RISK FACTORS

Risks Related to the Company's Business and Industry

The development and commercialization of our product is highly competitive.

We face competition with respect to any vodka that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing their vodkas and thus may be better equipped than us to develop and commercialize a vodka brand. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize their brands more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our brand will achieve initial market acceptance and our ability to generate meaningful additional revenues from our products.

We rely on other companies to provide the raw materials for our products.

We depend on these suppliers and subcontractors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if suppliers or subcontractors do not provide the agreed-upon supplies or perform the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our products may be adversely impacted if companies to whom we delegate manufacture of major components or subsystems for our products, or from whom we acquire such items, do not provide raw materials which meet required specifications and perform to our and our customers' expectations. Our suppliers may be less likely than us to be able to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two subcontractors or suppliers for a particular raw material.

We depend on third-party service providers and outsource providers for a variety of services and we outsource a number of our non-core functions and operations.

In certain instances, we rely on single or limited service providers and outsourcing vendors because the relationship is advantageous due to quality, price, or lack of alternative sources. If production or service was interrupted and we were not able to find alternate third-party providers, we could experience disruptions in manufacturing and operations including product shortages, higher freight costs and re-engineering costs. If outsourcing services are interrupted or not performed or the performance is poor, this could impact our ability to process, record and report transactions with our customers and other constituents. Such interruptions in the provision of supplies and/or services could result in our inability to meet customer demand, damage our reputation and customer relationships and adversely affect our business.

The Company does not hold any alcoholic beverage related licenses.

NPTA Spirits is a brand owner that contracts with other licensed manufacturers and wholesalers and does not take physical possession of the alcoholic beverage product. Currently, Park Street Imports, LLC imports and warehouses the product and maintains necessary licensing in states where it is currently sold. If we are found to be out of compliance with applicable laws and regulations regarding licensing, we could be subject to civil remedies, including fines, injunctions, recalls, as well as potential criminal sanctions, any of which could have an adverse effect on our business.

Quality management plays an essential role in determining and meeting customer requirements, preventing defects, improving the Company's products and services and maintaining the integrity of the data that supports the safety and efficacy of our products.

Our future success depends on our ability to maintain and continuously improve our quality management program. An inability to address a quality or safety issue in an effective and timely manner may also cause negative publicity, a loss of customer confidence in us or our current or future products, which may result in the loss of sales and difficulty in successfully launching new products. In addition, a successful claim brought against us in excess of available insurance or not covered by indemnification agreements, or any claim that results in significant adverse publicity against us, could have an adverse effect on our business and our reputation.

Manufacturing or design defects, unanticipated use of our products, or inadequate disclosure of risks relating to the use of the products can lead to injury or other adverse events.

These events could lead to recalls or safety alerts relating to our products (either voluntary or required by governmental authorities) and could result, in certain cases, in the removal of a product from the market. Any recall could result in significant costs as well as negative publicity that could reduce demand for our products. Personal injuries relating to the use of our products can also result in product liability claims being brought against us. In some circumstances, such adverse events could also cause delays in new product approvals. Similarly, negligence in performing our services can lead to injury or other adverse events.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Robert Abraham Stevens, Nikolas Gambaroff Moeller, Thymaya Payne, and Patricia Hertling who are respectively have served as VP and Chief Technology Officer (April 2014 – Present); Chief Financial Officer (2014 – Present); Creative Director and Brand Manager (April 2014 – Present); and Chief Executive Officer and Creative Director (April 2014 – Present). The Company has or intends to enter into employment agreements with Thymaya Payne and Patricia Hertling although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of Thymaya Payne, Patricia Hertling or any member of the board of directors or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on Robert Abraham Stevens, Nikolas Gambaroff Moeller, Thymaya Payne, and Patricia Hertling in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, in any that Robert Abraham Stevens, Nikolas Gambaroff Moeller, Thymaya Payne, and Patricia Hertling die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such persons could negatively affect the Company and its operations.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

The Company has indicated that it has engaged in certain transactions with related persons.

Please see the section of this Memorandum entitled "Transactions with Related Persons and Conflicts of Interest" for further details.

The process of distilling vodka utilizes a large amount of water.

Parts of the country have been experiencing a severe drought for the last several years. While there are currently no restrictions on our use of water based on the drought, we cannot predict whether such restrictions may be put in place in the future.

We source certain packaging materials, such as bottles, boxes labels, caps and other shipping materials from a number of third-party suppliers and, in some cases, single-source suppliers.

Although we believe that alternative suppliers are available, the loss of any of our packaging material suppliers could adversely affect our results of operations and financial condition. Our inability to preserve the current economics of these agreements could expose us to significant cost increases in future years.

Our business is substantially dependent upon awareness and market acceptance of our products and brands.

Our business depends on acceptance by both our end consumers as well as our independent distributors of our brands as beverage brands that have the potential to provide incremental sales growth rather than reduce distributors' existing beverage sales. We believe that the success of our product name brands will also be substantially dependent upon acceptance of our product name brands. Accordingly, any failure of our brands to maintain or increase acceptance or market penetration would likely have a material adverse effect on our revenues and financial results.

Reductions in sales of our products will have an adverse effect on our profitability and ability to generate cash to fund our business plan.

The following factors, among others, could affect continued market acceptance and profitability of our products:

- the introduction of competitive products;
- changes in consumer preferences among vodkas;
- changes in consumer eating and snacking habits, including trends away from certain categories, including major allergen-free, gluten-free and non-GMO products;
- changes in awareness of the social effects of farming and food production;
- changes in consumer perception regarding the healthfulness of our products;
- the level and effectiveness of our sales and marketing efforts;
- any unfavorable publicity regarding vodka;
- any unfavorable publicity regarding our brand;
- litigation or threats of litigation with respect to our products;
- the price of our products relative to other competing products;
- price increases resulting from rising commodity costs;
- any changes in government policies and practices related to our products, labeling and markets;
- regulatory developments affecting the manufacturing, labeling, marketing or use of our products; and
- new science or research that disputes the healthfulness of our products.

Adverse developments with respect to the sale of our products would significantly reduce our net sales and profitability and have a material adverse effect on our ability to maintain profitability and achieve our business plan.

We currently depend exclusively on one third-party manufacturer with one location to manufacture all of our products.

The loss of this manufacturer or the inability of this manufacturer to fulfill our orders would adversely affect our ability to make timely deliveries of our product and would have a material adverse effect on our business.

We rely, in part, on our third-party manufacturer to maintain the quality of our products.

The failure or inability of this manufacturer to comply with the specifications and requirements of our products could result in product recall and could adversely affect our reputation. Our manufacturer is required to maintain the quality of our products and to comply with our product specifications and requirements for certain certifications. Our manufacturer is also required to comply with all federal, state and local laws with respect to alcohol safety. Our manufacturer may not continue to produce products that are consistent with our standards or that are in compliance with applicable laws, and we cannot guarantee that we will be able to identify instances in which our manufacturer fails to comply with our standards or applicable laws. Any such failure, particularly if it is not identified by us, could harm our brand and reputation as well as our customer relationships. We would have these same issues with any new manufacturer, and they may be exacerbated due to the newness of the relationship. The failure of any manufacturer to produce products that conform to our standards could materially and adversely affect our reputation in the marketplace and result in product recalls, product liability claims and severe economic loss.

As a food production company, all of our products must be compliant with regulations by the Food and Drug Administration (FDA).

We must comply with various FDA rules and regulations, including those regarding product manufacturing and appropriate labeling of our products. It is possible that regulations by the FDA and its interpretation thereof may change over time. As such, there is a risk that our products could become non-compliant with the FDA's regulations and any such non-compliance could harm our business.

Our products rely on independent certification that they are organic.

We rely on independent certification of our organic vodka and must comply with the requirements of authorities in order to label our products as such. Our products could lose their organic certifications if our raw material suppliers lose their product certifications for those specified claims. The loss of any of these independent certifications, including for reasons outside of our control, could harm our business.

Ingredient and packaging costs are volatile and may rise significantly, which may negatively impact the profitability of our business.

We purchase alcohol and packaging materials. Costs of ingredients and packaging can fluctuate due to conditions that are difficult to predict, including global competition for resources, weather conditions, natural or man-made disasters, consumer demand and changes in governmental trade and agricultural programs. As such, any material upward movement in raw materials pricing could negatively impact our margins, if we are not able to pass these

costs on to our customers, or sales if we are forced to increase our prices, which would adversely affect our business, results of operations and financial condition.

