We strongly encourage you to consult with qualified business financial analysis professionals, attorneys, or tax advisors prior to making any investment decisions.

Valuation of Our Common Stock

We have not undertaken any efforts to produce a valuation of the Company. Purchasers should be aware that the offering price for the Securities has been determined arbitrarily by the Company and the offering price just merely reflects the opinion of the Company as to what would be fair market value, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria.

In determining the offering price, the Company did not employ investment banking firms or other third-party organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the Securities. The Company makes no representation that the Securities could be resold at this price.

The Issuer is offering Common Stock Units at \$4.00 (four dollars) per share. We believe that the price is fair after adjustments based on additional capital needs of the company in the future and the fact that there is no secondary market and hence no liquidity.

Our board of directors may use the following approaches to determine the value of our common stock in the future:

- Valuations by independent third parties
- Discounted cash flow valuation based on future earnings
- Market valuations of companies comparable to us
- Valuations based on our business assets, including book value and liquidation value

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

- Purchasers (Purchasers) of the securities in this offering have limited rights to demand distributions (e.g. dividends) from the Issuer.
- The majority owner may make a decision that the Purchasers consider bad and puts Purchaser's interest in the Issuer at risk.
- Although, as common stock shareholders, the Purchasers would be entitled to a share of any proceeds from a sale of the entire business, the Purchasers may not veto the sale even though the price of sale is below its fair valuation. Moreover, a sale can be structured in a way to avoid any payout to minority owners, such as a sale of assets over time with the proceeds reinvested in another business.
- Since the securities in this offering are not publicly traded and are subject to restrictions on resale or transfer including holding period requirements, the securities in this offering are illiquid.
- Although the Purchasers of the securities offered are entitled voting rights, as minority shareholders, they may not have enough voting power to exert influence in the affairs of the company or the composition of its board of directors.
- The Purchasers of the securities offered are entitled no anti-dilution rights (other than proportionate adjustments for stock splits and similar events) and therefore future equity financings may dilute their ownership percentage in the issuer.

23. What are the risks to purchasers associated with corporate actions:

15 – 2 hour Training Sessions

Success By Coaching reaches people at the heart of their fears in talking to people and building a business. They learn more about themselves, more about what to say and how to say what they really want and how to close the deal.

Revenue Model: Revenue is generated through coaching contracts and events. Fees range from \$200 to \$2,000, with the raw costs of approximately 25% of the fee.

Advantage: Mr. Noland has a reputation of being able to relate to everyone, from those on welfare to billionaires. His ability to see inside a person's fears and coach them to success has made him a household name in the industry.

Risk: If something happens to Mr. Noland, the team is left to his materials, his vision, and his processes to continue.

REVENUE STREAM TWO: SUCCESS BY HEALTH

Success By Health provides residual income affiliate model to entrepreneurs who value healthy coffees and other nutritionals in their day to day life and want to share that healthy lifestyle with others and be compensated for sharing.

Revenue is generated through healthy products with costs of 20% of Retail, with marketing and distribution costs of approximately 45% of Retail.

Advantage: Mr. Noland is using the same products as well as new ones that he produced for another business. These products have endured the test of time of almost a decade with those who use them eager to share the health benefits with others.

Risk: Distributors are fickle people. Even though they love this product, the newest health craze may send them on to anticipated greener pastures.

REVENUE STREAM THREE: SUCCESS BY NETWORKING

Success By Networking shows entrepreneurs a step by step process to build teams of like minded individuals who recognize the power of residual income and building a business that they can benefit from in perpetuity.

Revenue is generated through training events and webinars, with marketing and event costs of approximately 50% of Revenue.

Advantage: Mr. Noland has already been hired by top companies in the industry to build their marketing arms. His ability to increase companies three and five fold is legendary. Large direct marketing companies send their distributors to learn how to duplicate their personal business and get the proven methods for closing new clients.

