

Offering Statement for HandStack P.B.C. (“Bitesize”)

This document is generated by a website that is operated by Netcapital Systems, LLC ("Netcapital"), which is not a registered broker-dealer. Netcapital does not give investment advice, endorsement, analysis or recommendations with respect to any securities. All securities listed here are being offered by, and all information included in this document are the responsibility of, the applicable issuer of such securities. Netcapital has not taken any steps to verify the adequacy, accuracy or completeness of any information. Neither Netcapital nor any of its officers, directors, agents and employees makes any warranty, express or implied, of any kind whatsoever related to the adequacy, accuracy or completeness of any information in this document or the use of information in this document.

All Regulation CF offerings are conducted through Netcapital Funding Portal Inc. ("Portal"), an affiliate of Netcapital, and a FINRA/SEC registered funding-portal. For inquiries related to Regulation CF securities activity, contact Netcapital Funding Portal Inc.:

Paul Riss:

paul@netcapital.com

All non-Regulation CF securities-related activity on netcapital.com, including, but not limited to private placement offerings under Regulation D and A, are conducted by Livingston Securities, LLC ("Livingston"), a non-affiliate of Netcapital, and a registered broker-dealer, and member FINRA/SIPC, located at 825 Third Avenue, New York, NY 10022. For inquiries related to non-Regulation CF securities activity, contact Livingston Securities:

Jeanne Rockman:

jeanne@livingstonsecurities.com

Jonathan Mason:

jonathan@livingstonsecurities.com

Netcapital, Portal and Livingston do not make investment recommendations and no communication, through this website or in any other medium, should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

The information contained herein includes forward-looking statements. These statements relate to future events or to future financial performance, and involve known and unknown risks, uncertainties, and other factors, that may cause actual results to be materially different from any future results, levels of activity, performance, or achievements expressed or implied by these forward-looking statements. You should not place undue reliance on forward-looking statements since they involve known and unknown risks, uncertainties, and other factors, which are, in some cases, beyond the company's control and which could, and likely will, materially affect actual results, levels of activity, performance, or achievements. Any forward-looking statement reflects the current views with respect to future events and is subject to these and other risks, uncertainties, and assumptions relating to operations, results of operations, growth strategy, and liquidity. No obligation exists to publicly update or revise these forward-looking statements for any reason, or to update the reasons actual results could differ materially from

those anticipated in these forward-looking statements, even if new information becomes available in the future.

The Company

1. What is the name of the issuer?

HandStack P.B.C.

Eligibility

2. The following are true for HandStack P.B.C.:

- Organized under, and subject to, the laws of a State or territory of the United States or the District of Columbia.
- Not subject to the requirement to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.
- Not an investment company registered or required to be registered under the Investment Company Act of 1940.
- Not ineligible to rely on this exemption under Section 4(a)(6) of the Securities Act as a result of a disqualification specified in Rule 503(a) of Regulation Crowdfunding. (For more information about these disqualifications, see Question 30 of this Question and Answer format).
- Has filed with the Commission and provided to investors, to the extent required, the ongoing annual reports required by Regulation Crowdfunding during the two years immediately preceding the filing of this offering statement (or for such shorter period that the issuer was required to file such reports).
- Not a development stage company that (a) has no specific business plan or (b) has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

3. Has the issuer or any of its predecessors previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding?

No.

Directors, Officers and Promoters of the Company

4. The following individuals (or entities) represent the company as a director, officer or promoter of the offering:

Joseph Hendren has been heading up sales at Bitesize since 2017. He brings sales experience from working at Appboy in 2016 and Gigya in 2014. He has an in-depth experience in MarTech with a focus on Identity Management and Marketing Automation where he saw there was a significant untapped marketing channel of SMS that has yet to be appropriately leveraged. He is excited to help shape the future of SMS messaging for marketing teams to connect with customers all across the globe. He grew up in Southern California as a competitive soccer player. After dipping his toe in Real Estate, he moved to San Francisco to pursue a passion in tech and in sales. Interesting fact: Joe has licences in Real Estate, Mortgages, and Personal Training.

