## PROCEDURE FOR PURCHASING SECURITIES

### Minimum Commitment and Closing Date

To participate in this Offering, each investor must purchase securities in a minimum dollar amount equal to 100 . The securities are being offered until Tuesday, August 01, 2017, unless notice is provided to investors at least five (5) business days prior to any change in such date. The Company reserves the right to change the closing date with such notice and with a minimum twenty-one (21) day period in which to carry out the offering.

### Account Opening Requirement

If a potential investor is interested in participating in the Offering, such investor must first open an account with the Intermediary by registering at [www.GrowthFountain.com](http://www.GrowthFountain.com). During such registration process, the Intermediary may request financial information to determine investor’s eligibility and may require the acceptance of certain terms and conditions applicable to investor’s use of the Platform. In addition, prior to communicating any investment commitment, each investor must (a) consent to electronic delivery of materials, (b) provide a representation that such investor has reviewed the educational material available from the Intermediary delivered pursuant to Rule 302 of Regulation Crowdfunding, (c) provide a representation that such investor understands that the entire investment amount may be lost and that such investor could bear such loss, (d) complete a questionnaire demonstrating such investor’s understanding that there are limitations on cancelling an investment commitment and that it may be difficult to resell securities acquired in this Offering. Each potential investor is subject to investment limitations established by the Securities Act (15 USC 77d(a)(6)(B)) and Regulation Crowdfunding (17 CFR 227.100(a)(2)).

### Offering Process After Registration

Each Offering is listed on the Platform for a minimum of twenty-one (21) days and the Offering period may extend beyond such twenty-one days if set forth in the Material or each investor is properly notified. During that period (or later if the investor is notified of a change), the Company must aggregate investor commitments that are equal to or greater than the Offering minimum target amount. The process generally involves the following steps: (1) an investor registered on the Platform identifies a desired offering and communicates an investment commitment to purchase securities in such offering by completing a subscription agreement; (2) the Intermediary confirms the investor's eligibility to participate in the Offering; (3) the investor transfers the funds required to purchase the offered securities to the Intermediary's designated third-party FDIC insured depository (4) once the targeted minimum offering amount is achieved or exceeded through investor commitments collectively, the issuer would be able to close the transaction on the original target closing date or an earlier date with at least five business days prior notice to the investors; and (5) the subscription agreement will be countersigned by the issuer; and (6) the funds would be released by the third-party depository to the issuer, less any required fees sent to the Intermediary, and the issuer would issue the securities to the investor.

#### Method for Investor Cancellation of a Commitment

Investors may cancel an investment commitment at any time up until forty-eight (48) hours prior to the applicable closing date. The process for any such cancellation is for the investor to log onto the Platform and indicate a cancellation by selecting such option in connection with the applicable offering once they have logged into their account and accessed their investor dashboard. With respect to specific scenarios: (1) if the target minimum offering amount is not met prior to the target closing date, then the Intermediary will automatically cancel all investment commitments and notify each investor of the return of their respective funds, (2) if the issuer reaches the target minimum offering amount prior to the deadline identified in the offering materials, then it may close the offering early (if it provides notice about the new offering deadline at least five business days prior to such new offering deadline) provided that the investor would be able to cancel the investment commitment before the 48-hour period prior to the new offering deadline, (3) if the issuer notifies the investor of a material change to an offering, then the investor must reconfirm their investment commitment after the material change is made to the offering, or such investor's investment commitment will be cancelled and the committed funds will be returned. In any situation where a return of investor commitments is triggered, such funds will be returned without any accrued interest and less any fees incurred.

#### Method for Delivering the Securities

The issuer will record all investments in book entry form so that no certificates would be delivered. The fully executed Subscription and Purchase Agreement relating to the Offering will serve as a written record of the transaction and will be available on the Platform via the investor dashboard.

The investor will also receive email confirmation of the successful closing of the Offering, which will confirm the number of securities purchased and the amount paid.

#### Use of Third Party Services

Each investor commitment made in connection with the completion of a Subscription Agreement will be held in a depository account maintained for the benefit of investors. The Intermediary will not hold any investor funds or issuer securities in connection with this Offering.

#### Use of Communication Channel

The Intermediary makes available on the Platform certain communication channels by which registered users can communicate with representatives of the Company. While any person can view the postings made within the communication channel, only registered users can post questions or comments. Investors have the opportunity to use the communication channels in connection with their evaluation of the securities in this Offering to support their diligence effort and to clarify any information provided in the Material. The Intermediary is not serving as an agent or representative of the Company in connection with the operation of the communication channels and is not providing any investment advice through the communication channels. All promoters and representatives of the Company participating in the communication channels on the Platform are required to disclose their relationship with the Company.

