This Annual Report is dated July 31, 2023.

### BUSINESS

Best Food Trucks, Inc. ("BFT") is a C-Corp organized under the laws of the state of Delaware, with a Corporate HQ in the state of California that is a SaaS based technology and data company in the mobile vending industry. BFT's business model consists of mobile and web-based applications that connect mobile food vendors with their customers. Our services are available across the United States and Canada for individuals, government agencies and the private sector. BFT is a profitable company with a proven technology in a rapidly growing industry. Your investment will help scale BFT's proven marketing and sales playbook and will not be used to develop an economically unproven technology. Your investment is also backing the most experienced team at the confluence of the mobile vending industry and technology sector.

Best Food Trucks (BFT) is a technology and data company that changes the way customers connect with unique culinary experiences by seamlessly linking them with the finest food trucks and mobile vendors across North America. Our state-of-the-art platform empowers mobile vendors to effectively promote their menus, bid on catering events in their respective regions, and effortlessly process contactless mobile orders through our bespoke mobile vending POS system.

As customers explore BFT's virtual marketplace, they gain immediate access to real-time information on operating food trucks, enabling them to effortlessly book them for catered events or experiential marketing ventures. Through our technology, BFT has established itself the

ultimate solution in the market, resulting in revenue growth over the past three years.

BFT currently generates revenue through three primary channels, complemented by upcoming revenue streams in development. Firstly, by facilitating street-side and location opportunities for food trucks, BFT charges a nominal 10% fee to the participating trucks. Additionally, when we connect food trucks with more lucrative catering opportunities, a fee ranging from 15% to 20% is applied. Lastly, customers who utilize BFT's user-friendly online ordering platform incur a convenience fee of \$1.00 per transaction. These revenue streams have already contributed to BFT's profitability. Moreover, we are actively working on introducing additional revenue streams, including monthly subscription services that food trucks can subscribe to for access to advanced in-app features. Furthermore, our forthcoming offering of small business lending to food trucks will generate traditional interest revenue, bolstering BFT's business model. We place great importance on ensuring that our revenue sources are thoughtfully structured, aiming to avoid overwhelming financial burdens on our food truck partners. Instead, we perceive them as opportunities for our partners to streamline their marketing and sales operations, thereby maximizing their margins at each location facilitated through BFT.

## **REGULATORY INFORMATION**

The company has not previously failed to comply with the requirements of Regulation Crowdfunding;

## **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION**

### **AND RESULTS OF OPERATION**

#### **Operating Results – 2022 Compared to 2021**

Circumstances which led to the performance of financial statements:

Year ended December 31, 2021 compared to year ended December 31, 2022

#### **Revenue**

Revenue for fiscal year 2021 was \$6,893,824 compared to \$10,083,996 in fiscal year 2022. This 46% increase in revenue growth was driven largely from expanding marketing share with existing products and the launch of BFT's catering portal in 2022.

#### **Cost of sales**

Cost of Sales for fiscal year 2021 was \$5,909,530 compared to \$8,932,081 in fiscal year 2022. The percentage of cost of sales to revenue decreased in 2022 because of promotional activities designed to get more mobile operators on the platform in 2022 as it expanded nationally.

#### **Gross margins**

Gross margins for fiscal year 2021 were \$984,294 compared to \$1,151,915 in fiscal year 2022.

#### **Expenses**

Expenses for fiscal year 2021 were \$930,677 compared to \$1,327,187 in fiscal year 2022.

Expenses increased in 2022 to support new product development investments and to grow marketing, sales and customer services functions.

## Historical results and cash flows:

The Company is currently in the growth and scale stage and revenue generating. We are of the opinion the historical cash flows will be indicative of the revenue and cash flows expected for the future because the company's existing products are launched, generating revenue and growing market share. Past cash was primarily generated through sales of the company's products and services. Our goal is to continue growing revenue YoY at a 25-40% growth rate while reducing the cost of sales growth rate.

