RISK FACTORS

Risks Related to the Company's Business and Industry

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management personnel to develop additional expertise. We face intense competition for personnel. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us.

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

We were incorporated under the laws of Delaware on May 22, 2017. Accordingly, we have no history upon which an evaluation of our prospects and future performance can be made. Our proposed operations are subject to all business risks associated with new enterprises. The likelihood of our creation of a viable business must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the inception of a business, operation in a competitive industry, and the continued development of advertising, promotions, and a corresponding client base. We anticipate that our operating expenses will increase for the near future. There can be no assurances that we will ever operate profitably. You should consider the Company's business, operations and prospects in light of the risks, expenses and challenges faced as an early-stage company.

The development and commercialization of our products/services is highly competitive.

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved products/services and thus may be better equipped than us to develop and commercialize products/services. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our products/services will achieve initial market acceptance and our ability to generate meaningful additional revenues from our products.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of an approved product and revenues from sales, as well as the inherent business risks associated with our company and present and future market conditions. Our business currently does not generate any sales and future sources of revenue may not be sufficient to meet our future capital requirements. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

We may implement new lines of business or offer new products and services within existing lines of business.

There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients, or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

In general, demand for our products and services is highly correlated with general economic conditions.

A substantial portion of our revenue is derived from discretionary spending by individuals, which typically falls during times of economic instability. Declines in economic conditions in the U.S. or in other countries in which we operate may adversely impact our consolidated financial results. Because such declines in demand are difficult to predict, we or the industry may have increased excess capacity as a result. An increase in excess capacity may result in declines in prices for our products and services.

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer.

We collect and store sensitive data, including intellectual property, our proprietary business information and that of our customers, suppliers and business partners, in our data centers and on our networks. The secure processing, maintenance and transmission of this information is critical to our operations and business strategy. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our networks and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings, liability under laws that protect the privacy of personal information, disrupt our operations and the services we provide to customers, and damage our reputation, which could adversely affect our business/operating margins, revenues and competitive position.

The secure processing, maintenance and transmission of this information is critical to our operations and business strategy, and we devote significant resources to protecting our information and must continuously monitor and develop our information technology networks and infrastructure to prevent, detect, address and mitigate the risk of unauthorized access, misuse, computer viruses and other events that could have a security impact.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Michael Jordan, who is the Chief Executive Officer. The Company has or intends to enter into employment agreements with Michael Jordan although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of Michael Jordan or any member of the board of directors or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

We depend on a few major clients/customers for a substantial portion of our net sales.

For example, during the current fiscal year ending December 2018, early pilot customers who are Fortune 1000 companies with employee workforces greater than 10,000 employees accounted for 100% percent of our net sales, respectively. The loss of all or a substantial portion of our sales to any of our large-volume customers could have a material adverse effect on our financial condition and results of operations by reducing cash flows and our ability to spread costs over a larger revenue base. In addition, our largest customers have an increased ability to influence pricing and other contract terms. Although we strive to broaden and diversify our customer base, a significant portion of our revenue is derived from a relatively small number of customers. Consequently, a significant loss of business from, or adverse performance by, our major customers, may have a material adverse effect on our financial condition, results of operations and cash flows. Similarly, the renegotiation of major customer contracts may also have an adverse effect on our financial results. We are also subject to credit risk associated with our customer concentration. If one or more of our largest customers were to become bankrupt, insolvent or otherwise were unable to pay for services provided, we may incur significant write-offs of accounts receivable or incur lease or asset-impairment charges that may have a material adverse effect on our financial condition, results of operations or cash flows.

Most of our significant long-term customer contracts permit quarterly or other periodic adjustments to pricing based on decreases and increases in component prices and other factors, however we typically bear the risk of component price increases that occur between any such re-pricings or, if such re-pricing is not permitted, during the balance of the term of the particular customer contract. Accordingly, certain component price increases could adversely affect our gross profit margins.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on Michael Jordan in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if Michael Jordan dies or become disabled, the Company will not receive any

compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations.

We are subject to income taxes as well as non-income-based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in the U.S.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income-based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

Changes in employment laws or regulation could harm our performance.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws include minimum wage requirements, overtime pay, healthcare reform and the implementation of the Patient Protection and Affordable Care Act, unemployment tax rates, workers' compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, increased tax reporting and tax payment, changing regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act.

Successful development of our products is uncertain.

The product candidates that we expect to develop are based on processes and methodologies that are not currently widely employed. Our development of current and future product candidates is subject to the risks of failure and delay inherent in the development of new products and products based on new technologies, including:

- * delays in product development, clinical testing, or manufacturing;
- * unplanned expenditures in product development, clinical testing, or manufacturing;
- * failure to receive regulatory approvals;
- * inability to manufacture on our own, or through any others, product candidates on a commercial scale;
- * failure to achieve market acceptance; and
- * emergence of superior or equivalent products.

Because of these risks, our research and development efforts may not result in any commercially viable products. If a significant portion of these development efforts are not successfully completed, required regulatory approvals are not obtained, or any approved products are not commercially successful, our business, financial condition, and results of operations may be materially harmed.

Political, economic and regulatory influences are subjecting the healthcare industry to potential fundamental changes that could substantially affect our results of operations.

Government and private sector initiatives to limit the growth of healthcare costs, including price regulation, competitive pricing, coverage and payment policies, comparative effectiveness of therapies, technology assessments and alternative payment models, are continuing in many countries where we do business, including the U.S.. These changes are causing the marketplace to put increased emphasis on the delivery of more cost-effective treatments. Certain provisions of the legislation will not be effective for a number of years and it is unclear what the full impact of the legislation will be. Provisions of this legislation, including Medicare provisions aimed at improving quality and decreasing costs, comparative effectiveness research, an independent payment advisory board, and pilot programs to evaluate alternative payment methodologies, could meaningfully change the way healthcare is developed and delivered, and may adversely affect our business and results of operations. Further, we cannot predict

what healthcare programs and regulations will be ultimately implemented at the federal or state level, or the effect of any future legislation or regulation in the U.S. or internationally. However, any changes that lower reimbursements for our products, reduce medical procedure volumes or increase cost containment pressures on us or other participants in the healthcare industry could adversely affect our business and results of operations.

