## RISK FACTORS

**The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.**

**These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.**

8. Discuss the material factors that make an investment in the issuer speculative or risky:

*An investment in our shares involves a high degree of risk and many uncertainties. You should carefully consider the specific factors listed below, together with the other information included in this offering circular, before purchasing our shares in this offering. If one or more of the possibilities described as risks below actually occur, our operating results and financial condition would likely suffer and the trading price, if any, of our shares could fall, causing you to lose some or all of your investment. The following is a description of what we consider the key challenges and material risks to our business and an investment in our securities.*

**If our brand does not achieve more widespread consumer acceptance, our growth may be limited.**

Our brand is early in its growth cycle and has not yet achieved extensive brand recognition. Accordingly, if consumers do not accept our brand, we will not be able to penetrate our markets and our growth may be limited.

**Lack of Operating History and Risks of Operation.**

We are a new company (commencing operations in 2017). We have not yet commenced significant business operations. We are therefore, subject to all of the risks inherent in any new business enterprise. There can be no assurance that we or our franchisees will be successful in operating our cafes, and our failure to do so could have a material adverse effect on our business, prospects, financial condition and results of operations.

**Delays in Opening our Cafes.**

The proceeds of this Offering will be used, in part, to build out and open one or more cafes. Our revenues will arise primarily from the operation of the cafes and franchise fees. We do not anticipate receiving any income until our first cafes are complete and our initial franchisees have executed franchise agreements. Therefore, anything that delays the opening of the cafes or the on boarding of franchisees, will adversely effect our profitability.

**Labor shortages, an increase in labor costs, or an inability to attract employees could harm our business.**

Our employees and our ability to deliver an enjoyable cafe experience to our customers will be essential to our operations. If we are unable to attract and retain enough qualified restaurant personnel at a reasonable cost, and if they do

not deliver an enjoyable customer experience, our results may be negatively affected. Additionally, competition for qualified employees could require us to pay higher wages, which could result in higher labor costs.

**Disruptions in our supply chain or increases in ingredient, product and other supply costs could adversely affect our profitability and operating results.**

Our cafes will be dependent on frequent deliveries of ingredients and other products. We believe we shall have adequate sources of supplies for our ingredients and products to support our cafe operations, however, there are many factors which could cause shortages or interruptions in the supply of our ingredients and products, including weather, unanticipated demand, labor, production or distribution problems, quality issues and cost. Some of these factors are beyond our control, and could have an adverse effect on our business and results of operations.

**Our failure or inability to protect our brand, trademarks or other proprietary rights could adversely affect our business and competitive position.**

We believe that our brand, intellectual property and our confidential and proprietary information will be very important to our business and our competitive position. The brand "Black Mamma Tea & Cafe", along with trade secrets, confidential and proprietary information and other intellectual property rights are key components of our operating and marketing strategies. Unauthorized usage or imitation by others could harm our image, brand or competitive position and, if we commence litigation to enforce our rights, cause us to incur significant legal fees. In addition, actions by other parties claiming that we are infringing on their intellectual property rights could also cause us to incur significant legal fees and divert management's attention from the operation of our cafes.

The cafe business is highly competitive. Although we believe we have a strong brand and will have strategic locations, there are many existing tea and coffee houses. We face competition from established companies such as Coffee Bean & Tea Leaf, as well as coffee houses such as Starbucks and Diedrich Coffee. Many of our competitors have substantially greater financial and marketing resources, larger customer bases, longer operating histories, greater name recognition and more established relationships in the industry than us. As a result, these competitors may be able to devote greater resources to marketing and sales than us. There can be no assurance that we will compete successfully with such competitors.

**Our Success Is Highly Dependent On Our Current Management.**

Our success depends in significant part on the continued services of our current management team. Our success also depends in significant part on our ability to attract and retain additional management and other personnel. The inability to attract and retain such key personnel, or losing one or more of our existing management team, would seriously impair our ability to, or could cause us to fail to, successfully implement our business plan. This would have a material adverse effect on our business, results of operations and financial condition and the investors could lose their investment.

**Risks of Borrowing.**

We may have to seek loans from financial institutions or other individuals in the future. Typical loan agreements might contain restrictive covenants which may impair our operating flexibility, and may require us to provide a security interest in our assets.

