**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____**

Commission file number 001-38633

BM Technologies, Inc.

(Exact name of registrant as specified in its charter)

Delaware

82-3410369

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer
Identification No.)

**201 King of Prussia Road, Suite 650
Wayne, Pennsylvania**

19087

(Address of Principal Executive Offices)

(Zip Code)

(877) 327-9515

Registrant's telephone number, including area code

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock	BMTX	NYSE American LLC
Warrants, each whole warrant exercisable for one share of Common Stock at an exercise price of \$11.50 per share.	BMTX-WT	NYSE American LLC

Securities registered pursuant to section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports); and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

The aggregate market value of voting stock held by non-affiliates of the Registrant on June 30, 2023, the last day of the registrant's most recently completed second fiscal quarter, was approximately \$25 million. This value is based on the closing price of \$2.98 for shares of the Registrant's Class A common stock as reported by the New York Stock Exchange. Shares of common stock beneficially owned by each executive officer, director, and holder of more than 10% of our common stock have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes.

The registrant had 12,063,773 shares of common stock issued and outstanding, par value \$0.0001 per share, as of April 1, 2024.

Specified portions of the registrant's definitive proxy statement relating to the registrant's 2024 Annual Meeting of Stockholders (the "2024 Proxy Statement"), which is to be filed within 120 days after December 31, 2023, are incorporated by reference into Part III of this Annual Report on Form 10-K.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report, including, without limitation, statements under the heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 (the “Exchange Act”). Forward-looking statements generally, but not always, can be identified by the use of forward-looking terminology, including the words “believes”, “estimates”, “anticipates”, “expects”, “intends”, “plans”, “may”, “will”, “potential”, “projects”, “predicts”, “continue”, or “should”, or, in each case, their negative or other variations or comparable terminology. These forward-looking statements reflect our current views with respect to, among other things, statements relating to the Company’s assets, business, cash flows, condition (financial or otherwise), credit quality, financial performance, liquidity, short and long-term performance goals, prospects, results of operations, strategic initiatives, the benefits, cost, and synergies of completed acquisitions or dispositions, and the timing, benefits, costs, and synergies of future acquisitions, dispositions, and other growth opportunities. There can be no assurance that actual results will not materially differ from expectations. These statements are based on Management’s current expectations, but actual results may differ materially due to various factors. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control), and other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements.

Factors that could cause actual results to differ from those discussed in such forward-looking statements include, but are not limited to (1) difficulty attracting and retaining highly-effective employees; (2) our ability to successfully execute our business plan; (3) changes in consumer preferences, spending, and borrowing habits, and demand for our products and services; (4) general economic conditions, especially in the communities and markets in which we conduct our business; (5) market risk, including interest rate and liquidity risk; (6) operational risk, including cybersecurity risk and risk of fraud, data processing system failures, network breaches, and maintenance of internal controls, including remediating any material weaknesses in our internal control over financial reporting; (7) increased competition, including competition from other bank and non-bank financial institutions; (8) changes in regulations, laws, taxes, government policies, monetary policies, and accounting policies; (9) regulatory enforcement actions and adverse legal actions; and (10) other economic, competitive, technological, operational, governmental, regulatory, and market factors affecting our operations, including, those factors summarized in the immediately following section titled “Summary of Principal Risk Factors”, which we encourage you to read. These risks and others described under “Risk Factors” may not be exhaustive. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as may be required under applicable securities laws.

We caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition, and liquidity, and developments in the industry in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this report. In addition, even if our results or operations, financial condition, and liquidity, and developments in the industry in which we operate are consistent with the forward-looking statements contained in this report, those results or developments may not be indicative of results or developments in subsequent periods.

SUMMARY OF PRINCIPAL RISK FACTORS

References in this report to “the Company,” “BMTX,” “we,” “us,” and “our” refer to BM Technologies, Inc., a Delaware corporation. References to our “management” or our “management team” refer to our officers and directors.

Below is a summary of the principal risk factors we face. Please read it carefully and refer to the more detailed descriptions of the risk factors in Item 1A — “Risk Factors.”

Risks Related to our Business and Industry

- a. Dependence on key individuals;
- b. Our limited operating history;
- c. Our ability to identify, recruit, and retain skilled personnel;
- d. Our ability to implement our strategy;
- e. Our ability to successfully implement our Profit Enhancement Plan (the “PEP”);
- f. Growth of adoption and retention rates;
- g. Our ability to manage growth effectively;
- h. Assumptions related to our growth strategy;
- i. The partnership with Customers Bank and T-Mobile may expose us to additional risks;
- j. The partnership and private label agreement with T-Mobile may be terminated with limited notice;
- k. Dependence on our new partner bank;
- l. Termination of, or changes to, the MasterCard association registration;
- m. Our ability to expand our market reach and product portfolio;
- n. Length and unpredictability of our sales cycle;
- o. Capitalized assets could become impaired;
- p. Competition;
- q. The strength of our brand;
- r. The risk of systems or product failures;
- s. The risks of agreement terminations we maintain with colleges, universities and our BaaS partner;
- t. Demand for our products and services;
- u. Changes in the demand or availability of student loans or financial aid;
- v. Changes in government financial aid regime;
- w. Exposure to global economic and other broader economic factors;
- x. Data breaches, fraud, and cybersecurity issues;
- y. Inability to protect or enforce our intellectual property;
- z. Infringement of our intellectual property or allegations of infringement by us;
- aa. Our fees and charges;
- ab. Outsourcing critical operations;

- ac. Ability to maintain an effective system of disclosure controls and remediate the material weakness in our internal control over financial reporting; and
- ad. Our ability to integrate future acquisitions.

Risks Related to our Common Stock and Warrants

- a. Whether an active, liquid trading market for our common stock is sustained;
- b. Coverage by securities analysts;
- c. Future sales of common stock;
- d. Anti-takeover provisions under our charter and Delaware law;
- e. Forum selection clauses under our charter and Delaware law;
- f. Our ability to redeem unexpired warrants; and
- g. Exercises of warrants increasing the number of shares eligible for future resale and dilution to stockholders.

Regulatory Risks

- a. Changes in regulation related to interchange or methods of payments;
- b. Regulations related to higher education and disbursements;
- c. Potential future regulations given the nature of our operations;
- d. Regulation applicable to our Partner Banks; and
- e. We are subject to the Family Educational Rights and Privacy Act (“FERPA”) and Gramm-Leach-Bliley Act (“GLBA”).

General Risk Factors

- a. Adequacy of insurance;
- b. The limited experience of our management team in managing a public company; and
- c. Climate change impact on our business.

Part I

ITEM 1. BUSINESS

Company Overview

We are a financial technology (“fintech”) company that facilitates deposits and banking services between a customer and our partner banks, Customers Bank and First Carolina Bank, (the “Partner Banks”), which are related parties and are Federal Deposit Insurance Corporation (“FDIC”) insured banks. We provide state-of-the-art high-tech digital banking and disbursement services to consumers and students nationwide through a full service fintech banking platform, accessible to customers anywhere and anytime through digital channels. Our fintech business model leverages Banking-as-a-Service (“BaaS”) partners’ and University partners’ existing customer bases to achieve high volume, low-cost customer acquisition in our Higher Education and BaaS businesses.

We are not a bank, do not hold a bank charter, and do not provide banking services. Our Partner Banks are subject to regulation by the Pennsylvania Department of Banking and Securities and the North Carolina Office of the Commissioner of Banks. Both Partner Banks are subject to the regulation of the Federal Reserve Bank and both are periodically examined by their regulatory authorities. We are subject to the regulations of the U.S. Department of Education (“ED”), due to our Disbursement business, and are periodically examined by them.

BankMobile Technologies, Inc. (“BankMobile”) was incorporated in May 2016 as a wholly-owned subsidiary of Customers Bank. On August 6, 2020, the Company entered into an Agreement and Plan of Merger, by and among Megalith Financial Acquisition Corporation, a special purpose acquisition company (“Megalith”), incorporated in Delaware in November 2017, MFAC Merger Sub Inc., a wholly-owned subsidiary of Megalith, BankMobile Technologies, Inc., and Customers Bank, the sole stockholder of BankMobile. On January 4, 2021, BankMobile became an independent company after the completion of a divestiture transaction and was rebranded BM Technologies, Inc.

Emerging Growth Company Status

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of our initial public offering, (b) in which we have total annual gross revenue of at least \$1.235 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period.

Employees and Human Capital Resources

As of December 31, 2023, we employed approximately 200 full-time employees, all located in the United States. Technology has allowed us to expand our reach to include a larger demographic with remote employees working throughout the country. None of these employees are covered by a collective bargaining agreement. The Company provides its employees with comprehensive benefits, some of which are provided on a contributory basis, including medical and dental plans, a 401(k) savings plan with a company match component, and short-term and long-term disability coverage. Additional benefits offered include paid time off, life insurance, and employee assistance. The Company's compensation package is designed to maintain market competitive total rewards programs for all employees in order to attract and retain superior talent.

Available Information

We are required to file with the U.S. Securities and Exchange Commission (the "SEC") Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and proxy statements, as well as any amendments to those reports. The SEC maintains an Internet website that contains reports, proxy, and information statements and other information regarding issuers that file electronically with the SEC. The SEC's Internet website is located at <http://www.sec.gov>. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements, and amendments to those reports and statements filed or furnished pursuant to section 13(a) or 15(d) of the Exchange Act are also accessible at no cost on our website, <https://ir.bmtxinc.com/>, after they are electronically filed with the SEC. Reference to our website does not constitute incorporation by reference of the information contained on the website and should not be considered part of this Report.

ITEM 1A. RISK FACTORS

You should carefully consider all the risks described below, together with the other information contained in this report, including the financial statements, before making a decision to invest in our securities. If any of the following risks occur, our business, financial condition, or operating results may be materially and adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment. In this section, "we," "us," and "our," refer to the Company.

Risks Related to Our Business and Industry

We will be dependent on key individuals, and the loss of one or more of these key individuals could curtail our growth and adversely affect our prospects.

Our success will depend on our ability to retain key individuals and other management personnel who can continue to build our digital banking platform and develop and grow our Higher Education business and BaaS programs. Although we have entered into employment agreements with certain of these executives, their continued service cannot be assured, and if we lose the services of any of these key individuals, they would be difficult to replace, and our business and development could be materially and adversely affected.

We have a limited history operating as a separate entity and our management team has limited experience managing us.

We are a relatively new legal entity and have a limited history operating independently of Customers Bank since our January 2021 divestiture. An integral portion of our business was acquired from Higher One in June 2016. Our business had been operating primarily as a division of Customers Bank, and since September 2017, a wholly-owned subsidiary of Customers Bank. There may be unanticipated risks and expenses that come from no longer operating as a division or wholly-owned subsidiary of a bank, such as increased compliance costs and licensing requirements. In addition, we have a limited history of managing cash, liquidity, financial obligations, and resources, and other operational needs independent of Customers Bank. Because of our limited operating history, there are only limited historical results of operations for you to review and consider in evaluating our results of operations, and our prospects. We will be subject to the business risks and uncertainties associated with recently formed entities with limited operating history, including the risk that we will not achieve our strategic plan, which could have a material effect on our business, financial condition, and results of operations.

Our success depends in part on our ability to identify, recruit, and retain skilled personnel.

Our future success depends upon our continued ability to identify, attract, hire, and retain highly qualified personnel, including skilled technical, management, product, technology, and sales and marketing personnel, all whom are in high demand and are often subject to competing offers. Competition for qualified personnel in the technology industry is intense and there can be no assurance that we will be able to hire or retain a sufficient number of qualified personnel to meet our requirements, or that we will be able to do so at salary, benefit and other compensation costs that are acceptable. The recent transition towards companies offering remote and hybrid work environments, which is expected to endure, as well as our workplace policies, including policies with respect to remote and hybrid work, could impact our ability to attract and retain talent with the necessary skills and experience. In addition, the transition to remote and hybrid work environments may exacerbate the challenges of attracting and retaining skilled employees because job markets may be less constrained by physical geography. A loss of a substantial number of qualified employees, or an inability to attract, retain, and motivate additional highly skilled employees required for the expansion of our business, could have a material adverse effect on our business and growth prospects.

Our business and future success may suffer if we are unable to continue to successfully implement our strategy.

Our future success will depend, in part, on our ability to generate revenues by providing financial transaction services to higher education institutions and their students directly and through our referral partners, and our ability to implement and grow our BaaS and Higher Education banking businesses. The market for these services has only recently developed and our viability and profitability is therefore unproven. Our business will be materially and adversely affected if we are unable to develop and market products and services that achieve and maintain market acceptance.

Outsourcing disbursement services may not become as widespread in the higher education industry as anticipated, and our products and services may not achieve continued commercial success. In addition, higher education institutional clients could discontinue using our services and return to in-house disbursement and payment solutions. If outsourcing disbursement services does not become widespread, or if institutional clients return to their prior methods of disbursement, our growth prospects, business, financial condition, and results of operations could be materially and adversely affected.

Our strategic growth plan depends, in part, on our ability to enter into new agreements with higher education institutions and new BaaS partners. These contracts can generally be terminated by the client at will and, therefore, there can be no assurance that we will be able to maintain these clients or maintain agreements with clients on terms and conditions acceptable to us. In addition, we may not be able to continue to establish new relationships with higher education institutional clients or new BaaS partners at our historical growth rate or at all. The termination of current client contracts or an inability to continue to attract new clients could have a material adverse effect on our business, financial condition, and results of operations.

Not only are establishing new client relationships and maintaining current client relationships critical to our business, they are also essential components of our strategy for maximizing student usage of our products and services and attracting new student customers, including graduate student customers. A reduction in enrollment, a failure to attract and maintain student customers, as well as any future demographic, social, geopolitical, or economic trends that reduce the number of higher education students, could materially and adversely affect our capability for both revenue and cash generation and, as a result, could have a material adverse effect on our business, financial condition, and results of operations.

Our strategic growth plan relies on our ability to increase customers' debit card spending and attract them to our new products. If we are unable to increase debit card usage through product education, marketing, promotions, and technological improvements, or if debit card usage drops as a result of trends, market perception, or new or competing products, our growth prospects, financial condition, and results of operations could be materially and adversely affected.

Finally, an integral part of our growth strategy is our ability to expand our disbursements expertise into new markets and product offerings, including BaaS partnerships. Our management team has limited experience forming and developing BaaS partnerships. If we are unable to develop BaaS partnerships, or if we cannot gain market adoption of our BaaS partnerships due to competition, regulatory issues, or constraints, or otherwise, if large businesses pursue other alternatives to a BaaS partnership, or if the market for BaaS products and services is smaller than anticipated, our earnings and results of operations will be adversely affected, and we may not grow at our projected rates.

Our profit enhancement plan may not be successful in improving our results of operations or financial condition.

On January 26, 2023, we announced a targeted Profit Enhancement Plan (the “PEP”) that we expect to deliver over \$15 million in annualized cost reductions with over \$9 million of savings realized in 2023 and an additional \$6 million of savings expected to be realized in 2024. The PEP is intended to reduce operating costs, improve operating margins, improve operating cash flow, and continue advancing the Company’s ongoing commitment to profitable growth and continued innovation, and direct the Company’s resources toward its best opportunities. It may take longer than anticipated to generate the expected benefits from these changes and there can be no guarantee that these changes will result in improved operating results. If we are not successful in implementing these changes and executing the PEP in a timely and efficient manner, we may not realize the benefits we expect.

We may not be able to grow adoption and retention rates.

Our growth strategy and business projections contemplate a significant increase in adoption and retention rates for our products. A significant component of our growth strategy is dependent on our ability to have students of our Higher Education institution clients, and customers of our BaaS partner, select our services and become long-term users of our products. In particular, our growth strategy will depend on our ability to successfully cross-sell our core products and services to students after they leave college as well as growth in product usage from BaaS customers. We may not be successful in implementing this strategy because these students and customers may believe that our products and services are unnecessary or unattractive. In addition to a sensitivity to adoption rates, we are also sensitive to retention rates. As students leave college or customers leave a BaaS partner, we will face increasing competition from banks and other financial services providers.

Our failure to attract and retain students and other customers could have a material adverse effect on our prospects, business, financial condition, and results of operations. If we are unable to increase our adoption and retention rates, our growth, revenues, and results of operations may not meet our projections, which could have a material adverse effect on our prospects, business, financial condition, and results of operations.

Failure to manage future growth effectively could have a material adverse effect on our business, financial condition, and results of operations.

The continued rapid expansion and development of our business may place a significant strain upon our management, administrative, operational, and financial infrastructure. Our growth strategy contemplates further increasing the number of our Higher Education institutional clients and student banking customers.

The rate at which we have been able to establish relationships with our customers in the past, however, may not be indicative of the rate at which we will be able to establish additional customer relationships in the future. Our success will depend, in part, upon the ability of our executive officers to manage growth effectively for our Higher Education business. Our ability to grow will also depend on our ability to successfully hire, train, supervise, and manage new employees, obtain financing for capital needs, expand our systems effectively, allocate human resources optimally, assure regulatory compliance and address any regulatory issues, maintain clear lines of communication between our operational functions and our finance and accounting functions, and manage the pressures on management, administrative, operational, and financial infrastructure. There can be no assurance that we will be able to accurately anticipate and respond to the changing demands we will face as we continue to expand our operations, or that we will be able to manage growth effectively or achieve further growth at all. If our business does not continue to grow, or if we fail to manage any future growth effectively, our business, financial condition, and results of operations could be materially and adversely affected.

Our growth strategy is based on assumptions and estimates of management, which may not be accurate; additionally, macro trends and key partner actions are not fully within our control.

Our growth strategy and business outlook are based on estimates our management believes to be reasonable, but there are many factors that may be outside of management's control or may be difficult to predict. Some of these uncertainties include:

- Our current BaaS business is significantly dependent on T-Mobile, and T-Mobile's efforts to market the program and promote growth in accounts. If T-Mobile does not market the product as expected, or if there are changes in the economic relationship with T-Mobile or its investment appetite in the business, it could impact our financial projections and results of operations.
- Macro industry trends may impact the amounts of student disbursements or the likelihood that students choose a BankMobile-serviced account. ED regulation, industry competition, the rise of competing low-cost products, or other unknown shifts could impact growth in the student business. Student revenue growth is dependent on our ability to charge the current level of fees, which could be negatively impacted by competition or changes in industry trends. Revenue growth is also dependent on interchange income rates, ATM visits, and other factors that may shift over time.
- Interest rates are unknown. Higher rates of interest may reduce the relative attractiveness of the deposit products we service for our Partner Banks. Decreasing interest rates may reduce the servicing fees that are paid to us which could adversely affect our margins.

Our failure to meet our growth strategy could materially impact our business, financial condition, and results of operations, regardless of whether the failure to meet our strategy is due to factors in our control, or decisions by key partners or other external parties.

The partnership with Customers Bank and T-Mobile may expose us to additional risks.

In February 2017, Customers Bank entered into a significant strategic partnership with T-Mobile for the development and roll-out of a mobile banking platform, referred to as T-Mobile MONEY, which was publicly announced in the third quarter of 2018. As the former digital banking division of Customers Bank, BMTX was utilized by Customers Bank to develop and maintain the T-Mobile MONEY mobile banking platform. The T-Mobile MONEY program was extended to the Sprint customers acquired by T-Mobile in August 2020.

T-Mobile MONEY represents the most significant BaaS initiative undertaken by the Company to date. However, T-Mobile MONEY may not be as successful as currently expected for a variety of reasons, including customer adoption of the product, the level of marketing by T-Mobile, general economic conditions, competition and product alternatives, and other factors. If T-Mobile MONEY does not reach the anticipated activity levels or if the deposit balances sourced from T-Mobile MONEY customers are lower than projected, it could adversely affect our business, financial condition, and results of operations.

We have in the past, and will in the future, create new products in connection with the T-Mobile MONEY offering, many of which will be complex, with possible conditional requirements, options, and variations, along with changes to terms that necessitate additional disclosures or actions to comply with legal and regulatory requirements. The offerings through T-Mobile MONEY may be marketed similar to retail products, with a variety of ancillary offerings, such as rewards programs, further increasing the inherent compliance risk. While we will have final authority on the design of products, some components of the product life cycle may be managed by T-Mobile, such as promotions of the product. Since we will not have direct control over all aspects of the product life cycle, the relationship involves significant third-party relationship management requirements, indicating a significant level of inherent compliance risk.

Demographically, the T-Mobile MONEY product seeks to serve a broader and more diverse population than traditional banking. The BaaS market is very competitive, requiring products, channels, and services to be recalibrated often to remain attractive to potential customers and our BaaS partner. As such, the level and maturity of new product approval processes, change management, and the level of strategic planning must be sophisticated enough to respond to competitive demands with timely and meaningful evaluation of compliance risk.

Our agreements with our BaaS partner may expose us to additional compliance risk. For example, employees of our BaaS partner may be incentivized to promote products under a discretionary compensation program, thus increasing exposure to compliance risk. BaaS partnerships may also expose us to privacy concerns based on the partner's receipt and use of certain data regarding the account holders and their use of the program. Opt-out and notice disclosures may be required in connection with these risks.

Short message service ("SMS") text messaging is used extensively in carrying out service-related communications and occasionally in carrying out marketing-related communications. Since express consent is required for service-related communications to wireless subscribers, it will be critical to ensure that the language in disclosures and account agreements indicate this consent. Moreover, the consumer must have the right to revoke all these communications to their wireless numbers. Failure to comply with the Telephone Consumer Protection Act of 1991, enforced by the Federal Communications Commission ("FCC"), could result in significant litigation risk and potential fines to T-Mobile and/or to us.

The T-Mobile MONEY agreement has been renewed through February 2025, but may be terminated by T-Mobile with 30 days' written notice to Customers Bancorp, Inc.;

The Private Label Banking Program Agreement (the "PLBPA") that governs T-Mobile MONEY, is between Customers Bancorp, Inc. and T-Mobile. We do not contract directly with T-Mobile, but we are a beneficiary of the agreement through the Deposit Processing Services Agreement with Customers Bank. The PLBPA was entered into in February 2017 and had an initial term of three years. The term was subsequently extended an additional three years to February 2023. On February 22, 2023, the PLBPA was further extended to February 2025. T-Mobile may terminate the PLBPA with 30 days written notice to Customers Bancorp, Inc., with additional time allotted for wind-down procedures. T-Mobile's failure to continue the PLBPA for the full term may have a material adverse effect on our business. T-Mobile may also choose to renew the PLBPA in the future on terms that are different or less favorable to us, which would impact our business, financial condition, and results of operations.

