Netcapital, Portal and Livingston do not make investment recommendations and no communication, through this website or in any other medium, should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

Principal Security Holders

5. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power. To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control — as, for example, a co-trustee) they should be included as being “beneficially owned.” You should include an explanation of these circumstances in a footnote to the “Number of and Class of Securities Now Held.” To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

Business and Anticipated Business Plan

6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

Summary - Subba-Cultcha.com is a fan generated reviews and ticket sales platform covering all “ticketed” events; from gigs and festivals to songs and albums, specifically aimed at 18-30 year olds. Overview - Subba-Cultcha.com enables users to post their views on all types of music based experiences and events. Users currently review music festivals, gigs and music of all genres. New investment is now required to develop the technology of the platform and enable further growth. Subba-Cultcha.com is wholly scalable, with a potentially global audience; users currently review experiences in Europe and the US. The goal for Subba-Cultcha.com is to become the primary global fan generated reviews platform for live and recorded music, providing a similar user experience to Tripadvisor, with the potential to expand to allow users to review a wide range of further ticket based experiences. We plan to create a user experience based around five core elements: Reviews Platform Read/post reviews on all ticketed experiences. Experience Discovery Introduce new experiences and events to users based on behavioral data. Grow The Community Connect with other fans and follow their reviews and activity. Ticket Sales Provide highly relevant customers (fans) to artists/venues/festivals based on behavioural data to increase revenue. B2B Data Provide artists, labels, venues and festivals with data/analytics from ticket sales/reviews via a fan dashboard. Subba-Cultcha.com plans to also monetize access to its audience through advertising and sponsorships. As traditional publishers suffer from a decline in relevance many brands are looking for new and innovative ways of reaching consumers. User generated content platforms provide much higher levels of engagement as they enable users to become ambassadors of their own content. User generated content platforms have also grown exponentially in recent years as users become active participants. A Constant Stream of Content Subba-Cultcha.com has extremely low operating costs as a constant stream of free content is created by users. User feedback highlights the value they place on being able to review the experiences they love. Scalability is key and as the user-base and their dwell time grows, we plan to use technology and data to enhance the user experience while developing multiple revenue streams. -Advertising -Ticketing -Data -Events Scalability Is Key We Plan to use a two-stage process for growing the user base through the first 12 months, using digital channels to amplify the brand + acquire new users: -Launch -Grow Along with this paid activity, we plan to launch content partnerships with major brands, festivals, music events and other publishers to grow the audience further. Revenue Sources Our plan post investment is as follows: Y1 H1 US/Europe: -Advertising -Sponsorships -Ticketing Y1 H2 US/Europe: -Advertising -Sponsorships -Ticketing -B2B Fan CRM tool Y2 US/Europe/Asia/South America: -Advertising -Sponsorships -Ticketing -B2B Fan CRM tool -Events -Merchandise Sales Y3 Global -Advertising -Sponsorships -Ticketing -B2B Fan CRM tool -Events -Merchandise Sales -Parallel Markets (film, theater, sports...) Market Information On a global level, entertainment revenues are expected to rise 5.1% year on year over the course of the next 2 years with a big shift as consumers look for “inspiring, personalised experiences.” (Global Entertainment and Media Outlook 2015-2019, PwC June 2015). For PwC’s full report: <https://www.youtube.com/watch?v=S3cXB6puaeE> With access to events more widely available than ever before fans now want to share their thoughts on the experiences they love. Subba-Cultcha.com uses a true value exchange system (gamification) to reward users for their reviews, incentivizing them to create more content.