Failure by our transportation providers to deliver our products on time or at all could result in lost sales.

We currently rely upon third-party transportation providers for a significant portion of our product shipments. Our utilization of delivery services for shipments is subject to risks, including increases in fuel prices, which would increase our shipping costs, and employee strikes and inclement weather, which may impact the ability of providers to provide delivery services that adequately meet our shipping needs. We may, from time to time, change third-party transportation providers, and we could therefore face logistical difficulties that could adversely affect deliveries. We may not be able to obtain terms as favorable as those we receive from the third-party transportation providers that we currently use or may incur additional costs, which in turn would increase our costs and thereby adversely affect our operating results.

If our brand or reputation is damaged, the attractive characteristics that we offer retailers may diminish, which could diminish the value of our business.

We are currently an attractive brand for our customers because our products are high quality and generate a high level of retail sales at a premium margin relative to their shelf space. This is due to both our premium price point and our sales velocity. If our brand or reputation is damaged for any reason, consumers may no longer be willing to pay a premium price for our products and we may no longer be able to generate a high sales velocity at our then-current prices. If we no longer offer these characteristics, retailers may decrease their orders of our products and downgrade the in-store placement of our products, which could have an adverse effect on our business and results of operations.

Risks Related to the Securities

The Shares of Series Seed Preferred Stock will not be freely tradable until one year from the initial purchase date. Although the Shares of Series Seed Preferred Stock may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Shares of Series Seed Preferred Stock. Because the Shares of Series Seed Preferred Stock have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Shares of Series Seed Preferred Stock have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Shares of Series Seed Preferred Stock may also adversely affect the price that you might be able to obtain for the Shares of Series Seed Preferred Stock in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

A majority of the Company is owned by a small number of owners.

Prior to the Offering the Company's current owners of 20% or more beneficially own up to 93.6% of the Company. Subject to any fiduciary duties owed to our other owners or investors under California law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to

pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

There is no present market for the Securities and we have arbitrarily set the price.

We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

Your ownership of the shares of Series Seed Preferred Stock will be subject to dilution.

Owners of Series Seed Preferred Stock do not have preemptive rights. If the Company conducts subsequent Offerings of Series Seed Preferred Stock or Securities convertible into Series Seed Preferred Stock, issues shares pursuant to a compensation or distribution reinvestment plan or otherwise issues additional shares, investors who purchase shares in this Offering who do not participate in those other stock issuances will experience dilution in their percentage ownership of the Company's outstanding shares. Furthermore, shareholders may experience a dilution in the value of their shares depending on the terms and pricing of any future share issuances (including the shares being sold in this Offering) and the value of the Company's assets at the time of issuance.

The Securities will be equity interests in the Company and will not constitute indebtedness.

The Securities will rank junior to all existing and future indebtedness and other non-equity claims on the Company with respect to assets available to satisfy claims on the Company, including in a liquidation of the Company. Additionally, unlike indebtedness, for which principal and interest would customarily be payable on specified due dates, there will be no specified payments of dividends with respect to the Securities and dividends are payable only if, when and as authorized and declared by the Company and depend on, among other matters, the Company's historical and projected results of operations, liquidity, cash flows, capital levels, financial condition, debt service requirements and other cash needs, financing covenants, applicable state law, federal and state regulatory prohibitions and other restrictions and any other factors the Company's board of directors deems relevant at the time. In addition, the terms of the Securities will not limit the amount of debt or other obligations the Company may incur in the future. Accordingly, the Company may incur substantial amounts of additional debt and other obligations that will rank senior to the Securities.

There can be no assurance that we will ever provide liquidity to Purchasers through either a sale of the Company or a registration of the Securities.

There can be no assurance that any form of merger, combination, or sale of the Company will take place, or that any merger, combination, or sale would provide liquidity for Purchasers. Furthermore, we may be unable to register the Securities for resale by Purchasers for legal, commercial, regulatory, market-related or other reasons. In the event that we are unable to effect a registration, Purchasers could be unable to sell their Securities unless an exemption from registration is available.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN

INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

The vodka market is highly competitive and Material Vodka™ is confronted by aggressive competition especially in the craft spirits sector. This market is characterized by frequent product introductions, especially by American made products. The company's competitors may aggressively cut prices or lower their product margins to gain or maintain market share. Principal competitive factors important to the Company include price, organic nature of the product, marketing and distribution capability, service and support and corporate reputation. Our advantageous position stems from the fact that we are one of the first vodkas that is strongly endorsed by the art world, that we have a branding that sets itself apart from other vodkas and caters to an urban and chic artistic crowd. The Company's philanthro-capitalist mission of giving 10% of its profits to the arts helps us also to enter into these markets easily and has landed us in prestigious retail accounts in New York and Los Angeles and Miami.

CAPITALIZATION AND OWNERSHIP

Capitalization

The Company has issued the following outstanding Securities:

Common Stock

The Company is currently authorized to issue ten million (10,000,000) shares of common stock, par value \$0.0001 (the “Common Stock”). As of the date of this Form C, there is a total of 5,452,063 shares of the Company’s Common Stock issued and outstanding.

As of November 7, 2017, there are 5,452,063 shares of the Company’s Common Stock issued and outstanding. On July 1, 2014, the Company entered into Common Stock Purchase Agreements with its founders for the aggregate sale of 5,100,000 shares of Common Stock at a price of \$0.0001 per share for aggregate proceeds of \$510.00. The Company has also sold shares of Common Stock to its employees and advisors. On May 26, 2015, 216,154 shares of Common Stock were issued at par value per share for aggregate proceeds of \$21.62. Subsequently, the Company issued two restricted stock grants to its advisors under the Company’s 2015 Stock Plan. The Company first granted 90,909 shares of Common Stock on November 3, 2015 to its consultant, subject to quarterly vesting over a twenty-one (21) month term. On January 1, 2016, the Company granted 45,000 restricted shares of Common Stock under

said plan, subject to quarterly vesting over a twenty-one (21) month term. Currently, there are 135,909 fully vested shares of the Company's Common Stock issued pursuant to said plan.

Series Seed Preferred Stock

Upon reaching the Minimum Amount in this Offering, the Company anticipates authorizing three million (3,000,000) shares of series seed preferred stock, at an original issue price of \$0.12 per share (the "Series Seed Preferred Stock"). A draft of the Amended and Restated Articles of Incorporation of NPTA Spirits is attached hereto as Exhibit F.

Equity Incentive Plan

On November 2, 2015, the Company adopted the Company's 2015 Stock Plan, providing for the issuance of an aggregate of up to one million three hundred thousand (1,300,000) of the authorized but unissued or reacquired shares of Common Stock of the Company. As described above, there are currently 135,909 fully vested shares of the Company's restricted Common Stock issued pursuant to said plan.

Convertible Securities

The 2015 Offering

The Company conducted an offering of convertible securities that had multiple closings from May 18, 2015 to November 11, 2015, which raised aggregate gross proceeds of \$125,000.00 from a total of eight (8) investors. The investors received convertible securities that provide for an automatic conversion at a discount rate of 25.0% of their investment upon a "Qualified Equity Financing" of more than \$100,000.00. If a Qualified Equity Financing or Change of Control did not occur prior to May 31, 2016, the Holders had the option to convert the Investment Amount into fully paid and nonassessable shares of the Company's Common Stock at a price per share equal to the price obtained by dividing (a) \$1,262,250.00 by (b) the Company's fully-diluted capitalization as of the date of the Holder's election to convert. These convertible securities do not bear any interest. On June 22, 2016, the Company and investors amended the convertible securities to extend the maturity date from May 31, 2016 to January 1, 2017. On December 9, 2017, the Company and investors in the convertible securities further amended the convertible securities, pursuant to Amendment Number 2 to the Convertible Securities Purchase Agreement, which amended the definition of "Qualified Equity Financing" to include "a transaction or series of transactions pursuant to which the Company issues and sells shares of its Common Stock or Preferred Stock for aggregate gross proceeds of at least \$100,000.00 with the principal purpose of raising capital". Pursuant to this amendment, the convertible securities in the "2015 Offering" will automatically convert if the proceeds of this Offering surpass \$100,000.00. These convertible securities will convert into fully paid and nonassessable shares of the Company's Series Seed Preferred Stock issued in this Offering at a discount rate of twenty-five percent (25.0%). The total number of shares issuable upon such conversion shall be determined by dividing the investment amount by the discounted conversion price. Shares of Series Seed Preferred Stock in the Offering are being sold for \$0.12; thus, with a twenty-five percent (25.0%) discount rate, the convertible securities would convert at a conversion price of \$0.09. This would result in the conversion of the convertible securities in the "2015 Offering" into 1,388,888 shares of Series Seed Preferred Stock.