The transition to a new partner bank for our Higher Education deposits and accounts exposes us to additional risks.

On December 1, 2023, we transferred the Higher Education deposits and accounts from Customers Bank to First Carolina Bank, a North Carolina chartered, non-member community bank ("FCB"). The Company's transition to its partnership with FCB exposes the Company to transitional risks such as the risk that the Company will not successfully integrate its operations and technologies with FCB's deposit and accounts processes, as well as risks inherent in carrying out necessary conversion processes, such as the loss of information and potential disruption to normal operations.

In addition to these transitional risks, the Company faces risks associated with its banking partner arrangements generally, including but not limited to, reputational risks due to material data breaches or other cybersecurity incidents at our partner bank, reputational risks due to illegal or otherwise disreputable business activities that could cause our reputation to be harmed by association with our partner bank, risks that our partner bank could lose its FDIC license, our partner bank could fail to maintain adequate risk management systems, or our partner bank could fail to maintain adequate regulatory capital potentially resulting in bankruptcy or insolvency. If any of the preceding actions were to occur, whether caused by our partner bank, or by factors beyond our partner bank's control, our business, financial condition, and results of operations could be adversely affected.

Termination of, or changes to, the MasterCard association registration could materially and adversely affect our business, financial condition, and results of operations.

The student checking account debit cards issued in connection with our Higher Education business and the consumer checking account debit cards issued in connection with our BaaS program are provided by MasterCard Inc. and are thus subject to MasterCard association rules that could subject us to a variety of fines or penalties that may be levied by MasterCard for acts or omissions by us or businesses that work with us. The card association registration is between our Partner Banks and MasterCard. There is a risk that our Partner Banks could choose not to sponsor us or MasterCard could choose not to accept us even if our Partner Banks sponsor us. The termination of the card association registration or any changes in card association or other network rules or standards, (including interpretation and implementation of existing rules or standards), to the extent that they increase the cost of doing business or limit our ability to provide products and services, could materially and adversely affect our business, financial condition, and results of operations.

To date we have derived our revenue from a limited number of products and markets. Our efforts to expand our market reach and our service and product offerings may not succeed.

Our BaaS strategy entails facilitating deposits and banking services between a customer and an FDIC insured partner bank. While we offer our digital banking platform and disbursements services to our customers, lending products and other services historically offered to non-enrolled students and other customers through our business have been limited. Many competitors offer a more diverse set of products and services to customers and operate in additional markets.

While we intend to eventually broaden the scope of products offered to customers with our banking partners through our BaaS and mobile banking product offerings, there can be no assurance that these efforts will be successful. Our failure to broaden the scope of the products we offer to potential customers may inhibit the growth of repeat business from customers and harm our operating results. There also can be no guarantee that we will be successful with respect to our expansion through our mobile banking platform with new partners and into new markets, which could also inhibit the growth of our business, financial condition, and results of operations.

The length and unpredictability of the sales cycle for signing potential Higher Education institutional clients and BaaS partners could delay new sales of our products and services, which could materially and adversely affect our business, financial condition, and results of operations.

The sales cycle between our business' initial contact with potential Higher Education institutional clients and BaaS partners, and the signing of a contract with that client or partner, can be lengthy, as the individual agreements need to be negotiated and partnerships customized. As a result of this lengthy sales cycle, our ability to accurately forecast the timing of revenues associated with new sales is limited. The sales cycle will vary widely due to significant uncertainties, over which we have little or no control, including:

- the individual decision-making processes of each Higher Education institutional client or BaaS partner, which typically include extensive and lengthy evaluations and will require spending substantial time, effort, and money educating each client and partner about the value of our products and services;
- the budgetary constraints and priorities and budget cycle of each Higher Education institutional client or partner;
- the reluctance of higher education staff or BaaS partner, to change or modify existing processes and procedures; and
- the amount of customization and negotiation required for any given collaboration.

In addition, there is significant upfront time and expense required to develop relationships and there is no guarantee that a potential client will sign a contract with us even after substantial time, effort, and money has been spent on the potential client. A delay in our ability or a failure to enter into new contracts with potential Higher Education institutional clients and BaaS partners could materially and adversely affect our business, financial condition, and results of operations.

We capitalize certain costs related to internal software development; this capitalized asset could become impaired if there are changes in our business model that impact the expected use of that developed software.

At December 31, 2023, the net carrying value of our developed software was \$16.2 million, which represents approximately 30% of our total consolidated assets. This amount reflects the capitalized cost, net of accumulated amortization, of software that we developed internally as well as the remaining value of the acquired Higher One Disbursement business developed software. Changes in technology, our internal processes, or our business strategies or those of our partners could impact our ability to realize the value of our developed software, which could result in impairment.

Our operating results may suffer because of substantial and increasing competition in the industries in which we do business.

The market for our products and services is competitive, continually evolving, and, in some cases, subject to rapid technological change. Our disbursement services compete against all forms of payment, including paper-based transactions (principally cash and checks), electronic transactions such as wire transfers and Automated Clearing House (“ACH”) payments, and other electronic forms of payment, including card-based payment systems. Many competitors, including Heartland Payment Systems and Nelnet, Inc., provide payment software, products, and services that compete with those that we offer, now and in the future. In addition, the banking products and services offered on our platform will also compete with banks that focus on the higher education market, including U.S. Bancorp and Wells Fargo & Company. Traditional banks may become future competitors if they begin to focus on higher education institutions in a manner similar to us. We also face significant competition for our BaaS products from other BaaS providers and digital consumer banking platforms such as Chime and Green Dot, as well as from traditional consumer banks.

Many of our competitors have substantially greater financial and other resources than we have, may in the future offer a wider range of products and services, and may use advertising and marketing strategies that achieve broader brand recognition or acceptance. In addition, competitors may develop new products, services, or technologies that render our products, services, or technologies obsolete or less marketable. If we are unable to compete effectively against our competitors, our business, financial condition, and results of operations will be materially and adversely affected.

We depend on a strong brand and a failure to maintain and develop that brand in a cost-effective manner may hurt our ability to expand our customer base.

Maintaining and developing the “BankMobile,” “BankMobile’s Student Banking” and “BankMobile’s Disbursements” brands, which we license to our bank partners, is critical to expanding and maintaining our base of Higher Education institution clients, students, and other account holders.

We believe the importance of brand recognition will increase as competition in our market further intensifies. Maintaining and developing our brand will depend largely on our ability to continue to provide high quality products and services at cost effective and competitive prices, as well as after-sale customer service. While we intend to continue investing in our brand, no assurance can be given as to the success of these investments. If we fail to maintain and enhance our brand, incur excessive expenses in this effort, or our reputation is otherwise tainted, including by association with the wider financial services industry or because of data security breaches or negative press, we may be unable to maintain loyalty among our existing customers or attract new customers, which could materially and adversely affect our business, financial condition, and results of operations.

We may be liable to or we may lose customers if we provide poor service or if we experience systems or product failures.

We are required to fulfill our contractual obligations with respect to our products and services and offer high quality service to meet the expectations of customers. Failure to meet these expectations or fulfill our contractual obligations could cause us to lose customers and bear additional liability.

Because of the large amount of data we collect and manage, hardware failures and errors in our systems could result in data loss or corruption or cause the information that we collect to be incomplete or contain significant inaccuracies. For example, errors in our processing systems could delay disbursements or cause disbursements to be made in the wrong amounts or to the wrong person.

Our systems may also experience service interruptions as a result of undetected errors or defects in software, fire, natural disasters, power loss, disruptions in long distance or local telecommunications access, fraud, terrorism, accident, or other similar reason, in which case we may experience delays in returning to full service, especially with regard to data centers and customer service call centers. If problems such as these occur, our customers may seek compensation, withhold payments, seek full or partial refunds, terminate their agreements, or initiate litigation or other dispute resolution procedures. In addition, we may be subject to claims made by third-parties also affected by any of these problems.

We may be liable to or we may lose customers if any agreements that we maintain with colleges, universities, and our BaaS partner are terminated, or if other performance triggers or other performance conditions are triggered.

Our agreements with colleges, universities, and our BaaS partner contain and will contain certain termination rights, performance triggers, and other conditions which, if exercised or triggered, may result in penalties and/or early termination of such agreements, which could cause us to be liable to customers or lose customers, thereby materially impacting our business, financial condition, and results of operations.

Demand for our products and services may decline if we do not continue to innovate or respond to evolving technological changes.

We operate in a dynamic industry characterized by rapidly evolving technology and frequent product and service introductions. We rely on proprietary technology to create efficiencies and pass on cost savings to customers and make our platform convenient for customers to access. In addition, we may increasingly rely on technological innovation as we introduce new products, expand current products into new markets, and operate a full service digital banking platform. These new products and services may include applications or financial-related services that implement artificial intelligence, machine learning, robotics, blockchain, or new approaches to data mining. Our success depends on our ability to invest in cybersecurity protection systems that will adequately protect our customers as these technologies continue to evolve. The process of developing new technologies and products is complex, and if we are unable to successfully innovate and continue to deliver a superior customer experience, customers' demand for our products and services may decrease and our growth and operations may be harmed. Additionally, we cannot predict which technological developments or innovations will become widely adopted or how those technologies may be regulated. We also may not be able to effectively market new technology-driven products and services to our customers. Failure to successfully keep pace with and adapt to technological change affecting the financial services industry could materially impact our business, financial condition, and results of operations.

A change in the availability of student loans or financial aid, as well as budget constraints, could materially and adversely affect our financial performance by reducing demand for our services.

The higher education industry depends heavily upon the ability of students to obtain student loans and financial aid. As part of our contracts with higher education institutional clients that use our disbursements services, students' financial aid and other refunds are sent to us for disbursement. The fees that we will charge most of our clients will be based on the number of financial aid disbursements made to students. In addition, our relationships with higher education institutional clients will provide us with a market for BankMobile Vibe accounts, from which we anticipate we will derive a significant proportion of our revenues. If the availability of student loans and financial aid were to decrease, the number of enrolled students could decrease, and our addressable market for student disbursement services would shrink. Future legislative and executive branch efforts to reduce the U.S. federal budget deficit or worsening economic conditions may require the government to severely curtail its financial aid spending, which could materially and adversely affect our business, financial condition, and results of operations. Changes in the availability and cost of student loans could also affect enrollment, in turn affecting our business, financial condition, and results of operations.

Our disbursement business depends in part on the current government financial aid regime that relies on the outsourcing of financial aid disbursements through higher education institutions.

In general, the U.S. federal government distributes financial aid to students through higher education institutions as intermediaries. Following the receipt of financial aid funds and the payment of tuition and other expenses, higher education institutions have typically processed refund disbursements to students by preparing and distributing paper checks. Our disbursements service provides higher education institutional clients with an electronic system for improving the administrative efficiency of this refund disbursement process. If the government, through legislation or regulatory action, restructured the existing financial aid regime in such a way that reduced or eliminated the intermediary role played by higher education financial institutions or limited or regulated the role played by service providers such as us, our business, financial condition, and results of operations and prospects for future growth could be materially and adversely affected.

Global economic and other conditions may adversely affect trends in consumer spending and demand for our products and services, which could materially and adversely affect our business, financial condition, and results of operations.

A decrease in consumer confidence due to the weakening of the global economy, may cause decreased spending among our customers and may decrease the use of account and card products and services. Factors such as: increases in college tuition, stagnation, or reduction in available financial aid, and reductions in the size of disbursements, may restrict spending among college students, which would reduce the use of our account and debit card products and services. Weakening economic conditions, such as decreases in consumer spending, increased consumer credit defaults and bankruptcies, inflation, and rising unemployment, may also adversely affect the demand for and use of our BaaS products, which could materially and adversely affect our business, financial condition, and results of operations.

The U.S. economy and financial markets have experienced volatility in recent years and may continue to do so in the foreseeable future. Robust demand, labor shortages and supply chain constraints has led to persistent inflationary pressures throughout the economy. Amidst these uncertainties, financial markets have continued to experience volatility. If financial markets remain volatile or if the aforementioned conditions result in further economic stress or recession, the performance of our business, which relies on the banking industry, could be significantly impacted.

Data-breaches, cybersecurity incidents, unauthorized access to or disclosure of data relating to clients, fraudulent activity, and infrastructure failures could materially and adversely affect our reputation or harm our financial condition and results of operations.

We have access to certain “personally identifiable” information of customers, which customers expect will be maintained confidentially. It is possible that hackers, customers, or employees acting unlawfully or contrary to our policies or other individuals, could improperly access our or our vendors’ systems and obtain or disclose data about customers. Further, because customer data may also be collected, stored, or processed by third-party vendors, it is possible that these vendors could intentionally or negligently disclose data about our clients or customers. Data breaches could also occur at our Partner Banks, Higher Education institution clients, or at our BaaS partner, which could negatively affect our reputation, relationships with end users, and could harm the Company, our clients, or our customers. Any such breaches or loss of data could negatively affect our business, growth prospects, financial condition, and results of operations.

We rely to a large extent on sophisticated information technology systems, databases, and infrastructure, and take reasonable steps to protect them. However, due to their size, complexity, content, and integration with or reliance on third-party systems, they are potentially vulnerable to breakdown, malicious intrusion, natural disaster, and random attack, all which pose a risk that sensitive data may be exposed to unauthorized persons or to the public. A breach of our information systems could lead to fraudulent activity, including but not limited to, identity theft, losses on the part of banking customers, additional security costs, negative publicity, and damage to our reputation and brand.

There have been several cyberattacks on websites of large financial services companies. Even if not directed at us specifically, attacks on other entities with whom we do business, or on whom we otherwise rely, or attacks on financial or other institutions important to the overall functioning of the financial system could adversely affect, directly or indirectly, aspects of our business.

Cyberattacks on third-party retailers or other business establishments that widely accept debit card or check payments could compromise sensitive customer information, such as debit card and account numbers. Such an attack could result in significant costs to the Company or our partners, such as costs to reimburse customers, reissue debit cards, and open new customer accounts.

In addition, our customers could be subject to scams that may result in the release of sufficient information concerning the customer or our accounts to allow others unauthorized access to our accounts or our systems (e.g., “phishing” and “smishing”). The ability of customers to bank remotely, including online and through mobile devices, requires secure transmission of confidential information and increases the risk of data security breaches. Because the techniques used to attack financial services company communications and information systems change frequently (and generally increase in sophistication), attacks are often not recognized until launched against a target and we may be unable to address these techniques in advance of attacks, including by implementing adequate preventative measures. We may also be unable to prevent attacks that are supported by

foreign governments or other well-financed entities and that may originate from less regulated and remote areas of the world. Claims for compensatory or other damages may be brought against us as a result of a breach of our systems or fraudulent activity. If we are unsuccessful in defending against any resulting claims, we may be forced to pay damages, which could materially and adversely affect our profitability.

In addition, a significant incident of fraud, or an increase in fraud levels generally involving our products, such as our debit cards, could result in reputational damage, which could reduce the use of our products and services. Such incidents of fraud could also lead to regulatory intervention, which could increase our compliance costs. Accordingly, account data breaches and related fraudulent activity could have a material adverse effect on our future growth prospects, business, financial condition, and results of operations.

If we are unable to protect or enforce our intellectual property rights, we may lose a competitive advantage and incur significant expenses.

Our business depends on certain registered and unregistered intellectual property rights and proprietary information. We rely on a combination of patent, copyright, trademark, service mark and trade secret laws, as well as nondisclosure agreements and technical measures (such as the password protection and encryption of our data and systems) to protect our technology and intellectual property rights, including our proprietary software. Existing laws afford only limited protection for our intellectual property rights. Intellectual property rights or registrations granted to us may provide an inadequate competitive advantage or be too narrow to protect our products and services. Similarly, there is no guarantee that our pending applications for intellectual property protection will result in registrations or issued patents or sufficiently protect our rights. The protections may not be sufficient to prevent unauthorized use, misappropriation or disclosure of our intellectual property or technology, and may not prevent competitors from copying, infringing, or misappropriating our products and services. We cannot be certain that others will not independently develop, design around, or otherwise acquire equivalent or superior technology or intellectual property rights. If we are unable to adequately protect our intellectual property rights, our business and growth prospects could be materially and adversely affected.

One or more of our issued patents or pending patent applications may be categorized as so-called “business method” patents. The general validity of software patents and business method patents has been challenged in a number of jurisdictions, including the United States. Our patents may become less valuable or unenforceable if software or business methods are found to be a non-patentable subject matter or if additional requirements are imposed that our patents do not meet.

We also rely on numerous marks, trademarks, and service marks, including “BankMobile,” “BankMobile Vibe,” and “BankMobile Disbursements.” In addition, we rely on certain affiliated brands licensed to us or our bank partners such as “T-Mobile Money” and any other brands that may be developed as part of our BaaS business. If the validity of these marks were challenged, our brand may be damaged or we may be required to face considerable expense defending or changing our marks.

We may incorporate open source software into our products. While the terms of many open source software licenses have not been interpreted by U.S. or foreign courts, such licenses could be construed in a manner that imposes conditions or restrictions on our ability to offer our products and services. In such event, we could be required to make any open source code utilized in certain of our proprietary software available to third-parties, (including competitors), to seek licenses from third-parties, to re-engineer, or to discontinue the offering of our products or services, or we could become subject to other consequences, any of which could adversely affect our business, financial condition, and results of operations.

We may be subject to claims that our services or solutions violate the patents or other intellectual property of others, which would be costly and time-consuming to defend. If our services and solutions are found to infringe the patents or other intellectual property rights of others, we may be required to change our business practices or pay significant costs and monetary penalties.

The services and solutions that we provide may infringe upon the patents or other intellectual property rights of others. The industry in which we operate is characterized by frequent claims of patent or other intellectual property infringement. We cannot be sure that our services and solutions, or the products of others that we use or offer to our clients, do not and will not infringe upon the patents or other intellectual property rights of third-parties, and we may have infringement claims asserted against us or our clients. If others claim that we have infringed upon their patents

or other intellectual property rights, we could be liable for significant damages and incur significant legal fees and expenses. In addition, we have agreed to indemnify many of our clients against claims that our services and solutions infringe upon the proprietary rights of others. In some instances, the potential amount of these indemnities may be greater than the revenues received from the client.

Regardless of merit, any such claims could be time-consuming, result in costly litigation, be resolved on unfavorable terms, damage our reputation, or require us to enter into royalty or licensing arrangements. Such results could limit our ability to provide a solution or service to clients and have a material adverse effect on our business, results of operations, or financial condition.

The fees that we will generate are subject to competitive pressures, which may materially and adversely affect our revenue and profitability.

We generate revenue from, among other sources, agreements with our Partner Banks to share the banking services fees charged to our account holders, interchange fees related to purchases made through our debit cards, servicing fees from our Partner Banks, and fees charged to our Higher Education institution clients.

On March 22, 2023, the Company and Customers Bank replaced the Deposit Processing Services Agreement by entering into the 2023 Deposit Servicing Agreement, under which, effective March 31, 2023, the Company will perform, on behalf of Customers Bank, Customer Bank's services, duties, and obligations under the PLBPA by and between Customers Bank and T-Mobile USA, Inc. that are not required by Applicable Law (as defined in the 2023 Deposit Servicing Agreement) to be provided by an FDIC insured financial institution.

Under the 2023 Deposit Servicing Agreement, as amended, Customers Bank will retain any and all revenue generated from the funds held in the deposit accounts, and Customers Bank will pay the Company monthly servicing fees as set forth in the 2023 Deposit Servicing Agreement. In addition, the Company will have the right to retain all revenue generated by or from the Depositor Accounts (as defined in the 2023 Deposit Servicing Agreement), including, but not limited to, fees and all other miscellaneous revenues. The Company also shall retain all fees (including without limitation interchange fees), and charges generated by its ATMs and from its payment processing services. The Company will be solely liable for any and all fees, expenses, costs, reimbursements, and other amounts that are or may become due and payable under the PLBPA, including, without limitation, any Durbin-Exempt Interchange (as defined in the 2023 Deposit Servicing Agreement) fees payable to T-Mobile under the PLBPA. Customers Bank may set off any and all PLBPA amounts against any compensation payable to the Company under the 2023 Deposit Servicing Agreement.

On March 16, 2023, the Company entered into a Deposit Servicing Agreement (the "FCB Deposit Servicing Agreement") with a new partner bank, FCB, which provides that FCB will establish and maintain deposit accounts and other banking services in connection with customized products and services offered by the Company to its Higher Education institution clients, and the Company will provide certain other related services in connection with the accounts.

In an increasingly price-conscious and competitive market, it is possible that to maintain our competitive position with higher education institutions and our BaaS partner, we may have to decrease the fees charged for our services. Similarly, in order to maintain our competitive position with our Partner Banks, we may need to reduce the servicing fees we charge. In order to maintain our competitive position with account holders, we and our Partner Banks may need to reduce banking service fees charged to account holders. Changes to the agreements and structures under which these fees and expenses are prescribed could materially impact our business, financial condition, and results of operation.

We outsource critical operations, which exposes us to risks related to our third-party vendors.

We have entered into contracts with third-party vendors to provide critical services, technology, and software used in our operations. These outsourcing partners include, among others, Fidelity National Information Services Inc. ("FIS"), which provides back-end account and transaction data processing as well as web and application hosting services in secure data centers; MasterCard, which provides the payment network for our cards, as well as for certain other transactions; and Ubiquity Global Services, which provides customer care services.

Accordingly, we depend, in part, on the services, technology, and software of these and other third-party service providers. In the event that these service providers fail to maintain adequate levels of support, do not provide high quality service, discontinue their lines of business, terminate our contractual arrangements, or cease or reduce operations, we may be required to pursue new third-party relationships, which could materially disrupt our operations and could divert management's time and resources. We may also be unable to establish comparable new third-party relationships on as favorable terms or at all, which could materially and adversely affect our business, financial condition, and results of operations.

Even if we are able to obtain replacement technology, software, or services, there may be a disruption or delay in our ability to operate our business or to provide products and services, and the replacement technology, software, or services might be more expensive than those we have currently. The process of transitioning services and data from one provider to another can be complicated, time consuming, and may lead to significant disruptions in our business. In addition, any failure by third-party service providers to maintain adequate internal controls could negatively affect our internal control over financial reporting, which could impact the preparation and quality of our financial statements.

Failure to maintain an effective system of disclosure controls and remediate the material weakness in our internal control over financial reporting could affect our ability to produce timely and accurate financial statements or comply with applicable laws and regulations.

