## **RISK FACTORS**

*Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.*

### **Risks Related to the Company's Business and Industry**

#### ***Our financials were prepared on a "going concern" basis.***

Our financial statements were prepared on a "going concern" basis. Certain matters, as described below and in Note 12 to the accompanying financial statements indicate there may be substantial doubt about the Company's ability to continue as a going concern. The Company has incurred losses from inception of \$6,784,961 which raises substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent upon management's ability to raise additional capital from the issuance of debt or the sale of stock, its ability to commence profitable sales of its flagship product, and its ability to generate positive operational cash flow.

#### ***The Company has a limited operating history upon which you can evaluate its performance, and has not yet generated profits. Accordingly, the Company's prospects must be considered in light of the risks that any new company encounters.***

The Company was initially formed as a Delaware limited liability company on January 30, 2014, under the name "Griffin Innovations LLC" and which filed a certificate of conversion in Delaware on June 19, 2014, under which the Company was converted into Delaware corporation under the name "Gryphon Online Safety, Inc." on June 19, 2014, and it has not yet generated sustained profits. The likelihood of its creating a viable business must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the growth of a business, its operation in a competitive industry, and the continued development of its technology and products. The Company anticipates that its operating expenses will increase for the near future, and there is no assurance that it will be profitable in the near future. You should consider the business, operations, and prospects in light of the risks, expenses, and challenges faced as an emerging growth company.

#### ***The Company depends on one primary product.***

The Company's primary product is a secure WiFi router. Although the Company is developing other products, the Company's survival in the near term depends on its ability to sell its primary product to a sufficient number of customers to make a profit. The Company's current base of customers is still small, and the Company will only succeed if it can attract more customers for its primary product.

#### ***The Company uses Qualcomm components.***

The Company's reliance on a single chipset supplier poses risks of shortages, price increases, changes, delay and other issues that could disrupt and adversely affect its business.

#### ***We may not be successful in obtaining additional issued patents.***

Our success depends significantly on our ability to obtain, maintain and protect our proprietary rights to the technologies used in our services. We have filed multiple non-provisional and provisional patent applications, as detailed under "The Company's Business". Filing a non-provisional or provisional patent application only indicates that we are pursuing protection, but the scope of protection, or whether a patent will even be granted, is still undetermined. We have one issued patent and are minimally protected from our competitors. Moreover, any patents issued to us may be challenged, invalidated, found unenforceable or circumvented in the future. Any intellectual

enforcement efforts the Company seeks to undertake, including litigation, could be time-consuming and expensive and could divert management's attention.

***We rely on various intellectual property rights, including patents and trademarks in order to operate our business.***

Such intellectual property rights, however, may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights.

As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our patent rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. The law relating to the scope and validity of claims in the technology field in which we operate is still evolving and, consequently, intellectual property positions in our industry are generally uncertain. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

***There are existing companies in the Wi-Fi protection space that could introduce similar or enhance existing services.***

Other competitors that have significant funding may be able to cross sell products and services to its customers. If a larger, better funded company markets or creates a comparable service at a lower price point or with better features, the Company could be negatively impacted.

***The Company's projections are based on new revenue and distribution channels.***

Success in each channel is dependent of many factors such as exposure and willingness of the channel to market the product as well as the effectiveness of the marketing message. There is no guarantee these forecasts will come to fruition and the Company may struggle to achieve expected projections.

***Through our operations, we collect and store certain personal information that our customers provide to purchase products or services, enroll in promotional programs, register on our website, or otherwise communicate and interact with us.***

We may share information about such persons with vendors that assist with certain aspects of our business. Security could be compromised and confidential customer or business information misappropriated. Loss of customer or business information could disrupt our operations, damage our reputation, and expose us to claims from customers, financial institutions, payment card associations and other persons, any of which could have an adverse effect on our business, financial condition and results of operations. In addition, compliance with tougher privacy and information security laws and standards may result in significant expense due to increased investment in technology and the development of new operational processes.

***An intentional or unintentional disruption, failure, misappropriation or corruption of our network and information systems could severely affect our business.***

Such an event might be caused by computer hacking, computer viruses, worms and other destructive or disruptive software, "cyber attacks" and other malicious activity, as well as natural disasters, power outages, terrorist attacks and similar events. Such events could have an adverse impact on us and our customers, including degradation of service, service disruption, excessive call volume to call centers and damage to our plant, equipment and data. In addition, our future results could be adversely affected due to the theft, destruction, loss, misappropriation or release of confidential customer data or intellectual property. Operational or business delays may result from the disruption of network or information systems and the subsequent remediation activities. Moreover, these events may create negative publicity resulting in reputation or brand damage with customers.

***Our business could be negatively impacted by cyber security threats, attacks and other disruptions.***

Like others in our industry, we continue to face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

***The Company has not filed a Form D for its offerings of convertible notes in 2016 and 2017.***

The SEC rules require a Form D to be filed by companies within 15 days after the first sale of securities in the offering relying on Regulation D. Failing to register with the SEC or get an exemption may lead to fines, the right of investors to get their investments back, and even criminal charges. There is a risk that a late penalty could apply.

***If we do not respond to technological changes or upgrade our websites and technology systems, our growth prospects and results of operations could be adversely affected.***

To remain competitive, we must continue to enhance and improve the functionality and features of our websites and technology infrastructure. As a result, we will need to continue to improve and expand our hosting and network infrastructure and related software capabilities. These improvements may require greater levels of spending than we have experienced in the past. Without such improvements, our operations might suffer from unanticipated system disruptions, slow application performance or unreliable service levels, any of which could negatively affect our reputation and ability to attract and retain customers and contributors. Furthermore, in order to continue to attract and retain new customers, we are likely to incur expenses in connection with continuously updating and improving our user interface and experience. We may face significant delays in introducing new services, products and enhancements. If competitors introduce new products and services using new technologies or if new industry standards and practices emerge, our existing websites and our proprietary technology and systems may become obsolete or less competitive, and our business may be harmed. In addition, the expansion and improvement of our systems and infrastructure may require us to commit substantial financial, operational and technical resources, with no assurance that our business will improve.

***The COVID-19 pandemic has affected how we are operating our business, and the duration and extent to which this will impact our future results of operations and overall financial performance remains uncertain.***

The COVID-19 pandemic is having widespread, rapidly evolving, and unpredictable impacts on global society, economies, financial markets, and business practices. Federal and state governments have implemented measures to contain the virus, including social distancing, travel restrictions, border closures, limitations on public gatherings, work from home, and closure of non-essential businesses. To protect the health and well-being of our employees, partners and third-party service providers, we have implemented a near company-wide work-from-home requirement for most employees until further notice, made substantial modifications to employee travel policies, and cancelled or

shifted our conferences and other marketing events to virtual-only for the foreseeable future. While we continue to monitor the situation and may adjust our current policies as more information and public health guidance become available, such precautionary measures could negatively affect our customer success efforts, sales and marketing efforts, or create operational or other challenges, such as a reduction in employee productivity because of the work from home requirement, any of which could harm our business and results of operations. Further, if the COVID-19 pandemic has a substantial impact on our employees, partners or third-party service providers' health, attendance or productivity, our results of operations and overall financial performance may be adversely impacted. Additionally, if employees, partners or third-party services providers return to work during the COVID-19 pandemic, the risk of inadvertent transmission of COVID-19 through human contact could still occur and result in litigation.

Beginning in March 2020, the U.S. and global economies have reacted negatively in response to worldwide concerns due to the economic impacts of the COVID-19 pandemic. Although we have not yet experienced a material increase in customers cancellations or a material reduction in our retention rate in 2020, we may experience such an increase or reduction in the future, especially in the event of a prolonged economic down turn as a result of the COVID-19 pandemic. A prolonged economic downturn could result adversely affect demand for our offerings, retention rates and harm our business and results of operations, particularly in light of the fact that our solutions are discretionary purchases and thus may be more susceptible to macroeconomic pressures, as well impact the value of our Securities, ability to refinance our debt, and our access to capital. Additionally, we have faced supply chain and shipping issues as a result of the COVID-19 pandemic that could impact our ability to meet customer demands for our products.

