Investor Offering

REvolve Partners are raising a minimum of \$200,000 and maximum of \$1,000,000 at a thirty six (36) month minimum investment term with annual payments of interest accrued and profit sharing. They withhold the right to extend the investment term by up to an additional 24 months (5% annualized simple interest will be applied on the additional time the principle is held). In return, REvolve Partners is offering 5% annualized interest PLUS profit sharing in the amount of 10% of the total net profits distributed on a pro rata basis subject to deduction for project expenses the Company deems necessary to further the purpose of each project. However, ALL ordinary corporate expenditures of the Company other than project expenditures will not be included in the net profit calculation for the purposes of determining the available profit distribution pool. Ordinary corporate expenditures will be deducted only AFTER the 10% profit distribution has first been allocated to the investor. This methodology increases the potential return on investment for the investor despite the generally accepted method of deducting all company expenses prior to profit distributions. The average annual returns after interest and profit sharing (based on projected returns) are 9.3% with the minimum raise and 12.3% with the maximum raise.

Value Proposition

REvolve Partners is a real estate investing firm that gives investors the ability to participate in the success of real estate projects for as little as \$500. The Management Team will use the funds raised from this offering to invest in assets including multi-family condo conversions and buy and holds in high growth markets. With a combined 17 years of real estate experience and a vast network of independent contractors, the Management Team developed a proprietary underwriting engine to efficiently vet and qualify investment opportunities. They further systemized the project management structure to ensure that

every project is executed efficiently. They have truly leveled the playing field for all investors and those aspiring to participate in the real estate market by lowering investment minimums and offering a range of investment opportunities to minimize risk. REvolve Partners take on the risk while investors reap the benefits by sharing in the upside.

Use of Proceeds

The minimum raise is \$200,000 with a maximum of \$1,000,000 at a 36-month minimum investment term and the right to extend this up to an additional 24 months. The minimum raise will be used to cover down payment and other legal fees for one high equity real estate asset (detailed use of funds is outlined in section "Use of Proceeds"). In addition, as projects are completed and sold, net profits will be distributed annually and new projects will be started with available remaining investment funds received from investors to maximize use of funds and resulting profits.

Executive Summary

REvolve Partners' vision is to redevelop existing, distressed multifamily houses into updated, modern homes creating quality living in and around the city. Currently, there is a shortage of affordable, updated, modern housing in the City of Boston. Because of its historic nature much of the current housing inventory is old and outdated, REvolve Partners has developed a systemized approach to acquiring, updating, and renting/selling distressed houses in the Boston market. By creating these systems, they thoroughly understand project timelines, budgets, and exit strategies for each property.

The population in the city of Boston has grown over 23% in the last decade, however the housing inventory has decreased 2% during the same period according to recent NYU report (Aciteli, 2015). This discrepancy has led to huge demand for quality rentals and updated, modern condominiums. A team of local industry professionals identifies off market leads so that distressed properties with value-add potential are acquired, updated by specialized contractors, and listed back on the market as rentals or retail condominiums in less than 12 months.

REvolve Partners' financial model is unique in that money is made on each house purchased. Buy and hold properties produce monthly cash flow and equity over time, while condo conversions create profits after each project is complete. The equity from buy and holds and the profits from condos can be reinvested to continually grow portfolio of opportunities and maximize returns on invested funds.

REvolve Partners is a new partnership between the principals. Currently, the principals own 6 buy and hold properties with a monthly cash flow of \$6,375 and estimated net equity of \$1,000,000. They also own 8 condo conversion projects with a projected net profit of \$1,500,000 over the next 9 months. REvolve Partners is on track to purchase 3 buy and hold properties and 10 condo conversions over the next 12 months.

Maximum raise is up to \$1,000,000 at a 36-month minimum investment term with the right to extend the investment term by up to an additional 24 months (5% annualized simple interest will be applied on the additional time the principle is held). In return, REvolve Partners is offering 5% annualized interest plus 10% of the total net profits received from buy and hold projects and/or condo conversions. The Company will not deduct any ordinary business expenses from gross proceeds derived from operating buy and hold properties and/or selling condo conversions. Ordinary business expenses will only be deducted AFTER the 10% profit distribution pool has first been reserved for distribution to the investor. The Company plans to use investment funds to cover down payment and acquisition costs of, at least, one buy and hold and one condo conversion every 12 months.

Offering

REvolve Partners is raising a minimum of \$200,000 and maximum of \$1,000,000. The funds will be used for the acquisition of real estate to be renovated and resold or held for cash flow. The management team has extensive experience in this industry.

Investors will receive 2 potential benefits, as described below, with a minimum investment of \$500:

1) Debt Securities

A cumulative, but non-compounded, preferred return, on the aggregate investment amount at a fixed rate, per annum, equal to five percent (5%) simple interest to be paid annually. For the avoidance of doubt, and as an example of the potential return, an investment of ten thousand dollars (\$10,000) the Company will make annual interest payments of five hundred dollars (\$500) plus profit sharing as described below."

2) Profit Sharing

The company will use the funds from this offering as a down payment to acquire real-estate and for renovation costs. The standard model is to borrow money from banks or private lenders to fund the balance of the acquisition costs.