Principal Security Holders

5. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power. To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control — as, for example, a co-trustee) they should be included as being “beneficially owned.” You should include an explanation of these circumstances in a footnote to the “Number of and Class of Securities Now Held.” To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

Jessica Lee

Securities:	8,650,000
Class:	Common
Voting Power:	81.7%

Business and Anticipated Business Plan

6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

DESCRIBE YOUR STARTUP/PROJECT MORE IN-DEPTH: HandStack is an interactive mobile marketing platform that leverages the most essential part of humanity – conversations. We enable brands to reach any target segment of choice with text messaging, the app that everyone already has on their phone. Then we help them build a powerful, genuine relationship with human & AI driven two-way text message conversations. The reach of our platform is greater than Facebook. 174 MM Americans text daily vs 91MM use Facebook daily. Imagine being able to have genuine conversations with millions of consumers and drive high conversion with little effort.

3 major problems our clients are looking to solve: 1) Struggling with the increasing cost of reaching their audience, given that social media and advertisement channels are getting more crowded. 2) Getting the attention of the audience with older ways of reaching consumers such as cold calling, as Millennials are starting to answer less phone calls and prefer text messaging. 3) Building a personal, genuine relationship with their audience beyond occasional Tweets and promotions Marketing campaigns that have a definite end-date have an extra incentive to use our platform, as there is an emergent need to reach audience quickly and in a targeted way.

HOW WE SOLVE THEIR PROBLEMS: 1) Ability to reach new audience on text messaging 2) Ability to reach existing audience on text messaging, even without phone numbers 3) Ability to scale 1-on-1 interactions with millions of customers without requiring significant resources

For additional information, please see attached *businessplan.pdf*

Risk Factors

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can

afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

7. Material factors that make an investment in HandStack P.B.C. speculative or risky:

1. Risks Related to the Company's Business and Industry.

Our management may not be able to control costs in an effective or timely manner. The Company's management has used reasonable efforts to assess, predict and control costs and expenses. However, the Company only has a short operating history upon which to base those efforts. Implementing our business plan may require more employees, capital equipment, supplies or other expenditure items than management has predicted. Likewise, the cost of compensating employees and consultants or other operating costs may be higher than management's estimates, which could lead to sustained losses.

2. The Company operates in a vertical with high compliance and regulatory requirements.

The Company has a community of marketers who send text messages to consumers with a manual texting platform. Although the company does not send text messages directly, a part of its business model is dependent on those that do. While the Company is unlikely to face direct federal pressure; its entire business model is at risk if federal or state laws, such as the TCPA, change for manual texting.

3. Risks Related to Management and Personnel.

We are highly dependent on the services of our founder Jessica Lee. Our future business and results of operations depend in significant part upon the continued contributions Ms. Jessica Lee, CEO and founder. If we lose her services or if she fails to perform in her current position, or if we are not able to attract and retain skilled employees in addition to Ms. Jessica Lee and the current team, this could adversely affect the development of our business plan and harm our business. In addition, the loss of any other member of the board of directors or executive officers could harm the Company's business, financial condition, cash flow and results of operations.

4. The failure to attract and retain key employees could hurt our business, and our management does not have extensive experience in the operation of businesses such as ours. Our success also depends upon our ability to attract and retain numerous highly qualified employees. Although the Company's current management team has extensive business background, their experience is in industries unrelated to our business. Our failure to attract and retain skilled management and employees may prevent or delay us from pursuing certain opportunities. If we fail to successfully fill many management roles, fail to fully integrate new members of our management team, lose the services of key personnel, or fail to attract additional qualified personnel, it will be significantly more difficult for us to achieve our growth strategies and success.

5. Risks Related to the Securities Your ownership of shares of our common stock may be subject to dilution. If the Company conducts subsequent offerings of common stock or securities convertible into common stock, issues shares pursuant to a compensation or distribution

reinvestment plan or otherwise issues additional shares, investors who purchase shares in this offering who do not participate in those other stock issuances will experience dilution in their percentage ownership of the Company's outstanding shares. Furthermore, shareholders may experience a dilution in the value of their shares depending on the terms and pricing of any future share issuances (including the shares being sold in this offering) and the value of the Company's assets at the time of issuance.

6. The common stock we are issuing will be equity interests in the Company and will not constitute indebtedness.

The securities will rank junior to all existing and future indebtedness and other non-equity claims on the Company with respect to assets available to satisfy claims on the Company, including in a liquidation of the Company. Additionally, unlike indebtedness, for which principal and interest would customarily be payable on specified due dates, there will be no specified payments of dividends with respect to the Securities and dividends are payable only if, when and as authorized and declared by the Company and depend on, among other matters, the Company's historical and projected results of operations, liquidity, cash flows, capital levels, financial condition, debt service requirements and other cash needs, financing covenants, applicable state law, federal and state regulatory prohibitions and other restrictions and any other factors the Company's board of directors deems relevant at the time. In addition, the terms of the securities will not limit the amount of debt or other obligations the Company may incur in the future. Accordingly, the Company may incur substantial amounts of additional debt and other obligations that will rank senior to the securities.