## Liquidity and Capital Resources

At December 31, 2022, the Company had cash of \$33,800.00. [*The Company intends to raise additional funds through an equity financing.*]

## Debt

Creditor: Promissory Notes & Loans

Amount Owed: \$137,574.00

Interest Rate: 3.75%

Maturity Date: May 15, 2050

Creditor: Stripe Loan Agreement

Amount Owed: \$51,908.00

Interest Rate: 0.0%

Maturity Date: March 20, 2024

Creditor: SAFE 2017

Amount Owed: \$20,000.00

Interest Rate: 0.0%

If there is an Equity Financing before the expiration or termination of this instrument, the Company will automatically issue to the Investor either: (1) a number of shares of Standard Preferred Stock equal to the Purchase Amount divided by the price per share of the Standard Preferred Stock, if the pre-money valuation is less than or equal to the Valuation Cap; or (2) a number of shares of Safe Preferred Stock equal to the Purchase Amount divided by the Safe Price, if the pre-money valuation is greater than the Valuation Cap. If there is a Liquidity Event before the expiration or termination of this instrument, the Investor will, at its option, either a) receive a cash payment equal to the Purchase Amount (subject to the following paragraph) or b) automatically receive from the Company a number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price, if the Investor fails to select the cash option. If there is a Dissolution Event before this instrument expires or terminates, the Company will pay an amount equal to the Purchase Amount due and payable to the Investor immediately prior to, or concurrent with, the consummation of the Dissolution Event. The SAFE will expire upon either the issuance of stock to the investor pursuant to above or payment. Since the SAFEs are potentially settleable in cash, the Company has decided to classify them as a liability.

Creditor: SAFE 2018

Amount Owed: \$25,000.00

Interest Rate: 0.0%

If there is an Equity Financing before the expiration or termination of this instrument, the Company will automatically issue to the Investor either: (1) a number of shares of Standard Preferred Stock equal to the Purchase Amount divided by the price per share of the Standard Preferred Stock, if the pre-money valuation is less than or equal to the Valuation Cap; or (2) a number of shares of Safe Preferred Stock equal to the Purchase Amount divided by the Safe Price, if the pre-money valuation is greater than the Valuation Cap. If there is a Liquidity Event before the expiration or termination of this instrument, the Investor will, at its option, either a) receive a cash payment equal to the Purchase Amount (subject to the following paragraph) or b) automatically receive from the Company a number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price, if the Investor fails to select the cash option. If there is a Dissolution Event before this instrument expires or terminates, the Company will pay an amount equal to the Purchase Amount due and payable to the Investor immediately prior to, or concurrent with, the consummation of the Dissolution Event. The SAFE will expire upon either the issuance of stock to the investor pursuant to above or payment. Since the SAFEs are potentially settleable in cash, the Company has decided to classify them as a liability.

Creditor: SAFE 2019

Amount Owed: \$50,000.00

Interest Rate: 0.0%

If there is an Equity Financing before the expiration or termination of this instrument, the Company will automatically issue to the Investor either: (1) a number of shares of Standard Preferred Stock equal to the Purchase Amount divided by the price per share of the Standard Preferred Stock, if the pre-money valuation is less than or equal to the Valuation Cap; or (2) a number of shares of Safe Preferred Stock equal to the Purchase Amount divided by the Safe Price, if the pre-money valuation is greater than the Valuation Cap. If there is a Liquidity Event before the expiration or termination of this instrument, the Investor will, at its option, either a) receive a cash payment equal to the Purchase Amount (subject to the following paragraph) or b) automatically receive from the Company a number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price, if the Investor fails to select the cash option. If there is a Dissolution Event before this instrument expires or terminates, the Company will pay an amount equal to the Purchase Amount due and payable to the Investor immediately prior to, or concurrent with, the consummation of the Dissolution Event. The SAFE will expire upon either the issuance of stock to the investor pursuant to above or payment. Since the SAFEs are potentially settleable in cash, the Company has decided to classify them as a liability.