The intent is for the investment to maintain positive cash flow throughout the entirety of its life cycle and a maximum amount of profit is passed through to the investors by virtue of the order of payment of expenses, that being gross sale proceeds, less project expenditures as determined necessary solely by the Company, and investor profit distribution allocations being made excluding any deduction for ordinary corporate expenditures not specifically deemed a project cost. The operating model is structured so that investor returns (accrued interest + 10% profits) are placed in escrow as soon as a project is complete. At that same time, the remaining income is distributed to the partners (recorded as "management fees"). The Jumpstart Micro Portal success fee is the only non-investment related expense debited against this capital raise. All other general expenses (such as marketing costs, accounting costs, professional fees, etc.) are then paid by Revolve Partners, and not from investor profit distributions. This approach ensures maximizing value for investors by investing as much of the raised money as possible.

Distribution to Investors: Investors shall receive on an annual basis 5% interest on the Debt Security and will also receive on a pro rata basis a distribution derived from the 10% profit pool allocated for investors funded by the cumulative total of the net profits received from income earned from operating / managing buy and hold properties and selling condo conversions.

How may the rights of the debt securities being offered be materially limited, diluted or qualified by the rights of any other class of securities identified above? **The debt securities being offered are debt instruments and will not be diluted by any additional ownership sold in the Company. However, the Company may borrow additional funds from banks for projects. The bank debt may or may not be senior debt to the debt securities being purchased by Investors in this Offering.**

Are there any differences not reflected above between the debt securities being offered and each other class of security of the issuer? **No. All details regarding debt security and equity ownership of the Company has been disclosed herein.**

How could the exercise rights held by the equity owners identified above effect the purchasers of the debt securities being offered? **New investors are debt holders and have liquidation preferences over the owners. The debt would need to be paid before equity members would receive funds in the event of the sale or liquidation of the business. However, additional senior debt might be required on some projects, which would have preference over the Investors in this offering.**

How are the debt securities being offered valued? **Valuation was determined based on market conditions and traditional bank and hard money financing of real estate projects.**

What are the risks to purchasers of the debt securities relating to minority ownership in the issuer? **Investors have no ownership in the LLC. They hold a debt instrument with potential for profit distributions, which is a priority in the event of liquidation. However, the Investors have no voting rights or any other rights associated with the management of the Company and must rely on the management team for all decision making.**

What are the risks to purchaser associated to corporate actions (including additional issuance of debt securities, issuer repurchase of debt securities, a sale of the issuer or assets of the issuer, or transactions with related parties)? **The proceeds from this offering will be used to purchase real estate and fund the down payments, renovation costs and bank carrying costs. If a project is financed with a bank loan, the Company and Investors in this Offering will be junior lien holders under the bank. The Manager of the LLC has discretion over the use of the funds from this Offering. The Investors do not have any influence or rights to control the use of proceeds.**

Legal Proceedings

The Issuer is not aware of any material legal proceeding in which the Issuer, any of its affiliates, or any of its property is currently a party or subject to legal proceedings.

Risk Factors

Below is a discussion of the specific risk factors associated with an investment in the Issuers debt securities. Additional, more general risks factors are part of the Jumpstart Micro Disclosures on the Funding Portal and should be carefully reviewed by every Investor.

A crowdfunding investment involves risk. An investor should not invest any funds in this Offering unless he or she can afford to lose his or her entire investment.

In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the Offering, including the merits and risks involved. These Debt Securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document. The SEC does not pass upon the merits of any Securities offered or the terms of the Offering, nor does it pass upon the accuracy or completeness of any offering document or literature. These Debt Securities are offered under an exemption from registration; however, the SEC has not made an independent determination that these debt securities are exempt from registration.

Company/Business Risk

The Company is a newly formed entity with no significant assets and no prior existing business, which has been formed for the sole purpose of acquiring property, renovating the property and selling or holding the property. There can be no assurance that the business will be profitable. Accordingly, there is no guarantee that the Company will ever realize any significant operating revenues, or that its operations ever will be profitable and you may lose all, or a substantial part, of your investment in the Shares.

The Company's operations and viability will be highly dependent on the efforts of certain existing key personnel of the Company. If the Company were to lose the services of such existing key personnel, or any of them for whatever reason, and it was unable to locate suitable replacements the Company's business and profitability may be materially adversely affected and you may recognize a loss of all or a part of your investment in the debt securities.

Real-Estate Market Risk

The management team has strong experience in the market, however the success of the business is affected by changes in the real estate marketplace. The ability to acquire, and sell property owned by the Company is a factor in its success. Acquiring permits, and managing subcontractors are also related risks as well as the overall health of the real estate marketplace.

Although multi-family rents and conversions are strong in the Boston area the future is unpredictable including the possibility of a market downturn.

Given the above market conditions, there is a risk that we will be unable to rent or sell a property for a profit and it may result in a loan default, foreclosure and a loss of all or a part of your investment.

Factors that harm the real estate market in Boston may harm the Company.

