscles, and increases the isometric strength of the pelvic and core muscles, allowing efficient and targeted contractions which shortens the duration of labor.

Laboraide has the necessary regulatory permits to be marketed in the U.S., Canada and Europe (CE).

Laboraide is made of a flexible material that has no smell and/or taste and thus is ideal for use in the mouth: it fits naturally between the teeth and does not interfere with breathing, speaking, or any other activity during labor.

Laboraide comes in different thicknesses to enable the woman to use the device which best fits the structure of her mouth.

Medivie has a global distribution network for Laboraide in Asia, Latin America and Europe. The Company has the required regulatory permits for the distribution of Laboraide in the US, Europe and Canada and is currently exploring the US and Canada as potential markets and looking at ways to penetrate these markets. Medivie intends to continue expanding its marketing and distribution operations, both online and through local distributors. At the time of writing this report, Medivie-IL has entered into a Memorandum of Understanding (MOU) with Sinopharm, one of the largest pharmaceutical companies in China and sales are expected in 2015.

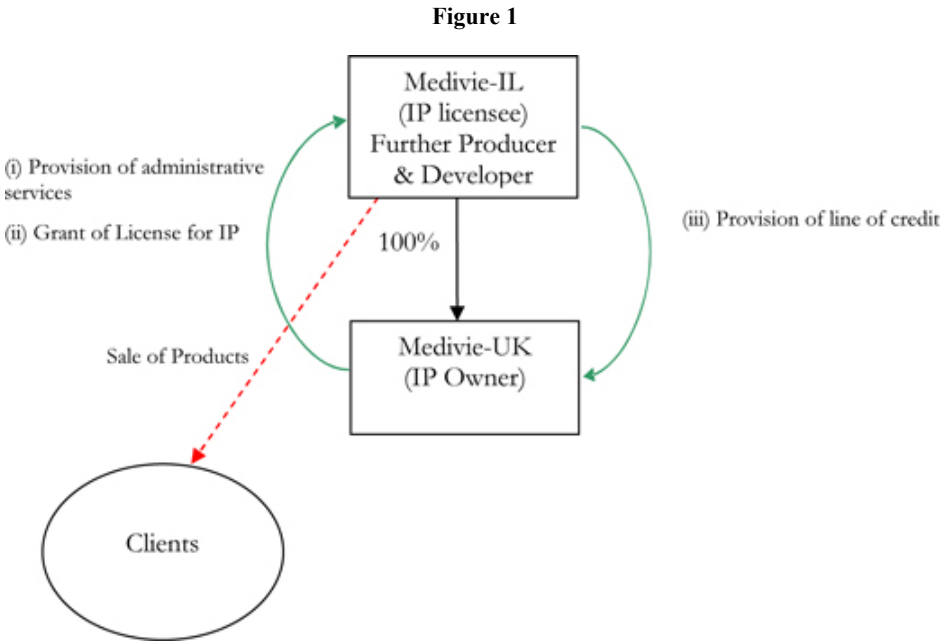

The migraine field, which has high clinical potential, has been selected by Medivie as a leading research subject for the year 2015 with sales planned at last quarter of 2015. The Product is planned to be named Migrainaide and is based on technology developed by Medivie-UK. As a consequence, Medivie IL will be working on the ongoing development of a dedicated DSD that will facilitate the relaxation of the head and jaw muscles and increase blood flow to the brain for the prevention, treatment and relief of migraines.

Also in the pipeline for future developments are Products that will allow the exertion of the appropriate pressure in the jaws in order to improve concentration and cognitive activity known as ADHD and product for Mouth & Gums that will develop modular pacifiers that assist with the correct growth of a child’s mouth structure and prevent future damage to the gums and teeth of the child. Medivie-IL is financing this development and will result future IP related to this Product.

Organizational Structure

Figure 1 below illustrates the relevant organizational structure of the Group and relevant inter-company transaction.

Industry Overview¹

The industry that Medivie currently operates in is the ‘Birth support services & pain reduction market’.

There are various “Pregnancy & childbirth support” services in the market, all intended to give the mother a sense of control and calmness throughout the pregnancy and birth.

Products pertaining to pregnancy & childbirth:

- Perineum oil – for prevention of surgical intervention at the entrance to the birth canal.
- Stretch marks prevention cream – for prevention of remaining abdominal stretch marks.

Existing solutions to pain:

- Chemicals (epidural, pethidine).
- Shower.

Migraine is a common form of headache and may appear in varying degrees of severity up to completely incapacitating the sufferer.

About 12% of the world adult population suffers from migraines. Existing treatment methods offer effective relief to about 60% of suffering patients.

The migraine market was assessed at USD 3.3 billion in 2011 and is expected to rise to USD 5.8 billion in 2021²

The most common treatment is medication, yet this treatment is not effective for all those who suffer.

Functional Analysis

The purpose of the functional analysis is to present the functions, risks and intangibles of the related companies that will be used to identify comparable, uncontrolled transactions. The following points highlight why a functional analysis is essential to the development of a transfer-pricing policy. The functions undertaken by each related party typically correlate with the extent to which that entity bears risk and is responsible for developing intangible assets.

- The functions, risks and intangible assets associated with a related party’s operations usually should have a significant effect on its profitability.
- The functional analysis is the basis for the search for comparable transactions or companies by providing information to identify unrelated transactions or companies with functions, risks, and intangibles sufficiently similar to those of the controlled party.
- Arm’s length transfer pricing is determined by a review of the relevant data (e.g., transactional or financial) for the unrelated companies with functions, risks, and intangible assets sufficiently similar to those of a related party.

The determination of the functions performed and risks assumed is based on a review of documents and analyses provided by Medivie as well as interviews conducted with its management.

Medivie-UK

Medivie-UK was established in 2012 and is located in England. There are currently no employees.

The OPRO Group has initially developed Laboraide, a Dental Support Device (DSD) using unique technology to help cope with the pain of childbirth and reduce the time of labor. As part of the founder agreement, all developments, pending patents and IP related to Laboraide or any other field excluding sports, were fully assigned to Medivie UK and, therefore, Medivie-UK owns all the intellectual property relating to this Product and the underlying technology. Medivie-UK licenses its IP to Medivie-IL and receives royalties as compensation. Medivie-UK has pending patents relating to the Laboraide Products. Medivie-IL is responsible for future registration of Patents and/or trademarks and will pay for all future maintenance of these patents as part of its license agreement. During 2013, Medivie-UK started marketing and distributing Laboraide for use during childbirth.

Medivie-IL will be responsible for the worldwide sales of Products. However in circumstances where countries do not wish to transact with Israel for political reasons, it is expected that in the future sales will be conducted through Medivie-UK for certain non Israeli markets. Medivie-UK will issue invoices and sign sales agreements on behalf of Medivie-IL in its own name with clients. All risks will remain with Medivie-IL in these transactions. These revenues will be recorded in Israel. In issuing invoices on behalf of Medivie-IL, Medivie-UK will be providing administrative sales support services to Medivie-IL and will be reimbursed on an arm’s length cost plus basis to be determined in this report for these services. It is unknown at this stage how material these sales or the exact nature of this activity and whether Medivie-UK will employ or contract with people/Companies and Grant Thornton advises that the transfer pricing policy is reviewed periodically and updated accordingly.

There is an interest bearing line of credit that was granted from Medivie-IL to Medivie-UK in order to finance production, existing debt and some other ongoing expenses. The line of credit was effective from May 1st 2014 for 3 years. The value of the line of Credit is for approximately 1.2 million New Israeli Shekels with the option to increase that amount under the same terms and conditions. Interest is being calculated on a quarterly basis. The arms length interest is being determined in this report.

Medivie-IL

Medivie-IL is responsible for licensing the technology from Medivie-UK to produce, further develop, market and sell Products worldwide.

Medivie-IL as well as employees of the Company contracts with doctors and various service providers such as business consultants and accountants.Below are the functions of Medivie-IL;

Corporate Management

Medivie-IL employs all the senior management including the CEO, Chairman, CFO, Chief Scientist and VP Business and Development who are responsible for operations and finance of the Group, the marketing and sales strategy and product development and production strategy. Medivie-IL as the licensee of the technology decides the general direction and leadership of the Group and sets the Group’s global strategy, road map, and budget.

Further Development and Production

Medivie-IL will be further developing and producing new Products under the license agreement it is entering into with Medivie-UK. Medivie-IL will finance all future R&D activities and will become the owner of all related future IP (future IP).

Medivie is currently developing the Migrainaide product and plans to market and sell these in 2015. These will undergo clinical trials and regulatory approvals such as CE and FDA will be obtained. The latter Products are and will be based on the underlying technology developed by Medivie-UK.

All production, design and future development is being outsourced to Aran Research and Development Ltd, located in Israel. Aran is an Israeli public company traded on the Tel-Aviv Stock Exchange (TASE). Established in 1982, the Aran employs a 140-strong workforce, consisting mainly of engineers, product designers, and technicians. Aran deals in three main areas of activity: Product development, engineering and manufacturing services.

Medivie-IL is the entity that has contracted with Aran and finances their services to Medivie. Medivie-IL is overseeing this entire process and gets the final say on Product development and manufacturing.

Sales and Marketing

Sales are performed or will be performed through unrelated distributors. All distributors will be selected by Medivie-IL and contracts will be entered into with Medivie-IL with Medivie-IL overseeing the sales activity of the distributors. Existing local unrelated distributors for the Laboraide Products distribute products to pharmacy & nursery chains, hospitals & clinics, pre-natal centres, and websites of local distributors. Sales will also be conducted through direct online marketing. Medivie-IL plans to expand its current network of distributors.

