500+ connections

While studying at Texas A&M and Harvard University, I was fascinated by the idea that industries, economies, and societies as a whole can be entirely disrupted by technology delivered in the right way, at the right time. With this philosophy in mind, I was one of the first employees at MP3.com, where w...

Experience

Co-Founder & Executive Chairman

Neurohacker Collective

2015 – Present · 4 yrs

Greater San Diego Area

At the Neurohacker Collective, we believe that humans perform at maximum capacity when they are empowered with the tools they need to make the best decisions, and when they take responsibility for making those choices. To aid in this philosophy, we have brought to bear the still new sciences of applied complexity and applied neuroscience to stake a leadership position in the human optimization market.

The Neurohacker Collective, is a venue for vetting, curation, co-creation, and sharing of the science, art, and technology of Neurohacking. Our pilot product, a cognitive enhan... See more

2011 – Present · 8 yrs

Greater San Diego Area

I Co-Founded Game B in 2011, to create an effective and collaborative collective intelligence that had the capacity to imagine both the problems and the solutions that 21st Century civilization will face. We gathered remarkable scientists, philosophers, technologists, story tellers and entrepreneurs with a deep commitment to the future.

Co-Founder**Swell, Inc.**

Oct 2013 – Dec 2015 · 2 yrs 3 mos

Greater San Diego Area

As one of the Co-Founders of Swell, I was an integral component in building and developing the company as an experiment in social theory. While serving as an e-commerce company, Swell simultaneously tests the possibility of cultivating a successful organization with complete transparency and peer-to-peer trust.

Trustee**Santa Fe Institute**

2007 – 2011 · 4 yrs

At Santa Fe Institute, which invented the science of complexity as well as transdisciplinary science, I was involved in a range of topics including futurism, artificial intelligence, complex evolutionary dynamics, conflict management, and crisis management.