Privacy laws and regulations could restrict our ability or the ability of our customers to obtain, use or disseminate patient information, or could require us to incur significant additional costs to re-design our products.

State, federal and foreign laws, such as the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA), regulate the confidentiality of sensitive personal information and the circumstances under which such information may be released. These and future laws could have an adverse impact on our results of operations. Other health information standards, such as regulations under HIPAA, establish standards regarding electronic health data transmissions and transaction code set rules for specified electronic transactions, for example transactions involving claims submissions to third party payors. These also continue to evolve and are often unclear and difficult to apply. In addition, under the federal Health Information Technology for Economic and Clinical Health Act (HITECH Act), which was passed in 2009, many businesses that were previously only indirectly subject to federal HIPAA privacy and security rules became directly subject to such rules because the businesses serve as "business associates" to our customers. On January 17, 2013, the Office for Civil Rights of the Department of Health and Human Services released a final rule implementing the HITECH Act and making certain other changes to HIPAA privacy and security requirements. Compliance has increased the requirements applicable to some of our businesses. Failure to maintain the confidentiality of sensitive personal information in accordance with the applicable regulatory requirements, or to abide by electronic health data transmission standards, could expose us to breach of contract claims, fines and penalties, costs for remediation and harm to our reputation.

The healthcare industry is highly regulated.

We are subject to regulation in the U.S. at both the federal and state level and in foreign countries. In addition, the U.S. federal and state governments have allocated greater resources to the enforcement of these laws. If we fail to comply with these regulatory requirements, or if allegations are made that we failed to comply, our results of operations and financial condition could be adversely affected.

The sales, marketing and pricing of products and relationships that pharmaceutical and medical device companies have with healthcare providers are under increased scrutiny by federal, state and foreign government agencies.

Compliance with the Anti-Kickback Statute, False Claims Act, Food, Drug and Cosmetic Act (including as these laws relate to off-label promotion of products) and other healthcare related laws, as well as competition, data and patient privacy and export and import laws is under increased focus by the agencies charged with overseeing such activities, including FDA, Office of Inspector General (OIG), Department of Justice (DOJ) and the Federal Trade Commission. The DOJ and the Securities and Exchange Commission have also increased their focus on the enforcement of the U.S. Foreign Corrupt Practices Act (FCPA), particularly as it relates to the conduct of pharmaceutical companies.

Federal and State Laws Pertaining to Healthcare Fraud and Abuse Could Adversely Affect Our Business.

We are subject to various federal and state laws targeting fraud and abuse in the healthcare industry, including anti-kickback laws, false claims laws, laws constraining the sales, marketing and other promotional activities of manufacturers of medical devices by limiting the kinds of financial arrangements we may enter into with physicians, hospitals, laboratories and other potential Purchasers of medical devices, laws requiring the reporting of certain transactions between us and healthcare professionals and HIPAA, as amended by HITECH, which governs the conduct of certain electronic healthcare transactions and protects security and privacy of protected health information. Violations of these laws are punishable by criminal or civil sanctions, including substantial fines, imprisonment and exclusion from participation in government healthcare programs such as Medicare and Medicaid. Many of the existing requirements are new and have not been definitively interpreted by state authorities or courts, and available guidance is limited. Unless and until we are in full compliance with these laws, we could face enforcement action and fines and other penalties, and could receive adverse publicity, all of which could materially harm our business. In addition, changes in or evolving interpretations of these laws, regulations, or administrative or judicial interpretations, may require us to change our business practices or subject our business practices to legal challenges, which could have a material adverse effect on our business, financial condition and results of operations.

The commercial success of our products will depend in part upon the level of reimbursement we receive from third parties for the cost of our products to users.

The commercial success of any product will depend, in part, on the extent to which reimbursement for the costs of our products and related treatments will be available from third-party payors such as government health

administration authorities, private health insurers, managed care programs, and other organizations. Adequate third-party insurance coverage may not be available for us to establish and maintain price levels that are sufficient for us to continue our business or for realization of an appropriate return on investment in product development.

Risks Related to the Securities

The Crowd Note will not be freely tradable until one year from the initial purchase date. Although the Crowd Note may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Crowd Note. Because the Crowd Note have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Crowd Note have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Crowd Note may also adversely affect the price that you might be able to obtain for the Crowd Note in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

A majority of the Company is owned by a small number of owners.

Prior to the Offering the Company's current owners of 20% or more beneficially own up to 83.09% of the Company. Subject to any fiduciary duties owed to our other owners or investors under Delaware law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

There is no present market for the Securities and we have arbitrarily set the price.

We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

Description of the Business

CircleOf's mission is to ignite a "culture of care" within the workplace. CircleOf is sold as a subscription service targeting enterprise human resource and corporate business unit heads to support companies in keeping their employees healthy as they balance caregiving and work responsibilities.

Business Plan

We build caregiving tools to support patients and caregivers dealing with chronic and acute onset conditions. The Company's go-to-market strategy focuses on providing CircleOf as a work-life benefit to large employers. Our future growth depends on building and scaling a care marketplace where third-party service providers can market and sell products and services to care teams in need.

CAPITALIZATION AND OWNERSHIP

Capitalization

The Company is currently authorized to issue to issue fifteen million (15,000,000) shares of a single class of capital stock, par value \$0.0001 (the "Common Stock").