Risk: Companies are nervous that some of their distributors may see Success By Health's products and compensation model and stop marketing their products and start marketing Success By Health. This risk was a heavy consideration in launching Success By Health, in the end it was determined by management that the health company would not be mentioned during any trainings or online as it relates to Success By Networking and that the Companies client base would not be sent any information regarding Success By Health.

REVENUE STREAM FOUR: SUCCESS BY VT

Success By VT gives their clients daily reminders and strategies to face the challenges they impose on themselves and they face trying to build a business.

Revenue is generated by subscriptions to the VT program. From “Your First Five” program at \$399 a year, to “Million Dollar Energy” & “Perpetual MLM Money Machine” to \$695 a year, and “Strong XP” at \$1,000 a year. Packages are also available. These digital training and materials have production costs of 20% of Retail, with marketing and distribution costs of approximately 25% of Retail. Once produced, and fixed costs are covered there are no further direct costs regarding those specific products.

Advantage: Mr. Noland is taking the training he uses at large events and condensing the training to unique virtual training models and presentations.

Risk: With all the other training companies out there and all the audio, webinar and virtual schools available it is important to create branding that drives people. We believe this can be done through all the other divisions of the company, as well as this division supporting the others.

Appendix B - RISK FACTORS

RISKS RELATING TO OUR BUSINESS

We are operating in a very competitive industry

The business is in a competitive industry with companies with much more financial and physical resources.

We rely on continuing efforts of Jay Noland, the CEO and Founder of Success By Media LLC

The business relies mainly on the efforts of Jay Noland to produce products, training and systems, as well as oversee the operations of the company. If something happened to him the business may not be able to continue.

We have a limited operating history

We have a limited operating history upon which you can evaluate our performance. Our business plan is still in development and we likely do not recognize all of the challenges that may emerge and affect our proposed business. Accordingly, potential investors must consider the risks, expenses, delays, problems, and difficulties we may face as an early-stage company with little operating history in a new and rapidly evolving market. These risks include:

- a. technical uncertainties respecting the internet;
- b. uncertainties about the anticipated markets for business and consumer clients;
- c. our dependence on identifying clients based on our model and fees;
- d. our inability to obtain and integrate technical and managerial resources;
- e. our inability to develop and maintain strategic relationships; and
- f. our dependence upon key personnel in addition to Jay Noland.

We may not be able to maintain and increase the sales and profitability of products and services

We cannot guarantee that we will be able to maintain our sales and achieve our targeted sales growth and profitability for our product and services, which include the offering of media and sales consulting to corporations, life coaching to individuals for personal and business development, and software and online courses.

Our historical financial and operating results are not indicative of future performance.

Our revenue, operating expenses and results of operations may vary from period to period and from year to year in response to a variety of factors beyond our control, including general business and economic conditions, employment rates, inflation and interest rates, and consumer discretionary income. Therefore our historical results may not be indicative of our future performance.

We may not be able to adequately protect our intellectual property, which could harm the value of our brands and adversely affect our business and operation.

We may face claims of infringement that could interfere with the use of our proprietary know-how, concepts, technologies, or trade secrets. Defending against such claims may be costly and, if we are unsuccessful, we may be prohibited from continuing to use such proprietary information in the future or be forced to pay damages, royalties or other fees for using such proprietary information, any of which could negatively affect our sales, profitability and prospects.

Our success depends on the continuing efforts of our senior management team and other key personnel and our business may be harmed if we lose their services.

Our success depends upon the continuing services of our management team, including our CEO and Founder Jay Noland. In addition, we must continue to attract, retain and motivate a sufficient number of qualified personnel.

We may need additional capital, and our ability to obtain additional capital is subject to uncertainties.