The Company’s marketing model is creating strategic partnerships with leading distribution companies in a territorial division. Most distribution agreements require purchasing an annual minimum quantity of units and an offline/online marketing & advertising strategic plan.

Medivie-IL has recently signed MOU with Sinopharm one of the largest and leading distributors of medical products in China with a sales turnover estimated at around 33 billion USD per annum.

The Company has the required regulatory permits for the distribution of Laboraide in the US, Europe and Canada and is currently exploring the US and Canada as potential markets and looking at ways to penetrate these markets.

Assets Employed

Tangible assets

Medivie-IL operates from rented offices situated in Raanana in Israel and is the owner of standard office equipment.

Medivie-UK owns no significant tangible assets.

Intangible assets

Medivie-UK holds the IP to the technology. The production, further development and global marketing and sales will be conducted by Medivie-IL as the licensee of the technology. Medivie-IL will finance all future R&D activities and will become the owner of all related future IP (future IP).

Risks Assumed

Research & Development Risk

The market in which Medivie operates in is characterized by rapid technological change, frequent new product introductions, changes in customer requirements and evolving industry standards. Medivie-IL will finance all aspects of future R&D and patent applications related to the Products it wishes to sell. It is therefore imperative for Medivie-IL to continually contribute to the development of innovative products relating to the Dental Support Devices (DSD). As such, the R&D required, carries potentially large costs, which will be borne by Medivie-IL. In addition, failure to meet R&D budgets and timetables may jeopardize the price competitiveness of Medivie-IL’s products and subsequently affect the entire company’s sales. Medivie-IL bears all risks relating to its future R&D activities, including the cost of product failure, due to its status as the licensee of the intangible property and future owner of IP.

Market Risk

Market risk includes decline in sales due to demand conditions within the market, or the inability to further develop the market. Uncertainties in the market also include fluctuations in cost of raw materials, pricing, and inventory levels.

If for some reason, the market for Medivie’s products decline, both Medivie-IL’s and Medivie-UK’s income will decrease. Therefore, both entities share the market risk as Medivie-UK is the owner of the IP and Medivie-IL is the licensee of this technology being responsible for success or failure of marketing strategy and distribution.

Currency Fluctuation Risk

Currency Fluctuation risk relates to the potential variability of profits that can arise because of changes in foreign exchange rates.

The royalties are paid as a percentage of revenue calculated in ILS and transferred in GBP according to the end period exchange rate and so therefore both Medivie-IL and Medivie-UK can be subject to exchange rate losses.

Product Warranty/Liability Risk

Product liability and warranty risk arises when a company’s products fail to perform at contractual standards and the company is required to correct defective product performance. A product liability claim could result in costs to a company’s reputation, and consequently in a decline in revenues. As the licensee of the technology relating to the Products and the financier of future development and all production, and the entity that provides the warranty, Medivie-IL bears the risks related to any contingency suffered by the products concerning the quality of the product sold on its general sales and sales to clients through its channel partners. Medivie-IL has taken out product liability insurance.

Inventory Risk

Inventory risk relates to the losses associated with carrying finished product and raw material inventories. Losses include obsolescence, shrinkage, or market collapse such that products are only saleable at prices that produce a loss. Medivie-IL bears these risks as they are the licensee of the IP and responsible for production and the sales and marketing of the Products.

Income Tax Regulations (Determining Market Conditions) – 2006

“By virtue of my powers pursuant to §§ 85A(e) and 243 of the Israeli Income Tax Ordinance (hereinafter – the “Ordinance”), and with the approval of the Finance Committee of the Israeli Parliament, I hereby regulate the following regulations:

- (1) A transaction between the party being examined and someone with whom he does not have a special relationship, in which the comparative characteristics, all or most, are identical with the comparative characteristics of the international transaction;

“Profit margin” – The margin of profit or loss, as applicable, to be determined on the basis of one of the following methods:

 - (b) The ratio between the income or the loss, where applicable, and the assets, liabilities, or equity, in whole or in part, where applicable;
 - (c) A different profit index, the most applicable to the circumstances.

2. Determining market conditions

- (A) For purposes of determining if the international transaction that was carried out is a market condition transaction, an investigation of the market conditions shall be conducted, in which the international transaction should be compared to similar transactions of the party being examined, on the basis of one of the following methods:
 - (1) A method that compares the price determined in the international transaction and the price determined in a similar transaction (Comparable Uncontrolled Price Method);
 - (2) In the event that the price comparison method cannot be implemented – according to one of the following comparison methods, the most appropriate under the circumstances:
 - (a) A method that compares the profit margin of the international transaction to that of a similar transaction; (Cost Plus Method, Resale Price Method, or Transactional Net Margin Method/ Comparable Profits Method)
 - (b) A method that compares between the international transaction and a similar transaction, based on the division of income or loss between the parties to a joint activity, taking into consideration the contribution of each party to the transaction, including his exposure to risks and his rights to assets connected to the transaction; (Profit Split Method)

- (3)

In the event that it is not possible to apply the price comparison method or one of the other methods set out in subparagraph (2) – a different method, more suitable under the circumstances, that compares the international transaction to a similar transaction. (Unspecified Method)
- (B)

An international transaction will be viewed as a market condition transaction if, further to a comparison based on the similar transaction comparison, the results obtained did not deviate from the inter-quarterly range obtained in a comparison to similar transactions, but – if the comparison method was the price comparison method, and no adjustments were made to neutralize the impact of the difference on the comparative characteristics, the transaction will be viewed as a market condition transaction of the price did not deviate from the range of values in similar transactions.
- (C)

In the event that the international transaction cannot be viewed as a market condition transaction, as per sub-regulation (B), the price of the transaction shall be reported on the basis of the value found in the 50th percentile of the range of values.
3.

Special provisions regarding the comparison to similar transactions
- In comparing similar transactions, the following provisions shall apply:
- (1)

Similar transactions shall be selected for comparison on condition that they were carried out less than three tax years prior to the transaction being tested;
- (2)

All of the similar transactions that were carried out by the similar party during the three tax years that preceded the year in which the international transaction was carried out shall be considered as one transaction, unless it can be proved to the satisfaction of the tax assessing officer that during those years, in whole or in part, or in the years preceding or following those years, there was a significant change in the comparative characteristics in respect of which only part of the similar transactions should be viewed as one similar transaction;
- (3)

The price, profit margin, division of income as per regulation 2(A)(2)(b), or other method mentioned in regulation 2(A)(3), as applicable, in similar transactions which are viewed as a single similar transaction as per subparagraph (2), shall be the average price, the average profit margin, average division of income or the average results obtained from a different method, as applicable, in all of the similar transactions that are viewed as a single similar transaction;
- (4)

The comparison between the international transaction and the similar transactions shall be made on the basis of the same method.
4.

One time transactions
- Regulations 2 and 3 shall not apply to a one-time international transaction that was approved by the tax assessing officer as a one-time transaction and the transaction shall be reported as if the price or the conditions were determined, as applicable, between parties not having a special relationship.
5.

Report on the investigation of market conditions
- (A)

- (9) The manner in which the transaction is reported abroad, including as part of a request for a pre-ruling, if filed, and a report on the data of the transaction in the foreign country, and whether there was a discrepancy between the reporting abroad and the reporting in Israel – explanations regarding the existence of such discrepancy.
- (B) The following items shall be attached to the report mentioned in sub-regulation (A): transaction contracts, other contracts between the parties with which a special relationship exists, other documents to verify the information provided, an investigation of the market conditions, and an analysis of the transfer prices and market conditions that were set out in accordance with these regulations, an investigation of the market conditions or an assessment that were made for purposes of a filing with a foreign tax authority, the report that was filed in a foreign country, any determination made by the tax authority, and the opinions of an accountant and an attorney if such were rendered.
- (C) For purposes of a taxpayer that is a party to an international transaction to which the provisions of regulation 4 apply, the provisions of sub-regulations (A)(1) – (7), (9) and (B) shall apply. 6. Transition provision

These regulations shall apply to an international transaction that was conducted on or after the date the regulations were publicized. However, an investigation of market conditions that was conducted prior to the publication of the regulations shall be viewed as having been done in accordance with the regulations, for a period of two years following the date of publication, on condition that it was conducted in accordance with accepted guidelines that were issued by the OECD organization or members states of that organization.”

Selection of Method According to the Regulations

The Regulations set out the arm’s length standard, the documentation requirements and the transfer pricing methods that will be relied upon in determining whether an arm’s length price has been established.

In addition, the Regulations stipulate that for purposes of determining if the international transaction being carried out is a market condition transaction, an investigation of the market conditions shall be conducted on the basis of one of the following methods and according to the following hierarchy:

- (1) A method that compares the price determined in the international transaction and the price determined in a similar transaction (**Comparable Uncontrolled Price Method**);
- (2) In the event that the price comparison method cannot be implemented – according to one of the following comparison methods, the most appropriate under the circumstances:
 - (a) A method that compares the profit margin of the international transaction to that of a similar transaction; (**Cost Plus Method, Resale Price Method, or Transactional Net Margin Method**);
 - (b) A method that compares between the international transaction and a similar transaction, based on the division of income or loss between the parties to a joint activity, taking into consideration the contribution of each party to the transaction, including his exposure to risks and his rights to assets connected to the transaction; (**Profit Split Method**);
- (3) In the event that it is not possible to apply the price comparison method or one of the other methods set out in subparagraph (2) – a different method, more suitable under the circumstances, that compares the international transaction to a similar transaction. (**Unspecified Method**).

Economic Analysis – Transaction A

In FY 2015, Medivie-IL has entered into a license agreement to license IP from Medivie UK for further development, production and sales of Products. Medivie-IL will pay Medivie-UK a royalty.