The Company has issued the following outstanding Securities:

Common Stock

On May 22, 2017, pursuant to a Common Stock Purchase Agreement, NestGSV, Inc. purchased 10,000,000 shares of the Company's Common Stock for aggregate proceeds of \$1,000.00, at a purchase price of \$0.0001 per share. As consideration, NestGSV, Inc. paid \$500.00 in cash and transferred certain intellectual property rights to the Company at the agreed upon value of \$500.00. On January 2, 2018, pursuant to a Stock Re-Purchase Agreement the Company repurchased 9,712,500 of NestGSV, Inc.'s shares of Common Stock at a repurchase price of \$0.0001 per share for an aggregate purchase price of \$971.25. As of the date of this Form C, NestGSV, Inc. holds 287,500 shares of Common Stock.

On January 2, 2018, pursuant to a Restricted Stock Purchase Agreement, Co-founder Michael Jordan purchased 7,062,500 shares of the Company's Common Stock for the aggregate proceeds of \$706.25, at a purchase price of \$0.0001 per share. Pursuant to the Restricted Stock Purchase Agreement, 1,765,625 shares vested on January 2, 2018. The remaining 5,296,875 shares vest in installments of 147,135 shares of Common Stock on the first day of each month beginning February 1, 2018. As of the date of this Form C, Michael Jordan holds 7,062,500 shares of the Company's Common Stock of which, 5,149,740 shares are subject to vesting.

On January 2, 2018, the Company entered into a Stock Purchase Agreement with Cisco Systems, Inc. for the purchase and sale of 958,333 shares of Common Stock for the aggregate proceeds of \$95.83, at a purchase price of \$0.0001 per share, with immediate vesting.

Convertible Notes

Additionally, on November 20, 2017, the Company issued a convertible promissory note to Community Launchpad, LLC in the amount of \$250,000.00. The convertible note accrues simple interest at a rate of two percent (2.0%) per annum. This note has a maturity date of November 20, 2019, at which time the outstanding principal amount and any accrued interest will become due and payable by the Company. If, prior to the maturity date, the Company sells shares of its equity securities to investors in a sale for the total proceeds of \$2,500,000 or more, then the outstanding principal amount and any unpaid accrued interest on this note will automatically convert into shares of the same equity securities sold in such a qualified financing. If the Company consummates a change of control prior to the maturity date the Company shall pay the holder the outstanding principal amount and any accrued interest will become due and payable by the Company. Currently, the principal and interest on this convertible note are outstanding and have not been converted into equity securities in the Company.

FINANCIAL INFORMATION

Please see the financial information listed on the cover page of this Form C and attached hereto in addition to the following information. Financial statements are attached hereto as Exhibit A.

Operations

We generate substantially all of our revenue from enterprise sales and marketplace referral fees. Our primary expenses are research and development, sales and marketing, and customer development.

The Company does not expect to achieve profitability in the next 18 months and intends to focus on brand marketing, customer experience, and product development.

In circumstances, where the Company receives prepayment from the customer for services not yet rendered, the unearned revenue is deferred until services are provided to the customer. The Company currently has \$120,000.00 in deferred revenue as a liability on its balance sheet.

Liquidity and Capital Resources

The Offering proceeds are important to our operations. While not dependent on the Offering proceeds, the influx of capital will assist in the achievement of our next milestones and expedite the realization of our business plan, specifically further development of our customer pipeline and sales operations activities. Because we have already allocated the proceeds to a specific use dependent on the completion of this Offering, the proceeds will not have a material effect on our liquidity.

In addition to the proceeds from the Offering, the Company plans to raise up to \$2.5 million in additional capital through a convertible note sale.

The Company's current average monthly burn rate is \$105,000.00.

Capital Expenditures and Other Obligations

The Company does not intend to make any material capital expenditures in the future.

Material Changes and Other Information Trends and Uncertainties

After reviewing the above discussion of the steps the Company intends to take, potential Purchasers should consider whether achievement of each step within the estimated time frame is realistic in their judgment. Potential Purchasers should also assess the consequences to the Company of any delays in taking these steps and whether the Company will need additional financing to accomplish them.

The financial statements are an important part of this Form C and should be reviewed in their entirety. The financial statements of the Company are attached hereto as Exhibit A.

Purchaser funds will be held in escrow with Boston Private Bank and Trust Co. until the Minimum Amount of investments is reached. If the Company reaches the Minimum Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after reaching the Minimum Amount and providing notice to the Purchasers. If any material change (other than reaching the Minimum Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Purchasers and receive reconfirmations from Purchasers who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If a Purchaser does not cancel an investment commitment before the Minimum Amount is reached, the funds will be released to the Company upon closing of the Offering and the Purchaser will receive the Securities in exchange for his or her investment. MYWAYS, INC.
Notes to the Financial Statements
December 31, 2017
(unaudited)

Note 1 – Nature of Business

MyWays, Inc. (“the Company”), was organized on May 22, 2017 (“Inception”) in the state of Delaware.

The Company creates tools which connect caregivers with people in need. Users can instantly form on-demand care teams with family, friends, colleagues or communities to share information, provide assistance, and volunteer knowledge and time.

From Inception through September 7, 2017, the Company was incubated at GSV abs, an incubator and accelerator for startup businesses.

Note 2 – Liquidity and Capital Resources

The accompanying financial statements have been prepared on a going concern basis. The Company's prospects are subject to the risks and uncertainties frequently encountered by companies in rapidly evolving markets. These risks include the failure to market the Company's offering, as well as other risks and uncertainties.

The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to generate profits and/or obtain financing sufficient to meet current and future obligation. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. No assurance can be given that the Company will be successful in these efforts.

These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern for a reasonable period of time. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities.

Note 3 – Significant Accounting Policies

Basis of accounting

The accompanying financial statements were prepared using accounting principles generally accepted in the United States of America.

