Our Business

NAMA-J Farms Inc (NAMA-J) was incorporated in the state of FL as a profit corporation on 8/13/2016. The funds raised at the target or maximum level will be used to develop a poultry farm in Hendry County FL where chickens will be purchased, raised, slaughtered and sold according to Halal and Kosher standards. Chickens are raised and slaughtered on a 45-day cycle. The operation is environmentally friendly, cost effective and stress free for the chickens. Slaughtered chickens will be sold to supermarkets chains and retail outlets that cater to the Jewish and Muslim populations. If the target of \$100K is raised, land for the farm will be leased. If the maximum of \$1M is raised, the land will be purchased. In either case it will take about 3 months from the receipt of the funds for the farm to be operational.

Market

Market: A recent survey indicates that the market for chickens produced by Halal and Kosher standards is on the rise in Florida. One asient factor is the rapid growth of the local Muslim population. About 20% of world population eats meals processed in the Halal format, which has been adopted by many farms.

Competitors

NAMA-J faces competition from other producers of poultry and meat products. The demand for chicken and special processed poultry is strong. Factors affecting the demand for chickens are: increased family sizes, increased restaurant outlets, demand for healthy food, shift in choice to white meat, easy preparation, and preference of small scale handled food.

Revenue, Cost, Profit, and Forecast

NAMA-J expects to be profitable from Year 1. If the target fund is raised, the following are expected for years 1, 2, and 3, respectively: revenue: \$218K, \$218K, \$218K; costs: \$182K, \$182K, \$182K; profit: \$36K, \$36K, \$36K. If the maximum fund is raised, the following are expected for years 1, 2, and 3, respectively: revenue: \$1.3M, \$1.7M, and \$2.3M; costs: \$1.0M, \$1.3M, \$1.8M; profit: \$0.3M, \$0.4M, \$0.5M.

Use of Investment Funds

If the target fund is raised, a small-scale poultry operation will be developed on leased land with major costs of: leasehold acquisition and development \$53K, operational costs \$27K, and marketing and consulting fees \$20K. If the maximum fund is raised, a large-scale poultry farm will be developed with major costs of: land acquisition and development \$617K, marketing and consulting fees \$200K, operational costs \$156K, and work vehicles and equipment \$25K.

Financial Conditions

The funding request is critical to the NAMA-J's operation. Without funds raised, NAMA-J will not be able to construct a chicken farm and raise chickens. Once the funds are raised, NAMA-J anticipates to use funds immediately and to be profitable, which is the first financial mission. NAMA-J will rely on the revenue generated from selling chickens and the funds raised.

Stock Related Issues (e.g. impact of having common stock, seniority of outstanding debt or equity securities)

The issuance of new shares would dilute the value and voting rights of the shares being offered to investors as would the issuance of stock options and optional securities were the options exercised. There are no restrictions on the transfer of the shares being offered to investors other than those imposed by Regulation CF. The shares being offered to investors have no restrictions with respect to the distribution of dividends.

Class and Terms of Securities and Limitations on Voting Right

NAMA-J has one billion authorized perpetual shares of common stock with unlimited voting rights, 1000 of which are issued. 80M shares are granted to the owners and up to 20M will be offered to investors depending on the amount of funds raised.

Other Issues Related to Equity

Annual Report Filing

The Regulation Crowdfunding (Reg CF) requires a company to file annual report after receiving funds. Because NAMA-J is a new company and is in the process of raising funds, it is not required to file annual report yet. NAMA-J will file and/or terminate filing annual report as required by the Reg CF.
