PROBLEM

CASINOS GIVE AWAY 25% OF THEIR REVENUE¹

Casinos want people to play slot machines as long as possible, but they give away 25% of operating revenues in “free plays” to do it. This “one size fits all” approach not only wastes billions, the experience for the gamers is more impersonal than ever. Despite tech now being molded by AI, casinos remain antiquated – leaving money and goodwill on the table.

on the table.

SOLUTION

OUR AI-POWERED SOLUTIONS BOOST CASINO REVENUE

Our patented AI-powered system collects 1,000X the amount of data as conventional systems. By evaluating player experiences in real-time, it maximizes each person's time spent via custom deals like cash rewards, free meals, or personalized recognition when needed. This not only boosts player satisfaction and casino revenues, it reduces operational costs.