As a public company, we are required to comply with the SEC's rules implementing Sections 302 and 404 of the Sarbanes-Oxley Act. The Company is an emerging growth company and may choose to take advantage of exemptions from various reporting requirements applicable to other public companies but not to emerging growth companies. As an emerging growth company, the Company is not subject to Section 404(b) of the Sarbanes-Oxley Act of 2002, which would require that our independent auditors review and attest as to the effectiveness of our internal control over financial reporting. Management is required to make an annual assessment of internal controls over financial reporting pursuant to Section 404(a), including the disclosure of any material weaknesses identified by management in internal control over financial reporting.

As described in Part II, Item 9A — "Controls and Procedures", Management has identified a material weakness in the Company's internal control over financial reporting. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

The Company has developed a remediation plan to address the identified material weakness. If the Company's remediation efforts are insufficient or if additional material weaknesses in internal control over financial reporting are discovered or occur in the future, the Company's consolidated financial statements may contain material misstatements and it could be required to revise or restate its financial results, which could materially and adversely affect the Company's business, results of operations and financial condition, restrict its ability to access the capital markets, require it to expend significant resources to correct the material weaknesses, subject it to fines, penalties, or judgments, harm its reputation, or otherwise cause a decline in investor confidence.

Any inability to successfully integrate future mergers and acquisitions could have a material adverse effect on us.

Mergers and acquisitions typically require integration of the acquired companies' sales and marketing, operating, manufacturing, distribution, finance, and administrative functions, as well as exposure to different legal and regulatory regimes in jurisdictions in which we have not previously operated. We may not be able to integrate successfully any business we acquire into our existing business, or may not be able to do so in a timely, efficient and cost-effective manner. Our inability to complete the integration of new businesses in a timely and orderly manner could increase costs and lower profits.

Acquisition or other integration-related issues could divert management's attention and resources from our day-to-day operations, cause significant disruption to our businesses, and lead to substantial additional costs. Our inability to realize the anticipated benefits of a merger or acquisition, or to successfully integrate acquired companies, as well as other transaction-related issues could have a material adverse effect on our businesses, financial condition, and results of operations.

In addition, possible future mergers, acquisitions, or dispositions may trigger a review by the U.S. Department of Justice, the FDIC, and/or the State Attorneys General under their respective regulatory authority, focusing on the effects on competition, including the size or structure of the relevant markets and the pro-competitive benefits of the transaction. Any delay, prohibition, or modification required by regulatory authorities could adversely affect the terms of a proposed merger or acquisition or could require us to modify or abandon an otherwise attractive acquisition opportunity.

Risks Related to our Common Stock and Warrants

An active, liquid trading market for our common stock may not be sustained.

We cannot predict the extent to which investor interest in our company will lead to the further development of an active trading market on NYSE American. If an active and liquid trading market is not sustained, you may have difficulty selling our common stock. Among other things, in the absence of a liquid public trading market:

- you may not be able to liquidate your investment in shares of common stock;
- you may not be able to resell your shares of common stock at or above the price for which you purchased them;
- the market price of shares of common stock may experience significant price volatility; and
- there may be less efficiency in carrying out your purchase and sale orders.

If securities analysts publish negative evaluations of our common stock or if analysts cease to report on our common stock or their evaluations of our stock are downgraded, the price of our common stock could decline.

The trading market for our common stock relies in part on the research and reports that industry or financial analysts publish about us or our business. We currently have limited research coverage by industry and financial analysts. However, the few analysts that provide coverage of us could stop and the trading price of our stock could be negatively affected. If one or more of the analysts covering our business downgrade their evaluations of our stock, the price of our common stock could decline. If one or more of these analysts cease to report on our common stock, we could lose visibility in the market for our stock, which in turn could cause our common stock price to decline.

Substantial future sales of our common stock, or the perception in the public markets that these sales may occur, may depress our stock price.

Sales of substantial amounts of our common stock in the public market, or the perception that these sales could occur, could adversely affect the price of our common stock, and could impair our ability to raise capital through the sale of additional shares. Certain shares of our common stock are freely tradable without restriction under the Securities Act, except for any shares of our common stock that may be held or acquired by our directors, executive officers, and other affiliates, as that term is defined in the Securities Act, which are restricted securities under the Securities Act. Restricted securities may not be sold in the public market unless the sale is registered under the Securities Act or an exemption from registration is available.

Certain of our stockholders and members of our management have rights, subject to certain conditions, to require us to file registration statements covering shares of our common stock or to include shares in registration statements that we may file for ourselves or other stockholders. Any such sales, including sales of a substantial number of shares, or the perception in the market that the holders of a large number of shares intend to sell shares, could reduce the market price of our common stock. We may also issue shares of our common stock or securities convertible into our common stock from time to time in connection with financings, acquisitions, investments, or otherwise. Any such issuance could result in ownership dilution to you as a stockholder. and cause the trading price of our common stock to decline.

Provisions in our charter and Delaware law may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our common stock and could entrench management.

Our amended and restated certificate of incorporation and bylaws contain provisions to limit the ability of others to acquire control of the Company or cause us to engage in change-of-control transactions, including, among other things:

- provisions that authorize our Board of Directors, without action by our stockholders, to authorize by resolution the issuance of shares of preferred stock and to establish the number of shares to be included in such series, along with the preferential rights determined by our Board of Directors;
- our Board of Directors may also, subject to the rights of the holders of preferred stock, authorize shares of preferred stock to be increased or decreased by the approval of the Board of Directors and the affirmative vote of the holders of a majority in voting power of the outstanding shares of capital stock of the corporation;
- provisions that impose advance notice requirements, minimum shareholding periods, and ownership thresholds, and other requirements and limitations on the ability of stockholders to propose matters for consideration at stockholder meetings; and
- a staggered Board whereby our Directors are divided into three classes, with each class subject to retirement and reelection once every three years on a rotating basis.

These provisions could have the effect of depriving stockholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging third-parties from seeking to obtain control of our business in a tender offer or similar transaction. With our staggered Board of Directors, at least two annual meetings of stockholders will generally be required in order to effect a change in a majority of our Directors. Our staggered Board of Directors can discourage proxy contests for the election of Directors and purchases of substantial blocks of our shares by making it more difficult for a potential acquirer to gain control of our Board of Directors in a relatively short period of time.

Our amended and restated certificate of incorporation provides, subject to limited exceptions, that the Court of Chancery of the State of Delaware will be the sole and exclusive forum for certain stockholder litigation matters, which could limit stockholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers, employees, or stockholders.

Our amended and restated certificate of incorporation requires, to the fullest extent permitted by law, that derivative actions brought in our name, actions against directors, officers, and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and consented to the forum provisions in our amended and restated certificate of incorporation.

This choice of forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our directors, officers, other employees, or stockholders, which may discourage lawsuits with respect to such claims. Alternatively, if a court were to find the choice of forum provision contained in our amended and restated certificate of incorporation to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, operating results, and financial condition.

We may redeem unexpired warrants prior to their exercise at a time that is disadvantageous to the holder, thereby making the warrants worthless.

We have the ability to redeem outstanding warrants (excluding any placement warrants held by our sponsor or its permitted transferees) at any time after they become exercisable and prior to their expiration, at \$0.01 per warrant, provided that the last reported sales price (or the closing bid price of our common stock in the event the shares of our common stock are not traded on any specific trading day) of our common stock equals or exceeds \$24.00 per share for any 20 trading days within a 30 trading-day period ending on the third business day prior to the date we send proper notice of such redemption, provided that on the date we give notice of redemption, and during the entire period

thereafter until the time we redeem the warrants, we have an effective registration statement under the Securities Act covering the shares of our common stock issuable upon exercise of the warrants and a current prospectus relating to them is available.

If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. Redemption of the outstanding warrants could force a warrant holder (i) to exercise warrants and pay the exercise price therefor at a time when it may be disadvantageous to do so, (ii) to sell warrants at the then-current market price when the holder might otherwise wish to hold the warrants, or (iii) to accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, will be substantially less than the market value of the warrants.

Our warrants could increase the number of shares eligible for future resale in the public market and result in dilution to our stockholders.

As of December 31, 2023, there were warrants outstanding to purchase an aggregate of 22,703,004 shares of our common stock. These warrants consist of 17,294,044 public warrants and 5,408,960 private placement warrants. Each warrant entitles its holder to purchase one share of our common stock at an exercise price of \$11.50 per share and will generally expire at 5:00 p.m., New York time, on January 4, 2026, or earlier upon redemption of our common stock. To the extent warrants are exercised, additional shares of our common stock will be issued, which will result in dilution to our then existing stockholders and increase the number of shares eligible for resale in the public market. Sales of substantial numbers of such shares in the public market could depress the market price of our common stock.

Regulatory Risks

A change in regulations related to interchange or methods of payments could materially and adversely affect our financial performance.

Federal, state, or network regulations could be changed in the future in a way that could negatively affect our business. Additionally, with the advent of creative money movement systems that bypass card networks, a large future proportionate share of “spend” could leverage a less income-producing method. In turn, these events could significantly reduce our interchange income from which we currently derive a significant proportion of our revenues, which could adversely affect our financial condition and results of operations.

We are subject to various regulations related to higher education and disbursements.

Because we provide services to some higher education institutions that involve handling federal student financial aid funds, we are considered a “third-party servicer” under Title IV of the Higher Education Act of 1965, which governs the administration of federal student financial aid programs. Those regulations require a third-party servicer to submit an annual compliance audit conducted by outside independent auditors that cover the servicer’s Title IV activities. Each year, we are required to submit a “Compliance Attestation Examination of the Title IV Student Financial Assistance Programs” audit to the ED, which includes a report by an independent audit firm. This yearly compliance audit submission to ED provides comfort to our Higher Education institution clients that we are in compliance with applicable third-party servicer regulations. We also provide and will provide this compliance audit report to clients upon request to help them fulfill their compliance audit obligations as Title IV participating institutions.

Under ED’s regulations, a third-party servicer that contracts with a Title IV institution acts in the nature of a fiduciary in the administration of Title IV programs. Among other requirements, the regulations provide that a third-party servicer is jointly and severally liable with its client institution for any liability to ED arising out of the servicer’s violation of Title IV or its implementing regulations, which could subject us to material fines related to acts or omissions of entities beyond our control. ED is also empowered to limit, suspend, or terminate the violating servicer’s eligibility to act as a third-party servicer and to impose significant civil penalties on the violating servicer. We may enter into “Tier 1” arrangements with educational institutions, which are subject to more stringent regulations than certain other “Tier 2” or “non-covered” arrangements.

Additionally, on behalf of our Higher Education institution clients, we are required to comply with ED's cash management regulations regarding payment of financial aid credit balances to students and providing bank accounts to students that may be used for receiving such payments. In the event ED concludes that we have violated Title IV or its implementing regulations and should be subject to one or more sanctions, our business and results of operations could be materially and adversely affected. There is limited enforcement and interpretive history of Title IV regulations.

Final rules relating to Title IV Cash Management were published in the Federal Register on October 30, 2015. The Final Rules include, among others, provisions related to (i) restrictions on the ability of higher education institutions and third-party servicers like us to market financial products to students including sending unsolicited debit cards to students, (ii) prohibitions on the assessment of certain types of account fees on student account holders, and (iii) requirements related to ATM access for student account holders that became effective as of July 1, 2016.

These regulations also require institutions to: offer students additional choices regarding how to receive their student aid funds (including prohibiting an institution from requiring students to open an account into which their credit balances must be deposited); provide a list of account options from which a student may choose to receive credit balance funds electronically, where each option is presented in a neutral manner and the student's preexisting bank account is listed as the first and most prominent option with no account preselected; ensure electronic payments made to a student's preexisting account are initiated in a manner as timely as, and no more onerous than, payments made to an account with the institution; include additional restrictions on the institution's use of personally identifiable information; require that the terms of the contractual arrangements between institutions and schools be publicly disclosed; and require that schools establish and evaluate the contractual arrangements with institutions in light of the best financial interests of students. These regulations increase our compliance costs and could negatively affect our results of operations.

We may face additional regulation by federal and state regulators in the future given the nature of our operations.

Although we are not a bank, and do not hold a bank charter, we operate in a highly regulated environment as a service provider in facilitating deposits between a customer and our Partner Banks. As a result, we may in the future become subject to supervision, regulation, and examination by various federal and state regulators in addition to regulations related to higher education disbursements, including the Consumer Financial Protection Bureau ("CFPB"), and various state regulatory agencies. The CFPB provides regulatory oversight with respect to compliance under consumer laws and regulations. While we are not currently directly supervised by the CFPB, the CFPB has the ability to influence policy and may have the ability to regulate us in the future as regulators seek to increase and ensure fair access to banking products and services. Any such changes, if applicable to us, may subject us to additional costs, adversely impact our income, and increase our litigation risk should we fail to appropriately comply, may increase costs associated with responding to or defending such actions, and may also impact consumer behavior, limit the types of services and products we may offer, and change the manner in which we operate. In addition, changes to laws and regulations could negatively impact demand for our products and services.

Our Partner Banks are subject to extensive regulation as a bank, which could limit or restrict our activities.

Banking is a highly regulated industry and our Partner Banks are subject to examination, supervision, and comprehensive regulation by various regulatory agencies. As a service provider, we will be required to comply with many of these regulations on behalf of our Partner Banks, which will be costly and restrict certain of our activities, including loans and interest rates charged, and interest rates paid on deposits.

The laws and regulations applicable to the banking industry could change at any time, and we cannot predict the effects of these changes on our Partner Banks, and our own business and profitability. Because government regulation greatly affects the business and financial results of all commercial banks, our cost of compliance could adversely affect our ability to operate profitably.

The Dodd-Frank Act Wall Street Reform and Consumer Protection Act, enacted in July 2010, which we refer to as the Dodd-Frank Act, instituted major changes to the banking and financial institutions regulatory regimes in light of the recent performance of and government intervention in the financial services sector. The "Durbin Amendment" of the Dodd-Frank Act limits the amount of interchange fees chargeable by a bank with over \$10 billion in assets. Additional legislation and regulations or regulatory policies, including changes in interpretation or implementation of statutes, regulations, or policies, could significantly affect our revenues, business, and operations in substantial and unpredictable ways.

Further, regulators have significant discretion and power to prevent or remedy unsafe or unsound practices or violations of laws by banks in the performance of their supervisory and enforcement duties. The exercise of this regulatory discretion and power could have a negative impact on our Partner Banks, and by extension, a negative impact on us. Failure to comply with laws, regulations, or policies could result in sanctions by regulatory agencies, civil money penalties, and/or reputational damage, which could have a material adverse effect on our Partner Banks and on our own business, financial condition, and results of operations.

We are subject to the Family Educational Rights and Privacy Act (“FERPA”) and Gramm-Leach-Bliley Act (“GLBA”)

Our Higher Education institution clients are subject to the Family Educational Rights and Privacy Act of 1995 (“FERPA”), which provides, with certain exceptions, that an educational institution that receives any federal funding under a program administered by ED may not have a policy or practice of disclosing education records or “personally identifiable information” from education records, other than directory information, to third-parties without the student’s or parent’s written consent. Our Higher Education institution clients disclose to us certain non-directory information concerning their students, including contact information, student identification numbers, and the amount of students’ credit balances. We believe that our Higher Education institution clients are and will be able to disclose this information without the students’ or their parents’ consent pursuant to one or more exceptions under FERPA. However, if ED asserts that we do not fall into one of these exceptions, or if future changes to legislation or regulations require student consent before our Higher Education institution clients can disclose this information, a sizable number of students may cease using our products and services, which could materially and adversely affect our business, financial condition, and results of operations.

Additionally, as we are indirectly subject to FERPA, we cannot permit the transfer of any personally identifiable information to another party other than in a manner in which a higher education institution may disclose it. In the event that we re-disclose student information in violation of this requirement, FERPA requires our clients to suspend our access to any such information for a period of five years. Any such suspension could have a material adverse effect on our business, financial condition, and results of operations.

We also are and will be subject to certain other federal rules regarding safeguarding personal information, including rules implementing the privacy provisions of the Gramm-Leach-Bliley Act of 1999, or GLBA State Laws. We may also become subject to similar state laws and regulations, including those that restrict higher education institutions from disclosing certain personally identifiable information of students. State Attorneys General and other enforcement agencies may monitor our compliance with state and federal laws and regulations that affect our business, including those pertaining to higher education and banking, and conduct investigations of our business that are time consuming and expensive and could result in fines and penalties that have a material adverse effect on our business, financial condition, and results of operations.

Additionally, individual state legislatures may propose and enact new laws that will restrict or otherwise affect our ability to offer our products and services, which could have a material adverse effect on our business, financial condition, and results of operations.

In addition, regulations related to higher education change frequently, and new or additional regulations in the future may increase compliance costs, limit our business and prospects and adversely affect our results of operations.

Compliance with the various complex laws and regulations is costly and time consuming, and failure to comply could have a material adverse effect on our business. Additionally, increased regulatory requirements on our businesses may increase costs, which could materially and adversely affect our business, financial condition, and results of operations. If we do not devote sufficient resources to additional compliance personnel and systems commensurate with our anticipated growth, we could be subject to fines, regulatory scrutiny, or adverse public reception to our products and services.

General Risk Factors

Our ability to limit our liabilities by contract or through insurance may be ineffective or insufficient to cover future liabilities.

We will attempt to limit, by contract, our liability for damages arising from negligence, errors, mistakes, or security breaches. Contractual limitations on liability, however, may not be enforceable or may otherwise not provide sufficient protection to us from liability for damages. We will maintain liability insurance coverage, including coverage for errors and omissions. It is possible, however, that claims could exceed the amount of applicable insurance coverage, if any, or that this coverage may not continue to be available on acceptable terms or in sufficient amounts. Even if these claims do not result in liability to us, investigating and defending against them could be expensive and time consuming and could divert management's attention away from our operations. In addition, negative publicity caused by these events may delay market acceptance of our products and services, any of which could materially and adversely affect our reputation and business.

Our management team has limited experience in managing a public company and the business and financing activities of an organization of our size, which could impair our ability to comply with legal and regulatory requirements.

Our management team has had limited public company management experience or responsibilities, and has limited experience managing a business and related financing activities of our size. This could impair our ability to comply with various legal and regulatory requirements, such as public company compliance, and filing required reports and other required information on a timely basis. It may be expensive to develop, implement, and maintain programs and policies in an effective and timely manner that adequately respond to increased legal, regulatory compliance, and reporting obligations imposed by such laws and regulations, and we may not have the resources to do so. Any failure to comply with such laws and regulations could lead to the imposition of fines and penalties and further result in the deterioration of our business.

Climate change (including severe weather and natural disasters) could have significant effects on our business.

There is an increasing concern over the risks of climate change and related environmental sustainability matters. The physical risks of climate change include discrete events, such as flooding and wildfires, and longer-term shifts in climate patterns, such as extreme heat, sea level rise, and more frequent and prolonged drought. Such events could disrupt our operations, those of our customers, or partners, or third parties on which we rely, including through direct damage to assets and indirect impacts from supply chain disruption and market volatility. In addition, transitioning to a low-carbon economy may entail extensive policy, legal, technological, and market initiatives. Transition risks, including changes in consumer preferences and additional regulatory requirements or taxes, could increase our expenses and undermine our strategies. Further, our ability to attract and retain employees may also be harmed if our response to climate change is perceived as ineffective or insufficient.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 1C. CYBERSECURITY

Cybersecurity Risk Management and Strategy

We have developed and implemented a cybersecurity risk management program intended to protect the confidentiality, integrity, and availability of our internal and customer facing information technology systems and confidential information. As part of this program, we prioritize maintaining the highest cybersecurity standards to safeguard information stored within our information technology systems. Our cybersecurity framework and controls are designed to align with key aspects of recognized best practices and standards for cybersecurity and information technology including industry standards based upon guidelines from the Center for Information Security ("CIS") and the National Institute of Standards and Technology Cyber Security Framework ("NIST CSF"). Additionally, we incorporate guidance from the Federal Financial Institutions Examination Council ("FFIEC") to ensure we meet the expectations of our partners and any applicable regulatory requirements.

Our cybersecurity risk management program is integrated into our overall enterprise risk management program, and shares common methodologies, reporting channels, and governance processes that apply across the enterprise risk management program to other legal, compliance, strategic, operational, and financial risk areas. As part of our enterprise risk assessment function, we have implemented processes to assess, identify, and manage the material risks facing the Company, including from cyber threats. Key elements of our cybersecurity risk management program include, but are not limited to the following:

- risk assessments designed to help identify material cybersecurity risks to our information technology systems and confidential information;
- products and services built with security tools;
- cybersecurity awareness training, including internal phishing tests of our employees, contractors, consultants, or any third-parties who will have access to our information technology systems and environment;
- a cybersecurity incident response plan that includes procedures for responding to cybersecurity incidents;
- a third-party risk management process for key service providers, suppliers, and vendors based on their criticality and risk profile; and
- a level of cybersecurity insurance that we believe is appropriate, taking into consideration the material risks from cybersecurity threats.

We have not identified risks from known cybersecurity threats, including as a result of any prior cybersecurity incidents, that have materially affected us, including our operations, business strategy, results of operations, or financial condition. We face certain ongoing risks from cybersecurity threats that, if realized, are reasonably likely to materially affect us. For more information on our cybersecurity-related risks, see Item 1A — “Risk Factors.”

Cybersecurity Governance

The Company’s information technology team is responsible for assessing and managing cybersecurity risks and has a depth of experience focused on increasing the Company’s resilience to security threats and stays current on new developments through monitoring of the cybersecurity landscape. The Company’s information technology environment is actively monitored for potential security threats, and security events are investigated and acted on to minimize potential risk to the environment.

Our Board of Directors considers cybersecurity risk as part of its risk oversight function and oversees management’s implementation of our cybersecurity risk management program. The Board of Directors receives periodic reports from management on our cybersecurity risks and program. In addition, management updates the Board of Directors, as necessary, regarding any significant cybersecurity incidents.

ITEM 2. PROPERTIES

Our corporate headquarters, which operates under a short-term lease arrangement, is located at 201 King of Prussia Road, Suite 650, Wayne, PA. We believe that our facilities are sufficient to meet our current needs and that suitable additional space will be available as and when needed.

ITEM 3. LEGAL PROCEEDINGS

We may be involved from time to time in various legal and administrative proceedings and litigation arising in the ordinary course of business. We are not currently engaged in any legal proceedings that are expected to have a material effect on our financial position, cash flows, or results of operations.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

Part II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS, AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information

Our common stock and warrants are each traded on the NYSE American Market under the symbols "BMTX," "BMTX-WT," respectively.

Holders

On April 1, 2024, there were 783 holders of record of our common stock and 12 holders of record of our warrants.