#### Intermediary Compensation

The Intermediary will be compensated a dollar amount equal to 6% of the total Offering amount if the Offering is successfully completed and closed. Such compensation is paid only if the Company's total Offering proceeds meet or exceed the target minimum offering amount indicated in this Material. Additionally, the Company reimburses the Intermediary for certain fees that the Intermediary passes through to the Company, such as the costs related to performing background checks and establishing an FBO Account. These fees are one-time fees and are not dependent on the success of the Offering. In total, the Intermediary will receive, directly or indirectly, a dollar amount equal to the sum of all the following: (a) a transaction fee equal to 6% of the total amount of monies raised in the Offering for the purchase of securities offered by the Company, payable upon success, (b) a registration and processing fee equal to \$500 payable upon registration, and (c) a participation fee equal to \$10 committed to by the investor. Participation fees that are attributable to each investor are not included in any calculation of total Offering amount.

#### Conditional Commitment

Purchase of the securities offered in this Offering shall be made pursuant to the execution of a Subscription Agreement available on the Platform, which contains, among other things, certain

representations, warranties and covenants. The Company must secure investor commitments that equal or exceed the minimum target amount for the Offering prior to the applicable closing date, or the Offering will be canceled and investor funds committed in connection with the Offering will be returned. An investor commitment is conditional after being made, but only up until the time that is 48 hours before the applicable closing date. For the 48-hour period prior to the applicable closing date, investor commitments may not be cancelled by the investor but in certain circumstances may still be returned (e.g. if the target minimum amount is not met). As a reminder, investors are required to reconfirm their investment commitment after receiving notice of a material change to the Offering. If an investor takes no action to reconfirm the investment commitment after the Company notifies the investor of a material change, the commitment will be cancelled and funds relating to that Offering returned, less any fees incurred, without any accrued interest.

The securities in this Offering are non-voting common stock. Dividends upon the capital stock of the Company, if any, subject to the provisions of the Certificate of Incorporation, may be declared by the Board of Directors at any regular or special meeting, pursuant to law. The Company does not anticipate issuing any dividends in the near term.

### Voting Rights and Limitations

The Shares have no voting rights and will be excluded from all voting. Additionally, the Shares have no liquidation or preference rights. The rights of shareholders may be modified by a change to the Company's governing documents.

### Restrictions on Transfer of Shares

Consistent with Subpart E of Regulation Crowdfunding (17 CFR 501), securities issued in this Offering pursuant to section 4(a)(6) of the Securities Act (15 U.S.C. 77d(a)(6)) may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred to a limited group including (a) to the Company, (b) to an accredited investor, (c) as part of an offering registered with the SEC, or (d) to a family member, trust or equivalent. In connection with any participation in this Offering, each potential investor may be required to agree not to dispose of or otherwise sell or transfer any of the Shares, until there is in effect a registration statement under the Securities Act covering such proposed disposition or if such disposition will not require registration under the Securities Act.

### Distinguishing the Securities

Differences between the securities being offered and the other classes of securities:

The securities being offered or non-voting shares that allow the economic participation in The Company without voting rights.

Ability of one class of security to materially limit, dilute or qualify the rights of another class:  
There is one class of common stock that is differentiated by voting and nonvoting rights. All common stock being sold during this offering is non-voting. If there is a Dissolution Event before this instrument expires or terminates, the Company will pay (i) first to the creditors and bondholders any amounts due and payable to them in connection with a Dissolution Event under the Company's certificate of incorporation and (ii) second an amount equal to the Purchase Amount, due and payable to the Investor immediately prior to, or concurrent with, the consummation of the Dissolution Event.

If there is a Dissolution Event before this instrument expires or terminates, the Company will pay an amount equal to the Purchase Amount, due and payable to the Investor immediately prior to, or concurrent with, the consummation of the Dissolution Event.

The Purchase Amount will be paid prior and in preference to any Distribution of any of the assets of the Company to holders of outstanding Common Stock by reason of their ownership thereof.

Ability of any principal shareholders to affect the purchasers of the securities being offered:  
As holders interest in the Company, the shareholders may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the shareholders may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company or change the management of the Company. The shareholders may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

#### Valuation of the Securities

The offering price of the securities in this Offering has been established by the Company and does not necessarily bear any specific relation to the assets, book value or potential earnings of the Company or any other recognized criteria of value. The Shares have not been registered under the Securities Exchange Act of 1934 and have not been traded or quoted on any exchange or quotation system. There is no public market in which shareholders may sell their Shares, and there can be no assurance given that such a market will ever develop. The securities offered hereby are restricted by law and the ability to transfer and interests in the Shares is severely limited.