Creditor: CROWD SAFE

Amount Owed: \$34,230.00

Interest Rate: 0.0%

If there is an Equity Financing before the expiration or termination of this instrument, the Company will automatically issue to the Investor either: (1) a number of shares of Standard Preferred Stock equal to the Purchase Amount divided by the price per share of the Standard Preferred Stock, if the pre-money valuation is less than or equal to the Valuation Cap; or (2) a number of shares of Safe Preferred Stock equal to the Purchase Amount divided by the Safe Price, if the pre-money valuation is greater than the Valuation Cap. If there is a Liquidity Event before the expiration or termination of this instrument, the Investor will, at its option, either a) receive a cash payment equal to the Purchase Amount (subject to the following paragraph) or b) automatically receive from the Company a number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price, if the Investor fails to select the cash option. If

there is a Dissolution Event before this instrument expires or terminates, the Company will pay an amount equal to the Purchase Amount due and payable to the Investor immediately prior to, or concurrent with, the consummation of the Dissolution Event. The SAFE will expire upon either the issuance of stock to the investor pursuant to above or payment. Since the SAFEs are potentially settleable in cash, the Company has decided to classify them as a liability.

Creditor: Convertible Note -TECHSTARS ACCELERATOR INVESTMENTS LLC

Amount Owed: \$146,712.00

Interest Rate: 5.0%

Maturity Date: July 20, 2020

The convertible notes are convertible into common shares and preferred stock at a conversion price. The conversion price is equal to the lesser of (i) 80% of the price paid per share for such shares by the Investors, or (ii) the price (the "Cap Conversion Price") equal to the quotient of \$3,000,000 divided by the total number of outstanding shares of the Company immediately prior to the Qualified Financing calculated on a fully diluted basis. Since the conversion feature is convertible into variable number of shares and does not have fixed-for-fixed features, the conversion feature was not bifurcated and recorded separately.

Creditor: Lease Agreement

Amount Owed: \$26,222.00

Interest Rate: 0.0%

Maturity Date: December 31, 2024

On January 01, 2022, the Company entered into a lease agreement mostly for certain business premises located at 3409 Fay Ave, Los Angeles, California. The rent expires on December 31, 2024. Our lease agreement does not contain any material residual value guarantees or material restrictive covenants.

### **Voting Rights**

There are no voting rights associated with Class B Common Stock, Non Voting Rights.

### **Material Rights**

There are no material rights associated with Class B Common Stock, Non Voting Rights.

## **What it means to be a minority holder**

As a minority holder you will have limited ability, if at all, to influence our policies or any other

corporate matter, including the election of directors, changes to our company's governance documents, additional issuances of securities, company repurchases of securities, a sale of the company or of assets of the company or transactions with related parties.

## **Dilution**

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will decrease, even though the value of the company may increase. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round or angel investment), employees exercising stock options, or by conversion of certain instruments (e.g. convertible notes, preferred shares or warrants) into stock.

If we decide to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if we offer dividends, and most early stage companies are unlikely to offer dividends, preferring to invest any earnings into the company).

The type of dilution that hurts early-stage investors most occurs when the company sells more shares in a "down round," meaning at a lower valuation than in earlier offerings.

If you are making an investment expecting to own a certain percentage of the company or expecting each share to hold a certain amount of value, it's important to realize how the value of those shares can decrease by actions taken by the company. Dilution can make drastic changes to the value of each share, ownership percentage, voting control, and earnings per share.

## **RISK FACTORS**

**Uncertain Risk** An investment in the Company (also referred to as "we", "us", "our", or "Company") involves a high degree of risk and should only be considered by those who can afford the loss of their entire investment. Furthermore, the purchase of any of the Common Stock should only be undertaken by persons whose financial resources are sufficient to enable them to indefinitely retain an illiquid investment. Each investor in the Company should consider all of the information provided to such potential investor regarding the Company as well as the following risk factors, in addition to the other information listed in the Company's Form C. The following risk factors are not intended, and shall not be deemed to be, a complete description of the commercial and other risks inherent in the investment in the Company. Our business projections are only projections. There can be no assurance that the Company will meet our projections. There can be no assurance that the Company will be able to find sufficient demand for our product, that people think it's a better option than a competing product, or that we will be able to provide the service at a level that allows the Company to make a profit and still attract business. Any valuation at this stage is difficult to assess. The valuation for the offering was established by the Company. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment. The transferability of the Securities you are buying is limited. Any Common Stock purchased through this crowdfunding campaign is subject