Recent Sales of Unregistered Securities

None.

Issuer Purchases of Equity Securities

None.

ITEM 6. [RESERVED]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to provide a reader of our financial statements with a narrative from the perspective of our Management on our financial condition, results of operations, liquidity, and certain other factors that may affect our future results. The following discussion and analysis should be read in conjunction with our Consolidated Financial Statements and the related notes included in Item 8 "Consolidated Financial Statements and Supplementary Data" of this Form 10-K.

BUSINESS OVERVIEW

BM Technologies, Inc. ("BMTX" or the "Company") (formerly known as BankMobile) provides state-of-the-art high-tech digital banking and disbursement services to consumers and students nationwide through a full service fintech banking platform, accessible to customers anywhere and anytime through digital channels.

BankMobile Technologies, Inc. ("BankMobile") was incorporated in May 2016 as a wholly-owned subsidiary of Customers Bank. On August 6, 2020, the Company entered into an Agreement and Plan of Merger, by and among Megalith Financial Acquisition Corporation, a special purpose acquisition company ("Megalith"), incorporated in Delaware in November 2017, MFAC Merger Sub Inc., a wholly-owned subsidiary of Megalith, BankMobile Technologies, Inc., and Customers Bank, the sole stockholder of BankMobile. On January 4, 2021, BankMobile became an independent company after the completion of a divestiture transaction and was rebranded BM Technologies, Inc.

BMTX's fintech business model leverages Banking-as-a-Service ("BaaS") partners' and University partners' existing customer bases to achieve high volume, low-cost customer acquisition in its Higher Education and BaaS businesses. BMTX has four primary revenue sources: interchange and card revenue, servicing fees, account fees, and university fees. The majority of revenues are driven by customer activity (deposits, spend, transactions, etc.) and may be paid or passed through by our Partner Banks, universities, or paid directly by customers.

BMTX facilitates deposits and banking services between a customer and our partner banks, Customers Bank and First Carolina Bank, (the "Partner Banks"), which are related parties and are Federal Deposit Insurance Corporation ("FDIC") insured banks. The Partner Banks hold the FDIC insured deposits that BMTX sources and services and are the issuing banks on BMTX's debit cards. The Partner Banks pay the Company a servicing fee for the deposits generated and pass through interchange income earned from transactions on debit cards and transaction-based account fees.

BMTX is not a bank, does not hold a bank charter, and does not provide banking services, and as a result, is not subject to direct banking regulation, except as a service provider to our Partner Banks. BMTX is also subject to the regulations of the ED, due to our student disbursements business, and is periodically examined by it. BMTX's contracts with most of its Higher Education institution clients require it to comply with numerous laws and regulations, including, where applicable, regulations promulgated by the ED regarding the handling of student financial aid funds received by institutions on behalf of their students under Title IV of the Higher Education Act of 1965; the Family Educational Rights and Privacy Act of 1995; the Electronic Fund Transfer Act and Regulation E; the USA PATRIOT Act and related anti-money laundering requirements; and certain federal rules regarding safeguarding personal information, including rules implementing the privacy provisions of the Gramm-Leach-Bliley Act. Other products and services offered by BMTX may also be subject to other federal and state laws and regulations.

BMTX's Higher Education serviced deposits fluctuate throughout the year due primarily to the inflow of funds typically disbursed at the start of a semester. Serviced deposit balances typically experience seasonal lows in December and July and experience seasonal highs in September and January when individual account balances are generally at their peak. Debit spend follows a similar seasonal trend, but may slightly lag increases in balances.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We have adopted various accounting policies that govern the application of U.S. GAAP and that are consistent with general practices within the fintech industry in the preparation of these financial statements. Our significant accounting policies are described in *Note 2 — Basis of Presentation and Significant Accounting Policies* in the Notes to the Consolidated Financial Statements herein.

Certain accounting policies involve significant judgment and assumptions by us that have a material impact on the carrying value of certain assets. We consider these accounting policies to be critical accounting policies. An accounting estimate is considered to be critical if it meets both of the following criteria (i) the estimate requires assumptions about matters that are highly uncertain at the time of the accounting estimate is made, and (ii) different estimates reasonably could have been used, or changes in the estimate that are reasonably likely to occur from period to period, may have a material impact on the presentation of our financial condition, changes in financial condition, or results of operations. As of, and for the twelve months ended December 31, 2023 and 2022, we did not identify any critical accounting estimates.

The critical accounting policies that are both important to the portrayal of our financial condition and results of operations, and require complex, subjective judgments and are identified as critical accounting policies are share-based compensation, provision for operating losses, income taxes, goodwill and other intangibles, developed software, and accounting for public and private warrants.

Share-Based Compensation Expense

The Company uses share-based compensation, including stock, restricted stock units, and performance stock units, to provide long-term performance incentives for its employees and directors. Share-based compensation is recognized on a straight-line basis over the requisite service period of the award based on the grant-date fair value for service-based awards. Compensation related to performance-based awards is recognized over the period the performance obligation is expected to be satisfied. For compensation related to performance-based awards with milestones, upon the grant date, and at each subsequent reporting period, we reassess whether it is probable that we will achieve each operational milestone, and if so, the period when we expect to achieve that operational milestone. For compensation related to performance-based awards with a market condition, we use a Monte Carlo simulation to determine the fair value of the award on the grant date, and recognize the share-based compensation expense over the derived service period. Forfeitures are recognized as they occur. Share-based compensation expense is included in *Salaries and employee benefits*. In addition, holders of shares may elect to surrender a portion of their shares on the vesting date to cover their income tax obligations.

Provision for Operating Losses

The provision for operating losses represents our obligation for losses resulting from fraud transactions that have generally been disputed by our serviced deposit account holders, Regulation E card claim losses incurred by us, an estimated liability for fraud and Regulation E losses where such disputes have not been resolved as of the end of the reporting period, a provision for overdrawn serviced deposit accounts for which we are responsible, net of any related actual and expected recoveries.

Fraud losses are recognized when realized or incurred. Drivers include, but are not limited to, efforts by organized or unorganized fraudsters to target an account, customer complicity, customer lack of proper password safeguarding or other preventative measures, onboarding approval procedures, changes in account funds availability, in person vs. online transactions, macroeconomic conditions, changes in customer behavior, and regulatory changes. The main source of Regulation E losses is card holder claims of unauthorized use of their debit card. Drivers include, but are not limited to, transaction purchase volume, in person vs. online, macroeconomic conditions, changes in customer behavior, and regulatory changes. A customer has 60 days to dispute a charge. BMTX may decline the claim within 10 days or advance the funds to the account holder if the investigation is still pending. BMTX may continue to investigate transactions for 35 more days, before making its final decision. At conclusion of the investigation, the advance is reversed or is made permanent. BMTX's loss includes closed disputes where the customer is entitled to keep the funds advanced, an expected loss on actual disputes that are pending investigation, which is based on historical experience, as well as an estimate of disputes incurred, but not yet disputed. The estimated liability for disputes incurred, but not yet disputed is determined by analyzing historical rates of transactions disputed and applying that experience rate to actual debit card volume in the period. This estimate of future disputes is then adjusted for our estimate of the amount disputed that we expect to result in a loss, which is estimated based on our historical experience. Serviced deposit accounts overdrawn for 30 or more days are fully reserved through an overdraft provision. Our estimation process is subject to risks and uncertainties, including that future performance may be different from our historical experience. Accordingly, our actual loss experience may not match expectations.

Income Taxes

BMTX accounts for income taxes under the liability method of accounting for income taxes. The income tax accounting guidance results in two components of income tax expense: current and deferred. Current income tax expense reflects taxes to be paid or refunded for the current period by applying the provisions of the enacted tax law to the taxable income or excess of deductions over revenues. BMTX determines deferred income taxes using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is based on the tax effects of the differences between the book and tax bases of assets and liabilities, and enacted changes in tax rates and laws are recognized in the period in which they occur.

In assessing the realizability of federal or state deferred tax assets, Management considers whether it is more likely than not that some portion or all the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and prudent, feasible, and permissible as well as available tax planning strategies in making this assessment.

A tax position is recognized if it is more likely than not, based on the technical merits, that the tax position will be realized or sustained upon examination. The term more likely than not means a likelihood of more than 50 percent; the term upon examination includes resolution of the related appeals or litigation process. A tax position that meets the more-likely-than-not recognition threshold is measured as the largest amount of tax benefit that has a greater than 50 percent likelihood of being realized upon settlement with a taxing authority that has full knowledge of all relevant information. The determination of whether or not a tax position has met the more-likely-than-not recognition threshold considers the facts, circumstances, and information available at the reporting date and is subject to Management's judgment.

Goodwill and Other Intangibles

Goodwill represents the excess of the purchase price over the identifiable net assets of businesses acquired through business combinations accounted for under the acquisition method. Goodwill is reviewed for impairment annually as of October 31 and between annual tests when events and circumstances indicate that impairment may have occurred. A goodwill impairment charge represents the amount by which the reporting unit's carrying amount exceeds its fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. BMTX applies a qualitative assessment to determine if the Step 1 quantitative impairment test is necessary.

Other intangible assets represent purchased assets that lack physical substance but can be distinguished from goodwill because of contractual or other legal rights. Intangible assets that have finite lives, such as university relationships, are subject to impairment testing. Intangible assets are amortized on a straight-line basis over twenty years. Other intangibles subject to amortization are reviewed for impairment under FASB ASC Topic 360, *Property*,

Plant and Equipment, which requires that a long-lived asset or asset group be tested for recoverability whenever events or changes in circumstances indicate that the carrying value may not be recoverable. The carrying value of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. If the Company determines that the carrying amount is impaired, the asset is written down to fair value. Fair value is determined based on discounted cash flows or Management's estimates, depending on the nature of the assets.

As part of its qualitative assessment, BMTX reviews regional and national trends in current and expected economic conditions. BMTX also considers its own historical performance, expectations of future performance, indicative deal values, and other trends specific to its industry.

Developed Software

Developed software includes internally developed software and developed software acquired in the Higher One Disbursement business acquisition. Internally developed software and related capitalized work-in-process costs relate to the development of our fintech digital banking platform.

BMTX capitalizes certain internal and external costs incurred to develop internal-use software during the application development stage. BMTX also capitalizes the cost of specified upgrades and enhancements to internal-use software that result in additional functionality. Once a development project is substantially complete and the software is ready for its intended use, BMTX begins amortizing these costs on a straight-line basis over the internal-use software's estimated useful life, which ranges from three to seven years.

The Higher One Disbursement business developed software is related to the disbursement business services to colleges and universities and delivering services to students. The Higher One Disbursement business developed software was recorded at the amount determined by a third-party valuation expert at acquisition date and was estimated based on expected revenue attributable to the software utilizing a discounted cash flow methodology, giving consideration to potential obsolescence. The estimated useful life of the Higher One Disbursement business developed software is 10 years.

At each reporting period, the Company performs an assessment to determine if any indicators of impairment are present. If indicators are present, the Company performs a recoverability test by measuring the carrying amount of the asset against the estimated undiscounted future cash flows associated with it. If the Company determines that the carrying amount is impaired, the asset is written down to fair value. Fair value is determined based on discounted cash flows or Management's estimates, depending on the nature of the assets.

Public & Private Warrants

The Company has public and private warrants outstanding as a result of the merger transaction with Megalith that occurred on January 4, 2021. Each warrant entitles the registered holder to purchase one whole share of common stock at a price of \$11.50 a share. The warrants expire January 4, 2026, or earlier upon redemption or liquidation and the Company has redemption rights if our common stock trades above \$24.00 for 20 out of 30 days. The private warrants are identical to the public warrants except that the private warrants are non-redeemable and exercisable on a cashless basis so long as they are held by the sponsor and certain others. The private warrants and the public warrants are treated differently for accounting purposes.

In accordance with FASB ASC Topic 480, *Distinguishing Liabilities from Equity*, the private warrants are accounted for as liabilities and are marked-to-market each reporting period with the change recognized in earnings. In general, under the mark-to-market accounting model, as the Company's stock price increases, the warrant liability increases, and the Company recognizes additional expense in its *Consolidated Statements of Loss* — the opposite when the stock price declines. Accordingly, the periodic revaluation of the private warrants could result in significant volatility in reported earnings.

In accordance with FASB ASC Topic 480, *Distinguishing Liabilities from Equity*, the public warrants are treated as equity instruments. Accordingly, the public warrants are not marked-to-market each reporting period, thus there is no impact to earnings. Any future exercises of the public warrants will be recorded as cash received and recorded in *Cash and cash equivalents*, with a corresponding offset to *Additional paid-in capital* in equity.

NEW ACCOUNTING PRONOUNCEMENTS

The FASB has issued accounting standards that have not yet become effective and that may impact BMTX's consolidated financial statements or its disclosures in future periods. *Note 2 — Basis of Presentation and Significant Accounting Policies* provides information regarding those accounting standards.

RESULTS OF OPERATIONS

The following discussion of our results of operations should be read in conjunction with our Consolidated Financial Statements, including the accompanying notes.

The following summarized tables set forth our operating results for the twelve months ended December 31, 2023 and December 31, 2022:

(dollars in thousands, except per share data)	Twelve Months Ended December 31,		Change	% Change
	2023	2022		
Operating revenues	\$ 55,252	\$ 83,597	\$ (28,345)	(34)%
Operating expenses	75,232	92,853	(17,621)	(19)%
Loss from operations.	(19,980)	(9,256)	(10,724)	116%
Gain on fair value of private warrant liability.	2,665	8,066	(5,401)	(67)%
Loss before income tax expense (benefit)	(17,315)	(1,190)	(16,125)	NM
Income tax expense (benefit)	16	(411)	427	(104)%
Net loss	\$ (17,331)	\$ (779)	\$ (16,552)	NM
Basic loss per common share	\$ (1.50)	\$ (0.07)	\$ (1.43)	NM
Diluted loss per common share.	\$ (1.50)	\$ (0.07)	\$ (1.43)	NM

NM refers to changes greater than 150%.

For the twelve months ended December 31, 2023, *Net loss* increased \$16.6 million as compared to the twelve months ended December 31, 2022, resulting in a *Net loss* of \$17.3 million, which included a \$5.4 million decrease in the *Gain on fair value of private warrant liability* as compared to the twelve months ended December 31, 2022 *Loss from operations* for the twelve months ended December 31, 2023 increased \$10.7 million as compared to the twelve months ended December 31, 2022, resulting in a *Loss from operations* of \$20.0 million. *Operating revenues* decreased by \$28.3 million or 34%, and *Operating expenses* decreased by \$17.6 million or 19%. Changes in operating revenues and expenses are discussed in greater detail below. Basic and diluted loss per share, which decreased to \$(1.50) are both driven by the impact of the total net loss in the current year.

Operating Revenues

(dollars in thousands)	Twelve Months Ended December 31,		Change	% Change
	2023	2022		
Revenues:				
Interchange and card revenue	\$ 9,447	\$ 22,318	\$ (12,871)	(58)%
Servicing fees	31,460	44,581	(13,121)	(29)%
Account fees	8,099	8,992	(893)	(10)%
University fees	5,701	5,734	(33)	(1)%
Other revenue	545	1,972	(1,427)	(72)%
Total operating revenues	\$ 55,252	\$ 83,597	\$ (28,345)	(34)%

Total Operating revenues decreased \$28.3 million or 34% in the twelve months ended December 31, 2023 as compared to the twelve months ended December 31, 2022. This decrease is primarily attributable to a \$13.1 million or 29% decrease in *Servicing fees* driven by a 47% reduction in average serviced deposits, most significantly within our BaaS vertical which has experienced continued runoff of highly interest rate sensitive accounts throughout 2023 and 2022, offset in part by higher deposit yields beginning in the second quarter of 2023 under the new deposit processing

services agreements; a \$12.9 million or 58% decrease in *Interchange and card revenue* driven primarily by the loss of Durbin-exempt rates from changes in the deposit processing services agreements; and a \$1.4 million or 72% decrease in *Other revenue* due to lower current year development revenues.

Operating Expenses

(dollars in thousands)	Twelve Months Ended December 31,		Change	% Change
	2023	2022		
Technology, communication, and processing	\$ 27,775	\$ 29,176	\$ (1,401)	(5)%
Salaries and employee benefits	22,489	39,926	(17,437)	(44)%
Professional services	11,257	10,747	510	5%
Provision for operating losses	8,311	6,798	1,513	22%
Occupancy	35	1,022	(987)	(97)%
Customer related supplies	911	894	17	2%
Advertising and promotion	479	741	(262)	(35)%
Restructuring, merger, and acquisition related expenses	937	290	647	NM
Other expense	3,038	3,259	(221)	(7)%
Total operating expenses	<u>\$ 75,232</u>	<u>\$ 92,853</u>	<u>\$ (17,621)</u>	<u>(19)%</u>

NM refers to changes greater than 150%.

Total operating expenses decreased \$17.6 million or 19% in the twelve months ended December 31, 2023 as compared to the twelve months ended December 31, 2022. This decrease is primarily attributable to a \$17.4 million or 44% decrease in *Salaries and employee benefits*, which included a \$9.8 million reduction attributable primarily to the effect of the PEP initiatives and a \$9.4 million reduction in share-based compensation expenses due primarily to the full vesting of the January 4, 2021 Share-Based Compensation Award and current year forfeitures of unvested RSU grants offset by \$1.6 million lower capitalization and client reimbursement of labor expenses. In addition, there was a \$1.4 million or 5% decrease in *Technology, communication, and processing* due to lower variable core processing expenses and a \$1.0 million or 97% decrease in *Occupancy* due to the physical office closures in 2022. These decreases were offset in part by a \$1.5 million or 22% increase in *Provision for operating losses*, which included higher current year fraud and overdraft losses and \$0.6 million of increased *Restructuring, merger, and acquisition related expenses* incurred in order to execute the PEP cost saving initiatives.

Income Tax Expense (Benefit)

The Company's effective tax rate was (0.1)% and 34.5% for the twelve months ended December 31, 2023 and December 31, 2022, respectively.

The Company's effective tax rate for the twelve months ended December 31, 2023 differs from the Company's federal statutory rate of 21.0% primarily due to the Company being in a taxable loss position and having a full valuation allowance established. The only tax expense recorded is related to minimum taxes in various state jurisdictions.

The Company's effective tax rate for the twelve months ended December 31, 2022 differs from the Company's federal statutory rate of 21.0% primarily due to the non-taxable fair value adjustments related to the non-compensatory private warrant liability being recorded through earnings and available R&D tax credits, offset by nondeductible compensation related expense and the change in valuation allowance.

LIQUIDITY AND CAPITAL RESOURCES

Our *Cash and cash equivalents* consist of non-interest bearing, highly-liquid demand deposits. We had \$14.3 million of *Cash and cash equivalents* at December 31, 2023 as compared to \$21.1 million of *Cash and cash equivalents* at December 31, 2022.

We finance our operations through cash flows provided primarily by operating activities. We intend to fund our ongoing operating activities with our existing cash and expected cash flows from future operations. However, should additional liquidity be necessary, the Company could consider equity or debt financing, but there are no assurances that additional capital would be available or on terms that are acceptable to us.

FASB ASC Topic 205-40, *Presentation of Financial Statements — Going Concern*, requires Management to assess an entity’s ability to continue as a going concern within one year of the date the financial statements are issued. In each reporting period, including interim periods, an entity is required to assess conditions known and reasonably knowable as of the financial statement issuance date to determine whether it is probable an entity will not meet its financial obligations within one year from the financial statement issuance date. Management has performed this required assessment as of April 5, 2024, and believes there are sufficient funds available to support its ongoing business operations and continue as a going concern for at least the next 12 months with projected liquidity of \$10.0 million at April 5, 2025. Management’s assessment is subject to known and unknown risks, uncertainties, assumptions, and changes in circumstances, many of which are beyond our control including the impact of the macroeconomic environment, and that are difficult to predict as to timing, extent, likelihood, and degree of occurrence, and that could cause actual results to differ from estimates and forecasts, potentially materially.

The table below summarizes our cash flows for the periods indicated:

(dollars in thousands)	Twelve Months Ended December 31,		Change	% Change
	2023	2022		
Net cash provided by operating activities	\$ 1,527	\$ 3,480	\$ (1,953)	(56)%
Net cash used in investing activities	(5,873)	(5,675)	(198)	3%
Net cash used in financing activities	(2,474)	(2,401)	(73)	3%
Net decrease in cash and cash equivalents	\$ (6,820)	\$ (4,596)	\$ (2,224)	48%

Cash Flows Provided by Operating Activities

Cash provided by operating activities was \$1.5 million in the twelve months ended December 31, 2023 which is a \$2.0 million net decrease in cash provided by operating activities as compared to the twelve months ended December 31, 2022.

The decrease in net cash provided by operating activities is driven primarily by a \$19.7 million increase in cash *Net loss*, a \$2.4 million decreased source of cash from *Accounts receivable*, and a \$7.8 million increased use of cash for *Accounts payable and accrued liabilities*, offset in part by a \$14.7 million increased source of cash from *Deferred revenue*, a \$11.0 million increased source of cash from *Prepaid and other assets*, a \$1.8 million decreased use of cash for *Taxes payable*, and a \$0.4 million decreased use of cash for *Operating lease liabilities*.

Cash Flows Used in Investing Activities

Cash used in investing activities increased \$0.2 million as compared to the twelve months ended December 31, 2022. primarily due to increased development costs related to internal use software offset in part by decreased purchases of equipment.

Cash Flows Used in Financing Activities

Cash used in financing activities increased \$0.1 million as compared to the twelve months ended December 31, 2022, primarily due to larger tax payments related to the net settlement of share-based compensation awards versus the private warrant repurchase transaction during the prior year.

CONTRACTUAL OBLIGATIONS

As of December 31, 2023, the Company had no material contractual debt obligations.

Off-Balance Sheet Arrangements

As of December 31, 2023, we did not have any off-balance sheet arrangements.

ITEM 7A. QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

Credit Risk

We are exposed to various economic risks in the normal course of business including concentration of credit risk. Potential concentration of credit risk consists primarily of accounts receivable from our Partner Banks, BaaS partner, MasterCard, and Higher Education institution clients.

Historically, we have not experienced any material losses related to these balances and believe that there is minimal risk of expected future losses. However, there can be no assurance that there will not be losses on these balances.

At December 31, 2023 and December 31, 2022, Customers Bank accounted for 16% and 17% of our total *Accounts receivable, net*, respectively. At December 31, 2023 and December 31, 2022, a BaaS partner accounted for 48% and 60% of our total *Accounts receivable, net*, respectively. At December 31, 2023 and December 31, 2022, MasterCard accounted for 21% and 10% of our total *Accounts receivable, net*, respectively.

