Filed January 22, 2018
File No. 333-221726**

Dear Mr. Firoz:

We have reviewed your amended registration statement and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter by amending your registration statement and providing the requested information. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your registration statement and the information you provide in response to these comments, we may have additional comments. Unless we note otherwise, our references to prior comments are to comments in our December 19, 2017 letter.

General

1. We note your response to our prior comment 1 and your revised disclosure where you state that you provide “technology related solutions to customers (B2B), which include connectivity to aggregated cryptocurrency data price feed from various crypto exchanges to brokers with MT4 and other forex FIX API platforms, building payment gateway for customers, which can be connected to their back office via dedicated, and other software development capabilities to build an independent crypto exchange.” It remains unclear to us what your cryptocurrency-related solutions are.
 - a. Please revise your disclosure to discuss your cryptocurrency-related solutions and business operations using plain English and without relying on technical business terminology or jargon. Refer to Rule 421(b) of Regulation C. For additional

guidance, please also refer to Updated Staff Legal Bulletin No. 7 (June 7, 1999), sample comment 14.

- b. Please provide us with a detailed explanation of your cryptocurrency-related solutions. Further, discuss the challenges related to this business, including any regulatory and/or custodial risks. In this regard, we note that the information in your prospectus and on your website indicates that your solutions may include facilities for bringing together purchasers and sellers of forex securities and cryptocurrencies. Your analysis should include whether any of your solutions implicate national securities exchange or broker-dealer registration under Section 6 or Section 15 of the Securities Exchange Act of 1934, respectively.
