Profile: After spending much of my professional life in finance I joined the accounting team at Malibu Compost in 2010. My husband and I invested in Malibu Compost because after running extensive plant trials versus competitors we saw that this product really worked! I also believed in gardening organically and the notion of building the soil to create healthy plants has always appealed to me. Malibu Compost has opened the Biodynamic world to me and what a growing world it is!

Experience

CFO- Malibu Compost Inc. Berkeley CA 2017-Present

Accounting Team, Office Manager- Malibu Compost LLC 2010-2016
