Édipo Daniel Aragão

Sr. Java Developer at allpago

January 12, 2018, Édipo worked with Gabriella in different groups

Gabriella is very focused professional, with an expressive knowledge about QA. We worked together for some mounts, and she helped me a lot offering knowledge and supporting to decisions related to QA and Development. She creates strong based points of view always built over good sense and logic and I really consider it as needed skill.