Cash equivalents

For purposes of the statement of cash flows, the Company considers all short-term, highly liquid investments with an original maturity of three months or less to be cash equivalents.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, at the date of the financial statements, as well as the reported amount of revenue and expenses during the reporting periods. Actual results could differ from these estimates.

Note 3 – Significant Accounting Policies (continued)

Revenue recognition

The Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed and determinable and collectability is reasonably assured. In circumstances, where the Company receives prepayment from the customer the revenue is deferred till services are provided to the customer.

Income taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. This method also requires the recognition of future tax benefits such as net operating loss carry forwards, to the extent that realization of such benefits is more likely than not. If it is more likely than not that some portion or all of a deferred tax asset will not be realized, a valuation allowance is recognized.

Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statement of operations in the period that includes the enactment date.

The Company regularly assesses uncertain tax positions in each of the tax jurisdictions in which it has operations and accounts for the related financial statement implications. Unrecognized tax benefits are reported using the two-step approach under which tax effects of a position are recognized only if it is “more-likely-than-not” to be sustained and the amount of the tax benefit recognized is equal to the largest tax benefit that is greater than fifty percent likely of being realized upon ultimate settlement of the tax position. Determining the appropriate level of unrecognized tax benefits requires the Company to exercise judgment regarding the uncertain application of tax law. The amount of unrecognized tax benefits is adjusted when information becomes available or when an event occurs indicating a change is appropriate. Future changes in unrecognized tax benefits requirements could have a material impact on the results of operations.

Financial instruments and credit risk

Financial instruments that potentially subject the Company to credit risk include cash and cash equivalents. Cash is deposited in demand accounts in federal insured domestic institutions to minimize risk. Although the balances in these accounts can exceed the federally insured limit from time to time, the Company has not incurred losses related to these deposits.

The amounts reported for cash and cash equivalents are considered to approximate their market values based on comparable market information available at the respective balance sheet dates due to their short-term nature. However, the balances as of December 31, 2017 approximate fair value due to the proximity of the agreements to the balance sheet date.

Management review

The Company has evaluated subsequent events through the date of the Independent Accountants’ Review Report, the date the financial statements were available to be issued.

Note 4 – Convertible Note Payable

On November 20 2017, the Company entered into a convertible note payable agreement for \$250,000 (the “Note”) with Community Launchpad, LLC (“Community”). The Note bears interest at the rate of 2% per annum. All unpaid interest and principal on the note is due and payable upon the request of Community on or after November 20, 2019.

In the event of a qualified equity financing prior to maturity, all the outstanding principal balance and any unpaid accrued interest of the Notes is convertible into common units of the Company at a conversion price equal to 80% of the per share price paid by the investors. In the event of a conversion as a result of a qualified equity financing, the note holders will receive a conversion price discount of 20%. The Company has not recorded a beneficial conversion feature for the conversion price discount because of the uncertainty related to any financing occurring prior to the maturity date of the Notes.

Note 5 – Common Stock

The Company is authorized to issue 15,000,000 shares of \$0.0001 par value common stock. On May 22, 2017, the Company issued 10,000,000 common shares to GSV Labs. The 10,000,000 shares, which were still outstanding at December 31, 2017, were issued in exchange for the management of the Company and transfer of intellectual property rights to the Company,

The holders of the common stock are entitled to one vote for each share of common stock held of record by such holder on all matters requiring stockholder votes.

Note 6 – Commitments and Contingencies

Litigation

The Company from time to time may be involved in litigation relating to claims arising out of its ordinary course of business. Management believes that there are no claims or actions pending or threatened against the Company, the ultimate disposition of which would have a material impact on the Company’s financial position, results of operations or cash flows.

Risk Management

The Company is subject to various claims and liabilities in the ordinary course of business. The Company maintains various forms of insurance that the Company’s management believes are adequate to reduce the exposure to these risks to an acceptable level.

Note 7 – Crowdfunding Agreement

On October 18, 2017, the Company entered into an agreement with Democracy VC, LLC (“the Portal”) to offer up to \$250,00 of Crowd Note securities to eligible investors electronically through the Portal’s website. The agreement was signed in accordance with the exemption from registration of securities under Section 4(a)(6) of the Securities Act of 1933 which permits crowdfunding securities offerings over the internet by eligible users of not more than a total of \$1.07 million during any 12-month period through an eligible intermediary.

COMPANY SUMMARY

Opportunity

The CircleOf story began in Fall 2016 when the Cisco Hyper-Innovation Living Lab (CHILL) brought together industry-leading companies to focus on the future of healthcare, particularly on how to improve outcomes for cancer patients. Executives from Cisco, Walgreens, University of California San Francisco, Vocera, and Community Health Network (CHN) – along with physicians, nurses, patients, caregivers, and entrepreneurs – ideated, iterated, and ultimately chose to proceed with one idea, which turned into CircleOf.

Incorporated in May 2017 as MyWays Inc., CircleOf has been fully supported by Cisco through CHILL from ideation to incorporation. The innovation lab has helped the company through a rigorous vetting process that included market research, building a minimum viable product (MVP), and working with dozens of patients and caregivers to improve the platform's capabilities.

Cisco, along with CHN – an integrated healthcare system with more than 200 sites of care and affiliates located in Central Indianaⁱ – have become strategic partners in CircleOf and continue to assist with access to potential customers and partners. Cisco is also piloting the product internally to help further develop the CircleOf product experience.

Additionally, the company received a signed memorandum of understanding (MOU) from the Northeast Business Group on Health (NEBGH). Representing over 175 large employers,ⁱⁱ NEBGH helps employers across the Northeastern U.S. make informed healthcare decisions, improve healthcare delivery systems, and control healthcare-related costs. CircleOf will work together with NEBGH and its members to enhance its enterprise offering, which it plans to launch as the company's first product offering in Q2 2018.

