

[Music]

00:00

when traveling in a car car seats are

00:03

required by law

00:03

caregivers usually purchase based on the

00:05

car seat fashion and completely leave

00:07

the child's preference out of the buying

00:09

process the children really don't want

00:11

to send those boring standard car seats

00:12

and when they get older they may undo

00:14

those bucket and get out of the seat

00:15

while traveling but century has changed

00:18

them as you know children love their

00:20

stuffed animals they take them

00:21

everywhere

00:22

and they lead them as users introducing

00:25

garden multi-century the biggest

00:27

difference for me between the standard

00:30

car seats and the garden wall is the

00:32

fact that the kids just look so much

00:35

more comfortable and it's not a struggle

00:36

to even get them in because they're

00:38

wanting to sit with their buddy rustling

00:41

really likes the tiger one because you

00:43

love Suvari animals they're so soft and

00:46

so cuddly people all the time

00:48

Stoppa can ask where we got these Peas

00:51

[Applause]

00:51

[Music]

00:54

Oh

00:55