Risk Factors

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

7. Material factors that make an investment in Subba Media Inc speculative or risky:

1. Our future business and results of operations depend in significant part upon the continued contributions of our CEO and founder. If we lose those services or if he fails to perform in his current position, or if we are not able to attract and retain skilled employees in addition to our CEO and the current team, this could adversely affect the development of our business plan and harm our business. In addition, our ability to implement adequate internal controls depends, in part, on our ability to attract trained professional staff that allows us to segregate duties among several individuals.
2. We may become subject to any number of laws and regulations that may be adopted with respect to the Internet and electronic commerce. New laws and regulations that address issues such as user privacy, online content regulation, taxation, advertising, intellectual property, information security, and the characteristics and quality of online products and services may be enacted. As well, current laws, which predate or are incompatible with the Internet and electronic commerce, may be applied and enforced in a manner that restricts the electronic commerce market. The application of such pre-existing laws regulating communications or commerce in the context of the Internet and electronic commerce is uncertain. The adoption of new laws or regulations relating to the Internet, or particular applications or interpretations of existing laws, could increase our cost of doing business or could otherwise have a material adverse affect on our business, revenues, operating results and financial condition.
3. Our success depends, in part, on our ability to grow and take advantage of efficiencies of scale. We believe our software will expand and allow tens of thousands of additional users to write reviews and buy tickets via our platform. However, we may need additional servers, bandwidth and other fixed expenses to support an increased customer base and we cannot be certain that our projections of our hardware and software needs are accurate if the user base rapidly increases. To accomplish our growth strategy, we may be required to raise and invest additional capital and resources and expand our marketing efforts in several geographic markets. We cannot be assured that we will be successful in raising the required capital. Our future growth depends to a large extent on our ability to effectively anticipate and adapt to customer requirements and offer services that meet customer demands. If we are unable to attract new customers and/or retain new customers, our business, results of operations and financial condition may be adversely affected.
4. We continue to seek technical and managerial staff members, although we cannot compensate them until we have raised additional capital or purchased a business that generates cash flow from operations. We believe it is important to negotiate with potential candidates and, if appropriate, engage them on a part-time basis or on a project basis and compensate them at least partially. There is a high demand for highly trained and managerial staff members. If we are not able to fill these positions, it may have an adverse affect on our business.
5. We reserve the right to make future offers and sales, either public or private, of our securities, including shares of our common stock or securities convertible into common stock at prices differing from the price of the common stock previously issued. In the event that any such future sales of securities are affected or we use our common stock to pay principal or interest on our debt obligations, an investor's pro rata ownership interest may be reduced to the extent of any such future sales.
6. The business of mobile applications is competitive, and we expect it to become increasingly competitive in the future. We may also face competition from large ticketing companies, any of

- which will launch their own fan reviews offerings in the future.
7. There is a risk that after we launch our product, we experience system failures. Any such failure, even ones that are minor and short-lived, may tarnish our reputation with artists and slow our ability to sign-up new performers.
 8. Any valuation at this stage is difficult to assess. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment.
 9. The Company does not anticipate paying any cash dividends for the foreseeable future. The Company intends to retain future earnings, if any, to support its business.
 10. Our management may not be able to control costs in an effective or timely manner. The Company's management expects to use reasonable efforts to assess, predict and control costs and expenses. However, implementing our business plan may require more employees, capital equipment, supplies or other expenditure items than management has predicted. Likewise, the cost of compensating employees and consultants or other operating costs may be higher than management's estimates, which could lead to sustained losses.
 11. Start-up investing is risky. Investing in startups is very risky, highly speculative, and should not be made by anyone who cannot afford to lose their entire investment. Unlike an investment in a mature business where there is a track record of revenue and income, the success of a startup or early-stage venture often relies on the development of a new product or service that may or may not find a market. Before investing, you should carefully consider the specific risks and disclosures related to both this offering type and the company.
 12. Your shares are not easily transferable. You should not plan on being able to readily transfer and/or resell your security. Currently there is no market or liquidity for these shares and the company does not have any plans to list these shares on an exchange or other secondary market. At some point the company may choose to do so, but until then you should plan to hold your investment for a significant period of time.
 13. Third parties might infringe upon our technology. We cannot assure you that the steps we have taken to protect our property rights will prevent misappropriation of our technology. To protect our rights to our intellectual property, we plan to rely on a combination of trade secrets, confidentiality agreements and other contractual arrangements with our employees, affiliates, strategic partners and others. We may be unable to detect inappropriate use of our technology. Failure to adequately protect our intellectual property could materially harm our brand, devalue our proprietary content and affect our ability to compete effectively. Further, defending any technology rights could result in significant financial expenses and managerial resources.
 14. Any forecasts we make about our operations may prove to be inaccurate. We must, among other things, determine appropriate risks, rewards, and level of investment in our product lines, respond to economic and market variables outside of our control, respond to competitive developments and continue to attract, retain, and motivate qualified employees. There can be no assurance that we will be successful in meeting these challenges and addressing such risks and the failure to do so could have a materially adverse effect on our business, results of operations, and financial condition. Our prospects must be considered in light of the risks, expenses, and difficulties frequently encountered by companies in the early stage of development. As a result of these risks, challenges, and uncertainties, the value of your investment could be significantly reduced or completely lost.
 15. We operate in an emerging market that is characterized by rapid changes in customer requirements, frequent introductions of new and enhanced products, and continuing and rapid technological advancement.

