Providing accessible resources while Generating revenue from the Resources themselves.

Communities in every state throughout our Country are in need of a method to create accountability among those that police their streets.

There is an insatiable need throughout our Nation to solve a perceived commonality in the way police interact with minorities.

Financials 1.

Our revenue is generated from the Attorneys who are providing this Free Service.

- WHY WOULD THEY PAY US?
 - Attorneys spend up to \$500 PER AD CLICK on sites like Google Bing & Yahoo.
- Attorneys Target People who are looking for representation most commonly Traffic Violations.
 - Furthermore. Attorneys depend on the Individuals own recollection of the event. There are things the Attorney may have noticed during the encounter which could assist in their defense, but without witnessing it first hand, they rely on untrained testimonial observations.

LiveEsq's Traffic Stop App also connects the Attorneys with a Local Driver

- - This increases the probability that if a Ticket were received, the Attorneys are more likely to be Retained.