We will own, develop and sell the Properties. An investment is subject to risks associated with the real estate industry in general and the market in Boston in particular. These risks include, among others:

- declines in the value of real estate;
- declines in the volume of home buyers;
- unexpectedly high costs associated with the construction of the Project;
- lack of availability of additional funds if needed;
- increases in competition, property taxes and operating expenses;
- changes in zoning laws and/or the inability to obtain needed changes, approvals or waivers;
- costs resulting from the clean-up of, and liability for damages resulting from, environmental problems;
- casualty or condemnation losses;
- uninsured damages from floods, earthquakes, fires or other natural disasters; and
- changes in interest rates

Contractor Risk

Contractors may not perform their duties as expected while working on a Project.

We will be relying on the expertise of Contractors who may not be able to complete the Project within the estimated time-frame or budget, or at all. The costs associated with work done may exceed our budgeted expenses. To the extent the Contractor is unable to complete the project as projected, the Company could experience significant losses, and Investors could lose their investments.

We may not be able to obtain the permits necessary to complete a Project.

In order to complete a Project, we need to obtain certain permits from various government agencies. Such agencies have some discretion in the issuing of permits. We may not be able to obtain the necessary permits in a timely manner, or at all. A failure to obtain any of such permits may prevent us from completing the Project, causing significant losses to Company and Investors.

Investment Risk

An investment in the Securities involves a high degree of risk and there is no guaranty that the Company will be profitable. As a result, you may suffer a substantial (or even a complete) loss of your investment in the Shares. ACCORDINGLY, YOU SHOULD NOT PURCHASE DEBT SECURITIES IF YOU CANNOT AFFORD THE LOSS OF YOUR ENTIRE INVESTMENT.

The holders of the Debt Securities will have no voting rights and, accordingly, will have little to no effective control over, or direct input into, the management or decisions of the Company.

Illiquid Investment; Long-term Nature of Investment

The Company has not registered, is not under any obligation to register, and does not intend to register the Securities with any regulatory authorities at any time in the future. As a result, the Securities are, and will be, extremely illiquid which materially impairs the ability of the holders of Debt Securities to easily dispose of them

should the need arise. Further, there currently is no market for the Securities and it is highly unlikely that any such market will develop in the near future. Although it may be possible, after a period of time, under certain limited circumstances and subject to the terms of the Shareholder Agreement, to dispose of the Securities, you should not expect that a market for the Securities will exist at any time in the future. Accordingly, due to the restrictions on transferability of, and the lack of any market for the Securities, an investment in the Securities is long-term and you probably will not be able to liquidate your investment in the Securities in the event of an emergency or for any other reason (*at least not in a timely manner and/or without a substantial loss of your investment*)

Limited Voting Rights and Control

The holders of the Debt Securities will have no voting rights and, accordingly, will have no effective control over, or direct input into, the management or decisions of the Company.

The foregoing is a summary of certain risks associated with the Company and its business **AND IS NOT INTENDED TO BE COMPLETE.**

Current, Historical and Pro Forma Financial Statements

To illustrate the potential of the Issuer, the management team has prepared this set of financials which include historical, current and projections. The projections are based on reasonable performance estimates by the Issuer which are outlined in this Offering Statement. They also assume a successful completion of this offering. APPENDIX E – PROFIT SHARING AGREEMENT

This Agreement, dated _____, is entered into by and between REvolve Partners, LLC, a Massachusetts Limited Liability Company (the “Company”) and _____ (“Investor”). This Profit Sharing Agreement (“Agreement”) is furnished solely to prospective investors through the Jumpstart Micro, Inc. Funding Portal (“Funding Portal”). Jumpstart Micro is registered with the SEC (Securities Exchange Commission) as a Funding Portal and a Member of FINRA (Financial Industry Regulatory Authority). The portal address is jumpstartmicro.com

This Profit Sharing Agreement is provided in conjunction with an Offering made on the Jumpstart Micro, Inc Equity Crowdfunding Portal, and Offering Statement dated _____ filed with the Securities and Exchange Commission. The Holder acknowledges the receipt of the Offering Statement pursuant to Regulation Crowdfunding.

1. INVESTMENT

Investor has agreed to invest \$ _____ (“Investment Amount”), pursuant to the terms of the Promissory Note. As a result of the Investment Amount, Investor is entitled to receive profit distributions pursuant to the terms described herein. Investor shall be entitled to receive a pro rata distribution (determined by calculating the Investors Investment amount as a percentage of one hundred percent (100%) of the total funds invested by all Investors) from the ten percent (10%) Profit Distribution Pool established by the Company solely for the purpose of allocating funds for distribution to Investors.

2. OWNERSHIP / CONTROL

Nothing contained in this Agreement, the Promissory Note, or Offering statement shall operate to endow Investor with any ownership interest, stock interest, authority to manage, control, bind the Company to any agreement, or vote on any matters whatsoever affecting the Company. At no time shall Investor be deemed to have been vested with any authority to act on behalf of the Company. Investor understands, acknowledges and agrees that he/she is not a partner, member, manager, officer, director, employee, agent, shareholder, assignee or recipient of any rights other than as a Debt Securities Investor, and such is entitled only to repayment of the Investment pursuant to the Promissory Note, and receipt of a pro rata distribution of profit as described herein.