7. There can be no assurance that we will ever provide liquidity to investors through either a sale of the Company or a registration of the securities. There can be no assurance that any form of merger, combination, or sale of the Company will take place, or that any merger, combination, or sale would provide liquidity for investors. Furthermore, we may be unable to register the securities for resale due to legal, commercial, regulatory, market-related or other reasons. In the event that we are unable to effect a registration, investors could be unable to sell their securities unless an exemption from registration is available.
8. The Company does not anticipate paying any cash dividends for the foreseeable future. The Company currently intends to retain future earnings, if any, for the foreseeable future, to repay indebtedness and to support its business. The Company does not intend in the foreseeable future to pay any dividends to holders of its shares of common stock.
9. Any valuation at this stage is difficult to assess. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment. In addition, in the future, there may be additional classes of equity with rights that are superior to the class of equity being sold.
10. General Risks and Disclosures Start-up investing is risky. Investing in startups is very risky, highly speculative, and should not be made by anyone who cannot afford to lose their entire investment. Unlike an investment in a mature business where there is a track record of revenue and income, the success of a startup or early-stage venture often relies on the development of a new product or service that may or may not find a market. Before investing, you should carefully consider the specific risks and disclosures related to both this offering type and the company which can be found in this company profile and the documents in the data room below.
11. Your shares are not easily transferable. You should not plan on being able to readily transfer and/or resell your security. Currently there is no market or liquidity for these shares and the company does not have any plans to list these shares on an exchange or other secondary market. At some point the company may choose to do so, but until then you should plan to hold your investment for a significant period of time before a "liquidation event" occurs. A "liquidation event" is when the company either lists their shares on an exchange, is acquired, or goes bankrupt.

12. The Company may not pay dividends for the foreseeable future. Unless otherwise specified in the offering documents and subject to state law, you are not entitled to receive any dividends on your interest in the Company. Accordingly, any potential investor who anticipates the need for current dividends or income from an investment should not purchase any of the securities offered.
13. Valuation and capitalization. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment. In addition, there may be additional classes of equity with rights that are superior to the class of equity being sold.
14. You may only receive limited disclosure. While the company must disclose certain information, since the company is at an early-stage they may only be able to provide limited information about its business plan and operations because it does not have fully developed operations or a long history. The company may also only be obligated to file information periodically regarding its business, including financial statements. A publicly listed company, in contrast, is required to file annual and quarterly reports and promptly disclose certain events — through continuing disclosure that you can use to evaluate the status of your investment.
15. Investment in personnel. An early-stage investment is also an investment in the entrepreneur or management of the company. Being able to execute on the business plan is often an important factor in whether the business is viable and successful. You should be aware that a portion of your investment may fund the compensation of the Company's employees, including its management. You should carefully review any disclosure regarding the company's use of proceeds.
16. Lack of professional guidance. Many successful companies partially attribute their early success to the guidance of professional early-stage investors (e.g., angel investors and venture capital firms). These investors often negotiate for seats on the company's board of directors and play an important role through their resources, contacts and experience in assisting early-stage companies in executing on their business plans. An early-stage company may not have the benefit of such professional investors

The Offering

HandStack P.B.C. ("Company") is offering securities under both Regulation D, through Livingston Securities, LLC ("Livingston") and Regulation CF, through Netcapital Funding Portal Inc. ("Portal"). Livingston is a registered broker-dealer, and member FINRA/SIPC. Livingston will receive cash compensation equal to 4.9% of the value of the securities sold through Regulation D. Portal is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.9% of the value of the securities sold through Regulation CF. Investments made under both Regulation D and Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

This offering is considered a side-by-side offering, meaning that the Company is raising capital under two offering types. The Company plans to raise between \$10,000 and \$107,000 through concurrent offerings under Regulation CF and Regulation D – Rule 506(c). In the event the Company fails to reach their combined offering target of \$10,000, any investments made under either offering will be cancelled and the investment funds will be returned to the investor. Under Regulation CF, the Company can raise up to \$53,500.

