Chatter

THEORY:

1. People want to FaceTime friends more. In the current environment, it feels awkward to FaceTime anyone except your best friend.

Solution

THEORY (CONTINUED):

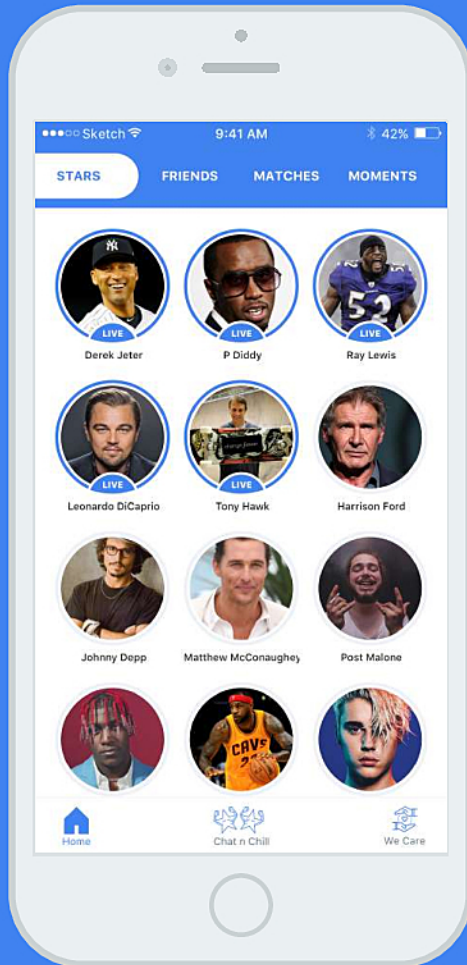

2. If given a choice, people would rather meet others through a **FaceTime call** rather than go down the Tinder → text and waste time → meet and get catfished **rabbit hole**.

3. Celebs are willing to host **1 minute FaceTimes** for fans for charity because it's **easier** than galas, fun, and a more **real** connection.

Proof is in the pudding - they're doing it on Chatter already and we just launched in **January**.