3. PROFIT SHARING

(a) **Description.** In addition to the repayment of the principal investment made by Investor this Agreement shall also entitle the Investor to participate in Profit Sharing as described in the Offering Statement (p. 10). Invested funds from the Crowdfunding Offering are intended as down payments to acquire real-estate and for renovation costs, the balance of required funds to be borrowed from banks or private lenders to fund the balance of the acquisition costs. Profits for the purpose of funding profit sharing distributions shall be derived from two sources as described below. Investors shall receive on an annual basis a pro rata distribution of the Investors share of ten percent (10%) of the cumulative total of the net profits derived from income earned from operating / managing buy and hold properties and selling condo conversions.

- Source 1: Acquisition and Sale: For a condo conversion or other property that is bought, renovated and sold, the Company will distribute out 10% of the net profits to the Holders annually on a pro-rata basis of the Holders’ investment. The duration of time beginning with the transfer of real property to the Company and ending with the sale of a renovated acquisition shall be referred to as the “Hold Period.” Net profit is calculated as the “After Repair Value” less the “Down Payment” less the “Total Purchase Cost” less “Total Holding

Costs" less "Selling Costs." The "After Repair Value" is defined as the gross income realized from the sale of a renovated acquisition. The "Down Payment" shall be made using invested funds from the Crowdfunding Offering. The "Total Purchase Costs" may include costs such as the acquisition cost, renovation cost, lending fees such as points or legal fees related to borrowed funds that are required to balance the acquisition cost, recording fees or other legal fees related to the transfer of real property, survey fees, or compensation, if any, due to a broker or other party to the transaction in the form of a commission calculated as a percentage of the acquisition cost. The renovation cost shall be established at the sole and exclusive discretion of the Company. "Total Holding Costs" may include costs such as any interest accrued on borrowed funds, property taxes accumulated during the holding period, insurance costs accumulated during the holding period, or utility costs accumulated during the holding period. "Selling Costs" may include costs such as staging fees, marketing fees, compensation due to a broker or other party to the transaction in the form of a commission calculated as a percentage of the sale price, recording fees or other legal fees related to the transfer of real property, purchase costs of third-party warranties to be assigned by the Company to a buyer post-sale, or exit fees related to borrowed funds that are required to balance the acquisition cost. If an acquisition is bought, renovated and sold prior to the end of the Company fiscal year then the Company shall place Holder entitlements in an escrow account within thirty (30) days of closing on the sale of said acquisition, where such entitlements shall be held until the date of distribution. Holder shall be entitled to 10% of the annual interest income generated by the escrow account in which Holder entitlements are held. Distributions will occur on the last day of December, concurrent with the end of the Company fiscal year.

- Source 2: Rental Property ("Buy and Hold"): On properties that the Company buys and intends to hold for income purposes, the Company will distribute 10% of the annual "Pre-tax Net Profits" to the Holders annually on a pro-rata basis of the Holders' investment. "Pre-tax Net Profits" are calculated as the gross annual rental income less "Operating Expenses" less "Debt Service Costs." "Operating Expenses" may include costs such as real estate taxes, homeowner's insurance, utility expenses, property management fees, leasing fees, legal fees, accounting fees, advertising fees, janitorial fees, repairs for regular maintenance of building systems or components, supplies, trash collection fees, pest extermination fees, snow removal fees or landscaping fees. "Debt Service Costs" are payments of principal and interest on any encumbrances, such as a mortgage or other financing. If renovations are necessary to achieve targeted market-rate rents then the Company shall borrow funds from banks or private lenders to cover the costs of the renovations. All costs related to such borrowed funds shall be subtracted from gross rental income. The renovation costs shall be established at the sole and exclusive discretion of the Company. Monthly rental income shall be held in a dedicated interest-bearing checking account and Holder shall be entitled to 10% of the annual interest income generated by the dedicated checking account in which the rental income is held. Distributions will occur on the last day of December, concurrent with the end of the Company fiscal year.

(b) Prepayment of the Promissory Note. The Company in its sole discretion may elect to prepay the Promissory Note prior to the Maturity Date without the consent of the Holder. In the event Company prepays the Promissory Note, no further interest shall be due on the Note, and investor is no longer entitled to received any further profit distributions. If such pre-payment option is exercised prior to the end of any month or fiscal year, interest and profit distributions shall be paid on a pro rata basis in accordance with the investors debt security interest.

ARTICLE V
CAPITAL STRUCTURE; CAPITAL CONTRIBUTIONS; LOANS

5.1 Initial Capital Contributions. The Members have made capital contributions to the Company of cash, services and/or interests in property in the amounts and at the Fair Market Values set forth opposite their names in Schedule 1 attached hereto and made a part hereof by this reference. The Manager may unilaterally adopt and execute on behalf of the Company amendments to Schedule 1 attached hereto to reflect changes in the Ownership Interests and capital contributions of the Members.

5.2 Additional Capital Needs. No Member shall be obligated to make any additional contributions to Company capital or loans to the Company without such Member's consent. However, Members may make additional capital contributions to the Company with the approval of the Manager as provided in this Section 5.3. Further, in the event the Company has insufficient capital for its needs, it may raise additional capital by borrowing from Members or third parties on such commercially reasonable terms and conditions as the Manager and such Member or third party are able to agree upon.