The 2016 Offering

The Company conducted a second offering of convertible securities that had multiple closings from Feb. 29, 2016 to December 1, 2016, which raised aggregate gross proceeds of \$60,000.00 from a total of four (4) investors. The investors received convertible securities with the same terms as those offered in the prior offering. On June 22, 2016, the Company and the then-current investors amended the convertible securities agreements to extend the maturity date from May 31, 2016 to January 1, 2017. On August 22, 2016, the Company and the then-current investors further amended the convertible securities agreements to extend the time for completing additional closings from 60 days to 276 days. On December 9, 2017, the Company and investors further amended the convertible securities, pursuant to Amendment Number 3 to the Convertible Securities Purchase Agreement, which amended the definition of "Qualified Equity Financing" to include "a transaction or series of transactions pursuant to which the Company issues and sells shares of its Common Stock or Preferred Stock for aggregate gross proceeds of at least \$100,000.00 with the principal purpose of raising capital". Pursuant to this amendment, the convertible securities in the "2016 Offering" will automatically convert if the proceeds of this Offering surpass \$100,000.00. These convertible securities will convert into fully paid and nonassessable shares of the Company's Series Seed Preferred Stock issued in this Offering at a discount rate of twenty-five percent (25.0%). The total number of shares issuable upon such conversion shall be determined by dividing the investment amount by the discounted conversion price. Shares of Series Seed Preferred Stock in the Offering are being sold for \$0.12; thus, with a twenty-five percent (25.0%) discount rate, the convertible securities would convert at a conversion price of \$0.09. This would

result in the conversion of the convertible securities in the “2016 Offering” into 666,666 shares of Series Seed Preferred Stock.

Impact on Capital Structure: Convertible Securities' Conversion if \$100,000 Sold in this Offering

As a result of Amendment 2 and Amendment 3 to the Convertible Securities Purchase Agreement, executed on December 9, 2017, it is possible that following this Offering that there will be an additional 2,055,554 shares of Series Seed Preferred Stock issued and outstanding. The conversion of the convertible securities will dilute the ownership interest of Purchasers in the Offering as there will be additional shares of Series Seed Preferred Stock issued and outstanding upon conversion of the convertible securities.

The Company has the following debt outstanding:

See the description of ‘Convertible Debt’ above for more information. Additionally, on September 1, 2017, Patricia Hertling made a loan to the Company in the maximum amount of \$70,000.00. To date, Patricia Hertling has loaned \$69,155.09 to the Company. On July 1, 2014, Nikolas Gambaroff Moeller made a loan to the Company in the maximum amount of \$14,000.00. To date, Nikolas Gambaroff Moeller has loaned \$10,000.00 to the Company.

Valuation

Based on the Offering price of the Securities, the pre-Offering value ascribed to the Company is \$654,000 (i.e. \$654,000.00/5,452,063 shares of Common Stock outstanding and a purchase price of \$0.12 per share of Series Seed Preferred Stock). Before making an investment decision, you should carefully consider this valuation and the factors used to reach such valuation. Such valuation may not be accurate and you are encouraged to determine your own independent value of the Company prior to investing.

Ownership

A majority of the Company is owned by a few people. Those people are Patricia Hertling, Nikolas Gambaroff, Robert Abraham Stevens, and Thymaya Payne.

Below the beneficial owners of 20.0% percent or more of the Company’s outstanding voting equity securities, calculated on the basis of voting power, are listed along with the amount they own.

Name	Percentage Owned Prior to Offering
Robert Abraham Stevens	23.4%
Patricia Hertling	23.4%
Thymaya Payne	23.4%
Nikolas Gambaroff Moeller	23.4%

Following the Offering, the Purchasers will own 2.67% of the Company if the Minimum Amount is raised and 9.32% if the Maximum Amount is raised.

The Company does not have any additional sources of capital other than the proceeds from the Offering.

Capital Expenditures and Other Obligations

The Company does not intend to make any material capital expenditures in the future.

Material Changes and Other Information Trends and Uncertainties

After reviewing the above discussion of the steps the Company intends to take, potential Purchasers should consider whether achievement of each step within the estimated time frame is realistic in their judgment. Potential Purchasers should also assess the consequences to the Company of any delays in taking these steps and whether the Company will need additional financing to accomplish them.

The financial statements are an important part of this Form C and should be reviewed in their entirety. The financial statements of the Company are attached hereto as Exhibit A.

The Company will notify Purchasers when the Minimum Amount has been reached. If the Company reaches the Minimum Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after

reaching the Minimum Amount and providing notice to the Purchasers. If any material change (other than reaching the Minimum Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Purchasers and receive reconfirmations from Purchasers who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If a Purchaser does not cancel an investment commitment before the Minimum Amount is reached, the funds will be released to the Company upon closing of the Offering and the Purchaser will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing and the Purchaser will receive Securities via Digital Registry in exchange for his or her investment as soon as practicable thereafter.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. If the Company rejects all or a portion of any subscription, the applicable prospective Purchaser's funds will be returned without interest or deduction.

Opportunity

Material Vodka is the product of a small group of friends who asked the question: “What if we could take a product almost everyone enjoys, especially in the art world, and transform some of the profit from its sale into a force for change?” Specifically, the founders of Material Vodka strive to support art and artists who challenge norms and push the conversation forward. The result? A fresh reinvention of what a modern-day spirits company can be.

Launched in 2015, Material Vodka is a philanthro-capitalist initiative that uses sales from its vodka as a funding mechanism for alternative and radical art. The company is partnered with Redwood Spirits to create a simple, elegant formula for an organic vodka. With initial funding from friends and family, Material Vodka was able to produce eight batches of vodka, set up operations, hire independent contractors, and complete the bottle design.

The Story

Pati Hertling and Thymaya Payne, co-founders of Material Vodka, met while living in Berlin in the early 2000s. Pati is a lawyer and curator while Thymaya is a filmmaker. They saw a problem in the fundamental sustainability of nonprofit art spaces and the support of nonconforming artists. Fate intervened when Thymaya’s college friend, Abe Stevens, informed him he had opened an organic vodka distillery in Humboldt County, California. The three spent a weekend in the Redwoods, where the idea behind Material Vodka was born. They partnered to create a simple, elegant formula for an organic vodka, with 10% of all profits going towards supporting the arts.

The Vodka

Material Vodka combines high-quality alcohol made from organic, non-GMO wheat and water from the pure, redwood-fed aquifers of Humboldt County. No sugars are added, and the vodka is filtered over virgin coconut carbon rather than charcoal, giving Material a clean, satisfying finish while still maintaining a 100%-organic process. The founders also enlisted the help of designer Patrick Li of Li Inc. to design a bottle in the same spirit of simplicity, elegance, and transparency upon which Material was founded.

Redwoods Spirits Partnership

Abe Stevens, owner of Redwood Spirits, a craft distillery in Humboldt County, California, is a founding partner of Material Vodka. Redwood Spirit's vodka is sourced from boutique, organic grain alcohol pre-distilled and then shipped to Humboldt County for the actual finishing process. Redwood Spirits already has all the necessary equipment needed to produce the vodka; therefore, the partnership with Abe minimizes Material's initial investments and overhead. This arrangement with Redwood Spirits allows Material Vodka to control its output and procure the vodka at cost plus a minimal markup. Material Vodka can be produced and bottled at Redwood Distillery and be ready for delivery with minimal lead time.

Material Prize

Every year a no-strings-attached cash prize is awarded to a progressive creator by an independent board of artists and curators. Material Vodka sets aside 10% of all profits to go towards this prize.

2016 Prize: Colin Self

Colin Self is an artist currently based in New York City who composes and choreographs music, performance, and environments for expanding consciousness, troubling binaries and boundaries of perception and communication. Working with communities across disciplines and practices, Colin utilizes voice, bodies, and computers to interface with biological and technological software. Self taps in to radical forms of healing as a praxis of collective resistance. His elaborate operas, compositions, and performances are markers of a new generation of musical artists that promises to profoundly shape a bold era of musical expression not only in New York, but further afield.