Accredited investors which have proved their accreditation status to Portal, will automatically invest under the Regulation D - Rule 506(c) offering type. All other investors will invest under the Regulation CF offering type. An accredited investor which proves their accreditation status with Portal prior to 48 hours of the offering closing, can authorize their investment to be withdrawn from the Regulation CF offering

and automatically reinvested in the Regulation D offering. You must be an accredited investor to invest under Regulation D.

8. What is the purpose of this offering?

The proceeds will be utilized to increase the revenue of the Company. They will be allocated for the expansion of the salesforce, and for scaling product development to support an increased number of customers.

9. How does the issuer intend to use the proceeds of this offering?

	If Target Offering Amount Sold	If Maximum Amount Sold
Total Proceeds	\$10,000	\$107,000
Less: Offering Expenses	\$490	\$5,243
Net Proceeds	\$9,510	\$101,757
Working Capital	\$9,510	\$101,757
Total Use of Net Proceeds	\$9,510	\$101,757

10. How will the issuer complete the transaction and deliver securities to the investors?

In entering into an agreement on the Netcapital Funding Portal to purchase securities, both investors and HandStack P.B.C. must agree that a transfer agent, which keeps the records of all of our outstanding common stock, will issue digital securities in the investor's name (a paper stock certificate will not be printed). Similar to other online investment accounts, the transfer agent will give investors access to a web site to see the number of shares that they own in our company. These securities will be issued to investors after the deadline date for investing has passed, as long as the targeted offering amount has been reached. The transfer agent will record the issuance when we have received the purchase proceeds from the escrow agent who is holding your investment commitment.

11. How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering by logging in to your account with Netcapital, browsing to the Investments screen, and click to cancel your investment commitment. Netcapital will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

Ownership and Capital Structure

The Offering

12. Describe the terms of the securities being offered.

We are issuing common stock at an offering price of \$0.50 per share.

13. Do the securities offered have voting rights?

The common stock are being issued with voting rights. However, so that the crowdfunding community has the opportunity to act together and cast a vote as a group when a voting matter comes before the shareholders, a custodian will cast your vote for you. Please refer to the custodian agreement that you sign before your purchase is complete.

14. Are there any limitations on any voting or other rights identified above?

You are giving your voting rights to the custodian, who will vote the shares on behalf of all shareholders who purchased shares on the Netcapital crowdfunding portal.

15. How may the terms of the securities being offered be modified?

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be canceled and your money will be returned to you.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or
- to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer’s Securities

- 16. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.**

Securities

Class of Security	Amount Authorized	Amount Outstanding	Voting Rights	Other Rights
common stock	15,000,000	9,585,000	Yes	

Options, Warrants and Other Rights

Type	Description	Reserved Securities
Options	Shares are reserved for a future stock option grant	1,000,000

17. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?

There are one million shares reserved for a stock-option plan for employees. If these options are issued and the employees eventually exercise the options, the shares issued upon the exercise of options will dilute other shareholders.

The Company entered into a KISS (Keep It Simple Security) agreement in the aggregate amount of \$125,000. The note included a \$25,000 “program fee” to be retained by the investor, resulting in a net balance of \$100,000 outstanding. The KISS agreement also allows the investor to participate in a future funding round at a discount of 80%, however the agreement contains an additional conversion clause. If a qualified equity funding has not taken place or is not anticipated, the investor has the option of converting the full balance into shares of the Company’s common stock after 18 months.

Any of the debt outstanding may negotiate for conversion rights into common stock. There is a risk that such conversion would be dilutive to the shareholders of the Company.

18. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

19. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As the holder of a majority of the voting rights in the company, our majority shareholder may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority shareholder may decide to issue additional shares to new investors, sell convertible debt instruments with beneficial conversion features, or make decisions that affect the tax treatment of the company in ways that may be unfavorable to you. Based on the risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

There is a risk that the majority shareholder exercises her voting rights in a manner that is not favorable to the interest of individuals who are minority owners.

20. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

We calculated our valuation by comparing our company to known valuations of other companies in our industry.

21. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

As minority owners, the crowd funding investors are subject to the decisions made by the management team or the majority shareholder.

22. What are the risks to purchasers associated with corporate actions including:

- additional issuances of securities,
- issuer repurchases of securities,
- a sale of the issuer or of assets of the issuer or
- transactions with related parties?