The arm’s length standard requires related companies to conduct inter-company transactions as if they were unrelated. Grant Thornton searched for uncontrolled transactions similar to the transaction between Medivie-IL and Medivie-UK. The objective of this search was to identify comparable transactions giving rise to arm’s length prices or levels of profitability that can be attributed to Medivie-IL and Medivie-UK in the transaction under review.

Selection of transfer pricing method

Comparable Uncontrolled Price Method (“CUP”)

The application of the CUP method requires identification of a transaction between controlled and uncontrolled parties that is comparable in nature to the grant of license by Medivie-UK to Medivie-IL. The primary issue of concern in the CUP methodology is having uncontrolled transactions that are sufficiently similar in terms of geographic location, products, contractual terms, and other business conditions to the transaction under analysis. The circumstances surrounding that provision of rights, or the transactions must be so similar that reliable adjustments can be made to account for the effect on price of any differences between the transactions.

External CUP data exists for such IP licensing transactions. Grant Thornton Israel performed a search for comparable transactions between unrelated entities that have entered into similar IP licensing agreements.

The Israeli Transfer Pricing regulations prefer the CUP over all other methods when available. Since the Israeli Regulations show a preference to the CUP method, further analyses of other methods was not required and were rejected in favour of the CUP method. Therefore, the CUP method can be applied to determine the appropriate pricing for the grant of an IP license between Medivie-IL and Medivie-UK.

In order to identify potential similar IP licensing transactions, Grant Thornton performed a search using KtMine³, to determine an appropriate royalty to be charged between Medivie-IL and Medivie-UK for the license agreement.

To identify the comparable IP licensing transactions/agreements, Grant Thornton performed a search including the following search steps;

³ KtMine is an interactive intellectual property database that provides direct access to royalty rates, actual license agreements and detailed agreement summaries.

Operator	#	Filter	Criteria
	1	Agreement Type	DISTRIBUTION, MANUFACTURING/PROCESS INTANGIBLE Edit Delete
AND	2	Exclusivity	EXCLUSIVE Edit Delete

AND	4	Document Summary	MARKET" OR "SALE" OR "DISTRIBUTE" OR "SELL Edit Delete
AND	5	Document Summary	MANUFACTURE" OR "DEVELOP Edit Delete
AND	6	Royalty Rate	VARIABLE LICENSE NET SALES GREATER THAN 0% Edit Delete

The above search steps resulted in 186 potential comparable license agreements.

Grant Thornton reviewed the potential comparable IP licensing agreements and examined contractual comparability (further development, right to manufacture and sell), special relations between potentially comparable licensee and licensor (i.e. related or controlled parties), date of agreement, royalty base, any milestone payments and contractual terms that are comparable to the controlled transaction. Finally, Grant Thornton identified 12 comparable licensing transactions.

Economic Analysis Results

The results of the 12 comparable software licensing transactions identified through Grant Thornton’s research to determine the appropriate arm’s-length royalty range within which Medivie-IL and Medivie-UK should operate as a percentage of net sales is presented below;

No.	Synopsis	Licensor	Licensee	Value	Common Base
1	Grant the right to use and sublicense the Technology (all knowledge, know-how and/or technique or techniques related to the patents: “Compensation for Variability in Specific Binding in Quantitative Assays” and “Sensitive Immunochromatographic Assays”) and any Improvements and to manufacture, distribute, and sell Products.	THE UNIVERSITY	RESPONSE OF BRITISH BIOMEDICAL COLUMBIA	2%	Net Sales
2	Grant the right to use the Mykrolis Licensed Patents to make, have made, use, sell or otherwise dispose of Products in the MIL Field of Use (means BIOPHARM including pharmaceutical/biotechnology and genetic engineering companies as well as manufacturers of cosmetics, medical devices, diagnostic products and clinical analytical products; LAB & LIFE SCIENCE RESEARCH including government, university and private research and testing analytical laboratories for proteomic, genomic, microbiological, environmental and other such areas; and FOOD & BEVERAGE including companies that manufacture or process foods and beverages including dairy products, beer, wine, juice and soft drink manufacturers and bottled water companies).	Mykrolis Corporation	Millipore Corporation	5%	Net Sales
3	Grant the right to develop, manufacture, use, sell, and otherwise practice the licensed patents (United States Patents 5,338,662 and 5,494,822, and Patent No. 4,745,759 and rights to the 510K FDA for Patent No. 4,745,759), licensed products (the LifeSustainer™ 1000, 2000, and 3000 devices, together with their associated components and subcomponents.), and intellectual property.	Bio-Preserve Corp.	Life Systems Medical Corporation	7%	Net Sales

A royalty rate that falls within the arm's length range established above should be considered to meet the arm's length principle.

It should be noted that during the search that was performed two agreements were located that provide a royalty rate in cases where future Products are developed by the licensee and which incorporate the licensed IP. This could be indicative of arm’s length royalty rate for future Migrainaide and ADHD Products that are currently being developed by Medivie-IL but which incorporate technology owed by Medivie-UK. The results of these two agreements are below;

AgreementID		Licensors	Licensees	Value	Common Base
54393	On all newly designed non-Cathlab products designed and manufactured by MRI using ABMI’s patented balloon cardiovascular technology which are sold during the term of this Agreement, MRI shall pay to ABMI a royalty interest on the net receipts received from such sales by MRI as follows: Annual Net Receipts: 0 - \$2,000,000; Royalty Percentage: 2.5%	American BioMed Inc.	Manufacturing and Research, Inc.		2.50% net receipts
54393	On all newly designed non-Cathlab products designed and manufactured by MRI using ABMI’s patented balloon cardiovascular technology which are sold during the term of this Agreement, MRI shall pay to ABMI a royalty interest on the net receipts received from such sales by MRI as follows: Annual Net Receipts: \$2,000,000 +; Royalty Percentage: 1.5%				1.50% net receipts
10072	of any disposable blade products which are manufactured by Licensee and which incorporate the Product into the blade.	Scott Dahlbeck,	M.D.CNS, Inc.		3% Net Sales

A royalty within the range of 1.5% - 3.0% established above for future developed Products by Medivie-IL incorporating IP of Medivie-UK should be considered to meet the arm’s length process.

Economic Analysis – Transaction B

In FY 2015, Medivie-UK is expected to provide administrative sales support services to Medivie-IL. These services are beneficial in nature. If the above services would not have been provided to Medivie-IL by Medivie-UK, Medivie-IL would have been required to hire a third party contractor for provision of such services.

The arm’s length standard requires related companies to conduct inter-company transactions as if they were unrelated. Grant Thornton searched for uncontrolled transactions similar to the transaction between Medivie-UK and Medivie-IL. The objective of this search was to identify comparable transactions giving rise to arm’s length prices or levels of profitability that can be attributed to Medivie-IL and Medivie-UK in the transaction under review.

In order to determine the appropriate return Medivie-UK should earn for the provision of administrative support services to Medivie-IL, Grant Thornton relied on the Comparable Profits Method (“CPM”) also known as the Transactional Net Margin Method (“TNMM”). The application of the CPM involves establishing a range of profit level indicators (“PLI’s”) for selected comparable firms that provide comparable services. In this analysis, Grant Thornton applied the Mark-up on Total Costs (“MTC”) (operating profit/total costs) as the PLI. Medivie-UK was chosen as the tested party for this transaction as it is the entity with the least complex functions and does not own valuable intangibles related to the provision of its services.

Selection of Comparable Independent Companies

The search process performed herein involved identifying companies engaged in similar activities to those performed by the tested party in the course of the inter-company transactions under review.

Grant Thornton’s research methodology to identify comparable companies involved a number of steps that evaluated both qualitative and quantitative factors comprising the following:

- Identifying potentially comparable companies;
- Determining adequacy and viability of financial data;
- Examining development or ownership of intangible assets; and
- Establishing functional comparability.

The search process performed herein involved identifying companies located in Europe engaged in similar activities to those performed by the tested party in the course of the inter-company transaction under review. To determine what an appropriate level of profit should be for provision of the tested party services, Grant Thornton performed a search using Thomson Reuters One Source database⁴ for comparable administrative providers (who provide invoicing services, back office services, secretarial services, payroll services, sales/business process support, customer support services and data processing entry services) similar to the nature of services that will be provided by Medivie-UK.

⁴ Thomas Reuters uses the following databases; Thomson Reuters Fundamentals, published September 2014.

Grant Thornton searched for companies in the following US SIC and NAICS 2012 codes:

The above steps produced a sample of 240 potentially comparable companies for further review.

Determine Adequacy of Financial Data

The next step in the search process eliminated inactive companies, companies with less than two consecutive years of positive operating profit, or companies that did not have sufficient financial data for purposes of this study. Companies with insufficient business descriptions were also eliminated. The sample companies’ income statements in the databases were examined to ensure that they had three years of financial data from 2011 to 2013. This research step produced a sample of 176 potentially comparable companies for further review.

Establish Functional and Product Comparability

Grant Thornton reviewed the short business descriptions, websites and annual returns where available for the remaining 176 companies to establish whether the companies performed functions similar to those that Medivie-UK will perform. To identify comparable independent administrative support service providers, a search was conducted to identify companies fitting the following criteria:

- Perform services comparable to those of Medivie-UK;
- Do not own, use or develop non-routine intangible assets related to the transaction;
- Provide services in markets with demand conditions similar to those faced by the tested party;

The functional and risk evaluation increased the probability that the final set of comparable companies faced similar market and business risks and would produce reliable economic results consistent with those generated by independent comparable companies. After a review of their business descriptions, 167 companies were eliminated.

Grant Thornton then examined the remaining nine companies’ profit and loss statements for further qualitative analysis, and this comprehensive examination rejected no companies, leaving a final set of nine comparable service providers.