5.3 Return of Capital. No Member shall be entitled to the return of its capital contribution to the Company without unanimous consent from all other Members, but the Manager may decide in its sole discretion to return all or any portion of any Member's capital contribution at any time so long as such return is made pursuant to priorities set forth in Section 8.1 below.

5.4 Interest on Contributions. No interest shall accrue or be paid on the balance in the Capital Account of any Member.

5.5 Liability for Contribution. A Member's obligation to make their required Capital Contribution can only be compromised or released with the consent of all remaining Members or as otherwise provided in this Agreement. If a Member does not make the Capital Contribution when it is due, he is obligated at the option of any remaining Members to contribute cash equal to the agreed value of the Capital Contribution. This option is in addition to and not in lieu of any others' rights, including the right to specific performance that the Company may have against the Member.

5.6 Additional Contributions. Capital Contributions may be amended from time to time, according to the business needs of the Company. However, if additional capital is determined to be required and an individual Member is unwilling or unable to meet the additional contribution requirement within a reasonable period, the remaining Members may contribute an advance of money to the Company in proportion to their existing Capital Contributions to resolve the amount in default. Any advance of money to the Company by any Member in excess of the amounts provided for in this Agreement or subsequently agreed to, will be deemed a debt due from the Company rather than an increase in the Capital Contribution of the Member. No interest shall accrue or be paid on the balance in the Capital Account for any Additional Contributions of any Member. This liability will not entitle the

lending Member to any increased share of the Company's profits nor to a greater voting power. Repayment of such debts will have priority over any other payments to Members

ARTICLE VI CAPITAL CONTRIBUTIONS

6.1 Members and Capital Contributions. No Member may be required to make any capital contribution to the Company, except upon unanimous agreement of the Members. All contributions made, shall be made on a pro rata basis in accordance with the respective percentage interests of the Members of the Company, unless the Members unanimously agree to a different method of determining contributions. If additional contributions are made other than on a pro rata basis, the respective percentage interests of the Members in the Company shall be adjusted to reflect the total respective contributions of the Members, and Schedule A of this Agreement shall be amended accordingly.

6.2 Member Loans or Services. Services by any Member to the Company may not be considered to be contributions to the capital of the Company, and loans by any member to the Company shall not be treated as capital contributions to the Company. Any compensation that the Company pays to a Member for services, and any payment made by the Company to a Member on that Member's loan to the Company, shall not be treated as payment made to that Member acting in his, her, or its capacity as a Member.

6.3, Capital and Capital Accounts. The initial Capital Contribution of each Member is as set forth in Schedule A. No interest may be paid on any Capital Contribution. Should the Members decide to make an initial Capital Contribution, the Company will establish and maintain an individual Capital Account for each Member.

6.4. Withdrawal of Capital Contribution. No Member has the right to withdraw his or her capital contribution or to demand and receive property of the Company or any distribution in return for his or her Capital Contribution, except as may be specifically provided in this Agreement or required by law.

6.5 Return of Capital Contribution. No Member may receive out of Company property any part of that Member's capital contribution until (1) all liabilities of the Company, except liabilities to Members on account of their loans, have been paid or sufficient Company property remains to pay them, and (2) all Members consent, unless the return of the contribution to capital is rightfully demanded as provided in this agreement. However, a Member may rightfully demand the return of that Member's Capital Contribution (1) after the Company has been dissolved and wound up pursuant to Article 11 of this Agreement, or (2) as may otherwise be provided in the Massachusetts Business Corporations Act. A member may demand and receive only cash in return for the Member's Capital Contribution.

6.6 Minimum Capital. A minimum working capital amount shall remain within the Company's account at all times throughout the lifetime of the Agreement. In the event that there is no working capital amount, the Members must unanimously vote to either make an additional contribution to the Company or force the Company to dissolve.

ARTICLE VII
ALLOCATION OF PROFITS AND LOSSES

7.1. Net Income, Losses. Except as may be expressly provided otherwise in this Agreement, and subject to the provisions of Internal Revenue Code Section 704(c), the net income, net loss, or capital gains of the Company for each fiscal year of the Company is allocated as follows:

(1) Distribution to Members:

- (i) All profits earned by the Company shall be retained by the Company until such time as a unanimous vote of the Members approves a distribution be made to the Members, approval for which shall not be unreasonably withheld.
- (ii) Upon approval by unanimous vote of the Members to issue a Distribution, a minimum cash balance shall remain in the company account at all times. Available cash need not be distributed to the extent that the cash is required for a reasonable working capital reserve for the Company; the amount of the reasonable working capital reserve is to be determined by the unanimous vote of the Members.

(b) If a Member, on formation of the Company or at any time thereafter, contributes property with an adjusted income tax basis different from the fair market value at which the property is accepted and credited to that Member's capital account, then solely for income tax purposes and the determination of each Member's distributive share of the net Company profits and losses, any depreciation, depletion, gain, or loss with respect to that property shall, pursuant to Internal Revenue Code Section, be allocated according to the traditional method with curative allocations.