The duration and extent of the impact from the COVID-19 pandemic depends on future developments that cannot be accurately forecasted at this time, such as the severity and transmission rate of the disease, the extent and effectiveness of containment actions and the impact of these and other factors on our employees, customers, partners and third-party service providers. If we are not able to respond to and manage the impact of such events effectively and if the macroeconomic conditions of the general economy or the industries in which we operate do not improve, or deteriorate further, our business, operating results, financial condition and cash flows could be adversely affected.

***We face substantial competition and our inability to compete effectively could adversely affect our sales and results of operations.***

We operate in intensely competitive markets that experience frequent technological developments, changes in industry and regulatory standards, changes in customer requirements, and frequent new product introductions and improvements. If we are unable to anticipate or react to these competitive challenges, or if existing or new competitors gain market share in any of our markets, our competitive position could weaken, and we could experience a decline in our revenues that could adversely affect our business and operating results. To compete successfully, we must maintain an innovative research and development effort to develop new solutions and enhance our existing solutions, effectively adapt to changes in the technology or product rights held by our competitors, appropriately respond to competitive strategies, and effectively adapt to technological changes. If we are unsuccessful in responding to our competitors or to changing technological and customer demands, our competitive position and our financial results could be adversely affected.

Many of our competitors have greater financial, technical, marketing, or other resources than we do and consequently, may have the ability to influence customers to purchase their products instead of ours. Further consolidation within our industry or other changes in the competitive environment could result in larger competitors that compete with us. We also face competition from many smaller companies that specialize in particular segments of the market in which we compete.

***Quality management plays an essential role in determining and meeting customer requirements and improving the Company products and services.***

Our future success depends on our ability to maintain and continuously improve our quality management program. An inability to address a quality or safety issue in an effective and timely manner may also cause negative publicity, a loss of customer confidence in us or our current or future products, which may result in the loss of sales and difficulty in successfully launching new products. In addition, a successful claim brought against us in excess of available insurance or not covered by indemnification agreements, or any claim that results in significant adverse publicity against us, could have an adverse effect on our business and our reputation.

***The Company's success depends on the experience and skill of the founders and key employees.***

In particular, the Company is dependent on John Wu and Arup Bhattacharya. The loss of our founders or any key members of the team could harm the Company's business, financial condition, cash flow and results of operations.

***A majority of the Company is owned by a small number of owners.***

Prior to the Offering, a small group of individuals and entities in excess of 30% of the Company. Subject to any fiduciary duties owed to our other owners or investors under Delaware law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of managers or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

***If the Company cannot raise sufficient funds, it will not succeed.***

Even if the maximum amount is raised, the Company is likely to need additional funds in the future in order to grow, and if it cannot raise those funds for whatever reason, including reasons relating to the Company itself or to the broader economy, it may not survive. If the Company raises a substantially lesser amount than the Maximum Raise, it will have to find other sources of funding for some of the plans outlined in "Use of Proceeds."

***Future fundraising may affect the rights of investors.***

In order to expand, the Company is likely to raise funds again in the future, either by offerings of securities or through borrowing from banks or other sources. The terms of future capital-raising, such as loan agreements, may include covenants that give creditors greater rights over the financial resources of the Company.

***Any valuation at this stage is difficult to assess.***

The valuation for the Offering was established by the Company. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially early-stage companies, is difficult to assess, and you may risk overpaying for your investment.

***We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.***

The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

***Global crises such as COVID-19 can have a significant effect on our business operations and revenue projections.***

With shelter-in-place orders and non-essential business closings potentially happening throughout 2020, 2021, 2022 and into the future due to COVID-19, the Company's revenue has been adversely affected.

***The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.***

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise

transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

***We may face potential difficulties in obtaining capital.***

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenues from sales, as well as the inherent business risks associated with our Company and present and future market conditions. Our business currently does not generate any sales and future sources of revenue may not be sufficient to meet our future capital requirements. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

***We may not have enough authorized capital stock to issue shares of common stock to investors upon the conversion of any security convertible into shares of our common stock, including the Securities.***

Currently, our authorized capital stock consists of 40,000,000 shares of common stock, of which 10,746,391 shares of common stock are issued and outstanding, and 19,137,353 shares of preferred stock, of which (i) 9,582,809 are designated as Series Seed Preferred Stock of which 9,136,468 are issued and outstanding, (ii) 9,100,000 are designated as Series A-1 Preferred Stock of which 5,616,525 are issued and outstanding, and (iii) 454,544 are designated as Series A-2 Preferred Stock of which 454,544 are issued and outstanding. Unless we increase our authorized capital stock, we may not have enough authorized common stock to be able to obtain funding by issuing shares of our common stock or securities convertible into shares of our common stock. We may also not have enough authorized capital stock to issue shares of common stock to investors upon the conversion of any security convertible into shares of our common stock, including the Securities.

***We may implement new lines of business or offer new products and services within existing lines of business.***

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

***We rely on other companies to provide components and services for our products.***

We depend on suppliers and contractors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if suppliers or contractors do not provide the agreed-upon supplies or perform the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our products may be adversely impacted if companies to whom we delegate manufacture of major components or subsystems for our products, or from whom we acquire such items, do not provide components which meet required specifications and perform to our and our customers' expectations. Our suppliers may be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two contractors or suppliers for a particular component. Our products may utilize custom components available from only one source. Continued availability of those components at acceptable prices, or at all, may be affected for any number of reasons, including if those suppliers decide to concentrate on the production of common components instead of components customized to meet our requirements. The supply of components for a new or existing product could be delayed or constrained, or a key manufacturing vendor could delay shipments of completed products to us adversely affecting our business and results of operations.

***Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people.***

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

***Damage to our reputation could negatively impact our business, financial condition and results of operations.***

Our reputation and the quality of our brand are critical to our business and success in existing markets, and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

***Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.***

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers' or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

***The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.***

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

***The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.***

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and

procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company of such compliance could be substantial and could have a material adverse effect on the Company's results of operations.

***We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.***

We are also subject to a wide range of federal, state, and local laws and regulations, such as local licensing requirements, and retail financing, debt collection, consumer protection, environmental, health and safety, creditor, wage-hour, anti-discrimination, whistleblower and other employment practices laws and regulations and we expect these costs to increase going forward. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease and desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we have incurred and will continue to incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

### **Risks Related to the Offering**

***State and federal securities laws are complex, and the Company could potentially be found to have not complied with all relevant state and federal securities law in prior offerings of securities.***

The Company has conducted previous offerings of securities and may not have complied with all relevant state and federal securities laws. If a court or regulatory body with the required jurisdiction ever concluded that the Company may have violated state or federal securities laws, any such violation could result in the Company being required to offer rescission rights to investors in such offering. If such investors exercised their rescission rights, the Company would have to pay to such investors an amount of funds equal to the purchase price paid by such investors plus interest from the date of any such purchase. No assurances can be given the Company will, if it is required to offer such investors a rescission right, have sufficient funds to pay the prior investors the amounts required or that proceeds from this Offering would not be used to pay such amounts.

In addition, if the Company violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Company which, among other things, could result in the Company having to pay substantial fines and be prohibited from selling securities in the future.

***The Company could potentially be found to have not complied with securities law in connection with this Offering related to "Testing the Waters."***

Prior to filing this Form C, the Company engaged in "testing the waters" permitted under Regulation Crowdfunding (17 CFR 227.206), which allows issuers to communicate to determine whether there is interest in the offering. All communication sent is deemed to be an offer of securities for purposes of the antifraud provisions of federal securities laws. Any Investor who expressed interest prior to the date of this Offering should read this Form C thoroughly and rely only on the information provided herein and not on any statement made prior to the Offering. The communications sent to Investors prior to the Offering are attached as Exhibit E. Some of these communications may not have included proper disclaimers required for "testing the waters".