Method by which the offered securities are valued:

Other

Have Not Films used a combination of independent CPA review and market value analysis of current intellectual property inventory to determine valuation.

This discussion also includes an identification of any known material changes or trends in the financial condition and results of operations of the Company during any time period subsequent to the period for which financial statements are provided.

#### Capital Resources:

Have Not Films has financed our operations through capital investment from the founders which consisted of:

\$15,000 in February 2016 to Reel King Media LTD in the UK to finance our first international production titled Harbour which is in post-production being prepared for sale during the 2017 international film market.

\$14,425 from March 2016 to October 2016 to cover operating cost and proof of concept film productions.

#### Historical Results of Operations:

As an early-stage company, we have invested heavily in development and key alliances within the film, animation, graphic novel, and animation industry. We expect to record our first profits in the fourth quarter of 2017.

Have Not Films has a coproduction agreement with Project 8 Films to produce the film Space Racer. The contract outlines terms for the purchase of the feature script Space Racer from Have Not Films for \$300,000. This money will be paid to HNF once the film has received 30% equity investment to trigger the funding sequence.

Additionally, Have Not Films owns the intellectual rights to the 11 screenplays properties titled. Shaolin WC a.k.a. Legacy of The Dragon, 10th Moon Volume:1, Free Dead or Alive, Hound of Ulster, Flame That Burns, The Book of Names, Secret in The Bayou, Two Weeks Before Never and Warrior

and The Beast. Have Not Films currently retains full rights to merchandising, graphic novels, and animation for all the properties listed above.

Have Not Films owns 30% of the screenplay titled Modified and full owner of the graphic novel titled Modified.

HNF has a total of 11 intellectual properties which we have used to the writer guild's minimum of approximately \$65,000 for original screenplays to value HNF's inventory at \$715,000. (The rate table can be viewed using the link below)

#### Material Indebtedness

The Company has indicated that it has no outstanding material indebtedness.

#### Previous Issuer Offerings

The Company has indicated that it has not conducted any prior exempt offerings in the past three years.

#### Financial Statements

The issuer's financial statements are attached as Exhibit B.

For an offering conducted in the first 120 days of a fiscal year, the financial statements provided may be for the two fiscal years prior to the issuer's most recently completed fiscal year; however, financial statements for the two most recently completed fiscal years must be provided if they are otherwise available. If more than 120 days have passed since the end of the issuer's most recently completed fiscal year, the financial statements provided must be for the issuer's two most recently completed fiscal years.

## **CROWDFUNDING RISK FACTORS**

An investment in the Company's securities involves substantial risk. Prospective investors should carefully consider the risk factors referred to in this Material. An investor should not invest any funds in the Offering unless he or she can afford to lose his or her entire investment. In making an investment decision, investors must rely on their own examination of the Company and the terms of the Offering, including the merits and risks involved. The Shares have not been recommended or reviewed by any federal or state securities commission or regulatory authority. There is no ready

market for the sale of the Shares and it may be difficult or impossible for an investor to sell or otherwise dispose of the Shares.

#### Risks from Relying on Issuer Supplied Information

There is the risk that some of the information supplied by the Company may be inaccurate. The management of the Company has provided all of the information stated in this Material without any third party verifying or investigating such information. The Company makes no express or implied representation or warranty as to the completeness of this information or, in the case of projections, estimates, future plans, or forward looking assumptions or statements, as to their attainability or the accuracy and completeness of the assumptions from which they are derived. It is expected that each prospective investor will pursue their own independent investigation. Forward-looking statements are subject to certain risks, trends and uncertainties that could cause actual results to differ materially from those projected.

#### Risks as a Minority Holder

Purchasers of a minority ownership have risks relating to limited control, limited information and limited rights. Minority owners have no control over the marketability and value of their purchased securities and they may be required to hold onto their minority ownership position for an indefinite period. Additionally, minority owners must address the following risks:

Minority owners have no right to participate in any management decisions of the Company or the day-to-day operations. There is the risk that the majority owners make decisions or take actions that a minority owner thinks is bad for the Company. A minority owner has limited ability to influence the governance and operations of a Company.

Minority owners have limited rights to information beyond those filings that are required by law to be made available. There is the risk that minority owners may be denied immediate information about the Company's performance or corporate affairs.