7.2. Effect of Transfer of Interest. If any interest in the company is transferred, or is increased or decreased by reason of the admission of additional Members, during any fiscal year of the Company, each item of income, gain, loss, deduction, or credit of the Company for the fiscal year must be assigned pro rata to each day in the particular period of the fiscal year to which the item is attributable (that is, the day on or during which it is accrued or otherwise incurred) and the amount of each item so assigned to any day shall be allocated to the Member based on his or her respective interest in the Company at the close of the day. For the purpose of accounting convenience and simplicity, the Company may treat a transfer of, or an increase or decrease in, an interest in the Company as having been consummated on the first day of the month following the transfer, increase, or decrease regardless of when the transfer, increase, or decrease actually occurred.

DISTRIBUTIONS OF NET CASH FLOW

8.1 Distribution of Net Cash Flow. The Net Cash Flow of the Company shall be distributed to the Members at such times and as determined in the best interest of the Company by unanimous vote of the Members. Net Cash Flow, when distributed, will be distributed to the Members equally and in proportion to each Members ownership interest in the Company.

8.2 Distributions Upon Termination. Notwithstanding the foregoing, liquidating distributions in the event of Liquidation of the Company shall be made as set forth in Section 13 below.

8.3 Amounts Withheld. The Company is authorized to withhold from payments or distributions to the Members and to pay to any Federal, State, or local government any amounts required to be so withheld pursuant to the Internal Revenue Code or any provisions of any other Federal, State or local tax law. All amounts so withheld and paid to any taxing authority with respect to any payment or distribution to the Members shall be treated as amounts paid or distributed to the Members pursuant to this Article VIII for all purposes under this Agreement.

ARTICLE IX RIGHTS AND DUTIES OF THE MANAGER

9.1 General Powers. Subject to the provisions of Section 9.1(d) below, the Members hereby delegate management of the business and affairs of the Company to the Manager. (i) enter into agreements with vendors, contractors and other service providers (including Affiliates of the Manager and/or Company, the Manager, Joint Venture or Members); or

(j) any mortgage, pledge, dedication to the repayment of indebtedness, whether with or without recourse, or other encumbering of all or substantially all of the Company's property, whether in the usual and regular course of the Company's business or otherwise.

(k) The Manager may, in its sole discretion, delegate any authority delegated to the Manager pursuant to this Agreement to any officer or agent.

Notwithstanding any other provision of this Agreement, all Members must unanimously approve the Manager making a substantial change in the business purpose of the Company; or conversion of the Company to another entity.

9.2 Election of Initial Manager. By their signatures hereto, the Members hereby elect Peter William Bartash to act as the Manager.

9.3 Limited Power of Attorney. Power of Attorney. Each Member hereby appoints the Manager in its absolute discretion and with full power to act, his true and lawful attorney, in his name, place and stead, to make, execute, consent to, swear to, acknowledge, record, and file any certificate or other instrument which may be required to be filed by the Company or the Members under the laws of the Commonwealth of Massachusetts or under the applicable laws of any other jurisdiction to the extent that the Managers deem such filing to be necessary or desirable; any and all amendments or modifications of instruments described in the preceding subsection; all such other instruments as the Managers may deem necessary or desirable to fully carry out the provisions of this Agreement in accordance with its terms; and each Member hereby appoints the Manager the true and lawful attorney, in his name, place and stead, to take any and all such other action as the Manager may deem necessary or desirable to fully carry out the provisions of this Agreement in accordance with its terms. The foregoing Limited Power of Attorney is coupled with an interest, and shall continue in full force and effect notwithstanding the subsequent death or incapacity of any Member or the assignment by a Member of his or her Ownership Interest for so long as the Manager has not materially violated this agreement or breached his duty to the company, or by unanimous vote of the Members has appointed a new Manager.

9.4 Fiduciary Duties. Notwithstanding anything set forth in the Act or this Agreement to the contrary, the duties set forth in this Section 9.4 are the sole duties owed by the Manager to the Company and/or the Members.

(a) Duty of Care. A Manager shall not be liable to the Company or to any Member for any loss sustained by the Company or a Member, unless the loss or damage shall have been the direct result of a knowing and willful material violation of law by such Manager. The Manager shall not be liable or obligated to the Company or the Members for any mistake of fact or judgment or for the doing or failure to do of any act in conducting the business, operations and affairs of the Company which causes or results in any loss or damage to the Company or its Members.

(b) Duty of Loyalty. A Manager's duty of loyalty to the Company and the Members is limited to holding in strict confidence and use Company Information in accordance with the same covenant of confidentiality imposed on the Members in this Agreement.

9.5 Time Devoted to Company; Conflicts. The Manager shall devote such time as is reasonably necessary for the operation of the business of the Company, provided, however, it is understood and agreed that the Manager is free to devote less than the Manager's full time to the business of the Company and may engage in any other business or activity whatsoever. Neither the Company nor any Member shall have any right, by virtue of this Agreement, to share or participate in such other investments or activities of the Manager or in the income or proceeds derived therefrom.