***The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.***

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

***Neither the Offering nor the Securities have been registered under federal or state securities laws.***

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

***The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.***

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

***The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.***

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

***The Company has the right to extend the Offering Deadline.***

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Offering Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

***The Company may also end the Offering early.***

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

***The Company has the right to conduct multiple closings during the Offering.***

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on seventy percent (70%) of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

**Risks Related to Forum Selection and Jury Waivers**

***The Company's Certificate of Incorporation, provides that, unless the Company consents in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware will be the sole and exclusive forum for substantially all disputes between the Company and its stockholders, which could limit the stockholders' ability to obtain a favorable judicial forum for disputes with the Company or its directors, officers, or employees.***

The Company's Certificate of Incorporation provides that, unless the Company consents in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware will be the exclusive forum for any derivative action or proceeding: (i) brought on the Company's behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer or other employee of the Company to the Company or the Company's stockholders, (iii) any action asserting a claim against the Company, its directors, officers or employees arising pursuant to any provision of the Delaware General Corporation Law or the Company's certificate of incorporation or the Bylaws of the Company, or (iv) any action asserting a claim against the Company, its directors, officers or employees governed by the internal affairs doctrine.

However, any action as to which the Court of Chancery in the State of Delaware determines that: (i) there is an indispensable party not subject to the jurisdiction of the Court of Chancery, (ii) it is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, or (iii) for which the Court of Chancery does not have subject matter jurisdiction, the Court of Chancery of the State of Delaware shall not be the sole and exclusive forum for any stockholder.

This choice of forum provision does not apply to (i) suits brought to enforce any liability or duty created by the Securities Exchange Act of 1934, as amended, or the rules and regulations promulgated thereunder, or any other claim for which the federal courts have exclusive jurisdiction and (ii) unless the Company consents in writing to the selection of an alternative forum, the federal district courts of the United States of America shall, to the fullest extent permitted by law, be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act of 1933, as amended, or the rules and regulations promulgated thereunder.

Accordingly, the Company's exclusive forum provision will not relieve the Company of its duties to comply with the federal securities laws and the rules and regulations thereunder, and the Company's stockholders will not be deemed to have waived the Company's compliance with these laws, rules and regulations.

Any person or entity purchasing or otherwise acquiring any interest in any of the Company's securities shall be deemed to have notice of and consented to these provisions. These exclusive-forum provisions may limit a stockholder's ability to bring a claim in a judicial forum of its choosing for disputes with the Company, its directors, officers or other employees, which may discourage lawsuits against the Company and its directors, officers and other employees. If a court were to find the choice of forum provision contained in the certificate of incorporation to be inapplicable or unenforceable in an action, the Company may incur additional costs associated with resolving such action in other jurisdictions, which could harm the Company's business, results of operations, and financial condition. Even if the Company was successful in defending against these claims, litigation could result in substantial costs and be a distraction to management and other employees.

### **Risks Related to the Securities**

***The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.***

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

***Investors will not have voting rights, even upon conversion of the Securities and will grant a third-party nominee broad power and authority to act on their behalf.***

In connection with investing in this Offering to purchase a Crowd SAFE ((Simple Agreement for Future Equity) investors will designate Republic Investment Services LLC (f/k/a NextSeed Services, LLC) ("Nominee") to act on

their behalf as agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of a Crowd SAFE or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Crowd SAFE, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee's sole discretion, to take custody of any securities acquired upon conversion of the Crowd SAFE. Thus, by participating in the Offering, investors will grant broad discretion to a third party (the Nominee and its agents) to take various actions on their behalf, and investors will essentially not be able to vote upon matters related to the governance and affairs of the Company nor take or effect actions that might otherwise be available to holders of the Crowd SAFE and any securities acquired upon their conversion. Investors should not participate in the Offering unless he, she or it is willing to waive or assign certain rights that might otherwise be afforded to a holder of the Crowd SAFE to the Nominee and grant broad authority to the Nominee to take certain actions on behalf of the investor, including changing title to the Security.

***Investors will not become equity holders until the Company decides to convert the Securities into Series A-1 Preferred Stock (the type of equity securities issuable upon conversion of the Securities) or until there is a change of control or sale of substantially all of the Company's assets.***

Investors will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Company. Investors will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities into Series A-1 Preferred Stock. The Company is under no obligation to convert the Securities into Series A-1 Preferred Stock. In certain instances, such as a sale of the Company or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Company. Further, the Investor may never become an equity holder, merely a beneficial owner of an equity interest, should the Company or the Nominee decide to move the Crowd SAFE or the securities issuable thereto into a custodial relationship.

***Investors will not have voting rights, even upon conversion of the Securities into Series A-1 Preferred Stock.***

Investors will not have the right to vote upon matters of the Company even if and when their Securities are converted into Series A-1 Preferred Stock (the occurrence of which cannot be guaranteed). Upon such conversion, the Series A-1 Preferred Stock will have no voting rights and, in circumstances where a statutory right to vote is provided by state law, the CF Shadow Security holders or the party holding the Series A-1 Preferred Stock on behalf of the Investors are required to enter into a proxy agreement with its designee to vote their Series A-1 Preferred Stock with the majority of the holder(s) of the securities issued in the round of equity financing that triggered the conversion right.

***Investors will not be entitled to any inspection or information rights other than those required by law.***

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

***Investors will be unable to declare the Security in "default" and demand repayment.***

Unlike convertible notes and some other securities, the Securities do not have any "default" provisions upon which Investors will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited to the amount of cash available to the Company.

***The Company may never elect to convert the Securities or undergo a liquidity event and Investors may have to hold the Securities indefinitely.***

The Company may never conduct a future equity financing or elect to convert the Securities if such future equity financing does occur. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an initial public offering. If neither the conversion of the Securities nor a liquidity event occurs, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

***Equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent equity financings.***

The Company's equity securities will be subject to dilution. The Company intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's control and economic interests in the Company.

The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

***Equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued by the Company at the time of conversion.***

In the event the Company decides to exercise the conversion right, the Company will convert the Securities into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the Conversion Price (as defined in the Crowd SAFE agreement) shall have only such preferences, rights, and protections in proportion to the Conversion Price and not in proportion to the price per share paid by new investors receiving the equity securities. Upon conversion of the Securities, the Company may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

The forgoing paragraph is only a summary of a portion of the conversion feature of the Securities; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the Crowd SAFE agreement, which is attached as Exhibit C.

***There is no present market for the Securities and we have arbitrarily set the price.***

The Offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our asset value, net worth, revenues or other established criteria of value. We cannot guarantee that the Securities can be resold at the Offering price or at any other price.

The conversion price of the Securities is \$1.2331 per share. Upon any conversion of the Securities, including in connection with any equity financing, liquidity event or dissolution event, as defined in and in accordance with the Securities, the purchase amount of the Securities will convert at \$1.2331 per share, irrespective of the valuation or capitalization of the Company. The Securities provide no valuation cap or discount, nor provide any other downside protection to the Investors, including in the event any equity financing, liquidity event or dissolution event would result in a lower conversion price. Lastly, the Company may issue additional securities prior to any equity financing,

liquidity event or dissolution event which, although reducing the price per share of the capital stock of the Company, will not result in any adjustment to the conversion price of the Securities.

***In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.***

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities that have not been converted will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred stock, have been paid in full. Neither holders of the Securities nor holders of Series A-1 Preferred Stock can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

***While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their purchase amount upon the occurrence of certain events, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.***

Upon the occurrence of certain events, as provided in the Securities, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Securities, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

***There is no guarantee of a return on an Investor's investment.***

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

**IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.**

Customers may combine two or more for seamless mesh WiFi coverage throughout larger homes with no dead spots. We currently offer three different routers ranging from the highest end Gryphon AX that supports the latest WiFi 6 standard to the value based Gryphon Guardian.

Many parents today are frustrated with the battle to protect their children from the dangers of being exposed to inappropriate online content, excessive screen time, and social media addiction. The Gryphon Parental Control Router puts the control back in parents' hands. Using the Gryphon Connect App, customers can manage their children's online activities and ensure healthy amounts of screen time from anywhere they go. Parents can filter inappropriate content, view their children's browsing history, set bedtimes and homework times, suspend the internet and enforce Safe Search in search engines. The platform also functions as a Unified Threat Management (UTM) system for internet security system protecting device connected to a Gryphon home or office WiFi network from vulnerabilities, dangerous hackers, and malware.

Additionally, the Gryphon HomeBound<sup>®</sup> mobile app grants our customers the same safety and security features they enjoy at home when they are connected to cellular or public WiFi hotspots. With the HomeBound<sup>®</sup> app installed on a child's smartphone, customers can manage them as if they never left the house. The HomeBound<sup>®</sup> app automatically and securely routes all traffic on a mobile device back through the customer's Gryphon Mesh Router for filtering before it hits the internet.