We believe that our current cash and cash equivalents, anticipated cash flow from operations and the proceeds from this offering will be sufficient to meet our anticipated cash needs, including our cash needs for working capital and capital expenditures, for at least the next 12 months. We may, however, require additional cash resources to finance our continued growth or other future developments, including any investments we may decide to pursue. The amount and timing of such additional financing needs will vary depending on investments in new facilities, decorations and the amount of cash flow from our operations. If our resources are insufficient to satisfy our cash requirements, we may seek additional financing by selling additional equity or debt securities or obtaining a credit facility.

RISKS RELATED TO THE OFFERING

Offering price of the Securities is not an accurate reflection of their value

We cannot assure that the offering price of the Common Stock of Success By Media LLC (the “Securities”) will be an accurate reflection of their value. The offering price of the Securities is arbitrarily determined by us taking into account our prospects, all as assessed by our management. The offering price should not be regarded as an indication of any future price of the Securities, and bears no relationship to our assets, earnings, net tangible book value, or any other traditional criteria of value.

There has been no representation of investors in the preparation of this offering. We have not obtained an independent opinion on behalf of prospective investors regarding the fairness of the terms on which the Securities are offered hereby. Prospective investors will be relying on the disclosures set forth herein and the additional materials it refers to directly, and on the business and investment background and experience of themselves and any advisors engaged by them, as the basis for their investment decision.

We have the right to, and expect to, issue additional shares or sell stock in isolated transactions

We have the right to, and expect to, issue additional shares or sell stock in isolated transactions. Our board of directors has authority, without action or vote of our shareholders. Any such issuance will dilute the percentage of return to Investors.

Restrictions on transferability of securities

Restrictions on transferability of securities will limit the ability of purchasers to transfer their Securities. Specially, the Securities being offered may not be transferred by any purchaser of such Securities during the one year period beginning when the Securities were issued, unless certain conditions are met, as described in *Restrictions on Transfer of the Securities Being Offered* on

this Form C.

The Securities offered hereby will be “restricted securities” within the meaning of the Securities Act and, consequently, will be subject to the restrictions on transfer set forth in the Securities Act and the rules and regulations promulgated thereunder. In addition, the Securities are subject to restrictions on transfer under applicable state securities laws under which such securities are sold in reliance on certain exemptions or under the provisions of certain qualifications. As restricted securities, the securities may not be sold in the absence of registration or the availability of an exemption from such registration requirements.

We cannot assure that we will pay dividends.

We do not currently anticipate declaring and paying dividends to our shareholders in the near future. It is our current intention to apply net earnings, if any, in the foreseeable future to increasing its capital base and marketing. Prospective investors seeking or needing dividend income or liquidity should therefore not purchase shares of our common stock. We cannot assure that we will ever have sufficient earnings to declare and pay dividends to the holders of our common stock, and in any event, a decision to declare and pay dividends is at the sole discretion of our board of directors.

You can’t easily resell the securities.

There are restrictions on how you can resell your securities. More importantly, there is no market for these securities, and there might never be one. It’s unlikely that the company will ever go public or get acquired by a bigger company. That means the money you paid for these securities could be tied up for a long time.

Our failure to maintain effective internal controls over financial reporting could have an adverse impact on us.

We are required to establish and maintain appropriate internal controls over financial reporting. Failure to establish those controls, or any failure of those controls once established, could adversely impact our public disclosures regarding our business, financial condition or results of operations. In addition, management’s assessment of internal controls over financial reporting may identify weaknesses and conditions that need to be addressed in our internal controls over financial reporting or other matters that may raise concerns for investors. Any actual or perceived weaknesses and conditions that need to be addressed in our internal control over financial reporting, disclosure of management’s assessment of our internal controls over financial reporting or disclosure of our public accounting firm’s attestation to or report on management’s assessment of our internal controls over financial reporting may have an adverse impact on the price of our common stock.

Las Vegas, NV 89107

We have reviewed the accompanying balance sheet of Success By Media, LLC as of June 31, 2017 and the related statements of operations, and cash flows for same period therein. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the reviews in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

The accompanying notes are an integral part of the financial statements.

Sincerely,

Bin Li, CPA