Financial instruments that potentially subject the Company to credit risk consist principally of cash held in the Company's operating account. Cash is maintained in accounts with Customers Bank, which, at times, may exceed the FDIC coverage limit of \$250,000. At December 31, 2023, the Company has not experienced losses on these cash accounts and Management believes, based upon the quality of Customers Bank, that the credit risk with regard to these deposits is not significant.

ITEM 8. CONSOLIDATED FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors
BM Technologies, Inc.:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of BM Technologies, Inc. and subsidiaries (the Company) as of December 31, 2023 and 2022, the related consolidated statements of loss, changes in shareholders' equity, and cash flows for each of the years in the two-year period ended December 31, 2023, and the related notes (collectively, the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the years in the two-year period ended December 31, 2023, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ KPMG LLP

We have served as the Company's auditor since 2022.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 — DESCRIPTION OF THE BUSINESS

BM Technologies, Inc. (“BMTX” or the “Company”) (formerly known as BankMobile) provides state-of-the-art high-tech digital banking and disbursement services to consumers and students nationwide through a full service fintech banking platform, accessible to customers anywhere and anytime through digital channels.

BankMobile Technologies, Inc. (“BankMobile”) was incorporated in May 2016 as a wholly-owned subsidiary of Customers Bank. On August 6, 2020, the Company entered into an Agreement and Plan of Merger, by and among Megalith Financial Acquisition Corporation, a special purpose acquisition company (“Megalith”), incorporated in Delaware in November 2017, MFAC Merger Sub Inc., a wholly-owned subsidiary of Megalith, BankMobile Technologies, Inc., and Customers Bank, the sole stockholder of BankMobile. On January 4, 2021, BankMobile became an independent company after the completion of a divestiture transaction and was rebranded BM Technologies, Inc.

BMTX’s fintech business model leverages Banking-as-a-Service (“BaaS”) partners’ and University partners’ existing customer bases to achieve high volume, low-cost customer acquisition in its Higher Education and BaaS businesses. BMTX has four primary revenue sources: interchange and card revenue, servicing fees, account fees, and university fees. The majority of revenues are driven by customer activity (deposits, spend, transactions, etc.) and may be paid or passed through by our Partner Banks, universities, or paid directly by customers.

BMTX facilitates deposits and banking services between a customer and our partner banks, Customers Bank and First Carolina Bank, (the “Partner Banks”), which are related parties and are Federal Deposit Insurance Corporation (“FDIC”) insured banks. The Partner Banks hold the FDIC insured deposits that BMTX sources and services and are the issuing banks on BMTX’s debit cards. The Partner Banks pay the Company a servicing fee for the deposits generated and pass through interchange income earned from transactions on debit cards and transaction-based account fees.

BMTX is not a bank, does not hold a bank charter, and does not provide banking services, and as a result, is not subject to direct banking regulation, except as a service provider to our Partner Banks. BMTX is also subject to the regulations of the U.S. Department of Education (“ED”) due to our student disbursements business, and is periodically examined by it. BMTX’s contracts with most of its Higher Education institution clients require it to comply with numerous laws and regulations, including, where applicable, regulations promulgated by the ED regarding the handling of student financial aid funds received by institutions on behalf of their students under Title IV of the Higher Education Act of 1965; the Family Educational Rights and Privacy Act of 1995; the Electronic Fund Transfer Act and Regulation E; the USA PATRIOT Act and related anti-money laundering requirements; and certain federal rules regarding safeguarding personal information, including rules implementing the privacy provisions of the Gramm-Leach-Bliley Act. Other products and services offered by BMTX may also be subject to other federal and state laws and regulations.

BMTX’s Higher Education serviced deposits fluctuate throughout the year due primarily to the inflow of funds typically disbursed at the start of a semester. Serviced deposit balances typically experience seasonal lows in December and July and experience seasonal highs in September and January when individual account balances are generally at their peak. Debit spend follows a similar seasonal trend, but may slightly lag increases in balances.

NOTE 2 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

These consolidated financial statements have been prepared in conformity with U.S. GAAP. Any reference to applicable guidance is meant to refer to the authoritative GAAP as found in the Accounting Standards Codification (“ASC”) and Accounting Standards Update (“ASU”) of the Financial Accounting Standards Board (“FASB”).

FASB ASC Topic 205-40, *Presentation of Financial Statements — Going Concern*, requires Management to assess an entity’s ability to continue as a going concern within one year of the date the financial statements are issued. In each reporting period, including interim periods, an entity is required to assess conditions known and reasonably knowable as of the financial statement issuance date to determine whether it is probable an entity will not meet its financial obligations within one year from the financial statement issuance date.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (cont.)

Management has performed this required assessment as of April 5, 2024, and believes there are sufficient funds available to support its ongoing business operations and continue as a going concern for at least the next 12 months with projected liquidity of \$10.0 million at April 5, 2025.

Management's assessment is subject to known and unknown risks, uncertainties, assumptions, and changes in circumstances, many of which are beyond our control including the impact of the macroeconomic environment, and that are difficult to predict as to timing, extent, likelihood, and degree of occurrence, and that could cause actual results to differ from estimates and forecasts, potentially materially.

Based upon the results of Management's assessment, these consolidated financial statements have been prepared on a going concern basis. The consolidated financial statements do not include any adjustments that could result from the outcome of the aforementioned risks and uncertainties.

Consolidation Policy

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

These financial statements reflect all normal and recurring adjustments that are, in the opinion of Management, necessary to present a fair statement of the financial position and the results of operations and cash flows of BMTX for the periods presented. The preparation of financial statements in conformity with U.S. GAAP requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Significant estimates include share-based compensation, provision for operating losses, valuation of deferred tax assets, valuation of the private warrants, internally developed software, and goodwill and other intangible asset impairment analysis. Actual results could differ from those estimates.

Segment Reporting

The Company conducts its operations through a single operating segment and, therefore, one reportable segment. Operating segments are revenue-generating components of a company for which separate financial information is internally produced for regular use by the Chief Operating Decision Maker ("CODM") to allocate resources and assess the performance of the business. Our CODM, Luvleen Sidhu, our Chief Executive Officer ("CEO"), uses a variety of measures to assess the performance of the business; however, detailed profitability information of the nature that could be used to allocate resources and assess the performance of the business are managed and reviewed for the Company as a whole.

Customer and Vendor Concentrations

At December 31, 2023 and December 31, 2022, Customers Bank accounted for 16% and 17% of our total *Accounts receivable, net*, respectively. At December 31, 2023 and December 31, 2022, a BaaS partner accounted for 48% and 60% of our total *Accounts receivable, net*, respectively. At December 31, 2023 and December 31, 2022, MasterCard accounted for 21% and 10% of our total *Accounts receivable, net*, respectively.

For the twelve months ended December 31, 2023 and 2022, Customers Bank, through a Deposit Processing Services Agreement and Amendment thereof, accounted for 87% and 89% of our *Total operating revenues*, respectively. See *Note 13 — Related Party Transactions* for additional information. Certain of these revenues are paid directly by MasterCard or individual account holders to the Company.

For the twelve months ended December 31, 2023 and 2022, there is one vendor that accounted for 11% and 12% of our *Total operating expenses*, respectively.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (cont.)

Significant Accounting Policies

As an emerging growth company (“EGC”), the Jumpstart Our Business Startups Act (“JOBS Act”) allows the Company to delay adoption of new or revised ASUs applicable to public companies until such pronouncements are applicable to private companies. The Company has elected to use the extended transition period under the JOBS Act.

Business Combinations

Business combinations are accounted for by applying the acquisition method in accordance with FASB ASC Topic 805, *Business Combinations*. Under the acquisition method, identifiable assets acquired and liabilities assumed are measured at their fair values as of the date of acquisition, and are recognized separately from goodwill. Results of operations of the acquired entity are included in the statement of income from the date of acquisition. BMTX recognizes goodwill when the acquisition price exceeds the estimated fair value of the net assets acquired.

Cash and Cash Equivalents

Our cash is maintained at Customers Bank, with a large majority of our cash balances at December 31, 2023 exceeding the FDIC’s \$250,000 insured limit per account. We have not experienced losses on cash balances exceeding the federally insured limits, but there can be no assurance that we will not experience such losses in the future.

Accounts Receivable

Accounts receivable primarily relate to billings for deposit processing services provided to our Partner Banks in addition to reimbursements to be received from a BaaS partner, as described in collaborative arrangements below, MasterCard incentive income, and uncollected university subscription and disbursement services fees. These amounts are recorded at face amounts less an allowance for doubtful accounts. Management evaluates accounts receivable and establishes the allowance for doubtful accounts based on historical experience, analysis of past due accounts, and other current available information. Accounts receivable deemed to be uncollectible are individually identified and are charged-off against the allowance for doubtful accounts.

Premises and Equipment

Premises and equipment are recorded at cost less accumulated depreciation. Depreciation is charged to operations on a straight-line basis over the estimated useful lives of the assets or, in the case of leasehold improvements, the lease period, if shorter. Upon disposal or retirement of property and equipment, cost and related accumulated depreciation are removed from the accounts. Gains and losses from dispositions are credited or charged to operations. Expenditures for ordinary maintenance and repairs are charged to expense. Additions or betterments to property and equipment are capitalized at cost. The respective expenses are recorded in *Technology, communication, and processing* and *Occupancy* on the *Consolidated Statements of Loss* for the twelve months ended December 31, 2023 and 2022, respectively.

Developed Software

Developed software includes internally developed software and developed software acquired in the Higher One Disbursement business acquisition. Internally developed software and related capitalized work-in-process costs relate to the development of our fintech digital banking platform.

BMTX capitalizes certain internal and external costs incurred to develop internal-use software during the application development stage. BMTX also capitalizes the cost of specified upgrades and enhancements to internal-use software that result in additional functionality. Once a development project is substantially complete and the software is ready for its intended use, BMTX begins amortizing these costs on a straight-line basis over the internal-use software’s estimated useful life, which ranges from three to seven years. Amortization expense is recorded in *Technology, communication, and processing* on the *Consolidated Statements of Loss*.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (cont.)

The Higher One Disbursement business developed software is related to the disbursement business services to colleges and universities and delivering services to students. The Higher One Disbursement business developed software was recorded at the amount determined by a third-party valuation expert at acquisition date and was estimated based on expected revenue attributable to the software utilizing a discounted cash flow methodology, giving consideration to potential obsolescence. The estimated useful life of the Higher One Disbursement business developed software is 10 years. Amortization expense is recorded in *Technology, communication, and processing* on the *Consolidated Statements of Loss*.

At each reporting period, the Company performs an assessment to determine if any indicators of impairment are present. If indicators are present, the Company performs a recoverability test by measuring the carrying amount of the asset against the estimated undiscounted future cash flows associated with it. If the Company determines that the carrying amount is impaired, the asset is written down to fair value. Fair value is determined based on discounted cash flows or Management's estimates, depending on the nature of the assets. Developed software impairment expense for the twelve months ended December 31, 2023 and 2022 totaled \$0.6 million and zero, respectively. Impairment expense is recorded in *Technology, communication, and processing* on the *Consolidated Statements of Loss*.

Goodwill and Other Intangibles

Goodwill represents the excess of the purchase price over the identifiable net assets of businesses acquired through business combinations accounted for under the acquisition method. Goodwill is reviewed for impairment annually as of October 31 and between annual tests when events and circumstances indicate that impairment may have occurred. A goodwill impairment charge represents the amount by which the reporting unit's carrying amount exceeds its fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. BMTX applies a qualitative assessment to determine if the Step 1 quantitative impairment test is necessary.

Other intangible assets represent purchased assets that lack physical substance but can be distinguished from goodwill because of contractual or other legal rights. Intangible assets that have finite lives, such as university relationships, are subject to impairment testing. Intangible assets are amortized on a straight-line basis over twenty years. Other intangibles subject to amortization are reviewed for impairment under FASB ASC Topic 360, *Property, Plant and Equipment*, which requires that a long-lived asset or asset group be tested for recoverability whenever events or changes in circumstances indicate that the carrying value may not be recoverable. The carrying value of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. If the Company determines that the carrying amount is impaired, the asset is written down to fair value. Fair value is determined based on discounted cash flows or Management's estimates, depending on the nature of the assets.

As part of its quantitative and qualitative assessment, BMTX reviews regional and national trends in current and expected economic conditions. BMTX also considers its own historical performance, expectations of future performance, indicative deal values, and other trends specific to its industry. Based on its quantitative and qualitative assessment, BMTX determined that there was no evidence of impairment of the balance of goodwill or other intangible assets. As of December 31, 2023 and 2022, *Goodwill* was \$5.3 million and *Other intangibles, net* was \$4.1 million and \$4.4 million, respectively.

Leases

BMTX enters into lease agreements primarily for the use of office space, all which are classified as operating leases. At lease commencement date, BMTX recognizes right-of-use ("ROU") assets and lease liabilities measured at the present value of lease payments over the lease term. ROU assets represent the right to use an underlying asset for the lease term and lease liabilities represent the obligation to make lease payments arising from the lease. Operating lease expense for rental payments are recognized on a straight-line basis over the lease term and are included in *Occupancy*. In addition to rent, BMTX pays taxes and maintenance expenses, including an annual increase in operating expenses over the initial year's expenses under certain leases as variable lease payments. For the twelve months ended December 31, 2023, the Company had one month short term office lease that qualified for the short-term lease exemption under FASB ASC Topic 842, *Leases*, and as such, did not require capitalization as a right of use asset or lease liability.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (cont.)

Insurance Premium Finance Obligations

The Company includes the obligation for its insurance premium financing in *Accounts Payable and accrued liabilities* on the *Consolidated Balance Sheets*. There were zero premium finance obligations outstanding at both December 31, 2023 and 2022.

Deferred Revenue

Deferred revenue consists of payments received from customers, most significantly from its Partner Banks, prior to the performance of services. Deferred revenue is recognized over the service period on a straight-line basis or when the contractual performance obligation has been satisfied. The Company classifies deferred revenue on the *Consolidated Balance Sheets* in *Deferred revenue, current* and *Deferred revenue, non-current*.

Public & Private Warrants

The Company has public and private warrants outstanding as a result of the merger transaction with Megalith that occurred on January 4, 2021. Each warrant entitles the registered holder to purchase one whole share of common stock at a price of \$11.50 a share. The warrants expire January 4, 2026, or earlier upon redemption or liquidation and the Company has redemption rights if our common stock trades above \$24.00 for 20 out of 30 days. The private warrants are identical to the public warrants except that the private warrants are non-redeemable and exercisable on a cashless basis so long as they are held by the sponsor and certain others. The private warrants and the public warrants are treated differently for accounting purposes.

In accordance with FASB ASC Topic 480, *Distinguishing Liabilities from Equity*, the private warrants are accounted for as liabilities and are marked-to-market each reporting period with the change recognized in earnings. In general, under the mark-to-market accounting model, as the Company's stock price increases, the warrant liability increases, and the Company recognizes additional expense in its *Consolidated Statements of Loss* — the opposite when the stock price declines. Accordingly, the periodic revaluation of the private warrants could result in significant volatility in reported earnings. For the twelve months ended December 31, 2023 and 2022, respectively, the Company recognized non-cash gains of \$2.7 million and \$8.1 million related to the mark-to-market accounting on its private warrants.

In accordance with FASB ASC Topic 480, *Distinguishing Liabilities from Equity*, the public warrants are treated as equity instruments. Accordingly, the public warrants are not marked-to-market each reporting period, thus there is no impact to earnings. Any future exercises of the public warrants will be recorded as cash received and recorded in *Cash and cash equivalents*, with a corresponding offset to *Additional paid-in capital* in equity.

Income Taxes

BMTX accounts for income taxes under the liability method of accounting for income taxes. The income tax accounting guidance results in two components of income tax expense: current and deferred. Current income tax expense reflects taxes to be paid or refunded for the current period by applying the provisions of the enacted tax law to the taxable income or excess of deductions over revenues. BMTX determines deferred income taxes using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is based on the tax effects of the differences between the book and tax bases of assets and liabilities, and enacted changes in tax rates and laws are recognized in the period in which they occur.

In assessing the realizability of federal or state deferred tax assets, Management considers whether it is more likely than not that some portion or all the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and prudent, feasible, and permissible as well as available tax planning strategies in making this assessment.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (cont.)

A tax position is recognized if it is more likely than not, based on the technical merits, that the tax position will be realized or sustained upon examination. The term more likely than not means a likelihood of more than 50 percent; the term upon examination includes resolution of the related appeals or litigation process. A tax position that meets the more-likely-than-not recognition threshold is measured as the largest amount of tax benefit that has a greater than 50 percent likelihood of being realized upon settlement with a taxing authority that has full knowledge of all relevant information. The determination of whether or not a tax position has met the more-likely-than-not recognition threshold considers the facts, circumstances, and information available at the reporting date and is subject to Management's judgment.

Loss Contingencies

In the ordinary course of business, the Company is regularly subject to various claims, suits, regulatory inquiries, and investigations. The Company records a liability for specific legal matters when it determines that the likelihood of an unfavorable outcome is probable, and the loss can be reasonably estimated. Management has also identified certain other legal matters where they believe an unfavorable outcome is not probable and, therefore, no reserve is established. Although management currently believes that resolving claims against the Company, including claims where an unfavorable outcome is reasonably possible, will not have a material impact on the Company's business, financial position, results of operations, or cash flows, these matters are subject to inherent uncertainties and Management's view of these matters may change in the future. The Company also evaluates other contingent matters, including income and non-income tax contingencies, to assess the likelihood of an unfavorable outcome and estimated extent of potential loss. It is possible that an unfavorable outcome of one or more of these lawsuits or other contingencies could have a material impact on the liquidity, results of operations, or financial condition of the Company.

Revenue Recognition

BMTX's revenues from interchange and card revenue, servicing fees, account fees, and university fees are within the scope of FASB ASC Topic 606, *Revenue from Contracts with Customers*. The Company recognizes revenue in accordance with FASB ASC Topic 606 when the performance obligations related to the transfer of services under the terms of a contract are satisfied. Some obligations are satisfied at a point in time while others are satisfied over a period of time. Revenue is recognized as the amount of consideration to which the Company expects to be entitled to in exchange for transferring services to a customer. The Company's customer contracts do not contain terms that require significant judgment to determine the variability impacting the transaction price. A performance obligation is deemed satisfied when the control over services is transferred to the customer. Control is transferred to a customer either at a point in time or over time. To determine when control is transferred at a point in time, the Company considers indicators, including but not limited to, the right to payment, transfer of significant risk and rewards of ownership, and acceptance by the customer. When control is transferred over a period of time, the output method is used to measure progress for the transfer. The measure of progress used to assess completion of the performance obligation is based on time over the period of service. We assess our revenue arrangements against specific criteria in order to determine if we are acting as principal or agent. The Company determined that it is the agent in contracts for interchange and card revenue, and presents these revenues net of related expenses under FASB ASC Topic 606.

Interchange and card revenue

Interchange fees are earned whenever debit cards serviced by BMTX are processed through card payment networks. Interchange fees are recognized concurrent with the processing of the card transaction. Card revenue includes foreign ATM fees and MasterCard incentive income. ATM fees are recognized when the fee is deducted from the serviced account; MasterCard incentive income is primarily tied to debit spend volume and is recognized concurrent with spend.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (cont.)

Servicing fees

BMTX sources and services deposit accounts for its Partner Banks, and in exchange, is paid servicing fees. Servicing fees and terms are established by individually negotiated contractual agreements. A rate is applied to the daily average deposit balances. In all periods, servicing fees are recognized monthly based on average daily balances.

Account fees

BMTX earns account fees on BMTX serviced deposit accounts for transaction-based, account maintenance services. Account maintenance fees, which relate primarily to monthly maintenance fees for BMTX serviced accounts that do not meet minimum deposit balance requirements, are earned on a monthly basis representing the period over which BMTX satisfies its performance obligation. Transaction-based fees, which include services such as wire transfer fees, card replacement, and cash deposit via Green Dot network fees, are recognized at the time the transaction is completed. Service charges on deposit accounts are withdrawn from the depositor's account balance.

University fees

BMTX earns university fees from Higher Education clients in exchange for financial aid and other student refund disbursement services provided. BMTX facilitates the distribution of financial aid and other refunds to students, while simultaneously enhancing the ability of the higher education institutions to comply with the federal regulations applicable to financial aid transactions. For these services, Higher Education institution clients are charged an annual subscription fee and/or per-transaction fees (e.g., check issuance, new card, card replacement fees) for certain transactions. The annual subscription fee is recognized ratably over the period of service using the output method and the transaction fees are recognized when the transaction is completed. BMTX typically enters into long-term (generally three or five-year initial term) contracts with Higher Education institutions to provide these refund management disbursement services.

Advertising and Promotion

Advertising and promotion costs are expensed as incurred.

Collaborative Arrangements

In the normal course of business, BMTX may enter into collaborative arrangements primarily to develop and commercialize banking products to its BaaS partners' customers. Collaborative arrangements are contractual agreements with third-parties that involve a joint operating activity where both BMTX and the collaborating BaaS partner are active participants in the activity and are exposed to the significant risks and rewards of the activity. Collaborative activities typically include research and development, technology, product development, marketing, and day-to-day operations of the banking product. These agreements create contractual rights and do not represent an entity in which we have an equity interest. BMTX accounts for its rights and obligations under the specific requirements of the contracts. These arrangements often require the sharing of revenue and expense. BMTX's expenses incurred pursuant to these arrangements are reported net of any payments due to or amounts due from BMTX's BaaS partner, which are recognized at the time the BaaS partner becomes obligated to pay.

For the twelve months ended December 31, 2023 and 2022, BMTX recognized fee sharing from its BaaS partners of \$3.9 million and \$7.5 million, respectively, from collaborative arrangements. These net proceeds include \$(1.0) million and \$1.4 million, respectively, in revenues (contra-revenues), recorded in *Other revenue, Interchange and card revenue*, and *Servicing fees* on the *Consolidated Statements of Loss* and \$4.9 million and \$6.1 million, respectively, in expense reimbursements, recorded in *Technology, communication and processing, Salaries and employee benefits*, and *Professional services* on the *Consolidated Statements of Loss*.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (cont.)