The platform is simple to setup and use because there is no additional software that needs to be installed on the end devices. The protection works at the network layer to block unwanted content, malware, and intrusions for any connected device on the network.

Gryphon is not only suitable for families, but also for small businesses by protecting their valuable data from cyber-attacks and preserving productivity through blocking inappropriate content while at work. Because the solution can be set up in just minutes without an IT manager or expensive and complicated hardware, small businesses can now afford enterprise level protection for their network.

### Business Plan

Gryphon's business model is network protection as a service. In the short term, revenue is expected through product sales and monthly/annual subscriptions. Primary sales channels will be online distribution via Amazon, Gryphon's website, and other online retailers. Long term, the Gryphon's network security service platform software can be licensed to hardware manufacturers or network operators. We also feel that the IP we generate can be a source of revenue as it applies to networks outside of homes or small businesses.

\*Each of the above are provisional or non-provisional patent applications. We have received two issued patents with registration numbers 10,212,167 and 10,440,025. ### **Governmental/Regulatory Approval and Compliance**

The Company is subject to and affected by the laws and regulations of U.S. federal, state and local governmental authorities. These laws and regulations are subject to change.

### **Litigation**

On December 30, 2019, a complaint was filed by Kajeet, Inc., a Delaware corporation (“Kajeet”), in the United States District Court for the District of Delaware. Kajeet alleges in its complaint that our products infringe on two patents

held by Kajeet. We filed a motion to dismiss based on our belief that the claim is baseless. As of May 12, 2022, the lawsuit is still in the discovery phase. The lawsuit will likely require a motion to compel as the Company is in a discovery dispute with Kajeet. Kajeet has sued multiple other parties asserting at least one of the patents asserted against Gryphon in various courts including Western District of Texas and Northern District of California. Gryphon is part of a consolidated docket with another defendant in Delaware. The other defendant has filed an Inter Partes Review (“IPR”) with the Patent and Trial Appeals Board (“PTAB”) to try to invalidate one of the asserted patents and the PTAB has recently approved the IPR at the end of April, 2022. We are reviewing filing a motion to stay pending a decision by PTAB on the validity of the patent.

Other than the pending litigation described above, we know of no existing or pending legal proceedings against us, nor are we involved as a plaintiff in any proceeding or pending litigation. There are no proceedings in which any of our directors, officers or any of their respective affiliates, or any beneficial stockholder, is an adverse party or has a material interest adverse to our interest.

<b>Voting Rights</b>	Each holder of outstanding shares of Preferred Stock shall be entitled to cast the number of votes equal to the number of whole shares of Common Stock into which the shares of Preferred Stock held by such holder are convertible as of the record date for determining stockholders entitled to vote on such matter. Except as provided by law or by the other provisions of the Company's certificate of incorporation, the holders of Preferred Stock shall vote together with the holders of Common Stock as a single class and on an as-converted to Common Stock basis.
<b>Election of Directors</b>	The holders of record of the shares of Common Stock, exclusively and as a separate class, shall be entitled to elect two directors of the Company and, for so long as any shares of Series Seed Preferred Stock are then outstanding, the holders of record of the shares of Common Stock and Series Seed Preferred Stock, each voting as a separate class, shall be entitled to together elect one director of the Company. Any director elected as provided in the preceding sentence may be removed without cause by, and only by, the affirmative vote of the holders of the shares of the class or series of capital stock entitled to elect such director or directors, given either at a special meeting of such stockholders duly called for that purpose or pursuant to a written consent of stockholders. If the holders of shares of Common Stock or Series Seed Preferred Stock, as the case may be, fail to elect a sufficient number of directors to fill all directorships for which they are entitled to elect directors, voting exclusively and as a separate class, pursuant to the first sentence of Section 3(b) of the Company's certificate of incorporation, then any directorship not so filled shall remain vacant until such time as the holders of Common Stock or Series Seed Preferred Stock, as the case may be, elect a person to fill such directorship by vote or written consent in lieu of a meeting; and no such directorship may be filled by stockholders of the Company other than by the stockholders of the Company that are entitled to elect a person to fill such directorship, voting exclusively and as a separate class. The holders of record of the shares of Common Stock and of any other class or series of voting stock (including the Series Seed Preferred Stock and Series A Preferred Stock), exclusively and voting together as a single class, shall be entitled to elect the balance of the total number of directors of the Company. At any meeting held for the purpose of electing a director, the presence in person or by proxy of the holders of a majority of the outstanding shares of the class or series entitled to elect such director shall constitute a quorum for the purpose of electing such director. Except as otherwise provided in Section 3(b) of the Company's certificate of incorporation, a vacancy in any directorship filled by the holders of any class or series shall be filled only by vote or written consent in lieu of a meeting of the holders of such class or series or by any remaining director or directors elected by the holders of such class or series pursuant to Section 3(b) of the Company's certificate of incorporation.

	<p>Right of First Refusal.</p> <p>(a) Grant. Subject to the terms of Section 3 of the Right of First Refusal and Co-Sale Agreement, each Key Holder hereby unconditionally and irrevocably grants to the Company a Right of First Refusal to purchase all or any portion of Transfer Stock that such Key Holder may propose to transfer in a Proposed Key Holder Transfer, at the same price and on the same terms and conditions as those offered to the Prospective Transferee.</p> <p>(b) Notice. Each Key Holder proposing to make a Proposed Key Holder Transfer must deliver a Proposed Transfer Notice to the Company and each Investor not later than 45 days prior to the consummation of such Proposed Key Holder Transfer. To exercise its Right of First Refusal under Section 2 of the Right of First Refusal and Co-Sale Agreement, the Company must deliver a Company Notice to the selling Key Holder and the Investors within 15 days after delivery of the Proposed Transfer Notice specifying the number of shares of Transfer Stock to be purchased by the Company. In the event of a conflict between this Agreement and any other agreement that may have been entered into by a Key Holder with the Company that contains a preexisting right of first refusal, the Company and the Key Holder acknowledge and agree that the terms of this Agreement shall control and the preexisting right of first refusal shall be deemed satisfied by compliance with Section 2.1(a) and Section 2.1(b) of the Right of First Refusal and Co-Sale Agreement.</p> <p>(c) Grant of Secondary Refusal Right to the Investors. Subject to the terms of Section 3 below, each Key Holder hereby unconditionally and irrevocably grants to the Investors a Secondary Refusal Right to purchase all or any portion of the Transfer Stock not purchased by the Company pursuant to the Right of First Refusal, as provided in Section 2.1(c) of the Right of First Refusal and Co-Sale Agreement. If the Company does not provide the Company Notice exercising its Right of First Refusal with respect to all Transfer Stock subject to a Proposed Key Holder Transfer, the Company must deliver a Secondary Notice to the selling Key Holder and to each Investor to that effect no later than 15 days after the selling Key Holder delivers the Proposed Transfer Notice to the Company. To exercise its Secondary Refusal Right, an Investor must deliver an Investor Notice to the selling Key Holder and the Company within 10 days after the Company's deadline for its delivery of the Secondary Notice as provided in the preceding sentence.</p> <p>(d) Undersubscription of Transfer Stock. 	<p>Agreement, have an additional option to purchase all or any part of the balance of any such remaining unsubscribed shares of Transfer Stock on the terms and conditions set forth in the Proposed Transfer Notice. To exercise such option, an Exercising Investor must deliver an Undersubscription Notice to the selling Key Holder and the Company within 10 days after the expiration of the Investor Notice Period. In the event there are two or more such Exercising Investors that choose to exercise the last-mentioned option for a total number of remaining shares in excess of the number available, the remaining shares available for purchase under Section 2.1(d) of the Right of First Refusal and Co-Sale Agreement shall be allocated to such Exercising Investors pro rata based on the number of shares of Transfer Stock such Exercising Investors have elected to purchase pursuant to the Secondary Refusal Right (without giving effect to any shares of Transfer Stock that any such Exercising Investor has elected to purchase pursuant to the Company Undersubscription Notice). If the options to purchase the remaining shares are exercised in full by the Exercising Investors, the Company shall immediately notify all of the Exercising Investors and the selling Key Holder of that fact.</p> <p>(e) Consideration; Closing. If the consideration proposed to be paid for the Transfer Stock is in property, services or other non-cash consideration, the fair market value of the consideration shall be as determined in good faith by the Board of Directors and as set forth in the Company Notice. If the Company or any Investor cannot for any reason pay for the Transfer Stock in the same form of non-cash consideration, the Company or such Investor may pay the cash value equivalent thereof, as determined in good faith by the Board of Directors and as set forth in the Company Notice. The closing of the purchase of Transfer Stock by the Company and the Investors shall take place, and all payments from the Company and the Investors shall have been delivered to the selling Key Holder, by the later of (i) the date specified in the Proposed Transfer Notice as the intended date of the Proposed Key Holder Transfer; and (ii) 45 days after delivery of the Proposed Transfer Notice.</p> <p>Drag-Along Right.</p> <p>3.1 Definitions. Each share of Preferred Stock shall be convertible, at the option of the holder thereof, at any time and from time to time, and without the payment of additional consideration by the holder thereof, into such number of fully paid and non-assessable shares of Common Stock as is determined by dividing the Original Issue Price by the "Conversion Price" (as defined below) in effect at the time of conversion. The "Conversion Price" for the Preferred Stock shall initially be equal to the Original Issue Price. Such initial Conversion Price, and the rate at which shares of Preferred Stock may be converted into shares of Common Stock, shall be subject to adjustment as provided below.</p> <p>Right of First Refusal.</p> <p>(a) Grant. Subject to the terms of Section 3 of the Right of First Refusal and Co-Sale Agreement, each Key Holder hereby unconditionally and irrevocably grants to the Company a Right of First Refusal to purchase all or any portion of Transfer Stock that such Key Holder may propose to transfer in a Proposed Key Holder Transfer, at the same price and on the same terms and conditions as those offered to the Prospective Transferee.</p> <p>(b) Notice. Each Key Holder proposing to make a Proposed Key Holder Transfer must deliver a Proposed Transfer Notice to the Company and each Investor not later than 45 days prior to the consummation of such Proposed Key Holder Transfer. Such Proposed Transfer Notice shall contain the material terms and conditions (including price and form of consideration) of the Proposed Key Holder Transfer, the identity of the Prospective Transferee and the intended date of the Proposed Key Holder Transfer. To exercise its Right of First Refusal under Section 2 of the Right of First Refusal and Co-Sale Agreement, the Company must deliver a Company Notice to the selling Key Holder and the Investors within 15 days after delivery of the Proposed Transfer Notice specifying the number of shares of Transfer Stock to be purchased by the Company. In the event of a conflict between this Agreement and any other agreement that may have been entered into by a Key Holder with the Company that contains a preexisting right of first refusal, the Company and the Key Holder acknowledge and agree that the terms of this Agreement shall control and the preexisting right of first refusal shall be deemed satisfied by compliance with Section 2.1(a) and Section 2.1(b) of the Right of First Refusal and Co-Sale Agreement.</p>