Economic Analysis Results

Uncontrolled Companies Profitability Analysis

The results of the comparable companies identified through Grant Thornton’s research determine the appropriate arm’s-length profitability range within which Medivie-UK should operate.

Table 1 below presents the MTC ratios for the selected comparable companies during the 2011 to 2013 fiscal period;

Economic Analysis – Transaction C

The following is a description of the pricing methods considered and selected to evaluate the arm’s length nature of the Line of Credit granted by Medivie-IL to Medivie-UK according to the Israeli Regulations. The benchmarking analysis conducted was used to evaluate the arm’s length nature of the transfer pricing policy for the line of credit.

According to section 85A of Israel’s Income Tax Ordinance (New Version) – 1961 (hereinafter – the “**Israeli Tax Ordinance**”) and the Income Tax Regulations (Determining Market Conditions) – 2006 (hereinafter – the “**Regulations**”) promulgated there under, an international transaction between related parties shall be reported at arm’s length, according to market terms. For purposes of determining whether an international transaction is carried out at arm’s length, an investigation of the market conditions shall be conducted, in which the international transaction should be compared to similar transactions of the party being examined, on the basis of methods defined under the Regulations. The income tax ordinance was amended in respect of the application of TP legislation on related party lending transactions. Following this amendment, the provisions of article 85A do not apply to certain lending transactions (with capital characteristics) that meet detailed criteria.

Selection of CUP transfer pricing method

The Comparable Uncontrolled Price (CUP) method compares the price charged for a service in a controlled transaction to the price charged for a service in a comparable uncontrolled transaction. In general, intercompany loans and advances must include a market rate of interest. An arm’s length rate of interest is generally considered a rate of interest which was charged, or would have been charged, at the time the indebtedness arose, in independent transactions with or between unrelated parties under similar circumstances. All relevant factors should be considered, including the principal amount and duration of the loan, the security involved, the credit standing of the borrower, and the interest rate prevailing at the time the loan was granted. This is considered to be analogous to the CUP method, and since information regarding similar debt securities is readily available, we thus determined the CUP method to be the most reliable method to analyze the arm’s length range of rates for the intercompany loans.

It should be noted that at the time of the granting of the line a credit, an overdraft facility was granted by NatWest Bank in the UK to Medivie-UK which results in a potential internal CUP.

It should be noted at this stage that an Altman-Z was performed but this did not yield reliable results because the Company is in a start-up status and it is difficult to derive a reliable credit rating equivalent.

Application of the CUP

Grant Thornton applied the internal CUP method to benchmark the interest rates on the intercompany loans. Grant Thornton used the overdraft facility provided by NatWest Bank as the basis for the analysis. The overdraft facility was signed September 2013 and an overdraft facility was granted with a limit of 125,000 GBP (similar to amount of Medivie-IL’s line of credit granted to Medivie-UK) with a floating charge as follows;

- Up to the limit of 125,000 GBP – 2.37% plus base rate
- Over the limit of 125,000 GBP – 7.00% plus the base rate

The bank rate was 0.5% on September 2013.

Use of Bloomberg

The loans under analysis bear interest at a fixed rate whereas the overdraft facility is a floating rate. In addition the line of credit was granted in NIS and the overdraft was in GBP. In order to adjust for comparability, we used the swap manager function on Bloomberg to perform a swap analysis which converted the floating rate to a fixed yield NIS equivalent for three years maturity.

We used the same issue date and length to maturity as for the intercompany line of credit granted.

We performed the swap on both the 2.37% and 7% floating rate above prime rate to determine an arm’s length range. The snapshots from Bloomberg below illustrate the results;

Conclusion

The information presented in this report relies on data received from Medivie management, and is based on Grant Thornton’s understanding of the inter-company transactions between Medivie-IL and Medivie-UK.

Transaction A

The Comparable Uncontrolled Price (CUP) method was applied as the selected method to evaluate the arm’s-length nature of royalty payments for Medivie-UK’s grant of a license to Medivie-IL for the use of IP to produce, further develop and sell and market Products worldwide.

Grant Thornton performed a search for comparable transactions between unrelated entities that have entered into similar IP licensing agreements to Medivie-UK and Medivie-IL. The arm’s length range of royalties as a percent of net sales is between 3.50% and 6.00% with a median of 5%. Grant Thornton recommends that for FY 2015, Medivie-IL should pay Medivie-UK a royalty rate that falls within this range based on net sales generated by Medivie-IL for the Laboraide Products, thus reflecting a reasonable application of the arm’s length standard.

Regarding future development and production of products, Grant Thornton located two agreements that refer to use of existing technology in newly developed Products and the royalties as a percent of net sales is between 1.5% - 3.00% with a median of 2.25%. Grant Thornton recommends that for FY 2015, Medivie-IL should pay Medivie-UK a royalty rate that falls within this range based on net sales generated by Medivie-IL for future developed Products, thus reflecting a reasonable application of the arm’s length standard.

Transaction B

The Comparable Profits Method (CPM) was applied as the selected method to evaluate the arm’s-length nature of the future provision of administrative services by Medivie-UK to Medivie-IL. Medivie-UK was analyzed as the tested party with regard to the inter-company transaction, since it is the tested party with the least complex functions.

A PLI of MTC was selected as the most reliable method to evaluate the arm’s length nature of the provision of administrative services from Medivie-UK to Medivie-IL.

The three-year (FY11-13) weighted average unadjusted inter-quartile range of MTC’s is between 2.2% and 6.1% with a median of 4.3%. Grant Thornton recommends that for FY 2015 Medivie-UK achieve a MTC that falls within the inter-quartile range, reflecting a reasonable application of the arm’s length standard.

Transaction C

The Comparable Uncontrolled Price Method (CUP) method was applied as the selected method to evaluate the arm’s-length nature of interest payments for Medivie-IL’s grant of a line of Credit to Medivie-UK.

Grant Thornton used an internal CUP that existed between NatWest Bank and Medivie-UK that was in place during the time of the grant of a line of credit.

After making an adjustment using the SWAP function in Bloomberg which converted the floating GBP interest to the fixed NIS equivalent, the result was a range of interest rates between 3.53% and 8.11%. Grant Thornton recommends that Medivie-IL should charge Medivie-UK an interest rate that is close to the mean rate of 5.82% fixed interest per annum, reflecting a reasonable application of the arm’s length standard.

Grant Thornton recommends testing current operations at least every year to monitor inter-company charges and adjust them, as necessary. In addition, Medivie-UK and Medivie-IL should review the factual materials presented in this report to ensure that it fairly represents the true nature of inter-company functions and transfers, due to the importance of the functional and risk analysis to select an appropriate pricing method and select comparable companies.

While this engagement is intended to assist the Company in planning and documenting its transfer pricing policy that will reduce the future risk of the application of a penalty resulting from a transfer pricing adjustment imposed by tax authorities, the work is not intended to provide assurance that the transfer pricing policies will withstand scrutiny by tax authorities. Furthermore, in the event of a transfer pricing adjustment by any tax authority, Grant Thornton cannot guarantee that penalties will not be assessed.

Sincerely yours,

/s/ Fahn Kanne & Co.

2. Grant of rights

2.1 Licences

The Licensor hereby grants to the Licensee, subject to the provisions of this Agreement, a sole licence in the Field to use the Patents, with the right to sub-license, subject to clause 2.3 below, to develop, manufacture, have manufactured, use and sell Licensed Products but only in the Field in the Territory. Accordingly, the Licensor shall, during the term of this Agreement, be entitled to use the Patents itself in the Territory ~~in the Field~~ but shall not license third parties to develop, manufacture, have manufactured use and sell Licensed Products in the Field and the Territory. If the Licensor during the term of this Agreement generates any improvements to the technology contained in the claims of the Patents it shall license the same to the Licensee according to the terms of this Agreement. If the Licensee generates any such improvements:

- In the case of non-severable improvements (that is to say, improvements which cannot be used in any way without, but for a licence, infringing the Patents) the Licensee hereby assigns the same (by way of future assignment) to the Licensor with full title guarantee and free of all right title and interest and undertakes to do such things and execute such documents as the Licensor requires to perfect such transfer, provided however that the Licensor shall then license the same to the Licensee according to the terms of this Agreement; and
- In the case of severable improvements (that is to say, improvements which can be used in any way without, but for a licence, infringing the Patents) the Licensee hereby grants the Licensor a perpetual, irrevocable, fully paid-up unconditional, non-exclusive licence (with the right to assign and sub-license, including the right to grant further sub-licences in multiple, successive tiers) to use the same for any purpose whatsoever.

Both Parties shall promptly disclose improvements generated by them or on their behalf to the other Party to give effect to the above provisions.

2.2 Formal licences

The Parties shall execute such formal licenses as may be necessary or appropriate for registration with Patent Offices and other relevant authorities in particular territories. In the event of any conflict in meaning between any such licence and the provisions of this Agreement, the provisions of this Agreement shall prevail wherever possible. Prior to the execution of the formal licence(s) (if any) referred to in clause 2.2, the Parties shall so far as possible have the same rights and obligations towards one another as if such licence(s) had been granted. The Parties shall use reasonable endeavours to ensure that, to the extent permitted by relevant authorities, this Agreement shall not form part of any public record.

2.3 Sub-licensing

The Licensee shall be entitled to grant sub-licences of its rights under this Agreement to any person, provided that:

- 2.3.1 the sub-licence shall terminate automatically on the termination of this Agreement for any reason; and
- 2.3.2 the Licensee shall be responsible for any breach of the sub-licence by the sub-licensee, as if the breach had been that of the Licensee under this Agreement, and the Licensee shall indemnify the Licensor against any loss, damages, costs, claims or expenses which are awarded against or suffered by the Licensor as a result of any such breach by the sub-licensee.