2017 Prize: M Lamar

M Lamar describes himself as a “Negrogothic, devil-worshipping, free black man in the blues tradition.” His work merges the genius of his operatic voice with the gospel and blues tradition to explore the radical potentialities of blackness and the mythology of death and resurrection. He straddles in his work a combination of subjects such as the lynching tree, Mapplethorpe’s problematic white gaze, the supernatural, Black Lives Matter, and American supremacy. Born in Mobile, Alabama, Lamar draws inspiration from Southern gothic traditions, the solemnity of blues, and the political radicalism of punk. Lamar addresses America’s history of colonialism and slavery head-on and how it informs gender, class, and race in life today.

- 2) **Marketing goals:** Material will engage in dynamic brand messaging and will explore methods such as subway sign saturation, collaborating with young, relevant fashion brands, and other creative ways to express its mission.
- 3) **New flavors:** Material plans to introduce new variations of vodka, designed by its creative team, including Tumeric.Material, Yuzu.Material, and Sea.Material.

If the minimum \$25,000 is raised, Material plans to use the majority of proceeds on future wages (\$9,250) and manufacturing costs (\$5,000). If the maximum \$107,000 is raised, the company also plans to use the majority of proceeds on future wages (\$60,000) and manufacturing costs (\$14,000).

Business Model

Material Vodka generates revenue through wholesale distribution. One six-pack case is sold for \$125, or \$20.83 per bottle, and five or more cases are sold for \$87 each, or \$14.50 per bottle. The manufacturer's suggested retail price is \$29 for a 750-ml bottle.

Material was co-founded with the owner of Humboldt Distillery to supply the vodka on demand and keep overhead costs low. Material works with Park Street Imports, a servicing company that holds Material Vodka's license and allows it to sell direct to retailers in New York, California, and Florida. This means that Material has a direct relationship with its customers and retailers while keeping back office expenses low. Material plans to update this model as new opportunities arise on a state-by-state basis.

Year to date as of September 2017, Material has sold nearly 400 cases of vodka. Since January 2015, Material has sold over 1,300 4.5l cases of vodka.

Material has garnered a customer base at over 60 restaurants, bars, hotels, and stores. In the coming year, Material aims to solidify its footprint in the New York, Los Angeles, and Miami markets.

Material Vodka Stockists

Material sponsored its first event in 2015 in the Fire Island Pines. Since then, it has hosted, sponsored, or participated in over 100 events in Los Angeles and New York, including film premieres, museum openings, film festivals, fashion presentations, benefit events, and more. Below are some of the organizations and businesses with which Material has partnered.

Material is the house vodka at Mission Chinese Food in New York and was featured on the Fall 2016 cocktail menu designed by Sam Anderson.

Material's Mixologist Arley Marks is the cocktail designer for the trendy downtown New York restaurant Dimes, and there are several cocktails featuring Material on the Dimes menu.

Launched in a similar timeframe to Material, White Girl Rosé became a natural partner for Material. The two companies plan to work on co-sponsored events and possibly marketing campaigns in the future. In a short time, White Girl Rosé has already amassed a strong social media following with over 64,000 Instagram followers.ⁱⁱ

As Material is a majority LGBTQ-owned company, Grindr became a natural partner to work with on marketing to the LGBTQ community. Material sponsored 10 artist-designed rooms at a New York Pride Event hosted by Grindr & Visionaire in June 2016 at the Standard Hotel, Highline.

Arley Marks' Honey's and Enlightenment Wine mead distillery opened in Summer 2016, and Material has since collaborated with Honey's on several events. Material is featured in all the house cocktails at Honey's, and the bar will become a major point of sale and promotion for Material as its clientele grows.

Material is stocked at all of the Standard Hotels in New York, Los Angeles, and Miami and has collaborated with the Standard on large-scale events in New York, including a Gay Pride party co-hosted by Visionaire and Grindr.

A nonprofit that supports performance art on Fire Island, BOFFO has been a close partner since Material's inception. Material will continue to work with BOFFO in supporting primarily queer performance artists and expanding Material's presence within the LGBTQ community.

Tenants of the Trees (TOT) is known by the young Hollywood crowd as one of the hottest spots in the Los Angeles nightlife scene. Material supports a popular Tuesday night party where Material is used for all vodka bottle service requests and is featured in cocktails on the menu inside at TOT and in the outdoor area known as Out of Order (OOO).

Material worked with the international art fair and influential art publication Frieze, co-hosting the closing party for the 2016 Frieze New York art fair. As the official vodka sponsor of Frieze, Material positioned itself as the vodka of the art world.

The cult brand that bridges the gap between art and fashion has become one of Material's strongest fashion partners. Material has sponsored several of Eckhaus Latta's shows and events. Eckhaus Latta was named as one of the top 10 brands to watch by Vogue in 2015 and was featured in the MOMA PS1 "Greater New York" retrospective.

Material works closely with Artists' Space as Stefan Kalmar, a member of the Material Prize committee, is the former director of the beloved Soho art nonprofit that has supported alternative artists since the 1970s.

Interview was founded in 1969 by artist Andy Warhol and journalist John Wilcock. Interview is known as the American magazine for arts and culture. Material partnered with Interview as an official sponsor for Art Basel Miami Beach events in 2016 and plans to launch its next art prize exclusively with Interview Magazine.

Year to date as of October 2017, Material Vodka has generated nearly \$50,000 in revenue, with cost of goods sold totaling \$1,600. In 2016, Material Vodka generated over \$77,000 in revenue and cost of goods sold totaled approximately \$55,000.

The U.S. alcoholic beverage industry is tightly regulated by a three-tier system. This means that manufacturers, distributors, and retailers are separate entities. Each tier is further required to obtain federal and state licenses, which can be very costly. Manufacturers, the first tier, include distilleries, wineries, and breweries that sell to licensed importers, distributors, and control boards – the second tier. The importers and distributors ensure that taxes are properly collected and then sell the alcohol to retailers, bars, and restaurants – the third tier.ⁱⁱⁱ As a distributor, Material Vodka sits in the second tier. Also, since Co-founder Abe Stevens is an owner of Material, the company can rely on Redwood Spirits’ manufacturing license, which simplifies the licensing process.

In 2016, retail sales of U.S. distilled spirits were estimated at nearly \$78 billion. Supplier (wholesale) sales to retailers increased 2.4% year over year to reach 220 million cases in 2016, worth \$25.2 billion. This marked the seventh consecutive year that distilled spirits had gained market share relative to beer.^{iv} Furthermore, the distilled spirits market has been primarily driven by growth in high-end premium and super premium products – bottles that retail for at least \$20.

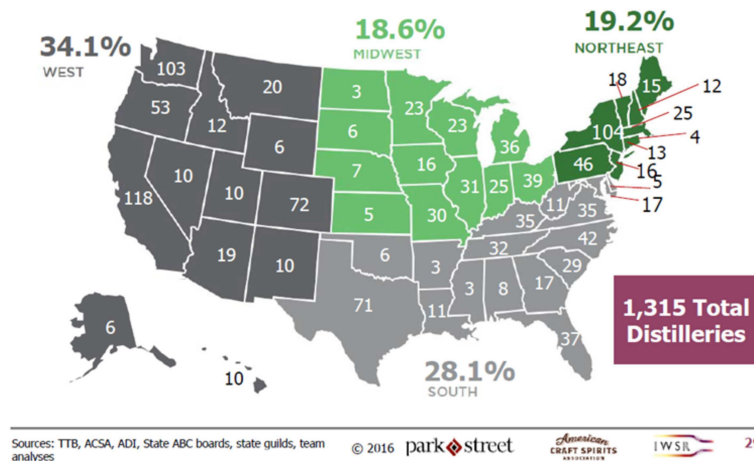

In 2016, vodka accounted for almost one-third of total spirits volume with 69.8 million cases sold, representing a volume increase of 2.4% from the year before. Total vodka sales were up 4.1% to \$6 billion in revenue in 2016. Revenue from super premium vodka (bottles that retail for over \$30) rose 13.1% year over year to reach \$1.3 billion (6.3 million cases).^v

Local distilleries have contributed to the overall growth in the distilled spirits market. In 2015, the craft spirits industry generated roughly \$2.4 billion in retail sales, with volume growing at a compound annual growth rate of 27.4% between 2010 and 2015.^{vi} From 2010 to 2015, the number of craft distillers grew at a compound annual growth rate of 41.6%. As of August 2016, there were 1,315 craft distillers active in the U.S., with the largest concentrations located in the West (mostly in California, Washington, and Colorado) and in the South (mostly in Texas). In Colorado, there were 72 craft distilleries, the fourth-most by state. Based on a compound annual growth rate of 19.6%, the number of craft distillers could surpass 2,800 by 2020.^{vii}

Active Craft Distillers by State

of Active Craft Distillers by State and Region as of August 2016

Out of those 1,315 craft distillers, 91.7% are defined as small producers. Yet because small distilleries produce a limited quantity of spirits – usually single batches at a time – they accounted for just 12.1% of the craft spirit cases sold in 2015. Of small craft producers’ revenue, 67% is generated within the distillery’s state of operation but outside the premise.^{viii}

MATERIAL IS FUEL FOR ART

MATERIAL IS A PHILANTHRO-CAPITALIST ORGANIC VODKA BRAND THAT FILLS A VOID IN THE FUNDING OF ALTERNATIVE ART PRACTICES AND SUPPORTS CREATIVE EXPRESSION.

