

caylentTM
Container Management Platform

Caylent is a next-generation container management platform. We help software development teams automate containers, clouds, and microservices.

OPPORTUNITY

Containers are the fastest growing cloud-enabling technology. Projected growth in application containers from \$762 million in 2016 to \$2.7B by 2020.

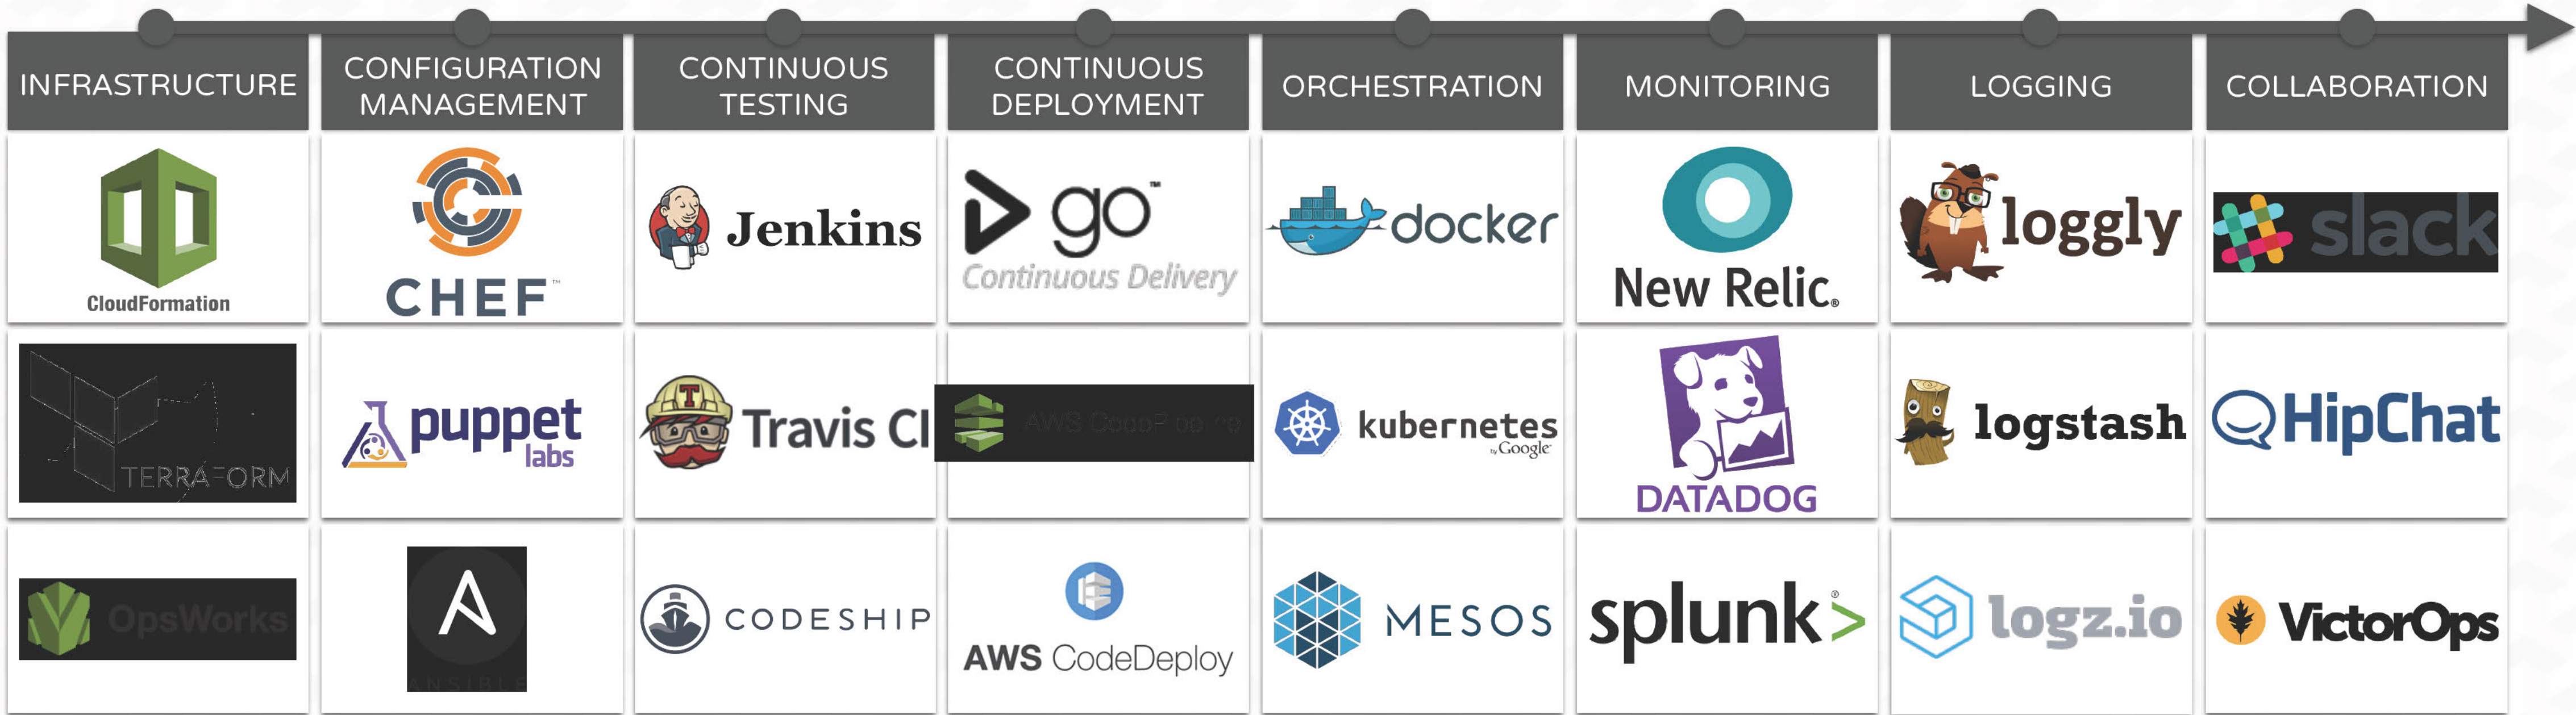

\$2.7B
CONTAINER
TECHNOLOGY MARKET

FORECASTED CAGR
OVER NEXT 5 YRS

PROBLEM

Deploying and managing containers involves **dozens of tools, scripts, APIs** that **all need to be painstakingly customized**. The building blocks exist, but the connective glue tying them together is missing.

SLOW

EXPENSIVE

SOLUTION

One platform service that integrates developer and operations workflow.
Intelligent, automated, self-service and cloud agnostic.