	<p>(c) Grant of Secondary Refusal Right to the Investors. Subject to the terms of Section 3 of the Right of First Refusal and Co-Sale Agreement, each Key Holder hereby unconditionally and irrevocably grants to the Investors a Secondary Refusal Right to purchase all or any portion of the Transfer Stock not purchased by the Company pursuant to the Right of First Refusal, as provided in Section 2.1(c) of the Right of First Refusal and Co-Sale Agreement. If the Company does not provide the Company Notice exercising its Right of First Refusal with respect to all Transfer Stock subject to a Proposed Key Holder Transfer, the Company must deliver a Secondary Notice to the selling Key Holder and to each Investor to that effect no later than 15 days after the selling Key Holder delivers the Proposed Transfer Notice to the Company. To exercise its Secondary Refusal Right, an Investor must deliver an Investor Notice to the selling Key Holder and the Company within 10 days after the Company's deadline for its delivery of the Secondary Notice as provided in the preceding sentence.</p> <p>(d) Undersubscription of Transfer Stock. If options to purchase have been exercised by the Company and the Investors pursuant to Sections 2.1(b) and (c) of the Right of First Refusal and Co-Sale Agreement with respect to some but not all of the Transfer Stock by the end of the 10 day period specified in the last sentence of Section 2.1(c) (the "Investor Notice Period") of the Right of First Refusal and Co-Sale Agreement, then the Company shall, within five days after the expiration of the Investor Notice Period, send written notice (the "Company Undersubscription Notice") to those Investors who fully exercised their Secondary Refusal Right within the Investor Notice Period (the "Exercising Investors"). Each Exercising Investor shall, subject to the provisions of Section 2.1(d) of the Right of First Refusal and Co-Sale Agreement, have an additional option to purchase all or any part of the balance of any such remaining unsubscribed shares of Transfer Stock on the terms and conditions set forth in the Proposed Transfer Notice. To exercise such option, an Exercising Investor must deliver an Undersubscription Notice to the selling Key Holder and the Company within 10 days after the expiration of the Investor Notice Period. In the event there are two or more such Exercising Investors that choose to exercise the last-mentioned option for a total number of remaining shares in excess of the number available, the remaining shares available for purchase under Section 2.1(d) of the Right of First Refusal and Co-Sale Agreement shall be allocated to such Exercising Investors pro rata based on the number of shares of Transfer Stock such Exercising Investors have elected to purchase pursuant to the Secondary Refusal Right (without giving effect to any shares of Transfer Stock that any such Exercising Investor has elected to purchase pursuant to the Company Undersubscription Notice). If the options to purchase the remaining shares are exercised in full by the Exercising Investors, the Company shall immediately notify all of the Exercising Investors and the selling Key Holder of that fact.</p> <p>(e) Consideration; Closing. If the consideration proposed to be paid for the Transfer Stock is in property, services or other non-cash consideration, the fair market value of the consideration shall be as determined in good faith by the Board of Directors and as set forth in the Company Notice. If the Company or any Investor cannot for any reason pay for the Transfer Stock in the same form of non-cash consideration, the Company or such Investor may pay the cash value equivalent thereof, as determined in good faith by the Board of</p>

We must raise an amount equal to or greater than the Target Offering Amount by April 30, 2023 (the “**Offering Deadline**”). Unless we receive investment commitments, which are fully paid for and meet all other requirements set by this Offering, in an amount not less than the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be cancelled and all committed funds will be returned. Potential purchasers of the Securities are referred to herein as “**Investors**” or “**you**”.

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities. The minimum amount that an Investor may invest in the Offering is \$250 and the maximum amount that an Investor may invest in the Offering is \$350,000, each of which is subject to adjustment in the Company’s sole discretion.

In order to purchase the Securities, you must make a commitment to purchase by completing the subscription process hosted by OpenDeal Portal LLC dba Republic (the “**Intermediary**”), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Company are required to correct any errors or omissions made by the Investor.**

Investor funds will be held in escrow with Escrow Agent until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment until up to 48 hours prior to the Offering Deadline, or such earlier time as the Company designates pursuant to Regulation CF, using the cancellation mechanism provided by the Intermediary. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds.**

The Company will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Company reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Company continues to meet or exceed the Target Offering Amount on the date of the expedited Offering Deadline.

### Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Company will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor’s investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If an Investor does not cancel an investment commitment before the Target Offering Amount is reached, the funds will be released to the Company upon the closing of the Offering and the Investor will receive the Securities in exchange for their investment.

### Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Company designates pursuant to Rule 304(b) of Regulation CF, the Company may conduct the first of multiple closings of the Offering early, *provided* (i) the early closing date must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment commitments).

Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before such early closing date.

If the Company conducts an initial closing (the “**Initial Closing**”), the Company agrees to only withdraw seventy percent (70%) of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Company may only conduct another close (a “**Subsequent Closing**”) before the Offering Deadline if the amount of investment commitments made as of the date of such Subsequent Closing exceeds two times the Target Offering Amount as of the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Company upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Company has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Company until they are accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Company rejects all or a portion of any investment commitment, the applicable prospective Investor’s funds will be returned without interest or deduction.

Shares of capital stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of capital stock issued in connection with the Company's most recent Equity Financing.