Material Vodka is a philanthro-capitalist initiative that was launched in the summer of 2015. With the sales from the vodka, Material creates a funding mechanism for alternative and radical art.

NOW MORE THAN EVER THE ARTS NEED OUR SUPPORT!

Material has been named among the best 10 vodkas in America by Food Republic* and has fostered community and built excitement with the “coolest kids” in town, such as performers, artists, DJs, gallerists, curators, promoters, and bartenders. In its first year, Material has built a brand identity in New York and Los Angeles by organically engaging and connecting with top artists and influencers and including them in its mission to support alternative arts.

HOW IT ALL CAME TOGETHER: THE MATERIAL VODKA STORY

Pati Hertling and Thymaya Payne, co-founders of Material Vodka, met while living in Berlin in the early 2000s. Pati is a lawyer and curator, while Thymaya is a filmmaker. They saw a problem in the fundamental sustainability of nonprofit art spaces and the support of non-conforming artists. They thought, “What if we could take a product almost everyone uses, especially in the art world, like vodka, and transform some of the profit from its sale into a force for change.”

The idea was simple, and fate intervened when Thymaya’s college friend, Abe Stevens, informed him he had opened an organic vodka distillery in Humboldt County, California. The three spent a weekend in the Redwoods discussing everything from 90s electronica to Marx’s “Das Kapital.” They partnered to create a simple, elegant formula for an organic vodka, combining the highest quality alcohol made of non-GMO wheat with water from the pure, redwood-fed aquifers of Humboldt County, where even the tap water is sought after for its exceptional taste.

“Perhaps the ‘coolest-kid’ brand out there these days is Material, which you would basically have to go to Art Basel... or one of a handful of NYC’s ultra-hip restaurants to try. The spirit is made in the marijuana-growing mecca of Humboldt County using a process described as ‘virgin coconut carbon filtration.’ Whatever that means, the end result is pretty innocuous, but the cleanliness factor is more pleasant than medicinal.” - **Chad Walsh, Food Republic**

“Whether it’s a flute of champagne above the High Line or a can of medium-cold beer in Bushwick, beverages play an essential role in the social ritual of art consumption. Plenty of brands have cashed in on this association, commissioning elaborate bottle labels and other decorative schemes from artists — often with the effect of watering down their profiles. Enter a new vodka distillery called Material, expressly founded on flipping the script and diverting boozy profit margins back to makers.” - **Keving Mcgarry, NY Times Magazine**

“A portion of each bottle sold — you can get it at art world strongholds like the downtown New York eateries Dimes and Lucien — goes to a fund for artist grants. And it’s decent stuff — I certainly sampled enough of it last night, and these words seem to appear in an order that meets some moderate standard of coherence. Right?” - **Fan Zhong, W Magazine**

MATERIAL IS THE CONNECTIVE FUEL FOR A CREATIVE COMMUNITY.

Material works with a wide range of event partners and is dedicated to supporting nonprofit art organizations, emerging artists, designers, and film makers through generous donation of product as well as event management. c) The execution and delivery by the Company of this Subscription Agreement and the consummation of the transactions contemplated hereby (including the issuance, sale and delivery of the Securities) are within the Company's powers and have been duly authorized by all necessary corporate action on the part of the Company. d) Assuming the accuracy of the undersigned's representations and warranties set forth in Section 6 hereof, no order, license, consent, authorization or approval of, or exemption by, or action by or in respect of, or notice to, or filing or registration with, any governmental body, agency or official is required by or with respect to the Company in connection with the execution, delivery and performance by the Company of this Subscription Agreement except (i) for such filings as may be required under Regulation CF promulgated under the Securities Act, or under any applicable State Securities Laws, (ii) for such other filings and approvals as have been made or obtained, or (iii) where the failure to obtain any such order, license, consent, authorization, approval or exemption or give any such notice or make any filing or registration would not have a material adverse effect on the ability of the Company to perform its obligations hereunder.

6. Representations and Warranties of the Undersigned. The undersigned hereby represents and warrants to and covenants with the Company that:

vii. The undersigned understands that no federal or state agency has passed upon the merits or risks of an investment in the Securities or made any finding or determination concerning the fairness or advisability of this investment.

c) No Guaranty.

i. i. The undersigned is acquiring the Securities solely for the undersigned's own beneficial account, for investment purposes, and not with a view to, or for resale in connection with, any distribution of the Securities. The undersigned understands that the Securities have not been registered under the Securities Act or any State Securities Laws by reason of specific exemptions under the provisions thereof which depend in part upon the investment intent of the undersigned and of the other representations made by the undersigned in this Subscription Agreement. The undersigned understands that the Company is relying upon the representations and agreements contained in this Subscription Agreement (and any supplemental information) for the purpose of determining whether this transaction meets the requirements for such exemptions.

ii. The undersigned understands that the Company has no obligation or intention to register any of the Securities, or to take action so as to permit sales pursuant to the Securities Act. Even when the Securities become freely transferrable, a secondary market in the Securities may not develop. Consequently, the undersigned understands that the undersigned must bear the economic risks of the investment in the Securities for an indefinite period of time.

iii. The undersigned agrees: (A) that the undersigned will not sell, assign, pledge, give, transfer or otherwise dispose of the Securities or any interest therein, or make any offer or attempt to do any of the foregoing, except pursuant to Rule 501 of Regulation CF.

DRAFT Amended and Restated Articles of Incorporation

**RESTATED
ARTICLES OF INCORPORATION
OF NPTA SPIRITS**

Patricia Hertling and Thymaya Payne hereby certify that:

1. They are the duly elected President and Secretary, respectively, of NPTA Spirits, a California corporation.

2. The Articles of Incorporation of the corporation shall be amended and restated to read in full as follows:

“ARTICLE I

The name of the corporation is NPTA Spirits (hereinafter, the “*Corporation*”).

ARTICLE II

The purpose of the Corporation is to engage in any lawful act or activity for which a corporation may be organized under the General Corporation Law of California other than the banking business, the trust company business or the practice of a profession permitted to be incorporated by the California Corporations Code.

ARTICLE III

The Corporation is authorized to issue two classes of stock, designated “*Common Stock*” and “*Preferred Stock*.” The total number of shares of Common Stock that the Corporation is authorized to issue is 13,000,000 shares. The total number of shares of Preferred Stock that the Corporation is authorized to issue is 3,000,000 shares.