to SEC limitations of transfer. This means that the stock/note that you purchase cannot be resold for a period of one year. The exception to this rule is if you are transferring the stock back to the Company, to an “accredited investor,” as part of an offering registered with the Commission, to a member of your family, trust created for the benefit of your family, or in connection with your death or divorce. Your investment could be illiquid for a long time. You should be prepared to hold this investment for several years or longer. For the 12 months following your investment there will be restrictions on how you can resell the securities you receive. More importantly, there is no established market for these securities and there may never be one. As a result, if you decide to sell these securities in the future, you may not be able to find a buyer. The Company may be acquired by an existing player in the software development industry. However, that may never happen or it may happen at a price that results in you losing money on this investment. Terms of subsequent financings may adversely impact your investment. We will likely need to engage in common equity, debt, or preferred stock financings in the future, which may reduce the value of your investment in the Common Stock. Interest on debt securities could increase costs and negatively impact operating results. Preferred stock could be issued in series from time to time with such designation, rights, preferences, and limitations as needed to raise capital. The terms of preferred stock could be more advantageous to those investors than to the holders of Common Stock. In addition, if we need to raise more equity capital from the sale of Common Stock, institutional or other investors may negotiate terms that are likely to be more favorable than the terms of your investment, and possibly a lower purchase price per share.

**Management Discretion as to Use of Proceeds** Our success will be substantially dependent upon the discretion and judgment of our management team with respect to the application and allocation of the proceeds of this Offering. The use of proceeds described below is an estimate based on our current business plan. We, however, may find it necessary or advisable to re-allocate portions of the net proceeds reserved for one category to another, and we will have broad discretion in doing so.

**Projections: Forward Looking Information** Any projections or forward looking statements regarding our anticipated financial or operational performance are hypothetical and are based on management's best estimate of the probable results of our operations and will not have been reviewed by our independent accountants. These projections will be based on assumptions which management believes are reasonable. Some assumptions invariably will not materialize due to unanticipated events and circumstances beyond management's control. Therefore, actual results of operations will vary from such projections, and such variances may be material. Any projected results cannot be guaranteed. The amount raised in this offering may include investments from company insiders or immediate family members. Officers, directors, executives, and existing owners with a controlling stake in the company (or their immediate family members) may make investments in this offering. Any such investments will be included in the raised amount reflected on the campaign page.

**Minority Holder; Securities with No Voting Rights** The security that an investor is buying has no voting rights attached to them. This means that you will have no rights in dictating on how the Company will be run. You are trusting in management discretion in making good business decisions that will grow your investments. Furthermore, in the event of a liquidation of our company, you will only be paid out if there is any cash remaining after all of the creditors of our company have been paid out. You are trusting that management will make the best decision for the company. You are trusting in management discretion. You are buying securities as a minority holder, and therefore must trust the management of the Company to make good business decisions that grow your investment. This offering involves “rolling closings,” which may mean that earlier investors may not have the benefit of information that later investors have. Once we meet our target amount for this offering, we may request that StartEngine instruct the escrow agent to

disburse offering funds to us. At that point, investors whose subscription agreements have been accepted will become our investors. All early-stage companies are subject to a number of risks and uncertainties, and it is not uncommon for material changes to be made to the offering terms, or to companies' businesses, plans or prospects, sometimes on short notice. When such changes happen during the course of an offering, we must file an amended to our Form C with the SEC, and investors whose subscriptions have not yet been accepted will have the right to withdraw their subscriptions and get their money back. Investors whose subscriptions have already been accepted, however, will already be our investors and will have no such right. Our new product could fail to achieve the sales projections we expected. Our growth projections are based on an assumption that with an increased advertising and marketing budget our products will be able to gain traction in the marketplace at a faster rate than our current products have. It is possible that our new products will fail to gain market acceptance for any number of reasons. If the new products fail to achieve significant sales and acceptance in the marketplace, this could materially and adversely impact the value of your investment. The loss of one or more of our key personnel, or our failure to attract and retain other highly qualified personnel in the future, could harm our business. To be successful, the Company requires capable people to run its day to day operations. As the Company grows, it will need to attract and hire additional employees in sales, marketing, design, development, operations, finance, legal, human resources and other areas. Depending on the economic environment and the Company's performance, we may not be able to locate or attract qualified individuals for such positions when we need them. We may also make hiring mistakes, which can be costly in terms of resources spent in recruiting, hiring and investing in the incorrect individual and in the time delay in locating the right employee fit. If we are unable to attract, hire and retain the right talent or make too many hiring mistakes, it is likely our business will suffer from not having the right employees in the right positions at the right time. This would likely adversely impact the value of your investment. We rely on third parties to provide services essential to the success of our business. We rely on third parties to provide a variety of essential business functions for us, including manufacturing, shipping, accounting, legal work, public relations, advertising, retailing, and distribution. It is possible that some of these third parties will fail to perform their services or will perform them in an unacceptable manner. It is possible that we will experience delays, defects, errors, or other problems with their work that will materially impact our operations and we may have little or no recourse to recover damages for these losses. A disruption in these key or other suppliers' operations could materially and adversely affect our business. As a result, your investment could be adversely impacted by our reliance on third parties and their performance.