Product

CircleOf is a mobile app that provides tools that can connect people in need with those that can help. CircleOf can instantly form teams of family, friends, co-workers, or community groups to privately share information, provide assistance, and volunteer knowledge and/or time. CircleOf is both a resource and social communication tool – allowing anyone to create a connected community of care at any time.

The app also helps companies support their employees and foster engagement. It helps employers manage healthcare costs as well as promote awareness and access to employer-provided work-life resources. With CircleOf, employees can become more proactive in balancing their caregiving and work responsibilities, which helps businesses improve productivity and reduce absenteeism.

Care Team Creation in 60 Seconds: Individuals start by quickly creating private care teams that include family, friends, work colleagues, etc. Forming a trusted network of caregivers makes it easy to ask for help without feeling like a burden, ensuring people can always receive the right support at the right time.

Match Care Needs with Care Offers: CircleOf makes it easier to connect with family, friends, and co-workers to create a supportive, always-ready care team. With the CircleOf *Care Marketplace*, care team members can provide help to one another directly or delegate to others when they are unable to lend a hand. Logistical care services (e.g. transportation to appointments, picking up prescriptions, or other household errands) can be “gifted” by care team members through third-party providers.

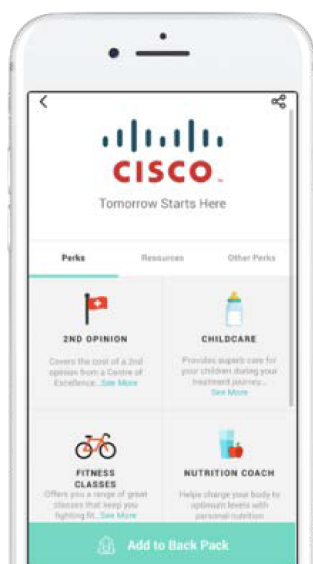

Employer-Sponsored Care Communities: Most large employers already have employee-led caregiving groups for acute and chronic care conditions. CircleOf accelerates the formation of these company care communities by linking them together into a larger web of care for additional advice and support.

Technology

CircleOf leverages the latest technology from Cisco to create a collaboration platform that simplifies communication while maintaining the highest level of security and privacy. Further, the platform utilizes machine learning and artificial intelligence (AI) algorithms to identify relevant content specific to each patient's unique situation. This ensures the right information is provided when it's needed the most.

CircleOf-as-a-Benefit

CircleOf will initially launch as a work-life benefit offered by companies through their HR benefits departments. Through its strategic partnerships, CircleOf will target Fortune 1000 companies and large employers. The CircleOf *Workplace* premium service will connect employee patients and caregivers throughout the enterprise to share advice and resources offered by their employer. CircleOf helps employers create a care-friendly culture while increasing adoption of existing benefits and services. By providing CircleOf as a work-life benefit, companies can:

- Reduce absenteeism and productivity loss
- Drive awareness of condition-specific employer benefits and wellness resources through an easy-to-use mobile platform
- Highlight and target company benefits specific to each employee's private team needs, helping maximize the use of company benefits
- Provide employers data on the overall health of their organization

CircleOf is currently working with Community Health Network, which facilitated over two million patient interactions in 2017.ⁱⁱⁱ Together with CHN, CircleOf aims to scale social caregiving by:

- Ensuring greater coordination between patients, caregivers, and nurse navigators (advocates who work with patients and their caregivers throughout their care journey)
- Reducing late and/or canceled appointments, helping improve patient outcomes, and potentially reducing operational costs
- Creating better, more engaging relationships between patients, caregiver, care team, and their healthcare provider
- Enhancing overall patient experience, which can potentially improve a provider's HCAHPS (Hospital Consumer Assessment of Healthcare Providers and Systems) score

Use of Proceeds and Product Roadmap

Proceeds from the seed round will be primarily used to pilot the CircleOf app with strategic partners and early customers (e.g. Cisco, CHN) and further develop platform features before its commercial launch in Q2 2018. Specifically, capital will be used for the following:

- Improving the app through continued testing with early customers and strategic partners
- Further developing strategic distribution channels with strategic partners, benefits aggregators, and healthcare payer/provider networks
- Developing and launching a direct-to-consumer product
- Further evolving marketing programs to build and socialize the brand

CircleOf Care Marketplace

In Q4 2018, CircleOf plans to launch a free direct-to-consumer app and care marketplace. The CircleOf Care Marketplace will be composed of recognized brands and will allow care team members to quickly and seamlessly access a myriad of products and services. Some examples of the brands and services CircleOf plans to integrate are listed below:

- Amazon: Expendables, durable goods
- Walgreens: Prescription pick up, cosmetics
- The Bouqs Co.: Flower bouquet delivery
- Lyft: Rides to the hospital
- Blue Apron: Family meal planning and delivery
- Door Dash: Food delivery
- Instacart: Grocery delivery

Business Model

CircleOf will be sold as a subscription service targeting HR and business unit heads. The company plans on a three-tiered pricing structure for CircleOf *Workplace* – a premium enterprise service. A free direct-to-consumer version of CircleOf with fewer features will also be available to the general public. The direct-to-consumer product will generate revenue from referral fees from transactions associated with third-party products and services offered through the CircleOf marketplace.

HISTORICAL FINANCIALS

CircleOf was founded in May 2017. As of December 31, 2017, the company had deferred revenue totaling \$120,000, which is received from Cisco as payment for the pilot program. In 2017, CircleOf's operating expenses totaled \$214,466. Third-party contract labor, which included marketing, product development, and engineering, were the primary costs, totaling \$192,667. As of December 31, 2017, the company had \$186,106 in cash assets.