The Preferred Stock may be issued from time to time in one or more series. The first series of Preferred Stock shall consist of 3,000,000 shares and shall be designated “*Series Seed Preferred Stock*.” As used herein, the term “Preferred Stock” without designation shall refer to the shares of the Corporation’s Series Seed Preferred Stock. In addition, as used herein, the terms (1) “*Original Issue Price*” means \$0.12 per share for the Series Seed Preferred Stock and (2) “*Requisite Holders*” means the holders of at least a majority of the outstanding shares of Preferred Stock (voting as a single class on an as-converted basis). The relative rights, preferences, privileges and restrictions granted to or imposed upon the Preferred Stock are as follows:

1. Liquidation, Dissolution, or Winding Up; Certain Mergers, Consolidations and Asset Sales.

1.1 Payments to Holders of Preferred Stock. In the event of any voluntary or involuntary liquidation, dissolution, or winding up of the Corporation or any Deemed Liquidation Event (as defined below), before any payment shall be made to the holders of

Common Stock by reason of their ownership thereof, the holders of shares of Preferred Stock then outstanding must be paid out of the funds and assets available for distribution to its stockholders, an amount per share equal to the greater of (a) the Original Issue Price for such share of Preferred Stock, plus any dividends declared but unpaid thereon, or (b) such amount per share as would have been payable had all shares of Preferred Stock been converted into Common Stock pursuant to Section 3 immediately prior to such liquidation, dissolution or winding up or Deemed Liquidation Event. If upon any such liquidation, dissolution, or winding up or Deemed Liquidation Event of the Corporation, the funds and assets available for distribution to the stockholders of the Corporation are insufficient to pay the holders of shares of Preferred Stock the full amount to which they are entitled under this Section 1.1, the holders of shares of Preferred Stock will share ratably in any distribution of the funds and assets available for distribution in proportion to the respective amounts that would otherwise be payable in respect of the shares of Preferred Stock held by them upon such distribution if all amounts payable on or with respect to such shares were paid in full.

1.2 Payments to Holders of Common Stock. In the event of any voluntary or involuntary liquidation, dissolution, or winding up or Deemed Liquidation Event of the Corporation, after the payment of all preferential amounts required to be paid to the holders of shares of Preferred Stock as provided in Section 1.1, the remaining funds and assets available for distribution to the stockholders of the Corporation will be distributed among the holders of shares of Common Stock, pro rata based on the number of shares of Common Stock held by each such holder.

1.3 Deemed Liquidation Events.

1.3.1 Definition. Each of the following events is a “***Deemed Liquidation Event***” unless the Requisite Holders elect otherwise by written notice received by the Corporation at least ten (10) days prior to the effective date of any such event:

(a) the liquidation, dissolution or winding up of the Corporation, either voluntary or involuntary;

(b) a merger or consolidation of the Corporation into or with another entity after which the stockholders of the Corporation immediately prior to such transaction do not own, immediately following the consummation of the transaction by virtue of their shares in the Corporation or securities received in exchange for such shares in connection with the transaction, a majority of the voting power of the surviving entity in proportions substantially similar to those that existed immediately prior to such transaction;

(c) the sale, transfer or issuance by the Corporation, or the sale or transfer by the Corporation’s stockholders other than a sale or transfer by the stockholders to existing stockholders of the Corporation or affiliated parties of such existing stockholders, in either case, of more than 50% of the voting power of the Corporation in a transaction or series of related transactions other than in a transaction or series of transactions affected by the Corporation primarily for financing purposes; and

(d) the sale, transfer or other disposition (but not including a transfer or disposition by pledge or mortgage to a bona fide lender) of all or substantially all of the assets or intellectual property of the Corporation (other than to a wholly-owned subsidiary).

Notwithstanding the foregoing, neither (A) a merger effected exclusively for the purpose of changing the domicile of the Corporation nor (B) the sale of shares of Preferred Stock of the Corporation in a transaction or series of related transactions effected primarily for equity financing purposes shall be deemed a Liquidation Event.

1.3.2 Amount Deemed Paid or Distributed. The funds and assets deemed paid or distributed to the holders of capital stock of the Corporation upon any such merger, consolidation, sale, transfer or other disposition described in this Section 1.3 will be the cash or the value of the property, rights or securities paid or distributed to such holders by the Corporation or the acquiring person, firm or other entity. The value of such property, rights or securities shall be determined in good faith by the Board.

2. Voting.

2.1 General. Each holder of Preferred Stock shall be entitled to the number of votes equal to the number of whole shares of Common Stock into which the shares of Preferred Stock held by such holder could then be converted and, except as otherwise required by law or as set forth herein, shall have voting rights and powers equal to the voting rights and powers of the Common Stock. Each holder of Preferred Stock shall be entitled to notice of any shareholders' meeting in accordance with the Bylaws of the Corporation and shall be entitled to vote with the holders of Common Stock with respect to any matter upon which holders of Common Stock have the right to vote, except as otherwise provided herein or those matters required by law to be submitted to a class vote.

2.2 Protective Provisions. At any time when at least 25% of the initially issued shares of Preferred Stock remain outstanding, the Corporation shall not, either directly or indirectly by amendment, merger, consolidation or otherwise, do any of the following without (in addition to any other vote required by law) the written consent or affirmative vote of the Requisite Holders, given in writing or by vote at a meeting, consenting, or voting (as the case may be) separately as a single class:

(a) modify the rights, preferences, privileges or restrictions of the Preferred Stock so as to adversely affect the Series Seed Preferred Stock;

(b) increase or decrease the authorized number of shares of any class or series of capital stock;

(c) authorize or create (by reclassification or otherwise) any new class or series of capital stock having rights, powers, or privileges set forth in the Articles of Incorporation of the Corporation, as then in effect, that are senior to or on a parity with the Series Seed Preferred Stock;

(d) redeem or repurchase any shares of Common Stock or Preferred Stock (other than pursuant to employee or consultant agreements giving the Corporation the right to repurchase shares upon the termination of services pursuant to the terms of the applicable agreement);

(e) declare or pay any dividend or otherwise make a distribution to holders of Preferred Stock or Common Stock;

(f) liquidate, dissolve, or wind-up the business and affairs of the Corporation, effect any Deemed Liquidation Event, or consent, agree or commit to do any of the foregoing without conditioning such consent, agreement or commitment upon obtaining the approval required by this Section 2.2.

3. Conversion. The holders of the Preferred Stock have the following conversion rights (the “*Conversion Rights*”):

3.1 Right to Convert.

3.1.1 Conversion Ratio. Each share of Preferred Stock is convertible, at the option of the holder thereof, at any time, and without the payment of additional consideration by the holder thereof, into such number of fully paid and nonassessable shares of Common Stock as is determined by dividing the Original Issue Price for the series of Preferred Stock by the Conversion Price for that series of Preferred Stock in effect at the time of conversion. The “*Conversion Price*” for each series of Preferred Stock means the Original Issue Price for such series of Preferred Stock, which initial Conversion Price, and the rate at which shares of Preferred Stock may be converted into shares of Common Stock, is subject to adjustment as provided herein.

3.1.2 Termination of Conversion Rights. Subject to Section 3.3.1 in the case of a Contingency Event herein, in the event of a liquidation, dissolution, or winding up of the Corporation or a Deemed Liquidation Event, the Conversion Rights will terminate at the close of business on the last full day preceding the date fixed for the first payment of any funds and assets distributable on such event to the holders of Preferred Stock.

3.2 Fractional Shares. No fractional shares of Common Stock will be issued upon conversion of the Preferred Stock. In lieu of any fractional shares to which the holder would otherwise be entitled, the Corporation shall pay cash equal to such fraction multiplied by the fair market value of a share of Common Stock as determined in good faith by the Board. Whether or not fractional shares would be issuable upon such conversion will be determined on the basis of the total number of shares of Preferred Stock the holder is at the time converting into Common Stock and the aggregate number of shares of Common Stock issuable upon such conversion.

3.3 Mechanics of Conversion.

3.3.1 Notice of Conversion. To voluntarily convert shares of Preferred Stock into shares of Common Stock, a holder of Preferred Stock shall surrender the certificate or certificates for the shares of Preferred Stock (or, if such registered holder alleges that any such

certificate has been lost, stolen or destroyed, a lost certificate affidavit and agreement reasonably acceptable to the Corporation to indemnify the Corporation against any claim that may be made against the Corporation on account of the alleged loss, theft or destruction of such certificate), at the office of the transfer agent for the Preferred Stock (or at the principal office of the Corporation if the Corporation serves as its own transfer agent), together with written notice that the holder elects to convert all or any number of the shares of the Preferred Stock represented by the certificate or certificates and, if applicable, any event on which the conversion is contingent (a “**Contingency Event**”). The conversion notice must state the holder’s name or the names of the nominees in which such holder wishes the certificate or certificates for shares of Common Stock to be issued. If required by the Corporation, certificates surrendered for conversion shall be endorsed or accompanied by a written instrument or instruments of transfer, in form reasonably satisfactory to the Corporation, duly executed by the registered holder or such holder’s attorney duly authorized in writing. The close of business on the date of receipt by the transfer agent (or by the Corporation if the Corporation serves as its own transfer agent) of the certificates (or lost certificate affidavit and agreement) and notice (or, if later, the date on which all Contingency Events have occurred) will be the time of conversion (the “**Conversion Time**”), and the shares of Common Stock issuable upon conversion of the shares represented by such certificate shall be deemed to be outstanding of record as of such time. The Corporation shall, as soon as practicable after the Conversion Time, (a) issue and deliver to the holder, or to the holder’s nominees, a certificate or certificates for the number of full shares of Common Stock issuable upon the conversion in accordance with the provisions herein and a certificate for the number (if any) of the shares of Preferred Stock represented by the surrendered certificate that were not converted into Common Stock, (b) pay in cash such amount as provided in Section 3.2 in lieu of any fraction of a share of Common Stock otherwise issuable upon such conversion and (c) pay all declared but unpaid dividends on the shares of Preferred Stock converted.