Minority owners have limited rights, if any, to demand current distributions from an operating business. Majority owners likely have the right and power to avoid making any distributions of profits at their discretion. There is also the risk that the management of the Company pursues a spending plan that causes the Company not to generate any profits to be distributed.

Minority owners have limited rights, if any, to have their interest bought out. There is the risk that a minority owner will want to sell their interest and they will have no right to force the Company to buy them out. There will also be liquidity risk if there is no secondary market for the Company's securities.

Minority owners have limited input into fundamental corporate changes such as sale of the Company. There is a risk that a sale could be structured in a way to avoid certain payouts to minority owners, such as a sale of assets over time with the proceeds reinvested in another business.

Minority owners may have interests that are different than shareholder-officers or shareholders that are part of the management team of the Company. There is the risk that minority owners perceive a conflict of interest if, for example, the managers that are shareholders receive a significant raise.

Additionally, there is the risk that a minority owner will want to remove a manager or board member but have no independent power to do so.

#### Risks Regarding Corporate Actions

The Company may take certain corporate actions that could impact investors that purchase the Shares.

Regarding the additional issuances of securities, there is the risk that an investor has their ownership percentage diluted if, for example, the Company decides to raise additional amounts in the future.

There is also the risk that an investor is excluded from the opportunity to participate in future fund-raising so that they are unable to maintain their ownership percentage.

Regarding the authorization of new securities with different rights, there is the risk that a future investor is able to obtain rights that are superior to the rights afforded to the purchasers of the security available in this offering.

To the extent that there is ever an offer to repurchase the Shares by the Company, there is the risk that investors may feel pressured to sell their Shares to the Company without fully participating in or capturing the potential increase in value of such Shares.

Regarding a sale of the Company or of assets of the Company, there is the risk that any such transaction fails to maximize the value of the Company's securities. The investor will be required to rely on the business judgement of the management team and the Board of Directors of the Company so there can be no guarantee that the investor will receive the full market value of their Shares

Regarding transactions with related parties, there is the risk that the Company is placed in a position that creates the possibility of a conflict of interest. The Company may choose to participate in transactions with affiliates and related persons, with limited disclosure required to investors.

#### Risks from an Investment in Securities

This Offering is being made on a conditional basis with no minimum number of Shares guaranteed to be sold. The Company has not engaged the services of an underwriter with respect to the Offering, and there is no guarantee that the minimum required amount of proceeds will be realized by the Company.

The Shares are not guaranteed or insured by any government agency or by any private party. The amount of earnings is not guaranteed and can vary with market conditions. The return of all or any portion of capital invested in the Shares is not guaranteed, and the Shares could become worthless. Investors should be aware of the potentially long-term nature of their investment. Each purchaser of Shares will be required to represent that it is purchasing such securities for its own account for investment purposes and not with an intention to resell or distribute. Purchasers may be required to bear the economic risks of the investment for an indefinite period of time. There is currently no public market for the Company's securities. Ultimately, each investor's risk with respect to this Offering includes the potential for a complete loss of their investment.

### Risks from Uncertain Capital Needs

The Company believes that the net proceeds of the Offering will be sufficient to fund the implementation of the Company's business plan, operations and growth for the foreseeable future. Nevertheless, in the event that additional capital is required, no assurance can be given that additional financing will be available at all or on terms favorable to the Company. If adequate funds were not available to satisfy either short or long-term capital requirements, the Company may be unable to continue in business, with a resulting loss of all or part of investments made by the Company's investors. Moreover, if additional equity securities are issued in connection with future financings, the ownership percentages of then shareholders could be diluted. Dilution of ownership percentages may also occur as a result of equity securities issued pursuant to possible sales or grants to existing shareholders, officers, managers, consultants, advisors, and/or employees.

### Risks from Relying on an Exemption from Registration

The Shares are being offered for sale in reliance upon certain exemptions from the registration requirements of the Securities Act and applicable state securities laws. If the sale of the Shares were to fail to qualify for these exemptions, purchasers may seek rescission of their purchases of the Shares. If a number of purchasers were to obtain rescission, the Company would face significant financial demands, which could adversely affect the Company as a whole, as well as any non-rescinding purchasers.

## **ISSUER-SPECIFIC RISK FACTORS**

### **MARKET AND CUSTOMER RISK FACTORS**

#### **Film Business**

HNF is in the organizational stage and is subject to all the risks incident to the creation and development of a new business, including the absence of a history of operations and minimal net worth. In order to prosper, the success of HNF will depend partly upon the ability of management to produce a film of exceptional quality at a lower cost which can compete in appeal with higher-budgeted films of the same genre. In order to minimize this risk, management plans to participate as much as possible throughout the process and will aim to mitigate financial risks where possible. Fulfilling this goal depends on the timing of investor financing, the ability to obtain distribution contracts with satisfactory terms and the continued participation of the current management.