According to a survey published by the NEBGH and the American Association of Retired Persons (AARP), 84% of companies surveyed believe caregiving will become an increasingly important issue in the workplace over the next five years.^{iv} About 44 million Americans provide 37 billion hours of unpaid, informal caregiving services each year for adult family members and friends in need.^v The economic value of these services has steadily increased over the past several years, reaching \$470 billion in 2013, up from \$375 billion in 2007. The \$470 billion exceeded what was spent on paid home care and Medicaid in the same year.^{vi}

On average, family caregivers spend 20% of their annual income on caregiving services. In 2016, the average out-of-pocket expense was nearly \$7,000. Long-distance family caregivers (those who do not live nearby the care recipient) spent an average of nearly \$12,000 in 2016.^{vii} In addition to the significant cost of providing caregiving services, caregivers also suffer from a wide range of health issues. This includes chronic depression, physical ailments (headaches and pain), heart disease, higher mortality rates, and elevated mental health issues such as stress, anxiety, or depression.^{viii}

Source: <https://www.aarp.org/caregiving/financial-legal/info-2017/out-of-pocket-cost-report.html>

Of working caregivers, 70% have reported difficulty in managing their job and caregiving responsibilities.^{ix} In 2011, caregivers missed an average of 6.6 workdays per year. With approximately 17% of full-time workers in the U.S. also acting as caregivers, this totals 126 million missed workdays each year, costing an estimated \$25.2 billion in lost productivity. Including caregivers who work part time, absenteeism costs would be even higher.^x

COMPETITORS

CareZone: Founded in 2011, CareZone helps caregivers stay organized and be effective when caring for a patient. The company created an app that allows users to organize files, contacts, and medications as well as to coordinate with family members and other caregivers using a shared calendar and journal. Through the app, individuals can invite other users, such as family and professional caregivers, to receive access to their information, which can be revoked at any time. The app is available on the iTunes App store, Google Play, and the company's website. For each person receiving care that sets up a profile, CareZone charges a monthly subscription of \$5 or annual subscription of \$48.^{xi}

Lotsa Helping Hands: Founded in 2005, Lotsa Helping Hands supports online caregiving communities to help promote the health and work-life balance of caregivers. Through its website, individuals may create online communities, which bring together caregivers and volunteers able to provide assistance. With the Help Calendar, caregivers can post requests for support, such as meals for the family or rides to medical appointments, and members of the caregiver's online community can quickly find ways to help. Lotsa will send reminders and help coordinate logistics automatically. To date, nearly one million members have lent a hand through a Lotsa Helping Hands Community and more than 50 national nonprofit organizations partner with Lotsa to support caregivers.^{xii} The company also offers both customized, private-label versions of its service to organizations as well as opportunities for sponsorship and affiliate marketing programs.

CaringBridge: Founded in 1997, CaringBridge is a nonprofit organization offering free personalized, password-protected websites to people facing a serious medical condition or hospitalization, undergoing medical treatment, and/or recovering from a significant injury, illness, or procedure. Its functionality is similar to a blog. The service allows family members and friends to receive up-to-date information via a single website and visitors can post their own messages of support and encouragement to the family and patient. Since inception, more than 600,000 CaringBridge websites have been created.^{xiii} In 2016, the company received over \$6.6 million in contributions.^{xiv}

CancerAid: Founded in 2015, CancerAid has developed a mobile app that brings cancer patients and caregivers greater structure with an easy-to-use organizational tool, a medically reliable source of cancer information, and access to a supportive online community. Patients can store medical records, results, and specialists' details; build a complete profile of diagnostic information; and track and manage symptoms, treatments, and medications. They can also learn about treatments with medically reliable and peer-reviewed in-app content and browse cancer specialists by field, location, and institution. Over 40,000 users across 24 countries access CancerAid's platform with 11,000 active daily users.^{xv} CancerAid's premium services include telemedicine capabilities, managing medication adherence and survivorship care plans, and performing research more efficiently. These features are licensed to healthcare providers and are not available to the general public. The public-facing app is available for free via iTunes and Google Play. In October 2016, the company raised \$1.25 million at a \$4.25 million valuation led by Clinton Capital Partner.^{xvi}

Curatio: Founded in 2013, Curatio is a health software company that provides patients with a social support system to achieve better health outcomes and self-management skills. The platform allows patients to connect privately with other people who may have similar experiences, which helps patients build a support system and feel like they're not alone. Curatio also has a disease management tool that helps simplify daily health management for patients by providing symptom tracking methods and reminders. In addition, Curatio connects patients with information validated by medical experts to help them learn more about their conditions. Curatio has raised \$1.5 million as of March 2017 and has appeared on Dragon's Den, a British television series similar to Shark Tank.^{xvii}

Patient IO: Founded in 2013, Patient IO is a mobile app available through the iTunes App and Google Play stores that helps connects patients with caregivers. The app allows patients to send and receive secure messages with their care teams, collaborate on reminders, track and share health data, and invite family and other caregivers to access care information. Patient IO also has a care management-facing side that helps caregivers stay in the loop between patient visits by allowing them to guide dosage and schedule complex medication therapies for patients. In 2016, Patient IO was acquired by athenahealth for an undisclosed amount. Following this deal, Patient IO's patient self-management solution has become the foundation for athenahealth's mobile patient-facing app, athenaWell.^{xviii}

AARP CareGiving: AARP recently released an app called AARP Caregiving. It's available for free from the Apple iTunes App Store and can be used to help manage medications, keep up a list of contacts (doctors, insurance, friends, and others), store insurance card and photo ID images, and more. Users can even share access to the app

with friends and family who are on their caregiving team and make sure everyone is in the know when it comes to tasks, appointments, and medications.

This Offering is made pursuant to the Form C, dated February 20, 2018 (the "Form C"). The undersigned further understands that the Offering is being made pursuant to Section 4(a)(6) of the Securities Act and Regulation CF under the JOBS Act of 2012 and without registration of the Securities under the Securities Act of 1933, as amended (the "Securities Act").