A "**Dissolution Event**" means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company's creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

## INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Management of  
Gryphon Online Safety, Inc.

### Opinion

We have audited the financial statements of Gryphon Online Safety, Inc. ("the Company") (a Delaware corporation), which comprise the balance sheets as of December 31, 2021 and 2020 and the related statements of operations, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Gryphon Online Safety, Inc. as of December 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Gryphon Online Safety, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Substantial Doubt About the Company's Ability to Continue as a Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 12 to the financial statements, the Company has yet to achieve positive cash flows from operations and has incurred losses from inception and has stated that substantial doubt exists about the Company's ability to continue as a going concern. Management's evaluation of the events and conditions and management's plans regarding these matters are also described in Note 12. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Gryphon Online Safety, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

## **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Gryphon Online Safety, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude, whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Gryphon Online Safety, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

**Gryphon Online Safety, Inc.**  
NOTES TO THE FINANCIAL STATEMENTS  
For the years ended December 31, 2021 and 2020

**NOTE 1 – DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Description of Business

Gryphon Online Safety, Inc. (“the Company”) is a Delaware corporation headquartered in San Diego, California, that provides WiFi routers and software which utilizes artificial intelligence based learning to make the internet a safer place for children, and all connected devices. The router comes with a mobile application for real time management of all connected devices and allows collaboration with others.

Basis of Presentation

The accompanying financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are normal and recurring in nature. The Company’s fiscal year-end is December 31.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make certain judgments, estimates and assumptions that affect the amounts reported in the financial statements and the disclosures made in the accompanying notes. Despite the Company’s intention to establish accurate estimates and use reasonable assumptions, actual results may differ from the estimates.

Revenue Recognition and Deferred Revenue

During the year ended December 31, 2020, the Company adopted Accounting Standards Update (ASU) 2014-09, “*Revenue from Contracts with Customers*” which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers (Accounting Standards Codification (ASC) Topic 606) and supersedes the most current revenue recognition guidance (ASC Topic 605). ASC Topic 606 outlines the following five-step process for revenue recognition:

- Identification of the contract with a customer;
- Identification of the performance obligations in the contract;
- Determination of the transaction price;
- Allocation of the transaction price to the performance obligations in the contract; and
- Recognition of revenue when, or as, the Company satisfies the performance obligations.

The Company primarily derives revenue from the sale of its WiFi routers and licenses to use its security software. The Company enters into contracts with customers that include promises to transfer products and services, which are generally distinct and can be accounted for as separate performance obligations. Revenue is recognized when the promised goods or services are transferred to the customer, in amounts that reflect the consideration allocated to the various performance

**Gryphon Online Safety, Inc.**  
NOTES TO THE FINANCIAL STATEMENTS  
For the years ended December 31, 2021 and 2020

obligations. Certain products are sold with a software license included. The revenue component related to hardware is recognized when the product is shipped to the customer. Revenue attributable to the use of the security software is deferred and recognized on a monthly basis as the performance obligation is satisfied. Amounts received for prepayments of additional terms of use of the security software and for extended warranty services are recorded as deferred revenue and recognized as revenue on a monthly basis over the term of the contract.

Freight and Shipping Costs

Freight and shipping costs are expensed as incurred.

Inventory

Inventory is stated at the lower of cost or net realizable value and is accounted for using the first-in-first-out method ("FIFO"). The Company analyzes inventory for any potential obsolescence or shrinkage, and records impairment and obsolescence reserve against inventory as deemed necessary. At December 31, 2021 and 2020, the Company determined that allowances of \$60,000 and \$30,000, respectively were necessary.

Returns are recognized on the date the returned inventory is received by the Company or its sales channel partners.

At December 31, 2021 and 2020, inventory consisted of completed hardware units.

Intangibles

Intangible assets purchased or developed by the Company are recorded at cost. Amortization is recognized over the estimated useful life of the asset using the straight-line method for financial statement purposes. The Company reviews the recoverability of intangible assets, including the related useful lives, whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. No impairment was considered necessary at December 31, 2021 or 2020.

Costs for internally developed software to be marketed to outside users are recorded pursuant to ASC Section 985 *Software*. Research and development costs prior to attaining 'technological feasibility' are expensed as incurred. Costs incurred thereafter to develop final product are capitalized and amortized over an estimated useful life of the asset using the straight-line method for financial statement purposes. The Company reviews the recoverability of internally-developed software assets, including the useful lives, whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. No impairment was considered necessary at December 31, 2021 or 2020.

Research and Development Costs

Research and development costs, including salaries, research material, and administrative costs are expensed

**Gryphon Online Safety, Inc.**  
NOTES TO THE FINANCIAL STATEMENTS  
For the years ended December 31, 2021 and 2020

as incurred. During the years ended December 31, 2021 and 2020, the Company recognized \$607,002 and \$583,195 in research and development costs, respectively.

Advertising costs

The Company's advertising costs are expensed as incurred. During the years ended December 31, 2021 and 2020, the Company recognized \$1,442,200 and \$1,484,328 in advertising costs, respectively.

Income Taxes

Provisions for income taxes are based on taxes payable or refundable for the current year and deferred taxes on temporary differences between the amount of taxable income and pretax financial income and between the tax basis of assets and liabilities and their reported amounts in the financial statements. Deferred tax assets and liabilities are included in the financial statements at currently enacted income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled as prescribed in Financial Accounting Standards Board (FASB) ASC 740. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

Current year taxable income (loss) varies from income (loss) before current year tax expense primarily due to the method of revenue recognition and the use of accelerated amortization for tax reporting purposes.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of 90 days or less to be cash equivalents. At December 31, 2021 and 2020, the Company had no items, other than bank deposits, that would be considered cash equivalents. The Company maintains its cash in bank deposit accounts, that may at times, exceed federal insured limits.

Accounts Receivable and Allowance for Uncollectible Accounts

Accounts receivable are recorded at the amount the Company expects to collect. The Company recognizes an allowance for losses on accounts receivable deemed to be uncollectible, in accordance with ASU 2016-13, *Measurement of Credit Losses on Financial Instruments*. The allowance is based on an analysis of historical bad debt experience as well as an assessment of specific identifiable customer accounts considered at risk or uncollectible. The Company also considers any changes to the financial condition of its customers and any other external market factors that could impact the collectability of the receivables in the determination of the allowance for uncollectible accounts. Based on management's assessment, the Company provides for estimated uncollectible amounts through a charge to earnings and credit to the allowance. At December 31, 2021 and 2020, the Company determined that allowances of \$0 and \$7,509, respectively were necessary.

**Gryphon Online Safety, Inc.**  
NOTES TO THE FINANCIAL STATEMENTS  
For the years ended December 31, 2021 and 2020

Stock-Based Compensation

The Company accounts for stock-based compensation issued to employees in accordance with FASB ASC Topic 718 *Compensation – Stock Compensation*. Under the fair value recognition provisions of ASC 718, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense ratably over the requisite service period, which is generally the option vesting period.

Concentrations

Approximately 83% of revenue is generated through one online seller. The loss of the ability to sell the Company's products via this online seller would cause significant negative impact on the Company's operations.

Recent Accounting Pronouncements

No recently issued accounting pronouncements are expected to have a significant impact on the Company's financial statements.

Subsequent Events

The Company has evaluated subsequent events through April 29, 2022, the date these financial statements were available to be issued. Subsequent to December 31, 2021:

The Company plans to continue to sell the remaining approved Series A-1 Preferred Stock under the Reg CF offering or to accredited investors or institutions. There are 3,483,475 shares remaining, potentially generating approximately \$3,800,000 in new proceeds. In March 2022, 243,289 shares were issued, generating \$270,719 in net proceeds.

The Company issued 320,000 stock options which vest over a four-year period, beginning in January 2022.

In February 2022, the Company received an additional \$350,000 from the SBA, bringing the loan total to \$500,000. Repayment has been extended and will begin in February 2023.

**NOTE 2 – FAIR VALUE MEASUREMENTS**

Financial Accounting Standards Board ("FASB") guidance specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are as follows:

**Gryphon Online Safety, Inc.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
For the years ended December 31, 2021 and 2020

*Level 1* - Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 1 primarily consists of financial instruments whose value is based on quoted market prices such as exchange-traded instruments and listed equities.

*Level 2* - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly (e.g., quoted prices of similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active).

