Draft Registration Statement on Form S-1

Prospectus Summary, page 1

1. We note your disclosure here, in MD&A and in the Business section that you and your partners identified a viable antibody drug candidate for your recent collaboration with Eli Lilly within three weeks that advanced into clinical testing 90 days after initiation of the program. Please balance the disclosure in the Overview by noting in this section, as you do on page 16, that the speed by which this candidate progressed is "unprecedented and is a result of the FDA's flexibility to expedite" the candidate. Please also disclose, as you do on page 23, that there is no assurance that you will be able to identify a potential drug candidate for human testing in this timeframe again in the future.

2. Please revise Figure 1 on page 2 and Figure 5 on page 107 to make the smaller print more legible.
3. We note your disclosure regarding certain interim Phase 2 clinical data for LY-CoV555 on page 3 and page 100. In the Business section, please expand your disclosure to provide more details regarding this Phase 2 clinical trial, including the duration of the trial, the number of subjects or patients in such trial, how the product candidate was administered, who conducted the trials, the dosage used, any serious adverse events experienced and the number of patients who experienced them, the primary and secondary endpoints and whether they were met to the extent that such information is available. Alternatively, please remove this statement from the Prospectus Summary and the Business section.
4. We note your disclosure here, in MD&A and in the Business section that you have entered into agreements for 94 partnered discovery programs, the majority of which include the potential for milestone and royalty payments from your partners. Please revise to disclose that you have only had one program result in clinical milestone payments to you and you have not yet had a program receive clinical marketing approval.

Please supplementally provide us with copies of all written communications, as defined in Rule 405 under the Securities Act, that you, or anyone authorized to do so on your behalf, present to potential investors in reliance on Section 5(d) of the Securities Act, whether or not they retain copies of the communications.

9. We note that you have performed research for various partner arrangements and product candidates.