1. Subscription. Subject to the terms and conditions hereof and the provisions of the Form C, the undersigned hereby irrevocably subscribes for the Securities set forth on the signature page hereto for the aggregate purchase price set forth on the signature page hereto, which is payable as described in Section 4 hereof. The undersigned acknowledges that the Securities will be subject to restrictions on transfer as set forth in this subscription agreement (the "Subscription Agreement").

2. Acceptance of Subscription and Issuance of Securities. It is understood and agreed that the Company shall have the sole right, at its complete discretion, to accept or reject this subscription, in whole or in part, for any reason and that the same shall be deemed to be accepted by the Company only when it is signed by a duly authorized officer of the Company and delivered to the undersigned at the Closing referred to in Section 3 hereof. Subscriptions need not be accepted in the order received, and the Securities may be allocated among subscribers.

3. The Closing. The closing of the purchase and sale of the Securities (the "Closing") shall take place at 11:59 p.m. pacific standard time on April 23, 2018, or at such other time and place as the Company may designate by notice to the undersigned.

4. Payment for Securities. Payment for the Securities shall be received by Boston Private Bank and Trust Co. (the "Escrow Agent") from the undersigned of immediately available funds or other means approved by the Company at least two days prior to the Closing, in the amount as set forth on the signature page hereto. Upon the Closing, the Escrow Agent shall release such funds to the Company. The undersigned shall receive notice and evidence of the entry of the number of the Securities owned by undersigned reflected on the books and records of the Company, which shall bear a notation that the Securities were sold in reliance upon an exemption from registration under the Securities Act.

5. Representations and Warranties of the Company. As of the Closing, the Company represents and warrants that:

- a) The Company is duly formed and validly existing under the laws of Delaware, with full power and authority to conduct its business as it is currently being conducted and to own its assets; and has secured any other authorizations, approvals, permits and orders required by law for the conduct by the Company of its business as it is currently being conducted.

- b) The Securities have been duly authorized and, when issued, delivered and paid for in the manner set forth in this Subscription Agreement, will be validly issued, fully paid and nonassessable, and will conform in all material respects to the description thereof set forth in the Form C.
- c) The execution and delivery by the Company of this Subscription Agreement and the consummation of the transactions contemplated hereby (including the issuance, sale and delivery of the Securities) are within the Company's powers and have been duly authorized by all necessary corporate action on the part of the Company. Upon full execution hereof, this Subscription Agreement shall constitute a valid and binding agreement of the Company, enforceable against the Company in accordance with its terms, except (i) as limited by applicable bankruptcy, insolvency, reorganization, moratorium, and other laws of general application affecting enforcement of creditors' rights generally, (ii) as limited by laws relating to the availability of specific performance, injunctive relief, or other equitable remedies and (iii) with respect to provisions relating to indemnification and contribution, as limited by considerations of public policy and by federal or securities, "blue sky" or other similar laws of such jurisdiction (collectively referred to as the "State Securities Laws").
- d) Assuming the accuracy of the undersigned's representations and warranties set forth in Section 6 hereof, no order, license, consent, authorization or approval of, or exemption by, or action by or in respect of, or notice to, or filing or registration with, any governmental body, agency or official is required by or with respect to the Company in connection with the execution, delivery and performance by the Company of this Subscription Agreement except (i) for such filings as may be required under Regulation CF promulgated under the Securities Act, or under any applicable State Securities Laws, (ii) for such other filings and approvals as have been made or obtained, or (iii) where the failure to obtain any such order, license, consent, authorization, approval or exemption or give any such notice or make any filing or registration would not have a material adverse effect on the ability of the Company to perform its obligations hereunder.

6. Representations and Warranties of the Undersigned. The undersigned hereby represents and warrants to and covenants with the Company that:

a) General.

- i. The undersigned has all requisite authority (and in the case of an individual, the capacity) to purchase the Securities, enter into this Subscription Agreement and to perform all the obligations required to be performed by the undersigned hereunder, and such purchase will not contravene any law, rule or regulation binding on the undersigned or any investment guideline or restriction applicable to the undersigned.

- iv. Including the amount set forth on the signature page hereto, in the past twelve (12) month period, the undersigned has not exceeded the investment limit as set forth in Rule 100(a)(2) of Regulation CF.

b) Information Concerning the Company.

- i. The undersigned has received a copy of the Form C. With respect to information provided by the Company, the undersigned has relied solely on the information contained in the Form C to make the decision to purchase the Securities.
- ii. The undersigned understands and accepts that the purchase of the Securities involves various risks, including the risks outlined in the Form C and in this Subscription Agreement. The undersigned represents that it is able to bear any and all loss associated with an investment in the Securities.

iii. The undersigned confirms that it is not relying and will not rely on any communication (written or oral) of the Company, First Democracy VC, or any of their respective affiliates, as investment advice or as a recommendation to purchase the Securities. It is understood that information and explanations related to the terms and conditions of the Securities provided in the Form C or otherwise by the Company, First Democracy VC or any of their respective affiliates shall not be considered investment advice or a recommendation to purchase the Securities, and that neither the Company, First Democracy VC nor any of their respective affiliates is acting or has acted as an advisor to the undersigned in deciding to invest in the Securities. The undersigned acknowledges that neither the Company, First Democracy VC nor any of their respective affiliates have made any representation regarding the proper characterization of the Securities for purposes of determining the undersigned's authority or suitability to invest in the Securities.

iv. The undersigned is familiar with the business and financial condition and operations of the Company, all as generally described in the Form C. The undersigned has had access to such information concerning the Company and the Securities as it deems necessary to enable it to make an informed investment decision concerning the purchase of the Securities.

v. The undersigned understands that, unless the undersigned notifies the Company in writing to the contrary at or before the Closing, each of the undersigned's representations and warranties contained in this Subscription Agreement will be deemed to have been reaffirmed and confirmed as of the Closing, taking into account all information received by the undersigned.

vi. The undersigned acknowledges that the Company has the right in its sole and absolute discretion to abandon this Offering at any time prior to the completion of the Offering. This Subscription Agreement shall thereafter have no force or effect and the Company shall return any previously paid subscription price of the Securities, without interest thereon, to the undersigned.

vii. The undersigned understands that no federal or state agency has passed upon the merits or risks of an investment in the Securities or made any finding or determination concerning the fairness or advisability of this investment.

c) No Guaranty.