9.6 Indemnification. The Company shall indemnify, to the fullest extent of applicable law, any Person who is made a party to any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative or investigative by reason of the fact that such Person is or was a Manager, against costs and expenses, including attorneys' fees, judgments, fines and amounts paid in settlement, actually and reasonably incurred by the Manager in connection with the action, suit or proceeding if such Person acted in good faith and in a manner such Person reasonably believed to be in or not opposed to the best interests of the Company, and, with respect to any criminal action or proceeding, had no reasonable cause to believe that such Person's conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of *nolo contendere* or its equivalent, shall not, of itself, create a presumption that such Manager (a) did not act in good faith and in a manner which such Person reasonably believed to be in or not opposed to the best interests of the Company, and (b) with respect to any criminal action or proceeding, had reasonable cause to believe that such Person's conduct was unlawful.

9.7 Resignation. A Person serving as a Managers Representative may resign at any time by giving written notice to the Members of the Company. The resignation of a Manager shall take effect upon receipt of notice thereof or at such later time as shall be specified in such notice and, unless otherwise specified therein, the acceptance of such resignation shall not be necessary to make it effective. The Manager has the right to assign a new Manager Representative.

The Company will promptly reimburse the Manager for reasonable expenses properly incurred on the Company's behalf, including without limitation (i) all out-of-pocket expenses associated with the organization of the Company or the syndication of interests therein; (ii) legal, accounting, audit, custodial and other professional fees as well as consulting fees relating to services rendered to the Company; (iii) banking, qualification, finders, depositary and similar fees or commissions; (iv) transfer, capital and other taxes, duties and costs incurred in acquiring, holding, selling or otherwise disposing of Company assets; (v) insurance premiums, property taxes, indemnifications, costs of litigation and other extraordinary expenses; (vi) costs of financial statements and other reports to Members as well as costs of all governmental returns, reports and other filings; (vii) travel and other expenses incurred in managing the Company; and (viii) the costs of services that could be performed directly for the Company or the Project by independent parties such as legal, accounting, secretarial or clerical, reporting, asset management, data processing and duplicating services but which are in fact performed by the Manager or its Affiliates, but not in excess of the amounts which the Company would otherwise pay to independent parties for comparable services in the same geographic locale under a commercially reasonable agreement, as determined in the business judgment of the Manager.

9.9 Dealings with Affiliates. The Company may enter into business and contractual relationships and agreements of any kind with Affiliates of the Company or the Manager, at the sole discretion of the Manager.

9.10 Competing Activities. Except as otherwise provided in a written agreement to which the Company, on the one hand, and any Manager or Member, on the other hand, are parties, each Manager and Member and his or its respective representatives and Affiliates shall be free to engage in any activity on their own or by the means of any entity, without such acts being deemed a violation of any fiduciary duty owed to the Company or its Members pursuant to this Agreement and/or the Massachusetts Business Corporations Act.

ARTICLE X **RIGHTS AND OBLIGATIONS OF MEMBERS**

10.1 Limitation on Liability. No Member is liable under a judgment, decree, or order of the court, or in any other manner, for a debt, obligation, or liability of the Company, except as provided by law and in accordance with this agreement. In the event that a Member has incurred any indebtedness or obligation before the Operating Date that relates to or otherwise affects the Company, neither the Company nor any other Member has any liability or responsibility with respect to the indebtedness or obligation unless the indebtedness or obligation is assumed by the Company pursuant to a written instrument signed by all of the Members. In the event that a non Manager incurs (or has incurred) whether before or after the date of this Agreement, any debt or obligation that neither the Company nor any of the other Members is to have any responsibility or liability for, the liable Member must indemnify and hold harmless the Company and the other Members from any liability or obligation they may incur in respect of the debt or obligation.

10.2 Company Books. The Manager shall maintain proper and complete records and books of account in which shall be entered all transactions relating to the Company's business. Such books shall be kept on such method of accounting as the Managers shall determine. In no event shall the Company disclose to a Shareholder, unless otherwise required by law, any information which the Managers reasonably believes to be in the nature of trade secrets or other information the disclosure of which the Managers in good faith believes is not in the best interest of the Company or its business, or which the Company is required by law or by agreement with a third-party to keep confidential. No person shall be entitled to inspect, examine or copy any information contained in the books and records of the Company without first entering into an agreement reasonably satisfactory to the Managers assuring that such disclosed information will remain confidential and will not be used for any purpose adverse to the Company.

10.3 Priority and Return of Capital. Except as expressly set forth herein this Agreement, no Member shall have priority over any other Member, either as to the return of capital contributions or as to distributions; provided that this Section shall not apply to loans (as distinguished from capital contributions) which a Member has made to the Company.

(b) The Members acknowledge and agree that all information provided to them by or on behalf of the Company or the Manager concerning the business or assets of the Company, the Manager or a Member shall be deemed strictly confidential and shall not, without the prior consent of the Manager, be (i) disclosed to any Person (other than a Member) or (ii) used by a Member other than for a Company purpose or a purpose reasonably related to protecting such Member's interest in the Company. The Manager hereby consents to the disclosure by each Member of Company information to such Member's accountants, attorneys and similar advisors bound by a duty of confidentiality. The Manager further consents to the release by any Member to such Member's own equity holders, of summary information concerning the Company's financial performance and status. The foregoing requirements of this Section 10.7(b) shall not apply to a Member with regard to any information that is currently or becomes: (i) required to be disclosed pursuant to applicable law or a domestic national securities exchange rule (but in each case only to the extent of such requirement); (ii) required to be disclosed in order to protect such Member's interest in the Company (but only to the

extent of such requirement and only after consultation with the Manager); (iii) publicly known or available in the absence of any improper or unlawful action on the part of such Member; or (iv) known or available to such Member via legitimate means other than through or on behalf of the Company or the Manager. For purposes of this Section, Company information (including information relating to another Member) provided by one Member to another shall be deemed to have been provided on behalf of the Company.