*Level 3* - Unobservable inputs for the asset or liability. Financial instruments are considered Level 3 when their fair values are determined using pricing models, discounted cash flows or similar techniques and at least one significant model assumption or input is unobservable.

**NOTES TO THE FINANCIAL STATEMENTS**  
For the years ended December 31, 2021 and 2020

**NOTE 10 – INCOME TAXES**

Deferred taxes are recognized for temporary differences between the basis of assets and liabilities for financial statement and income tax purposes. The differences relate primarily to amortizable assets using accelerated amortization methods for income tax purposes, stock-based compensation expense and net operating loss carryforwards. As of December 31, 2021 and 2020, the Company had net deferred tax assets before valuation allowance of \$1,952,392 and \$1,393,941, respectively. As of December 31, 2021, and 2020, the Company had net deferred tax liabilities before valuation allowance of \$0 and \$0, respectively. The following table presents the deferred tax assets and liabilities by source:

	December 31,	
	2021	2020
Deferred tax assets:		
Net operating loss carryforwards	\$ 1,957,488	\$ 1,310,076
Deferred revenue timing difference	(18,951)	60,557
Stock-based compensation	8,310	17,764
Research and development tax credit carryforwards	5,544	5,544
Total deferred tax assets	1,952,392	1,393,941
Deferred tax liabilities:		
Total deferred tax liabilities	-	-
Valuation allowance	(1,952,392)	(1,393,941)
Net deferred tax assets	\$ -	\$ -

The Company assessed the need for a valuation allowance against net deferred tax assets and determined a full valuation allowance is appropriate, due to taxable losses for the years ended December 31, 2021 and 2020 and no history of generating taxable income. Therefore, valuation allowances of \$1,952,392 and \$1,393,941 were recorded as of December 31, 2021 and 2020, respectively. Deferred tax assets and liabilities were calculated using the Company's combined effective tax rate, which is estimated to be 29%. The effective rate is reduced to 0% due to the full valuation allowance on the net deferred tax assets.

**NOTE 11 – COMMITMENTS AND CONTINGENCIES**

The Company may be subject to pending legal proceedings and regulatory actions in the ordinary course of business. In December 2020, the Company was sued for patent infringement. The Company filed a motion to dismiss, as it believes the suit is baseless. As of December 31, 2021, the lawsuit is still in the discovery phase and the plaintiff is not providing requested information. The results of such proceedings cannot be predicted with certainty, but the Company anticipates that the final financial impact, if any, arising out of this matter would

**NOTES TO THE FINANCIAL STATEMENTS**

range between \$100,000 and \$250,000.

**NOTE 12 - GOING CONCERN**

The accompanying financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business.

The Company has yet to achieve positive cash flow from operations and has incurred losses from inception of \$6,784,961 which raises substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent upon management's ability to raise additional capital from the issuance of debt or the sale of stock, its ability to commence profitable sales of its flagship product, and its ability to generate positive operational cash flow. The accompanying financial statements do not include any adjustments that might be required should the Company be unable to continue as a going concern.

**NOTE 13 – RELATED PARTIES**

During the years ended December 31, 2021 and 2020, the Company issued options for the purchase of common stock of 0 and 200,000, respectively to members of the Company's Board of Directors. In addition, for the years ended December 31, 2021 and 2020, the Company paid \$113,510 and \$47,095, respectively for legal counsel to a firm in which one of the directors is a partner.

## What press is saying

If you're looking for (almost) absolute control over your internet at home, then the Gryphon AX will be happy to help you out. With detailed device information, parental controls even when away from home, and other advanced security features, there's plenty here for parents to play around with.

- TechRadar.com

Overall, the Gryphon Router hits all the right notes when it comes to assessing Wi-Fi routers. It can help you take advantage of your internet speeds, can simultaneously handle several devices with high-bandwidth demands, and it will keep large homes dead zone-free.

- BusinessInsider.com

...Gryphon has unleashed a set of parental controls on this router that is unheard of in the market. Seriously, if you have a child and you want to cater a better internet experience for them, the Gryphon is the only router for you.

- TweakTown.com

Gryphon's parental controls are more extensive and straightforward to use than those we've seen in most rival routers, and might well clinch the deal for parents who want to take more control over their children's Internet use.

- TechAdvisor.com

One of the more innovative aspects of this feature is that the router can scan Internet of Things devices, like smart home appliances. There are often vulnerabilities people don't even think about, so the router taking care of this for you and alerting you if there's a problem is an excellent bonus.

The number of shares of Series A-1 Preferred Stock shall be equal to the quotient obtained by dividing (x) the Purchase Amount by (y) the Conversion Price.

(b) **Liquidity Event.**

(i) If there is a Liquidity Event before the termination of this instrument and before any Equity Financing, the Investor must select, at its option, within thirty (30) days of receiving notice (whether actual or constructive), either (1) to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below) or (2) to receive from the Company a number of shares of Series A-1 Preferred Stock equal to the Purchase Amount (or a lesser amount as described below) divided by the Conversion Price.

Notwithstanding Sections 1(b)(i)(2) or 1(b)(ii)(2), if the Company's board of directors determines in good faith that delivery of Capital Stock to the Investor pursuant to Section 1(b)(i)(2) or Section 1(b)(ii)(2) would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such Capital Stock, as determined in good faith by the Company's board of directors.

(c) **Dissolution Event.** If there is a Dissolution Event before this instrument terminates in accordance with Sections 1(a) or 1(b), subject to the preferences applicable to any series of Preferred Stock, the Company will distribute its entire assets legally available for distribution with equal priority among the (i) Investors (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company's board of directors at the time of Dissolution Event), (ii) all other holders of instruments sharing in the assets of the Company at the same priority as holders of Series A-1 Preferred Stock upon a Dissolution Event and (iii) and all holders of Series A-1 Preferred Stock.

(d) **Maturity Event.** If this instrument remains outstanding on the Maturity Date, the Investor shall receive from the Company a number of shares of Series A-1 Preferred Stock equal to the Purchase Amount divided by the Conversion Price.

(e) **Termination.** This instrument will terminate (without relieving the Company or the Investor of any obligations arising from a prior breach of or non-compliance with this instrument) upon the

earlier to occur: (i) the issuance of shares to the Investor pursuant to Section 1(a), Section 1(b) or Section 1(d); or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to Sections 1(b) or 1(c).

(g) The Investor understands that no public market now exists for any of the securities issued by the Company, and that the Company has made no assurances that a public market will ever exist for this instrument and the securities to be acquired by the Investor hereunder.

(k) The Investor further acknowledges that it has read, understood, and had ample opportunity to ask Company questions about its business plans, "Risk Factors," and all other information presented in the Company's Form C and the offering documentation filed with the SEC.

(l) The Investor represents that the Investor understands the substantial likelihood that the Investor will suffer a **TOTAL LOSS** of all capital invested, and that Investor is prepared to bear the risk of such total loss.

## ***5. Transfer Restrictions.***

(a) The Investor hereby agrees that during the Lock-up Period it will not, without the prior written consent of the managing underwriter: (A) lend; offer; pledge; sell; contract to sell; sell any option or contract to purchase; purchase any option or contract to sell; grant any option, right, or warrant to purchase; or otherwise transfer or dispose of, directly or indirectly, any shares of Common Stock or any securities convertible into or exercisable or exchangeable (directly or indirectly) for Common Stock (whether such shares or any such securities are then owned by the Investor or are thereafter acquired); or (B) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of such securities; whether any such transaction described in clause (A) or (B) above is to be settled by delivery of Common Stock or other securities, in cash, or otherwise.

(b) The foregoing provisions of Section 5(a) will: (x) apply only to the IPO and will not apply to the sale of any shares to an underwriter pursuant to an underwriting agreement; (y) not apply to the transfer of any shares to any trust for the direct or indirect benefit of the Investor or the immediate family of the Investor, provided that the trustee of the trust agrees to be bound in writing by the restrictions set forth herein, and provided further that any such transfer will not involve a disposition for value; and (z) be applicable to the Investor only if all officers and directors of the Company are subject to the same restrictions and the Company uses commercially reasonable efforts to obtain a similar agreement from all stockholders individually owning more than 5% of the outstanding Common Stock or any securities convertible into or exercisable or exchangeable (directly or indirectly) for Common Stock. Notwithstanding anything herein to the contrary, the underwriters in connection with the IPO are intended third-party beneficiaries of Section 5(a) and will have the right, power and authority to enforce the provisions hereof as though they were a party hereto. The Investor further agrees to execute such agreements as may be reasonably requested by the underwriters in connection with the IPO that are consistent with Section 5(a) or that are necessary to give further effect thereto.