**Limited Transferability and Liquidity.**

Certain conditions imposed by the Securities Act must be satisfied prior to any sale, transfer, conversion or other disposition of our common stock. No public market exists for our common stock and no market is expected to develop.

**Projections: Forward Looking Information.**

Any projections regarding our anticipated financial performance are hypothetical and are based on management's best estimate of the probable results of our operations, and have not been reviewed by our independent accountants. Such projections are based on several assumptions which management believes are reasonable. Some assumptions invariably will not materialize due to unanticipated events and circumstances beyond management's control. Therefore, actual results of operations will vary from the projections, and such variances may be material. The projected results cannot be guaranteed.

**Dilution**

You should understand the potential for dilution. Each investor's stake in us, could be diluted due to our issuing additional shares. In other words, if we issue more shares, the percentage of the Company that you own will decrease, even though our value may increase. You will own a smaller piece of a larger company. This increase in the number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round or angel investment), employees exercising stock options, or by conversion of certain instruments (e.g., convertible notes, preferred shares or warrants) into stock.

If we decide to issue more shares, you could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (although this typically occurs only if we offer dividends, and most early stage companies are unlikely to offer dividends, preferring to invest any earnings into the Company).

dividends, referring to invest any earnings into the Company).

The type of dilution that hurts early-stage investors mostly occurs when the company sells more shares in a "down round," meaning at a lower valuation than in earlier offerings.

If you are making an investment expecting to own a certain percentage of the Company or expecting each share to hold a certain amount of value, it is important to realize how the value of those shares can decrease by actions taken by the Company. Dilution can make drastic changes to the value of each share, ownership percentage, voting control, and earnings per share

**The Investor hereby appoints the CEO of the Company (the "CEO"), or his or her successor, as the Investor's true and lawful proxy and attorney, with the power to act alone and with full power of substitution, to, consistent with this instrument and on behalf of the Investor, (i) vote all Securities, (ii) give and receive notices and communications, (iii) execute any instrument or document that the CEO determines is necessary or appropriate in the exercise of its authority under this instrument, and (iv) take all actions necessary or appropriate in the judgment of the CEO for the accomplishment of the foregoing, including, but not limited to, signing all documents, and taking any and all actions, determined by the Company's officers and directors, in good faith, to be advisable to transfer any shares held by the Investor into a special purpose vehicle or other entity designed to aggregate the interests of holders of the Shares pursuant to Section 11 of this Agreement.**

George Tootle is part-time and this could have a negative impact on our ability to execute our business plan.

*INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.*

Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

#### Overview

We are purveyors of teas from different countries. We source directly from the plantation, so there's no middleman. Black Momma Tea & Cafe is the physical extension of our existing brands: Black Momma Vodka, Black Momma Teas, Black Momma Agave, and Black Momma Mixers, which currently have 33,623 total customers as of Sept 2018 and totaled \$2.5 million in online sales. We're building two locations in N.Y. to create the physical extensions of our e-commerce business and to jump-start our brick and mortar expansion.

In five years, we hope to have 500 Black Momma Tea & Cafes that will consist of corporate stores, franchises, and licensed units. In addition, we are striving to be listed on a major exchange in the future which will allow for further expansion globally. This growth will create jobs, collaboration with new small businesses and help expand small crafted manufacturers within the Food & Beverage industry.

Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future if any.

#### Milestones

#### Liquidity & Capital Resources

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 3 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

#### Runway & Short/Mid Term Expenses

Black Momma Tea and Cafe, Inc cash in hand is \$430,626.62, as of September 2018. Over the last three months, revenues have averaged \$1420., cost of goods sold has averaged \$1384., and operational expenses have averaged \$36,333/month, for an average burn rate of \$36,369 per month. Our intent is to be profitable in 18 months.

As we advance with the development of the project to scale with an acceleration, we expect that the average monthly expenses will grow to about \$59,000 to \$69,000, if we successfully raise the maximum on Wefunder. Expenses will vary depending on the success of this round for the next 3-6 months. Especially with construction. In the 3-6 months of build out our expenses will remain consistent with historical trends within the hospitality/food & beverage industry with the addition of paying for a local marketing, advertising, and National Sales and PR Firm for Sales to Potential Franchisees.

Once we open the first location targeted for July 2019. It's the middle of the Summer Season and the high increase for Iced Tea's are in demand. 85% of the teas consumed in the US are cold beverages. Sales are expected from \$79,800 to \$91,770 conservatively.