(c) To the extent permitted by applicable law, and notwithstanding the provisions of Section 10.2, the Manager may, in its sole and absolute discretion, keep confidential from any Member information to the extent the Manager reasonably determines that: (i) disclosure of such information to such Member likely would have a material adverse effect upon the Company or a Member due to an actual or likely conflict of business interests between such Member and one or more other parties or an actual or likely imposition of additional statutory or regulatory constraints upon the Company or a Member; or (ii) in the case of a Member that the Manager reasonably determines cannot or will not adequately protect against the improper disclosure of confidential information, the disclosure of such information to a non-Member likely would have a material adverse effect upon the Company or a Member. Such Member shall give written notification to the other Members of his, her or its intention to sell such Ownership Interest and a copy of such bona fide written offer. Each Member other than the selling Member, on a basis pro rata to the Percentage Ownership Interest of each Member exercising his, her or its right of first refusal, shall have the right to exercise a right of first refusal to purchase some or all of the Ownership Interests proposed to be sold by the selling Member upon the same terms and conditions as stated in the bona fide written offer by giving written notification to the selling Member of his, her or its intention to do so within thirty (30) days after receiving written notice from the selling Member. In the event the non-selling Member(s) exercise their right of first refusal, the time, place and form of payment shall be determined by agreement of the purchasing Member and selling Member. The failure of any Member to notify the selling Member of a desire to exercise such right of first refusal within a forty five (45) day period after the Notice of Intent to Sell has been delivered, shall result in the termination of such right of first refusal and the selling Member shall be entitled to consummate the sale of his, her or its Ownership Interests with respect to which such right of first refusal has not been exercised to the person offering to do so pursuant to the bona fide written offer. If the selling Member does not sell his, her or its Member Interests within ten (10) days after receiving the right to do so, his, her or its right to do so terminates and the terms and conditions of this Section shall again be in effect.

(d) The death, Financial Insolvency, Legal Incompetency, withdrawal, retirement, resignation, expulsion or dissolution of any Member shall not of itself cause the dissolution of the Company.

(e) In the event any Member(s) wish to continue the Company over the objection of the other Members, the Continuing Member shall purchase the interest of the disassociating members for the fair market value of their interest, and shall execute any and all necessary documents to effectuate such purchase which shall necessarily include indemnification of the disassociating member for any claims or causes of action that arise as a result of acts or omissions occurring after the disassociating member has transferred their interest in its entirety to the continuing member.

13.2 Winding Up the Company. Upon dissolution of the Company, the Manager shall immediately commence to wind up the affairs of the Company and shall engage in an orderly disposition of its assets where such can be done at a fair value (except to the extent the Manager may determine to distribute any assets to the Members in kind). The items comprising the Profits or Losses of the Company, as the case may be, as well as any specially allocated items for the Fiscal Year in which the Company is terminated, shall continue to be allocated to the Members or their representatives and be credited or charged to their respective Capital Accounts in accordance with Articles VI and VII, above. Further, the Capital Accounts of the Members or their representatives shall be adjusted as required by Paragraph B.2(c) of the Addendum attached hereto.

13.3 Distribution of Liquidation Proceeds. Subject to applicable laws, pursuant to the winding up of the Company's affairs, the Company assets and the proceeds from the disposition of Company assets shall be applied in order of priority as follows:

(a) First, to creditors of the Company (whether or not Members of the Company);

(b) Next, to any reserves which the Manager(s) reasonably deem necessary for contingent or unforeseen liabilities or obligations of the Company (which reserves when they become unnecessary shall be distributed in accordance with the provisions of clause (c), below); and

(c) Next, the remaining assets, if any, shall, be distributed among the Members pursuant to Article VIII (after Profits and Losses are allocated such that distributions in accordance with this Section will be distributions in accordance with Capital Accounts).

For purposes of determining the amount of such distributions, all Company assets shall be valued at their then fair market value, and any gains or losses that arise from their sale or, in the event of distributions to be made in kind, that would arise assuming such a sale were made, shall be allocated according to GAAP. When all debts, liabilities, and obligations of the Company have been paid or discharged, or adequate provision has been made to do so, and all of the remaining property and assets of the Company have been distributed to the Members,

Articles of Dissolution shall be executed and filed with the Division as required by the Massachusetts Business Corporations Act.

13.4 Return of Capital Contributions. A Member shall not be entitled to the return of specific property contributed to the Company nor to any payments in liquidation of such Member's interest in the Company other than in cash.

13.5 Negative Capital Account Balance. A negative balance in any Member's Capital Account which exists upon termination of the Company (after the allocation of all Profits and Losses through termination) shall constitute a debt or liability of such Member to the Company, to any creditor of the Company, to any other Member, or to any other Person for any purpose whatsoever, and such Member shall have the obligation to make any additional capital contribution to the Company by reason of such negative balance.