Share-Based Compensation Expense

The Company uses share-based compensation, including stock, restricted stock units, and performance stock units, to provide long-term performance incentives for its employees and directors. Share-based compensation is recognized on a straight-line basis over the requisite service period of the award based on the grant-date fair value for service-based awards. Compensation related to performance-based awards is recognized over the period the performance obligation is expected to be satisfied. For compensation related to performance-based awards with milestones, upon the grant date, and at each subsequent reporting period, we reassess whether it is probable that we will achieve each operational milestone, and if so, the period when we expect to achieve that operational milestone. For compensation related to performance-based awards with a market condition, we use a Monte Carlo simulation to determine the fair value of the award on the grant date, and recognize the share-based compensation expense over the derived service period. Forfeitures are recognized as they occur. Share-based compensation expense is included in *Salaries and employee benefits*. In addition, holders of shares may elect to surrender a portion of their shares on the vesting date to cover their income tax obligations.

401(k) Plan

On January 3, 2023, the Company implemented the BM Technologies, Inc. 401(k) Plan (the “401(k) Plan”) for the benefit of BMTX’s eligible employees. The 401(k) Plan permits eligible employees to make voluntary contributions combined with employer contributions, up to a maximum of \$63.5 thousand per year, subject to certain limitations. The Company offers a matching contribution equal to 50% of an eligible employee’s deferral election up to 3% of their annual salary. The Company records its contributions to the 401(k) Plan in *Salaries and employee benefits* on the *Consolidated Statements of Loss*. The Company’s employer contribution to the 401(k) Plan for the twelve months ended December 31, 2023 totaled \$0.6 million.

Provision for Operating Losses

The provision for operating losses represents BMTX’s obligation for losses resulting from fraud transactions that have generally been disputed by our serviced deposit account holders, Regulation E card claim losses incurred by us, an estimated liability for fraud and Regulation E losses where such disputes have not been resolved as of the end of the reporting period, a provision for overdrawn serviced deposit accounts for which we are responsible, net of any related recoveries.

Fraud losses are recognized when realized or incurred. The main source of Regulation E losses is card holder claims of unauthorized use of their debit card. BMTX’s loss includes closed disputes where the customer is entitled to keep the funds advanced, an expected loss on actual disputes that are pending investigation, which is based on historical experience, as well as an estimate of disputes incurred, but not yet disputed. The estimated liability for disputes incurred, but not yet disputed is determined by analyzing historical rates of transactions disputed and applying that experience rate to actual debit card volume in the period. This estimate of future disputes is then adjusted for our estimate of the amount disputed that we expect to result in a loss, which is estimated based on our historical experience. The estimated liability totaled \$1.3 million and \$0.4 million as of December 31, 2023 and 2022, respectively; the changes period over period are presented within *Provision for Operating Losses* on the *Consolidated Statements of Loss*.

Restructuring, Merger and Acquisition Related Expenses

In connection with the Company’s Profit Enhancement Plan (the “PEP”), and previous unconsummated merger, BMTX incurred \$0.9 million and \$0.3 million in merger and acquisition expenses for the twelve months ended December 31, 2023 and 2022, respectively, which are recorded within *Restructuring, merger and acquisition related expenses* on the *Consolidated Statements of Loss*.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (cont.)

Recently Adopted Accounting Standards

As of December 31, 2023, there were no recently adopted accounting standards that had a material impact on the Company’s consolidated financial statements and related disclosures.

Accounting Standards Issued but Not Yet Adopted

From time to time, new accounting pronouncements are issued by the FASB that are adopted by BMTX as of the required effective dates. ASUs not listed below were assessed and determined to be either not applicable or to not have a material impact on BMTX’s financial statements taken as a whole.

In August 2020, the FASB issued ASU 2020-06, *Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity* (“ASU 2020-06”), which simplifies the accounting for certain financial instruments with characteristics of liabilities and equity. This ASU (1) simplifies the accounting for convertible debt instruments and convertible preferred stock by removing the existing guidance in FASB ASC Topic 470-20, *Debt: Debt with Conversion and Other Options*, that requires entities to account for beneficial conversion features and cash conversion features in equity, separately from the host convertible debt or preferred stock; (2) revises the scope exception from derivative accounting in FASB ASC Topic 815-40 for freestanding financial instruments and embedded features that are both indexed to the issuer’s own stock and classified in stockholders’ equity, by removing certain criteria required for equity classification; and (3) revises the guidance in FASB ASC Topic 260, *Earnings Per Share*, to require entities to calculate diluted earnings per share for convertible instruments by using the if-converted method. In addition, entities must presume share settlement for purposes of calculating diluted earnings per share when an instrument may be settled in cash or shares. As a smaller reporting company, ASU 2020-06 is effective for BMTX for fiscal years beginning after December 15, 2023. Entities should adopt the guidance as of the beginning of the fiscal year of adoption and cannot adopt the guidance in an interim reporting period. Early adoption is permitted, but no earlier than fiscal years beginning after December 15, 2020. The Company has determined that ASU 2020-06 will not have a material impact on its consolidated financial statements and related disclosure.

In December 2023, the FASB issued ASU 2023-09, *Income taxes (Topic 740): Improvements to Income Tax Disclosures*, which is a final standard on improvement to income tax disclosures. This update applies to all entities subject to income taxes. As a public business entity, the new requirements will be effective for annual periods beginning after December 15, 2024. As of December 31, 2023, the Company is still evaluating the impact of this update to its financial statements for annual periods after December 15, 2024.

NOTE 3 — ACCOUNTS RECEIVABLE

Accounts receivable, net primarily relate to billings for deposit processing services to our Partner Banks, MasterCard incentive income, uncollected university subscription and disbursement services fees, and receivables from our BaaS partner, and are recorded at face amounts less an allowance for doubtful accounts.

Management evaluates accounts receivable and establishes the allowance for doubtful accounts based on historical experience, analysis of past due accounts, and other current available information. Accounts receivable deemed to be uncollectible are individually identified and are charged-off against the allowance for doubtful accounts. The allowance for doubtful accounts was \$1.1 million at December 31, 2023 and \$0.3 million at December 31, 2022.

(amounts in thousands)	Beginning Balance	Additions	Reductions	Ending Balance
Allowance for doubtful accounts				
Twelve months ended December 31, 2022	\$ 79	\$ 381	\$ (155)	\$ 305
Twelve months ended December 31, 2023	\$ 305	\$ 1,001	\$ (206)	\$ 1,100

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 4 — PREMISES AND EQUIPMENT AND DEVELOPED SOFTWARE

Premises and equipment

The components of premises and equipment were as follows:

<u>(amounts in thousands)</u>	<u>Expected Useful Life</u>	<u>December 31, 2023</u>	<u>December 31, 2022</u>
IT equipment.	3 to 5 years	\$ 930	\$ 1,377
Accumulated depreciation		(395)	(869)
Total		<u>\$ 535</u>	<u>\$ 508</u>

BMTX recorded depreciation expense of \$0.3 million for the twelve months ended December 31, 2023 as a component of *Technology, communication, and processing* expense on the *Consolidated Statements of Loss* and \$0.3 million for the twelve months ended December 31, 2022 as a component of *Occupancy* expense on the *Consolidated Statements of Loss*.

BMTX recorded no impairment expense for the twelve months ended December 31, 2023 and 2022.

Developed software

The components of developed software were as follows:

<u>(amounts in thousands)</u>	<u>Expected Useful Life</u>	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Higher One Disbursement business developed software	10 years	\$ 27,400	\$ 27,400
Internally developed software.	3 to 7 years	43,225	42,504
Work-in-process		6,662	3,077
		77,287	72,981
Accumulated amortization		(61,114)	(50,657)
Total		<u>\$ 16,173</u>	<u>\$ 22,324</u>

BMTX recorded amortization expense of \$11.6 million and \$11.4 million for the twelve months ended December 31, 2023 and 2022, respectively, as a component of *Technology, communication and processing* expense on the *Consolidated Statements of Loss*.

BMTX recorded impairment expense of \$0.6 million and zero for the twelve months ended December 31, 2023 and 2022, respectively, as a component of *Technology, communication and processing* expense on the *Consolidated Statements of Loss*.

NOTE 5 — GOODWILL AND OTHER INTANGIBLES

Goodwill represents the excess of the purchase price over the identifiable net assets of the businesses acquired through business combinations accounted for under the acquisition method. *Goodwill* is reviewed for impairment annually as of October 31 and between annual tests when events and circumstances indicate that impairment may have occurred. There was no goodwill impairment for the twelve months ended December 31, 2023 and 2022.

Other intangibles, net represent purchased assets that lack physical substance but can be distinguished from goodwill because of contractual or other legal rights. We have one intangible asset which is being amortized on a straight-line basis over twenty years.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 5 — GOODWILL AND OTHER INTANGIBLES (cont.)

The components of *Other intangibles, net* as of December 31, 2023 and 2022 were as follows:

<u>(amounts in thousands)</u>	<u>Expected Useful Life</u>	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Customer relationships – universities	20 years	\$ 6,402	\$ 6,402
Accumulated amortization		(2,293)	(1,973)
Total		<u>\$ 4,109</u>	<u>\$ 4,429</u>

Other intangibles, net includes assets subject to amortization that are reviewed for impairment under FASB ASC Topic 360, *Property, Plant and Equipment*. Amortization is recorded in *Other expense* on the *Consolidated Statements of Loss*. BMTX recorded amortization expense of \$0.3 million and \$0.3 million for the twelve months ended December 31, 2023 and 2022, respectively.

The customer relationships — universities will be amortized in future periods as follows:

2024	\$ 320
2025	320
2026	320
2027	320
After 2027	<u>2,829</u>
Total	<u>\$ 4,109</u>

There was no impairment for *Other intangibles, net* for the twelve months ended December 31, 2023 and 2022.

NOTE 6 — LEASES

At January 1, 2022, BMTX leased two offices under operating leases. On March 31, 2022, one of the two office leases matured and we exited our New Haven, CT office facility. On September 30, 2022, the second office lease matured at our Wayne, PA office. On October 1, 2022, the Company entered into a 3-month short-term lease extension for this office under substantially identical terms and conditions as the original lease. At December 31, 2022, the 3-month short-term lease extension expired and was not renewed. The Company’s corporate headquarters is currently operating under a month-to-month short-term lease.

Operating lease expenses are recorded in *Occupancy* on the *Consolidated Statements of Loss*. BMTX recorded lease expense of less than \$0.1 million and \$0.5 million, for the twelve months ended December 31, 2023 and 2022, respectively.

Cash paid pursuant to operating lease liabilities totaled zero and \$0.4 million for the twelve months ended December 31, 2023 and 2022. These cash payments are reported as a component of cash flows provided by operating activities in the *Consolidated Statements of Cash Flows*.

NOTE 7 — COMMITMENTS AND CONTINGENCIES

Loss contingencies, including claims and legal actions arising in the ordinary course of business, are recorded as liabilities when the likelihood of loss is probable, and an amount or range of loss can be reasonably estimated. Management does not believe there are any such matters that will have a material effect on the consolidated financial statements that are not currently accrued for. However, in light of the uncertainties inherent in these matters, it is possible that the ultimate resolution may have a material adverse effect on BMTX’s results of operations for a particular period, and future changes in circumstances or additional information could result in accruals or resolution in excess of established accruals, which could adversely affect BMTX’s results of operations, potentially materially.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 7 — COMMITMENTS AND CONTINGENCIES (cont.)

On June 5, 2023, the Company entered into an agreement to purchase certain software technology assets from a third-party. Purchase consideration was comprised of a cash payment of less than \$0.1 million at closing and potential future contingent consideration of \$0.5 million over the next three years if the technology is successfully and continuously deployed by the Company. The \$0.5 million of contingent consideration is reported in *Other non-current liabilities* on the *Consolidated Balance Sheets*.

NOTE 8 — SHAREHOLDERS' EQUITY AND PRIVATE WARRANT LIABILITY

Common Stock

The Company is authorized to issue 1,000,000,000 shares of common stock, par value \$0.0001 per share. At December 31, 2023, there were 11,984,133 shares of common stock issued and outstanding, which includes the 300,000 performance shares discussed below. At December 31, 2022, there were 12,240,237 shares of common stock issued and outstanding, which includes the 300,000 performance shares discussed below.

Each holder of common stock is entitled to one vote for each share of common stock held of record by such holder on all matters on which stockholders generally are entitled to vote. The holders of common stock do not have cumulative voting rights in the election of directors. Generally, all matters to be voted on by stockholders must be approved by a majority (or, in the case of election of directors, by a plurality) of the votes entitled to be cast by all stockholders present in person or represented by proxy, voting together as a single class.

Preferred Stock

The Company is authorized to issue 10,000,000 shares of preferred stock, par value \$0.0001 per share, with such designations, voting and other rights and preferences as may be determined from time to time by the Company's Board of Directors. As of December 31, 2023 and 2022, there were no shares of preferred stock issued or outstanding.

Performance Shares

The Company has 300,000 common shares, par value \$0.0001 per share, issued and outstanding, that contain a restrictive legend, subject to release only if the vesting criteria are met before the seventh anniversary of the closing date of the merger with Megalith. If the vesting criteria are not met prior to the seventh anniversary of the closing date of the merger, the shares will be forfeited and cancelled. The vesting criteria are met when either (1) the volume weighted average price of the Company's common stock on the principal exchange on which such securities are then listed or quoted shall have been at or above \$15.00 for twenty (20) trading days (which need not be consecutive) over a thirty (30) trading day period; or (ii) the Company sells shares of its capital stock in a secondary offering for at least \$15.00 per share, in each case subject to equitable adjustment for share splits, share dividends, reorganizations, combinations, recapitalizations, and similar transactions affecting the shares of the Company's common stock after the merger, and possible reduction for certain dividends granted to the Company's common stock, or (2) the Company undergoes certain change in control or sales transactions. None of the vesting criteria for the performance shares were met during the twelve months ended December 31, 2023 or 2022 and no expense has been recognized.

Dividend Policy

We have not paid any cash dividends on our common stock to date, and have no present intention to pay cash dividends in the future. The payment of cash dividends by the Company in the future will be dependent upon the Company's revenues and earnings, capital requirements, and general financial condition. The payment of any dividends will be within the discretion of the Board of Directors of the Company.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 — SHAREHOLDERS' EQUITY AND PRIVATE WARRANT LIABILITY (cont.)

January 4, 2021 Share-Based Compensation Award

In connection with its January 4, 2021 divestiture of the Company, Customers Bank, the Company's former parent, granted 1,317,035 of the merger consideration shares of the Company it received to certain employees and executives of the Company. The share-based compensation award was subject to vesting conditions, including a required service condition from award recipients through January 3, 2023. The grant date fair value of the award, totaling \$19.6 million, was recorded as share-based compensation expense in the Company's *Consolidated Statements of Loss* on a straight-line basis over the two year post-grant vesting period, net of any actual forfeitures. The shares awarded were restricted until fully vested. The holders of restricted shares were provided an option to surrender a portion of their shares on the vesting date to cover their income tax obligations. On January 3, 2023, all restricted shares, net of prior forfeitures, vested.

The change in unvested shares under the January 4, 2021 Share-Based Compensation Award is shown below:

	Number of Awards	Weighted- Average Grant-Date Fair Value Per Award
Balance as of December 31, 2021.....	1,283,535	\$ 14.87
Granted	—	\$ 14.87
Vested	(88,889)	\$ 14.87
Forfeited	(26,500)	\$ 14.87
Balance as of December 31, 2022.....	<u>1,168,146</u>	<u>\$ 14.87</u>
Granted	—	\$ —
Vested	(749,854)	\$ 14.87
Net settlement of share-based awards for taxes	<u>(418,292)</u>	<u>\$ 14.87</u>
Balance as of December 31, 2023.....	<u>—</u>	<u>\$ —</u>

BMTX recorded share-based compensation expense related to these awards of less than \$0.1 million and \$9.2 million for the twelve months ended December 31, 2023 and 2022, respectively.

Equity Incentive Plan

Our 2020 Equity Incentive Plan (the "2020 Equity Incentive Plan") provides for the grant of incentive stock options, or ISOs, nonstatutory stock options, or NSOs, stock appreciation rights, restricted stock awards, restricted stock unit awards, performance-based stock awards, and other forms of equity compensation, or collectively, stock awards, all which may be granted to employees, including officers, non-employee directors, and consultants of both the Company and its affiliates. Additionally, the 2020 Equity Incentive Plan provides for the grant of performance cash awards. ISOs may be granted only to employees. All other awards may be granted to employees, including officers, and to non-employee directors and consultants.

On June 20, 2023, an amendment to the 2020 Equity Incentive Plan was approved by the Company's stockholders. The amendment increased the total number of shares of common stocks authorized under the 2020 Equity Incentive Plan by 1,279,963 from 1,220,037 (the number of shares authorized under the original 2020 Equity Incentive Plan) to 2,500,000.

Grants were made under the 2020 Equity Incentive Plan for the twelve months ended December 31, 2023 and 2022 as described within *Restricted Stock Units* and *Performance — Based Restricted Stock Units* below as well as the grants of unrestricted shares to directors which vest immediately.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 — SHAREHOLDERS' EQUITY AND PRIVATE WARRANT LIABILITY (cont.)

Restricted Stock Units

Restricted Stock Units (“RSUs”) granted under the 2020 Equity Incentive Plan, as amended, generally vest in three or four equal installments on each anniversary of the grant date. The RSUs that have been granted are all paid in stock upon vesting, and are thus classified as equity awards, which are measured using the grant date fair value of BMTX common stock and are not remeasured at the end of each reporting period. We recognize compensation cost starting from the grant date on a straight-line basis over the required vesting period in accordance with FASB ASC Topic 718, *Compensation — Stock Compensation*. We account for forfeitures as they occur and reverse any previously recognized compensation expense related to forfeited awards.

Performance — Based Restricted Stock Units

Performance — Based Restricted Stock Units (“PBRsUs”) granted under the 2020 Equity Incentive Plan, as amended, currently vest upon the later of: a) the third year of employment following the grant date or b) the achievement of the specified performance goals within the fifth year of the grant date. As defined by the 2020 Equity Incentive Plan, as amended, the Compensation Committee of the Board of Directors determines the number of PBRsUs a participant earns based on the extent to which the corresponding performance goals have been achieved over the five-year performance cycle. The PBRsUs that have been granted are paid in stock upon vesting, and are thus classified as equity awards, which are measured using the grant date fair value of BMTX common stock and are not remeasured at the end of each reporting period. We account for forfeitures as they occur and reverse any previously recognized compensation expense related to forfeited awards.

For PBRsUs with milestones, upon the grant date, and at each subsequent reporting period, we reassess whether it is probable that we will achieve each operational milestone, and if so, the period when we expect to achieve that operational milestone. If upon the grant date, we determine that achievement of an operational milestone is probable, we allocate the full share-based compensation expense over the period between the grant date and the expected vesting condition achievement date. If upon the grant date, achievement of the operational milestone is not probable, we do not recognize compensation expense. If after the grant date, we determine achievement of an operational milestone becomes probable, we will allocate the full share-based compensation expense over the period between the grant date and the expected vesting condition achievement date, and we will recognize a catch-up expense equal to the value of previously unrecognized expense from the grant date to the vesting condition achievement date.

For PBRsUs with a market condition, we used a Monte Carlo simulation to determine the fair value on the grant date, and recognize the share-based compensation expense over the derived service period.

The change in unvested RSUs and PBRsUs awarded is shown below:

	Restricted Stock Units		Performance-Based Restricted Stock Units	
	Number of RSUs	Weighted- Average Grant-Date Fair Value Per RSU	Number of RSUs	Weighted- Average Grant-Date Fair Value Per RSU
Balance as of December 31, 2021.	357,100	\$ 8.99	347,500	\$ 7.09

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 — SHAREHOLDERS' EQUITY AND PRIVATE WARRANT LIABILITY (cont.)

For the twelve months ended December 31, 2023 and 2022, the share-based compensation expense related to the RSU awards totaled \$1.3 million and \$1.0 million, respectively. At December 31, 2023, unrecognized compensation expense related to the unvested portion of the RSUs was approximately \$1.5 million and is expected to be recognized over a term of 1.92 years.

For the twelve months ended December 31, 2023 and 2022, the share-based compensation expense related to the PBRsUs awards totaled \$0.5 million and \$1.0 million, respectively. At December 31, 2023, unrecognized compensation expense related to the unvested portion of the PBRsUs was approximately \$0.9 million and is expected to be recognized over a term of 1.9 years.

Directors Grants

The Company grants common shares to its Board of Directors on a discretionary basis. These shares vest immediately upon grant. During the twelve months ended December 31, 2023 and December 31, 2022 the Company granted zero and 1,000 shares of common stock to each of its Directors, for a total of zero and 6,000 shares with share-based compensation expense totaling zero and less than \$0.1 million, respectively.

Employee Stock Purchase Plan ("ESPP")

The Company has an ESPP (the "BM Technologies Inc. 2021 Employee Stock Purchase Plan") which has an effective date of May 1, 2021. The purpose of the ESPP is to provide eligible employees with an incentive to advance the interests of the Company, by affording them an opportunity to purchase stock of the Company at a favorable price. As of December 31, 2023, there have been no shares purchased on behalf of employees under the ESPP, as the program has not yet been made available for employee participation.

Warrants

At December 31, 2023 and 2022, respectively, there were 22,703,004 warrants to purchase our common stock outstanding. The warrant totals for each period-end consist of 17,294,044 and 17,227,189 public warrants and 5,408,960 and 5,475,815 private warrants, as of December 31, 2023 and 2022, respectively.

Each whole warrant entitles the registered holder to purchase one whole share of common stock at a price of \$11.50 per share. The warrants will expire five years after the completion of the merger with Megalith (January 4, 2026) or earlier upon redemption or liquidation; the Company has redemption rights if our common stock trades above \$24.00 for 20 out of 30 days. The private warrants are identical to the public warrants except that the private warrants are non-redeemable and exercisable on a cashless basis so long as they are held by the sponsor and certain other original holders.

As of December 31, 2023, 1,600 of the Company's outstanding public warrants have been exercised and 1,169,963 of the private warrants have been repurchased by the Company from related parties at \$1.69 per warrant.

During the twelve months ended December 31, 2023, 66,855 of the private warrants were reclassified to public warrants based upon a sale of the private warrants by the original holders which resulted in a modification of terms that effect classification as public warrants. During the twelve months ended December 31, 2023, there were no public warrants exercised.

During the twelve months ended December 31, 2022, 300,000 of the private warrants were reclassified to public warrants based upon a sale of the private warrants by the original holders which resulted in a modification of terms that effect classification as public warrants. During the twelve months ended December 31, 2022, there were 100 public warrants exercised.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 — SHAREHOLDERS' EQUITY AND PRIVATE WARRANT LIABILITY (cont.)