The undersigned confirms that the Company has not (A) given any guarantee or representation as to the potential success, return, effect or benefit (either legal, regulatory, tax, financial, accounting or otherwise) of an investment in the Securities or (B) made any representation to the undersigned regarding the legality of an investment in the Securities under applicable legal investment or similar laws or regulations. In deciding to purchase the Securities, the undersigned is not relying on the advice or recommendations of the Company and the undersigned has made its own independent decision that the investment in the Securities is suitable and appropriate for the undersigned.

d) Status of Undersigned.

The undersigned has such knowledge, skill and experience in business, financial and investment matters that the undersigned is capable of evaluating the merits and risks of an investment in the Securities. With the assistance of the undersigned's own professional advisors, to the extent that the undersigned has deemed appropriate, the undersigned has made its own legal, tax, accounting and financial evaluation of the merits and risks of an investment in the Securities and the consequences of this Subscription Agreement. The undersigned has considered the suitability of the Securities as an investment in light of its own circumstances and financial condition and the undersigned is able to bear the risks associated with an investment in the Securities and its authority to invest in the Securities.

e) Restrictions on Transfer or Sale of Securities.

i. The undersigned is acquiring the Securities solely for the undersigned's own beneficial account, for investment purposes, and not with a view to, or for resale in connection with, any distribution of the Securities. The undersigned understands that the Securities have not been registered under the Securities Act or any State Securities Laws by reason of specific exemptions under the provisions thereof which depend in part upon the investment intent of the undersigned and of the other representations made by the undersigned in this Subscription Agreement. The undersigned understands that the Company is relying upon the representations and agreements contained in this Subscription Agreement (and any supplemental

information) for the purpose of determining whether this transaction meets the requirements for such exemptions.

ii. The undersigned understands that the Securities are restricted from transfer for a period of time under applicable federal securities laws and that the Securities Act and the rules of the U.S. Securities and Exchange Commission (the "Commission") provide in substance that the undersigned may dispose of the Securities only pursuant to an effective registration statement under the Securities Act, an exemption therefrom or as further described in Rule 501 of Regulation CF, after which certain state restrictions may apply. The undersigned understands that the Company has no obligation or intention to register any of the Securities, or to take action so as to permit sales pursuant to the Securities Act. Even when the Securities become freely transferrable, a secondary market in the Securities may not develop. Consequently, the undersigned understands that the undersigned must bear the economic risks of the investment in the Securities for an indefinite period of time.

iii. The undersigned agrees: (A) that the undersigned will not sell, assign, pledge, give, transfer or otherwise dispose of the Securities or any interest therein, or make any offer or attempt to do any of the foregoing, except pursuant to Rule 501 of Regulation CF.

12. Waiver of Jury Trial. THE UNDERSIGNED IRREVOCABLY WAIVES ANY AND ALL RIGHT TO TRIAL BY JURY WITH RESPECT TO ANY LEGAL PROCEEDING ARISING OUT OF THE TRANSACTIONS CONTEMPLATED BY THIS SUBSCRIPTION AGREEMENT.

13. Submission to Jurisdiction. With respect to any suit, action or proceeding relating to any offers, purchases or sales of the Securities by the undersigned ("Proceedings"), the undersigned irrevocably submits to the jurisdiction of the federal or state courts located in California, which submission shall be exclusive unless none of such courts has lawful jurisdiction over such Proceedings.

14. Governing Law. This Subscription Agreement shall be governed by and construed in accordance with the laws of the State of California, without regard to conflict of law principles thereof.

Video Transcript

Michael Jordan, CEO – MyWays (CircleOf): Every day, 40,000,000 people in America act as the primary caregiver for a family member in need. When that day comes for you, the responsibilities of caring for loved ones can grow to the equivalent of working a second full-time job. Anxiety, stress, depression, and other serious diseases affect caregivers at a higher than average rate.

For the luckiest of us, there are overwhelming outpourings of support; neighbors, co-workers, and even strangers help to share the responsibility. But not everyone has the organizational skills and tools to help activate this compassionate network. Effective communication and coordination with family, friends, coworkers, and loved ones is critical in a time of need. This is why we created CircleOf.

CircleOf is a care collaboration platform that supports caregivers and those they care for by quickly and seamlessly creating communities of care. CircleOf was born out of Cisco's Hyper Innovation Living Labs, a rigorous process of rapid prototyping with real end-users to ensure that we've built a product and service that meets the needs of caregivers and those they care for. CircleOf makes it easy to ask for help – matching the needs of the one in need with offers of help from the entire care team.

Communications are divided into separate areas for more public messages with coworkers and friends, as well as more private and secure rooms to stay in touch with your inner circle. CircleOf for employers helps to connect employees with company benefits, resource groups, and programs and perks to help them get better. CircleOf is a powerful partner in creating a culture of care within your company – to attract and retain the best talent while helping to keep your workforce happy and healthy.

Hi, my name is Mike Jordan and I am the founder of CircleOf. We've been working with Cisco and their Hyper Innovation Living Labs for the past year to bring CircleOf to the world. We're excited to raise a round of financing to further refine the product, to extend our reach into other organizations, and to prepare for a direct to consumer product launch in 2018. The team and I are passionate about igniting the capacity to care within each of us. Come join us in bringing CircleOf to the world. Are you in?