3.3.2 Reservation of Shares. For the purpose of effecting the conversion of the Preferred Stock, the Corporation shall at all times while any share of Preferred Stock is outstanding, reserve and keep available out of its authorized but unissued capital stock, that number of its duly authorized shares of Common Stock as may from time to time be sufficient to effect the conversion of all outstanding Preferred Stock; and if at any time the number of authorized but unissued shares of Common Stock is not be sufficient to effect the conversion of all then-outstanding shares of the Preferred Stock, the Corporation shall use its best efforts to cause such corporate action to be taken as may be necessary to increase its authorized but unissued shares of Common Stock to such number of shares as shall be sufficient for such purposes, including, without limitation, engaging in best efforts to obtain the requisite shareholder approval of any necessary amendment to the Articles of Incorporation, *provided, however*, that if the consent of the holders of Preferred Stock is required to approve such corporate action, the holders of Preferred Stock shall cooperate in good faith with respect to such approval.

3.3.3 Effect of Conversion. All shares of Preferred Stock that shall have been surrendered for conversion as provided herein shall no longer be deemed to be outstanding and all rights with respect to such shares will immediately cease and terminate at the Conversion Time, except only the right of the holders thereof to receive shares of Common Stock in exchange therefor, to receive payment in lieu of any fraction of a share otherwise issuable upon such conversion as provided in Section 3.2, and to receive payment of any dividends declared

but unpaid thereon. Any shares of Preferred Stock so converted shall be retired and cancelled and may not be reissued.

3.3.4 No Further Adjustment. Upon any conversion of shares of Preferred Stock, no adjustment to the Conversion Price of the applicable series of Preferred Stock will be made with respect to the converted shares for any declared but unpaid dividends on such series of Preferred Stock or on the Common Stock delivered upon conversion.

3.4 Adjustment for Stock Splits and Combinations. If the Corporation at any time or from time to time after the date on which the first share of a series of Preferred Stock is issued by the Corporation (such date referred to herein as the “*Original Issue Date*” for such series of Preferred Stock) effects a subdivision of the outstanding Common Stock, the Conversion Price for each series of Preferred Stock in effect immediately before that subdivision shall be proportionately decreased so that the number of shares of Common Stock issuable on conversion of each share of that series will be increased in proportion to the increase in the aggregate number of shares of Common Stock outstanding. If the Corporation at any time or from time to time after the Original Issue Date for a series of Preferred Stock combines the outstanding shares of Common Stock, the Conversion Price for each series of Preferred Stock in effect immediately before the combination will be proportionately increased so that the number of shares of Common Stock issuable on conversion of each share of such series shall be decreased in proportion to such decrease in the aggregate number of shares of Common Stock outstanding. Any adjustment under this Section 3.4 becomes effective at the close of business on the date the subdivision or combination becomes effective.

3.5 Adjustment for Certain Dividends and Distributions. If the Corporation at any time or from time to time after the Original Issue Date for a series of Preferred Stock makes or issues, or fixes a record date for the determination of holders of Common Stock entitled to receive, a dividend or other distribution payable on the Common Stock in additional shares of Common Stock, then and in each such event the Conversion Price for such series of Preferred Stock in effect immediately before the event will be decreased as of the time of such issuance or, in the event a record date has been fixed, as of the close of business on such record date, by multiplying such Conversion Price then in effect by a fraction:

(a) the numerator of which is the total number of shares of Common Stock issued and outstanding immediately prior to the time of the issuance or the close of business on the record date, and

(b) the denominator of which is the total number of shares of Common Stock issued and outstanding immediately before the time of such issuance or the close of business on the record date plus the number of shares of Common Stock issuable in payment of such dividend or distribution.

Notwithstanding the foregoing, (i) if such record date has have been fixed and the dividend is not fully paid or if such distribution is not fully made on the date fixed therefor, such Conversion Price shall be recomputed accordingly as of the close of business on such record date and thereafter such Conversion Price shall be adjusted pursuant to this Section 3.5 as of the time of actual payment of such dividends or distributions; and (ii) no such adjustment shall be made if the holders of such series of Preferred Stock simultaneously receive a dividend or other

distribution of shares of Common Stock in a number equal to the number of shares of Common Stock that they would have received if all outstanding shares of such series of Preferred Stock had been converted into Common Stock on the date of the event.

3.6 Adjustments for Other Dividends and Distributions. If the Corporation at any time or from time to time after the Original Issue Date for a series of Preferred Stock shall makes or issues, or fixes a record date for the determination of holders of Common Stock entitled to receive, a dividend or other distribution payable in securities of the Corporation (other than a distribution of shares of Common Stock in respect of outstanding shares of Common Stock), then and in each such event the Corporation shall make, simultaneously with the distribution to the holders of Common Stock, a dividend or other distribution to the holders of the series of Preferred Stock in an amount equal to the amount of securities as the holders would have received if all outstanding shares of such series of Preferred Stock had been converted into Common Stock on the date of such event.

3.7 Adjustment for Reclassification, Exchange and Substitution. If at any time or from time to time after the Original Issue Date for a series of Preferred Stock the Common Stock issuable upon the conversion of such series of Preferred Stock is changed into the same or a different number of shares of any class or classes of stock of the Corporation, whether by recapitalization, reclassification, or otherwise (other than by a stock split or combination, dividend, distribution, merger or consolidation covered by Sections 3.4, 3.5, 3.6 or 3.8 or by Section 1.3 regarding a Deemed Liquidation Event), then in any such event each holder of such series of Preferred Stock may thereafter convert such stock into the kind and amount of stock and other securities and property receivable upon such recapitalization, reclassification or other change by holders of the number of shares of Common Stock into which such shares of Preferred Stock could have been converted immediately prior to such recapitalization, reclassification or change.

3.8 Adjustment for Merger or Consolidation. Subject to the provisions of Section 1.3, if any consolidation or merger occurs involving the Corporation in which the Common Stock (but not a series of Preferred Stock) is converted into or exchanged for securities, cash, or other property (other than a transaction covered by Sections 3.5, 3.6 or 3.7), then, following any such consolidation or merger, the Corporation shall provide that each share of such series of Preferred Stock will thereafter be convertible, in lieu of the Common Stock into which it was convertible prior to the event, into the kind and amount of securities, cash, or other property which a holder of the number of shares of Common Stock of the Corporation issuable upon conversion of one share of such series of Preferred Stock immediately prior to the consolidation or merger would have been entitled to receive pursuant to the transaction; and, in such case, the Corporation shall make appropriate adjustment (as determined in good faith by the Board) in the application of the provisions in this Section 3 with respect to the rights and interests thereafter of the holders of such series of Preferred Stock, to the end that the provisions set forth in this Section 3 (including provisions with respect to changes in and other adjustments of the Conversion Price of such series of Preferred Stock) shall thereafter be applicable, as nearly as reasonably may be, in relation to any securities or other property thereafter deliverable upon the conversion of such series of Preferred Stock.

3.9 Certificate as to Adjustments. Upon the occurrence of each adjustment or readjustment of the Conversion Price of a series of Preferred Stock pursuant to this Section 3, the Corporation at its expense shall, as promptly as reasonably practicable but in any event not later than 15 days thereafter, compute such adjustment or readjustment in accordance with the terms of this Section 3 and furnish to each holder of such series of Preferred Stock a certificate setting forth the adjustment or readjustment (including the kind and amount of securities, cash, or other property into which such series of Preferred Stock is convertible) and showing in detail the facts upon which such adjustment or readjustment is based. The Corporation shall, as promptly as reasonably practicable after the written request at any time of any holder of any series of Preferred Stock (but in any event not later than 10 days thereafter), furnish or cause to be furnished to such holder a certificate setting forth (a) the Conversion Price of such series of Preferred Stock then in effect and (b) the number of shares of Common Stock and the amount, if any, of other securities, cash, or property which then would be received upon the conversion of such series of Preferred Stock.