The private warrants and the public warrants are treated differently for accounting purposes, as follows:

Private Warrants

In accordance with FASB ASC Topic 480, *Distinguishing Liabilities from Equity*, the private warrants are accounted for as liabilities and are marked-to-market each reporting period with the change in fair value recognized in earnings. In general, under the mark-to-market accounting model, as our stock price increases, the private warrant liability increases, and we recognize additional expense in our *Consolidated Statements of Loss* — with the opposite when our stock price declines. Accordingly, the periodic revaluation of the private warrants could result in significant volatility in our reported earnings.

Opening Balance Sheet Impact: As of the date of our merger with Megalith on January 4, 2021, the \$30.8 million fair value of the private warrants was recorded as a warrant liability on our *Consolidated Balance Sheets* in *Liability for private warrants* with a corresponding offset to *Additional paid-in capital* within equity. The fair value of the private warrants was estimated using a modified version of the Black-Scholes option pricing formula. We assumed a term for the private warrants equal to the contractual term from the merger date and then discounted the resulting value to the valuation date. Among the key inputs and assumptions used in the pricing formula at January 4, 2021: a term of 5.0 years; volatility of 20%; a dividend yield of zero; an underlying stock price of \$14.76; a risk free interest rate of 0.38%; and a closing price of the public warrants of \$2.50 per share.

Income Statement Impact: Subsequent to the close of the merger, any change in fair value of the private warrants is recognized in our *Consolidated Statements of Loss* below operating profit as *Gain on fair value of private warrant liability* with a corresponding amount recognized in the *Liability for private warrants* on our *Consolidated Balance Sheets*. For the twelve months ended December 31, 2023 and 2022, we recorded a gain of \$2.7 million and \$8.1 million, respectively, resulting from the revaluation of the private warrants.

Balance Sheet Impact: The private warrant liability is presented in the account *Liability for private warrants* in the long-term liabilities section of our *Consolidated Balance Sheets*. As noted above, the change in fair value of the underlying private warrants results in a corresponding change in the balance of the warrant liability on our *Consolidated Balance Sheets*. When warrants are exercised, the fair value of the liability is reclassified to *Additional paid-in capital* within equity. Cash received for the exercise of warrants is reflected in *Cash and cash equivalents* with a corresponding offset recorded in *Common Stock* and *Additional paid-in capital* within equity.

Cash Flow Impact: The impact of the change in fair value of the private warrants has no impact on our cash flows as it is a noncash adjustment. Cash received for the exercise of warrants is recorded in cash flows from financing activities. Cash paid for the repurchase of warrants is recorded in cash flows from financing activities. During the twelve months ended December 31, 2022, the Company repurchased private warrants from related parties for cash consideration totaling \$2.0 million. No such transactions occurred during the twelve months ended December 31, 2023.

Shareholders' Equity Impact: The impact to *Additional paid-in capital* as of the opening balance sheet is described above. Exercises of private warrants results in a reduction of the *Liability for private warrants* on the *Consolidated Balance Sheets* with a corresponding increase to *Common Stock* and *Additional paid-in capital*.

Public Warrants

In accordance with FASB ASC Topic 480, *Distinguishing Liabilities from Equity*, the public warrants are treated as equity instruments under U.S. GAAP. The public warrants are not marked-to-market each reporting period, thus there is no impact to earnings. Exercises of the public warrants are recorded as cash is received and are recorded in *Cash and cash equivalents*, with a corresponding offset recorded in *Common stock* and *Additional paid-in capital* within equity. During the twelve months ended December 31, 2023, there were no exercises of public warrants. During the twelve months ended December 31, 2022, there were exercises of 100 public warrants with cash proceeds totaling less than \$0.1 million.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 9 — REVENUES

Revenues

BMTX recognizes operating revenue in accordance with FASB ASC Topic 606, *Revenue from Contracts with Customers*.

The following table presents BMTX's revenues disaggregated by nature of the revenue stream and the pattern or timing of revenue recognition for the twelve months ended December 31, 2023 and 2022. The Company has one reportable segment and all revenues are earned in the U.S.

(amounts in thousands)	Twelve Months Ended December 31,	
	2023	2022
Revenues:		
Revenue recognized at point in time:		
Interchange and card revenue	\$ 9,447	\$ 22,318
Servicing fees	31,460	44,581
Account fees	8,099	8,992
University fees – disbursement activity	881	1,108
Other revenue	202	1,720
Total revenue recognized at point in time	50,089	78,719
Revenue recognized over time:		
University fees – subscriptions	4,820	4,626
Other revenue – maintenance and support	343	252
Total revenue recognized over time	5,163	4,878
Total revenues	\$ 55,252	\$ 83,597

Deferred Revenue

Deferred revenue consists of payments received from customers prior to the performance of services. Deferred revenue is recognized over the service period on a straight-line basis or when the contractual performance obligation has been satisfied.

The deferred revenue balances were as follows:

(amounts in thousands)	December 31,	
	2023	2022
Deferred revenue	\$ 12,449	\$ 6,647

During the twelve months ended December 31, 2023, the Company recognized revenue of approximately \$6.6 million included in deferred revenue at the beginning of the period. During the twelve months ended December 31, 2022, the Company recognized revenue of approximately \$15.4 million included in deferred revenue at the beginning of the period.

Unbilled receivables

The Company had \$1.5 million of unbilled receivables, or amounts recognized as revenue for which invoices have not yet been issued, as of December 31, 2023, and \$2.6 million as of December 31, 2022. Unbilled receivables are reported in *Accounts receivable, net* on the *Consolidated Balance Sheets*.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 10 — INCOME TAXES

The components of income tax expense (benefit) were as follows:

(amounts in thousands)	Twelve Months Ended December 31,	
	2023	2022
Current expense (benefit)		
Federal.....	\$ —	\$ (423)
State.....	16	12
Total current expense (benefit)	\$ 16	\$ (411)
Deferred expense (benefit)		
Federal.....	\$ (4,357)	\$ (296)
State.....	(383)	8
Change in valuation allowance.....	4,740	288
Total deferred expense (benefit)	\$ —	\$ —
Total income tax expense (benefit)	\$ 16	\$ (411)

Effective tax rates differ from the federal statutory rate of 21% due to the following:

(amounts in thousands)	Twelve months ended December 31,			
	2023		2022	
	Amount	% of pretax loss	Amount	% of pretax loss
Federal income tax at statutory rate.....	\$ (3,636)	21.00%	\$ (250)	21.00%
State taxes, net of federal benefit.....	490	(2.83)%	(457)	38.48%
Change in fair value of warrant liabilities.....	(560)	3.23%	(1,694)	142.51%
Change in valuation allowance.....	4,740	(27.38)%	288	(24.23)%
Nondeductible compensation.....	5	(0.03)%	2,183	(183.64)%
Tax credits.....	(1,023)	5.91%	(545)	45.86%
Other.....	(1)	0.01%	64	(5.39)%
Total	\$ 16	(0.09)%	\$ (411)	34.59%

As of December 31, 2023 and 2022, the Company had no FASB ASC Topic 740-10 unrecognized tax benefits. The Company does not expect the total amount of unrecognized tax benefits to significantly increase within the next twelve months. The Company recognized interest and penalties on unrecognized tax benefits of less than \$0.1 million for the twelve months ended December 31, 2023 and 2022 in *Other expense* on our *Consolidated Statements of Loss*.

As of December 31, 2023, the Company had \$18.5 million of federal net operating loss carryforward and \$19.1 million of state net operating loss carryforwards. As of December 31, 2022, the Company had \$0.3 million of federal net operating loss carryforward and \$0.3 million of state net operating loss carryforwards. The federal net operating loss carryforward does not have an expiration date. The state net operating loss carryforwards have differing expiration dates depending on the jurisdiction. As of December 31, 2023 there was \$0.9 million of federal tax credit carryforwards and \$0.1 million of state tax credit carryforwards. The federal tax credit carryforward begins to expire in 2042 and the state tax credit carryforwards have differing expiration dates depending on the jurisdiction.

Deferred income taxes reflect temporary differences in the recognition of revenue and expenses for tax reporting and financial statement purposes, principally because certain items are recognized in different periods for financial reporting and tax return purposes.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 10 — INCOME TAXES (cont.)

The following represents the Company's deferred tax assets and liabilities as of December 31, 2023 and 2022:

(amounts in thousands)	December 31, 2023	December 31, 2022
Deferred tax assets:		
Section 197 Intangibles	\$ 27,164	\$ 27,794
Nondeductible compensation	752	2,005
Accrued bonuses	63	162
Tax credits	1,022	—
Other	5,832	385
Less: Valuation Allowance	(34,690)	(29,950)
Total deferred tax assets	\$ 143	\$ 396
Deferred tax liabilities		
Depreciation	(90)	(340)
Capitalized costs	(53)	(56)
Total deferred tax liabilities	\$ (143)	\$ (396)
Net deferred tax asset (liability)	\$ —	\$ —

Realization of deferred tax assets is dependent upon the generation of future taxable income or the existence of sufficient taxable income within the carry back period. A valuation allowance is provided when it is more likely than not that some portion of the deferred tax assets will not be realized. In assessing the need for a valuation allowance, Management considered the scheduled reversal of the deferred tax liabilities, the level of historical income, and the projected future taxable income over the periods in which the temporary difference comprising the deferred tax assets will be deductible. Based on its assessment, Management determined that a full valuation allowance is necessary as of December 31, 2023 and 2022.

The Company is subject to income tax examinations by federal, state, and local taxing authorities for tax periods ended after December 31, 2019.

NOTE 11 — LOSS PER SHARE

The following are the components and results of operations and loss per common share calculations for the periods presented:

(amounts in thousands, except share and per share data)	Twelve Months Ended December 31,	
	2023	2022
Net loss available to common shareholders	\$ (17,331)	\$ (779)
Net loss used for EPS	\$ (17,331)	\$ (779)
Weighted-average number of common shares outstanding – basic	11,574	11,942
Weighted-average number of common shares outstanding – diluted	11,574	11,942
Basic loss per common share	\$ (1.50)	\$ (0.07)
Diluted loss per common share	\$ (1.50)	\$ (0.07)

For basic loss per share, the performance shares are subject to forfeiture and they are considered share-indexed instruments and not outstanding shares until they are vested. During the twelve months ended December 31, 2023 and 2022, the vesting criteria has not been met and they are not included.

For the twelve months ended December 31, 2023, our performance shares, public warrants, and private warrants were excluded from the computation of diluted weighted average shares outstanding as the necessary conditions had not been achieved for the performance shares and the average stock price for the period was below the strike price for the warrants. The performance shares are only considered in the calculation for diluted loss per share if they are

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 11 — LOSS PER SHARE (cont.)

dilutive in nature. The performance shares are only dilutive when the average share price is greater than the strike price and when positive net income is reported. During the twelve months ended December 31, 2023, the average share price was below the strike price and these shares were not included in the diluted loss per share calculations. For the twelve months ended December 31, 2023, our performance-based RSUs were also excluded because the vesting is contingent upon the satisfaction of certain conditions which had not been achieved as of December 31, 2023. For the twelve months ended December 31, 2023, 445 of our service-based RSUs were also excluded as the effect would be antidilutive.

For the twelve months ended December 31, 2022, our performance shares, public warrants, and private warrants were excluded from the computation of diluted weighted average shares outstanding as the necessary conditions had not been achieved for the performance shares and the average stock price for the period was below the strike price for the warrants. The performance shares are only considered in the calculation for diluted loss per share if they are dilutive in nature. The performance shares are only dilutive when the average share price is greater than the strike price and when positive net income is reported. During the twelve months ended December 31, 2022, the average share price was below the strike price and these shares were not included in the diluted loss per share calculations. For the twelve months ended December 31, 2022, our performance-based RSUs were also excluded because the vesting is contingent upon the satisfaction of certain conditions which had not been achieved as of December 31, 2022. For the twelve months ended December 31, 2022, 309 of our service-based RSUs were also excluded as the effect would be antidilutive.

The following table presents the potentially dilutive shares that were excluded from the computation of diluted net loss per share of common stock:

(amounts in thousands)	Twelve Months Ended December 31,	
	2023	2022
Performance based shares	300	300
Public warrants	17,294	17,227
Private warrants	5,409	5,476
Performance-based RSUs	495	335
Service-based RSUs	445	309
Total	23,943	23,647

NOTE 12 — DISCLOSURES ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS

BMTX uses fair value measurements to determine and disclose the fair value of its financial instruments. FASB’s ASC Topic 825, *Financial Instruments*, requires disclosure of the estimated fair value of an entity’s assets and liabilities considered to be financial instruments. For fair value disclosure purposes, BMTX utilized the fair value measurement criteria under FASB ASC Topic 820, *Fair Value Measurements* (“ASC 820”).

In accordance with FASB ASC Topic 820, the fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for BMTX’s financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument.

The fair value guidance provides a consistent definition of fair value, focusing on an exit price in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. If there has been a significant decrease in the volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 12 — DISCLOSURES ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS (cont.)

such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires the use of significant judgment. The fair value is a reasonable point within the range that is most representative of fair value under current market conditions.

The fair value guidance also establishes a fair value hierarchy and describes the following three levels used to classify fair value measurements:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2: Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported with little or no market activity).

A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

The following methods and assumptions were used to estimate the fair value of BMTX's financial instruments as of December 31, 2023 and 2022:

Cash and cash equivalents

Cash and cash equivalents reported on the *Consolidated Balance Sheets* consists of non-interest bearing demand deposits, for which carrying value approximates fair value.

Accounts receivable, net

The carrying amount of accounts receivable approximates fair value because of the short-term nature of these items.

Liability for Private Warrants

The fair value of the private warrants was estimated using a modified version of the binomial lattice model incorporating the Cox-Ross-Rubenstein methodology as of December 31, 2023 and 2022. We assumed a term for the private warrants equal to the contractual term from the date of the merger with Megalith and then discounted the resulting value to the valuation date.

Among the key inputs and assumptions used in the pricing formula at December 31, 2023 were the following: a term of 2.02 years; volatility of 58%; a dividend yield of zero; an underlying stock price of \$2.05; a risk free interest rate of 4.18%; and a closing price of the public warrants of \$0.03 per share.

Among the key inputs and assumptions used in the pricing model at December 31, 2022 were the following: a term of 3.01 years; volatility of 43%; a dividend yield of zero; an underlying stock price of \$5.21; a risk free interest rate of 4.17%; and a closing price of the public warrants of \$0.52 per share.

As of December 31, 2023 and 2022, the warrant liability is classified as a Level 3 fair value based upon the lowest level of input that is significant to the fair value measurement.

NOTE 13 — RELATED PARTY TRANSACTIONS

The Company has several relationships with our Partner Banks, which are related parties of the Company. These relationships are described below.

Customers Bank

Cash management

All the Company's cash and cash equivalents are on deposit with Customers Bank.

Servicing fees and interchange income

On January 4, 2021, the Company entered into a Deposit Processing Services Agreement with Customers Bank, which provided that Customers Bank would establish and maintain deposit accounts and other banking services in connection with customized products and services offered by the Company, and the Company would provide certain other related services in connection with the accounts. Customers Bank retained any and all revenue generated from the funds held in the deposit accounts, and in exchange, paid the Company a 3% servicing fee based on average monthly deposit balances, subject to certain contractual adjustments, and a monthly interchange fee equal to all debit card interchange revenues on the demand deposit accounts, plus the difference between Durbin exempt and Durbin regulated interchange revenue.

On June 29, 2022, the Company received written notice from Customers Bank that it did not intend to renew the Deposit Servicing Agreement with the Company. The 180-day notice was given in accordance with the terms of the Deposit Servicing Agreement, as a result of which, the Deposit Servicing Agreement would terminate effective December 31, 2022.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 13 — RELATED PARTY TRANSACTIONS (cont.)

On November 7, 2022, the Company and Customers Bank entered into the DPSA Amendment to extend the Deposit Servicing Agreement termination date to the earlier of the Company's successful completion of the transfer of the Company's serviced deposits to a new partner bank or June 30, 2023. The DPSA Amendment also removed Customers Bank's obligation to pay the Company the difference between the Durbin exempt and Durbin regulated interchange revenues. The other terms of the Deposit Servicing Agreement remained in effect through the new termination date.

On March 22, 2023, the Company and Customers Bank entered into the DPSA Second Amendment. The DPSA Second Amendment, among other things, extended the termination date of the Deposit Processing Services Agreement until the earlier of (i) the transfer of the Company's serviced deposits to a Durbin exempt sponsor bank; or (ii) June 30, 2024; and revised the fee structure of the Deposit Processing Services Agreement. The other terms of the Deposit Processing Services Agreement, as amended by the DPSA Amendment, remained in effect through the new termination date.

On August 18, 2023, the Company and Customers Bank entered into a third amendment to the Deposit Processing Services Agreement (the "DPSA Third Amendment") for the Higher Education serviced deposit accounts. The DPSA Third Amendment extended the termination date of the Deposit Processing Services Agreement until the earlier of (i) the transfer of the Company's Higher Education serviced deposits to a Durbin-exempt partner bank; or (ii) April 15, 2025.

On March 22, 2023, the Company and Customers Bank entered into the 2023 Deposit Servicing Agreement, under which, effective March 31, 2023, the Company will perform, on behalf of Customers Bank, Customer Bank's services, duties, and obligations under the Private Label Banking Program Agreement (the "PLBPA") by and between Customers Bank and T-Mobile USA, Inc. that are not required by Applicable Law (as defined in the 2023 Deposit Servicing Agreement) to be provided by an FDIC insured financial institution. The obligations of the Company and Customers Bank under the 2023 Deposit Servicing Agreement are similar to those under the Deposit Processing Services Agreement; provided, however, that (i) as of March 31, 2023, the 2023 Deposit Servicing Agreement and not the Deposit Processing Services Agreement shall govern the terms, conditions, roles, responsibilities, duties, and obligations of the Company and Customers Bank with respect to the PLBPA and the Depositor Accounts (as defined in the 2023 Deposit Servicing Agreement); (ii) the Deposit Processing Services Agreement is amended to the extent necessary or advisable to effect the same, including, without limitation, such that "Depositor" under the Deposit Processing Services Agreement shall not include any T-Mobile Customer (as defined in the PLBPA); and (iii) there is a different fee structure under the 2023 Deposit Servicing Agreement from that set forth in the Deposit Processing Services Agreement. The initial term of the 2023 Deposit Servicing Agreement continues until February 24, 2025, and will automatically renew for additional one year terms unless either party gives written notice of non-renewal at least 180 days prior to the expiration of the then-current term. The 2023 Deposit Servicing Agreement may be terminated early by either party upon material breach, upon notice of an uncured objection from a regulatory authority, or by the Company upon 120 days' written notice upon the satisfaction of certain conditions.

As compensation under the 2023 Deposit Servicing Agreement, Customers Bank will retain any and all revenue generated from the funds held in the deposit accounts, and Customers Bank will pay the Company monthly servicing fees as set forth in the 2023 Deposit Servicing Agreement. In addition, the Company will have the right to retain all revenue generated by or from the Depositor Accounts (as defined in the 2023 Deposit Servicing Agreement), including, but not limited to, fees and all other miscellaneous revenues. The Company also shall retain all fees (including without limitation interchange fees), and charges generated by its ATMs and from its payment processing services. The Company will be solely liable for any and all fees, expenses, costs, reimbursements, and other amounts that are or may become due and payable under the PLBPA, including, without limitation, any Durbin-Exempt Interchange (as defined in the 2023 Deposit Servicing Agreement) fees payable to T-Mobile under the PLBPA. Customers Bank may set off any and all PLBPA Amounts against any compensation payable to the Company under the 2023 Deposit Servicing Agreement.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 13 — RELATED PARTY TRANSACTIONS (cont.)

Transition Services Agreement

On January 4, 2021, we entered into a Transition Services Agreement with Customers Bank, pursuant to which each party agreed for a period of up to twelve months to provide certain transition services listed therein to the other party. A limited number of these transition services were subsequently extended through March 31, 2022. In consideration for the services, we paid Customers Bank a service fee of \$12,500 per month, plus any expenses associated with the services.

The Transition Services Agreement included a provision for providing the Company with assistance in the establishment and administration of a 401(k) plan for the benefit of Company employees. The Customers Bank 401(k) plan is a multi-employer plan, as defined by the U.S. Department of Labor in accordance with the Employee Retirement Income Security Act of 1974, and through December 31, 2022, the Customers Bank 401(k) covered both the full-time employees of Customers Bank and the Company. The Company records its contributions to the Customers Bank 401(k) Plan in *Salaries and employee benefits* on the *Consolidated Statements of Loss*. The Company's employer contribution to the Customers Bank 401(k) Plan for the twelve months ended December 31, 2023 and 2022 totaled zero and \$0.8 million, respectively.

Other

On January 4, 2021, the Company entered into a Software License Agreement with Customers Bank which provides it with a non-exclusive, non-transferable, royalty-free license to utilize our mobile banking technology for a period up to 10 years. The Software License Agreement is cancellable by Customers Bank at any time, without notice, and without penalty, and for any reason or no reason at all. To date, Customers Bank has not utilized the Company's mobile banking technology and zero consideration has been paid or recognized under the Software License Agreement.

On January 4, 2021, the Company entered into a Non-Competition and Non-Solicitation Agreement with Customers Bank providing that Customers Bank will not, for a period of 4 years after the closing of the divestiture, directly or indirectly engage in the Company's business in the territory (both as defined in the Non-Competition Agreement), except for white label digital banking services with previously identified parties and passive investments of no more than 2% of a class of equity interests of a competitor that is publicly traded. Customers Bank also agreed not to directly or indirectly hire or solicit any employees of the Company.

On November 29, 2021, the Company entered into an agreement with Customers Bank which terminated the \$10.0 million letter of credit and gave the Company the right to any shares that were forfeited as part of the *January 4, 2021 Share-Based Compensation Award*. During the twelve months ended December 31, 2023, zero forfeited shares were reacquired by the Company from Customers Bank. During the twelve months ended December 31, 2022, 26,500 forfeited shares were reacquired by the Company from Customers Bank and 19,000 forfeited shares prior to the execution of the agreement were returned to Customers Bank.

Both the President and Executive Chairman of the Board of Customers Bank are immediate family members of the Company's CEO, and together with their spouses own less than 5.0% of the Company's outstanding common stock as of December 31, 2023 and 2022.

