REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Management and Member of
Galaxy Digital Partners LLC:

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Galaxy Digital Partners LLC (the "Company"), as of December 31, 2022, and the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of December 31, 2022, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

WithumSmith+Brown, PC

We have served as the Company's auditor since 2019.

Total liabilities and member's equity	<u>\$ 18,265,192</u>

The accompanying notes are an integral part of this statement of financial condition.

Galaxy Digital Partners LLC

Notes to Statement of Financial Condition As of December 31, 2022

1. Organization and Business

Galaxy Digital Partners LLC (the "Company") is a limited liability company formed under the laws of New York and is a wholly owned subsidiary of Galaxy Digital LP., (the "Parent"). The Company is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA").

The Company's principal business is selling private placements, underwritings and advisory services.

2. Summary of Significant Accounting Policies

Basis of Presentation

These financial statements were prepared in conformity with accounting principles generally accepted in the United States of America which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Cash

The Company maintains the majority of its cash at two commercial banks. The Federal Deposit Insurance Corporation ("FDIC") covers \$250,000 for substantially all deposit accounts. Please refer to footnote 6.

Income Taxes

The Company is a wholly owned single member limited liability company and is treated as a disregarded entity for tax purposes.

At December 31, 2022, management has determined that the Company had no uncertain tax positions that would require financial statement recognition. This determination will be subject to ongoing reevaluation as facts and circumstances may require. Interest and penalties assessed, if any, are multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

Accounts Receivable and Contract Assets and Liabilities Balances

Accounts receivables arise when the Company has an unconditional right to receive payment under a contract with a customer and are derecognized when the cash is received. There were accounts receivable of \$94,585 on January 1, 2022, which were collected in 2022, and no contract assets or contract liabilities. As of December 31, 2022, there were accounts receivable of \$27,661, no contract assets and contract liabilities of \$2,020,000.

Allowance for Credit Losses

The Company follows ASC Topic 326, Financial Instruments – Credit Losses ("ASC 326"). ASC 326 impacts the impairment model for certain financial assets by requiring a current expected credit loss ("CECL") methodology to estimate expected credit losses over the entire life of the financial asset.

2. Significant Accounting Policies (continued)

The Company identified accounts receivable and receivable from broker as impacted by the guidance.

An allowance for credit losses may be based on the Company's expectation of the collectability of its receivables utilizing the CECL framework. The Company considers factors such as historical experience, credit quality, age of balances and current and future economic conditions that may affect the Company's expectation of the collectability in determining the allowance for credit losses. The Company's expectation is that the credit risk associated with its receivables is not significant. Accordingly, the Company has not provided an allowance for credit losses at December 31, 2022.

3. FAIR VALUE MEASUREMENTS

U.S. GAAP defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access.
- Level 2 – Significant other observable inputs, which may include, but are not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market corroborated inputs.
- Level 3 - Unobservable inputs for the asset or liability that rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. The unobservable inputs are developed based on the best information available in the circumstances and may include the Company's own data.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Galaxy Digital Partners LLC

Notes to Statement of Financial Condition As of December 31, 2022

3. Fair Value Measurements (continued)

The following table presents the Company's fair value hierarchy for the investments measured at fair value as of December 31, 2022:

Securities owned, not readily marketable	Level 1	Level 2	Level 3	Total
Common stock	\$ -	\$ -	\$ 827,749	\$ 827,749
Total	\$ -	\$ -	\$ 827,749	\$ 827,749

The following table represents the change in Level 3 fair value as of December 31, 2022:

Change in Level 3 Fair Value

Balance January 1, 2022	\$ -
Receipt of common shares	1,845,000
Unrealized loss	(1,017,251)
Balance December 31, 2022	<u>\$ 827,749</u>

4. Transactions with Related Parties

At December 31, 2022, the Company had a service agreement with Galaxy Digital Services LLC ("GDS"), an affiliated company. The affiliate provides office space, compensation expenses, professional and consulting fees, and other services pursuant to a service agreement. The Company is not required to make any payments to GDS under the agreement.

GDS paid additional expenses outside of the service agreement of \$286,446 on behalf of the Company that are reflected as expenses on the statement of operations. As of December 31, 2022, the company owes GDS \$295,110 that is reflected on the statement of financial condition.

The company paid other affiliated entities \$8,664 due to balances owed to them as of January 1, 2022. The balances were attributable to expenses paid by them during the prior year on behalf of the Company.

The terms of these arrangements may not be the same as those that would otherwise exist or result from agreements and transactions among unrelated parties.

5. Regulatory Requirements

The Company is subject to SEC Uniform Net Capital Rule 15c3-1 under the Securities Exchange Act of 1934, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2022, the Company had net capital of approximately \$15,006,000 which exceeded the required net capital of \$159,963 by approximately \$14,846,000.

The Company does not hold customers' cash or securities; therefore, it has no obligations under SEC Rule 15c3-3 under the Securities Exchange Act of 1934.

6. Concentration of Credit Risk

The Company currently maintains most of its cash at a FINRA member broker-dealer. It previously maintained its cash at a commercial bank where the Federal Deposit Insurance Corporation ("FDIC") covered deposit account balances up to \$250,000.

On March 12, 2023, Signature Bank ("Signature"), New York, NY, the Company's primary bank was closed by the New York State Department of Financial Services and the FDIC was named receiver.

After March 12, 2023, the Company transferred all its cash from Signature to the FINRA member broker-dealer.