2.4 No other licence

It is acknowledged and agreed that no licence is granted by the Licensor to the Licensee other than the licence(s) expressly granted by the provisions of this clause 2. The foregoing notwithstanding, Licensee may use the services of third parties in order to take instructions exclusively from Licensee to file and prosecute national phase applications related to the Patent on behalf of and in the name of the Licensor. Without prejudice to the generality of the foregoing the Licensor reserves all rights under the Patents outside the Field.

2.5 **Quality**

The Licensee shall ensure that all of the Licensed Products marketed by it and its sub-licensees are of satisfactory quality and comply with all applicable laws and regulations in each part of the Territory, including without limitation in connection with clinical trials, CE marking and other approvals, standards and marketing authorisations under the regulations of the FDA, the EMEA, the MHRA and other equivalent bodies in the Territory.

2.6 **Responsibility for development of Licensed Products**

The Licensee shall be exclusively responsible for the technical and commercial development and manufacture of Licensed Products by it or on its behalf and for incorporating any modifications or developments thereto that may be necessary or desirable and for all Licensed Products sold or supplied by it or on its behalf, and accordingly the Licensee shall indemnify the Licensor in the terms of clause 5.2.

2.7 **Confidentiality obligations**

Each Party (‘**Receiving Party**’) undertakes:

- 2.7.1 to maintain as secret and confidential all know-how and other technical or commercial information of a confidential or sensitive nature obtained directly or indirectly from the other Party (‘**Disclosing Party**’) in the course of or in anticipation of this Agreement and to respect the Disclosing Party’s rights therein,
- 2.7.2 to use the same exclusively for the purposes of this Agreement, and
- 2.7.3 to disclose the same only to those of its employees, contractors and sub-licensees pursuant to this Agreement (if any) to whom and to the extent that such disclosure is reasonably necessary for the purposes of this Agreement.

2.8 **Exceptions to obligations**

The provisions of clause 2.7 shall not apply to confidential and other information which the Receiving Party can demonstrate by reasonable, written evidence:

- 2.8.1 was, prior to its receipt by the Receiving Party from the Disclosing Party, in the possession of the Receiving Party and at its free disposal; or
- 2.8.2 is subsequently disclosed to the Receiving Party without any obligations of confidence by a third party who has not derived it directly or indirectly from the Disclosing Party; or
- 2.8.3 is or becomes generally available to the public through no act or default of the Receiving Party or its agents, employees, Affiliates or sub-licensees; or
- 2.8.4 the Receiving Party is required to disclose to the court of any competent jurisdiction, or to any government regulatory agency or financial authority, provided that the receiving party shall:
 - (a) inform the Disclosing Party as soon as is reasonably practicable and limit any such disclosure to what is absolutely necessary, and

2.9 **Disclosure to employees**

The Receiving Party shall procure that all of its employees, contractors and sub-licensees pursuant to this Agreement (if any) who have access to any of the Disclosing Party’s information to which clause 2.7 applies, shall be made aware of and subject to these obligations and shall have entered into written undertakings of confidentiality at least as restrictive as clause 2.7.

3. **Payments**

3.1 **payment**

In consideration of being granted the licence hereunder the Licensor shall on or before the Commencement Date pay the Licensor the sum of ONE POUND (£1). The Licensor hereby acknowledges the sufficiency of this consideration.

4. **Intellectual property**

4.1 **Obtain and maintain the Patents**

The Licensee shall at its own cost and expense:

- 4.1.1 endeavour to obtain valid patents in the name of the Licensor pursuant to each of the patent applications listed in Schedule 1; and
- 4.1.2 pay all renewal fees in respect of the Patents as and when due in relevant parts of the Territory;

Provided that the Licensee shall keep the Licensor regularly informed by means of quarterly written updates of all its activities in this regard and their consequences. Furthermore, if the Licensee wishes to abandon any such application or not to maintain any such Patent (or to cease funding such application or Patent) it shall give 3 months’ prior written notice to the Licensor and on the expiry of such notice period the Licensee shall cease to be licensed under the patent application or patent identified in the notice. If, within 30 days of any renewal date, the Licensee has not renewed the Patent in question and the Licensor has not received documentary evidence of such renewal by that deadline, the Licensor shall provide with a written notice for such failure to renew the Patents. If such written notice is not answered within 7 business days, Licensor may terminate this Agreement on immediate written notice.

4.2 **Infringement of the Patents**

- 4.2.1 Each Party shall inform the other Party promptly if it becomes aware of any infringement or potential infringement of any of the Patents in the Field, and the Parties shall consult with each other to decide the best way to respond to such infringement.
- 4.2.2 If within 14 business days from becoming aware of any infringement or potential infringement of any of the Patents the Parties fail to agree on a joint programme of action, including how the costs of any such action are to be borne and how any damages or other sums received from such action are to be distributed, then the Licensee shall be entitled to take action against the third party at its sole expense and it shall be entitled to all damages or other sums received from such action,. The Licensor shall agree to be joined in any suit to enforce such rights subject to being indemnified and secured in a reasonable manner as to any costs, damages, expenses or other liability and shall have the right to be separately represented by its own counsel at its own expense. If the alleged infringement is both within and outside the Field, the Parties shall also co-operate with the Licensor’s other licensees (if any) in relation to any such action.

4.3 **Infringement of third party rights**

- 4.3.1 If any warning letter or other notice of infringement is received by a Party, or legal suit or other action is brought against a Party, alleging infringement of third party rights in the manufacture, use or sale of any Licensed Product or use of any Patents, that Party shall promptly provide full details to the other Party, and the Parties shall discuss the best way to respond.
-

4.3.2 The Licensee shall have the right but not the obligation to defend such suit and shall have the right to settle with such third party, provided that if any action or proposed settlement involves the making of any statement, express or implied, concerning the validity of any Patent, the consent of the Licensor must be obtained before taking such action or making such settlement.

5. **Warranties and liability**

5.1 **Warranties**

5.1.1 Each of the Licensee and the Licensor acknowledges that, in entering into this Agreement, it does not do so in reliance on any representation, warranty or other provision except as expressly provided in this Agreement, and any conditions, warranties or other terms implied by statute or common law are excluded from this Agreement to the fullest extent permitted by law.

5.1.2 Without limiting the scope of clause 5.1.1, the Licensor does not give any warranty, representation or undertaking:

- a) as to the efficacy or usefulness of the Patents or the Licensed Products; or
- b) that any of the Patents is or will be valid or subsisting or (in the case of an application) will proceed to grant; or
- c) that the use of any of the Patents, the manufacture, sale or use of the Licensed Products or the exercise of any of the rights granted under this Agreement will not infringe any other intellectual property or other rights of any other person; or
- d) that any other information communicated by the Licensor to the Licensee under or in connection with this Agreement will produce Licensed Products of satisfactory quality or fit for the purpose for which the Licensee intended; or
- e) as imposing any obligation on the Licensor to bring or prosecute actions or proceedings against third parties for infringement or to defend any action or proceedings for revocation of any of the Patents; or
- f) as imposing any liability on the Licensor in the event that any third party supplies Licensed Products to customers located in the Territory.

5.2 **Indemnity**

The Licensee shall indemnify the Licensor against any loss, damages, costs or expenses which are awarded against or incurred by the Licensor as a result of any claim or threatened claim concerning the use by the Licensee or any of its sub-licensees of the Patents or otherwise in connection with the manufacture, use or sale of or any other dealing in any of the Licensed Products by the Licensee or its Affiliates or any of its sub-licensees.

5.3 **Liability**

Notwithstanding any other provision of this Agreement, neither Party shall be liable to the other Party to this Agreement in contract, tort, negligence, breach of statutory duty or otherwise for any loss, damage, costs or expenses of any nature whatsoever incurred or suffered by that other Party or its Affiliates of an indirect or consequential nature including without limitation any economic loss or other loss of turnover, profits, business or goodwill including without limitation loss of business, loss under current or future contracts, disaster recovery costs or administrative costs, even if that Party has been advised of the likelihood of any of the aforesaid occurring.

6. Duration and termination

6.1 Commencement and termination by expiry

This Agreement, and the licenses granted hereunder, shall come into effect on the Commencement Date and, unless terminated earlier in accordance with this clause 6, shall continue in force on a country by country basis until the date on which all the Patents have expired or been revoked without a right of further appeal and on such date this Agreement and the licenses granted hereunder shall terminate automatically by expiry.

6.2 Early termination

- 6.2.1 The Licensee may terminate this Agreement at any time on 60 days’ notice in writing to the Licensors. The Licensors may terminate this Agreement under clause 4.1.
- 6.2.2 Without prejudice to any other right or remedy, upon occurrence of any of the following events, either Party may terminate this Agreement at any time by notice in writing to the other Party (“**Other Party**”), such notice to take effect as specified in the notice:

a) if the Other Party is in breach of this Agreement and, in the case of a breach capable of remedy within 90 days, the breach is not remedied within 90 days of the Other Party receiving notice specifying the breach and requiring its remedy; or

b) if the Other Party becomes insolvent, or if an order is made or a resolution is passed for the winding up of the Other Party (other than voluntarily for the purpose of solvent amalgamation or reconstruction), or if an administrator, administrative receiver or receiver is appointed in respect of the whole or any part of the Other Party’s assets or business, or if the Other Party makes any composition with its creditors or takes or suffers any similar or analogous action in consequence of debt.
- 6.2.3 The Licensors may forthwith terminate this Agreement by giving written notice to the Licensee if the Licensee or its Affiliate or sub-licensee commences legal proceedings, or assists any third party to commence legal proceedings, to challenge the validity of any of the Patents.