3.10 Mandatory Conversion. Upon either (a) the closing of the sale of shares of Common Stock to the public in a firm-commitment underwritten public offering pursuant to an effective registration statement under the Securities Act of 1933, as amended or (b) the date and time, or the occurrence of an event, specified by vote or written consent of the Requisite Holders at the time of such vote or consent, voting as a single class on an as-converted basis (the time of such closing or the date and time specified or the time of the event specified in such vote or written consent, the “***Mandatory Conversion Time***”), (i) all outstanding shares of Preferred Stock will automatically convert into shares of Common Stock, at the applicable ratio described in Section 3.1.1 as the same may be adjusted from time to time in accordance with Section 3 and (ii) such shares may not be reissued by the Corporation.

3.11 Procedural Requirements. The Corporation shall notify in writing all holders of record of shares of Preferred Stock of the Mandatory Conversion Time and the place designated for mandatory conversion of all such shares of Preferred Stock pursuant to Section 3.10. Unless otherwise provided herein, the notice need not be sent in advance of the occurrence of the Mandatory Conversion Time. Upon receipt of the notice, each holder of shares of Preferred Stock shall surrender such holder’s certificate or certificates for all such shares (or, if such holder alleges that such certificate has been lost, stolen or destroyed, a lost certificate affidavit and agreement reasonably acceptable to the Corporation to indemnify the Corporation against any claim that may be made against the Corporation on account of the alleged loss, theft or destruction of such certificate) to the Corporation at the place designated in such notice, and shall thereafter receive certificates for the number of shares of Common Stock to which such holder is entitled pursuant to this Section 3. If so required by the Corporation, certificates surrendered for conversion shall be endorsed or accompanied by written instrument or instruments of transfer, in form reasonably satisfactory to the Corporation, duly executed by the registered holder or such holder’s attorney duly authorized in writing. All rights with respect to the Preferred Stock converted pursuant to Section 3.10, including the rights, if any, to receive notices and vote (other than as a holder of Common Stock), will terminate at the Mandatory Conversion Time (notwithstanding the failure of the holder or holders thereof to surrender the certificates at or prior to such time), except only the rights of the holders thereof, upon surrender of their certificate or certificates (or lost certificate affidavit and agreement) therefor, to receive the items provided for in the next sentence of this Section 3.11. As soon as practicable after the

Mandatory Conversion Time and the surrender of the certificate or certificates (or lost certificate affidavit and agreement) for Preferred Stock, the Corporation shall issue and deliver to such holder, or to such holder's nominee(s), a certificate or certificates for the number of full shares of Common Stock issuable on such conversion in accordance with the provisions hereof, together with cash as provided in Section 3.2 in lieu of any fraction of a share of Common Stock otherwise issuable upon such conversion and the payment of any declared but unpaid dividends on the shares of Preferred Stock converted. Such converted Preferred Stock shall be retired and cancelled and may not be reissued as shares of such series, and the Corporation may thereafter take such appropriate action (without the need for stockholder action) as may be necessary to reduce the authorized number of shares of Preferred Stock (and the applicable series thereof) accordingly.

4. Dividends. The Corporation shall declare all dividends pro rata on the Common Stock and the Preferred Stock on a pari passu basis according to the number of shares of Common Stock held by such holders. For this purpose, each holder of shares of Preferred Stock will be treated as holding the greatest whole number of shares of Common Stock then issuable upon conversion of all shares of Preferred Stock held by such holder pursuant to Section 3.

5. Redeemed or Otherwise Acquired Shares. Any shares of Preferred Stock that are redeemed or otherwise acquired by the Corporation or any of its subsidiaries will be automatically and immediately cancelled and retired and shall not be reissued, sold or transferred. Neither the Corporation nor any of its subsidiaries may exercise any voting or other rights granted to the holders of Preferred Stock following any such redemption.

6. Waiver. Any of the rights, powers, privileges and other terms of the Preferred Stock set forth herein may be waived prospectively or retrospectively on behalf of all holders of Preferred Stock by the affirmative written consent or vote of the holders of the Requisite Holders.

7. Notice of Record Date. In the event:

(a) the Corporation takes a record of the holders of its Common Stock (or other capital stock or securities at the time issuable upon conversion of the Preferred Stock) for the purpose of entitling or enabling them to receive any dividend or other distribution, or to receive any right to subscribe for or purchase any shares of capital stock of any class or any other securities, or to receive any other security; or

(b) of any capital reorganization of the Corporation, any reclassification of the Common Stock of the Corporation, or any Deemed Liquidation Event; or

(c) of the voluntary or involuntary dissolution, liquidation or winding-up of the Corporation,

then, and in each such case, the Corporation shall send or cause to be sent to the holders of the Preferred Stock a written notice specifying, as the case may be, (i) the record date for such dividend, distribution, or right, and the amount and character of such dividend, distribution or right, or (ii) the effective date on which such reorganization, reclassification, consolidation, merger, transfer, dissolution, liquidation or winding-up is proposed to take place, and the time, if

any is to be fixed, as of which the holders of record of Common Stock (or such other capital stock or securities at the time issuable upon the conversion of the Preferred Stock) will be entitled to exchange their shares of Common Stock (or such other capital stock or securities) for securities or other property deliverable upon such reorganization, reclassification, consolidation, merger, transfer, dissolution, liquidation or winding-up, and the amount per share and character of such exchange applicable to the Preferred Stock and the Common Stock. The Corporation shall send the notice at least 20 days before the earlier of the record date or effective date for the event specified in the notice.

8. Notices. Except as otherwise provided herein, any notice required or permitted by the provisions of this Article V to be given to a holder of shares of Preferred Stock must be mailed, postage prepaid, to the post office address last shown on the records of the Corporation, or given by electronic communication in compliance with the provisions of the General Corporation Law, and will be deemed sent upon such mailing or electronic transmission.

9. Residual Rights. All rights accruing to the outstanding shares of the Corporation not expressly provided for to the contrary herein shall be vested in the Common Stock.

10. Consent to Certain Repurchases. Each holder of an outstanding share of Preferred Stock shall be deemed to have consented, for purposes of Section 500 of the California Corporations Code (or for purposes of former Sections 502 and 503 thereof, and any successor provisions thereto), to distributions made by the Corporation in connection with the repurchase of shares of Common Stock issued to or held by directors, employees, consultants or other service providers (i) upon termination of their employment or services, (ii) in connection with other repurchases from employees at the then deemed fair market value of the Common Stock, if approved by the Board of Directors of the Corporation, or (iii) in connection with the exercise by the Corporation of contractual rights of first refusal or first offer pursuant to agreements providing for the right of said repurchase between the Corporation and such persons, provided that the terms of such repurchase shall have been approved by the Board of Directors of the Corporation, and agrees that any such distributions can be made without regard to the “preferential rights amount” or “preferential rights” or “preferential dividends arrears amount” referenced in Section 500(b) of the California Corporations Code.

ARTICLE IV

The liability of the directors of this Corporation for monetary damages shall be eliminated to the fullest extent permissible under California law. Any repeal or modification of this Article IV, or the adoption of any provision of the Articles of Incorporation inconsistent with this Article IV, shall only be prospective and shall not adversely affect the rights under this Article IV in effect at the time of the alleged occurrence of any action or omission to act giving rise to liability.

ARTICLE V

The Corporation is authorized to provide indemnification of (and advancement of expenses to) agents (as defined in Section 317 of the California Corporations Code) through

Bylaw provisions, agreements with agents, the affirmative vote of shareholders or disinterested directors or otherwise, in excess of the indemnification and advancement otherwise permitted by Section 317 of the California Corporations Code, subject only to the applicable limits on indemnification set forth in Sections 204 and 317 of the California Corporations Code with respect to actions for breach of duty to the Corporation or its shareholders. Any repeal or modification of this Article V, or the adoption of any provision of the Articles of Incorporation inconsistent with this Article V, shall only be prospective and shall not adversely affect the rights under this Article V in effect at the time of the alleged occurrence of any action or omission to act giving rise to indemnification.”

4. The foregoing amendment and restatement of the Articles of Incorporation has been duly approved by the required vote of the shareholders of the Corporation in accordance with sections 603 and 903 of the California General Corporations Law.