**Competitive Landscape** While Best Food Trucks (BFT) has positioned itself as a leader in the food truck industry, it faces competition from other platforms like Roaming Hunger, Street Food Finder, and Food Truck Fiesta. These competitors may develop new technologies, expand their reach, or offer more competitive pricing, which could impact BFT's market share and growth prospects.

**Dependence on Technology** BFT heavily relies on its state-of-the-art platform and data-driven approach to connect customers with food trucks. Any disruptions, system failures, cybersecurity breaches, or technological limitations could negatively impact BFT's ability to operate effectively, resulting in a loss of customers, reputation damage, or financial losses.

**Regulatory and Legal Risks** The food truck industry is subject to various regulations and licensing requirements at the local, state, and federal levels. Changes in regulations, permits, health and safety standards, or zoning restrictions could increase operational costs, limit the expansion into new markets, or lead to legal disputes, negatively affecting BFT's operations and profitability.

**Dependence on Food Truck Partners** BFT's revenue streams rely on the participation of food trucks and their willingness to use BFT's platform. If a

significant number of food trucks choose to terminate their partnership or switch to competing platforms, it could impact BFT's revenue and growth potential. Economic Factors BFT's success is closely tied to the overall economic conditions and consumer spending habits. A downturn in the economy, changes in consumer preferences, or decreased discretionary spending could result in a decline in demand for food trucks and catering services, affecting BFT's revenue and profitability. Operational Challenges As BFT aims to expand its services and scale its operations, it may face operational challenges, including managing a large network of food trucks, maintaining quality control, ensuring timely delivery, and providing satisfactory customer service. Difficulties in managing growth could impact customer satisfaction and the overall success of the business. Dependency on Key Personnel The leadership and expertise of key personnel, including the CEO, Matt Geller, play a crucial role in BFT's success. The loss of key personnel or their inability to perform their roles effectively could disrupt operations, impact strategic decision-making, and hinder the company's growth trajectory. Market and Demand Volatility The food truck industry's growth and demand can be subject to volatility due to changing consumer trends, economic fluctuations, or unforeseen events (such as pandemics or natural disasters). Such market uncertainties could impact BFT's ability to predict and meet customer demand, potentially affecting revenue and growth. Financial Risks While BFT has shown profitability and revenue growth, there are inherent financial risks associated with scaling operations and expanding into new markets. This includes managing cash flow, securing financing for growth initiatives, and effectively monetizing new revenue streams. Failure to address these financial risks could strain BFT's financial resources and hinder its expansion plans. Reputation and Brand Risk BFT's reputation and brand image are essential for attracting customers and food truck partners. Negative publicity, customer dissatisfaction, or incidents related to food safety or quality could harm BFT's reputation and result in a loss of trust, impacting customer acquisition and retention.

## **RESTRICTIONS ON TRANSFER**

The common stock sold in the Regulation CF offering, may not be transferred by any purchaser, for a period of one-year beginning when the securities were issued, unless such securities are transferred:

- (1) to the Company;
- (2) to an accredited investor;
- (3) as part of an offering registered with the SEC; or
- (4) to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

## **SIGNATURES**

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100-503), the issuer certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form C and has duly caused this Form to be signed on its behalf by the duly authorized undersigned, on July 31, 2023.
