

Exhibit E - Video Script

- Hi - Did you know American Manufacturing was stronger than ever?
- Did you know that for the first time in decades it's more cost effective to manufacture products in America vs. China?
- It's true!
- Now, imagine you're a small business in Kentucky, or a roaring enterprise in London and you want to develop a product in America. How would you do it today?
- Unfortunately, there's no open, automated and interactive platform that connects the world to American Manufacturers.
- I know, Crazy, right?
- Introducing Made on Main, the first fully comprehensive and open platform that connects the world to American Manufacturers.
- Buyers have the choice of submitting custom orders for materials or finished goods, or buying already made goods from American manufacturers.... no more having to pick up the phone and spend hours searching on Google for the right manufacturer
- They also have the ability to source materials and products from thousands of American manufacturers ensuring the highest quality and best prices, ultimately driving down their costs considerably
- For the average American manufacturer, Made on Main provides unprecedented access to new customers and markets, driving sales and creating jobs in the USA!
- Help support our mission by investing in Made on Main today
Together we will enable the world to rediscover Made in America