On March 1, 2022, the Company reached an agreement, with settlement on March 11, 2022, to reacquire 1,169,963 private warrants at a price of \$1.69 per warrant, or a total cost of \$2.0 million, from Ms. Sherry Sidhu and Mr. Samvir Sidhu, who are immediate family members of our CEO. The transaction price was established based on the range of market prices during the repurchase conversations and was approved by the Company's Audit Committee.

On April 20, 2022, the Company entered into a Special Limited Agency Agreement ("SLA") with Customers Bank that provides for marketing assistance from the Company for originating consumer installment loans funded by Customers Bank. In consideration for this marketing assistance, the Company receives certain fees specified within the SLA which are recorded as a component of *Other revenue* within the *Consolidated Statements of Loss*. During the twelve ended December 31, 2022, less than \$0.1 million of revenue was realized under the SLA. The SLA expired on December 31, 2022.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 13 — RELATED PARTY TRANSACTIONS (cont.)

Positions with Customers Bank are presented on our *Consolidated Balance Sheets* in *Accounts receivable, net, Deferred revenue, current, and Accounts payable and accrued liabilities*. The *Accounts receivable* balances related to Customers Bank as of December 31, 2023 and 2022 were \$1.4 million and \$1.4 million, respectively. The *Deferred revenue* balances related to Customers Bank as of December 31, 2023 and 2022 were \$1.3 million and \$3.8 million, respectively. The *Accounts payable and accrued liabilities* balances related to Customers Bank as of December 31, 2023 and 2022 were zero and \$3.8 million, respectively.

The Company recognized \$48.3 million and \$74.7 million in revenues from Customers Bank for the twelve months ended December 31, 2023 and 2022, respectively. Of these amounts, \$20.9 million and \$22.5 million are paid directly by MasterCard or individual account holders to the Company for the twelve months ended December 31, 2023 and 2022, respectively. These amounts are presented on our *Consolidated Statements of Loss* in *Total operating revenues*.

The Company recognized zero and less than \$0.1 million of expenses from Customers Bank for the twelve months ended December 31, 2023 and 2022, respectively. These amounts are presented on our *Consolidated Statements of Loss* in *Total operating expenses*.

First Carolina Bank

Deposit Servicing Agreement for Higher Education

On March 16, 2023, the Company entered into a Deposit Servicing Agreement (the “FCB Deposit Servicing Agreement”) with a new partner bank, First Carolina Bank, a North Carolina chartered, non-member community bank (“FCB”), which provides that FCB will establish and maintain deposit accounts and other banking services in connection with customized products and services offered by the Company to its Higher Education institution clients, and the Company will provide certain other related services in connection with the accounts. FCB retains any and all revenue generated from the funds held in the deposit accounts, and in exchange, pays the Company a deposit servicing fee that is based on a calculation provided by the terms in the FCB Deposit Servicing Agreement, based on average monthly deposit balances and subject to certain contractual adjustments, and a monthly interchange fee equal to all debit card interchange revenues on the demand deposit accounts, minus an interchange share percentage.

On August 20, 2023, the Company and FCB entered into an amendment to the FCB Deposit Servicing Agreement (the “FCB DPSA First Amendment”). The FCB DPSA First Amendment, among other things, (i) extends the initial term from four years to five years after the effective date, (ii) provides that FCB will work with the Company and Customers Bank on the timely transfer of existing student depositor accounts on or before the effective date, and as agreed to by the parties, and (iii) amends the effective date to be the date on which FCB takes on deposits from the existing student depositor accounts.

The FCB Deposit Servicing Agreement and Amendment thereof may be terminated early by either party upon material breach, by either party upon notice that the continuation of the Depositor Program violates Applicable Law or Network Rules (as defined in the FCB Deposit Servicing Agreement); by FCB if a regulatory authority determined that the performance of its obligations under the FCB Deposit Servicing Agreement was not consistent with safe and sound banking practices; by either party upon the other party commencing or being subject to certain bankruptcy proceedings; and by the Company should it experience a change in control on or after March 16, 2026.

On December 1, 2023, the Company and FCB completed the transfer of existing student depositor accounts from Customers Bank to FCB.

Positions with FCB are presented on our *Consolidated Balance Sheets* in *Accounts receivable, net, Deferred revenue, current, and Accounts payable and accrued liabilities*. The *Accounts receivable* balance related to FCB as of December 31, 2023 was \$0.2 million. The *Deferred revenue* balance related to FCB as of December 31, 2023 was \$7.4 million. The *Accounts payable and accrued liabilities* balance related to FCB as of December 31, 2023 was zero.

The Company recognized \$3.4 million in net revenues from FCB for the twelve months ended December 31, 2023, which is presented on our *Consolidated Statements of Loss* in *Total operating revenues*.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 14 — RESTRUCTURING ACTIVITIES

On January 26, 2023, and in connection with our previously announced near-term strategy to focus on being an innovative, efficient, risk oriented fintech with a partner bank model, the Company committed to a targeted Profit Enhancement Plan (the “PEP”) that is intended to reduce operating costs, improve operating margins, improve operating cash flow, and continue advancing the Company’s ongoing commitment to profitable growth and continued innovation, and direct the Company’s resources toward its best opportunities.

Included within the PEP was a targeted reduction of the Company’s 2023 employee workforce of approximately 25% as compared to its headcount at December 31, 2022. This workforce reduction was in addition to targeted spend reduction and service provider rationalization.

The Company completed a workforce reduction of 58 employees during the twelve months ended December 31, 2023. The Company’s workforce reduction expenses, consisting of severance and other termination benefits for the twelve months ended December 31, 2023, totaled \$1.0 million and are recorded in *Restructuring, merger, and acquisition related expenses* on the *Consolidated Statements of Loss*. \$0.2 million of these expenses were incurred but not paid at December 31, 2023 and are included in *Accounts payable and accrued liabilities* on the *Consolidated Balance Sheets*.

NOTE 15 — IMMATERIAL CORRECTION OF PRIOR PERIOD ERROR

In accordance with FASB ASC Topic 606, *Revenue from Contracts with Customers*, the Company presents its interchange and card revenue net of related interchange expenses as it is deemed to be agent in these contracts. During the preparation of its December 31, 2023 consolidated financial statements, the Company identified an immaterial error in its accounting for certain of its interchange expenses for the three months ended March 31, 2023, three months ended June 30, 2023, and the three months ended September 30, 2023, reflecting the impacted revenues gross instead of net as required. The effect of these errors:

- Overstated *Interchange and card revenue* and *Technology, communication, and processing* expense by an equal and offsetting \$0.1 million during the three months ended March 31, 2023,
- Overstated *Interchange and card revenue* and *Technology, communication, and processing* expense by an equal and offsetting \$0.3 million during the three months ended June 30, 2023, and
- Overstated *Interchange and card revenue* and *Technology, communication, and processing* expense by an equal and offsetting \$0.4 million during the three months ended September 30, 2023.

The impact of these errors had no effect on *Net loss*.

The Company assessed the materiality of these errors on the interim period consolidated financial statements in accordance with SEC Staff Accounting Bulletin No. 99, “Materiality,” (ASC Topic 250, *Accounting Changes and Error Corrections*). Based on this assessment, the Company concluded that these error corrections in its *Consolidated Statements of Loss* are not material to any previously presented consolidated financial statements. The correction had no impact on the *Consolidated Balance Sheets*, *Consolidated Statements of Changes in Shareholders’ Equity*, *Consolidated Statements of Cash Flows*, or *Notes to the Consolidated Financial Statements*, other than *Note 9 — Revenues* and *Note 13 — Related Party Transactions*, for any previously presented interim period. The financial reporting periods affected by this error include the Company’s previously reported interim consolidated financial statements for each of the year-to-date periods ended March 31, 2023, June 30, 2023, and September 30, 2023. In addition, the Company expects to present the corrected interim 2023 amounts in its 2024 interim consolidated financial statements upon the filing of each of its Quarterly Reports on Form 10-Q on a year-to-date basis as a correction to the applicable 2023 period.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 16 — SUBSEQUENT EVENTS

Changes to Executive Management

On February 5, 2024, James Dullinger, the Company's current Chief Financial Officer, provided notice to, and the Company mutually agreed to not to renew Mr. Dullinger's existing Employment Agreement dated January 26, 2023 (as amended, the "Dullinger Agreement") upon its expiration on March 31, 2024.

On March 26, 2024, the Company's Board of Directors approved the extension of Mr. Dullinger's service as Chief Financial Officer and the Company and Mr. Dullinger executed a second amendment to Mr. Dullinger's Employment Agreement providing for the extension of Mr. Dullinger's employment as Chief Financial Officer of the Company through April 5, 2024, payment of an extension bonus, payment for earned paid time off, and deletion of non-compete restrictions (the "Dullinger Amendment").

On February 5, 2024, the Company appointed Ajay Asija to serve as Deputy Chief Financial Officer effective February 5, 2024 for a transition period, and as Chief Financial Officer, effective April 1, 2024. In conjunction with the appointment, the Company and Mr. Asija entered into an employment agreement (the "Asija Agreement") which provides for:

- An annual base salary of not less than \$275,000;
- Potential for annual cash and equity incentive compensation in an amount, form, and at such time as provided in executive incentive plans as approved by the Board of Directors from time to time;
- Severance compensation for up to one year's compensation based upon then-current base salary, plus average annual performance bonus over the preceding three years, together with vesting of certain awards in the event of a termination of Mr. Asija's employment without cause or by Mr. Asija for good reason as those terms are defined in the Asia Employment Agreement;
- Automatic vesting of 50% of equity awards if employment is terminated by Mr. Asija for good reason within the initial term of one (1) year; or if such termination occurs within 12 months of a change in control;
- Automatic vesting of all equity awards if employment is terminated by the Company without cause; or if employment is terminated by Mr. Asija for good reason after the initial term of one (1) year;
- Customary non-disclosure, non-compete, and non-disparagement provisions; and
- A term of one (1) year commencing on February 5, 2024, and renewing automatically on each one (1) year anniversary for an additional term of one (1) year, unless either party delivers notice to the contrary to the other party at least sixty (60) days prior to such one (1) year anniversary.

In addition, and in connection with Mr. Asija's appointment to Chief Financial Officer, the Company awarded Mr. Asija 300,000 restricted stock units under an Inducement Award Agreement (the "Inducement RSUs") with a grant date of February 5, 2024. Of the Inducements RSUs, 50% are service-based, one-fourth of which will vest on each anniversary of the vesting commencement date over a four-year period, in each case subject to Mr. Asija's continued employment with the Company until such respective vesting date. The remaining 50% are performance-based, based on the attainment of performance criteria as specified in the Inducement Award Agreement, and subject to a vesting schedule where shares are earned based on performance within the first three years, evaluated at each quarter-end following the grant date, provided no shares of Company common stock will be paid out until at least the third anniversary of the grant date.

In connection with the Dullinger Amendment, the Company and Mr. Asija entered into a first amendment (the "Asija Amendment") to the Asija Agreement to modify the effective date on which Mr. Asija will assume the role as the Company's Chief Financial Officer, from April 1, 2024 to April 6, 2024.

BM TECHNOLOGIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 16 — SUBSEQUENT EVENTS (cont.)

Cancellation and Replacement of Performance-based Restricted Stock Units

On February 6, 2024, Luvleen Sidhu, the Company’s Chief Executive Officer, and Jamie Donahue, the Company’s President and Chief Technology Officer (collectively, the “Covered Executives”), entered into a letter agreement with the Company (the “RSU Cancellation Agreement”), pursuant to which each Covered Executive and the Company mutually agreed to the cancellation of the unvested performance-based restricted stock unit awards previously granted to the Covered Executives effective September 30, 2021.

The RSU Cancellation Agreement was entered into by the Covered Executives in consideration for their continued employment and for the Company’s issuance of new performance-based restricted stock units in such amounts as approved by the Compensation Committee of the Board of Directors with modified performance-based vesting criteria, in accordance with the terms of the 2020 Equity Incentive Plan, as amended.

On February 5, 2024, the Company granted service-based and performance-based restricted stock units under the Company’s 2020 Equity Incentive Plan, as amended, to certain officers of the Company, inclusive of the new performance-based restricted stock units issued to the Covered Executives in connection with the RSU Cancellation Agreement.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURES

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our Management, including our Chief Executive Officer and our Chief Financial Officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures (as such term is defined in Exchange Act Rule 13a-15(e)) as of December 31, 2023.

Based on this evaluation, Management concluded that, as of December 31, 2023, the Company's disclosure controls and procedures were not effective due to a material weakness in our internal control over financial reporting. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. The material weakness we identified is discussed in "*Management's Annual Report on Internal Control Over Financial Reporting*" below.

Management's Annual Report on Internal Control over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting (as such term is defined in Exchange Act Rule 13a-15(f)). The Company's internal control over financial reporting was designed by, or under the supervision of, the Company's principal executive and principal financial officers and effected by the Company's Board of Directors, Management, and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements in accordance with U.S. GAAP.

As of December 31, 2023, Management assessed the effectiveness of the Company's internal control over financial reporting based on the criteria for effective internal control over financial reporting established in "Internal Control-Integrated Framework," issued by the Committee of Sponsoring Organizations ("COSO") of the Treadway Commission in 2013. Our evaluation included a review of the documentation of controls, evaluations of the design of the internal control system, and tests of the effectiveness of internal controls.

Based on our assessment, Management concluded that, as of December 31, 2023, the Company's internal control over financial reporting was not effective, as Management did not adequately design and implement effective control and monitoring activities to ensure the accuracy and completeness of our reported serviced deposit account balances and related revenue account balances which impacts multiple business processes, including the financial reporting process. This material weakness was due in part to deficiencies in our reporting process, including (1) errors in the accounting for serviced deposit overdrafts and provisional customer credits, (2) temporary misapplication of funds between our Partner Banks upon the transition of our Higher Education serviced deposit accounts, (3) lack of sufficient documentation supporting certain serviced deposit account journal entries, and (4) delays in completing account reconciliations and financial statements for certain serviced deposit account balances and activity.

The material weakness did not result in a material misstatement of our annual or interim financial statements or previously released financial results.

Remediation

Management is committed to improving its internal controls and remediating the material weakness described above as quickly as possible. Management has been actively engaged in the implementation of remediation plans to address the controls that contributed to the material weakness. During the first quarter of 2024, we initiated, and will continue to implement, measures designed to remediate the deficiencies that comprised the material weakness, and improve our internal control over financial reporting, including:

- The addition of personnel to the deposit servicing and accounting function who have more extensive functional and technical training and experience. Management will continue to utilize these new personnel to perform a comprehensive review and enhancement of its deposit servicing and accounting policies and procedures.

- Strengthening our deposit servicing and accounting controls with improved policy and procedure documentation, employee education and training, additional management oversight, and the performance of regular evaluations by the Company’s internal audit function to ascertain whether the components of internal control over financial reporting are present and functioning effectively.
- The enhancement of documented policies and procedures to ensure that a risk assessment is appropriately performed when changes to existing information technology systems and/or business processes are taking place, to identify and assess risks of material misstatement with changes to existing controls, and to ensure that the processes and related internal controls are in place to respond to those risks in our internal control over financial reporting.

We believe that the foregoing measures will remediate the identified material weakness, although Management is continuing to assess the need for any additional steps to remediate the underlying causes that gave rise to the material weakness. The material weakness will not be considered remediated, however, until the applicable controls operate for a sufficient period-of-time, and Management has concluded, through testing, that these controls are operating effectively. There is no assurance that additional remediation steps will not be necessary. We anticipate the remediation of the material weakness will be fully implemented and validated by the end of the third quarter of 2024.

Even once remediated, our internal controls over financial reporting may not prevent or detect all misstatements because of their inherent limitations. Further, no internal control over financial reporting framework can provide absolute assurance that all instances of fraud will be detected and prevented. Additionally, any projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, see Item 1A — “Risk Factors.”

Changes in Internal Control Over Financial Reporting

Except for the material weakness described above, there have been no other changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during the fourth quarter of the year ended December 31, 2023 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

This Annual Report on Form 10-K does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Management’s report was not subject to attestation by our independent registered public accounting firm pursuant to applicable rules that permit us to provide only Management’s report in this annual report.

ITEM 9B. OTHER INFORMATION

Rule 10b5-1 and Non-Rule 10b5-1 Trading Arrangements

Rule 10b5-1 under the Exchange Act provides an affirmative defense that enables prearranged transactions in securities in a manner that avoids concerns about initiating transactions at a future date while possibly in possession of material nonpublic information. Our Insider Trading Policy was amended during the Company’s quarter ended December 31, 2023. The Company’s updated Insider Trading Policy permits our executive officers to enter into trading plans designed to comply with Rule 10b5-1. None of the Company’s directors or officers adopted or terminated a Rule 10b5-1 trading arrangement or a non-Rule 10b5-1 trading arrangement during the Company’s quarter ended December 31, 2023.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not Applicable.

Part III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS, AND CORPORATE GOVERNANCE

The information required by this Item will be contained in, and is hereby incorporated by reference from the 2024 Proxy Statement.

ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The information required by this Item will be contained in the 2024 Proxy Statement under the heading “Executive Compensation” which is incorporated by reference herein.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNER AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this Item will be contained in the 2024 Proxy Statement under the heading “Security Ownership of Certain Beneficial Owners and Management” which is incorporated by reference herein.

Equity Compensation Plan Information

The following table provides information, as of December 31, 2023, with respect to shares of our common stock that may be issued, subject to certain vesting requirements, under existing and future awards under our 2020 Equity Incentive Plan, as amended. The following table also provides information, as of December 31, 2023, with respect to shares of our common stock that we may sell to our employees under our 2021 Employee Stock Purchase Plan.

	A	B	C
	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants, Rights, and RSUs.	Weighted-Average Exercise Price of Outstanding Options, Warrants, Rights, and RSUs.	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column (A))
Plan Category			
Equity compensation plans approved by security holders	940,106 ⁽¹⁾	N/A	1,679,149 ⁽²⁾
Equity compensation plans not approved by security holders . . .	—	—	—
Total	940,106		1,679,149

- (1) Represents RSU grants under our 2020 Equity Incentive Plan, as amended.
- (2) Represents 1,179,149 shares of common stock available for issuance under our 2020 Equity Incentive Plan, as amended, and 500,000 shares of common stock available for issuance under our 2021 Employee Stock Purchase Plan.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by this Item will be contained in the 2024 Proxy Statement under the headings “Certain Relationships and Related Party Transactions” and “Corporate Governance-Director Independence” which are incorporated by reference herein.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The information required by this Item will be contained in the 2024 Proxy Statement under the heading “Appointment of Independent Registered Public Accounting Firm” which is incorporated by reference herein.

Part IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

- a. The following documents are filed as part of, or incorporated by reference into, this Annual Report on Form 10-K:
1. *Financial Statements.* See Index to Financial Statements under Item 8 of this Annual Report on Form 10-K.
 2. *Financial Statement Schedules.* All schedules have been omitted because the information required to be presented in them is not applicable or is shown in the financial statements or related notes.
 3. *Exhibits.* The exhibits required to be filed by Item 601 of Regulation S-K are listed in the Exhibit Index immediately preceding the signature pages to this Annual Report on 10-K, which is incorporated herein by this reference.

ITEM 16. FORM 10-K SUMMARY

None.

EXHIBIT INDEX

Exhibit No.	Description
2.1†	Agreement and Plan of Merger, dated August 6, 2020, by and among Megalith, Merger Sub, BankMobile, and Customers Bank (incorporated by reference to the Company's Form 8-K, filed with the SEC on August 6, 2020).
2.2†	First Amendment to Agreement and Plan of Merger, dated November 2, 2020, by and among Megalith, Merger Sub, BankMobile, Customers Bank, and Customers Bancorp (incorporated by reference to the Company's Form 8-K, filed with the SEC on November 2, 2020).
2.3†	Second Amendment to Agreement and Plan of Merger, dated December 8, 2020, by and among Megalith, Merger Sub, BankMobile, Customers Bank, and Customers Bancorp (incorporated by reference to the Company's Form 8-K, filed with the SEC on December 8, 2020).
3.1	Second Amended and Restated Certificate of Incorporation of the Company (incorporated by reference to the Company's Form 8-K, filed with the SEC on January 8, 2021).
3.2	Amended and Restated Bylaws of the Company (incorporated by reference to the Company's Form 8-K, filed with the SEC on January 8, 2021).
4.1	Specimen Common Stock Certificate (incorporated by reference to Exhibit 4.2 to Megalith Financial Acquisition Corporation's Form S-1/A, filed with the SEC on August 16, 2018).
4.2	Specimen Warrant Certificate (incorporated by reference to Exhibit 4.3 to Megalith Financial Acquisition Corporation's Form S-1/A, filed with the SEC on August 16, 2018).
4.3†	Description of Registrant's Securities Registered Pursuant to Section 12 of the Securities Exchange Act of 1934.
10.1	Registration Rights Agreement, dated August 23, 2018, by and among the Company and the initial security holders (incorporated by reference to Megalith's Form 8-K, filed with the SEC on August 29, 2018).
10.2†	Software License Agreement, dated January 4, 2021, by and between Customers Bank and the Company (incorporated by reference to the Company's Form 8-K, filed with the SEC on January 8, 2021).
10.3	Non-Competition and Non-Solicitation Agreement, dated January 4, 2021, by and between the Company and Customers Bank (incorporated by reference to the Company's Form 8-K, filed with the SEC on January 8, 2021).
10.4+	Employment Agreement with Luvleen Sidhu, dated January 4, 2021 (incorporated by reference to the Company's Form 8-K, filed with the SEC on January 8, 2021).
10.5	Form of Indemnification Agreement between the Company and certain officers and directors of the Company (incorporated by reference to the Company's Form 8-K, filed with the SEC on January 8, 2021).
10.6+	Employment Agreement with Jamie Donahue, dated September 15, 2021 (incorporated by reference to the Company's 10-K, filed with the SEC on May 10, 2022).

Exhibit No.	Description
10.7+	Form of BM Technologies, Inc. Time Vesting RSU Award Agreement (incorporated by reference from the Company's Form S-8 filed September 29, 2021).
10.8+	Employment Agreement with James Dullinger, Dated January 26, 2023 (incorporated by reference to the Company's Form 10-Q, filed with the SEC on May 20, 2023).
10.9†	2023 FCB Deposit Servicing Agreement, dated March 16, 2023, by and between the Company and First Carolina Bank. (incorporated by reference to the Company's Form 10-Q, filed with the SEC on May 20, 2023).
10.10†	2023 Deposit Processing Services Agreement, dated March 22, 2023, by and between the Company and Customers Bank (incorporated by reference to the Company's Form 10-Q, filed with the SEC on May 20, 2023).