The Offering

Subba Media Inc ("Company") is offering securities under both Regulation D, through Livingston Securities, LLC ("Livingston") and Regulation CF, through Netcapital Funding Portal Inc. ("Portal"). Livingston is a registered broker-dealer, and member FINRA/SIPC. Livingston will receive cash compensation equal to 4.9% of the value of the securities sold through Regulation D. Portal is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.9% of the value of the

securities sold through Regulation CF. Investments made under both Regulation D and Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

This offering is considered a side-by-side offering, meaning that the Company is raising capital under two offering types. The Company plans to raise between \$10,000 and \$1,070,000 through concurrent offerings under Regulation CF and Regulation D – Rule 506(c). Specifically, if we reach the target offering amount of \$10,000, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

In the event The Company fails to reach the combined offering target of \$10,000, any investments made under either offering will be cancelled and the investment funds will be returned to the investor.

The Company may raise up to \$0 from non-accredited investors under Regulation CF.

Accredited investors who have proved their accreditation status to Portal, will automatically invest under the Regulation D - Rule 506(c) offering type. All other investors will invest under the Regulation CF offering type. An accredited investor who proves their accreditation status with the Portal prior to 48 hours of the offering closing, can authorize their investment to be withdrawn from the Regulation CF offering and automatically reinvested in the Regulation D offering. You must be an accredited investor to invest under Regulation D.

8. What is the purpose of this offering?

The purpose of this offering is to raise money to help us build a successful ticketing system that allows artists to interact with fans. The music eco-system is evolving, and we believe we have a powerful web-based solution that helps artists, festivals and record labels to generate live revenues as they interact with their fans. Subba Media is offering up to 10,700 shares of common stock in order to raise \$1,070,000 for the following purposes: Recruitment, technology development, marketing and overhead costs. Overhead costs include compensation for officers, directors and promoters. See the chart below for more details of how we plan to spend the capital that we raise.

9. How does the issuer intend to use the proceeds of this offering?

	If Target Offering Amount Sold	If Maximum Amount Sold
Total Proceeds	\$10,000	\$1,070,000
Less: Offering Expenses	\$490	\$52,430
Net Proceeds	\$9,510	\$1,017,570
Compensation for Directors, Officers, and Promoters	\$1,000	\$204,500
Working Capital	\$1,000	\$298,070
Equipment / Machinery	\$0	\$5,000
Real Estate	\$0	\$40,000
Subsidiary Obligations	\$0	\$60,000
Technology Development	\$6,510	\$160,000
Marketing	\$1,000	\$250,000
Total Use of Net Proceeds	\$9,510	\$1,017,570

10. How will the issuer complete the transaction and deliver securities to the investors?

In entering into an agreement on the Netcapital Funding Portal to purchase securities, both investors and Subba Media Inc must agree that a transfer agent, which keeps the records of all of our outstanding Common Stock, will issue digital securities in the investor's name (a paper stock certificate will not be printed). Similar to other online investment accounts, the transfer agent will give investors access to a web site to see the number of shares that they own in our company. These securities will be issued to investors after the deadline date for investing has passed, as long as the targeted offering amount has been reached. The transfer agent will record the issuance when we have received the purchase proceeds from the escrow agent who is holding your investment commitment.

11. How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering by logging in to your account with Netcapital, browsing to the Investments screen, and clicking to cancel your investment commitment. Netcapital will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

12. Can the Company perform multiple closings or rolling closings for the offering?

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional closings

until the offering deadline. We will issue shares in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

Ownership and Capital Structure

The Offering

13. Describe the terms of the securities being offered.

We are issuing Common Stock at an offering price of \$100.00 per share.