The issuance of additional securities will dilute the ownership of the crowdfunding investors. As a result, if we achieve profitable operations in the future, our net income per share will be reduced because of dilution, and the market price of our common stock, if there is a market price, could decline as a result of the additional issuances of securities.

If we repurchase securities, so that the above risk is mitigated, we may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our common stock, if any, would decline.

A sale of our company or of all the assets of our company may result in an entire loss of your investment. We cannot predict the market value of our company or our assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. Our company currently has negative net worth (our liabilities exceed our assets) and it is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors.

We may need to negotiate with a related-party for additional capital. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. We anticipate that if we have any transactions with related parties, that they will be on an arms-length basis.

23. Describe the material terms of any indebtedness of the issuer:

Creditor(s):	Bond Street
Amount Outstanding:	\$22,000
Interest Rate:	15.5%
Maturity Date:	February 28, 2019
Other Material Terms:	

Creditor(s):	500 Startups
Amount Outstanding:	\$125,000
Interest Rate:	0.0%
Maturity Date:	September 26, 2017
Other Material Terms:	

Creditor(s):	Tumml
Amount Outstanding:	\$20,000
Interest Rate:	0.0%
Maturity Date:	
Other Material Terms:	

24. What other exempt offerings has HandStack P.B.C. conducted within the past three years?

None.

25. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:
1. any director or officer of the issuer;
 2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
 3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer; or
 4. any immediate family member of any of the foregoing persons.

No.

Financial Condition of the Issuer

26. Does the issuer have an operating history?

Yes.

27. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

At December 31, 2016 we had a cash balance of \$130,305. We incurred a loss of \$93,296 in the year ended December 31, 2016, but we generated positive cash flow from operations of approximately 30,000, primarily due to \$125,000 in deferred revenues we received for orders that we had not yet filled.

The date at which we are compiling this data for a crowdfunding offering is August 18, 2017. For the period of January 1, 2017 to August 18, 2017, we generated revenues of \$155,277, compared to \$143,570 for the year ended December 31, 2016. In addition to this revenue increase, our gross profit also increased from \$101,812 to \$116,348.

Year-to-date at August 18, 2017, we are operating with a net loss of \$18,136, as compared to a net loss of \$93,296 in the year ended December 31, 2016.

Although we have revenues from operations, and we continue to control our costs, we are in need of financing to grow our customer base and continue our business operations.

Financial Information

28. Include the financial information specified by regulation, covering the two most recently completed fiscal years or the period(s) since inception if shorter.

Taxes

Total Income	Taxable Income	Taxes Paid
\$143,750	\$0	\$0

29. With respect to the issuer, any predecessor of the issuer, any affiliated issuer, any director, officer, general partner or managing member of the issuer, any beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated in the same form as described in Question 6 of this Question and Answer format, any promoter connected with the issuer in any capacity at the time of such sale, any person that has been or will be paid (directly or indirectly) remuneration for solicitation of purchasers in connection with such sale of securities, or any general partner, director, officer or managing member of any such solicitor, prior to May 16, 2016:
1. Has any such person been convicted, within 10 years (or five years, in the case of issuers, their predecessors and affiliated issuers) before the filing of this offering statement, of any felony or misdemeanor:
 1. in connection with the purchase or sale of any security?
 2. involving the making of any false filing with the Commission?
 3. arising out of the conduct of the business of an underwriter, broker, dealer, municipal securities dealer, investment adviser, funding portal or paid solicitor of purchasers of securities?
 2. Is any such person subject to any order, judgment or decree of any court of competent jurisdiction, entered within five years before the filing of the information required by Section 4A(b) of the Securities Act that, at the time of filing of this offering statement, restrains or enjoins such person from engaging or continuing to engage in any conduct or practice:
 1. in connection with the purchase or sale of any security?;
 2. involving the making of any false filing with the Commission?
 3. arising out of the conduct of the business of an underwriter, broker, dealer, municipal securities dealer, investment adviser, funding portal or paid solicitor of purchasers of securities?
 3. Is any such person subject to a final order of a state securities commission (or an agency or officer of a state performing like functions); a state authority that supervises or examines banks, savings associations or credit unions; a state insurance commission (or an agency or officer of a state performing like functions); an appropriate federal banking agency; the U.S. Commodity Futures Trading Commission; or the National Credit Union Administration that:
 1. at the time of the filing of this offering statement bars the person from:
 1. association with an entity regulated by such commission, authority, agency or officer?
 2. engaging in the business of securities, insurance or banking?
 3. engaging in savings association or credit union activities?
 2. constitutes a final order based on a violation of any law or regulation that prohibits fraudulent, manipulative or deceptive conduct and for which the order was entered within the 10-year period ending on the date of the filing of this offering statement?
 4. Is any such person subject to an order of the Commission entered pursuant to Section 15(b) or 15B(c) of the Exchange Act or Section 203(e) or (f) of the Investment Advisers Act of 1940 that, at the time of the filing of this offering statement:
 1. suspends or revokes such person's registration as a broker, dealer, municipal securities dealer, investment adviser or funding portal?
 2. places limitations on the activities, functions or operations of such person?
 3. bars such person from being associated with any entity or from participating in the offering of any penny stock?

