**1. Organization and Business**

GLMX Technologies, LLC (the "Company"), a Delaware Limited Liability Company is wholly owned by Global Liquid Markets, LLC (the "Member"). On April 16, 2018, the Company received approval to become a broker dealer and as such is registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company operates as an Alternative Trading System ("ATS") for negotiation of Securities Financing Transactions.

The Company provides an intuitive, comprehensive, integrated global money trading solution for institutional participants. It operates a leading electronic trading platform ("Platform") that enables fixed income market participants to trade Securities Financing Transactions. The request for quote ("RFQ") based buy-side-to-dealer trading platform has been expressly built to enhance the relationship between buy-side and sell-side counterparties, and addresses the need for a more efficient trading infrastructure, particularly in light of increasing reporting requirements.

**2. Summary of Significant Accounting Policies**

**Basis of Presentation**

The financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

**Use of Estimates**

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

**Cash and Cash Equivalents**

The Company defines cash equivalents as short term, highly liquid investments with original maturities of less than ninety days at the time of purchase. The carrying amounts of such cash equivalents approximates the fair value due to the short-term nature of these instruments.

**Risk and Uncertainties**

The Company's future results of operations involve a number of risks and uncertainties. Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations include but are not limited to: current economic conditions; increasing competition; industry risk; personnel risk; and the regulatory environment. The Company's future results would also be affected by its ability to retain new customers in addition to customer trading volumes. The Company is also subject to cyber security risks that could potentially affect the operational performance of the platform. Management believes that policies and procedures are in place to protect communications and mitigate the risk of unauthorized access to systems and data.

## Notes to Financial Statement

### December 31, 2022

---

The Company can be a party to lawsuits arising in the ordinary course of business. Management believes the Company has adequate insurance coverage to reduce its risk of loss. The Company accrues for loss contingencies when the matter becomes known, is deemed to be a probable loss and estimable. As of December 31, 2022, no accrual for loss contingencies was deemed necessary.

#### Concentration of Credit Risk

The Company maintains cash in bank accounts with one financial institution, which at times, exceeds the established limit insured by the Federal Deposit Insurance Corporation ("FDIC"). The Company has not experienced any losses in such accounts and believes there is little or no exposure to any significant credit risk.

Concentration of credit risk is also evident as the top four customers have generated 42% of the total revenue for 2022, and represent 35% of the Accounts Receivable balance as of December 31, 2022.

#### Income Taxes

The Company is a single member LLC, whose member is a limited liability company that has elected to be treated as a partnership for federal income tax purposes. As such, all taxable income of the Company is passed through to its member and no provision for U.S federal or state income taxes has been recorded by the Company as of and for the year ended December 31, 2022 and management believes the Company has taken no uncertain tax positions that require recognition or disclosure. The Company is responsible for New York City income taxes. The Company's 2019 through 2022 tax returns are subject to examination by federal, state, and local tax authorities.

As of December 31, 2022, the Company had a deferred tax asset of \$420,654 relating to a local jurisdiction. Management has recorded a full valuation allowance against the deferred tax asset.

#### Deferred Revenue

Customers with fixed fee are generally billed quarterly, and revenues are recognized over the invoiced period. The Company records deferred revenues when the cash is received, or the payment is due, whichever is earlier. The recognized revenue and remaining deferred revenue balances are shown below:

Deferred revenue balance - December 31, 2021	\$ 325,893
Amounts invoiced in advance of services performed during the period	1,210,091
Revenue recognized for services performed during the period	(1,531,241)
Effects of currency translation on deferred revenue	1,656
Deferred revenue balance - December 31, 2022	<u>\$ 6,399</u>

#### Allowance for Doubtful Accounts

The Company applies Accounting Standards Codification ("ASC") Topic 326, Financial Instruments – Credit Losses ("ASC 326") to determine its allowance for doubtful accounts.

All accounts receivable balances have contractual maturities of less than one year and are derived from transaction fees from using the Platform. Management determines the allowance for doubtful accounts by regularly evaluating individual customer balances, considering the

customer's financial condition, credit history and potential effect of current economic conditions. Management does not believe that an allowance for doubtful accounts is necessary as of December 31, 2022.

**Leases**

The Company applies Accounting Standards Update ("ASU") 2016-02, Leases and ASU 2018-20, Codification Improvements to Leases collectively ("Topic 842"). The Company performed an internal review of its active agreements including its expense sharing agreement with its affiliate. The expense sharing agreement does not convey the right to control the use of the specific space as the space utilized by the Company is leased, and also shared with the Company's affiliates. The space is at any time subject to substitution at the sole discretion of the parent and affiliate. Since the Company cannot reasonably identify the underlying asset and does not exercise control over the asset, it is the Company's position that rent allocated to the Company pursuant to the expense sharing agreement does not constitute a lease within the scope of Topic 842.

**4. 17 C.F.R. Exemption**

The Company does not claim an exemption under paragraph (k) of 17 C.F.R. § 240.15c3-3, and the Company is filing this Exemption Report relying on Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17a-5 because the Company limits its business activities in the operation of an Alternative Trading System ("ATS") for negotiation of Securities Financing Transactions, and the Company (1) did not directly or indirectly receive, hold, or otherwise owe funds or securities for or to customers; (2) did not carry accounts of or for customers; and (3) did not carry PAB accounts (as defined in Rule 15c3-3) throughout the most recent fiscal year.

**5. Related Party Transactions**