6.3 Consequences of termination

- 6.3.1 Upon termination of this Agreement for any reason otherwise than in accordance with clauses 6.1 or 6.2:

a) the Licensee and its sub-licensees shall be entitled to sell, use or otherwise dispose of any unsold or unused stocks of the Licensed Products;

b) subject to clause 6.3.1(a) above, the Licensee shall no longer be licensed to use or otherwise exploit in any way, either directly or indirectly, the Patents, in so far and for as long as any of the Patents remains in force;

c) subject to clause 6.3.1(a) above, the Licensee shall consent to the cancellation of any formal licence granted to it, or of any registration of it in any register, in relation to any of the Patents; and

d) subject as provided in this clause 6.3.1, and except in respect of any accrued rights, neither Party shall be under any further obligation to the other.

If Seller fails to take timely action to defend any such suit then Buyer or the Buyer Indemnitees can defend such suit at Seller’s expense. This Section shall survive the expiration or earlier termination of this Agreement.

5. INSURANCE

Insurance requirements may be met by a combination of primary and excess policies which at least follow form and coverage that “drops down” for exhausted underlying aggregate limits meeting the requirements of this section. All policies must indicate that such coverage is primary, non-contributory, and not excess any coverage of Buyer or Buyer Indemnitees; contain a waiver of subrogation in favor of Buyer where permitted by law; and provide that defense costs shall not apply against coverage limits. In the event that Seller’s general liability insurance policy provides a Self-Insured Retention (“**SIR**”) and/ or deductible in an amount equal to or greater than \$10,000,000, Seller must submit notice of the SIR and/or deductible to Buyer and obtain Buyer’s written approval thereof. Within sixty (60) days of the date of this Agreement, Seller shall cause the insurance company issuing such policy to issue a certificate of insurance (“**Certificate**”) and all required endorsements to Buyer confirming that such policy or policies have been issued and are in full force and effect and provides coverage to Buyer and Buyer Indemnitees as an additional insured under a broad form vendor’s endorsement, covered against Buyer’s and Buyer Indemnitees’ shared and/ or sole fault to the fullest extent permitted by law, as required by this Paragraph, and also confirming that before any cancellation, modification, or reduction in coverage of such policy, the insurance company shall give Buyer ten (10) days prior written notice of such proposed cancellation, modification or reduction. Seller is also required to provide or cause to be provided a new Certificate upon each renewal of required coverage. Buyer is not required to honor any outstanding obligations or pay any amounts to Seller unless and until the Certificate is received and approved by Buyer. The policy shall be placed with an insurance company authorized to do business in the state where this Order is applicable. All insurers shall have a Best’s rating of at least AX. Receipt by Buyer of Certificates which do not conform to the requirements in this Agreement, shall not relieve Seller of the obligation to provide insurance conforming to the requirements contained herein. The liability insurance limits shall in no way be construed as a limitation of Buyer’s or Buyer Indemnitees’ right of indemnity hereunder nor shall it in any way limit Seller’s obligations under this Agreement. Seller shall, without expense to Buyer, maintain in force Worker’s Compensation Insurance as required by applicable state laws, statutory Disability Insurance and Employer’s Liability Insurance with limits of at least \$500,000.

6. **ADVERTISING:**

Seller hereby grants Buyer a non-exclusive License to use any trademark, trade name, service mark or copyright which appears on the Products and all related packaging, labeling and other printed matter supplied by Seller to advertise and to promote the Products in connection with Buyer’s retail operation. Nothing herein shall be deemed or interpreted to transfer any other rights or ownership in such materials from Seller to Buyer and Buyer’s use of the foregoing trademarks, trade names and service marks shall be limited to displaying the marks as they appear on the Products or in the form provided by the Seller, it being understood that any other uses shall be subject to Seller’s prior approval and usage requirements.

Any Products delivered or shipped in violation of Buyer’s requirements, the terms and conditions of this Agreement or the Order will be subject to deviation charges, handling charges and other reasonable costs, which will be charged back to the Seller.
- (c) Buyer may cancel an Order, or any part thereof, by notice to Seller if Seller fails to comply with the terms and conditions of this Agreement. Furthermore, Buyer may cancel an Order if Seller becomes insolvent or makes a general assignment for the benefit of creditors or files or has filed against it a petition of bankruptcy or for reorganization, or pursues any other remedy under any other law relating to the relief from debtors or in the event a receiver is appointed for Seller’s property or business. In addition, Buyer may cancel an Order in whole or in part at any time, for its sole convenience, upon thirty (30) days prior notice to Seller. In such event, Buyer shall pay to Seller the amounts due for Products shipped in accordance herewith prior to the Order cancellation date. In the event of cancellation of any Order for any reason, Seller shall, prior to disposing of the Products, remove all of Buyer’s proprietary marks (including trademarks, logos and names) and identifying tickets, labeling and packaging. Seller shall furnish Buyer, when required by law, to the attention of Buyer’s Tax Department, the appropriate exemption certificate which shall be completed by Buyer and returned to Seller. Buyer’s “Blanket Resale Certificate” may be substituted by Buyer, if permitted by Law.

1. Information Sheet. Each capitalized term not otherwise defined in this Agreement shall have the meaning set forth for such term on the information sheet which is attached to this Agreement as Exhibit A and is incorporated by reference herein and made a part hereof (the “**Information Sheet**”).

2. Establishment of the Bank Account.

2.1 The Escrow Agent shall establish a non-interest-bearing bank account at the branch of Bank selected by the Escrow Agent, and bearing the designation set forth on the Information Sheet (heretofore defined as the “**Bank Account**”). The purpose of the Bank Account is for (a) the deposit of all subscription monies (checks or wire transfers) which are received by the Platforms from prospective purchasers of the Securities and are delivered by the Platform to the Escrow Agent, (b) the holding of amounts of subscription monies which are collected through the banking system and (c) the disbursement of collected funds, all as described herein.

2.2 On or before the date of the initial deposit in the Bank Account pursuant to this Agreement, the Issuer shall notify the Escrow Agent in writing of the date of the commencement of the Offering (the “**Effective Date**”), and the Escrow Agent shall not be required to accept any amounts for credit to the Escrow Account or for deposit in the Bank Account prior to its receipt of such notification.

2.3 The “**Offering Period**,” which shall be deemed to commence on the Effective Date, shall consist of the number of calendar days or business days set forth on the Information Sheet. The Offering Period shall be extended at the Issuer’s discretion (an “**Extension Period**”) only if the Escrow Agent shall have received written notice thereof prior to the expiration of the Offering Period. The Extension Period, which shall be deemed to commence on the next calendar day following the expiration of the Offering Period, shall consist of the number of calendar days or business days set forth on the Information Sheet. The last day of the Offering Period, or the last day of the Extension Period (if the Escrow Agent has received written notice thereof as herein above provided), is referred to herein as the “**Termination Date**”. Except as provided in Section 4.3 hereof, after the Termination Date, the Platforms shall not deposit, and the Escrow Agent shall not accept, any additional amounts representing payments by prospective purchasers.

3. Deposits to the Bank Account.

3.1 The Platforms shall promptly deliver to the Escrow Agent all monies which it receives from prospective purchasers of the Securities, which monies shall be in the form of checks or wire transfers, provided however that "Cashiers" checks and "Money Orders" must be in amounts greater than \$10,000; Cashiers checks or Money Orders in amounts less than \$10,000 shall be rejected by the Escrow Agent. Upon the Escrow Agent’s receipt of such monies, they shall be credited to the Escrow Account. All checks delivered to the Escrow Agent shall be made payable to “Medivie USA Inc.” Any check payable other than to the Escrow Agent as required hereby shall be returned to the prospective purchaser, or if the Escrow Agent has insufficient information to do so, then to the Platforms (together with any Subscription Information, as defined below or other documents delivered therewith) by noon of the next business day following receipt of such check by the Escrow Agent, and such check shall be deemed not to have been delivered to the Escrow Agent pursuant to the terms of this Agreement.

3.2 Promptly after receiving subscription monies as described in Section 3.1, the Escrow Agent shall deposit the same into the Bank Account. Amounts of monies so deposited are hereinafter referred to as “**Escrow Amounts**”. The Escrow Agent shall cause the Bank to process all Escrow Amounts for collection through the banking system. Upon request of the Escrow Agent the Issuer shall provide in writing the name and address of the prospective purchaser, the amount of Securities subscribed for by such purchase, and the aggregate dollar amount of such subscription (collectively, the “**Subscription Information**”).

3.3 If the foregoing Subscription Information is not provided the Escrow Agent shall not be required to accept for credit to the Escrow Account or for deposit into the Bank Account checks or wire transfers representing payments by prospective purchasers until the Escrow Agent has received in writing the Subscription Information required with respect to such payments.

3.4 The Escrow Agent shall not be required to accept in the Escrow Account any amounts representing payments by prospective purchasers, whether by check or wire, except during the Escrow Agent’s regular business hours.

3.5 Only those Escrow Amounts, which have been deposited in the Bank Account and which have cleared the banking system and have been collected by the Escrow Agent, are herein referred to as the “**Fund**.”

3.6 If the Offering is terminated before the Termination Date, the Escrow Agent shall refund any portion of the Fund prior to disbursement of the Fund in accordance with Article 4 hereof upon instructions in writing signed by the Issuer.

4. Disbursement from the Bank Account.

4.1 The Escrow Agent shall promptly disburse the Fund, by drawing checks or by making a transfer by wire on the Bank Account in accordance with the instructions annexed hereto as Exhibit B to be signed by the Issuer.