14. Do the securities offered have voting rights?

The Common Stock are being issued with voting rights. However, so that the crowdfunding community has the opportunity to act together and cast a vote as a group when a voting matter comes before the shareholders, a custodian will cast your vote for you. Please refer to the custodian agreement that you sign before your purchase is complete.

15. Are there any limitations on any voting or other rights identified above?

You are giving your voting rights to the custodian, who will vote the shares on behalf of all shareholders who purchased shares on the Netcapital crowdfunding portal.

16. How may the terms of the securities being offered be modified?

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be canceled and your money will be returned to you.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or
- to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer’s Securities

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Securities

Class of Security	Amount Authorized	Amount Outstanding	Voting Rights	Other Rights
Common Stock	40,000	26,000	Yes	

Options, Warrants and Other Rights

None.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?

The issuance of additional shares of our common stock will dilute the ownership of the crowdfunding investors. As a result, if we achieve profitable operations in the future, our net income per share will be reduced because of dilution, and the market price of our common stock, if there is a market price, could decline as a result of the additional issuances of securities.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 5 above affect the purchasers of the securities being offered?

The holder of the majority of the shares in the company has the ability to amend the terms of the company's organizing documents and control the Board of Directors. Outside of the investors in this offering, the only other holder controls a majority of the company.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

Based upon an assessment of our core market; total size and expected growth, comparable companies and their revenue structures and the target customer's average spend on goods, we believe our valuation is almost \$4 million.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

The crowdfunding securities being offered are shares of common stock. The common shares offered for sale are exactly the same as the shares of common stock that are currently outstanding and owned by the founder of the company. If this offering is successful, as a group, the people purchasing the securities that are offered for sale will be minority owners. As minority owners, the crowd funding investors are subject to the decisions made by the majority shareholder. The issued and outstanding shares of common stock give management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as the issuance of new shares of stock or the sale of debt, convertible debt or assets of the company.

23. What are the risks to purchasers associated with corporate actions including:

- additional issuances of securities,
- issuer repurchases of securities,
- a sale of the issuer or of assets of the issuer or
- transactions with related parties?

The issuance of additional shares of our common stock will dilute the ownership of the crowdfunding investors. As a result, if we achieve profitable operations in the future, our net income per share will be reduced because of dilution, and the market price of our common stock, if there is a market price, could decline as a result of the additional issuances of securities. If we repurchase securities, so that the above risk is mitigated, and there are fewer shares of common stock outstanding, we may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our common stock would decline. A sale of our company or of the assets of our company may result in an entire loss of your investment. We cannot predict the market value of our company or our assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. It is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors. We may need to raise additional funds through related-party loans. Such financing may not be available when needed. Even if such financing is available, it may be on terms that are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. There can be no assurance that we will be able to obtain financing if and when it is needed on terms we deem acceptable.

24. Describe the material terms of any indebtedness of the issuer:

Not applicable.

25. What other exempt offerings has Subba Media Inc conducted within the past three years?

None.

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

1. any director or officer of the issuer;
2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer; or
4. any immediate family member of any of the foregoing persons.

No.

Financial Condition of the Issuer

27. Does the issuer have an operating history?

No.

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

The company recently incorporated and acquired ownership of 100% of a British company. The acquired company has incurred operating expenses of approximately \$25,000 a year for the past two years (See unaudited data provided for this entity.) However, given the functionality of the existing website at <http://www.subba-cultcha.com/> and through the efforts of our founder and several promoters, we believe that if we have \$1 million in capital, we can enhance the website and develop mobile applications that will allow us to: Our opening balance sheet contains equity of \$6,500. For

Subba Media Inc. to be successful, we plan to use the website and know-how developed in Britain, and spread it to the US and the world. If we successfully raise approximately \$1,000,000, we believe we can generate approximately \$650,000 in revenues in 2018 and \$6.8 million in 2019. Please refer to the investor deck that we have prepared. At this point in time there are no known or pending sources of capital to supplement our crowdfunding effort. The plan of operation is dependent on how much capital is raised by Subba Media. The information contained herein includes forward-looking statements. These statements relate to future events or to our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. You should not place undue reliance on forward-looking statements since they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond our control and which could, and likely will, materially affect actual results, levels of activity, performance or achievements.
