The Loveseat Concept

Selling used furniture online hasn't been the most successful business. Warehousing the inventory is expensive, and shipping costs are high. Loveseat.com is a new approach to selling used furniture online. Loveseat.com is a weekly auction for vintage furniture and collectibles.

As in-person furniture auctions have become more prevalent, we finally have a threshold of sellers to support a weekly auction. Loveseat.com is the first weekly auction for vintage furniture and collectibles.

Liquidating home furnishings is a major challenge for a simple circle trip. We eliminate the hassle of selling your furniture and collectibles. Sellers can simply drop off their items at our warehouse. We handle the rest, including shipping to the successful bidder.

Through our user experience focus, we also expect Loveseat.com to have a higher conversion rate than other online auctions. Our goal is to make the auction process as simple as possible. Our auctions are curated to ensure that only high-quality items are listed. Our online and mailing supported facilities for auction participants are listed on a table.

We expect Loveseat.com to be a huge untapped source of transactions in the future as well.
