If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. RISK FACTORS

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

The addressable market size of 26.3 million swimmers may not provide a large enough paying pool to create a viable long-term business.

MySwimPro's business model is partially dependent on third party mobile distribution partners including Google and Apple. Should an event cause them to remove us from the app store our ability to grow would be significantly delayed.

MySwimPro's technology infrastructure is dependent on third party software services including: Amazon Web Services, Android SDK, IOS SDK, MongoDB, Wordpress, GitHub, Fabric Crashlytics.

MySwimPro's internal communication depends on third party tools including: Trello, Slack, SendGrid, Google Apps.

MySwimPro uses third party social media platforms to increase exposure and brand awareness including: Facebook, Twitter, Instagram, YouTube, Snapchat, Google Plus, LinkedIn.

The development of new features is a complex and time-consuming process that may not be completed within the expected roadmap.

Investors will not see a return on the company until acquired, IPO, or becomes profitable to start paying dividends to shareholders. None of those events are guaranteed to happen. Also, that dividends will only be paid if and when declared by the Board.

MySwimPro's access to future capital is limited and may hinder future growth opportunities through external funding.

MySwimPro's founders may not be able to work on the venture full-time in the event of health, family, or other extenuating circumstances thus slowing the company's progress and potential downturn.

MySwimPro's potential partner ecosystem is small with only a few opportunities for potential partnership, thus increasing the risk of a competitor capturing those opportunities and leaving MySwimPro with limited options.

MySwimPro holds no intellectual property on the content or features of software making it easier for a competitor to enter the market and capture market share.

MySwimPro is a first mover in a new market, thus enabling future, better funded competition to enter and copy product concepts, marketing initiatives and brand.

Costs of cloud infrastructure and other third party software services could increase at an unexpected rate and make operating the business become unsustainable.

MySwimPro has signed a side letter (available for viewing in the Appendix) associated only with Invest Detroit Venture's investment that requires 51% of the company's employees to be employed in the state of Michigan.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

Liquidity & Capital Resources

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 36 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 24 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering.

Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

MySwimPro, Inc. cash in hand is \$715,138.57, as of May 2019. Over the last three months, revenues have averaged \$99,468/month, cost of goods sold has averaged \$23,684/month, and operational expenses have averaged \$98,829/month, for an average burn rate of \$23,045 per month. Our intent is to be profitable in 0 months.

Our team size grew considerably in Q1 2020 adding one full-time team member and two part-time team members. There has been a minimal reduction in overall expenses due to the global pandemic; although subscription revenue has been reduced significantly starting in March 2020.

In the next 3-6 months, anticipated revenues are 50% of initial projection due to the global pandemic. A realistic goal would be \$60k in average monthly revenue over the next 6 months.

We received funding from the United States Federal Government Paycheck Protection Program (PPP). We have applied for additional public grants and will consider the private market for more capital if we determine it necessary to continue company operations.