4.2 Upon disbursement of the Fund pursuant to the terms of this Article 4, the Escrow Agent shall be relieved of further obligations and released from all liability under this Agreement. It is expressly agreed and understood that in no event shall the aggregate amount of payments made by the Escrow Agent exceed the amount of the Fund.

5. Rights, Duties and Responsibilities of Escrow Agent. It is understood and agreed that the duties of the Escrow Agent are purely ministerial in nature, and that:

5.1 The Escrow Agent shall notify the Issuer, on a daily basis, of the Escrow Amounts which have been deposited in the Bank Account and of the amounts, constituting the Fund, which have cleared the banking system and have been collected by the Escrow Agent.

5.2 The Escrow Agent shall not be responsible for the performance by the Issuer of its respective obligations under this Agreement.

5.3 The Escrow Agent shall not be required to accept from the Platforms any Subscription Information pertaining to prospective purchasers unless such Subscription Information is accompanied by checks or wire transfers meeting the requirements of Section 3.1, nor shall the Escrow Agent be required to keep records of any information with respect to payments deposited by the Platforms except as to the amount of such payments; however, the Escrow Agent shall notify the Issuer within a reasonable time of any discrepancy between the amount set forth in any Subscription Information and the amount delivered to the Escrow Agent therewith. Such amount need not be accepted for deposit in the Escrow Account until such discrepancy has been resolved.

5.4 The Escrow Agent shall be under no duty or responsibility to enforce collection of any check delivered to it hereunder. The Escrow Agent, within a reasonable time, shall return to the Platforms any check received which is dishonored, together with the Subscription Information, if any, which accompanied such check.

5.5 If the Escrow Agent is uncertain as to its duties or rights hereunder or shall receive instructions with respect to the Bank Account, the Escrow Amounts or the Fund which, in its sole determination, are in conflict either with other instructions received by it or with any provision of this Agreement, it shall be entitled to hold the Escrow Amounts, the Fund, or a portion thereof, in the Bank Account pending the resolution of such uncertainty to the Escrow Agent’s sole satisfaction, by final judgment of a court or courts of competent jurisdiction or otherwise.

5.6 The Escrow Agent shall not be liable for any action taken or omitted hereunder, or for the misconduct of any employee, agent or attorney appointed by it, except in the case of willful misconduct or gross negligence. The Escrow Agent shall be entitled to consult with counsel of its own choosing and shall not be liable for any action taken, suffered or omitted by it in accordance with the advice of such counsel.

5.7 The Escrow Agent shall have no responsibility at any time to ascertain whether or not any security interest exists in the Escrow Amounts, the Fund or any part thereof or to file any financing statement under the Uniform Commercial Code with respect to the Fund or any part thereof.

6. Amendment; Resignation or Removal of Escrow Agent. This Agreement may be altered or amended only with the written consent of the Issuer and the Escrow Agent. The Escrow Agent may resign and be discharged from its duties hereunder at any time by giving written notice of such resignation to the Issuer specifying a date when such resignation shall take effect and upon delivery of the Fund to the successor escrow agent designated by the Issuer in writing. Such successor Escrow Agent shall become the Escrow Agent hereunder upon the resignation date specified in such notice. If the Company fails to designate a successor Escrow Agent within thirty (30) days after such notice, then the resigning Escrow Agent shall promptly refund the amount in the Fund to each prospective purchaser, without interest thereon or deduction. The Escrow Agent shall continue to serve until its successor accepts the escrow and receives the Fund. The Company shall have the right at any time to remove the Escrow Agent and substitute a new escrow agent by giving notice thereof to the Escrow Agent then acting. Upon its resignation and delivery of the Fund as set forth in this Section 6, the Escrow Agent shall be discharged of and from any and all further obligations arising in connection with the escrow contemplated by this Agreement. Without limiting the provisions of Section 8 hereof, the resigning Escrow Agent shall be entitled to be reimbursed by the Issuer for any expenses incurred in connection with its resignation, transfer of the Fund to a successor escrow agent or distribution of the Fund pursuant to this Section 6.

7. Representations and Warranties. The Issuer hereby represents and warrants to the Escrow Agent that:

7.1 No party other than the parties hereto, Thunder Crowd Capital, LLC and the prospective purchasers have, or shall have, any lien, claim or security interest in the Escrow Amounts or the Fund or any part thereof.

7.2 No financing statement under the Uniform Commercial Code is on file in any jurisdiction claiming a security interest in or describing (whether specifically or generally) the Escrow Amounts or the Fund or any part thereof.

7.3 The Subscription Information submitted with each deposit shall, at the time of submission and at the time of the disbursement of the Fund, be deemed a representation and warranty that such deposit represents a bona fide payment by the purchaser described therein for the amount of Securities set forth in such Subscription Information.

7.4 All of the information contained in the Information Sheet is, as of the date hereof, and will be, at the time of any disbursement of the Fund, true and correct.

7.5 The Issuer has retained a third party to implement and establish reasonable controls and perform required due diligence to comply with "Know Your Customer" regulations, USA Patriot Act, Office of Foreign Asset Control (OFAC) regulations and the Bank Secrecy Act.

8. Fees and Expenses. The Escrow Agent shall be entitled to the Escrow Agent Fees set forth on the Information Sheet, payable as and when stated therein. In addition, the Issuer agrees to reimburse the Escrow Agent for any reasonable expenses incurred in connection with this Agreement, including, but not limited to, reasonable counsel fees.

9. Indemnification and Contribution.

9.1 The Issuer (the “**Indemnitor**”) agrees to indemnify the Escrow Agent and its officers, directors, employees, agents and shareholders (collectively referred to as the “**Indemnitees**”) against, and hold them harmless of and from, any and all loss, liability, cost, damage and expense, including without limitation, reasonable counsel fees, which the Indemnitees may suffer or incur by reason of any action, claim or proceeding brought against the Indemnitees arising out of or relating in any way to this Agreement or any transaction to which this Agreement relates, unless such action, claim or proceeding is the result of the willful misconduct or gross negligence of the Indemnitees.

9.2 If the indemnification provided for in Section 9.1 is applicable, but for any reason is held to be unavailable, the Indemnitor shall contribute such amounts as are just and equitable to pay, or to reimburse the Indemnitees for, the aggregate of any and all losses, liabilities, costs, damages and expenses, including counsel fees, actually incurred by the Indemnitees as a result of or in connection with, and any amount paid in settlement of, any action, claim or proceeding arising out of or relating in any way to any actions or omissions of the Indemnitor.

9.3 The provisions of this Article 9 shall survive any termination of this Agreement, whether by disbursement of the Fund, resignation of the Escrow Agent or otherwise.

10. Termination of Agreement. This Agreement shall terminate on the final disposition of the Fund pursuant to Section 4, provided that the rights of the Escrow Agent and the obligations of the other parties hereto under Section 9 shall survive the termination hereof and the resignation or removal of the Escrow Agent.

11. Governing Law and Assignment. This Agreement shall be construed in accordance with and governed by the laws of the State of New York, without regard to the conflicts of laws principles thereof, and shall be binding, upon the parties hereto and their respective successors and assigns; provided, however, that any assignment or transfer by any party of its rights under this Agreement or with respect to the Escrow Amounts or the Fund shall be void as against the Escrow Agent unless (a) written notice thereof shall be given to the Escrow Agent; and (b) the Escrow Agent shall have consented in writing to such assignment or transfer.

12. Notices. All notices required to be given in connection with this Agreement shall be sent by registered or certified mail, return receipt requested, or by hand delivery with receipt acknowledged, or by the Express Mail service offered by the United States Postal Service, and addressed, if to the Issuer, at its respective address set forth on the Information Sheet, and if to the Escrow Agent, at its address set forth above, to the attention of the Trust Department.

13. Severability. If any provision of this Agreement or the application thereof to any person or circumstance shall be determined to be invalid or unenforceable, the remaining provisions of this Agreement or the application of such provision to persons or circumstances other than those to which it is held invalid or unenforceable shall not be affected thereby and shall be valid and enforceable to the fullest extent permitted by law.

14. Execution in Several Counterparts. This Agreement may be executed in several counterparts or by separate instruments and by facsimile transmission, and all of such counterparts and instruments shall constitute one agreement, binding on all of the parties hereto.

15. Entire Agreement. This Agreement constitutes the entire agreement between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings (written or oral) of the parties in connection therewith.

IN WITNESS WHEREOF, the undersigned have executed this Agreement as of the day and year first above written.

Company overview

Medivie USA was incorporated in Nevada, U.S., in February 2016. The company is a subsidiary of Medivie UK, owned by Medivie Ltd (“MDVI.TA”), a public company registered in Israel. MDVI.TA was incorporated in 2012 as a result of a collaboration between the OPRO Group, the world’s leading manufacturers of personally customized dental shields and Capital International Group, a leading Private Equity company (MDVI.TA, Medivie UK and the company are jointly referred to as “group”).

The group specializes in innovative oral device solutions for operative interventions, pain-relief and more. Since its inception, app. \$ 5 M were invested in MDVI.TA and Medivie UK; these sums were used mainly for R&D activity, patents and trademarks’ registration, clinical studies and marketing.

Medivie USA was established to handle all of the group’s commercial activity in North America (US and Canada), including:

- Distribution
- Sales and marketing
- Customer & Inventory management
- National Shipping

The Technology

The group specializes in oral non-drug medical solutions, including operative interventions, pain-relief and more. The main applications for the technology are:

- Birth - Currently in the marketing stage: LaborAide is an oral device in the form of a pleasant cushion, which is placed between the woman's lower and upper jaw during birth, allowing the relaxation of the jaw, neck and head muscles through the flow of oxygen to the muscles, decreasing the risk of urgent operative intervention and easing the pain.
- Breast Feeding _ Medivie is currently testing an application – FeedAide - which will help reduce feeding mothers' contraction pains.
- Migraines - Future development: Medivie is working on the development of a unique oral device – MigrainAide - based on the existing company's IP which allows the relaxation of the head muscles prevents the contraction of jaw muscles and increases the flow of blood to the brain for preventing and easing migraines.

