Structure, Financial History & Plans forward

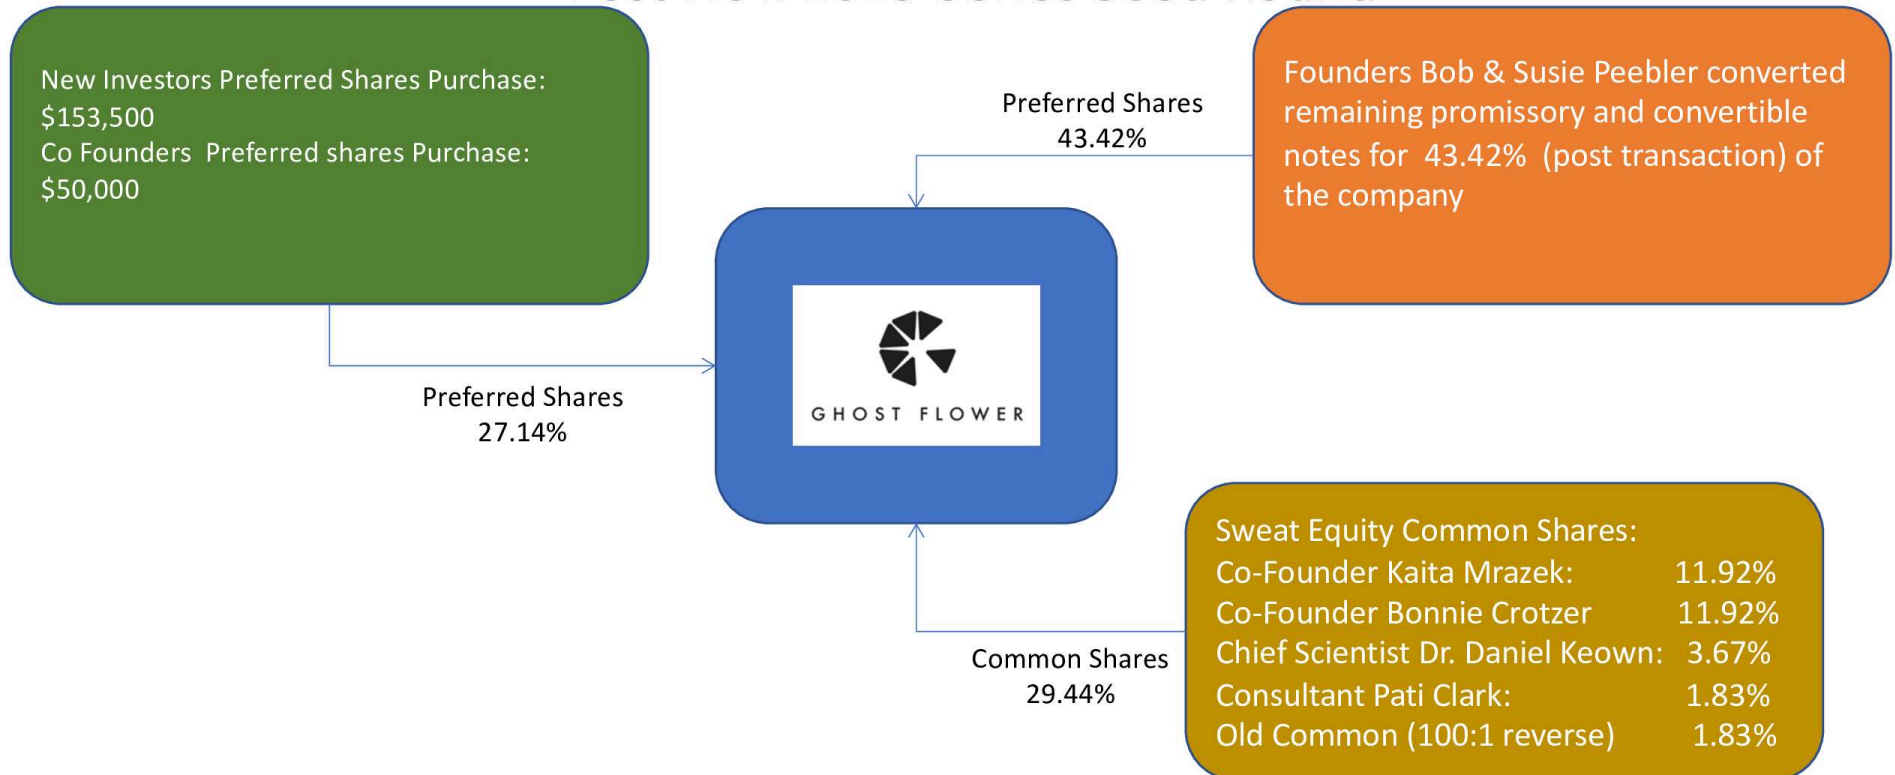

# Management & Funding History

---

- Company was founded in the summer of 2016 and was setup as a C-Corp with the idea of raising venture capital after product launch.
- Debt, provided by Founders in the form of convertibles and promissory notes, was used as the financing vehicles for working capital including inventory build.
- In Aug/Sept of 2018, Founders terminated most consultants and staff to reset and start-over. Founders continued to fund, but at much lower levels until fall of 2019.
- Total Funding through 2018:
  - ✓ \$2,147,005 Convertible Notes
  - ✓ \$249,000 Promissory Notes
  - ✓ Personal Abandoned Notes 2018: \$2,077,005    Notes left: \$319,000
  - ✓ New promissory Notes 2019 \$109,000
- Series Seed Raise closing in Nov 2019 for \$200,000 with \$37,500 by founders and the remaining from outside investors. Post money value \$750,000. Founders converted remaining debt, all their remaining common shares, for preferred seed round shares in the company. The original co-founders, Bob & Susie Peebler, after the abandoned debt and debt swap for equity ended with 48.3% of the company. The other co-founders and key consultants own 31% of the company, so 79.3% of the company is closely held.
