 Natural Machines

 Fairleigh Dickinson University

About

Natural Machines: Based in Barcelona (Spain), New York City (USA) and Milan/Turin (Italy). 30+ awards. VC backed.

We want to inspire individuals to lead more sustainable lifestyles and contribute to a healthier, more sustainable planet... both for the inhabitants and the environment. Our goal is to produce a full range of innovative kitchen solutions improving the quality and enjoyment of food, making it easier to be in full control of all your foods and have a positive environmental impact by lessening food loss/waste. We further the advancement of UN Sustainable Development Goals, Goal 12: responsible consumption and production.

Our first released product is Foodini: a 3D food printing kitchen appliance, using REAL food to print. Foodini is a 3D food printing kitchen appliance that enables you to personalize food, eat healthier, improve kitchen efficiency and lower food waste. Print using your own real, natural, fresh ingredients – customize foods, nutrition, and presentation, printing the amount you need and nothing more. All via next generation Internet of Things/IoT 3D food printers with Artificial Intelligence/AI.

Named by CNN as one of the seven tech superheroes to watch.

Named by Evolvero via TNW (TheNextWeb) as one of the Top 100+ Tech & Business Women Speakers you Need at Your Next Event. I'm honored to be included amongst people such as Sheryl Sandberg (Chief Operating Officer, Facebook), Gwynne Shotwell (President, SpaceX), Danae Ringelmann (Founder of Indiegogo), Marissa Mayer (former president and CEO of Yahoo), Meg Whitmann (CEO, Hewlett-Packard), and many others.

Speaker at events worldwide including Web Summit, Maker Faire (featured, large scale European Edition) and TEDx. (See Organizations section for a larger event listing.)