The theatrical success of a motion picture remains a crucial factor in generating revenues in other media such as videocassettes and television. Due to the rapid growth of technology, shifting

consumer tastes, and the popularity and availability of other forms of entertainment, it is impossible for HNF to predict the overall effect these factors will have on its potential revenue and profitability.

The entertainment industry in general, and the motion picture industry, in particular, are continuing to undergo significant changes, primarily due to technological developments. Although these developments have resulted in the availability of alternative and competing forms of leisure time entertainment, such technological developments have also resulted in the creation of additional revenue sources through licensing of rights to such new media, and potentially could lead to future reductions in the costs of producing and distributing motion pictures. Although, Have Not Films (HNF) has based our business model on the use of these new technologies there is no guaranty these new technologies will provide HNF with profitability.

Investment in the film industry is highly speculative and inherently risky. There can be no assurance of the economic success of any motion picture since the revenues derived from the production and distribution of a motion picture depend primarily upon its acceptance by the public, which cannot be predicted. The commercial success of a motion picture also depends upon the quality and acceptance of other competing films released into the marketplace at or near the same time, general economic factors and other tangible and intangible factors, all of which can change and cannot be predicted with certainty.

## FINANCIAL RISK FACTORS

## OPERATIONAL RISK FACTORS

We have a limited operating history upon which you can evaluate our performance.

We have a limited history upon which an evaluation of our prospects and future performance can be made. Our proposed operations are subject to all business risks associated with new enterprises. The likelihood of our creation of a viable business must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the inception of a business, operation in a competitive industry, and the continued development of advertising, promotions, and a corresponding client base.

## We plan to implement new lines of business or offer new products and service.

In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients, or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

## Incidents of hacking, identity theft, cyberterrorism or climate change may adversely impact our operations.

Our business operations may at times be dependent upon digital technologies, including information systems, infrastructure and cloud applications. The U.S. government has issued public warnings that indicate that such business information technology might be susceptible to cyber security threats, including hacking, identity theft and acts of cyberterrorism. Additionally, our critical systems may be vulnerable to damage or interruption from earthquakes, storms, terrorist attacks, floods, fires, power loss, telecommunications failures, computer viruses, computer denial of service attacks, or other attempts to harm the systems, whether man made or acts of nature. Many of these systems will not be fully redundant, and disaster recovery planning cannot account for all eventualities. As cyber incidents continue to evolve and as severe weather related events become more extreme, we may be required to expend additional resources to modify or enhance our protective measures or to investigate and remediate any vulnerability to cyber incidents or natural disasters.

## Certain future relationships have not been established and existing relationships are not guaranteed to endure.

HNF has established and will establish certain relationships with others. We will need to maintain such relationships and, in some cases, establish new ones or replace existing ones. There will be several agreements and documents that remain to be negotiated, executed, and implemented with respect to certain aspects of our planned operations. In some cases, the parties with whom we would need to establish a relationship may not yet be identified. If we are unable to enter into these agreements or relationships on satisfactory terms, our operations could be delayed or curtailed, expenses could be increased, and profitability and the likelihood of returns to investors could be adversely affected.

Our advertising and marketing efforts may be costly and may not achieve desired results.

Although we target our advertising and marketing efforts on current and potential customers who we believe are likely to be in the market for the products we sell, we cannot assure you that our advertising and marketing efforts will achieve our desired results. In addition, we periodically adjust our advertising expenditures in an effort to optimize the return on such expenditures. Any decrease in the level of our advertising expenditures, which may be made to optimize such return could adversely affect our sales.

#### COMPETITIVE RISK FACTORS

#### PERSONNEL AND THIRD PARTY RISK FACTORS

In order for the Company to compete and grow, it must attract, recruit and develop the new personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management personnel to develop additional expertise. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in development, loss of customers and sales and diversion of management resources, which could adversely affect operating results.

#### LEGAL AND REGULATORY RISK FACTORS

We rely on various intellectual property rights in order to operate our business and these rights may be challenged.

The Company's intellectual property rights may not be sufficiently broad and may not provide a significant competitive advantage. The steps that the Company has taken to maintain and protect its intellectual property may not prevent it from being challenged, invalidated or circumvented. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons. The Company's failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect its intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact the Company's competitive position and results of operations'.