(c) In order to enforce the foregoing covenant, the Company may impose stop transfer instructions with respect to the Investor's registrable securities of the Company (and the Company shares or securities of every other person subject to the foregoing restriction) until the end of the Lock-up Period. The Investor agrees that a legend reading substantially as follows will be placed on all certificates representing all of the Investor's registrable securities of the Company (and the shares or securities of the Company held by every other person subject to the restriction contained in Section 5(a)):

THE SECURITIES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO A LOCK-UP PERIOD BEGINNING ON THE EFFECTIVE DATE OF THE COMPANY'S REGISTRATION STATEMENT FILED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, AS SET FORTH IN AN AGREEMENT BETWEEN THE COMPANY AND THE ORIGINAL HOLDER OF THESE SECURITIES, A COPY OF WHICH MAY BE OBTAINED AT THE COMPANY'S PRINCIPAL OFFICE. SUCH LOCK-UP PERIOD IS BINDING ON TRANSFEREES OF THESE SECURITIES.

1. (d) Without in any way limiting the representations and warranties set forth in Section 4 above, the Investor further agrees not to make any disposition of all or any portion of this instrument or the underlying securities unless and until the transferee has agreed in writing for the benefit of the Company to make the representations and warranties set out in Section 4 and the undertaking set out in Section 5(a) and:

1. (i) There is then in effect a registration statement under the Securities Act covering such proposed disposition and such disposition is made in accordance with such registration statement; or

2. (ii) The Investor shall have notified the Company of the proposed disposition and shall have furnished the Company with a detailed statement of the circumstances surrounding the proposed disposition and, if reasonably requested by the Company, the Investor shall have furnished the Company with an opinion of counsel reasonably satisfactory to the Company that such disposition will not require registration of such shares under the Securities Act.

(e) The Investor agrees that it shall not make any disposition of this instrument or any underlying securities to any of the Company's competitors, as determined by the Company in good faith.

(f) The Investor understands and agrees that the Company will place the legend set forth below or a similar legend on any book entry or other forms of notation evidencing this Crowd SAFE and any certificates evidencing the underlying securities, together with any other legends that may be required by state or federal securities laws, the Company's charter or bylaws, any other agreement between the Investor and the Company or any agreement between the Investor and any third party:

THESE SECURITIES MAY NOT BE OFFERED, SOLD OR OTHERWISE TRANSFERRED, PLEDGED OR HYPOTHECATED EXCEPT AS PERMITTED BY RULE 501 OF REGULATION CROWDFUNDING UNDER THE SECURITIES ACT AND APPLICABLE STATE SECURITIES LAWS OR PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT OR EXEMPTION THEREFROM.

## INTRO / OPENING

Hi my name is John and I am the CEO and co-founder of Gryphon.

Over the past few years, we have seen an explosion of connected devices in our lives.

Internet addiction is a growing epidemic and managing our kids screen time is one of the biggest headaches for parents today.

With all the connected “smart” devices in our homes, we are more vulnerable than ever to being a victim of hacking and intrusions into our privacy.

We founded Gryphon with the vision to make the internet a safer place for families and small businesses by creating an affordable and easy to use platform that combines the latest in network protection, machine learning, and wireless connectivity.

The platform is built from the ground up to help protect our families and our privacy. The award winning solution already has 5 issued patents with many others pending.

## OUR STATUS (WINNING)

Since launching our first Gryphon in 2018, we have seen tremendous traction in the market.

Our business has been growing year over year.

We now have shipped over 50,000 Gryphons that are protecting hundreds of thousands of connected devices

and have blocked more than 11 million online threats.

We have been recognized by many reputable industry publications such as PC Magazine and Tech Radar. [Fatherly](#) named us the best parental control solution 3 years in a row and *Tom's Guide said Gryphon is where performance meets protection.*

But most importantly our customers love our product and we've received thousands of positive reviews telling us how easy Gryphon has made it to keep their families safe.

## THE OPPORTUNITY

This growth is exciting, ***but we're just getting started.***

Just like the personal computer revolution, we believe this is the beginning of a revolution in personal home network protection.

## CTA

With this round of funding, we will be investing more into network protection research and development, expanding our international sales, and investing into the marketing of our next generation WiFi6 product line.

With the increase in home internet usage driven by the pandemic, our mission to protect our online activities is more important than ever!

I want to personally invite you to partner with us in our next phase of growth to bring simple and better network protection to every home. Thank you!

# The New Gryphon Smart Wifi Mesh System Is the Best Parental Control Hardware Around

*It combines website screening, time-management, service pausing, malware protection, and more in one slim, easy-to-set-up package.*

By Jon Gagliardi Aug 06 2018, 7:04 PM

**P**arental control hardware is, in this day and age, as essential in your home as a toaster. The reasoning is simple: as our kids become more dependent on our devices, it becomes more necessary to set limits on screen time and enact measures to keep them safe while browsing online. There are myriad offerings to help with just that, from apps to routers and more. And there are a number of excellent options (you know we love you, Circle By Disney). But we have a new favorite piece

# Gryphon Secure Mesh Router

## Review: Performance Meets Protection

by **BRIAN NADEL** Dec 20, 2018, 9:58 AM

**GRYPHON SECURE MESH ROUTER**

**THE GOOD**

- Excellent performance
- Includes security software
- Triband design with dedicated backhaul channel

**THE BAD**

- Lacks USB port
- Large
- Expensive

**VERDICT**

Big and twisted, the Gryphon Secure Mesh System looks like no other router on the planet. It provides excellent throughput and a phalanx of security measures to protect a family's data and digital identity.

4/5

TOTALLY WORTH IT

\$315

Amazon

The Gryphon Secure Mesh System enviably combines outstanding speed, security and parental controls to protect a family's digital goods with a unique look that would be a shame to hide in the basement. Its triband design has a dedicated backhaul channel and the router automatically optimizes its data flow, but Gryphon is among the most expensive ways to fill a home with Wi-Fi and does it without the convenience of a USB port.

## What press is saying

If you're looking for (almost) absolute control over your internet at home, then the Gryphon AX will be happy to help you out. With detailed device information, parental controls even when away from home, and other advanced security features, there's plenty here for parents to play around with.

- TechRadar.com

Overall, the Gryphon Router hits all the right notes when it comes to assessing Wi-Fi routers. It can help you take advantage of your internet speeds, can simultaneously handle several devices with high-bandwidth demands, and it will keep large homes dead zone-free.

- BusinessInsider.com

...Gryphon has unleashed a set of parental controls on this router that is unheard of in the market. Seriously, if you have a child and you want to cater a better internet experience for them, the Gryphon is the only router for you.

- TweakTown.com

Gryphon's parental controls are more extensive and straightforward to use than those we've seen in most rival routers, and might well clinch the deal for parents who want to take more control over their children's Internet use.

- TechAdvisor.com

One of the more innovative aspects of this feature is that the router can scan Internet of Things devices, like smart home appliances. There are often vulnerabilities people don't even think about, so the router taking care of this for you and alerting you if there's a problem is an excellent bonus.

"Bottom line, out of the box this is one of the most secure routers in the world. With minor tweaks, it IS the most secure one in the world, probably even above many SMB/Corporate offerings. Wireless... how good is it? REALLY GOOD. My home is quite large, and this device covers all three floors and the entire floor plan with full bars in almost every area..."

**RUSSELL MCHARG**

"Best mesh router and repeater system... I can even view each device individually and see which devices on my network are connected to which! It's great for security and safety. Once my kids get a little older and start to adopt the capabilities of the www, I'm sure I'll be using the safety controls a lot more."

**GRAEME**

"My husband and I have 5 children. We tried all kinds software in the past to control their access to things online. The oldest always figured out how to bypass or disable the software. Not with Gryphon. I can see every site they access or try and access. Can instantly block any site. I can set time limits, which is great especially since we are doing distance learning due to COVID..."