Clinical studies provide proof to the technology's efficiency: In 2014, Belinson Hospital, one of Israel's largest hospitals, conducted a clinical study, examining the impact of using LaborAide during the second stage of labor (known as the pushing stage). The maximal length of the second stage is 3 hours, after which the necessity of obstetrical intervention arises. The study demonstrated a major decrease in the need for obstetrical intervention in the second stage of labor:

- Reduction in the surpassing of the maximal 3 hours' limit: reduction in the rate of women surpassing the limit of 3 hours pushing stage from 24.5% to 8.6%, which leads to less likelihood to maternal and neonatal morbidities.
- Reduction of Cesarean Section: reduction in the rate of emergency cesarean sections from 6.4% to 1.2% as a result of the baby getting stuck in the birth canal.

- Reduction of Vacuum Deliveries: reduction in the rate of operative vaginal delivery (Vacuum) from 28.2% to 12.3%

LaborAide has been registered as a medical device with the health authorities in Israel, the EU, the US (FDA Class 1) and Canada.

Material Agreements

The company presented us with three material agreements:

- License agreement (unsigned draft) – The company has been granted an exclusive licence to sell the group’s products in the US, in exchange to royalties of 2% of the company’s net sales.
- Investment agreement (unsigned draft)– obligation of Medivie UK to purchase the company’s shares (sums and quantities are yet to be specified).
- Master purchase order agreement (signed by MDVI.TA) – establishing buyer-seller relationship between the parties.

Valuation Methodology

The methodology used for valuations is determined by several factors:

- The entity evaluated – company, business unit, asset etc.
- The purpose of the valuation – investment, buyout, accounting requirements etc.

- Specific attributes of the entity – asset-based, operations-based, R&D-based etc.
- The entity’s position in its life-cycle – a start-up, initial sales, fully active, a going concern, pre-liquidation etc.

The common methods for company valuation are as follows:

1. Liquidation price - using existing shareholders adjusted equity.
2. Market price - using price set in recent transactions.
3. Comparable market value - using the adjusted market value of similar companies (usually using revenues, EBITDA or net profit multiplier).
4. Asset value – summing up net fair value of assets and obligations.
5. Activity value - estimating the company’s economic value, using traditional economic methods, such as FDCF.
6. Unit based value – applying common unit value to a known quantity, such as number of subscribers, yearly quantity of material sold etc.

The company was established only recently and it has no material assets. Furthermore, intangible assets such as IP belong to other members of the group. Therefore, methods 1, 2 and 4 are of no relevance; method 6 is not used in medical devices’ companies.

The company’s value is derived from the results of its commercial activity – meaning company value equals enterprise (activity) value. The common method for measuring the fair value of an activity is FDCF – estimation of the discounted net cash flow the activities are expected to generate. Therefore, FDCF was selected as the method of choice, with net profit multiplier serving as a comparative indication.

Application of the FDCF Method

FDCF (Free Discounted Cash Flow) is a method summing up future cash flow, discounted to represent present value:

$$DCF = \frac{CF_1}{(1+r)^1} + \frac{CF_2}{(1+r)^2} + \dots + \frac{CF_n}{(1+r)^n}$$

DCF requires computing or assuming the following parameters:

- Forecasted cash flow – based on the following parameters:
 - o Cash flow from operations
 - o Capital expenditure
 - o Working capital requirements
 - o Tax
- Period (specific number of years or infinite period)
- Discount rate
- Long-term growth rate

Hereinafter is a detailed analysis of all required parameters:

Market Analysis and Sales’ Forecast

According to the licence agreement, the company can sell the products only in the US and Canada. TAM (total available market) for LaborAide is therefore the number of yearly births in the US and Canada – app. 4.3 million. This is also the TAM for FeedAide.

TAM for the group’s future product for migraine (“MigrainAide”) is even bigger – studies estimate the number of patients at 12% of the entire adult population.

The following table summarizes the US TAM:

Units		2016	2017	2018	2019	2020
Laiboraide & FeedAide Market Size	USA Birth Market Size	1,989,778	3,995,474	4,011,456	4,027,502	4,043,612
	Growth Rate	0.40%	0.40%	0.40%	0.40%	0.40%
MigrainAide Market Size	USA Population	322,762,018	325,247,286	327,751,690	330,275,378	332,818,498
	Growth Rate	0.77%	0.77%	0.77%	0.77%	0.77%
Migraine market (12% of Americans)		38,731,442	39,029,674	39,330,203	39,633,045	39,938,220

The basic assumptions used by the company to forecast sales are as follows:

- Start of sales:
 - LaborAide – Q3 2016
 - FeedAide – Q3 2017
 - MigrainAide – Q3 2018
- Penetration rate, to be achieved gradually until 2020:
 - LaborAide & FeedAide – 7.2%
 - MigrainAide – 3.6%

- Canadian market:
 - Total population: 36.3 milion
 - Start of sales: Q1 2018
 - Sales expected to be proportionate to US sales

Accordingly, sales’ forecast in units is as follows:

Units sold		2016	2017	2018	2019	2020
Penetration Rate	Overall	0.5%	1.8%	3.6%	5.4%	7.2%
Total Laiboraide units sold		9,949	71,919	144,412	217,485	291,140
Total Feedaide units sold			25,171	108,309	217,485	291,140

- Marketing channels – the initial focus is on sales through pharmacy and maternity chain stores (as mentioned above, an agreement has already been signed with BabiesRUs). Gradually the portion of direct sales (online, hospitals etc.) is expected to grow, as shown in the following table:

Units		2016	2017	2018	2019	2020
Customer split	Online & Hospitals	15.0%	20.0%	30.0%	35.0%	40.0%
	Pharma chains and others	85.0%	80.0%	70.0%	65.0%	60.0%

- Pricing – the average selling price differs according to the marketing channel:
 - Chain stores - \$ 20 per unit
 - Direct - \$ 55 per unit

Based on these assumptions, the company’s sales forecast is as follows:

	2016	2017	2018	2019	2020

P&L Forecast

P&L forecast were prepared, using the following data and assumptions:

- Revenues – according to the sales’ forecast, as detailed above.
- Costs – computed according to the following assumptions:
 - o COGS – as the company is merely a distributor/wholesaler, the actual direct cost of each unit is the CIF price paid to Medivie UK - \$ 5.5, going down to \$ 3 in 2020.
 - o Other direct costs – 20% commission for direct sales + 1% misc. costs on all sales + purchase of reserve stock to the amount of 0.5% of market size.
 - o Sales & marketing – according to management’s assumptions, costs will go up from \$ 700 K in 2016 (half year) to \$ 6.3 M in 2020
 - o Operational and G & A costs – according to a detailed estimate supplied by the company:

Free Cash Flow

Cash flow for each year is computed from the following elements:

- Net profit – as computed above.
- CAPEX – as Medivie USA is a marketing company, it requires little to none capital expenditures.
- Working capital – in view of market payment terms and of the company’s main supplier being a related party, no working capital requirements were assumed.

According to this analysis, free cash flow equals yearly profit after tax.

Forecast’s Period and Long Term Growth Rate

The analysis utilizes the “Going Concern” approach, meaning that the company is expected to continue generating cash flow indefinitely, beyond the specific forecast’s period. For that purpose, the last year of the forecast (2020) is representing a typical year in the long term.

Long term DCF (in addition to the forecast’s DCF), also called “Terminal Value”, is computing by dividing a typical year’s cash flow by the discount rate (see ahead), with the long-term growth rate deducted from the discount rate:

$$T_0 = FCF_{N+1} / (k - g)$$

In recent years, the number of births in the US has been quite stable, suggesting minimal growth. However, as population growth is positive and as the forecast does not address future products, we assumed long-term growth rate to be 1%.

Discount Rate

Discount rate is normally computed according to the WACC model, which computes a weighted average of the cost of debt and the cost of equity, taking into account industry and company special characteristics:

$$WACC = \frac{D}{D + E} K_d + \frac{E}{D + E} K_e$$

As Medivie US is a new company with no debt, the WACC was not specifically computed, but derived from Damodaran (NYU) database healthcare products' companies, with a company-specific risk factor added:

- Industry WACC – 8.47%
- Risk premium, given the initial stage of the activity and adjustment to size – 6%
- Discount rate (rounded) – 14.47%

FDCF Computation

According to the above parameters and computations, FDCF for Medivie US is as follows:

	2016	2017	2018	2019	2020
Free Cash Flow	-1,406,296	-1,682,456	3,472,820	10,309,930	26,979,639
WACC	14.47%	14.47%	14.47%	14.47%	14.47%
Discounted Cash Flow Until 2021	-1,228,489	-1,283,904	2,315,077	6,003,898	13,724,865
Permanent Value					19,531,448
Total FDCF					101,864,338
					<u>121,395,785</u>

According to this computation, company value is app. \$ 121.4 M.

PE Multiple Method

As mentioned above, the multiple method may give additional comparative indication for value. The ratio chosen was P/E (market value divided by net earnings).

To compute the multiple, we analysed a sample of 25 traded US companies from the medical devices sector. The results are as follows:

- Minimum – 21.43
- Maximum – 37.25
- Average – 28.88

The DCF value computed above represents a multiple of 35 on 2018 (first year with all products sold) net earnings and a multiple of 4.5 on the representing year’s net earnings. These results provide further proof to the validity of the DCF valuation.