If Yes to any of the above, explain:

5. Is any such person subject to any order of the Commission entered within five years before the filing of this offering statement that, at the time of the filing of this offering statement, orders

the person to cease and desist from committing or causing a violation or future violation of:

1. any scienter-based anti-fraud provision of the federal securities laws, including without limitation Section 17(a)(1) of the Securities Act, Section 10(b) of the Exchange Act, Section 15(c)(1) of the Exchange Act and Section 206(1) of the Investment Advisers Act of 1940 or any other rule or regulation thereunder?
 2. Section 5 of the Securities Act?
6. Is any such person suspended or expelled from membership in, or suspended or barred from association with a member of, a registered national securities exchange or a registered national or affiliated securities association for any act or omission to act constituting conduct inconsistent with just and equitable principles of trade?
7. Has any such person filed (as a registrant or issuer), or was any such person or was any such person named as an underwriter in, any registration statement or Regulation A offering statement filed with the Commission that, within five years before the filing of this offering statement, was the subject of a refusal order, stop order, or order suspending the Regulation A exemption, or is any such person, at the time of such filing, the subject of an investigation or proceeding to determine whether a stop order or suspension order should be issued?
8. Is any such person subject to a United States Postal Service false representation order entered within five years before the filing of the information required by Section 4A(b) of the Securities Act, or is any such person, at the time of filing of this offering statement, subject to a temporary restraining order or preliminary injunction with respect to conduct alleged by the United States Postal Service to constitute a scheme or device for obtaining money or property through the mail by means of false representations?

HandStack P.B.C. answers 'NO' to all of the above questions.

Other Material Information

30. In addition to the information expressly required to be included in this Form, include: any other material information presented to investors; and such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

Video Transcript: Hi my name is Jessica Lee. I am the founder of bitesize. We help bring scaled personalized text marketing. Let me tell you about how we started this business. Five years ago I was organizing undocumented immigrants like myself. I realized that these are the toughest people to organize. They don't have the money or the time to commit to an event to even fight for their own rights. So I tried facebook, I

I tried PR strategies through newspapers. And The only thing that worked was a one on one conversation through text messaging. And that's when I realized that digital marketing is not where it could be. It's almost like we are pasting a newspaper ad to a device. Even though Facebook and Google ads are good at targeting exactly the right person, there is no personalization in terms of interaction. And that's what's missing. So I took this text messaging platform and scaled it nationally across 140 campaigns to help politicians talk to voters. And get them bought in. And with the help of my client who understood that campaigns that made it easiest to vote would win

And we were so successful and so ambitious we took it to top brand marketers. And they understood that the next trend in digital marketing is that brands will come to consumers and make it easier to buy. And the brands that make it easiest to buy will win the market.

Ongoing Reporting

31. **The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its web site, no later than 120 days after the end of each fiscal year covered by the report:**

Once posted, the annual report may be found on the issuer's web site at: bitesize.co

The issuer must continue to comply with the ongoing reporting requirements until:

- the issuer is required to file reports under Section 13(a) or Section 15(d) of the Exchange Act;
- the issuer has filed at least one annual report pursuant to Regulation Crowdfunding and has fewer than 300 holders of record and has total assets that do not exceed \$10,000,000;
- the issuer has filed at least three annual reports pursuant to Regulation Crowdfunding;
- the issuer or another party repurchases all of the securities issued in reliance on Section 4(a)(6) of the Securities Act, including any payment in full of debt securities or any complete redemption of redeemable securities; or
- the issuer liquidates or dissolves its business in accordance with state law.
